### LIONS NEED HELP WITH GIRLSTOWN PROJECT

Last Saturday morning the Administration Building, located on the Girlstown USA Borger campus, was destroyed by fire. The uninsured loss is estimated to be \$225,000.00. Some items other than the building that were destroyed were typewriters, file cabinets, desks, chairs, calculators, and various items of office furniture and equipment. All of the girls' (17 sizes) spring and summer clothing was destroyed, leaving them only with their winter

clothing. Girlstown USA is in part supported by the Lions Clubs, and the Borger campus is supported by the efforts of the Lions Clubs located in its district, which includes the Silverton club. Silverton Lions have annually contributed to the operating fund and to the coat and shoe Christmas fund. The contribution of the Silverton Lions could not have been made without your support of the local projects, such as the Hee Haw Show, fireworks stand, broom sales, etc.

Due to this sudden and large loss, Silverton Lions are asking for your direct support. If you would like to help Girlstown USA at Borger, you may send your contribution to Jay Towe or any Lion, and it will be deposited into the proper fund at Girls-

Parker, well known in Amarillo circles as a former local advertising salesman and competitive bass angler, flew in Larry Hopper from Santa Ana, California and George Bowman from Dumas, Arkansas for the match.

The contest will be among some 20 Challenge Match Fishing shows telecast in all or parts of 30 states in the show's second season later this year.

"This is the first time champions from two different bassfishing tours have competed against each other," said Parker. "I hope it's a first step in setting up a format to determine a national bass champion."

Both tour champs arrived in the Panhandle excited about the prospects of competing under the Challenge Match Fishing format. Although the show only pays expenses, Hopper and Bowman saw the potential of the setup and didn't hesitate to accept Parker's

I.G.R. Mineral with altosid for the control of Horn Flies, plus 200,000 USP units per pound of Vitamin A

### Special Discount until April 19 \$2.50 Per Cwt. off Regular Price

Let's figure what it costs to feed a 900 lb. cow and a 300 lb. calf for 150 days or five months in the summer during the fly season.

\$5.67 900 lb Cow - 15 lb I.G.R. 1.89 300 lb Calf – 5 lb I.G.R. Total Cost Per Pair 20 lb \$7.56

USDA claims a calf with good fly control can gain an extra one-half pound a day. But let's figure a gain of 1/10 of a pound a day extra, or three extra pounds a month for five months. This is 15 extra pounds at weaning time. 15 lb at .70 per pound - \$10.50 more per calf.

## LET'S LOOK

15 lb extra he can gain \$10.50 at .70 per pound Less 15 lb I.G.R. for cow and 5 lb I.G.R. for him 7.56

Profit after paying for the I.G.R. \_ \$2.94 Put your figures on your cattle business for fly control and mineral, and compare.

I'd like to visit with you on this. Call
