

## All Around the Town

by Mary Ann Sarchet

We had been looking for the aoudad sheep a little too early in the evenings, I guess, because on Thursday of last week at almost 9:00 p.m. we spotted a herd of 50 or more of them in the area I described last week.

In addition, Gary Martin told us that he has been seeing them on both sides of Highway 207 near the Tule Creek bridge. Sometimes he has seen them within 20 or 25 feet of the highway. One day he tried to count a herd that was climbing one of the canyon walls so fast that counting was almost impossible. He said he saw 40 or more ewes and countless others in the herd.

If you haven't seen the aoudads, you might try driving through the canyon and scanning the areas both east and west of Highway 207 just before the sun goes down in the evenings.

## Storm Dumps Large Amount of Rain, Hail on Silverton Area

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

### Walter Perkins Injured In Accident

Walter Perkins, 16-year-old son of Mr. and Mrs. Thomas Lee Perkins, was injured Wednesday afternoon of last week when his foot got into the rollers at Silverton Metal Works where he was employed.

He was taken to Swisher Memorial Hospital in Tulia by private vehicle, and was transferred to St. Anthony's Hospital in Amarillo by the Tulia ambulance.

At St. Anthony's, he underwent surgery during which it was necessary to amputate part of his foot which had been crushed. It was feared that further amputation might be necessary, but according to reports, when the doctor examined the limb Monday he told the family that he did not see a need for any further surgery. Walter may get to come home this weekend.

The youth was not covered by any hospitalization or workman's compensation insurance.

### National Average Market Prices Reach Release Level

USDA announced this past week that the national average market price for grain sorghum has reached the release level (125% of loan rate).

Producers with sorghum in the Grain Reserve Program may repay loans WITHOUT penalty.

Repayment amounts shall include principal, applicable interest, and any unearned storage.

Release will continue through July 31, when prices will be reviewed to determine whether release should be continued or stopped.

#### CROP ACREAGE MUST BE REPORTED

Operators of all farms (participating and non-participating) must file acreage reports for all crops including set-aside no later than July 15, 1979.

Failure to report crop acres by certification can cause producers to lose all program benefits.

If no report is filed by current year cotton producers, the yield for the farm shall be set at zero. All crop acreage for the farm will be zero if no acreage report is filed.

No late filed reports can be accepted unless it can be proved, a timely report was beyond the operator's control.

Celia Martin is spending an extended visit with her sister and family, Mr. and Mrs. Joe Zorger, in Inglis, Florida. She left Lubbock by plane Saturday morning.

Dr. Fred V. Richards of Tulia has returned to his medical practice after having undergone surgery in an Amarillo hospital.

Mr. and Mrs. Bob Olive of Petersburg visited Betty Olive Sunday.

The Bob McDaniels were not at home and no one was in their storm cellar Saturday afternoon when it floated out of the ground

as a result of flooding. "I had never been in a storm cellar where I felt more secure than I always have in ours," Mrs. Mc-

Daniel told the Briscoe County News this week. "It is a mess now," she added, "a lot of the canned goods we had stored

there are broken."

## Storm Causes Heavy Crop Damage In Briscoe County

A large storm accompanied by heavy washing rains and hail hit portions of Briscoe County causing heavy damage to approximately 5,000 acres of cotton Saturday.

County Extension Agent Earnest Kiker says farmers are now faced with a tough decision on "Have I got enough cotton to leave?" or "What alternate crop am I going to plant?"

"You don't make snap decisions when it comes to hail damage," Kiker said. "It will appear much worse than the actual damage immediately after the storm. In the case of cotton, the plants have a remarkable capacity to recover."

A producer must consider several factors in determining whether to replant. Among these are growth stage, type, and extent of injury and seasonal conditions.

A first point to consider, the County Extension Agent said, is how much of the field was damaged. A hail storm can reduce the plant population to only two seedlings per foot in 40-inch rows, or about 26,000 plants per acre, and the crop can still produce a normal yield, unless the crop is poorly distributed or has long skips.

Another point in determining whether to replant is how much damage there was to plants. The County Extension Agent explained that plants having only traces of leaves will recover better than

those with no leaves. But he emphasized that a seedling with no leaves can still make a crop.

"If the stem is intact, although it will be slower than plants having at least some leaves, recovery is still possible.

"However, if the stem is shattered and the bark loosened or broken at points below the leaf buds, then recovery is impossible," Kiker warned.

After a hailstorm, a sandfighter should be run as soon as possible to prevent sand injury to vital stubs left in the field. Quite often, he cautioned, sand damage after a hail can do as much or more harm to young seedlings than the hail.

Any regrowth hinges either on the sound terminal bud (the growing point) or auxiliary bud located at the point of leaf attachment.

The County Extension Agent said that because of the young seedling's ability to recover, hail injury in May or June will cause less yield loss than in July and August when the plants are more mature and replanting becomes impossible.

"If the damage is suffered early, a crop can recover to the point that the injured plants are difficult to distinguish from undamaged plants," he added. Also, young cotton that survives early hail damage is often more mature. See CROP DAMAGE—CONTINUED ON PAGE TWO

### Slow Pitch Games Continuing Here

Slow Pitch Baseball Games are being played here beginning at 8:00 o'clock on Tuesday and Thursday nights and at 1:30 o'clock on Sunday afternoons.

Last Thursday's scores were: El Charro Restaurant 10, Ray Thompson Implement 5; Ray Thompson Implement 19, Silverton Gin 8; D & D Fertilizer 21, Harris Gin 20.

Sunday afternoon's results were: Silverton Gin 19, El Charro 4; D & D Fertilizer 9, El Charro 5; Harris Gin 5, Ray Thompson Implement 3.

Horace Vines is continuing to receive treatment at the Veterans Hospital in Amarillo.

## Silverton Boy Dies From Injuries In Farm Accident

An eight-year-old boy died Saturday of injuries suffered when he fell from a tractor his father was driving and was run over on a farm south of Silverton.

Fidel Juan Reyes, son of Mr. and Mrs. Johnny Reyes, was injured about 6:30 p.m. Friday and died in Lockney General Hospital.

Floyd County Justice of the Peace R. H. Ford said the boy was riding with his father on a tractor when he fell. The tractor then ran over the boy, Ford said.

### LIONS SELLING FIREWORKS

The Silverton Lions Club's Fireworks Stand is open west of the city limits.

Gaston Owens of Quitaque, publisher of The Valley Tribune, entered St. Anthony's Hospital in Amarillo last Friday, and underwent gall bladder surgery there Monday afternoon. Mr. and Mrs. Dwain Henderson were in Amarillo with his family during the surgery and report that Mr. Owens came through in good condition.

Sunny Walker of Breckenridge has been visiting her grandparents, Mr. and Mrs. Roy Mack Walker, this week.

A storm which moved into the area from the north Saturday afternoon dumped 5.25 inches of rain and a large quantity of hail on Silverton. It hailed for about 45 minutes and the rain continued for another quarter of an hour, completely flooding the city, putting water over streets and highways, breaking limbs off trees, stripping plants of their foliage, damaging roofs and windows, and flooding storm cellars, homes and places of business.

Broken windows allowed the rain to soak carpets and furniture in homes and also caused slivers of glass to be imbedded in carpets and upholstery. Brown Hardware and Furniture was unroofed, as well as a sheet iron building used by the City in back of this business establishment. Numerous small buildings were destroyed or blown away.

Historically the south part of Silverton is hardest hit by storms, but this time the north part of town bore the brunt of the worst weather. Some residents seemed certain that a twister aloft must have passed over Silverton.

Jack Strange looked at his wind velocity gauge as the needle indicated a gust from 50 to 74 miles per hour during the storm, but Strange believes that some gusts were even stronger than this.

Fred Strange, who keeps the official weather records, said that an additional 60 of an inch fell Sunday night and early Monday morning, bringing the total for the month to 11.14 inches and the total for the year to date to 21.12 inches, close to the normal annual rainfall figure.

The communications tower at the Texas Highway Department was bent to the ground, and the newly installed "saucer" at Silverton Cable TV was uprooted from its concrete foundation and broken. Cable TV spokesmen have ordered a new saucer and still expect that the Atlanta and Chicago stations and the Home Box Office channels will be ready to turn on July 1, as had been planned. This will depend on the weather, of course, because the Cable TV installation is still under water at this time. The new weather channel already is in operation on the Cable TV network.

One of the most unusual things that happened as a result of Saturday's storm was at the Bob McDaniels residence, where the storm cellar floated up out of the ground.

Among the frightening things that happened was at the T. V. McClure residence, where the family took shelter in the storm cellar and was unable to get the door open due to the pressure for a few minutes when the cellar began filling with water.

Crops were almost a total loss (see related weather story on this page). Hail ranged from pea to baseball size, with some of the largest hail reported at the Harold Edwards and Shafe Weaver homes northeast of Silverton.

A number of high school boys have been working at the cemetery this week, helping to repair damage caused by the storm. Cemetery caretaker George Seaney is recovering from surgery, and the volunteer manpower is greatly appreciated.

At Lake Mackenzie, there was

### Stack Limbs In Alley

Stack your limbs in the alley, and the City will get around to picking them up as soon as possible. Please cut or break the limbs up into smaller pieces, if possible.

This will assist in the removal of the mountain of limbs that were broken in Saturday's wind-storm.

## Marathon, Fireworks To Highlight Fourth of July

Activities at Lake Mackenzie on the Fourth of July will include a 10,000 meter run, beginning at 7:30 a.m., and a fireworks display, which will begin at sunset.

There will be categories for the marathon for those 18 and under, 19 to 29, 30 to 39, 40 to 49, and 50 and older. Ribbons will be given.

Boys from Silverton, Tulia, Lockney and Floydada will be eligible to compete in the 18 and under category. There will be a \$2.00 entry fee for runners in the marathon.

Everyone interested in taking part in the marathon is encouraged to contact John McCammon to register before the Fourth of July at the lake office, 633-4318.

The fireworks display will be much larger than the one seen at Lake Mackenzie last year. It is being sponsored by Lions Clubs in Silverton, Tulia, Lockney and Floydada.

## News To Be Printed Early Next Week

Due to the Fourth of July holiday being on Wednesday of next week, the Briscoe County News will be printed on Tuesday. Please turn in advertising and news copy one day early next week.

## County 4-H Fashion Revue Is Friday

Briscoe County 4-H Fashion Revue will be held Friday, June 29, in the Fellowship Hall of the First Baptist Church in Silverton.

Judging of 4-H clothing records will begin at 1:30 and judging of the garments will begin at approximately 3:00 p.m.

The public is invited to attend the Fashion Revue and awards presentation at 4:00 p.m.

4-H'ers must turn in their record books to the Extension Office by noon Friday.

Junior 4-H members participating are Katrice Minyard, Stacie Chappell, Carman Juarez, Donha Tomlin, Kristy Fogerson, Devoha and D'Anna Smith. Senior 4-H'ers are Cynthia Edwards and Melinda Sutton who have also served as teen leaders for the clothing projects.

Adult leaders are Mrs. Harold Edwards and Mrs. Jerry Bean of Silverton and Mrs. Dale Smith of Quitaque.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic levels, race, color, sex, religion or national origin.

Perry Thomas underwent surgery at High Plains Baptist Hospital in Amarillo Monday. He expects to remain there for several days longer.

A wind and dirt storm, but no hail and only .25 of an inch of rain fell. Steve Cole said that most of the boats moored at the Cactus Cove Marina got loose and one sank in the storm. He was on the dock trying to get things secured during the storm when a gas tank blew out of one of the boats. His dog blew off the dock and into the water also. There was some damage to lake homes, but no serious damage which could have accompanied a storm of this magnitude.

Surface lakes are brim-full of water in all directions from Lake Mackenzie except the directions of its watershed where rains have been lighter. The lake has made no appreciable gain from the heavy rains even though it is located less than ten miles from Silverton.

## Storm Causes Heavy Crop Damage

CONTINUED FROM PAGE ONE  
ture at first frost than a crop that has been replanted.

"When a cotton field is destroyed," he said, "the producer has no choice but to replant, especially if the damage occurs early in the season. But in most hail storms, the crop is usually only partially injured, making the decision more difficult."

"In some areas, however, growers are already looking for alternate crops."

Among alternate crops farmers might consider for replanting are grain sorghum, soybeans and sunflowers.

Cotton producers who incorporated Treflan or similar pre-plant herbicides have generally eliminated the possibility of growing sorghum on that land this year. Even if they used a pre-emergence herbicide, he says, they would be running a risk to plant sorghum. The surface-applied chemicals are leached into the soil by rainfall, though the depth of penetration varies with the type of herbicide, texture of soil and amount of rain.

To circumvent the problem on the heavier-textured soils, a buster planter set to displace the top four to five inches of soil can establish a seed furrow in herbicide-free soil, the Extension Agent recommended.

Hybrid selection is also an important consideration. Medium-late maturing hybrids can still be planted throughout the area. However, the early maturing hybrids are usually a better choice for the dryland areas north of Lubbock. Producers are cautioned that late sorghum plantings will be susceptible to midge damage. They should be prepared to check for damaging infestations and to apply insecticides if needed.

Sunflowers also constitute a good alternate crop, Kiker suggested.

This crop can be planted as late as 100 days prior to the first normal frost date and still ma-

ture a seed crop. June plantings have a yield potential of approximately 500 to 1,500 pounds per acre, depending on soil type, growing conditions, fertility and moisture availability. A publication outlining planting rates and other cultural practices may be obtained at the County Extension Agent's office in the basement of the Briscoe County Courthouse.

Kiker noted that soybeans are frequently used as a replacement for hail-damaged cotton in irrigated areas. This crop is also tolerant of the preplant incorporated cotton herbicides and can be planted over a wide range of dates.

Pointing to results of a four-year study conducted by researchers at the Texas A&M University Agricultural Research and Extension Center at Lubbock, he says that good yields may be obtained from late June to early July plantings.

"Since soybeans are sensitive to day length," he adds, "late plantings result in short stalk growth of all varieties and the combines miss a good portion of lowest seed pods. This problem can be partially circumvented by the use of varieties that fall into the late Group IV and Group V maturity groups."

"Columbus (late Group IV), Hill (early Group V) and York (late Group V) are among the better varieties which fall into this grouping: their later maturity tends to promote more stalk growth than that obtained with earlier varieties such as Clark 63. In addition to good yields, these varieties have also exhibited excellent seed holding characteristics, low incidence of shattering at maturity and good resistance to lodging, Kiker said.

Other cultural practices which encourage stalk growth in late plantings include: higher seeding rates (65 to 70 pounds of good quality seed per acre), planting a single row per bed and early irrigation.

"It is especially important to avoid periods of moisture stress in late-planted beans," he emphasized.

"Selecting an alternate crop is always an unpleasant chore," Kiker observed. "Fortunately, there are crops such as grain sorghum, sunflowers and soybeans which can be planted relatively late in the season to partially compensate for the loss of the primary crop."

George Seaney is recovering from kidney surgery he underwent on Thursday of last week at St. Anthony's Hospital in Amarillo.

## Nance Reunion Held Here Sunday

Mr. and Mrs. J. D. Nance hosted a Nance family reunion Sunday.

It had been two years since the family had held a reunion here. Last year the family met at Lakeville, Indiana in the home of Mr. and Mrs. Howard Heines.

Enjoying a day of visiting and recalling pleasant memories, eating and making family pictures were Mrs. Norma Scarborough, Jan Parton, Glenda Scarborough, Mr. and Mrs. Bill Grant, Kenny, Kelly and Randy Darin and Allen Grant, all of Amarillo; Mr. and Mrs. Henry McPherson, Happy; Mrs. Benny Montague, Courtney and Kennedy, Tulia; Mrs. Rick Jennings, Friona; Mr. and Mrs. Rex Redies, Mr. and Mrs. Olen Grant, Mr. and Mrs. Walter Hall, Celina, Mandy and Christopher, all of Plainview; Mr. and Mrs. Wiley B. Nance, Lockney. Mr. and Mrs. Lowell Callaway visited with the family in the afternoon.

## Young Farmers To Sponsor Rodeo

Silverton Young Farmers will sponsor a rodeo in observance of Briscoe County's 87th Anniversary Thursday, August 9 through Saturday, August 11. Nightly performances begin at 8:00 p.m.

Organizations are invited to enter candidates in the Rodeo Queen Contest. Entrants must be between the age of 14-18 and single. The girl turning in the most ticket money will be declared the Rodeo Queen. Deadline for entering the contest is noon July 21.

At 1:30 p.m. July 21, the girls and a member of their sponsoring organization will meet at the school vocational agriculture building to pick up their tickets. Each girl will need to bring a billfold size picture of herself and a list of her activities, hobbies, honors, etc. at that time. Each girl will receive her tickets at the same time as the others

## Results Of 4-H Horse Show Announced

The Briscoe County 4-H Horse Show was held Tuesday, June 19, at 7:00 p.m. at the Wood Memorial Arena in Silverton with 63 people attending.

High Point Girl was Shelly Harris and High Point Boy was Zane Reagan. High Point Pee Wee 4-H'er was Keeley Burson.

4-H'ers placing in the various events were:  
Showmanship: 1. Shelly Harris; 2. Cam Forbes; 3. Zane Reagan; 4. Cynthia Edwards; 5. Devona Smith; 6. Suzann Settle; 7. Kirk Saul; 8. Kimberly Burson; 9. Keeley Burson; 10. Todd Reagan; 11. Scott Saul; 12. Joe Ted Edwards

Registered Mares Five and Over: 1. Walter Perkins; 2. Suzann Settle; 3. Joe Ted Edwards; 4. Travis Kimbell

Registered Mares Five and Under: 1. Zane Reagan; 2. Kimberly Burson; 3. Scott Saul  
Grand and Reserve Champion Mares Five and Under: 1. Zane Reagan; 2. Kimberly Burson

Five and Over: 1. Walter Perkins; 2. Suzann Settle  
Registered Geldings, Five and Over: 1. Shelly Harris; 2. Devona Smith; 3. Kirk Saul  
Registered Geldings, Five and Under: 1. Todd Reagan  
Grade Geldings, Any Breed, All Ages: 1. Cam Forbes; 2. David Reeves; 3. Jim Forbes

Grand and Reserve Champion Geldings, Five and Over: 1. Shelly Harris; 2. Devona Smith

Five and Under: 1. Cam Forbes; 2. David Reeves

Western Pleasure: 1. Lee Ann McMurtry; 2. Devona Smith; 3. Kimberly Burson; 4. Kirk Saul; 5. Keeley Burson; 6. David Reeves

and will have an equal chance to win. Solicitation of rodeo ticket sales prior to 1:30 p.m. on July 21 will absolutely disqualify the candidate.

Sponsoring organization is to be responsible for a horse for their candidate to ride.  
Anyone who wishes to enter a float in the parade can contact Harvey McJimsey.

## Grabbe - Edwards Vows Exchanged

Mr. and Mrs. Warner B. Grabbe announce the marriage of their daughter, Susan, to Larry D. Edwards, son of Mrs. Frances Edwards and the late Ed Edwards.

The couple were married in

es; 7. Zane Reagan  
Western Horsemanship: 1. Zane Reagan; 2. Kirk Saul; 3. Devona Smith; 4. Kimberly Burson; 5. Keeley Burson; 6. Suzann Settle

Reining: 1. David Reeves

Pole Bending: 1. Shelly Harris; 2. Cynthia Edwards; 3. David Reeves; 4. Cam Forbes; 5. Lee Ann McMurtry; 6. Walter Perkins; 7. Suzann Settle

Amarillo on June 22. They plan to live in Amarillo, where he is employed by Am- arillo Landscape, Inc., and she is employed at High Plains Baptist Hospital.

## County 4-H'ers Compete In District Horse Show

Briscoe County 4-H members who competed in the District 2 4-H Horse Show in Lubbock June 26-27 are Shelly Harris, Lee Ann McMurtry, Scott and Kirk Saul, Cam and Jimmy Forbes, Kimberly Burson, Zane Reagan, Kerry Baird and Joe Ted Edwards.

The youth were hoping to qualify for the State Horse Show to be held in July.

The event brought together 4-H Club members from throughout the 20-county district to participate in 15 halter, showmanship and performance classes. Trophies and ribbons were presented to the top exhibitors.

The annual event was held at the livestock pavilion of the Panhandle-South Plains Fairgrounds in Lubbock. Twenty horses and exhibitors qualified to participate in the State 4-H Horse Show July 25-27 in Odessa.

## Copeland Being Transferred

John Copeland is being transferred to Dumas where he will work as an agronomist serving Soil Conservation Service Offices in Moore, Dallam and Hartley counties.

Copeland came to Silverton in 1977 and has been associated with the Soil Conservation Service. He and his wife, Glenda, have two children, Kelly and Rachel. The family has been active in church and community affairs. They plan to move this weekend.

The communications tower went down at the Texas Highway Department in the windstorm Saturday afternoon. G. H. Wilkinson said he didn't know for sure, but he had heard that the towers

were built to withstand 100 miles per hour wind. There was a lot of sheet iron scattered in the area, and even though none was on the tower when he inspected the damage, he thinks some of it

might have become entangled in the tower and helped cause it to go down.

Here's a tasty way to conserve energy . . .

# Install a Gas Grill

They're on sale now!

Gas cooking outdoors is a tasty way to conserve energy. It keeps your cool indoors by taking cooking heat out. It doesn't put a strain on your air conditioning system, which saves on the amount of energy needed to cool your home. And gas cooking outdoors lets you cook full family meals, everything your indoor range or oven can cook, with that great outdoor flavor.

Gas grills from Pioneer are ruggedly built of heavy duty cast aluminum to resist rust and weather, and post mounted for stability. Quality

components from inside to out assure long lasting use and value. And parts, if ever needed, are readily available.

Get in on good fun, great taste and energy savings! Choose from five top quality models, and if you install now you'll save even more . . .

Ask any Pioneer employee.

Save \$50 if you buy before August 1, 1979.

## Comptroller's Rep To Be Here July 22

State Comptroller Bob Bullock has announced that he is sending a representative from his Lubbock office to Silverton on Thursday, July 12, 1979, to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Gene Cannon will meet with local taxpayers at the Briscoe County Courthouse from 2:00 until 4:00 p.m. that day.

"If Silverton-area merchants, or anyone else for that matter, have any questions about state

taxes or need help in preparing tax forms, Mr. Cannon will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

Bullock reminded those taxpayers who are unable to meet with his representative on Thursday, July 12, that they can still get their questions answered quickly by calling his TOLL-FREE tax information number in Austin. That number is 1-800-252-5555.

The Lubbock office, headed by Vance A. Porfirio, serves Lubbock and surrounding counties.

WATER WAS STILL FLOWING across Highways 86 and 207 in Silverton late Sunday afternoon when this picture was made. Water continued to cover the highways Monday, as the runoff from more than five inches of rain which fell in about an hour continued.

Briscoe County News Photo

## WESTWARD DOUGH!

OR how DO you COVER A Wagon?

The wild, wild West. Land of hope and opportunity to thousands of courageous settlers. But, if it weren't for the dollars of thousands more Americans taking stock in their country, there might never have been a West to go west to.

You see, money raised from the sale of government securities helped us purchase the Louisiana Territory from the French. Other securities helped buy the states of California, Nevada, Utah, western Colorado and most of New Mexico and Arizona from Mexico. Even settlement of the Oregon Territory was made possible through the issuance of United States securities.

Today, you can still take stock in your country's growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where you work. There's no easier, safer way to save or help your country. After all, U. S. Savings Bonds are still a great way for you to go West. Or East, North and South.

Now U. S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

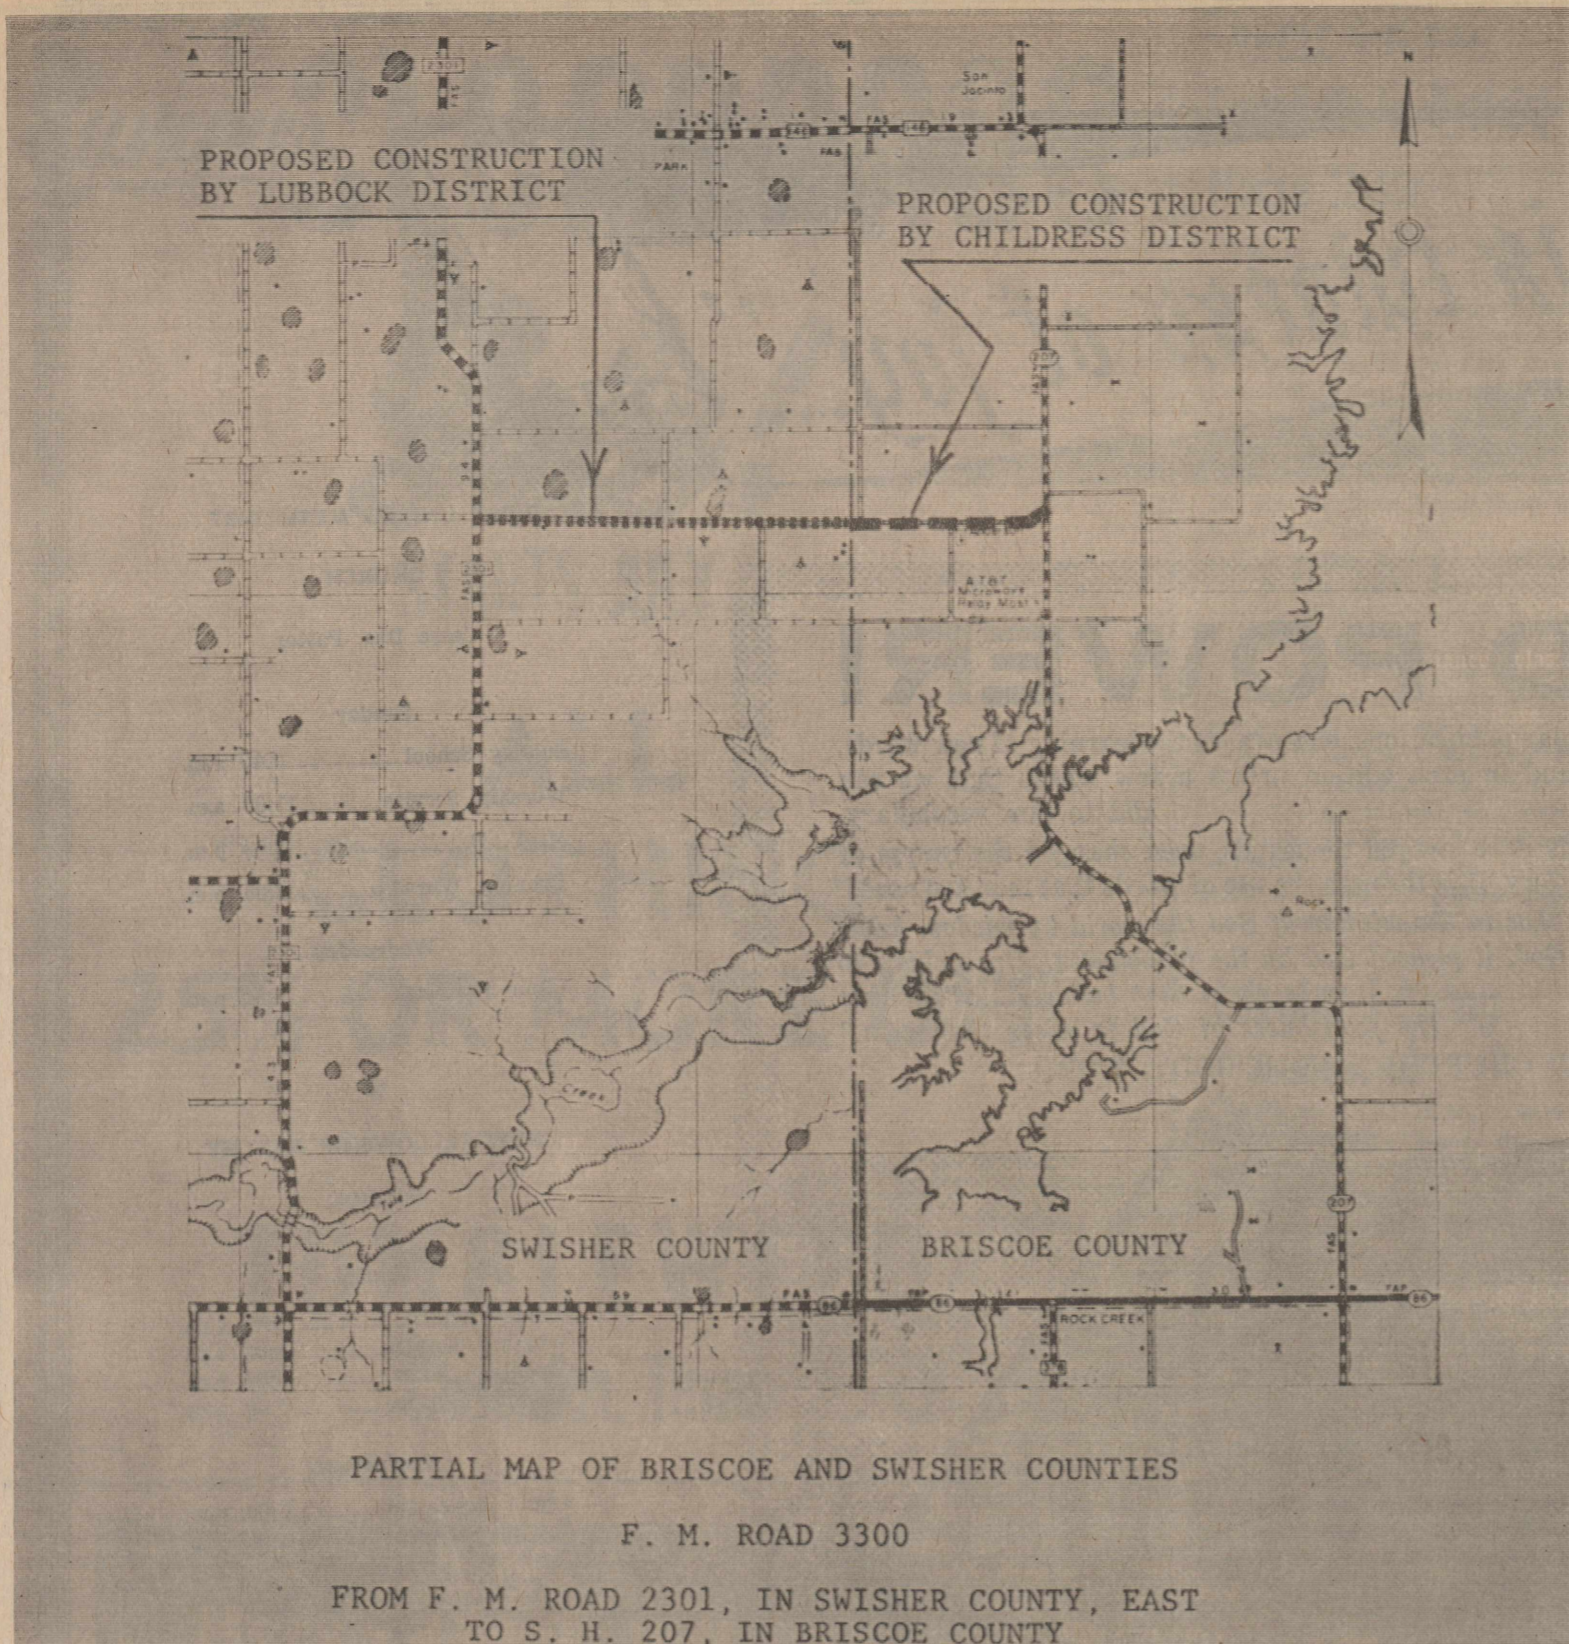

### Take stock in America.

*I am Thankful...* for good health, and for the food that I have each day. I am thankful for those near and dear to me that I can love, and in turn love me. I am thankful for the freedom of my nation, and that I can worship as I please. I am thankful that God loved me so much, that he provided a way for my salvation. I am thankful that he is a forgiving Father. I am thankful that I can attend Church and worship my Lord

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**First State Bank**

**NOTICE AFFORDING OPPORTUNITY FOR PUBLIC HEARING**

The State Department of Highways and Public Transportation is planning the construction of F.M. Road 3300, from F.M. 2301, in Swisher County, East to State Highway 207 in Briscoe County. The proposed 6.04-mile project consists of grading, drainage structures, base and surfacing of the present narrow, earth road to provide two 10-foot paved tra-

vel lanes similar to other Farm to Market roads in the area. The proposed improvements will follow approximately the same alignment as the existing county road on a minimum right of way of 100 feet, with no displacements or relocations involved. Maps and other drawings showing the proposed location and design, environmental studies, and any other information about the proposed project are on file and available for inspection and copying at the office of O. V. Johnson, Supv. Resident Engineer of Clarendon, and Merlin O. Bennett, Sr. Resident Engineer of Plainview. Also, maps and drawings showing the proposed location and design have been placed on file with the County Judge of Swisher County and the County Judge of Briscoe County.

Information about the State's Relocation Assistance Program, the benefits and services for dis-

places, information concerning the relocation assistance office, as well as information about the tentative schedules for acquisition of right of way and construction, can be obtained at the District Office of the State Department of Highways and Public Transportation at 1700 Avenue F, N. W., P. O. Box 909, Childress, Texas, 79201, or at 601 Slaton Road, P. O. Box 771, Lubbock, Texas 79408.

Extension Agent

**HEALTHY LIFESTYLE**

A healthy lifestyle is more valuable than a doctor. Lifestyle is related to more than half of the diseases from which people in Texas die each year.

These lifestyle-related diseases include heart disease, cancer, cerebrovascular disease (stroke) and accidents.

Also, they are linked to our lifestyle choices such as eating, drinking, smoking, physical exercise and how we handle stress, anger and other emotions.

To develop a healthy lifestyle, form nine health habits—and set an example for the family and the community.

Health habits concern immunization, nutrition, weight, exercise, non-smoking, drinking only moderate amounts of alcohol if any at all and getting adequate amounts of sleep.

Also, acquire knowledge of health-care services and products and how to handle medical emergencies.

**IMMUNIZATION**

Start a child's immunizations early—rather than waiting for him to enter school.

Also, adults need immunization.

Get a tetanus-diphtheria booster every ten years, most health professionals say.

**HEALTH**

Eat three meals a day at regular times—and include a variety of foods—to insure the necessary balance of nutrients.

**WEIGHT**

Maintain a moderate weight—one that is right for your height and build.

Avoid obesity, a factor in many diseases.

**EXERCISE**

Regular, daily exercise is a must for staying healthy—and avoiding illness.

By the same token, vigorous exercise done only occasionally is not helpful.

Strenuous exercise once every couple of weeks or only on weekends is a practice which can actually harm the body.

**NON-SMOKING**

If you haven't started smoking—don't.

For those who do smoke, although it is difficult to stop, your health is certainly worth it.

**ALCOHOL**

If you use alcohol at all, use it moderately.

Heavy consumption of alcohol is a factor in many diseases—and it is a factor in more than half of all motor vehicle accidents.

**SLEEP**

Get an adequate amount of sleep regularly so the body can be restored. The number of hours needed by individuals will differ.

**HEALTH CARE**

Know what health services are available and how to obtain them.

Also, in using health-care products, such as drugs and medical devices, be an informed consumer.

Read all information about a product, and follow directions.

**MEDICAL EMERGENCIES**

If more people knew how to handle medical emergencies, many accidental deaths could be prevented. We are fortunate to have an excellent emergency care system and trained personnel.

**THINK HEALTHY**

I believe a positive attitude toward life and your health will make you healthier.

**Farabee Blasts DOE Open Tennis Tourney Slated At Plainview**

State Senator Ray Farabee blasted Washington for its lack of National Energy Program saying, "State government does not set energy policies, but somehow the Department of Energy (D.O.E.) expects state and local governments to enforce their piecemeal plans."

"Until we have a coherent National Energy Plan, we will be living from one crisis to the next. It is unfair to expect state or local governments to carry out something which the federal government can neither explain, understand nor administer," Farabee stated to the Lions Club in Wichita Falls this week.

Although there are no simple answers to the energy problem, according to Farabee, he outlined four points which he stated we must address: (1) a clear-cut National Energy Policy; (2) greater individual conservation; (3) development of energy alternatives such as gasohol, solar energy, coal and lignite power; and (4) priorities for agricultural production, emergency health care and commercial transportation.

Farabee filed a protest with D.O.E. in Washington last week opposing their latest so-called "conservation plan" because the proposed regulations reflect ignorance of the problems in the 30th Senatorial District.

Farabee stated his office has received a number of requests for assistance in connection with energy needs related to the wheat harvest, disaster needs and health care. "We have received excellent cooperation from the Governor's Office of Energy Resources, and I am pleased that

Entries must be received by July 10 for the Plainview Open Tennis Tournament to be held July 13-14-15.

Mail entries to Jerry Barton, 3310 West 18th, Plainview 79072, or call 293-5610 for information.

Entry fees are \$5.00 per event for juniors and \$6.00 per event for adults. Money must accompany entry. Checks are to be made payable to Hi-Plains Tennis Club.

You may enter three events but must be ready to go on court when called with minimum rest between matches.

Junior events begin at 8:30 a.m. on Friday. Junior finals and adult matches begin at 8:30 a.m. Saturday. Adult finals begin at 1:00 p.m. Sunday.

First, second and consolation trophies will be given adults.

Junior events will include singles and doubles for junior high boys and girls (those finishing ninth grade and under); boys and girls singles and doubles for high school students in tenth, eleventh and twelfth grades. Juniors may enter adult events. Each event must have a minimum of four entries.

Adult events will include A, B and C mens and womens singles and doubles and mixed doubles, mens singles, doubles and mixed doubles for those 35 and over and 45 and over.

although they are limited in their authority, they have been able to provide assistance in most instances."

# WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

*"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe."... "Because the foolishness of God is wiser than men."*

ATTEND CHURCH...HEAR GOD'S WORD

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**CAPROCK HOSPITAL DISTRICT**

of Floydada, Texas

Announces the Opening of Two New Offices in

Cogdell Clinic and Welcome

**James B. Wonnacott, M. D. and S. H. Hong, M. D.,**  
to the staff of Caprock Hospital.

The Office of Dr. Wonnacott will open July 2, 9:30 - 12.00, 1:30 - 5:00

Dr. Hong has not announced his opening but will begin his practice during the first part of July.

In addition to family practice, Dr. Hong is also a surgeon.

The people of the South Plains are invited to use Caprock Hospital as your medical facility.

**Attend 4-H Teen Leader Lab**

Three Briscoe County 4-H'ers participated in District 2 Teen Leader Lab on the campus of South Plains College in Leveland June 19-21.

Mitcheal Martin, Shane Reagan, Kerry Baird and Assistant County Extension Agent Lynda Fogerson attended recreation workshop sessions, competed in tournaments and games and learned new songs to teach to county 4-H Clubs.

Electric camp will be held at Cloudercroft, New Mexico July 16-20. Any 4-H'ers wanting to attend should contact the Extension office, 823-2343, by July 9.

The camp is sponsored by Southwestern Public Service Company which assumes all expenses for bus transportation to the camp.

Each county is allowed to take three boys and three girls. Briscoe County also needs an adult leader to accompany the group. If you would be interested in going with the county group, contact the Extension office.

County 4-H Camp will be held at Lake McClellan July 12-13. All 4-H'ers and their families and leaders are urged to attend.

Mrs. Warner Grabbe returned home Sunday from a ten-day visit with family and friends in Pasadena, California. She visited with her daughter, Ronda, who was a recent graduate of John Marshall Fundamental High School; Mr. and Mrs. Carson Grabbe and children, and Dr. and Mrs. Lester Grabbe and children. Her sister, Miss Bonnie Chappell of Mill Valley, California, also was visiting in the area. They were all able to attend many events and places of interest.
