

All Around the Town

by Mary Ann Sarchet

An intention to drill has been filed for a wildcat in Swisher County, the location of which is 3.5 miles east of Tullia. The legal description of the location is 150' from South and 2501' from West line, Section 28, M-15, D&P. This is designated as the No. 1 Zecek, and is a core test only, with permitted depth to 8000 feet. The work is being done by Stone & Webster Engineering Corporation, Box 829, Amarillo, Texas 79105.

This core test is in relation to the nuclear waste disposal studies, which are continuing in Swisher County, but we understand that the results of the test are to be made available to an oil company.

The J. K. Patrick wildcat, drilled by the Hanson Corporation, has now been declared a dry hole and has been plugged. Indications are that the structure looked good, but nothing was produced.

Swabbing is continuing at the Pascal Garrison wildcat which was drilled by Marathon Oil Company. Very little information has been given about this location, but it seems that the swabbing hasn't cleaned out the hole as much as it needs to be. It has been hinted that it might be fractured again.

Drilling was stopped Wednesday morning at the Cogdell wildcat being drilled by Sojourner northwest of Silverton. Drilling was down to 7900 feet, and we were not able to learn whether or not drilling would continue.

The wildcat being drilled by Tri-Ex Oil & Gas on the Cogdell ranch north of Silverton was down to 5680 feet Wednesday morning.

BLN's wildcat on the Saul ranch was down to 4000 feet this week, with plans to drill to 5000 feet. Drilling has gone very well at this location, with there not having been a loss of circulation. Drilling on the W. H. Brooks wildcat was down to 7800 feet Tuesday night, and they were out of the hole replacing the bit. It was estimated that it would take eight or nine hours to get back to work. Tri-Ex Oil & Gas has been drilling about 200-300 feet in a 24-hour period, and at this rate the drilling will be finished soon.

YOUR NEIGHBOR NEEDS YOUR HELP!

Break-ins are occurring in the area once again, and even though the most recent ones were not inside the city limits it is time for all residents to become aware of this and perhaps exercise more caution than usual.

You can be of great help to your neighbors—town or country—if you will take note of anything unusual you may happen to see. If you know your neighbor is away from home and you see anything that looks suspicious, it will be appreciated—both by your neighbors and by the local law enforcement agencies—if you will report what you've seen immediately. In the case of a vehicle, the license tag number and description of the vehicle will be helpful.

In the daytime, you should call the Sheriff's office, 823-2201. At night, you can call the Sheriff's home, 823-2031, or in case you are unable to reach someone there, call the emergency number, 823-2001. There are law enforcement personnel on the emergency line who will know how to relay your information to the Sheriff.

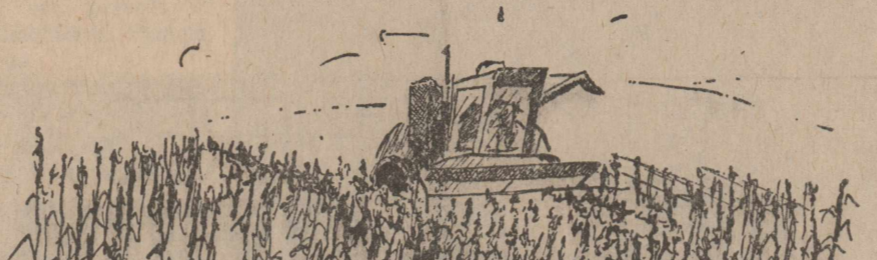

Mrs. Donnie Martin has returned home after having been treated for phlebitis at Swisher Memorial Hospital in Tullia. She is continuing to recuperate at her home.

Mr. and Mrs. Greg Hill of Sonora spent the weekend with her parents, the Martins, and also visited other relatives here including his parents, Mr. and Mrs. Robert H. Hill.

Sheriff and Mrs. Dick Roehr returned home Tuesday night after having been in Eastland with their son, Mitchell, who had been injured in a drilling rig accident. His injuries are painful and may require some skin grafting, but his recovery is expected to be complete.

Bid Date Nears For Mackenzie Water Transmission Pipeline

Engineers from a Fort Worth firm were here Monday and Tuesday of last week to make additional surveying checks as the April bid-calling date nears for the water transmission line project from Lake Mackenzie to

four area cities. "We're coming right along," said Neil Taylor, Mackenzie Municipal Water Authority Manager, adding that the engineering work should be done by the first of April.

Taylor is watching closely the \$15 million project that will provide water to Floydada, Lockney, Silverton and Tullia, a project that has taken over ten years to get to this point.

"Every day it takes it gets that much more expensive," he noted. Funding for the project finally became a reality after the Farmers Home Administration approved a \$7,363,000 loan at five percent interest for 40 years. This amount was added to the \$7,368,000 loan granted by the Texas Department of Water Resources after several months of waiting last spring as the department scrambled to find funds for the project.

As planned right now, the project will take water from the Mackenzie Reservoir to a treatment plant which is to be built approximately 3,000 feet from the marina.

After treatment, the fresh water will be piped south to the Rock Creek Store area, where a two million gallon water storage tank will be built.

The pipeline will split in three directions there, with one line to go west to Tullia, one line east to Silverton and the third line south to Lockney and then south-east to Floydada.

Plans call for construction of a 1.5 million gallon storage tank at Tullia and another 1.5 million gallon storage tank at Lockney to serve Lockney and Floydada.

Taylor said the engineers from Freeze and Nichols, Inc. of Fort Worth visited the reservoir site, traveled the proposed pipeline routes and viewed the sites in the four cities where the transmission lines will hook into the city main lines.

Cowboy Camp Meeting To Be Held Here March 19-22

The Cowboy Chapter of the Fellowship of Christian Athletes will be conducting an Evangelistic Crusade in the Silverton School Auditorium March 19-22 at 7:30 p.m. each day. Some of the local churches will be assisting with various parts of the Crusade. Residents of neighboring towns are cordially invited to participate in the crusade and other activities that will be held in conjunction with the crusade.

Fish May Be Ordered For Stocking Ponds

Catfish, Bass, Bluegill and Fathead Minnows are four varieties of fish that could be available to Briscoe County landowners if enough orders are taken. These fish, ranging in size from three to eight inches, could be ordered through the Caprock Soil and Water Conservation District this spring.

The District must order a minimum of 9000 fish to qualify for the program. The cost ranges from 35 to 65 cents per fish with live delivery guaranteed if they are released in the pond within two hours of pickup. Many landowners have expressed a desire to order the fish but several more orders are needed to reach the 9000 fish minimum order.

If you are interested in ordering fish contact the Caprock SWCD or call the Soil Conservation Service office at 823-2320.

Wayne Nance Family Honored By Church

The Wayne Nance Family has been named "Family of the Month" by the First United Methodist Church. The Nances reside at 704 Second Street with their two daughters, eleven-year-old Tara Val and five-year-old Holly Renee.

Wayne Nance joined the church in 1958, and Tina Nance became a member in 1962. Mrs. Nance teaches the Elementary Sunday School Class, is a member of the Committee on Nominations, Task Group on Evangelism, and both she and her husband are members-at-large of the Administrative Council.

Members of the church take this opportunity to express appreciation for the leadership, support and faithfulness of this family. The worship of God is a family affair, and the First United Methodist Church invites you to bring your family and worship with us, says the pastor, Rev. Billy Wilson.

Local participants include Casey and Charlie Risinger, Walter Arnold, Harold Edwards, Earnest Kiker, Jimmy Burson and others.

Assisting with the music for the Crusade will be Jimmy Burson, Anne McMurtry, Clifton and Joy Stodghill and Benny Brown, from Briscoe County. Out-of-area contributors to the music program will be the Smith Family from Pampa, Texas, the Gary Jones Family from Lamesa, Texas, and Clifton Smith from Tell, Texas.

The visiting athletes and singers will be leading the worship services in some of the Silverton churches at the 11:00 o'clock worship hour on Sunday morning.

A nursery will be provided at the First Baptist Church beginning at 7:00 o'clock each evening. Children under four years of age will be cared for without charge.

Owls, Owlettes Compete at Lorenzo

Some 35 track teams provided stiff competition for the Owls and Owlettes in their first track outing this season. At Lorenzo Saturday the field was dominated by the twenty Class AA schools.

Jeni Denton began her quest for the state meet in the 3200 meter run with a second place finish in a field of thirty runners. Her time was 13:51.9. In the boys division, Mike Hill had an outstanding throw in the shot of 43'4", good for fifth place.

Eric Patton finished fifth in the mile run with a time of 5:06.8. The most outstanding performance of the meet was turned in by Jimmy Stone in the 200 meter run. Facing a strong wind and a strong field, he clocked 24.5, which was good for second place. Both teams will go to Groom Saturday. Finals start at 1:00 p.m.

McWilliams Accepted By School Of Pharmacy

Larry McWilliams of Silverton is one of 30 students accepted at the School of Pharmacy at Southwestern Oklahoma State University in Weatherford, Oklahoma.

He is the son of Mrs. Bess McWilliams of Silverton. Students accepted by the School of Pharmacy must meet the requirements of Pre-Pharmacy. A committee on Admission to Pharmacy School studies the grade averages, consistency of academic performance, American College Test or Scholastic Aptitude Test scores, character references, physical and mental health, personal objective and motivation. The committee also interviews each applicant.

Choir Participates In UIL Competition

The Silverton High School Choir, under the direction of Mrs. Mary Ann Rauch, took part in the University Interscholastic League choral competition at Lubbock High School Tuesday, March 9.

The choir received a III in concert and a IV in sightreading. The students observed six other choirs before leaving the contest site.

Blood Pressure Clinic To Be Held

Mrs. Dorothy Wilson, who is with the West Texas Home Health Agency, will be at the Silverton Senior Citizens Center beginning at 11:00 a.m. on Friday, March 19, to check blood pressure.

The clinic will be open to the public. There will be no charge.

Senior Citizens To Have Luncheon

Silverton Senior Citizens will meet Friday, March 19, for their regular monthly luncheon and business meeting.

Ladies of the First United Methodist Church will be hostesses for the luncheon.

New Cookbook Is Now On Sale Here

"Texas Taste Treasures" is a cookbook compiled by club members of the Texas Extension Homemakers Association and contains several hundred recipes from all over Texas, in addition to numerous "handy hints," charts, menus, time tables, and other helpful information.

The cookbook includes special diet recipes, microwave recipes and ethnic foods in addition to the usual cookbook categories.

This book is available from the County Extension Office in the Courthouse basement or from members of the Southwestern Extension Homemaker Club for \$10.00.

4-H Members To Meet March 23

There will be a meeting of 4-H members on Tuesday, March 23, at 7:00 p.m. in the school auditorium.

Plans will be finalized and work begun on the Junior Share-the-Fun skit.

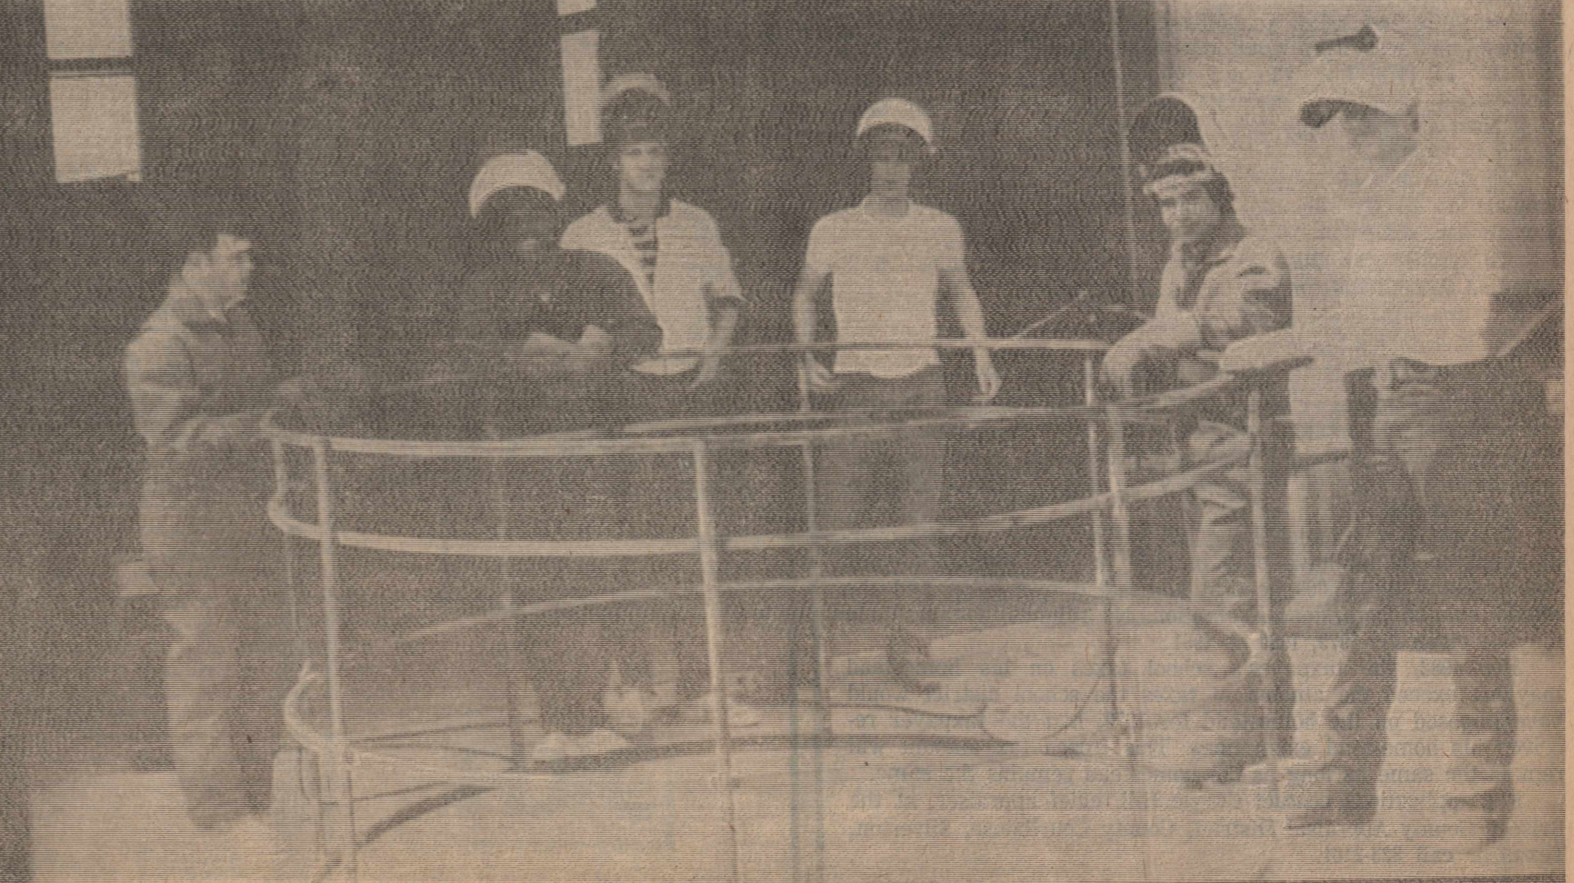

Help will be given on planning a 4-H method demonstration. This will be the last chance for individuals to sign up to participate on a judging team.

All parents are urged to attend. 4-H is open to boys and girls ages 9-19 regardless of socioeconomic level, race, color, sex, religion, or national origin.

Club To Co-Sponsor Blood Drive Soon

**NOTICE OF TAX RELIEF AVAILABLE
 TO CERTAIN HOMEOWNERS OVER 65**

Homeowners who were 65 years of age or older on January 1, 1979, and failed to receive their school district homestead exemptions in 1979 have until April 1 of this year to do so. In this way, elderly homeowners will be able to take advantage of the school tax freeze associated with the \$10,000 homestead exemptions.

According to a law passed by the 67th Legislature, over-65 homeowners who were qualified for the school homestead "tax freeze" in 1979, but who did not apply for or receive their homestead exemption, may file an application with the chief appraiser of the county appraisal district in which the homestead is located.

Eligible over-65 homeowners in Briscoe County must make application to the Briscoe County Appraisal District, County Courthouse, Silvertown, Texas, before April 1, 1982.

To qualify for this tax relief, a homeowner must have satisfied these requirements on January 1, 1979:

- ☆ Been 65 years of age or older
- ☆ Owned his home
- ☆ Used that home as his residence homestead

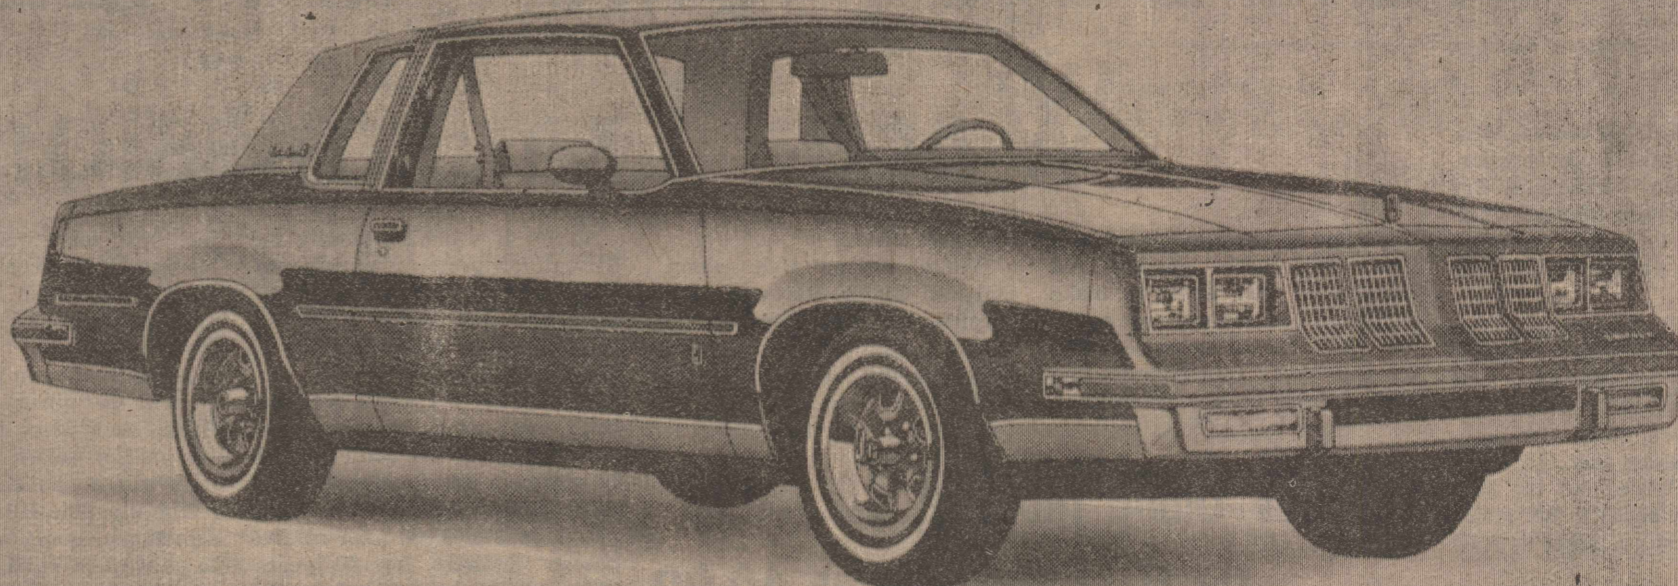

The chief appraiser of the Briscoe County Appraisal District will consider all applications and notify each applicant before April 15, 1982. If the application is approved, the chief appraiser will make an entry on the appropriate school district 1982 appraisal records.

This entry will indicate the amount of school tax the over-65 taxpayer should have paid in 1979, had he applied for and been granted the \$5,000 general homestead exemption and the \$10,000 over-65 homestead exemption. No refunds of taxes paid may be given for 1979, 1980 or 1981.

For 1982, the taxpayer's school taxes on his homestead may not exceed the amount of taxes the school district would have imposed on the homestead for 1979, had the taxpayer received his homestead exemptions. This frozen tax amount will remain the same as long as the homestead remains the same.

For applications contact Caryle Hill, chief appraiser, at the Briscoe County Appraisal District, County Courthouse, Silvertown, Texas or call 823-2161.

SPS employees pioneered development of a fabric filter for large-scale steam generators which is a more effective pollution-control device than traditional control equipment. The fabric filter also costs less to operate and has become so successful that representatives of electric utilities from around the world come to see the filter in operation at Amarillo's Harrington Station.

Car accidents, storms, or fires can knock down electrical wires. If you see a fallen wire, don't go near it or touch it—it may still have electricity running through it. And don't touch a person or object that comes into contact with a wire. Contact with a live wire can result in serious injuries. Contact Southwestern Public Service to report a fallen electrical wire.

Good lighting is a deterrent to crime. Outside lights that illuminate all sides of your home should be kept on even when you are at home, and at least one room of your home should be lighted when you are away for the evening. If you have a detached garage, make sure the area between it and your home is lighted. Light—for seeing, safety, and protection—is available at the touch of a switch, and SPS Consumer Services Department can provide more information on the type of lighting best suited to your needs.
