

Latest Information On Mackenzie Bond Election Given At Meeting Tuesday Night

A supper meeting was hosted at Lake Mackenzie Tuesday by the board of directors of the Mackenzie Municipal Water Authority for the city councils and news media in Lockney, Floydada, Silverton and Tulia, during which Joe Smith, Bonding Attorney, First Southwest Company, Abilene, presented a financial report and the latest information on the Mackenzie Bond Election to be held in the four cities on November 22.

The meal was catered by Ernie's Barbecue. Lon Davis of Floydada presided over the meeting.

Silverton was represented by Stan Fogerson, Mackenzie board member; Jerry Patton, city secretary; Mayor Charles Sarchet and Councilmen Ted Strange, A. R. Martin, David Tipton and Don-

nie Martin.

"The purpose of the Mackenzie Municipal Water Authority," Smith said, "is, and always has been, to construct a reservoir on Tule Creek in order to provide a surface water supply for the cities of Floydada, Lockney, Silverton and Tulia. The Authority must also construct treatment and transmission facilities in order to deliver water to these cities."

The Authority has constructed the reservoir on Tule Creek. Cost of the reservoir construction and land was approximately \$3,360,000, financed by the issuance of general obligation bonds which were sold to the State of Texas Water Development Board in 1970 and 1972.

Elements required to complete the project so that water can be

delivered to the member cities include a raw water pump station at Mackenzie Reservoir; a raw water supply line to the treatment plant near the reservoir; a four million gallons per day treatment plant with overload capacity up to six MGD during peak demand periods and a treated water pump station; a 24" approximately 25,000' water supply main to transmit treated water to a junction point near State Highway 86; and a two million gallon water storage reservoir at this junction. From this junction, three transmission systems are required: the Tulia transmission system, the Silverton transmission system, and the Lockney-Floydada transmission system, together with the pump units and ground storages that are necessary.

The estimated cost of the supply portion of the system which includes the raw water delivery system, the treatment plant, and treated water pump station, the water supply line to the junction point and the treated water storage reservoir at the junction, is \$4,405,000.

There are three separate transmission systems. The estimated cost of each of these systems is: Silverton system — \$1,065,000 (transmission pump station at junction and approximately 44,000' 12" supply line)

Tulia system — \$3,330,000 (transmission pump station at junction; approximately 100,000' 20" supply line; ground storage and pump station at Tulia)

Lockney - Floydada system — \$6,431,000 (transmission pump station at junction; approximate-

ly 126,000' 18" supply line to a ground storage and pump station near Lockney; approximately 5,000' 12" supply line from ground storage to Lockney; approximately 61,000' 14" water supply line from ground storage to Floydada)

The Authority has made application to the Farmers Home Administration, United States Department of Agriculture, for long term loans to finance a major portion of the cost. In addition, the Authority has applied for a \$1,000,000 grant from Farmers Home Administration to be applied to the supply facilities. At this point, the Authority has received no commitment from FHA that the loans or grant will be approved other than an acknowledgment that the project is eligible for consideration. In the

opinion of the board of directors, evidence of the member cities' willingness to proceed with the project through a favorable result of a bond election to authorize the necessary general obligation bonds for the supply facilities would be of assistance to the Farmers Home Administration in determining their position on the Authority's application. In addition, the City of Silverton is experiencing a water shortage and must have some indication of the Authority's intent to proceed with construction or in the alternative, attempt to independently develop a separate water supply.

If the voters in all of the four cities do not approve the Mackenzie Bond Issue, it will be necessary for the City of Silverton to purchase land outside the city for

the purpose of piping water from that location to Silverton. This will be a costly undertaking, since it would have to be done by this city alone. Even though the land could be rented as a dryland farm, the pipeline would have to be constructed to the location. There would be no guarantee as to how long that underground source would last.

Silverton's City Council was not happy with the water shortage situation that has existed during 1980 and was not pleased with the water rationing steps that had to be taken. It is the desire of the council to have concrete plans for avoiding a repeat of this situation before another summer.

Each city would be entitled to receive an adequate supply of water from the Mackenzie Reservoir, and might possibly be able to make arrangements to sell some of its allotted water to help finance its part of the cost if other purchasers are willing to build their own pipeline and buy this surplus water.

Continuation of reliance on ground water supplies, primarily the Ogallala formation and possibly the Santa Rosa formation is not practical. Definitive long range studies indicate that the Ogallala formation is being depleted of water with little or no recharge. Water from the Santa Rosa formation has been used by the City of Tulia but water from this formation is often of unsuitable quality and quantity.

Already the City of Silverton has had experience with locating a supply of water in the Santa Rosa formation. This well was drilled near the location of the old city hall. The State Department of Health would not allow this water to be used because of a high iron content, which would give residents the symptoms of a stomach virus.

Monthly water rate structures have been projected approximately as follows. These rates are not recommendations, but are intended for guidance.

Tulia—First 3M gallons, \$9.00 (minimum); next 7M gallons, 1.50 M; next 10M gallons, 1.25 M; all over 20M gallons, 1.00 M

Silverton—First 2M gallons, \$13.00 (minimum); next 3M gallons, 1.50 M; next 10M gallons, 1.25 M; all over 15M gallons, 1.00 M

Lockney—First 2M gallons, \$11.00 (minimum); next 8M gallons, 1.50 M; next 10M gallons, 1.25 M; all over 20M gallons, 1.00 M

Floydada—First 2M gallons, \$10.50 (minimum); next 8M gallons, 1.50 M; next 10M gallons, 1.25 M; all over 20M gallons, 1.00 M

These estimated water rates vary from city to city since the cost of water delivery to each city differs depending on the distance of each city from the transmission station at the junction, the amount of water delivered to each city and the cost of the separate transmission systems. In addition, operating expenses and other costs in each city's waterworks system must be considered.

There will be only one proposition on the ballot: to authorize the Authority to issue \$2,150,000 general obligation bonds. The election must carry in each city for the bonds to be authorized. If the election is successful, the board of directors will continue to pursue construction of the entire project as outlined.

Any resident of Tulia, Silverton, Lockney or Floydada who has been a registered voter for at least 30 days prior to the election is qualified to vote.

The election will be held on Saturday, November 22, 1980 from 7:00 a.m. until 7:00 p.m. at the City Hall in each city.

Absentee voting will be conducted beginning Monday, November 3, through Tuesday, November 18. Residents of each city may vote absentee by personal appearance before the City. See MACKENZIE BONDS—CONTINUED ON PAGE FOUR

Lions Club Meets At Noon Today

Silverton Lions Club will meet today (Thursday) at 12:00 noon at the City Hall.

There will be a program and a meal will be served.

All members are encouraged to attend and bring a prospective member.

Fire Department Meets Tonight

Silverton Volunteer Fire Department will meet today (Thursday) at 7:00 p.m. at the fire station.

Student Council To Sponsor Halloween Carnival

The Halloween Carnival will be sponsored this year by the Silverton High School Student Council. For information on booths, please contact Jealeta Baird at 823-2476.

Student Council is also selling stocking caps for a money-making project. They have Silverton Owls written on them and they are \$6.00 each. Contact any Student Council representative.

Fire Department To Serve Chili-Bean Supper October 17

Silverton Volunteer Fire Department will serve a Chili and Bean Supper Friday, October 24, in the school cafeteria. This will precede the Silverton vs. Valley football game.

Serving will be from 5:00 until 7:00 p.m. Proceeds will be used to help pay off the note on the new fire truck.

IN HOUSTON HOSPITAL

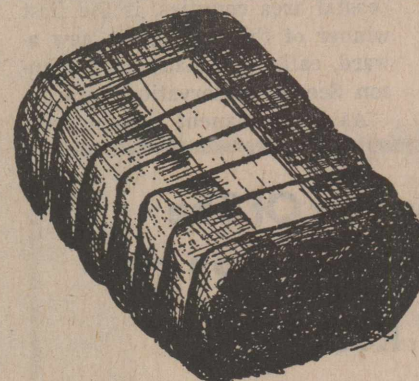

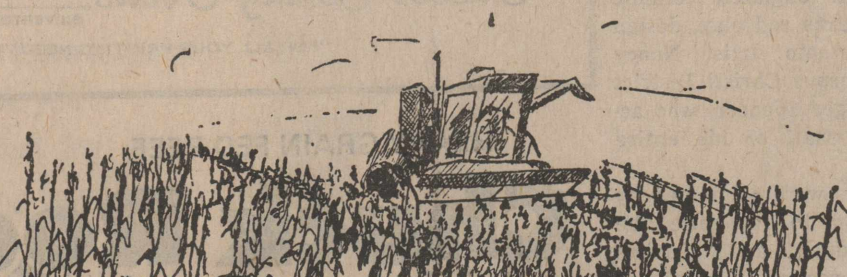

Gwan (Highway) Wilkinson is a patient at St. Luke's Hospital in Houston this week. He entered the hospital Monday afternoon and has been undergoing heart tests. There is a possibility that he may undergo open heart surgery later this week.

Mr. and Mrs. Wilkinson were in Stonewall last Thursday for a barbecue and presentation of highway beautification awards which was hosted by Mrs. Lady Bird Johnson at the LBJ State Park. The Wilkinsons went on to Houston from there since he was scheduled to enter the hospital on Monday.

Appreciation

On behalf of all the Briscoe County 4-H'ers, adult leaders, and Extension Agents, thanks are expressed to all who helped by donating their time, food and hard work toward making the Briscoe County 4-H Pig Sale a success again.

VOLUME 72 NUMBER 42

THURSDAY, OCTOBER 16, 1980

1980 FOOTBALL QUEEN Missy Brown and the members of her court: (from left) Cynthia Ed-

wards, Donna Boling and Joni Denton. Briscoe County News Photo

Missy Brown Is Football Queen

In pre-game activities Friday night, Melissa Ann Brown was crowned 1980 Football Queen with the traditional football helmet crown, and was presented a congratulatory kiss and a bouquet of red roses by the football captains.

A sophomore cheerleader, she is the daughter of Mr. and Mrs. Don Brown.

The other nominees for the honor were Joni Denton, senior, daughter of Rev. and Mrs. Royce Denton; Cynthia Edwards, junior, daughter of Mr. and Mrs. Harold Edwards; Donna Boling, freshman, daughter of Mr. and Mrs. Bill Boling.

The Owls lost a 38-0 decision to the Motley County Matadors in the game which followed.

"Motley County has a good team and isn't going to lose many games this year," Coach Joe Stubblefield said of the Owls' last opponent.

Casey Bean was the highest grading back, and Bill Settle was the highest grading lineman in the Owls' loss to Motley County. Gary Juarez was the leading tackler with 12. Jim Estes and Mark Patton each recovered a Motley

fumble. "We have a good chance of winning this week, and maybe the rest of our games with the exception of Valley," Coach Stubblefield said. "And Valley's defense showed some pretty good holes in it in their game against Happy."

"Happy has a good offensive team. We will have to shore up our pass defense. It is a pretty even match. The edge could go against us if Happy gets their passing game going. They got it going pretty good against Valley."

Game time at Happy will be 7:30 p.m., and the Owls will need their fans to pack the stands and make a lot of noise for them as they endeavor to win game number two.

Both the Junior High and Junior Varsity Owls will have games with Happy here this afternoon. The junior high, after losing 6-0 at Matador last week, will lead off the action at 5:00 p.m. The junior varsity team was idle last week, and will play following the junior high game today.

Senior Citizens To Have Luncheon

Silverton Senior Citizens will meet Friday, October 17, 1980 for their regular monthly luncheon and business meeting.

Ladies of the Church of Christ will be hostesses for the luncheon.

William McDaniel Buried at Plainview

Funeral services for William Thomas McDaniel, 79, of Plainview were conducted at 10:00 a.m. Saturday, September 27, at Wood-Dunning Colonial Chapel in Plainview. Jim Beyer, elder at Greenlawn Church of Christ in Lubbock and professor at Lubbock Christian College, and Brent Adams, minister at Ninth & Columbia Street Church of Christ in Plainview, officiated.

Burial was in Plainview Memorial Park under the direction of Wood-Dunning Funeral Home of Plainview.

Mr. McDaniel died at 2:05 p.m. Thursday, September 25, in Central Plains Regional Hospital after a lengthy illness.

The Briscoe County native worked in the oil fields since his youth. He married Louise Lindermann November 24, 1932, in Hollis, Oklahoma. They moved to Plainview in 1945 from Goldsmith.

The World War I veteran was a retired oil well driller and a member of the Arch J. Keys Masonic Lodge No. 1395 and the Ninth & Columbia Street Church of Christ.

Survivors include his wife; a son, Raymond of Lubbock; two sisters, Edyth Wilson of Plainview and Mrs. Ray W. Crouch of Mena, Arkansas; a brother, R. N. McDaniel of Silverton, and two grandchildren.

Vaughan Services Today In Amarillo

Funeral services for W. S. D. (Dan) Vaughan, 71, of 3616 Lamar in Amarillo, will be conducted at 2:00 p.m. today (Thursday) at Schooler-Gordon Colonial Chapel in Amarillo. Officiating will be Dr. Jim T. Pickets, pastor of St. Stephen United Methodist Church. Burial will be in Llano Cemetery, with arrange-

Clinic Closed Rest Of The Week

The Briscoe County Clinic will be closed the rest of this week due to illness in the family of Dr. James Chua Tuan.

Dr. Tuan flew to New York Tuesday morning to accompany his younger sister to Houston where she was admitted to M. D. Anderson Hospital.

Club Has Program On Dough Art Crafts

The Progressive Homemakers met Monday, October 13, at the Pioneer Room of the First State Bank. Their special guest, Mrs. John T. Francis, gave an interesting demonstration of dough art crafts. Mrs. Francis explained the procedure of making crafts using dough and brought a selection of items she had made. The club members thoroughly enjoyed her program.

Following the demonstration, refreshments were served by Marsha Brunson, Sheryl Breedlove and Pat Arnold to Mrs. Francis and another guest, Vicki Bean, and to members Roy Reed, Sandra Smith, Reba Self, Denise Kellum, Kathy Kingery, Beverly Minyard, Debbie Weaks, Christy Northcutt, Bena Hester, Teresa Reid, Dorothy Martin, Anita Ramsey, Gayla Ziegler, Kathy May and Nedra Hardin.

ments directed by Schooler-Gordon Funeral Directors.

Mr. Vaughan died Monday. Born in Erick, Oklahoma, he had lived in Amarillo 44 years. He retired after 32 years with Amarillo exterminating Company. He was a charter member of St. Stephen United Methodist Church.

Survivors include his wife, Annie Pauline; a daughter, Mrs. Homer Bradley of Amarillo; three sons, Bill Vaughan and Gene Vaughan, both of Amarillo, and Bob Vaughan of Pueblo, Colorado; two brothers, John K. Vaughan of El Paso and Eugene Vaughan of Silverton; two sisters, Mrs. Elnora Rowell of Amarillo and Mrs. Alice Hughson of Stamford, Connecticut; 22 grandchildren and 10 great-grandchildren.

The family requested that memorials be to the American Heart Association.

Lady Bird Johnson Honors Highway Department Employees

Lady Bird Johnson honored several employees and a district office of the Texas State Department of Highways and Public Transportation for their outstanding efforts in highway beautification and environmental preservation in Stonewall last Thursday.

West Texan John E. Stephens, the department's maintenance construction supervisor in Robert Lee, became the eleventh winner of the coveted Lady Bird Johnson Award for his work in highway beautification during the past year.

Stephens, a departmental employee for over 20 years, was chosen as the 1980 award recipient for his care in beautifying the 200 miles of highways under his maintenance jurisdiction in Coke County. He has nurtured native trees, grasses and wild flowers and has been instrumental in enhancing area highways surrounding E. V. Spence Lake.

During a reception and barbecue luncheon for some 200 guests

hosted by Mrs. Johnson at the Lyndon B. Johnson State Park in Stonewall, she presented to Stephens a handsome, bluebonnet-embellished plaque and her personal check for \$1,000.

The second place award for highway beautification, with a \$500 check, went to John D. (Pete) Brooks of Mineola. Four additional maintenance supervisors were honored at the park as finalists in the beautification competition: Merle Miller of Monahans, W. T. Sullivan of Claude, Ed Wheeler of Shackelford County, and Gwan Wilkinson of Briscoe County.

The ceremonies this year were expanded to include a special environmental preservation award announced in 1979 by Mrs. Johnson. The department's Corpus Christi district, comprised of 10 coastal area counties, is the first winner of the prestigious new award, called the Lady Bird Johnson Scenic Preservation Award.

As a permanent commemora-

Young Farmers Have Monthly Business Meeting

On Thursday, October 9, Silvertown Young Farmers met in the Silvertown School Vocational Agriculture department for their monthly business meeting.

Bill Reid presided over the meeting. The club discussed having the annual turkey shoot and voted not to sponsor it due to high cost of the prizes and location.

The club will place tires on the elementary school playground. Rain had delayed doing it earlier.

Halloween carnival booths were discussed. Members voted to have at least one booth, that being a money slide.

Plans were made for a cookout for members to be held Saturday, October 11, with steak and all the trimmings.

Those attending were Reid, Clinton Dickerson, Rene Garcia, Tommy Bullock, Fred Brannon, Donnie Perkins, Tobe Riddell, Joe Garcia, Manuel Aguilar, Rodney Bullock, G. W. Chappell, Wayland Fitzgerald, Gary Weak and Wayne Stephens.

In recognition of the honor, Mrs. Johnson presented an unglazed ceramic plaque of Texas red clay, design by San Antonio artist Nancy Pawel, to Corpus Christi District Engineer Roger Spencer, who accepted on behalf of his entire staff.

The awards were originated by Mrs. Johnson to recognize the DHT individuals and districts who have excelled in highway beautification and scenic preservation, and to show her appreciation of the department's historic efforts to protect and spread wild flowers throughout the state.

A committee designated by Mrs. Johnson and chaired by Professor E. J. Urbanovsky of Texas Tech University selected the finalists and winners from nominees representing the department's 25 districts.

SILVERTON SCHOOL LUNCHROOM MENUS

CHOOSE BOOZE AND LOSE
 "One night in October, when I was far from sober, and dragging a load with many a pride,
 My legs began to flutter, so I laid me in the gutter,
 And a pig came up, and smug-gled by my side.
 Then I began to warble, 'It's fair weather'
 When good fellows get togeth-

er,"
 "I'll a lady passing by was heard to say,
 You can tell a man who boozes by the company he chooses,"
 The pig got up and quickly waled away!"
 "Who hath woe? who hath sorrow? who hath contentions? who hath wounds without cause? who hath redness of eyes? They that have long at the wine; they that go to seek out mixed wine. Look not thou upon the wine when it is red, when it sparkleth in the

cup, when it goeth down smoothly: at the last it biteh like a serpent, and stingeth like an adder. Time eyes shall behold strange things, and thy heart shall utter perverse things. Yea, thou shalt be as he that lieh down in the midst of the sea, or as he that lieh upon the top of a mast. They have stricken me, shalt thou say, and I was not hurt; they have beaten me, and I felt it not: when shall I awake? I will seek it yet again." (Proverbs 23:29-35)

MULLIGAN STEW

Mulligan Stew is coming. No, it's not a recipe for a new dish, but an exciting television nutritional program for your kids. For six weeks, beginning October 25, the 30-minute program will be seen on Channel 4, KAMH in Amarillo, at 12:30 p.m. each Saturday.

The third through fifth grades in the Silverton and Valley Schools will be using supportive materials which are a part of the program package to involve students in classroom discussion, reading and other projects to teach nutritional needs, food selection, menu planning, shopping and preparation.

This is a cooperative effort between the school districts, the television station which is providing the air time, and the 4H and Extension programs which provide the teaching materials.

Mulligan Stew is the name of a five-piece kids' rock band which is the principal cast of the series. The band's zany friend Wilbur Dooright brings a nutrition assignment from "upstairs" in the format of the "Mission Impossible" TV secret agent series.

Each program also uses puppets in a "Sesame Street" atmosphere, original music and lyrics and interviews with astronauts, scientists and food authorities.

This is a good program for all ages. Parents can learn too. Remember the dates and times—October 25, November 1, November 8, November 15, November 22, November 29, at 12:30 p.m.—and plan for your children to watch these programs.

CRICKETS, CRICKETS EVERYWHERE

Hordes of field crickets have invaded parts of Briscoe County, creating a nuisance in some areas and causing minor plant damage.

Large numbers of crickets usually occur in the fall following prolonged dry weather. In the spring and summer, cooler fall temperatures and rains often trigger cricket migrations to lighted areas around buildings.

Field crickets can damage ornamental and garden plants. Inside homes and other buildings they become a nuisance and may occasionally feed on fabrics, especially clothing stained with perspiration or food.

It is suggested that you clean yard and garden areas to reduce cricket feeding and breeding sites. This includes destroying weeds and dense vegetation around homes and other buildings and remove piles of bricks, wood, stones and other debris where crickets may hide. Also clean out trash dumps.

Eliminating outside lights at night also helps keep crickets away from buildings and making sure that all screens and doors fit tightly will help keep the pests out of the home.

As far as insecticides are concerned, spraying outside around foundation walls, window and door facings, crawl spaces, door thresholds, and in and around garbage cans and wood piles is advised to keep crickets from moving indoors. Effective insecticides for outdoor use include chlordane (Dursban), diazinon, malathion, propoxur (Baygon), resmethrin, carbaryl (Sevin) and methaldelyde, the latter two as baits.

Field crickets lay their eggs in

BRISCOE COUNTY NEWS

PAGE THREE

the soil, with as many as three generations a year. In southern areas, they overwinter as eggs or nymphs (immature forms).

"FOR ALL YOUR PRINTING NEEDS"

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.

Re-elect Jack Highfower your Congressman

"I want to personally thank you for your splendid support in defeating the President's Hospital Cost Containment Bill. Your being aware of the effort of Texas Hospitals in trying to hold down cost on a voluntary basis justifies the defeat of this legislation."

Administration, Willinger General Hospital

"Your vote was definitely a vote to save untold millions of dollars energy-wise and also a vote to reduce governmental red-tape interference with everyone's lives..."

A Corbin Neal, Amarillo

"Just a note to express my appreciation for your support of my bill to exempt independent producers from the windfall profits tax. I firmly believe this... will greatly benefit our efforts to solve the energy crisis."

Congressman Kent France, Lubbock

"The Amarillo Senior Citizens Association wishes to thank you for your attention and kindness concerning our efforts and difficulties in clearing the mass of paperwork for our pending project."

C. T. Howell, President, Amarillo Senior Citizens Association

"...Thank you for the effort and service rendered by you on behalf of the people of this County and area pertaining to the approval of the Federal Aeronautics Administration of \$175,000 to be used in 1990 towards the renovation of the airport facility here... approval of funding will enhance the safety of those who must use the facility."

Clarke Abel, County Judge, Floyd County

"I am sure you were instrumental in helping get the Farnlands Emergency Crude Allocation approved. It will help to stabilize our source of supply for the coming summer months."

Lyle M. Robinson, General Manager, Slicker Electric Cooperative, Dalva

"We notice with great pleasure that the full committee passed the agricultural appropriations bill for next fiscal year with funds for research Extension and the West Texas boll weevil program... There is no doubt in our mind that your good efforts both in the subcommittee and the full committee must share a major responsibility for this positive action."

H. E. Dean, Plains Cotton Growers, Inc., Lubbock

"I want to express my personal thanks to you again for your support of the bill to curb the powers of the Federal Trade Commission... I would again ask you for your support in this matter which in my view is vital to the free enterprise system."

Dr. Jerry R. Broadway, Wichita Falls

"...announcement that Sheppard Air Force Base had been selected for the Euro NATO Joint Jet Pilot Training Program... was certainly welcome news. This program will have a considerable effect upon Sheppard, as it will now become the largest pilot training facility... the influx of about 350 students per year with their families, will also provide a substantial boost to the financial situation in the City."

WESTWARD DOUGH!
OR
how DO you COVER A Wagon?

The wild, wild West. Land of hope and opportunity to thousands of courageous settlers. But, if it weren't for the dollars of thousands more Americans taking stock in their country, there might never have been a West to go west to.

You see, money raised from the sale of government securities helped us purchase the Louisiana Territory from the French. Other securities helped buy the states of California, Nevada, Utah, western Colorado and most of New Mexico and Arizona from Mexico. Even settlement of the Oregon Territory was made possible through the issuance of United States securities.

Today, you can still take stock in your country's growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where you work. There's no easier, safer way to save or help your country. After all, U. S. Savings Bonds are still a great way for you to go West. Or East, North and South.

Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

JUDGES ATTEND SEMINAR— Ninety-six justices of the peace attended a 20-hour Texas Justice of the Peace Training Seminar September 16-17 in Amarillo. The training center is based at Southwest Texas State University in San Marcos. The seminars are held in compliance with article 5872, Section B, of the Texas Revised Civil Statutes. Among the judges attending were (left to right) Curtis O. Tunnell of Turkey, Hall County Precinct 4, Place 1; Ruby Roden of Memphis, Hall County Precinct 1, Place 1; Barbara Pigg of Silverton, Briscoe County Precinct 1, and Dick Taylor of Quitaque, Briscoe County Precinct 2.

Attend Annual Convention in Odessa

Barbara and Jon Earl Pigg attended The West Texas Justice of the Peace Association's annual convention October 9-11 in Odessa.

Elected to the Board of Directors for the coming year were Frank Macias, El Paso, chairman; Phil Woodall, Amarillo; Barbara Pigg, Silverton; Arvin Stafford,

Slaton; O. K. Neal, Hereford; A. O. Fields, Ozona; Charles E. Smith, Lubbock, and Charlie Gee, Odessa.

The 1981 convention will be held in Amarillo. Board members and the convention committee will hold a press conference in Amarillo on Tuesday of next week.

Attending Annual TEHA State Meeting in San Antonio

Four Southwestern Extension Homemakers members, Mrs. Polly Jarrett, Mrs. Sybil Teeple, Mrs. Lanita Cantwell and Mrs. Lois Nance, and County Extension Agent Mrs. Lynda Fogerson are joining more than 1,000 other delegates from across the state at the annual meeting of Texas Extension Homemakers Association (TEHA) this week in San Antonio.

They will be attending workshops concerning family life, health, safety, citizenship, 4H and youth recreation, and cultural arts and will bring home information to benefit more than 20,000 Extension Homemaker Club members in Texas counties.

Keynote speaker on Wednesday was Jane Segerstrom, author of "Look Like Yourself and Love It," who addressed the convention on that topic. "Heloise" who writes the syndicated column, "Hints from Heloise," will also be a speaker. Heloise of San Antonio, author of the nationally Mrs. Polly Jarrett will be in-

stalled as District Director of the South Plains District in ceremonies at the banquet tonight (Thursday) and will serve two years in this office. distributed column, is a "second generation" author of the column originated by her mother.

MACKENZIE BONDS—
CONTINUED FROM PAGE ONE

Secretary in their respective cities. Requests by mail for absentee ballots must be addressed to Mrs. Barbara Cabe, City Hall, 201 N. Maxwell Street, Tulia, Texas 79088.

For the City of Silverton, the solution to the water shortage is clear. New sources of water supply must be located to prevent the city from becoming a ghost town. With no new water supplies, property values of businesses and homes within the city will drop and it will probably be impossible to find buyers for any property. No one wants to live where there is an inadequate water supply.

No investment is safe when the threat of fire (with no water to extinguish it) is constantly present.

City residents are going to have to prepare themselves to pay the price for the new water supply. Careful comparison will show that the increased cost of water will be less than the cost of cable television, for example. Certainly an adequate water supply should be as important to local residents as entertainment.

Without approval of the bond issue, the Silverton City Council will have no alternative but to

purchase a new water supply. If this becomes necessary, local residents will have to pay the cost for the new water supply while at the same time having to pay for the Mackenzie Municipal Reservoir, which will at that time become a very expensive recreation area.

One argument that has been used against the Mackenzie project has always been lack of water; however, the present supply of water, estimated to be a five-year supply for the four cities, would seem to disprove that old argument. Even though large

amounts of runoff aren't received every year, the lake did receive its present water level sooner than had been expected. Even though no runoff of any consequence has been received in the last two years, the water level remains at 98+ feet, this

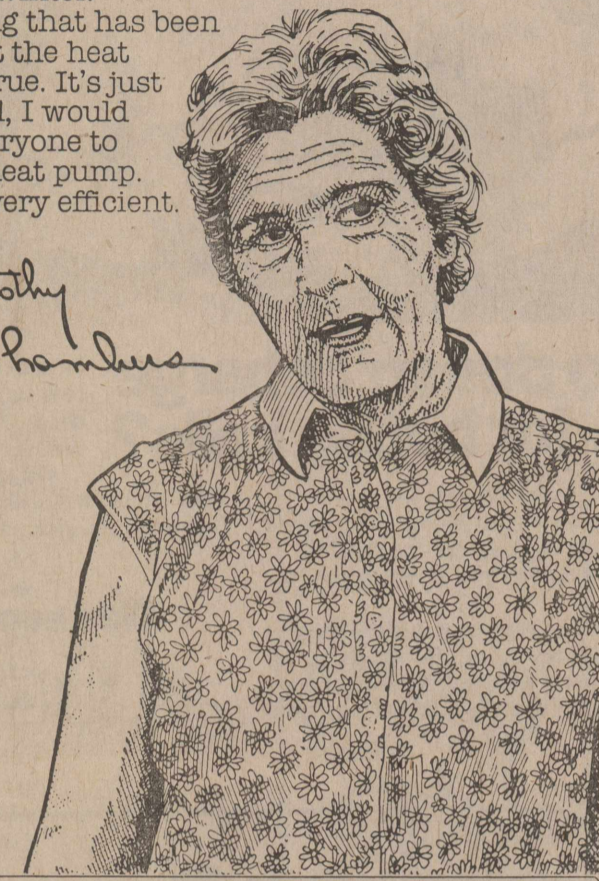

being 15,000 acre feet of water. Full, the lake will hold about 46,000 acre feet of water. There are about 285,000 gallons in an acre foot of water. Once full, the four cities would never be able to drain it. Lake Mackenzie is called "the 100-year reservoir" by the engineers.

It's True.

"We've had the heat pump about a year and four months. The heat pump has saved us a lot of money this past winter.

Everything that has been said about the heat pump is true. It's just great! And, I would advise everyone to install a heat pump. It's very very efficient.

Dorothy Chambers

The things said about the heat pump are true. Find out more about the heat pump. It can save for you.

Two can ride cheaper than one

Mrs. Stephens Buried Here Last Friday

Funeral services for Mrs. Maggie Alice Stephens, 85, were conducted at 3:00 p.m. Friday at the First Baptist Church in Silverton. Officiating were the pastor, Rev. Royce Denton, and Bro. A. C. Hamilton, Plainview minister.

Burial was in the Silverton Cemetery, with arrangements under the direction of the Silverton Funeral Home.

Mrs. Stephens died at 7:25 p.m. Wednesday, October 8, at Central Plains Hospital in Plainview. She had resided at the Heritage Home in Plainview for several years, and had been admitted to the hospital a short time before her death.

Born September 10, 1895 in Tennessee, the former Maggie Cowan married Robert E. Stephens December 8, 1912 at the home of his parents, Mr. and Mrs. D. H. Stephens, at Brinkman, Oklahoma.

They moved to Briscoe County in a covered wagon from Sayre, Oklahoma in September of 1919. They resided in Plainview one year and in Turkey two years, and with the exception of that time they made their home in Briscoe County until his death on July 14, 1971.

They operated a meat market in Silverton in the early days and furnished the horses to cover the first sewer lines laid in Silverton in about 1927.

Mrs. Stephens was a farmer's wife until the retirement of her husband. She was a member of the First Baptist Church in Silverton.

Known affectionately to many as "Aunt Maggie," she was preceded in death by her son, Herbert (Shine) Stephens.

She is survived by her daughter-in-law, Mrs. Margaret Stephens of Turkey; three grandchildren, Bobby Herbert Stephens of Hale Center, Roy Gene Stephens of Matador, and Mrs. Cheryl Ward of Cross Plains; six great-grandchildren, Kirk and Joel Stephens of Hale Center, Amy and Tye Stephens of Matador, Stacy Don and Jana Rene Ward of Cross Plains, and a number of nieces and nephews.

Producers Can Prevent Prussic Acid Poisoning

Frost will be hitting Briscoe County before long, and this could lead to prussic acid poisoning in livestock grazing certain pasture grasses and forages, points out Earnest Kiker, county agent with the Texas Agricultural Extension Service, Texas A&M University System.

Although many plants contain the toxic material that causes poisoning, those causing the highest mortality in livestock when grazed after they have been frozen and wilted are Johnson and Sudan grasses and sorghums or hybrids of these.

The most dangerous time as far as the grazing of these plants is concerned is following frost when the plant material begins to wilt, emphasizes Kiker. Livestock should not be allowed access to the wilted material until it has

dried completely. This usually takes three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

As far as prussic acid poisoning is concerned, the poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10-15 minutes after eating toxic material and can die in two to three minutes. Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. Stupor (loss of sensibility), difficult breathing and frequent convulsions may result. Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues. This also causes the blood to appear bright red.

To prevent prussic acid poisoning in livestock, Kiker outlines these steps:

1. Allow plant material affected by frost to dry thoroughly before grazing. This may require a week or more of good sunlight.
 2. Feed animals hay or a supplement before turning them in on plants that may contain prussic acid. Animals that are not hungry will not be affected as seriously by toxic material since their intake will be limited.
 3. Remove all animals from the pasture if one in the herd shows any signs of poisoning.
 4. Call a veterinarian immediately if an animal appears to be poisoned. An antidote to treat affected animals is highly efficient if given early. This product is available from veterinarians.
 5. Have suspect plant material checked by the Texas Veterinary Medical Diagnostic Laboratories at College Station or Amarillo. Local veterinarians will be happy to submit samples for you.
- The overall key to preventing prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then to keep cattle from grazing such plants until a safe period has passed, points out Kiker.

Coffee Honors Mrs. Montague

A coffee honoring Mrs. Jene (Patti) Montague was held in the home of Vicki Bean on Tuesday, October 7. Following a brunch of sausage balls, monkey bread, juice and coffee, everyone attending filled out an index card detailing directions to her home. These cards were later placed in a file box and presented to Mrs. Montague.

Hostesses for the coffee were Donna Francis, Denise Kellum, Michelle Francis, Flo Fitzgerald and Vicki Bean.

Attending were Polly Jarrett, Inetha Cantwell, Virginia Sissney, Theta Holt, Frances Kellum, Christene King, Nedra Hardin, Ramona Martin and Vanessa, Lois Nance, Lanita Cantwell, Glenda Francis, Sybil Teeple, LaVerne Mercer, LaNell Montague, Wilma Gill, Marie Garrison, the honoree and her mother-in-law, Mrs. Gordon Montague of Plainview.

A stitch in time OR Elias Howe was a SEW-SEW inventor.

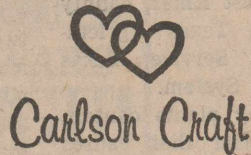

When Howe invented the sewing machine in 1846, he really got needed. Some tailors said a machine could never replace hand work, or so it seemed. But a few followed the thread of Howe's thinking. An automatic stitcher worked faster and more consistently, and the results were highly profitable. Which happens to be the same reason folks today sign up for the Payroll Savings Plan. It's tailored to let you buy U.S. Savings Bonds automatically. And that makes saving faster and more consistent. With results that are highly profitable. So, save regularly with U.S. Savings Bonds. You'll have your future all sewn up.

U.S. Savings Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Public Comment Requested On 1981 Cotton Program

Public comment is requested by December 2 on provisions of the 1981 cotton program. Ray Fitzgerald, administrator of the U. S. Department of Agriculture's Agricultural Stabilization and Conservation Service, said these provisions include whether there should be a set-aside or acreage diversion for 1981, the appropriate level for the target price and the national program acreage.

Fitzgerald said those favoring a set-aside or acreage diversion program should state the amount they recommend. He also asked for comments on these program items:

—If a set aside is in effect, should there be a limitation on upland cotton planted acreage, and if so, the extent of the limitation;

—The voluntary reduction from 1980 upland cotton acreage required in order to guarantee target price protection on total 1981 planted acreage;

—The national program acreage and program allocation factor for upland cotton.

The national program acreage is the number of harvested acres USDA estimates is needed to meet domestic and export requirements during the 1981-82 marketing year which begins August 1, 1981. The minimum national program acreage required by law is 10 million acres.

The allocation factor is determined by dividing the NPA for the 1981 crop by the estimated harvested acreage for the crop.

Whether compliance with the farm normal crop acreage should be required as a condition of eligibility for loans and payments.

On August 28, Fitzgerald asked for comment on the 1981 loan rate for upland cotton and whether a seed cotton loan program should be offered.

The loan rate must be announced by November 1 and the national program acreage and the voluntary reduction percentage by December 15. The other provisions have no statutory deadline.

The proposals were to be published in the October 3 Federal Register. Comments should be sent to Director, Production Adjustment Division, Room 3630 South Building, Agricultural Stabilization and Conservation Service, U. S. Department of Agriculture, P. O. Box 2415, Washington, D. C. 20013. They will be available for public inspection in Room 3623 of USDA's South Building during regular business hours.

Additional information and a copy of the draft impact analysis may be obtained from Chief, Program Analysis Branch, ASCS, P. O. Box 2415, Washington, D. C. 20013, telephone (202) 447-7873.

Young Farmers Host Supper

Silverton Young Farmers hosted a supper for its members on Saturday, October 11.

Steaks, potatoes, salads and the trimmings were served by Calvin Shelton, Rodney Bullock, Dinnie Perkins and Tommy Bullock.

Enjoying the cookout and visiting were G. W. Chappell, Joe Garcia, Manuel Aguilar, Rene Garcia, Bill Reid, Tobe Riddell, Clinton Dickerson, Jeff Tiffin, Greg Hill, Fred Brannon, Wayne Stephens, Fred Hill, Calvin Shelton, Fred Minyard, Tommy Bullock, Donnie Perkins, Rodney Bullock, Charlie Parker, Slim McWilliams, Harvey McJimsey and Gail Bullock.

Growing Washington-based GOVERNMENT seeking branches all points West.

Major BENEFITS.

Option for STATEHOOD.

Even the Founding Fathers knew thirteen was only for starters.

So it wasn't long before sights were set on the land to the west.

But it took money to explore and settle. And thanks to Americans taking stock in their country, the money was there.

Today, taking stock in your country is just as important. And one of the best ways to do it is to buy U.S. Savings Bonds.

Just join the Payroll Savings Plan at work. Out of each paycheck, a little is set aside to buy Bonds. Automatically. And that means regular savings you can depend on.

Buy U.S. Savings Bonds. There's no safer way to save.

After all, the money's guaranteed by the home office.

Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

200 years at the same location.

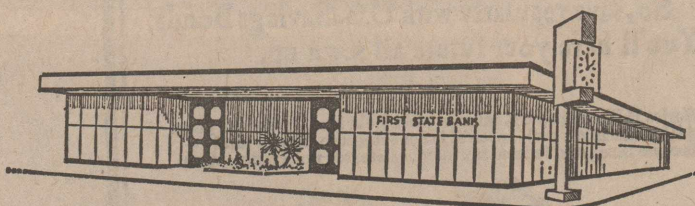

Buy a bigger share in your community

You are a shareholder in your community. As a shareholder in a community, or a shareholder in business or industry, you are interested in three things. First, continued investment growth; second, security that your investment is protected; and third, periodic dividends.

Everytime you make a purchase in our community you add to and protect your investment. And periodic dividends appear in new community opportunities and improvements.

You have made a very important investment. Protect that investment. Shop at home.

THE JOY OF SHARING

There is pleasure in doing things with others. It may be looking at a picture magazine, or riding toys, or for parents it may even be sharing knowledge of the day's events that bring joy.

God's people have a desire to share with you in the greatest joy, that of worshipping together in God's House. **ATTEND CHURCH**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

BALE SPIKE
Move big round bales with your Pickup
* More Traction in Wet or Frozen Weather Than Trailer Models
* More Comfortable and Less Expensive to Operate Than Tractors
* Fits All Standard Size 1/2 Ton or Larger Pickups
* Removes from Pickup Bed in 2 Minutes
* All Weather Powerful Winch
* Cheaper Than Automatic Trailers
* Will Not Interfere with Tool Box, Gooseneck Hitch, or Butane Bottle
* Can Also Be Used on Tractor 3 Point
Stop Sliding, Slipping, & Sticking
Put the weight of the bale on your rear wheels and go through that bad spot.
COME, SEE AND DEMONSTRATE

BUY YOUR TWINE AT THE IH SIGN.

It pays to buy top quality in any product. In twine, top quality means fewer broken bales, freedom from snarled knotters, less lost time. You can be sure of these benefits with International plastic or sisal twine. Settle for a cheaper twine and you may be settling for less tensile strength, shorter footage, and more headaches.

1980 BALER TWINE PRICES
IH PLASTIC for Sq. Balers

7200 ft. ctn.	(999172R1)
