

Fire Department Meets Tonight

Silverton Volunteer Fire Department meets at 7:00 p.m. today (Thursday) at the Fire Station.

Lions Club Meets At Noon Today

Silverton Lions Club will have its regular noonday meeting today (Thursday) at The Coffee Shop. A good meal and a good program will be provided. All members are urged to be present.

Athletic Banquet Is Saturday Night

The annual All-Sports Banquet will be held at 8:00 p.m. Saturday, May 23, in the school cafeteria.

Each family is to bring a salad and vegetables or dessert.

Awards will be presented to the most outstanding boy and girl athletes, and all who have participated in athletics will be recognized.

Speaker for the banquet will be Jerry Moore, head football coach at Texas Tech University. Moore spent the last two years as coach at North Texas State, and before that time had been an assistant coach at Nebraska.

Everyone is invited to attend the banquet, which is sponsored by the Silverton Booster Club.

Morgan Will Be New School Principal Here

Leonard Morgan, who has been at Three Way School about five years, will be the Silverton School Principal next year.

His wife, Florence, will teach in the elementary grades.

Prior to going to Three Way, which is west of Littlefield, Morgan was at Knox City. He formerly was an agriculture teacher. He received his ag degree from Southwest Texas State University at San Marcos, his master's degree in education from East Texas State University in Commerce, and his administrative certificate from West Texas State University in Canyon.

He will replace Gene Gee, who resigned earlier in the school year. Mr. Gee has not yet formally announced his plans for next year, but he has been seeking a job outside the teaching field.

Stretch and Sew Class Offered

There will be a Stretch and Sew class offered in Silverton beginning June 1, if a few more register to take the class. Twenty persons are needed to begin the class.

There will be four lessons, June 1-8-15-22, in the Pioneer Room at First State Bank on Monday evenings. The cost of the complete course will be \$25. The lessons will cover T-shirts, tab front slacks and skirts, V-neck and jacket.

Deadline for registration is May 22.

Anyone interested in taking the classes is asked to contact Gail Wyatt at 847-2570.

ADULT HOMEMAKING

REGISTRATION NEEDED NOW

Adult summer homemaking classes will feature macrame through June 10. Clothing classes will be held June 16-19.

Anyone interested can contact Mrs. Trudy Coker at the school.

VAUGHAN REUNION

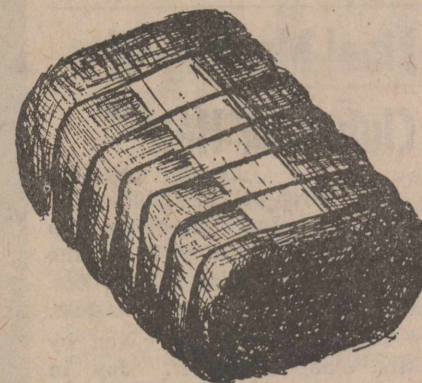

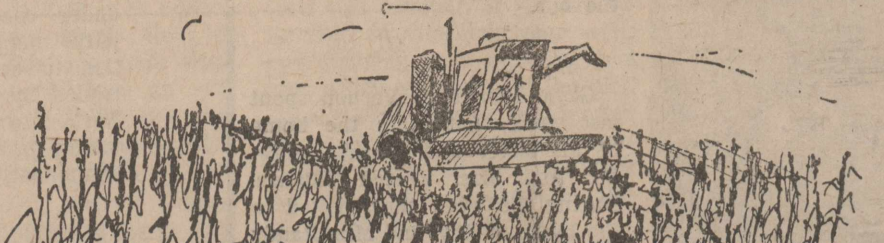

SLATED HERE SUNDAY

The public is invited to attend the annual Vaughan Cousin's Reunion Sunday, May 24, 1981, at the Silverton School Cafeteria.

You are invited to come and bring a covered dish and have lunch with the family, or to stop by for a visit.

Mr. and Mrs. Kenneth Davis of Redlands, California have recently spent six days visiting relatives and friends here.

Silverton: Home of Scenic Lake Mackenzie

Briscoe County News

THURSDAY, MAY 21, 1981

VOLUME 73 NUMBER 21

Council Votes To Dig New City Wells

In a special called meeting at 5:00 p.m. Monday, the Silverton City Council voted to dig and test pump five new water wells on the townsection, in an effort to provide water for residents until such time as the Mackenzie water can be made available.

This will be done at a cost of approximately \$8,000.

The Council has been giving serious consideration for the past several weeks to the matter of providing a new source of water for Silverton residents. Earlier the Council had negotiated with James Griffin for the purchase of water from his farm east of Silverton. This could

have cost as much as \$100,000 by the time the water was purchased and a pipeline built.

All of the city water wells have declined, and during last summer's extremely hot, dry weather conditions the decline was marked. On April 15, 1980, the total well output was 612 gallons per minute. On July 14, 1980, the wells were pumping a total of 307 gallons per minute. This was at the height of Silverton's water crisis.

The total output of the combined wells now is approximately 600 gallons per minute.

Water pumped in June 1979 was 2,682,000 gallons, as compared with 4,866,000 gallons in June 1980. Water pumped in July 1977 was 6,352,000 gallons; in July 1978, 6,178,000 gallons; and in July 1979, 4,124,000 gallons.

The 1978 rainfall was 24+ inches, in 1979, 30+ inches, and in 1980, 19.71 inches. Another hot, dry summer is predicted for this area, and since the rainfall already is lagging behind (with May and June usually being good rainfall months) it is likely that this prediction is accurate. Silverton's normal annual rainfall is 20.50 inches.

Stan Fogerson accompanied Mackenzie Municipal Water Authority Manager Neil Taylor and other Mackenzie board members to Austin Monday to meet with the State Water Board. Should decisions favorable to the Mackenzie Authority be forthcoming, and should grant money be made available in the near future, it is estimated that the earliest that Mackenzie water could be made available to Silverton would be 1984. It is hoped that the new wells that will be drilled in the next few weeks will provide enough water to keep Silverton residents supplied until that time.

CROP AND LIVESTOCK REPORTS NEEDED

During late May and June, many Texas farmers and ranchers will receive crop or livestock questionnaires from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff.

The crop and livestock information gathered through the questionnaires and interviews is kept confidential, and it is the basis for setting crop acreages and midyear livestock inventories to be published in June for the state of Texas.

These crop and livestock reports help farmers and ranchers in working out their production and marketing plans and keep them informed on the current agricultural situation. Even though response is voluntary, each farmer or rancher who is contacted is urged to cooperate, helping to make the crop and livestock reports to be published as accurate and reliable as possible.

GILL TO ATTEND SCIENCE SYMPOSIUM

Eber Gill, junior student in Silverton High School, has been selected to attend the 21st Annual Texas Energy Science Symposium at the University of Texas June 2-5.

Gill, son of Mr. and Mrs. John Gill of Silverton, is a member of the football and basketball teams. He is also president of the FFA Chapter, the Junior Class, and is vice-president of the Student Council. He is interested in snow skiing, water skiing, modeling and reading.

Some 500 outstanding science students and teachers from throughout the state have been selected by their schools to attend the four-day meeting which is sponsored jointly by the Texas Atomic Energy Research Foundation (TAERF) and the University of Texas.

Southwestern Public Service Company, a charter member of TAERF, is sponsoring 42 High Plains participants, including the students and teachers.

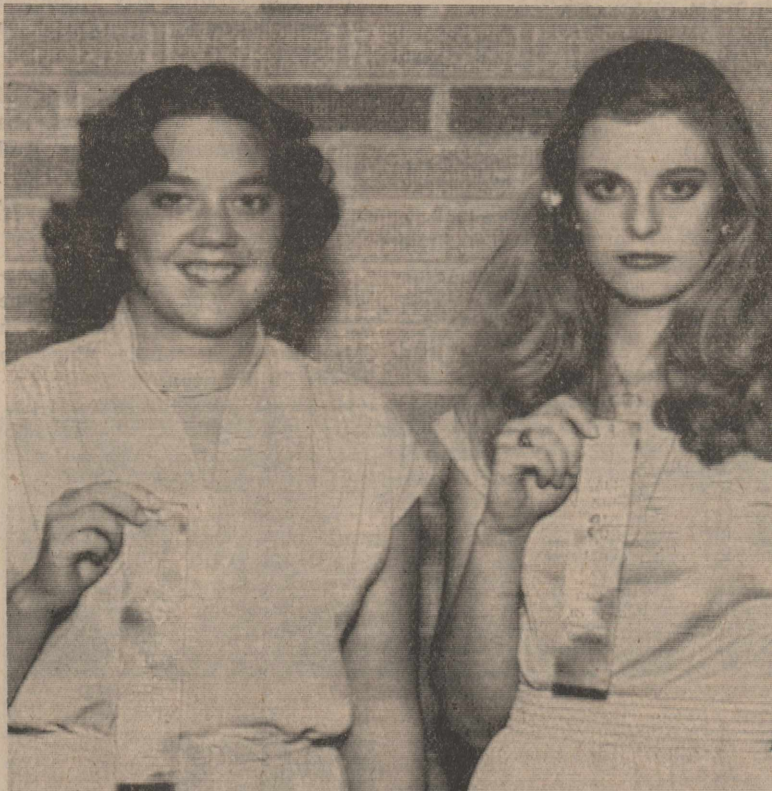

Participants will spend two afternoons touring the science laboratories at the University, including those where experiments sponsored by the foundation are being carried on in thermonuclear (fusion) research.

THIRD GRADE PRESENTS PLAYS FOR PARENTS

The third grade class presented two plays for their parents in honor of Mother's Day. They were "Rumpelstiltskin" and "The Trial of Mother Goose."

Each mother received a special corsage made by her child and a recipe booklet of their favorite recipes.

Immediately following the production the class served assorted cookies, cakes and candy as well as strawberry punch to about eighty people.

BRENDA BOLING and KIM FITZGERALD won a trip to the Texas 4-H Roundup at College Station in June by winning first place with their illustrated talk on Family Life May 9 in Lubbock.

CYNTHIA EDWARDS won second place and a trip to the District II 4-H Contests in Lubbock May 9. Her illustrated talk was on Clothing.

KEELEY BURSON and TARA NANCE won first place at the District II Contests in Lubbock May 9 with their illustrated talk on Companion Animals. Juniors do not advance to state contests.

Water Treatment Loan Action Delayed

Action on a \$7.37 million state loan requested by the Mackenzie Municipal Water Authority to finance construction of water treatment facilities and lines to serve Tullia, Lockney, Floydada and Silverton has been postponed until at least next month.

Texas Water Development Board members indicated they support the project, but postponed action on the loan because the requested amount would drain all remaining money in the

Water Development Fund. Board members noted that if the loan was granted now, there would be only a \$5 million contingency fund for emergency loans.

Mackenzie Municipal Water Authority officials plan to build a four million gallon per day treatment plant at Mackenzie Reservoir to serve the four cities. Total cost of the project is estimated at \$15.73 million and construction tentatively is scheduled to begin in mid-1982.

The plant would be located northwest of Silverton and calls for transmission lines of about 43 miles to Floydada and Lockney and about 25 miles to Tullia.

Water authority officials are hoping approval of the loan by TWDB will help the authority secure a \$1 million grant from the Farmers Home Administration. The authority has \$1.255 million in unissued bonds and the taxpayers voted \$2.14 million in additional bonds last fall.

The FmHA request would provide enough financing for construction of the transmission lines and related costs.

The state board has authorized the sale of \$50 million in bonds to provide more funds for the Development Fund, but has been unable to sell the bonds because of the six percent limit on the amount of interest which may be paid.

Board member Lonnie A. (Bo) Pilgram suggested the board grant a commitment for the loan with the condition that the money is available when the project is actually started. The authority's financial consultant, however, said such a commitment would be of little help in obtaining the FmHA grant.

The board will consider the matter again in June.

Piano, Voice Pupils To Present Recital

The piano and voice students of Mrs. Mary Ann Rauch will be presented in recital Sunday afternoon at 3:00 o'clock at the First Baptist Church.

Those taking part will be Phillip Bridges, Michael Flowers, Annette Kingery, Stacey Robertson, Jan Reynolds and Eber Gill.

The public is invited to attend.

Awards Assembly Being Held Today

The Silverton School Awards Assembly will begin at 10:30 o'clock this morning in the school auditorium. Awards will be presented at this time to all students except the valedictorian and salutatorian, these awards to be presented at the graduation exercises May 29.

Moving-up Day for the eighth, ninth, tenth and eleventh grades will be Friday, and the ceremony will begin at 10:30 a.m. in the school auditorium.

Drug Store Moving To New Location

Jack's Pharmacy will be closed Saturday and Monday, for the purpose of moving to its new location. The drug store will be moving to its former location, which is south of its present location.

Cameron Nabs Debate Crown

The Cameron University Speech Team has claimed the national championship by winning first place sweepstakes in the 32nd biennial Pi Kappa Delta National Speech Tournament.

The 12-person Cameron team, competing against 700 participants from 102 schools in 32 states, won first place sweepstakes at the tournament held in Gatlinburg, Tennessee.

Cameron racked up 98 points, while Clarion State University of Clarion, Pennsylvania, had 93 points.

Cameron also won the national championship in 1979, the last time the tournament was held. The national tournament is held every two years under the sponsorship of the Pi Kappa Delta national honor forensic society.

"This tournament is recognized as the national championship," said Tony Allison, associate professor in Cameron's Department of Performing Arts. Allison coaches the debate team while J. C. Hicks coaches persons in the individual events.

"Dr. Hicks and I both were just thrilled with the outcome of the tournament," Allison said. Each of the students on the team contributed to the win, Allison said. Many students received a rating of superior, placing them in the top ten percent, or excellent, placing them in the

top 20 percent. Miss Bonnie Chappell, who is librarian at Golden Gate Seminary, Mill Valley, California, is visiting this week with her sister and brother, Mr. and Mrs. Warner Grabbe, Mr. and Mrs. G. W. Chappell, other relatives and friends.

If any of the students had been absent, Cameron wouldn't have won the national championship, Allison said.

Allison said there are three national speech tournaments held every year: one for debate only, one for individual events only, and the April event, which combines debate and individual events and includes a team sweepstakes award.

"Cameron is recognized as the top university in the country in team sweepstakes," Allison said.

The Pi Kappa Delta event is open only to four-year colleges and universities. Cameron University, formerly Cameron Junior College, joined in 1975 and was rated excellent in the tournament held in Philadelphia that year, Allison said.

In 1977, Cameron competed in Seattle against about 110 teams and came in sixth place, receiving a superior rating.

Cameron came in first place in the national tournament held in St. Louis, Missouri in 1979. Allison said he doesn't know yet whether anyone besides Cameron has ever won two national championships in a row.

The students on the speech team will be teaching workshops this summer, Allison said.

Allison is the son of Mr. and Mrs. Claude Allison of Silverton, and is a graduate of Silverton High School. He has been at Cameron in Lawton, Oklahoma for the past several years.

Mrs. Edwin Clark Is Final Meeting Of Shower Honoree Club Year Held

Mrs. Edwin Clark of Amarillo, the former Phyllis Crow, was guest of honor at a miscellaneous shower from 10:00 until 11:30 a.m. on Saturday, May 16, in the home of Mrs. Winston Hamilton.

Mrs. Darrah McCammon and Mrs. Lenda Clark served coffee, spiced tea, sausage pinwheels, strawberry cakes and banana nut bread from a round table covered with a beige cloth. Dark brown napkins and a potted peromia plant accented with yellow flowers accented the table.

Guests were greeted by Mrs. Jo Hamilton, and presented to the honoree and her mother, Mrs. Virgil Crow.

A ginger jar lamp was a gift to the honoree from the hostesses, Mmes. Betty McPherson, Bessie Sauls, Ravenel Grewe, Jackie Mercer, Delores Pigg, Elsie Cornett, Lou Younger, Dotie Long, Georgia Allard, Diamond Williams, Dorothy Crabb, Lenda Clark, Darrah McCammon,

The March of Time Study Club held its final meeting of the club year Thursday, May 7, in the home of Mrs. Jackie Mercer. Mrs. Iris Burson served as co-hostess.

The devotional was given by Mrs. Pauline Turner. "Joy in Closing the Ledger" was the theme of a Presidents Luncheon honoring the outgoing president, Mrs. Mattye Mayfield.

Following the luncheon, officers were installed for the next club year. Mrs. Norma Birdwell, a member of the Century of Progress Study Club, was the installing officer. Those installed were Miss Luree Burson, president; Mrs. Iris Burson, first vice-president; Miss Anna Lee Anderson, second vice-president; Mrs. Pauline Turner, recording secretary; Mrs. Daisy Burson, corresponding secretary; Mrs. Jewell Lyon, treasurer; Mrs. Mat-

Norma Payne, Ella Leah Riddell and Jo Hamilton.

TAMMIE HAMILTON
 PATRICK ALAN CRAIG

JULY WEDDING BEING PLANNED

Mr. and Mrs. Wayne Hamilton of Tulla announce the engagement and approaching marriage of their daughter, Tammie Lee, to Patrick Alan Craig, son of Mr.

tye Mayfield, parliamentarian. Members present were Anna Lee Anderson, Daisy Burson, Luree Burson, Frances Crass, Weta Hill, Jewell Lyon, Mattye Mayfield, Pauline Turner and the hostesses.

Mr. and Mrs. W. H. Brooks left Plainview by bus Tuesday afternoon to go to the bedside of their daughter, Mrs. Roy A. Thomas, in a San Antonio hospital. Mrs. Thomas has been working in Houston, but returned to her doctor in San Antonio when she became ill.

Mr. and Mrs. Ware Fogerson took them to Plainview to catch the bus.

Gayle Renfro of Vernon spent last week visiting in the home of his sister and brother-in-law, Mr. and Mrs. Berton Hughes. During the week they visited in the home of Rev. and Mrs. Randy Hughes, Amy and Matt, at Roscoe.

and Mrs. Ron Craig of Amarillo. The bride-elect is a 1977 graduate of Tulla High School and a 1980 graduate of Amarillo College. She is presently employed by the "Inn at the Park" in Houston.

Her fiancé is a graduate of Caprock High School, and has attended Amarillo College and West Texas State University. He is presently employed by BEST.

Wedding vows will be exchanged at 7:00 p.m. July 10 at the Ridgecrest Baptist Church in Amarillo. The couple plans to reside in Houston.

NANCE'S FOOD STORE

PARTS VALUE OF THE MONTH

IH ReNEWed Parts are remanufactured under conditions comparable to new parts manufacture. The entire restoration to original specifications is controlled by IH engineers. IH ReNEWed Parts also are subject to the same rigid testing procedures as new and original equipment. You can be sure of like-

new performance, but at a price that's about a third less than for a new part. And you save considerably in installation time. We'll put you back on the job quickly!
 All prices for ReNEWed Parts are at the exchange level and are based on the receipt of an acceptable core.

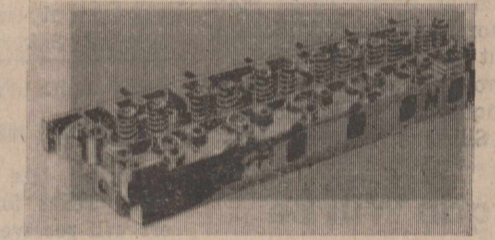

ReNEWed engines

IH ReNEWed engines and components are available in a wide range of models. On the average, you can save approximately one-third of the cost of a new engine. They're not only as good as new, but in some ways they may be even better! That's because the castings are thoroughly seasoned. The crankcase, for example, has already endured stress so, when the engine is restored to new conditions, there's actually less distortion and wear. ReNEWed nozzles, diesel injection pumps, turbochargers, water pumps, and cylinder heads also are available. Here are just a few examples:

Skeleton engines

766, 886: 453 Hillside Combines	749 235 C92	\$2156.00
1086: 915 Combines Serial 8001-Above	735 007 C92	\$2319.00
856: 815 Combines Serial 8000-Below	749 614 C91	\$2313.00
1466, 1486, 1566, 1586, 4166, 4186, 1490, 1490 Combines	735 008 C92	\$2391.00

Look at this warranty! IH ReNEWed engines are backed by a FULL SIX MONTHS warranty on basic engines and 90 days on skeleton engines and engine components.

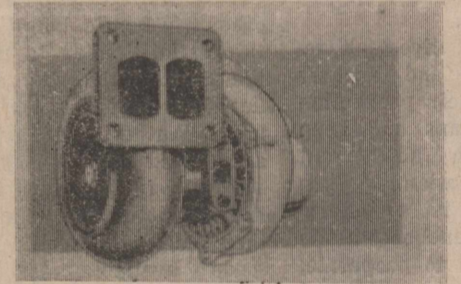

Cylinder heads with valves

Hydro 100 & 186, 986, 1440 Com' line	749 605 C91	\$756.00
1026, 1256, 1456, 915 Combine Serial 8000-Below	749 634 C91	766.00

Water Pumps

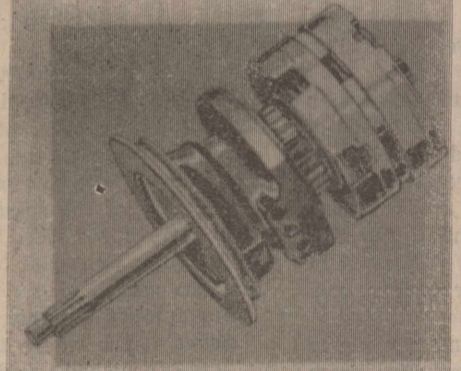

580, 656, 660, 706; 151, 181, 403, 615 Combines	749 170 C91	\$ 62.00
Hydro 70 & 86, 666 GD, 686 Hyd., 686	749 909 C91	91.00

As low as \$35.75
Save 32%
 on IH clutches!

Heavy-Duty torque amplifiers.

An IH ReNEWed Torque Amplifier assembly can go a long way toward restoring original performance to your tractor. In an older tractor, it may even increase load carrying capacity. That's because IH Torque Amplifier design has been improved over the years and those improvements have been incorporated in the ReNEWed units. The result is positive lockup and greater strength for full-time, heavy-duty operation. To prevent contamination, TA components are assembled in a positive-pressure "White Room," thoroughly tested and specially packaged. This is another IH plus! Each assembly is covered by a one year warranty.

Most popular sizes and types of clutches are available in the IH line of ReNEWed Parts. These original equipment clutches are IH engineering approved and are assembled with balanced pressure plates and dampener springs for quiet gears. Hardened splines in hubs provide longer life. Heavy-duty levers resist wear for longer life. These clutches provide like-new service, and save you an average of 32 percent compared to new—even more if the old clutch is acceptable for exchange. All ReNEWed clutches are covered by IH's liberal 90-day warranty. Some examples:

A, Super A, B, C, Super C, 100, 130, 200, 230, 240	R56 631 DB	\$35.75

Irrigation Pumping Efficiency Becomes Important To Area Farmers

John Crowell
Cap Rock
Soil & Water
Conservation District

With the water table dropping, irrigation water is quickly becoming a scarce and valuable commodity that is quickly depleting. Another major problem is energy. It's in short supply and whether gas or electricity, it is becoming more and more expensive. As the cost of energy goes up, so does the cost of pumping water. As pumping costs increase, your net profit decreases.

Just how expensive is the water you pump? Most farmers spend thousands of dollars each year to irrigate but have absolutely no idea, except the monthly gas bill, what it costs to put that water on the ground.

The Soil Conservation Service

has recently tested some irrigation wells in Briscoe County to determine just how efficient they are. The results have been real eye openers to many area farmers. The problem most often found in Briscoe County is too much pump and motor for too little water. For example: One well checked, having been in place for many years, had an eight-inch pump and six cylinder motor. At its peak it pumped 300 gallons per minute. The water ran fine and we could draw air if the rpms were increased. Efficiency of this well was under 50%. The problem? Worn out pump? The pump may have been worn but the main problem was too much pump. Due to the drop in the water table there is less water available. A smaller, more efficient pumping plant

could turn out the same amount of water at a lower cost per gallon. Paying the gas bill to run a six cylinder engine, turning an eight-inch pump, flowing 300 gpm, can't be very efficient. Reading the gas meter and figuring the farmer's pumping cost per gallon of water gave us the efficiency of less than 50%. The bottom line is that it is costing him more to pump than it should. On this one well alone the farmer could save an estimated \$1,500 to \$1,700 per year by making a change to a more efficient pumping plant.

John Crowell, District Conservationist at Silverton, feels that irrigation pumping efficiency is quickly becoming a major factor to farmers all over the Texas Panhandle and South Plains. One farmer in the northern Panhandle found that he could save an estimated \$6,000 yearly by making needed repairs and improving his pumping efficiency.

Pumping efficiency is only one link in overall irrigation efficiency.

The next link is the efficiency of the application. Just as there are ways to save money by pumping more efficiently, there are also methods to help improve the efficient use of the water you have.

Crowell says the local Soil Conservation Service will be running more pump plant efficiency tests this summer. If you are interested in checking your wells and figuring your pumping cost and efficiency, contact the Soil Conservation Service in Silverton at 823-2320. The Soil Conservation Service assists the Cap Rock Soil and Water Conservation District in Briscoe County.

POSITIVE PARENTING

It has been said that the greatest gifts parents can give their children are roots and wings—roots offer the security to try new ventures, while wings give the freedom to leave and establish their own new world.

Children also need other things to grow healthy and strong mentally, physically, and spiritually.

The following ideas were given by Sandi Miller of the Central Plains MH/MR Center in Plainview at the recent parent seminar in Silverton:

LOVE

Every child needs to feel that his parents love, want, and enjoy him; that he matters very much; and that there are people near him who care what happens to him.

ACCEPTANCE

Every child needs to believe that his parents like him for himself all the time, that they always accept him even though they may not always approve of the things he does; and that they will let grow and develop in his own way.

SECURITY

Every child needs to know that he belongs—that there is a

THURSDAY, MAY 21, 1981

BRISCOE COUNTY NEWS

PAGE THREE

place he fits in.

PROTECTION

Every child needs to feel that his parents will keep him safe; and will help him when he must face frightening situations.

INDEPENDENCE

Every child needs to know that his parents will encourage him to try new things and that they have confidence in him and his ability to do things for himself.

CONTROL

Every child needs to know that there are limits to what he is permitted to do and that his parents will hold him to these limits.

GUIDANCE

Every child needs to have grown-ups around him who show him by examples how to get along with others.

FAITH

Every child needs to have a set of moral standards and a belief in the human values of kindness, courage, honesty, generosity and justice.

Children who have these basic needs satisfied have a better chance to grow up with good mental health and to become adults who are good parents, good mates, good workers, good neighbors and good citizens.

If you missed the parent seminar, "Coping With Those Curtain Climbers," you missed an excellent program and some valuable information for parents. I have a packet of publications I put together for this program that you parents of young children should find helpful. Call my office, 823-2343, if you are interested.

BROOKS—MOUSER

VOWS EXCHANGED

Mrs. Mildred Brooks and Bud Mouser exchanged vows in the parlor of the First Baptist Church in Silverton recently. The marriage service was performed by the pastor, Rev. Royce Denton.

Mrs. Fern Minyard was the only attendant.

The couple has two sons, two daughters, six granddaughters, and two grandsons.

Mr. and Mrs. Mouser are making their home in Plainview.

KIKER'S KORNER

Earnest Kiker

Briscoe County Extension Agent

Cotton, corn and sorghum producers in Briscoe County are receiving a special invitation this year to take part in the annual High Plains Scout Training Workshop to increase the effectiveness of their pest management programs.

The workshop will be held Tuesday and Wednesday, June 23, at the Hale County Agricultural Center in Plainview. The center is on U. S. 87 business route south of the city.

The workshop, conducted by the Texas Agricultural Extension Service, was first held in 1973 to train scouts in the pest management programs conducted by

Teen 4-H'ers can sign up now for a great summer experience at 4-H Teen Leader Lab on the

Extension Service. In subsequent years, it was expanded to include scouts employed by consultants and those administered by the Texas Pest Management Association.

Producers in Briscoe County are being invited this year to help them perfect their skills in identifying crop pests and making timely pest management decisions which can protect their investments and yield and hold down production costs.

Producers interested in participating in the workshop should advise Earnest Kiker, Briscoe County Extension Agent. Call the office at 823-2343.

campus of South Plains College at Levelland June 16-18.

Briscoe County may send four boys and four girls plus the District 4-H Council delegates for 1981-82. This year Briscoe, Hale, Floyd and Swisher counties are in charge of Teen Leader Lab planning and serving on the staff.

Participants must be 13 years old or older by January 1, 1981, be enrolled in 4-H, actively participating in 4-H, have a 4-H project, and be a teen leader or interested in becoming one.

Cost of the lab is \$34.00 per person and includes six meals, two nights lodging in the college dorms, snacks, insurance, swimming and program expenses.

Activities include group workshops on "Those Amazing Projects," folk games and country dancing, daily flag ceremonies, theme parties, swimming, athletic contests and installation of new council delegates.

Call the County Extension Office, 823-2343, to sign up to attend. Registration must be sent in by June 10.

"IT'S A BIG JOB ..."

Slowing down the rising costs of anything these days. Even your electricity.

You've got someone working on it for you in the Southwest. Southwestern Public Service is using Wyoming coal to make electricity in its new power plants. Because some of the old plants run on fuel that just plain costs too much.

Electricity could cost a lot more than it does. But thank goodness it doesn't — because of coal.

Cards of Thanks

CARD OF THANKS Thanks from the bottom of our hearts to the Silverton Volunteer Ambulance Service for their quick response to our call for help when Charles (Mule) had his accident; also to the many friends for their visits, phone calls, cards, food and offers of help. May God's richest blessings be with you all. Charles and Mary Grantham

CARD OF THANKS We would like to say thank you to the First State Bank of Silverton for providing the Pioneer Room for the community to use. Almost every week of the year it is used by the citizens either as a meeting place for a class reunion or a bridal shower or just a place to get together for some civic group. We can't think of a nicer service to the town than providing this place. Thank you again, First State Bank, for this most appreciated service. Some Appreciative Citizens of Silverton

CARD OF THANKS Words cannot express our appreciation for all the lovely cards, flowers, calls, food, and your prayers since Boyd and I have been in the hospitals. May God's richest blessings be with all of you. Boyd and Lillie Mae Bingham

NOTICE OF HEARING BEFORE THE TEXAS WATER COMMISSION OF AN APPLICATION TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS No. 2319A

Notice is given that TEXAS PARKS AND WILDLIFE DEPARTMENT 4200 Smith School Road Austin, Texas 78744 applicant, seeks an amendment to Permit No. 2103 pursuant to \$11.122, Texas Water Code, and Rules 156.04.10.001-002 to authorize the diversion from a 1184 acre-foot capacity reservoir, previously authorized by Permit No. 2103, located on Holmes Creek, tributary of Little Red River, tributary of Prairie Dog Town Fork of the Red River, Red River Basin of not to exceed 20 acre-feet of water per annum for municipal use in Caprock Canyon State Park in Briscoe County, Texas, all being more fully set out in the application. Application No. 2319A was accepted for filing on May 4, 1981, and a hearing thereon will be held by the Commission in the Stephen F. Austin State Office Building at 1700 North Congress Avenue in Austin, Texas, on June 17, 1981, at 10 o'clock a.m. Any person who intends to offer prepared testimony at the public hearing shall prefile the testimony with the Chief Clerk of the Commission not less than

five days prior to the hearing, and shall serve copies of prepared testimony on the applicant, the Executive Director and Public Interest Advocate of the Department of Water Resources and all other persons who have filed written protests or written requests not less than eight days prior to the hearing. The Commission may authorize the late filing of prepared testimony upon a showing of good cause and extenuating circumstances. Any person who desires to receive prepared testimony shall file a written protest or a written request with the Commission not less than eight days prior to the hearing.

Those opposing the granting of this application may appear at the hearing and/or, not less than eight days before the hearing date, may file written protests with the Commission and serve copies on the applicant with proof of service to be provided to the Commission. Written protests shall contain the name and address of the protestant, an identification of the pending application, the basis of protestant's interest, location of protestant's diversion point(s) or property, if applicable and any amendments or adjustments to the application which would result in a withdrawal of the protest. The written protest will be noted by the Commission but will not be considered as evidence since the right to cross-examine is absent. No protestant will be admitted as a party to the proceeding unless the protestant complies with Commission Rule 155.04.00.001 which re-
