The Silverton Volunteer Fire Department received a check for \$75.00 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the department's work on the property of Riley Harris.

The money will be used to help pay for the new fire truck. The Texas Farm Bureau Insurance Companies pay fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

MRS. GREGORY B. HILL

★ ★ ★ ★ ★
**Martin - Hill Vows Exchanged In
 Formal Ceremony December 19**

Miss Karen Lea Martin became the bride of Gregory Bennett Hill in a formal double-ring ceremony performed by the Rev. Jesse Dea, pastor of the Follett United Methodist Church, in the home of the bridegroom's parents at six o'clock in the evening on December 19, 1980.

Vows were exchanged before the fireplace, the mantle of which was decorated with numerous various-sized brown and apricot candles glowing softly in a bank of princess pine. The hearth was accented by double baskets of apricot flowers. A memory candle was placed to the left of the hearth, nestled in princess pine and accented with apricot bows.

Parents of the couple are Mr. and Mrs. Donnie D. Martin and Mr. and Mrs. Robert H. Hill, all of Silverton.

Escorted and given in marriage by her father, the bride

wore a formal-length gown of white silk organza. The bodice featured a scalloped Queen Anne neckline and an empire waistline. Reembroidered French Alencon lace appliques covered the bodice, and small self-covered buttons gave interest to the back of the bodice from the neckline to the waistline. Slender tubular sleeves, styled of English net sprinkled with lace appliques, ended in delicate double ruffles at the bride's wrists. A double layer silk organza skirt fell softly to the hemline which was defined with a double ruffle accented with Schiffl embroidery and swept into a chapel-length train.

To compliment her gown, the bride chose a walking-length veil, with Alencon lace pieces encircling the entire edge of the lace. A Juliet cap adorned with French Alencon lace and scattered beads held the veil in

place.

She carried a cascade arrangement of white roses and white satin ribbon.

To carry out bridal tradition, she carried a handkerchief which had been handed down through several generations, borrowed her mother's diamond earrings, and added a blue garter. Her wedding ensemble was something new.

Serving her sister-in-law as matron of honor was Mrs. Karen Kay Martin of Tullia, who wore a formal-length gown of apricot crepe with an overlay of sheer floral apricot. She added a spray of baby's breath in her hair and carried a nosegay of apricot flowers.

Nikki Martin of Tullia served as her aunt's flower girl, and Amy Wilkerson, cousin of the groom, was ring bearer. Their formal-length dresses were of apricot crepe with overlay of sheer floral apricot, and were accented with ruffles at the neck and sleeves. They wore sprays of baby's breath in their hair. The flower girl carried a white basket decorated with apricot ribbons, and the ring bearer carried a heart-shaped white satin pillow.

Guests were seated by Monroe Hill, brother of the bridegroom, and Dwain Strange of Kress, cousin of the groom. Best man was Michael Hill, brother of the groom.

Mrs. Bobbie Bean was pianist and wedding selections included "The Twelfth of Never."

A reception was held in the home immediately following the ceremony.

The bride's table was covered with a white lace cloth over apricot and held the three-tiered wedding cake made especially for the couple by the groom's maternal grandmother, Mrs. Carver Monroe. The cake, decorated with lace hearts, was topped with a miniature bride and groom. The middle tier was accented with white sugar bells, with a bridal couple standing inside.

The bride's bouquet was placed on a stemmed silver plate as the centerpiece on the table. Crystal and silver appointments were used. Katherine Shannon and Iwana Miller served refreshments at the bride's table.

The groom's table was covered with a white lace cloth over brown underlay. Coffee was poured from a silver service. A German chocolate cake was served from a stemmed silver

GRUDGITIS KILLS

Hating people is like burning down your house to get rid of a rat.

You become the slave of the one you hate. He controls your thoughts, hounds your dreams, removes your smile, brings indigestion, and distracts you into permanent irritability and unhappiness. He jeopardizes your relationship to God (Mt. 5:23-24; 6:12).

Even the grizzly allows the skunk to eat with him in the garbage dump. The bear could rout the skunk, but he'd pay a high price! Smart grizzly. Much smarter than people who spend weary days brooding over resentments.

Doctors say a disordered emotional life is a frequent cause of ulcerative colitis, toxic goiters, high blood pressure, etc. Many death certificates could truthfully say, "Died of grudgitis."

"In my heart's garden, I found too late that hate was a weed. I wish I'd knelt and dug it out before it scattered seed."

"... put them all away - anger, wrath, malice, railing... Put on... a heart of compassion, kindness... longsuffering; forbearing one another, and forgiving each other..." (Col. 3)

Mr. and Mrs. Joe Brannon also assisted with the reception.

The bride is a graduate of Silverton High School, attended West Texas State University, and is employed by Security Federal Savings & Loan Association.

The bridegroom is a graduate of Silverton High School, and is employed by Straus-Frank Company while he is a student at Texas State Technical Institute.

The couple is at home at 1818 Lariat in Amarillo.

Greenhaw - Dea Vows Exchanged In Formal Ceremony Saturday

The First United Methodist Church in Silverton was the formal setting for the exchange of wedding vows between Miss Melissa Kaye Greenhaw and Timothy Wayne Dea Saturday evening, January 10.

Officiating at the double-ring ceremony was the groom's father, Reverend Jesse Dea, pastor of the Follett United Methodist Church.

The ceremony was performed before an altar of greenery and a background of white cathedral

tapers. The bridal aisle was marked with blue satin bows. A memory candle sat atop the altar.

Mrs. LaRue Garvin of Silverton was organist as Johnnie Ray Watson of Lorenzo sang "The Twelfth of Never."

Given in marriage by her father, the bride wore a semi-fitted formal-length gown fashioned of white silk organza over satin. The bodice featured a boat neckline and long tapering sleeves which formed petal points over

the hands. The skirt of the gown swept to a short train. Floral appliques of imported Belgium lace, embroidered with seed pearls, bugal beads and iridescent sequins, trimmed the gown. Her floor-length veil was attached to a bridal hat overlaid with lace and a baby blue ribbon tied in the back accented by a bow and long streamers.

She carried an arrangement of silk flowers atop a white Bible, a gift from the bride's paternal grandparents, with a lace cover designed by her paternal grandmother. For something old, she wore a gold locket belonging to her paternal great-grandmother; for something new, the bride

SPS Announces Five-Year Construction Plans

Southwestern Public Service Company will invest more than \$552 million in new equipment and materials during the next five years, Berl Springer, president and chief operating officer, announced today.

New coal-fired generating facilities to be installed during the 5-year period will increase the capability of Southwestern's system by more than a million kilowatts, bringing the total SPS generating capability to more

than 4-million kilowatts. Talk Station, located 12 miles east of Muleshoe, is the site for the new generating facilities, and is currently under construction. The station will have two 543,000 kilowatt units and will be Southwestern's largest plant. The first unit, now about one-quarter complete, is scheduled to go on the line in 1982 while the second unit will be ready in 1985. This will be the second coal-fired plant for SPS. The first, Harrington Station, near Amarillo, was completed this past summer.

Coal for Harrington and Talk Stations comes from Atlantic Richfield mines near Gillette, Wyoming, and is delivered to the plants by 110-car unit trains.

In reviewing the year, Springer said, "Our peak load reached an all-time high last summer of 2,651,000 kilowatts. We expect our peak load to climb to 3,204,000 kilowatts by 1985. The addition of Talk Station will more than take care of that increase."

"The cost of fuel now represents nearly 70% of our total operating expenses as compared to only 47% in 1975. The management of fuel problems continues to require a major effort in the operation of the company," Springer continued. "Supplier price increases, escalator clauses, minimum use requirements, gas pipeline capacity limitations and increasing supplier scheduling difficulties have all contributed to a rapidly increasing cost of fuel."

Springer added that Southwestern Public Service Company is continuing its efforts in the research of energy alternatives including solar and wind energy. SPS and the General Electric Company have completed a feasibility study for repowering one of Southwestern's power plants with 60 megawatts of solar energy, while a site north of Amarillo has been selected for a potential wind generator.

"All of us at Southwestern Public Service Company have great confidence in the future of the Southwest in spite of the economic problems we are facing at this time. Our area continues to grow and new industries continue to show great interest. We anticipate that about 120,000 kilowatts of new industrial and

"We hope all the children of the area will help us make this telethon more successful than ever before," said Kurt Verlei, Director of Public Relations for Allsup's Convenience Stores. Program Set On "Getting In, Out Of Agriculture"

If you're interested in getting into farming or ranching, if you're already in the business and want to expand, or if you're thinking about retiring and turning the farm or ranch over to someone else, then there's an upcoming conference designed just for you.

The conference is called "Getting In—Growing—Getting Out of Agriculture," and is being sponsored by the Texas Agricultural Extension Service and the Texas Farmer-Stockman magazine. It will be at Texas A&M University Research and Extension Centers in three different cities on three different dates. Sessions are planned for Amarillo, January 20; Dallas, January 21, and Weslaco, January 22.

According to County Extension Agent Earnest Kiker, the conference is intended to help farmers identify non-traditional alternatives for making farm business management easier and to learn more about turning problems into opportunities.

Major areas of discussion will deal with "Agriculture's Future," "Agricultural Business Planning," "Estate Planning Needs," "Financial Planning Considerations," and "Making Other's Problems Your Opportunity."

Featured speakers will include Dr. John Hopkin, head of Texas A&M's Department of Agricultural Economics; Marvin Sartin, Extension area economist at Lubbock, and Dr. Wayne Hayenga, Extension economist in management at Texas A&M University.

Further information on the conference is available from the County Extension Office, adds Kiker.

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.

WESTWARD DOUGH!

OR
how DO you COVER A Wagon?

The wild, wild West. Land of hope and opportunity to thousands of courageous settlers. But, if it weren't for the dollars of thousands more Americans taking stock in their country, there might never have been a West to go west to.

You see, money raised from the sale of government securities helped us purchase the Louisiana Territory from the French. Other securities helped buy the states of California, Nevada, Utah, western Colorado and most of New Mexico and Arizona from Mexico. Even settlement of the Oregon Territory was made possible through the issuance of United States securities.

Today, you can still take stock in your country's growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where you work. There's no easier, safer way to save or help your country. After all, U. S. Savings Bonds are still a great way for you to go West. Or East, North and South.

Now U. S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and Federal tax may be deferred until redemption.

Take stock in America.

Club Collecting Used Postage Stamps

As part of an effort that sent 50,000 meals to children in Bangladesh (in Asia) last year, members of the Southwestern Extension Homemakers Club in Silverton are collecting used postage stamps again this year.

Club members' participation in the program is in cooperation with the Salvation Army, which sells the stamps to collectors and uses the money to buy food for undernourished children in Bangladesh. Last year Texas Extension Homemakers Clubs collected 446,830 stamps.

According to the Salvation Army, for each dollar it earns in the stamp market, 10 meals can be purchased abroad.

Collecting used stamps takes only a few seconds of anyone's time, and they're available almost everywhere since everyone receives mail. Extension Homemaker club members collect the stamps, trim them, leaving a one-half inch border on all sides, and mail them to Salvation Army headquarters.

If you would like to save postage stamps for this cause, collect them and bring them to the Extension Office in the Courthouse basement or give them to Mrs. Polly Jarrett or any other Southwestern Extension Homemaker club member.

Forms May Be Had At Judge's Office

Briscoe County Extension Agent
Resolve to get involved in Extension Home Economics in 1981. "What is it?" It is an informal educational service to all Texas families to help improve the quality of family living.

The organized clubs, once called Home Demonstration Clubs, are now called Extension Homemaker Clubs. A club is a group of women (some clubs also have men) who meet in their homes or a community meeting place at a time and date they decide on. They choose the programs on topics in which they are interested. Clubs may also choose to have recreation or community service projects. Some 20,000 homemakers are members of the Texas Extension Homemakers Association.

As the County Extension Agent for home economics, I serve as an advisor and resource person to these clubs. Briscoe County now has only one EH club—the Southwestern Extension

New Snows!

You can see by the car tracks that people are going places despite the heavy snows. Others, like you and me, perhaps, are going places because of it—because the new-fallen snow is beautiful and we want to enjoy it and look at the pictures it makes on the landscape. Also, that frosty, crackly wind that comes with the first snows blows roses in our cheeks and new energy and expectations into our hearts. We can't wait to get out and do things and be with people.

A New Year is upon us. What wonderful things this year can bring. Does the New Year lying before you, with its promise, fill you with new life and excited expectations like the new snow mentioned above?

May your New Year be a happy and prosperous one, and may you find great peace every day through worship and spiritual blessings each week through attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
