You Gotta Hear This One!

I seldom if ever use anything for my column from the internet, but a friend sent this one and it's too good to pass up.

If you weren't feeling old today, this will change things. Beloit College in Wisconsin puts together a list for their faculty to help get a mindset of the incoming freshmen. Here goes.

The students who started college this fall were born in 1982. They have no meaningful recollection of the Reagan Era. They were prepubescent when the Persian Gulf War was waged and Black Monday, 1987 is about as significant to them as the Great Depression. They were 11 when the Soviet Union broke apart. They do not remember the Cold War.

They are too young to remember the space shuttle blowing up.

Their lifetime has always included AIDS.

They do not understand "you sound like a broken record" They have never owned a record player.

They probably have never heard of a 8 track, and never seen a TV with only 13 channels, and probably not a black and white TV.

They have always had cable and VCRs, and can't fathom not having a remote control.

Roller skating has always been in-line.

Popcorn is always cooked in the microwave.

The Vietnam War is as ancient history to them as WWI, WWII and the Civil War.

They never heard "Where's The Beef?", "I'd walk a mile for a Camel" or "de plane, de plane". They do not care who shot JR because they don't know who JR is.

Kansas, Chicago, Boston, America and Alabama are place, not groups.

There has always been MTV in their life and they don't have a clue how to use a typewriter.

Now, just how young are you feeling?

Give Thanks

First among the things to be thankful for is a thankful spirit. Some people would grumble at the accommodations in Heaven if they ever got there. They take their blessings here so much as a matter of course, that even a day of general thanksgiving once in a year is more than they feel any need of. And if their personal blessings in any measure fail, gratitude for what they have had or still enjoy is the last thing they think of. Another class really desire to be thankful, but they are naturally despondent. Their sky is dark with clouds. They go through the world in a deprecating spirit, hoping things may turn out well yet fearing for the worse. We always feel glad for this class when Thanksgiving Day comes around. They then have an official warrant for gratitude. If their own hearts do not formulate blessings, they can listen to the sermon, or look to the President's proclamation.

How different with the thankful heart! What a gift it is to be born with an outlook toward the bright side of things! And if not so by nature, what a triumph of grace to be made thankful through a renewed heart! It is so much more comfortable and rational to see what we have to be thankful for and to rejoice accordingly, than to have our vision for ever filled with our lacks and our needs.

Happy are they who possess this gift! Blessings may fail and fortunes vary, but the thankful heart remains. the happy past, at least is secure-and Heaven is ahead. *Golden Rule*

Country Cooking

By Liz Irwin

Well, it seems that the inevitable is upon us. Another year is quickly coming to an end and you know what that means! Santa is coming to town. . .and Santa always likes sweet treats! I looked and looked and came up with some really great candy recipes for everyone. . .I hope you will like them!

Did you know that the idea of a sweet treat was first invented by the cavemen who ate honey from bee hives?

During ancient times, the Egyptians, the Arabs and the Chinese prepared confections of fruit and nuts candied in honey.

In Europe during the Middle Ages, the high cost of sugar made sugar candy a delicacy available only to the wealthy.

Boiled sugar candies were enjoyed in the 17th century in England and in the American Colonies.

Candy is made simply by dissolving sugar in water. The different heating levels determine the types of candy. Hot temperatures make hard candy, medium heat will make soft candy and cool temperature will make chewy candy.

Sweet-making developed rapidly into an industry during the early nine-

teenth century through the discovery of sugar beet juice and the advance of mechanical appliances. Homemade hard candies, such as peppermints and lemon drops become popular in America during that time.

By the mid-1800's, over 300 American factories were producing candy, primarily "penny candy", which was sold loose from glass cases in general stores.

Today, Americans consume 11.8 pounds of sugar candy per capita each year.

Okay, now that is your history lesson. . .or should I say. . .candy lesson for the week.

We hope you enjoy these recipes, check out the candy table at the bottom and **WE WILL SEE YOU IN THE KITCHEN!**

Temperatures and Test for Candy	
230-234 degrees	thread
234-240 degrees	soft stage
244-248 degrees	firm ball
250-266 degrees	hard ball
270-290 degrees	soft crack
300-310 degrees	hard crack

Golden Fudge-I know that everyone has their favorite fudge recipe, but here is one that has a variety of different ingredients to make seven varieties!

Nutty Clusters-these are very addictive. . .but you can't eat just one!

Rudolph's Antlers-let the kids help you make these. . .they are simple and not such a mess to bother with!

Christmas Turtle Candies-these make great Christmas gifts for anyone! The recipe calls for shortening, I like to use a quarter of a square of paraffin instead melted with the chocolate chips!

Almond Brittle-just like peanut brittle, but with a little different taste!

Snow Candy-it probably won't snow on Christmas. . .but we can dream can't we?

Golden Fudge
1 cup evaporated milk or whipping cream
1/2 cup water
1/4 cup light corn syrup
3 tablespoons butter
3 cups granulated sugar
1/2 teaspoon salt
1 teaspoon vanilla

Butter an 8-inch baking pan and set aside. In heavy 4-quart saucepan, combine milk, water, corn syrup, butter, sugar and salt. Place over medium-high heat and stir with a wooden spoon until mixture comes to a boil. If sugar crystals are present, wash clean sides of pan with a wet pastry brush. Clip candy thermometer; stirring constantly, cook to 238 degrees (115C) or soft-ball stage. Remove from heat. Without stirring, pour vanilla over mixture. Leaving thermometer in the pan, cool mixture to 110F (45C). Remove thermometer. Using wooden spoon, stir mixture for several minutes until it starts to thicken and loses its gloss. Scrape into prepared pan. Refrigerate 4 hours or until firm. For varieties add:

Cherry-Cut 32 candied cherries in half. Mark fudge into 1-inch pieces. While fudge is still warm, place cherry half on top of candy.

Nut-Stir in 1 cup walnuts, pecans or peanuts before pouring fudge into pan.

Cherry-Nut-Stir in 1/2 cup chopped candied cherries and 1/2 cup chopped nuts before pouring into pan.

Coconut-Stir in 3/4 cup coconut before pouring into pan.

Pineapple-Coconut-Stir in 1/3 cup candied pineapple, 1/2 teaspoon pineapple extract and 1/2 cup coconut before pouring fudge into pan.

Lemon or Orange-Stir in 1 teaspoon lemon or orange extract and 4 drops food coloring before pouring fudge into pan.

Nutty Clusters
6 squares chocolate almond bark
1/2 cup semi-sweet chocolate morsels
2 tablespoons peanut butter
2 cups peanuts or mixed nuts

Combine chocolate almond bark, chocolate morsels and peanut butter in heavy saucepan. Cook over low heat, stirring occasionally until melted. Pour nuts in; stir well. Drop by tablespoons onto waxed paper. Freeze for a few minutes and set quickly. Store in a tightly covered container in the refrigerator. Makes 2 dozen pieces.

Rudolph's Antlers
1 cup semi-sweet chocolate chips
1/2 cup butterscotch chips
3 ounce can chow mein noodles
12 marachino cherries-halved

Melt chocolate and butterscotch pieces together in a medium saucepan over low heat; stir occasionally. Remove from heat and stir in noodles. Using two teaspoons, on waxed paper-lined cookie sheet, shape about 1 tablespoon of mixture into v-shape cookie to resemble antlers. Chill for 1-2 hours until firm. Store in refrigerator in covered container.

Christmas Turtle Candy
4 ounce pecan halves
24 individually unwrapped caramels
1 teaspoon shortening
1 cup semi-sweet chocolate chips

Preheat oven to 300 degrees. Cover cookie sheet with aluminum foil, shiny side exposed. Lightly grease foil with vegetable spray. Place pecan halves in a "Y" shape on foil. Place a caramel in the center of each "Y". Bake just until caramel is melted, about 9-10 minutes. Heat melted shortening and chocolate over low heat just until chocolate is melted. Spread over candies and refrigerate for 30 minutes.

Almond Brittle
1 cup sugar
1/2 cup light corn syrup
1/2 cup water
1/4 teaspoon salt
1 tablespoon butter or margarine
1 cup whole unblanched almonds or peanuts
1 teaspoon baking soda

Combine sugar, syrup, water, salt and butter in large saucepan. Cook, stirring constantly, until sugar dissolves. Cover pan for 1 minute and allow steam to wash down the sugar crystals that cling to the sides of the pan or wipe down with damp cloth. Uncover pan, insert candy thermometer. Cook without stirring until candy thermometer reaches 270 degrees (soft-crack stage). Remove from heat; stir in almonds; return to heat. Continue cooking until thermometer reaches 300 degrees (hard crack stage). Remove from heat and stir in baking soda. Let foaming syrup settle just a bit, then quickly pour out onto a well-buttered large cookie sheet and stretch out as thin as possible with the aid of two forks. Cool completely and break into pieces. Store 2-3 weeks tightly in covered containers. Separate layers with plastic wrap.

Snow Candy
1 pound white bark candy
1 pound salted nuts
2 cups crispy rice cereal

Melt candy in a double broiler. Add nuts and cereal. Mix well. Spoon onto waxed paper. Refrigerate until firm. Break into pieces; store in air-tight containers.

Rebels host Bonham in first home game of season

The Rivercrest Rebel 9th grade, JV and Varsity boys basketball teams played host to the Bonham Warriors in their first home games of the season Friday night.

In the first game of the year for the 9th grade team, they trailed 5-8 after one quarter. In the second, Micah Challoner made a nice save of the ball from out of bound and Chance Belcher made the score to catch the Rebels up but at the buzzer they were down 25-13.

In the last half minor errors ate away at the Rebels and they were held to only 3 scores, 2 of which were free shots, in the third. The final score was 40-21 Bonham. The young Rebels have obvious talent and as the season progresses fans should see wins for the team. High scorer for the game was Chance Belcher followed by Calan Wilcox. Also scoring were Micah Challoner, Jeremy Ward, Josh Weatherall and Chance Crawford.

In the JV game the Warriors took

the first tip of the ball and held the lead after one quarter. The Rebels took many shots, but, missed their mark and fell behind 14-27 by the half time.

In the final quarters the team settled down and began a scoring drive. The Warrior offense also continued to score. Final 48-34 Warriors. High scorer for the team was Jared Huddleston followed by Josh Cabell. Also scoring were Ryan Newton, Zach Perry, Justin Exum and Dustin Jones.

The Rebel Varsity began the last game of the evening strong. And even though they were a bit rusty held a 12-2 lead after one quarter. The Warriors were in hot pursuit in the second and moved a bit closer but still trailed 19-26 at the half.

In the third quarter the Rebels slacked off and the Warriors moved within 5 points. Michael Galloway made a slam dunk which thrilled Rebel fans and the quarter ended 40-27 Rebels. The final quarter saw the

pace pick up on and the Rebels added 15 points while the Warriors netted 10. Steven Shade put the last score on the board for the Rebels giving them a 55-37 win. High scorer for the game was Keith Hines followed by Chase Collins. Also scoring were Michael Galloway, Kyle Stansell, Clinton Cheatwood, Kerry Posey and Steven Shade.

On Saturday the Rebels JV and Varsity hosted Brock. Both teams were defeated, the varsity's coming on a last second three pointer from Brock which also drew a foul. The one point loss will keep the Rebel team humble and may pay off down the line when they go into the play-offs.

All 3 Rebel teams will play Saturday, Nov. 25 at Clarksville beginning at 4:30 p.m. Come out and support the Rebels as they work their way into district play and up the ladder to STATE!

GENE DUFFIE-displays a stringer full of trout caught at a private lake near his home in Colorado. One of the larger fish was a golden trout which is a rare catch. The others are rainbow trout. Gene and his wife, Dianne and sons Shane, Gary and B.W. are former Talco residents.

Happiness is a butterfly, which when pursued is always just beyond your grasp, but which, if you will sit down quietly, may alight upon you.

FOOT NOTES

Fungal Infections
 Shoes and socks create a dark, moist environment for the feet, making them especially susceptible to fungal infections. Various kinds of fungi are prevalent everywhere, and most are harmless unless they penetrate the skin. A fungus can penetrate a minor cut or cause the toenail to separate from its bed after an injury or repeated irritation. Fungus may cause the nail to thicken and turn brownish or yellow. As it grows, a foul smelling, moist debris can be seen. The toe may hurt because of pressure on the thickened nail or the buildup of debris. Early treatment is best as the accumulation of debris can lead to an ingrown nail or more serious infection that can spread past the foot.
 Are you plagued by foot fungi or any other unpleasant foot condition? One of the best things you can do to take good care of your feet is to treat them to regular professional podiatric care. With all they do for you, we feel your feet deserve it. At **DOCTOR'S FOOT CLINIC** we'll do all we can to teach you how, together as a team, we can keep the smile in your step. Please call our patient friendly office for an appointment time at 784-5585.

 P.S. To reduce the pain associated with thickened, infected toenail, a doctor may file the nail plate down, thinning it. Oral and topical medications may also be prescribed to treat the symptoms.
