

DPS To Experiment With Drivers License Issuance

The Department of Public Safety will launch an experimental across-the-counter instant issuance system of Texas drivers licenses in January in 28 selective towns and communities.

Colonel Wilson E. (Pat) Speir, DPS director, said the experiment would open in the North Austin District Office effective January 3. Other license issuance changes will be completed by January 13.

Speir said the experimental pilot project will be conducted in widely separated stations throughout the state. "Special camera equipment will be used on a comparison basis. The equipment has the capability of immediate production of a photo driver license after the applicant has established eligibility and qualified for a license," he added.

Speir added that the applicant will then receive a validated photo drivers license before leaving the examining station. He will not have to wait 20 to 30 days for the license to be mailed nor will it be necessary for the licensee to drive on a temporary paper permit until the license is issued from the central DPS facility in the Capital City.

"We are constantly trying to upgrade the licensing system and we hope that this experiment will prove to be a more convenient service to the public than the central issuance system which we now use," Speir emphasized.

He added that a careful evaluation will be made between the experimental instant across-the-counter photo licensing system and the present central issuance system in order to upgrade the total program in the future.

Speir said a second phase—in 27 other Texas cities and communities—will be initiated in late spring.

He added that the experimental issuance policy will continue for a two-year period, after which time the contract will be considered for a statewide across the counter issuance program.

During the two-year trial period, two corporations—Polaroid, with home offices in Cambridge, Mass., and DEK—Electro, from Fort Wayne, Ind.—are establishing instant issuance systems.

At the same time the experimental issuance program is operational in limited sections of the state, the central issuance program in Austin is undergoing changes as well which will improve the quality of the portraits and the driver license.

Speir said Polaroid cameras will be operational in January at Fort Worth, Garland, Beaumont, Anahuac, Winnie, Kountze, Angleton, Corpus Christi, Victoria, Abilene, Big Spring, Lubbock,

And, Post, Slaton, Tahoka, North Austin, Meridian, West, McGregor, Hubbard, Mart, Mexia, Marlin, Groesbeck, Bastrop, Smithville, Giddings and Elgin.

The second phase of the program—planned now for early spring—will have DEK cameras functioning at the following 27 different towns:

Irving, Tyler, Mt. Pleasant, West Bellfort (Houston), Pierce, Harlingen, McAllen, Devine, Hondo, Bandera, Midland, San Angelo, Ozona,

Also, Sonora, Mertzon, Rock Springs, Big Lake, Eldorado, Plainview, Borger, Vernon, Seymour, Quanah, Crowell, South Austin, Waco and Palestine.

There are now more than eight million licenses in Texas with about three million new, renewals or duplicate licenses issued annually. Last year, Speir said, the 55 towns to be involved in the instant issuance program combined to issue 1.1-million driver licenses.

When the program is initiated, it will provide better, quicker service to the driving public. Also, Speir added, it will lower the mailing costs to the Department. Renewal notices will continue to be mailed about a month prior to expiration of licenses, he noted.

Mr. and Mrs. Charles Sarchet and Ken spent Christmas in the home of their mother and grandmother, Mrs. J. M. Hill, in Tulia. Mr. and Mrs. Jim Hill, Brad and Brian, of Tulia joined them there for the holidays.

There will be three games in the Silverton gym, beginning at 5:00 p.m.

Gunshot Wounds Silverton Man

Johnny Dean Baird, 31, of Silverton, remained in critical condition at press time at High Plains Baptist Hospital in Amarillo, where he is being treated for gunshot wounds suffered Friday.

Baird and a brother, Jimmy Ray Baird, a teacher at Alvord, were hunting quail about four miles west of Silverton when the accident occurred about 4:30 p. m.

Baird was accidentally shot in the face and head. His brother took him to Swisher Memorial Hospital in Tulia, and from there he was transferred to Northwest Texas Hospital in Amarillo. He underwent surgery on an eye at High Plains Baptist Hospital Friday, and Sunday morning underwent brain surgery after suffering a stroke in the hospital.

He had not regained consciousness at this writing. Baird formerly operated barber shops in Silverton and Quitaque.

Max Davis, Kevin McLeland, Ty Rampley, Warren Reid, Lisa, DeVonna and Lana Jarnagin spent Monday night with their grandmother, Mrs. Stella Davis.

Advanced training. Completion of the course earned the individual credits toward an associate in applied science degree through the Community College of the Air Force. The airman is a 1977 graduate of Denver City High School. His grandparents, Mr. and Mrs. Elbert Stephens and Mrs. Georgia Thornton, reside in Silverton.

Vol. Ambulance Service Buying New Unit

Silverton Volunteer Ambulance Service has announced plans to purchase a new ¾ ton Ford ambulance and expects to take delivery on the unit Thursday or Friday of this week.

This ambulance was ordered by Panhandle Regional Planning Commission for another city, and when it was delivered it was a ¾ ton instead of a ton model vehicle, and the other city refused delivery on it. It is valued at \$18,000, is fully equipped, and has been offered to the Silverton Volunteer Ambulance Service for \$7,500.00.

The ambulance service does not have money in hand for the purchase, but plans to borrow it from First State Bank in Silverton. A decision on the disposition of the old ambulance (1973 model ½ ton Chevrolet, with approximately 28,000 miles) has not yet been made.

Charles Sarchet, W. J. Copeland and Ted Kingery, directors for the Silverton Volunteer Ambulance Service, were in Amarillo last Friday and inspected the new unit. Panhandle Regional Planning Commission will not be participating in the ambulance purchase plan any longer, and this was the Silverton Volunteer Ambulance Service's last opportunity to buy a new unit at a reduced price.

The class will be 120 hours in length and will be taught each Tuesday, Wednesday, and Thursday for 10 weeks from 6-10 p.

Annual Report Meeting Set For Local Cotton Producers

Cotton producers of the Briscoe County area will receive a report on the 1977 programs and accomplishments of Cotton Incorporated at a meeting Tuesday, January 3 at 9:30 a. m. at the Memorial Building in Tulia.

The annual report meeting is one of a series to be held throughout the Cotton Belt to bring America's cotton producers up-to-date on how their dollars have been invested by Cotton Incorporated in research and marketing programs.

Cotton Incorporated is financed entirely with per bale assessments from the nation's cotton producers. Its activities are directed by a board of directors composed of producers elected from each of the 14 cotton-producing states.

J. D. Smith of Sudan, a member of the board of directors, said the annual report meeting is one of several steps being taken by the board to improve the flow of information on Cotton Incorporated's activities to all cotton producers.

"Our board made a careful study to determine how we can im-

Home Burned Thursday Night

The country home of Mr. and Mrs. Buck Payne, which was located southeast of Silverton, burned Thursday night of last week.

The call to the Silverton Fire Department was received about 7:00 p. m. Firemen later reported that they could see the house ablaze as they were leaving the city limits.

Mr. and Mrs. Payne, who reportedly were in Silverton visiting with the Keith Tiffins, lost all their clothes and household furnishings in the fire.

The fire department was summoned by Silverton Gin, Inc. while the firemen were still at the scene of the Payne fire, and auxiliary firemen took the remaining truck to the gin to control a bur fire about 7:30 p. m.

Film On Littering Now Available

Littering Texans, take heed! The State Department of Highways and Public Transportation has just released a new motion picture that zeros in on your dastardly deeds.

Titled "A Litter MESSAGE," it's the most recent addition to the Department's free loan library of award-winning public service films and is designed to reinforce an on-going campaign against litterers.

Animation introduces live action as the film takes a sometimes humorous look at the thoughtless trash tossing of "litter bums" who are otherwise quite pleasant and friendly folks.

"A Litter MESSAGE" is 16mm open, pre-sorted by zip code, boxed and delivered to post offices to expedite delivery. Work to get the renewal notices ready for delivery started in early October.

"The plate renewals for passenger cars and light trucks (such as pickups) will be different from last year. A new law requires that renewal dates be spread as equally as possible over 12 months, rather than have all expire at one time (April 1) each year," Townsley said.

Since the Motor Vehicle Division does not maintain records by owner's name or birth date, the license number of the vehicle has been used to determine the month of registration renewal in the future.

Renewal notices have been issued to reflect the number of months and the prorated fee to be paid to register each vehicle under the new system.

A complete explanation of the new system is enclosed with each renewal notice for passenger cars and light trucks (one ton or less). It is imperative that vehicle owners not lose the registration notice as it must be presented at the county tax collection offices to obtain new license plates.

Because of the new system, registration may take longer this first year than ever before. The new law authorizes county tax assessors-collectors to start processing the renewals a month early.

Your county tax assessor-collector is ready when you are—any time starting with the county's first work day in 1978.

"Look for your friendly postman to bring your license plate renewal notice shortly after Christmas," Townsley said. "Do yourself a favor—take your renewal notice to your county tax office and register early. You'll be sorry if you don't."

sound and color, 13 minutes in length, and can be borrowed from your local district office, or by writing to FILMS, Travel and Information Division, Box 5064, Austin, Texas 78763.

The film is a timely reminder that litter is a nasty problem which causes unsightly roadsides and cluttered public areas and costs taxpayers several million dollars annually to clean up. "Let's get mad about it," admonishes "A Litter MESSAGE," mad enough to do something about it. So—litterers, beware! You may soon become personae non gratae in the state of Texas, if "A Litter MESSAGE" has its way.

The devotional was given by Christi Davidson.

Each club member assembled a centerpiece which was then given to the member as a gift from the president, Vicki Bean. Several games were played and gifts exchanged.

Finger sandwiches and a variety of Christmas cakes, candies and cookies were served by the hostesses, Sandra Smith and Dorothy

Martin, to Vicki Bean, Christi Davidson, Denise Kellum, Roma Martin, Mary Jo Brannon, Linda Mullin, Ramona Martin and Sheryl Breedlove.

Wives Invited To Cotton Meeting

Briscoe County cotton producers will hear reports on the research and marketing progress of their commodity when Cotton Incorporated holds an annual report meeting at 9:30 a. m. Tuesday, January 3 at the Memorial Building in Tulia.

Cotton Incorporated is the fiber company of American cotton producers, Earnest Kiker, County Extension Agent, said.

Kiker said the meeting will center around a specially-made color-sound motion picture giving a company-wide view of 1977 accomplishments. This will be followed by a brief update by a key member of the Cotton Incorporated staff.

The marketing outlook for 1978 also will be discussed.

There will be ample time for questions and discussion, and producers are encouraged to bring their wives, Kiker said. He said the wives will be especially interested in parts of the film dealing with textile and product development.

The annual report meeting will give producers a firsthand look at what Cotton Incorporated is doing for them in production, textile and economic research, Kiker said. It also will show the marketing, merchandising and advertising efforts carried out by the company on the behalf of the producer.

R. A. Baird returned to his home here Wednesday of last week after spending several days in Central Plains Hospital in Plainview following a heart attack.

What Think Ye?

SIN adds to your troubles; subtracts from your energy; multiplies your difficulties; divides your interest in your work. And its wages is death.

☆
Once an Indian evangelist was preaching to a village crowd, when he was interrupted by a flip-pant youth who said, "You talk about the burden of sin. I fell no burden! How heavy is sin-ten pounds — fifty pounds?"

The preacher replied, "If you laid a four hundred pound weight on a dead corpse, would it feel the weight?"

Of course not," the youth replied, "because it is dead."

MRS. GAMBLE HAS CHILDREN HOME FOR THE HOLIDAYS

Those enjoying the Christmas holidays with Mrs. Loretta Gamble and son, Tim, were eight of her ten children and their families. They were Mr. and Mrs. Ad-

To which the preacher said, "That spirit is dead who feels no load of sin."

☆
The man who swears privately but keeps from it in the presence of a lady gives her more honor than he does God who is present at all times.

☆
Your strength is seen in what you stand for; your weakness in what you fall for.

☆
We must never keep one eye on the temptation we have just prayed not to be led into. And be sure when you flee temptation you have left no forwarding address. Then remember temptation may be strong but it seldom overtakes one who runs from it.

☆
Temptations are kinda like a tramp: treat them kindly and they will return and bring others with them.

☆
Some seem to think it is easier to pray for forgiveness than it is to fight temptation.

☆
Unless we have within us that which is above us, we will soon yield to that which is about us.

☆
Let us all remember that it was not the fruit on the tree that caused the trouble; it was the pair under the tree.

CARD OF THANKS
 Dear Friends,
 We are so thankful to live in a community that really cares. Thanks so very much for the many cards, visits, flowers, delicious food, donations, help at home, phone calls, gifts and most of all, your prayers, while I was in the hospital and since I've been home. May God bless each of you this new year.
 With love,
 Shirley, Duane,
 Darrell and Jan Reynolds

CARD OF THANKS
 I don't have the words to express my thanks and appreciation for all the lovely cards, visits, phone calls, flowers and gifts I received while I was in the hospital and since I have come home. A special thanks to J. E. and Mary Jane Patton, Bud and Betty Long, Wayland and Flo Fitzgerald, Riley and Lois Ziegler, Silverton; Betty Strandridge of Tulla; Betty McGavock, Plainview, for coming and giving me support before I went into surgery and for staying with Charles (Mule) and Linda while I was in surgery.
