

Arts And Crafts Bazaar Is Saturday At Quitaque

After weeks of preparation, the annual "We the Women" Bazaar Saturday promises to be one of the best ever, with a large variety of hand-crafted items for sale.

There have been several booths rented to individuals with items to sell as well as the usual things made by Quitaque women for the "We the Women" tables. One door prize will be given, which will be a handmade article from "We the Women." The drawing will be in the afternoon at 3:00 o'clock. You don't have to be present to win the drawing.

Some of the items to be sold Saturday include handmade Christmas table runners, Christmas decorations, crocheted items, casserole carriers, personalized items, china painting, woodwork, paintings, unusual art work, home-baked foods and a large variety of other handmade items.

A meal of stew and cornbread will be served at noon for \$2.00, with pie sold by the piece.

The doors will open at 10:00 a.m. and no one will be allowed to buy anything until that time. Bring your family for a day of fun and fellowship at the Quitaque Community Center, and enjoy seeing the crafts of all kinds for holiday gifts.

Senior Citizens To Have Luncheon Friday

Silverton Senior Citizens will meet Friday, November 19, for their regular monthly luncheon and business meeting.

Ladies of the Assembly of God Church will be hostesses for the luncheon.

Mr. and Mrs. Charlie Johnson of Tulsa spent Sunday afternoon with Mr. and Mrs. Ashel McDaniel.

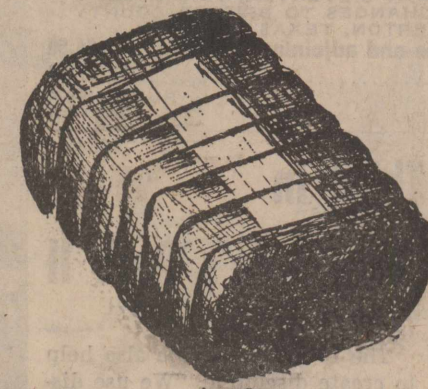

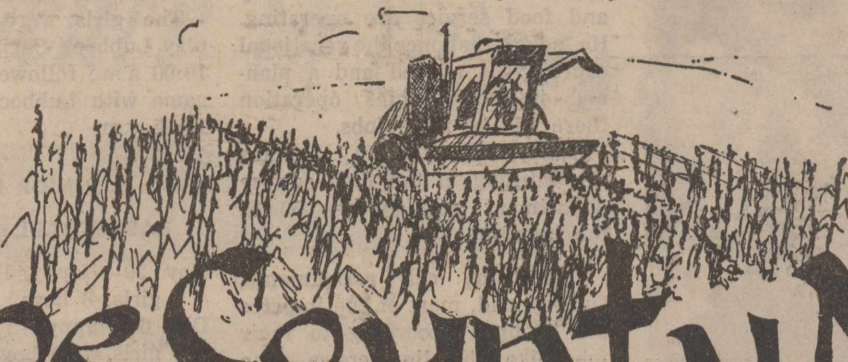

Former Silverton Resident Inventor

Revolutionary "Big Wheel" Water Pump Works

Inventor Monty May of Pecos (right) gives Coynosa farmer Lynn Halfmann a first-hand look at the huge water pump jack which pumped more than 700 gallons per minute from a 600-foot well during recent tests.

Coveted 4-H Awards Presented At Banquet

One hundred twenty 4-Hers, their families and guests attended the annual 4-H Achievement Banquet Friday night in the Silverton School Cafeteria.

Two adult leaders, Sybil Martin and Bennie Reagan, were awarded the Silver Spur Award for outstanding work with 4-H over the years.

The 4-H Gold Star Award, the highest award for a 4-H'er at the county level, went to Kori Baird of Silverton and Robbie Helms of Quitaque.

Stephen Stephens of Silverton and Roger Hughes of Quitaque received the "I Dare You" Award.

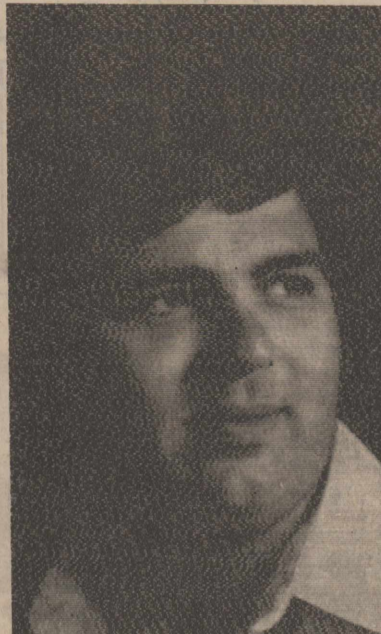

Guest speaker for the event was Earl Broseh, Gold Star 4-H member from Lockney, who shared his ideas of a Champ and performed a song, "The Auctioneer," as an illustration of one of his goals.

Caprock Country Band, composed of Lynn and Connie Smith, Ted and Rick Hester, was given a plaque as the 1982 "Friend of 4-H" award recipient for sharing proceeds of three 4-H dances with the county 4-H clubs.

Master of ceremonies for the evening was Kerry Baird. Joe Ted Edwards gave the invocation.

KORI BAIRD

ROBBIE HELMS

Kori and Shane Reagan led the pledge of allegiance. The 4-H pledge and motto was led by Jim Forbes, with Kristy Fogerson extending the welcome. Roger Hughes introduced special guests and Cal Brannon introduced the speaker.

Presentation of county awards was by Janet Edwards of Quitaque. Kathy Frizzell made the "I Dare You" award presentation, and Kori Baird gave the "Friend of 4-H" award. Leaders were recognized by Scotty Harris. Mike Ferguson of Swisher Electric Cooperative and Stan McClendon of Lighthouse Electric Cooperative made the Silver Spur Award presentations, which the two cooperatives jointly sponsor.

FLOYDADA OES, LODGE TO HOST RECEPTION

Floydada Chapter No. 31, Order of the Eastern Star, with which Silverton Eastern Star members are now affiliated, and Floydada Lodge No. 712, AF&AM invite you to a reception honoring J. M. Willson, Jr., Most Worshipful Grand Master of the Most Worshipful Grand Lodge of Texas, Ancient Free and Accepted Masons, November 21, 1982, from 2:00 until 4:00 p.m. in the Wall Street Parlor, 400 South Wall Street, in Floydada.

MRS. HOLCOMB HAVING ART SHOW IN QUITAQUE

Mrs. Genella (Fort) Holcomb, a former resident of this area, is having an art show of caprock scenes at Roye's in Quitaque. The show started last Friday,

and will continue for a month. From December 12 until January 12, Mrs. Holcomb's paintings will be on display at the First National Bank in Floydada.

Projected costs for the pumps are of much concern, with May insisting that the asking price for his product be kept down as much as possible so that changeovers will be economically desirable.

For Monty May, the water wheel pump jack is a long-time dream become a reality.

A former Pecos producer who shut his operation down after natural gas contracts expired, May went into logging in East Texas for a number of years to get enough money together to work on the idea he had for the new pump.

Testing comes after nine years during which he figures he spent more than 5,000 hours in research and study.

"What I have put together was not found in any engineering books," May said. "I put into it all the best parts of everything I could find... for the farmers and the consumers."

Returning to Pecos in October 1981, he began devoting full time to the project last April.

The positive displacement pump utilizes expandable components which are easily removed and replaced in the field. It saves energy by cutting out waste. A positive displacement pump uses a valve which takes no power. It requires no bowls or shafts to turn. And that creates a savings of power.

Cylinders will be made from stainless steel. Long-lasting cups can be replaced at minimal cost. Hubs used have a taper lock feature. Anti-friction bearings also utilize a taper locking arrangement and have expandable housings.

Belts made from a new material have been tested. It is believed they may last up to 10 years.

Word of the low-profile unit first reached producers when May took his plans to Pecos and Reeves County farmers, asking them to underwrite the cost of building the prototype. Although many agreed to the plan, a hitch developed which resulted in Moses stepping in to back the venture.

Security measures were enforced after the prototype was moved from Odessa to its present site.

Paper To Be Printed Early Next Week

Due to the Thanksgiving holiday on Thursday of next week, the Briscoe County News will be printed a day early. Material to be included in next week's issue will have to be turned in to the News Office on Monday.

Thank you for your cooperation.

Christmas Jubilee To Be Held December 4

The annual Christmas Jubilee will begin in Silverton at 11:00 a.m. on Saturday, December 4.

All of the participating Silverton merchants will be offering special promotions that day, and each will be giving at least one door prize.

Drawings for the door prizes will be held on the west side of the courthouse at 5:00 p.m. that same day. This year you must be present to win.

Arts and crafts and other booths will be set up in the Community Center building (north of the Briscoe County News).

Copy for the promotional ads in connection with the Christmas Jubilee are due at the Briscoe County News next week.

Diabetes Clinic To Be Held Here

Julia Venhaus, who is with the Texas Department of Health, will conduct a diabetes clinic Friday morning, November 19, at the Silverton Senior Citizens Center. The clinic will be open to the public. There will be no charge.

and will continue for a month.

From December 12 until January 12, Mrs. Holcomb's paintings will be on display at the First National Bank in Floydada.

ced after the prototype was moved from Odessa to its present site.

"I am grateful to the area farmers and businessmen who have encouraged me," May said, "and for the help I received when financing became necessary."

"We've proved it will work," he added. "Now we have to work to get the price down where people can afford them—and get them on the market."

Lynn Halfmann of Coynosa, chairman of the Pecos County Field Crop Steering Committee for 1982, said following the tests that May's pump could make irrigated farming profitable again.

"If we don't get some cheaper way to pump water soon, no one is going to be able to keep farming in this county," Halfmann said.

"Since I came here in 1979 the fuel costs have doubled, and the price of cotton has come down from 68 cents a pound to maybe 53 cents for this year's crop. Energy costs have now come into our gins and caused increases in hauling and processing," he continued, citing 500 percent increases in diesel and gasoline and as high as a 1200 percent increase in natural gas.

"This pump should come as a great relief to those who have said an energy shortage is responsible for the sky high costs of oil products," Halfmann continued, "and it could solve it overnight."

He believes that May's pump is the result of American ingenuity which always surfaces when crises cause people to look for new ways.

"The concept of this new pump could serve rural and urban areas alike," he concluded, "and when put into nationwide production, it could reduce energy costs for all."

Varsity Teams To Scrimmage Today

Both the Owlettes and Owls will be scrimmaging Floydada here today. The boys will begin about 4:00 p.m., followed by the girls at about 5:00 or 5:15.

"The boys will not be participating in a controlled-type scrimmage like the girls will be," said Coach Russell Gee. "We are still hurting from the injuries the boys received in their last football game, and won't really be up to par for at least a couple of weeks. We will mostly be working out against Floydada."

Those who are competing for positions on the boys team are Kyle Couch, Cal Brannon, Tad Cornett, Eric Patton, Rank Cogdell, Clifford Clardy, Todd Reagan, Shane Reagan, Cary Fleming, Kerry Baird, Craig Patton, Russell Simpson, Barry Eddleman, Scotty Harris, Chris Clardy and Russell Bingham.

"We were pleased with the way the girls played in their first scrimmage with Motley County," said Coach Kelly Braisher. "They were nervous at first, but then they settled down and played well. We outscored Motley County by 10 points."

Girls who are playing basketball this season are Jeni Denton, Judy Northcutt, Missy Brown, Amy Perkins, Tammi Edwards, Angie Lowrey, Lisa Lavy, Alesha Patton, Kathy Brown, Kori Baird, Lee Ann Durham, Shavonne Lowrey, Melissa Stone and Necole Whitfill. Rita Denton and Jan Reynolds are managers.

The high school teams will open their regular schedule of games Monday night when they travel to Happy for three games to begin at 5:00 p.m. The varsity Owls and Owlettes and junior varsity Owlettes will play.

Tuesday night, the varsity Owls and Owlettes and junior varsity Owlettes will host Hart beginning at 5:00 p.m.

The floor was completely redone during the summer, and adds a new sparkle to the appearance of the gym.

HIGH SCHOOL BASKETBALL SCHEDULE

- Nov. 22—Happy, There, 5:00, A&B girls, A boys
- Nov. 23—Hart, Here, 5:00, A&B girls, A boys

- Feb. 4—Lakeview, There, 6:30, A girls and boys
- Feb. 8—Motley County, Here, 5:30, A&B girls, A boys

OUR THANKS TO . . .

In a community blessed with devoted friends, enthusiastic workers, and opportunities for service, we have many reasons for giving thanks. We appreciate the use of this space to express publicly our gratitude for the talents and willing service of some of Silverton's residents not only during this Thanksgiving season, but monthly during the year ahead.

We, as a club, feel the need to "accentuate the positive" aspects of our school and community. We are very fortunate to have teachers, public officials, and citizens who cling to old-fashioned morals and small-town values. Their successes are not always obvious and cannot be measured by worldly standards but greatly enrich the lives of those around them. We can never repay the things they do—but hope at least to let them know they really are appreciated.

**Former Resident Is Third In
 Command At Huntsville's Pack II**

Third in command at the Texas Department of Corrections Pack II and chief supervisor of inmate housing assignments, inmate jobs and security personnel is former Silvertown resident, Major Ron Drewry.

"Anybody who wears a uniform is my responsibility," said the 30-year-old Drewry.

And that responsibility usually keeps the phone ringing in Drewry's office.

Organization is the key to Drewry's job. Everything tends to operate on schedule. "If one group gets off schedule it throws everybody off."

An example are the line crews or groups of inmates who work outside the compound. They hit the fields at 7:00 a.m. and return at 11:00 a.m. for an 11:30 a.m. lunch. They go back out at 12:30 p.m. and they return and have to be finished with the showers at 4:00 p.m.

With 900 to 960 inmates using the same shower facilities and cafeteria, scheduling is impor-

tant. The regular schedule also help to create discipline. "We use discipline in hopes that it will rub off on the inmates," Drewry said.

The native Texan went to Pack II after serving as a building captain at the Huntsville (Walls) Unit for 3 1/2 years, where there are considerably more inmates and personnel than at Pack II.

Drewry started work with the Texas Department of Corrections after moving from Silvertown to Huntsville. In February of 1968 he began working part-time as a teletype and switchboard operator at the TDC administration building while attending Sam Houston State University.

He started full time as a correction officer at the Walls Unit in 1970 and was promoted three years later as a sergeant. He also served as a building lieutenant at the Diagnostic Unit before being transferred back to Walls.

Drewry, who graduated from Sam Houston State University in 1975 with a degree in criminol-

PACK II MAJOR RON DREWRY

ogy and corrections, sees his work at Pack II as an opportunity to learn the operations of a farm unit and as advancement in the TDC.

His primary responsibilities involve the building operations especially inmate housing and job assignments.

Most of the inmates work on 18 line or hoe squads, which each contain approximately 25 to 30 inmates. Changes to an inside job involve an inmate's discipline record and seniority.

Currently, Drewry noted, the availability of jobs for inmates is limited since only the basic departments like the laundry and food service are operating. He noted that once the vocational courses get started and a planned industry begins operation there will be more jobs.

Approximately 120 inmates are working in the food service department and another 50 in the laundry.

Concerning cell assignments, Drewry said, most of the inmates are grouped according to their jobs like the line crews, who are located on the south end for convenience. Considerations also include the safety and well-being of the inmates and security.

Another job of Drewry's is to deal with disciplinary reports filed by officers on inmates. A majority of the cases are minor violations and punishments range from extra work details and verbal reprimands to change in job assignments.

Major violations could affect an inmate's "time earning capabilities" or parole.

Drewry is married to the former Joyce Brooks, also a former Silvertown resident, and they are parents of a daughter, Tammy.

**Junior High Teams
 In Tournament**

Silvertown's Junior High Owls and Owlettes are playing in a tournament today, Friday and Saturday at Cotton Center.

The girls were scheduled to play Lubbock Christian School at 10:00 a.m., followed by the boys game with Lubbock Christian at 11:15 a.m.

**JUNIOR HIGH

SPS Opens Power Plant To Visitors

Employees of Southwestern Public Service Company will show off their second coal-fired power plant, Tolk Station Unit No. 1, near Muleshoe Saturday and Sunday, November 20-21, and everyone in the SPS service area is invited to the open house, said Lee Clay, local manager in Silverton.

The new coal-fired unit will be of significant help in Southwestern Public Service Company's effort to hold down the rising costs for the fuels required to generate electricity, Clay said.

When it is generating at capacity, the 561,000-kilowatt Tolk Unit No. 1—the largest unit ever built by SPS—will be able to supply the electricity needs of 225,000 people.

Tours of the plant will begin at 10:00 a.m. and continue until 4:00 p.m. on Saturday. Tours will continue from 1:00 until 4:00 p.m. on Sunday, Clay said. Casual dress is suggested. Women should wear slacks and low heels.

Tolk Station is located just south of U. S. Highway 70, about 10 miles east of Muleshoe (eight miles west of Earth).

The power plant is easy to find, Clay said. The building which houses the boiler is 237 feet tall—about the height of a 20-story office building. The chimney stack, from which cleaned flue gases from the boiler exit, towers 400 feet above the sand hills which surround the power plant.

The great size of the plant is required to house equipment large enough to supply the region's ever-growing demand for

electricity, said Berl Springer, chairman of the board and chief executive officer of Southwestern Public Service.

"We're immensely proud of Tolk Station, which was designed by our own engineers," Springer said. "We know it will help us serve our customers in the Briscoe County area, and all of our customers, more economically. And the availability of more electrical power will help attract new industries to our entire 45,000-square-mile, four-state service area."

SPS serves more than one million people in the south plains and Panhandle of Texas, eastern and southeastern New Mexico, the Oklahoma Panhandle, and southwestern Kansas.

Springer said SPS is one of only four major electric utility companies in the United States that employs its own in-house plant design engineers. SPS engineers led by Bill Esler, vice president, engineering, and Jim Matthews, generation design and construction group manager, also oversee construction of the power plants they design, Springer said.

Touring the plant "will be quite an educational experience," Clay said. Visitors will see Tolk's coal-handling facilities, the coal pulverizers, the boiler, the turbine-generator, miles of steam piping, the plant maintenance shop, and the plant's state-of-the-art computerized control room.

Appraisal District Directors Meet

The board of directors of the Briscoe County Appraisal District met last Thursday, with the vice-chairman, Joe Mercer, presiding in the absence of Chairman L. B. Garvin, jr. Also present were members, Ray Teeple, Don Burson and Stan Fogerson, and Mrs. Carlye Hill, chief appraiser.

The financial report was read and examined by the board. Mrs. Hill read the letter she received from Charles Sorelle, chief appraiser of the Donley County Appraisal District, in which he extended his appreciation to the Briscoe County Appraisal District for the use of appraisal values for that portion of Clarendon ISD located in Briscoe County. Sorelle stated that the landowners seemed to have no complaints and that none met with the board of review. Also included in the letter was a check for \$2,550 in payment for 510 parcels at \$5.00 each as per the agreement in May 1982.

The motion was made by Burson, seconded by Fogerson and carried that the money received from Donley County Appraisal District in the amount of \$2,550

Entries Due Now For 4-H Livestock Projects

Those 4-H'ers with livestock projects are reminded to go by the Extension office to complete entry cards and pay the fees if you plan to enter stock shows this year.

County Agent Lynda Fogerson has catalogs and entry cards for the Houston, Fort Worth, El Paso and San Antonio Stock Shows for those interested.

These entries will be mailed before Thanksgiving.

The Briscoe County Stock Show has been set for January 28-29, 1983.

be paid to Briscoe County as per prior agreement.

Mrs. Hill reported that October collections came in better than expected. The percentage of collections to the individual tax rolls are as follows:

Briscoe County, 31.7%
Silverton ISD, 32.6%
Mackenzie Water Authority, 41.2%

City of Silverton, 38.0%
Fogerson reported that the Mackenzie Municipal Water Authority was very pleased that bids on the projects at the lake were much lower than had been estimated. He explained that this probably will not affect the tax rate for next year, but that it more than likely will be reflected in lower water rates than had been expected—perhaps as much as a 20% reduction.

The motion was made by Burson, seconded by Fogerson, and carried that the bills presented at the meeting be paid.

This offer excludes tractors under 30 PTO hp and Outdoor Power Equipment and is subject to change or cancellation at any time, without notice or obligation.

Club Has Autumn Foliage Tour

"Shades of Autumn on the Caprock" was the theme for the Century of Progress Study Club's recent Conservation program. Members traveled the Texas Plains Trail on an autumn foliage tour through the scenic Palo Duro Canyon.

"A Celebration of History" was the program presented by Mrs. Ruby Bromley in keeping with Texas Heritage. Mrs. Bromley was honored as one of the Panhandle-Plains Historical Women in connection with the Texas Women's Cultural Exhibit which was shown at the Plains Historical Museum in Canyon during the summer of 1982 and is now touring the state. Mrs. Bromley presented "An Honoree's Point of View" and told of the beginning of her now-famous dining room.

Those attending and enjoying lunch with Mrs. Bromley in Clarendon were Mrs. E. A. Birdwell, Mrs. George Long, Mrs. James Davis, Mrs. O. C. Rampley, Mrs. F. E. Hutsell, Mrs. Carl Bomar and Mrs. John Gill.

Mrs. Davis presided over the business meeting. Mrs. Gill gave the devotional, "Point of View," by Kenneth Wyatt.

Hostesses were Mrs. Birdwell and Mrs. Long.

AS A MAN THINKETH Gerald Beasley THINK THANKS!

A thanks-minded song-writer copyrighted "Count Your Blessings" in 1897. He had studied his Bible! In gratitude, he was "on target."

God does, indeed, want His servants ever mindful of His benevolence.

"And whatsoever ye do, in word or in deed, do all in the name of the Lord Jesus, giving thanks to God the Father, through him" (Col. 3:17).

"... speaking one to another in psalms and hymns and spiritual songs, singing and making melody with your heart to the Lord; giving thanks always for all things..." (Eph. 5:19-20).

"In nothing be anxious; but in everything by prayer and supplication with thanksgiving let your requests be made known..." (Phil. 4:6).

I may resent the rousing alarm, but, think! there are the deaf and bedfast. There may be lost socks, burnt toast, and short tempers, but I have a family! Legions are lonely. My table may not be a gourmet's delight, but mass media shock me with world starvation facts. My job may seem routine, but I'm employed! I may grumble at modest circumstances, but I'm alive.

"What shall I render to the Lord for all his benefits toward me" (Psa. 116:12).

Gilreath Receives GTE Promotion

Gayle Gilreath has been promoted to Installation and Maintenance Supervisor for the exchanges at Memphis, Wellington, Dodson, Lakeview, Estelline, Paducah, Turkey, Quitaque and Silvertown. His promotion was effective October 17, according to Jim Davis, Memphis Operations Manager for General Telephone Company.

Gilreath will be responsible for installing and maintenance of special circuits, PBX equipment and residence service.

Gilreath joined General Telephone in 1962 in the Supply Department. He has served in a number of positions during his career with General Telephone.

He and his wife and two children reside in Memphis, where he is assistant fire chief and an active church member.

Rev. and Mrs. Royce Denton and family will be moving in December to Clovis, New Mexico. He is answering a call to be the pastor of a Baptist Church there.

Glenn McWilliams continues to receive treatment at Central Plains Hospital in Plainview.

WINDY SEASON REMINDS RESIDENTS TO PLAN EVERGREEN WINDBREAKS

The beginning of the wind erosion season reminds residents that now is the time to plan an evergreen windbreak for homes and farmsteads. One row of evergreens would beautify your property, keep dust out of the house, reduce your heating costs, and keep snowdrifts from building up. The first step is to select or order trees of high quality adapted trees and plant them before April 1.

A drip irrigation system is the best way to insure tree survival and rapid growth.

Entries Due Now

Those 4-H'ers with livestock projects are reminded to go by the Extension office to complete entry cards and pay the fees if you plan to enter stock shows this year.

County Agent Lynda Fogerson has catalogs and entry cards for the Houston, Fort Worth, El Paso and San Antonio Stock Shows for those interested.

These entries will be mailed before Thanksgiving.

The Briscoe County Stock Show has been set for January 28-29, 1983.

CAPROCK SOIL AND WATER CONSERVATION DISTRICT

Is now providing wind break trees to Briscoe County Landowners. Contributions would be accepted as follows:

POTTED EVERGREENS	BAREROOTED TREES
AUSTRIAN PINE	RUSSIAN OLIVE
PONDEROSA PINE	NATIVE PLUM
ARIZONA CYPRESS	MULBERRY
RED CEDAR	GREEN ASH
	SCOTCH PINE

\$1.50 Each Order of 30 \$.50 Each Orders of 50

Additional trees and information along with your orders can be obtained by calling Caprock SWCD at 823-2320 Please order trees before Dec. 31, 1982

How better energy decisions make the difference

You and Southwestern Public Service Company are partners, making energy decisions that make the difference.

How you manage electricity in your home helps us make our decisions about generating power to meet the electrical requirements of the Southwest. For when you install a High-Efficiency Add-On Heat Pump, you can manage the electricity used for your home's heating and cooling — which helps SPS determine how much power you, and the Southwest, will need.

So that economical power will always be available, SPS is developing better ways to generate electricity. One way is with coal.

Construction is now completed on the first unit of our second coal-fired power plant, Tolk Station, which is now on-line and generating electricity. Harrington Station, SPS's first coal-fired power plant, has been operating since the early 1970's.

As partners we have made energy decisions which have built Tolk Station. We're proud of the new power plant as you will be too. You're invited to the Open House of Tolk Station between Muleshoe and Earth, Texas. Just follow the map and join us Saturday 10 to 4 p.m., November 20, or Sunday 1 to 4 p.m., November 21. Come as you are, dress casually. There will be refreshments and guided tours for the whole family.

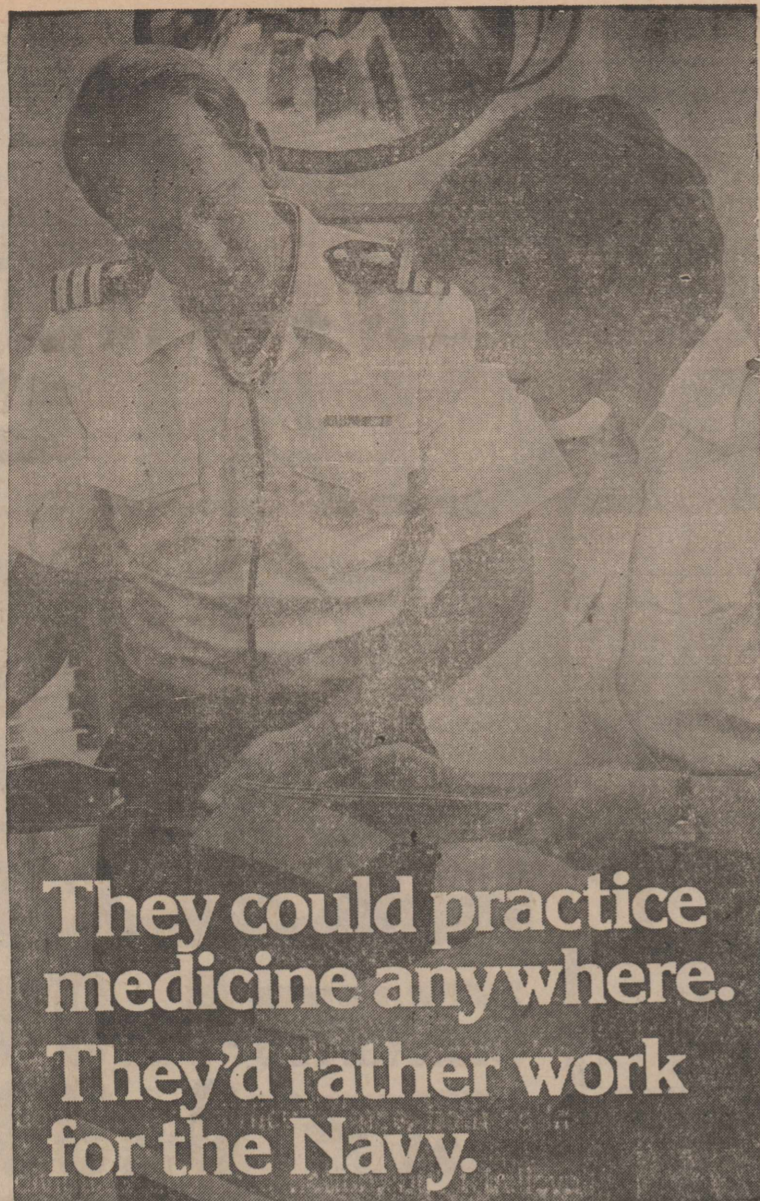

Come to the OPEN HOUSE
Sat. November 20
10-4 p.m.
Sun. November 21
1-4 p.m.

You and SPS, partners managing electricity, make the difference.

SOUTHWESTERN PUBLIC SERVICE COMPANY

They could practice medicine anywhere. They'd rather work for the Navy.

At U.S. Navy hospitals around the world or on ships at sea, some of the most dedicated men and women in the medical profession have chosen to put their experience to work in the Navy. In fact, some of the best people in a broad range of highly skilled fields are working in the Navy. In medicine or communications, in electronics or engineering, you'll find Navy men and women who not only believe in being the best at what they do, they believe it means more when it's done for their country.

Navy know-how.
It's working for America.

Low-sulfur Western coal, stockpiled in the foreground, powers Southwestern Public Service Company's Tolk Station Unit No. 1. The coal is moved by conveyors into a crusher house and into pulverizers which grind it as fine as talcum powder. It's burned in a boiler housed in the giant finished building (center). The steel-framed structure next to the finished building will house Unit No. 2, scheduled for completion in 1985. Also pictured, to the left of the finished building, is the baghouse, which cleans flue gases on their way to the chimney stack.

NOVEMBER 28

Gold Star Winners To Be Honored

Two outstanding 4-H members from Briscoe County will be honored at the 25th annual South Plains District 4-H Gold Star Banquet Monday, November 22, in Lubbock.

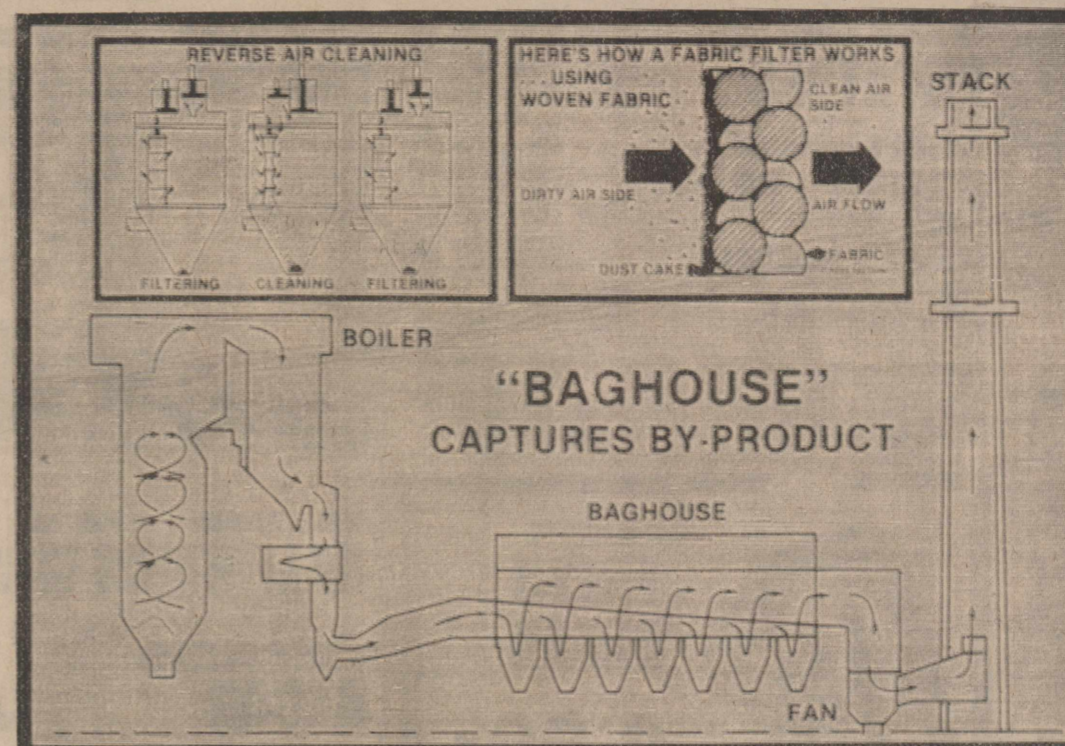

Kori Baird, daughter of Mr. and Mrs. Jerry Baird of Silverton, and Robbie Helms, son of Mr. and Mrs. Joe Edd Helms of Quitaque, received the Gold Star Award at Friday night's Briscoe County 4-H Achievement Banquet.

State Representative Jim Rudd of Brownfield will address the District Banquet and Lubbock Mayor Bill McAllister will be master of ceremonies.

Special guests invited to this year's banquet will be the recipients of the Gold Star Award in 1958, at the first District banquet. Those from Briscoe County were Sandra (Mercer) Barentine, now of Abilene, and Lynn McDonald, Quitaque 4-H'er now living in Slaton.

Electric cooperatives in the South Plains area sponsor this recognition banquet each year.

NOVEMBER 28

Southwestern Public Service protects air quality by burning only low-sulfur, Western coal, and by using "baghouses" which filter powder-like fly ash from the flue gases released when coal is burned in a boiler. Tolk Station Unit No. 1 employs an Ecolaire baghouse, or fabric filter system. Essentially, the system works like a giant vacuum cleaner—which contains not one, but 13,440 fiberglass

"vacuum cleaner bags." Each of the Teflon-B-coated bags is 33½ feet long, and 11½ inches in diameter. Flue gases from the boiler are drawn through the bags, and fly ash carried by the gases forms a thin cake on the inside of each bag. The cake filters later-arriving fly ash from the gases, which—cleansed to stringent standards—pass on out through the stack. The fly ash by-product is col-

lected in hoppers below the bags, and is sold as a soil conditioner, as fill for roadways and parking lots, as an additive to oil well "mud," and as a replacement for cement. Money made from the sale of the fly ash is charged against the price SPS pays for coal, bringing down the fuel adjustment cost to electricity customers.

Tech Cheerleader Injured At Game

Saturday during the Tech-SMU football game at Jones Stadium, 19-year-old Tech cheerleader Jayne Eudy of 316 Chitwood Hall was injured when she fell and broke her right arm during a stunt.

Miss Eudy, a former Turkey resident, and daughter of Mr. and Mrs. Jay Eudy of Plainview, was in satisfactory condition at Methodist Hospital Saturday night.

Miss Eudy was injured about 3:20 p.m. while she was doing a "split-catch" stunt in which she was doing leg splits while being held by her partner James Cody. She apparently leaned too far forward and fell to the pavement before Cody could grab her.

A SMU cheerleader, Lori Harjo, 20, of Dallas, was injured about an hour later when she was picking up her pom-poms off the track that surrounds the football field and was in collision with Texas Tech's black quarter-horse Happy VI-I.

Miss Harjo was in satisfactory condition Saturday night at Lubbock General Hospital with a minor concussion and a sutured lip. She was bounced to the pavement by the collision with the horse and was knocked unconscious for a few minutes before Emergency Medical Services personnel reached her.

The horse was ridden by Joe Church, Tech's Masked Rider, who circles the field on horseback after Red Raider scoring plays.

BOTH DISTRICT TEAMS ADVANCE IN PLAYOFFS

Vega, the team that won the District 2-1A North Zone, and

PRAYER AND SHARE SISTERS MEET IN FRANCIS HOME

"I Can Stop Making Excuses and Start Facing Facts" was the November study for the Prayer and Share Sisters when they met in the home of Mrs. Danny Francis.

Someone once said, "Nobody grows fat on excuses, but everybody gets fed up with them."

In the Bible, God presents the failures, the faults, and the excuses of others. A Christian prays that God will help him to fulfill his duties, rather than trying to make excuses to avoid them.

Mrs. Francis served refreshments, and plans were made for the Christmas get-together on December 18 in the home of Mrs. John Francis. This will be at 7:00 p.m. and the members' husbands will be special guests.

Mrs. Elton Cantwell will host the December study.

The PASS meets each second Thursday at 9:30 a.m. Anyone wishing to study the Bible is invited to attend.

Mr. and Mrs. W. D. Rowell and family will be moving to Exeter, California in December. He will be managing a fruit farm there, beginning the last week in November.

Anton, the South Zone, winner, advanced in the football playoffs last week. Vega is paired with Booker Friday at 7:30 p.m. at Pampa, and Anton is to play Follett at 7:30 p.m. Friday at Clarendon.

The District 3-1A North Zone winner, Motley County High, also won last week, and will be playing Godley at 7:30 p.m. Friday at Albany.

Peace Officers Organize Here

An organizational meeting of the Briscoe County Peace Officers was held Tuesday night, November 9, at the Silverton City Hall.

Due to the need for cooperation between departments and required training sessions to keep abreast of changing methods and legislation, the group chose to organize to make a stronger, more cohesive unit of local law enforcement.

Plans are being made to sponsor training schools to equip local officers with information and equipment to do a better job than ever before.

Some of the items discussed involved a training class in investigation, firearms training, and the development of a firing range on property made available by local rancher John Schott.

Officers elected for 1982-83 were Bruce Tiffin, president; Rick Minyard, vice-president; James Edwards, treasurer.

The group will meet regularly, on the third Tuesday of each month at 7:00 p.m.

Seven officers attended the organizational meeting, with ten other local officers committed to the organization and DPS officers from Tulla, along with local game wardens and ABC officers planning to attend future meetings.

Four local departments are supporting the group, including Silverton Police Department, Briscoe County Sheriff's Office, Mackenzie Lake Patrol and officers from Caprock Canyons State Park.

God's Purposes

If you were having a picnic at the lake at approximately this spot, you might say, "Well, why did the engineers leave those trees in the water when they made this lake? They create such an eyesore. I can see no purpose in it." Yet, fishermen tell us that the fish love those old tree stumps and roots and that you can almost always find fish swimming in the dark recesses around and between these trees.

So many times we question God's wisdom in allowing some things to be and other things to come to pass. But God is good and his purposes are wise. The very thing that seems useless to us, might make us marvel if we could see with Heaven's eyes.

As Isaiah reminds us, "For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord. For as the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts."

But he also wants us to know that his thoughts are many toward us and that everything works toward our good and our salvation. If we had no conflicts, and no questions, we would never have the opportunity to step out on faith.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Fittin'est Pecos. The fittin'est for work. The fittin'est for play. The fittin'est for heel-hugging comfort. Choose from a selection of Red Wing Pecos pull-ons with sizes that are right for you. SIZES AAA-EEE 5-16. You've earned your Wings. Red Wings Jones Dept. Store

They could practice medicine anywhere. They'd rather work for the Navy.

At U.S. Navy hospitals around the world or on ships at sea, some of the most dedicated men and women in the medical profession have chosen to put their experience to work in the Navy.

In medicine or communications, in electronics or engineering, you'll find Navy men and women who not only believe in being the best at what they do, they believe it means more when it's done for their country.

Navy know-how. It's working for America.
