## General Election Is Tuesday, November 6

This week the Briscoe County News endorses and urges you to vote for several candidates who will be listed on the ballot in next Tuesday's General Election. We believe these choices to be the best for the people of our area.

We would especially like to encourage you to vote for Jack Hightower, who is doing a very good job in Washington and deserves to remain in Congress.

His opponent, Beau Boulter, has distorted Hightower's years of service in the Congress in his political advertising. He has tried to make voters believe that Hightower is not a religious man, which couldn't be further from the truth. The Hightowers are Baptists, as most everyone knows, and Colleen Hightower for years served as organist at their church in Vernon.

Boulter has made a big deal of the fact that Hightower has supported the position of the Congressional Democratic leadership and Tip O'Neill 80% of the time, hoping to gain something out of this since O'Neill isn't the most popular man in Washington. The truth is that the House GOP leader supported the same Democratic position 75% of the time. This is because the votes cited were not partisan issues, and the terrible "80% support" is not an issue at all.

Another thing Boulter has made a big thing of is the fact that Hightower has made numerous trips out of the country, but he hasn't said why these trips were made or at whose suggestion. In truth, some of the trips were for the Reagan State Department which recognizes Hightower as a friend of strong defense. He helped monitor elections in Guatemala on one of these trips.

Even the Reagan Administration, recognizing the value of an independent conservative Democrat in achieving goals it considers in the national interest, would be better off with Hightower in his present position of considerable influence on the military subcommittee of the House Appropriations Committee than with an untried, unproven freshman GOP congressman.

Endorsement of an incumbent without an opponent doesn't really have any great value, but we certainly do want to endorse

**BOBBY GLENN POOL**

Funeral services for Bobby Glenn Pool, 27, of 1205 South Travis in Amarillo, were conducted at 3:00 p.m. Monday at the First Baptist Church in Stinnett with the Rev. Terry Austin, pastor of Morse Baptist Church, and Elder Jim Jackson of Primitive Baptist Church officiating. Burial was in Leib Cemetery near Stinnett.

Mr. Pool was killed in an airplane crash Friday near Fritch. According to reports, Mr. Pool was flying alone in a Cessna 180 on his way home to Amarillo after officiating a high school football game in Gruver, about 120 miles north of Amarillo. The plane crashed in a field about eight miles south of Fritch.

The Amarillo airport control tower lost radio and radar contact with Mr. Pool's aircraft about 11:10 p.m. Friday.

Pool's wife, Dar Lee, was waiting for her husband at Tradewind Airport in Amarillo, and contacted officials when the flight was late. The wreckage was found at 11:15 a.m. Saturday in a barren field on the Sanford Ranch. Pool was pronounced dead at the site at 12:15 p.m. Saturday, and the body was

taken to Northwest Texas Hospital in Amarillo for autopsy.

Mr. Pool was employed by Air Midwest, located at the Amarillo International Airport. He had been a private pilot for several years, qualifying for commercial, multi-engine and instrument ratings.

Born at Borger, he attended high school in Stinnett, graduating in 1975. He attended West Texas State University and was a member of Kappa Alpha Order. He was a Baptist.

He married Dar Lee McPherson, daughter of Gale and Gay McPherson, at Lockney in 1980.

He had been a Southwest Basketball Official for eight years.

In addition to his wife, he is survived by his parents, Mr. and Mrs. Bill Pool of Stinnett; two sisters and three brothers, and two grandmothers.

**MYRTLE EVANS**

Myrtle Patton Evans, 93, of San Rafael, California, died October 13, and was buried in Phoenix, Arizona.

Mrs. Evans came to Briscoe County in 1896 and lived in the Silvertown and Quitaue area until 1935. She was the aunt of James Patton of Silvertown.

Wayland Fitzgerald returned home Sunday after undergoing surgery last week at Central Plains Hospital in Plainview.

**Holiday Cooking To Be Featured At Meeting**

Holiday cooking will be featured during a Festive Food Program to be given by Joy Parnell at 11:00 a.m. Tuesday, November 13 in the school homemaking department.

Ms. Parnell is a home economist for Southwestern Public Service Company.

Everyone is invited to attend.

**GOURD-TENDING**

Jonah, sent to cry against the wickedness of heathen Ninevah, was actually resentful that the hearers repented! The narrow-spirited, angry prophet even begged, "O Jehovah, take . . . my life from me" (Jonah 4).

Jonah sat in critical observance to "see what would become of the city" (Jonah 4:5), apparently quite willing that those non-Israelite people should perish. God "prepared a gourd . . . that it might be a shade . . . and Jonah was exceedingly glad because of the gourd." But then God prepared a worm "and it smote the gourd." Then came "a

**ALL AROUND THE TOWN—Continued From Page One**

Foster Whaley's candidacy for re-election as State Representative. Whaley, with the assistance and support of his wife, Lois, is doing a very good job for this district. He has picked the right side of most of the issues, including the school bill which has caused so much heartache to teachers and administrators, and promises even more problems in the future. Whaley opposed this bill, and there may be some who voted for it who now wish they hadn't.

One of these could be Bill Sarpalius. He voted for the school bill, which is surprising in view of the fact that he enjoyed the benefits of the vocational program when he was in school and has been close to education. He doesn't have an opponent in the general election, but we encourage you to show your disapproval of his support of the school bill by not giving him your vote next Tuesday. He will be elected, but we can show our disapproval in this way.

We are also supporting Lloyd Doggett for the United States Senate.

Even though many on the ballot are unopposed, it means a lot to them to have you mark an X in the box beside their name. They consider that you have voted against them if you don't mark your ballot for them.

sultry east wind; and the sun beat upon" his head. He fainted. Things just weren't going his way! Again the pouter requested to die.

Jonah was narrowly interested in "his own thing." Peripheral things had his attention. People didn't matter.

Selfish gourd-tending is widespread. We're all obsessed with having personal "shade" and self-comfort.

The largeness of God's heart and the smallness of man's spirit is seen in the Jonah story.

"The Son of Man did not come to be served, but to serve, and to give his life as a ransom for many" (Mt. 20:28). Thank you, Lord!

John D. Baird became ill at his home Monday morning, and was transported to Swisher Memorial Hospital in Tulia by the Silvertown Volunteer Ambulance Service.

*"We must cut unnecessary spending. The size of the federal budget is still the issue for both Democrats and Republicans."*

Congressman  
**JACK HIGHTOWER**

Balancing the federal budget remains a top priority for Congressman Jack Hightower. He firmly believes the record federal deficit, which drives up interest rates and impedes full economic recovery, must be attacked on a bipartisan basis in the next Congress.

In 1983 Hightower helped reduce President Reagan's budget requests by more than \$2.6 billion.

Hightower co-sponsored HJR 350, the constitutional amendment to require a balanced budget.

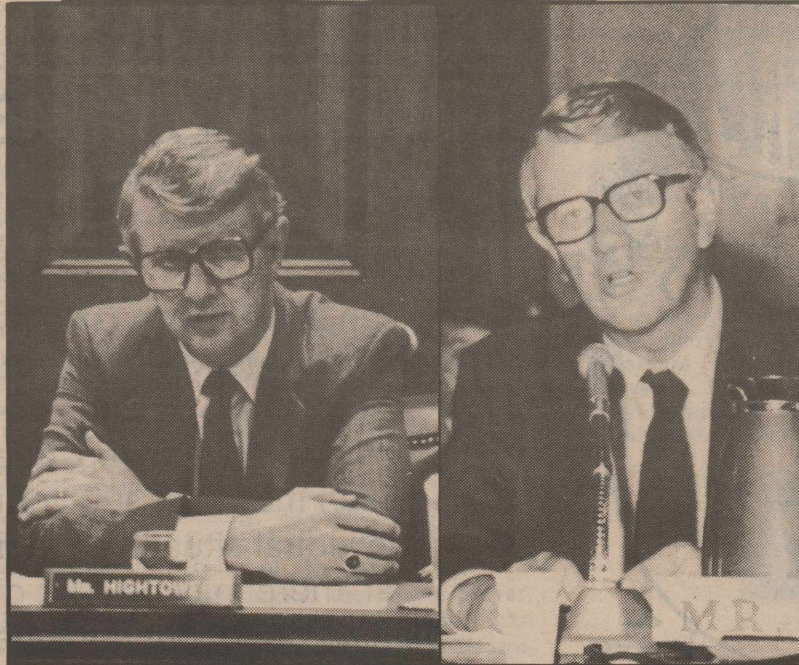

Hightower has opposed, however, radical proposals to balance the budget by drastic cuts in social security and national defense.

Hightower co-sponsored the Sunset Bill to require review of all federal agencies at least every ten years, with automatic dismantling if not reauthorized by Congress.

After voting to cut taxes and reduce spending, Congressman Hightower received the following commendation:

*"Your vote for the Bipartisan Budget reflects a high degree of courage and commitment to America's economic well-being. This action will help achieve the spending reductions which are necessary to drive down inflation and restore the economy."*

To The Editor**

Dear Editor,

I am renewing my subscription for another year.

I want to send a year's subscription to my son, Benny Bingham, also if he isn't taking the paper now.

I enjoy the paper so much, especially the "Looking Back" column. Seems like I know more about what's happening in Silverton than I did when I lived there. Keep up the good work.

The address for Benny is 3117 Primrose Lane, Arlington, Tx 76013.

Thank you so much for the weekly pleasure in your paper.

Sincerely,

Ben S. Bingham

St. Paul, Mn. 55119

Dear editor,

I am sure I don't know all the circumstances and difficulties involved in scheduling important community events, but I feel there are many Briscoe County citizens who would like to see Wednesday evenings kept open so there's no conflict with mid-week church services.

Thoughtful consideration in this matter by all community planners is to be commended.

Sincerely,

Gerald Beasley

## TAGPAC Endorses Doggett For U. S. Senate

U. S. Senate candidate Lloyd Doggett spoke to the District 3 Banquet in Crowell on September 1 and claimed that he supported a Farm Bill that targeted family farmers for relief.

Noting that the 1985 Farm Bill was possibly the last chance to save the family farm system in America, Doggett said, "It's ridiculous to see Congress pass major legislation on price supports with the wheat harvest only months away as has happened in recent years. We need long-term farm programs that assure more price stability, so that farmers can make sensible long-range decisions on what and how much to produce."

Doggett, a ten-year veteran of the Texas Senate from Austin, began his bid for the Senate seat vacated by retiring Republican John Tower late in 1983 against

tremendous odds. Running against former Congressman Bob Kreuger and Lubbock Congressman Kent Hance, Doggett was given little or no chance of even getting in a run-off in the May 5, 1984 Democratic Primary with his two well-known opponents. Doggett surprised most political observers by not only gaining a run-off slot against Hance in the June 2 contest (Hance won the primary by a fraction of the total vote over second place finisher Doggett), but by beating Hance in another razor-thin contest. Doggett now is opposed by Republican Phil Gramm of College Station, one of the Democrats who supported President Reagan's economic policies in the beginning of Reagan's term. Gramm later turned to the Republican party after being publicly scolded by Democratic leadership for his role in the Reagan budget slashing.

Doggett emphasized his commitment to the Texas Farmers Union, saying, "I have fought for the family farmer in the Texas legislature, and will continue to do so in the U. S. Senate. I agree with Jim Hightower (Commissioner of the Texas Department of Agriculture) that we are near the last chance to save the family farm."

The political action committee of the Texas Farmers Union, TAGPAC, announced its endorsement of Doggett for the U. S. Senate seat earlier in the day. Board member Pat Cox of Hays County called Doggett "the clear choice for farmers and ranchers in Texas."

"Lloyd Doggett is a cut above Phil Gramm on agricultural issues," says Cox. "We are urging all farmers and ranchers, no matter what party they belong to, to cast their vote for Doggett. As a U. S. Senator, Doggett will be dedicated toward the goal of making farming a paying job."

### Texas A&M feeds over 50,000 meals daily to students

COLLEGE STATION — When Fred Dollar thinks about the start of a new school year he isn't concerned about teaching loads, classroom performance or even campus extracurricular activities. He thinks about food.

Every day this school year, Dollar will feed more than 50,000 meals to hungry students at Texas A&M University, where he is director of the Southwest's largest college or university food service operation. The more than 10 million meals Dollar and his staff will serve this school year also put the university among the 10 largest college food service operations in the U.S.

In a single year, that's millions of pounds of meat and potatoes, countless pieces of bread and pats of butter, gallon upon gallon of soft drinks and fruit juices, warehouses full of flour and sugar and salt and every kind of salad fixing imaginable, all of which have to be served rapidly, at the right temperature and prepared to perfection.

## Doggett Details Gramm Social Security Cuts In Briscoe County

As a part of his campaign in Northwest Texas, Democratic U. S. Senate candidate Lloyd Doggett today detailed the impact of Phil Gramm's Social Security budget cuts on the citizens of Briscoe County and slammed a proposal embraced by Gramm to close rural post offices.

"Political candidates too often address national problems without understanding or caring how they affect real people. Phil Gramm's Social Security cuts are but one example of his insensitive actions that are hurting hundreds of people in Briscoe County," Doggett said.

Doggett revealed that as a result of legislation authored by Phil Gramm and his ten votes against Social Security, 699 senior citizens and dependents in Briscoe County have lost an average of \$771 since Gramm's Social Security cuts became law. Statewide, Gramm's cuts have cost 1.6 million Texans more than \$1.1 billion. The loss for Briscoe County Social Security beneficiaries totals \$538,929.

Phil Gramm has also supported legislation to close nine out of ten Social Security offices and embraced a proposal to close 12,469 rural post offices. "Such a proposal is neither fair nor efficient for our senior citizens. There are more than one-quarter million Texans over 80 years old who can't easily jump in a car and drive long distances to unravel a Social Security foulup or mail a letter. I will fight tooth and nail to keep those offices open in Texas and operating efficiently," Doggett said.

"Senior citizens don't need a lecture from Phil Gramm about what a luxury it is to live to be 80 years old or homey talk about his momma's Social Security check. They need concrete assurances that the sacred contract they have with their government on Social Security will be honored. They have the right to demand the opportunity to live in dignity. As your U. S. Senator, I will respond to that demand and protect full Social Security and Medicare benefits for the senior

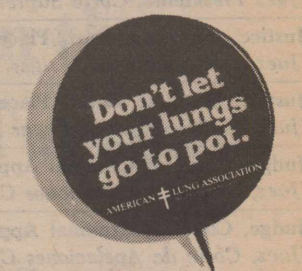

citizens of Briscoe County," Doggett said.

Doggett's report to the people of Briscoe County is based on data provided by the Social Security Administration and Fiscal Planning Services, a Washington-based management information service which specializes in detailed impact analyses of the federal budget.

### Anti-Pot Is On the Button

### Can vitamins prevent cancer?

HOUSTON, TX. — Lots of folks think vitamin supplements will protect them from all sorts of problems, including cancer.

"There is no conclusive scientific proof yet that any particular vitamin or combination of vitamins can prevent a specific kind of cancer," says Dr. Guy R. Newell, director of cancer prevention programs at The University of Texas M. D. Anderson Hospital and Tumor Institute.

He hastens to add, however, that important new information is being obtained all the time about how some naturally occurring vitamins in the foods we eat appear to have protective features for a few malignancies.

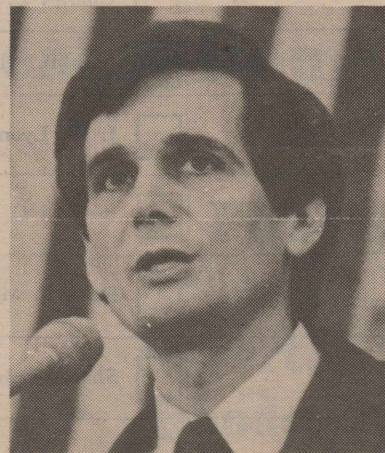

"Vitamin A and some synthetic components of this vitamin can suppress chemically induced tumors in animals. While people are being advised to eat more vitamin A-rich foods — such as dark green and deep yellow vegetables—they should be warned that excessive supplements can cause damage to the liver," Dr. Newell says.

As for vitamin C, there are indications that fruits and vegetables high in ascorbic acid provide insurance against cancers of the stomach and esophagus. Dr. Newell explains vitamin C inhibits carcinogenic nitrosamines from forming in the stomach. But taking megadoses of this vitamin can cause serious bone marrow changes.

"Everyone should do everything possible to prevent cancer or any other disease. Huge doses of vitamins, however, are no panacea for any health problems," Dr. Newell contends.

## "Lloyd Doggett is the best thing to hit rural Texas since twist-off caps."

Jim Hightower

When it came time to stand and choose, Lloyd Doggett stood with you.

### ELDERLY

- ★ Lloyd Doggett fought to preserve the fiscal integrity of all Texas retirement systems and believes that Social Security "is a sacred contract we cannot turn our backs on."

### EDUCATION

- ★ Lloyd Doggett has always been one of Texas' leading advocates of a first class public education system. As a State Senator, he has been in the forefront of the struggle to improve the quality of teaching for our children.

### PUS TEXAS FIRST

- ★ In his eleven years as a Texas Senator, Lloyd Doggett has always put the needs and concerns of Texas first and the greedy special interests last. Lloyd has written and fought to pass 125 people-helping laws, including the Consumer Protection Act, utility reform, and the Human Rights Commission.

LLOYD DOGGETT knows that when our agricultural producers are paid a fair price for their products, it brings prosperity not only to our small town merchants but to our entire state and the U.S. economy in general. And he says, "The mismanagement of the farm program is a national scandal. We don't ask any other segment of our economy to sell their products for less than what it costs to produce them, but current farm policies have done that for three years running and still cost U.S. taxpayers six times more last year than the average farm program costs throughout the entire decade of the '70s. When our farmers are paid a fair price, the rural economy will boom and it will cost taxpayers much less."

Lloyd will fight for a 1985 Farm Bill that will get a handle on overproduction and assure our family farmers of at least recovering their production costs and give them a chance to make a fair profit.

He supports reasonable debt restructuring and a moratorium on farm foreclosures by FmHA until fair price and production policies can be put into place.

In the Texas Legislature, he fought to grant property tax relief to family farmers and ranchers and to deny the relief to giant corporations and land speculators. In the U.S. Senate, he will continue fighting to eliminate tax breaks that give agribusiness conglomerates, "pinstripe farmers" and land speculators a competitive advantage over our farmers and ranchers who aren't in a position to "farm the tax code."

Lloyd authored the Resolution of the Texas Senate to veto a nuclear waste dump in the farmland of the Panhandle.

Lloyd Doggett is the only candidate in this race who has ever had a vote against gun control and he will continue in the U.S. Senate to oppose gun control.

Phil Gramm provided the Congressional leadership that put Social Security "back in the black" and on "solid economic ground" without denying anyone their benefits.

Phil Gramm was the House architect of the economic recovery—an economic recovery that has stopped cold the worst enemy of Social Security recipients . . . INFLATION.

The National Alliance of Senior Citizens has given Phil Gramm a 100 percent rating for his effectiveness in halting inflation, cutting taxes and strengthening the Social Security program.

Phil Gramm has been an effective leader for Texans in the U.S. House of Representatives. We need him in the U.S. Senate.

**What about stress and cancer?**

HOUSTON, TX. — Does stress play any part in causing cancer?

"That's an increasingly important question, especially with our fast-paced worlds getting more hectic every day, but we're just at the beginning of having some answers," replies Dr. Guy R. Newell, director of cancer prevention programs at The University of Texas M. D. Anderson Hospital and Tumor Institute.

Some scientists say there may be at least an indirect link between excessive emotional, physical and/or chemical stresses and cancer mediated through the immune system. In simple terms, this means individuals involved in sustained stressful situations—loss of a loved one, divorce, being fired, drug abuse or serious illnesses, for example—are more vulnerable to certain cancers because their immunological defenses are below par.

So-called helplessness-prone women had a higher incidence of cervical cancers in one study while another investigation found a higher lung cancer rate among people unable to express their emotions.

Dr. Newell says stress is a general, non-specific term for a complex physiological phenomenon which may cause the adrenaline level to soar and interrupt the normal immune mechanism so vital to fighting off diseases.

"Anyone who has undergone prolonged periods of stress should pay close attention to warning signs for cancer. Moreover, these people should seek help for coping with their stresses in much the same way they get advice on how to manage their financial affairs," Dr. Newell says.

**Marijuana Found To Have Serious Health Effects**

Recent studies show that marijuana smoking damages the lungs and has detrimental physical effects on the reproductive and central nervous system. To prevent young people from starting to smoke pot, the American Lung Association — The Christmas Seal People® — is launching a new community-wide education project for preteens entitled "Marijuana: A Second Look." For information, contact your local American Lung Association.

## Farmers Home Assists 420 Swisher, Briscoe Farmers

The Swisher-Briscoe County Office of the Farmers Home Administration assisted 420 farmers with farm loans and subordinations during the 1984 fiscal year, FmHA County Supervisor August H. Hesse III said today.

The loans and subordinations totaled \$21,064,194.62 during the twelve months ending September 30. "The loans were made to farmers who needed credit but did not qualify for loans from private lenders," Hesse said. "The loan programs of the Farmers Home Administration helped these farmers continue their operations."

Breakdown of the loans for Swisher-Briscoe Counties is as follows:

209 Operating and Emergency loans totaling \$8,802,040.00

Farm Ownership and Soil and Water Loans totaling \$118,000.00

In addition to the actual dollars loans through Farmers Home Administration, there were 265 guaranteed loans and subordinations totaling \$12,144,154.62.

Nationally, preliminary figures show FmHA provided 110,425 farm loans totaling \$4.4 billion during the fiscal year, Hesse said.

FmHA is a credit agency of the U. S. Department of Agriculture. It provides loan assistance to farmers and ranchers who need credit but cannot obtain it elsewhere. All loans must be repaid in full, plus interest.

## Farm Credit Initiatives Set To Go Into Operation

Regulations for implementing President Reagan's Farm Credit Initiatives have been completed and are being distributed to Farmers Home Administration (FmHA) field offices, Charles W. Shuman said today.

The regulations provide for a one-time debt set-aside program for FmHA borrowers and loan guarantees for non-FmHA borrowers.

In addition, Shuman has developed guidelines which County Supervisors will use in signing contracts with local non-Government lenders and farm management specialists. These specialists will provide additional advice and assistance to financially distressed farm borrowers.

In both cases, the action will restore farmers to a positive cash flow position.

"With field office training underway, we will have everything in place for the successful launching of this program," Shuman said.

Under the plan announced recently by the President for farmers experiencing serious financial difficulty, FmHA can set aside up to 25 percent, to a maximum of \$200,000, of a borrower's debt for five years

without interest.

For non-FmHA borrowers, the agency can guarantee up to 90 percent of a loan if the lender is willing to write off a minimum of 10 percent of the debt.

## Farm Debt Meetings

### To Be Held

A farm debt restructuring program for farmers experiencing severe financial difficulty can be in operation in most areas of Texas this week, J. Lynn Futch, State Director for the Farmers Home Administration (FmHA), said today.

Debt restructuring is a key part of the farm credit initiatives announced by President Reagan on September 18.

Under the program, FmHA can set aside up to 25 percent or \$200,000, whichever is less, of an FmHA borrower's debt for five years without interest. For a non-FmHA borrower, the agency can guarantee part of a new loan if the lender will write off a minimum of 10 percent of the existing debt. In both cases, the goal is to restore the borrower to a positive cash flow situation.

Futch said FmHA field staff in Texas will be trained in the operational details of the new program.

Borrowers will begin receiving letters in a few days asking them to contact the FmHA County Office about an appointment to review their loan, the first step in the restructuring process.

J. Lynn Futch and Robert Hopper, FmHA Farmer Program Chief for Texas, attended a final work session with other FmHA officials from across the country in St. Louis last week.

## Young Farmers Have Business Meeting

Silverton Young Farmers held their regular meeting with Rick Hester presiding on Thursday, October 25.

Members discussed the booth possibilities for the carnival to be held October 27 at the Briscoe County Show Barn. A baseball throw was approved to be sponsored by the group.

A dance was planned for Saturday, November 3, at the Show Barn with the Rough Riders of Nazareth providing the music.

The State Young Farmer Convention to be held in January in Fort Worth was discussed.

The group voted to sponsor a supper for people who helped with the rodeo.

Those attending were Brian Emert, Rick Hester, Tobe Riddell, Clinton Dickerson, G. W. Chappell, Hand Baird, Mike Delano, Ken Wood, Calvin Shelton, Dale McWaters and Wayne Stephens.

## Senator Bill Sarpalius Reports

### AMENDMENT 8

AUSTIN — The amendment at the bottom of the constitutional amendment ballot on which Texans will vote on November 6 would change the way in which legislators are paid expenses in completing their official duties.

A member of the legislature presently receives \$30 per diem payment when the legislature is in session. Amendment Number 8 would tie the amount of the per diem payment to the maximum daily federal income tax deduction allowed for a state legislator's expenses.

Those favoring the amendment say the \$30 per diem adopted in 1975 is out of date. Significant inflation has occurred dramatically. The existing allowance does not begin to reimburse a member of the legislature for the cost of maintaining two residences during a legislative session.

Tying the amount of the per diem to the federal income tax deduction allowed for a state legislator ensures that the amount will always be reasonable. The per diem will be increased or decreased in accordance

with changes in the federal allowance. The change would also eliminate the need to keep adjusting the amount of the per diem through the costly constitutional amendment process.

Those opposed to the amendment say that the allowance granted under existing law is satisfactory to offset ordinary living expenses. At \$30 a day, a member of the legislature receives a legislative salary of \$600. The amendment would, under current federal law increase the amount to \$2,250 per month.

They add that the amount of the per diem compared to federal law is too indefinite. The state has no control over the amount of federal allowance.

There are a total of eight constitutional amendment proposals on the general election ballot on November 6. The people are the final judges on changes in the constitution and making your wishes known on these amendments is just as important as your other votes on choosing elected leaders.

### Are any cancers inherited?

HOUSTON, TX. — Should people worry about inheriting cancer?

"Generally speaking, no," says Dr. Guy R. Newell, director of cancer prevention programs at The University of Texas M. D. Anderson Hospital and Tumor Institute.

There are some exceptions, such as childhood retinoblastomas, tumors of the eye. Hereditary factors are associated in some adult cancers of the breast, colon and certain melanomas.

"What we do know is some individuals are at an increased statistical risk for developing cancer when there is a familial history of malignancies. That is true for women whose female relatives had breast cancer," Dr. Newell explains.

Scientists around the world are checking numerous clues that suggest as yet unclear familial factors. Such common ground as unusual hormonal patterns, abnormal immune system functions and insufficient enzyme levels are just a few of the leads being

followed.

Dr. Newell notes that an increased risk for developing some type of cancer based on family history can serve to keep many people on their toes to early warning signs. In addition to female breast cancer, men having brothers who develop cancer of the large intestine before the age of 45 should have a complete checkup for possible colon polyps which predispose to cancer.

### Today's Marijuana Now Ten Times Stronger Than a Decade Ago

In the past decade, the potency of marijuana typically smoked in the U.S. has increased tenfold, with damaging consequences to the lungs. In order to combat marijuana smoking among young people, the American Lung Association—The Christmas Seal People®—is launching a public education program, "Marijuana: A Second Look," which is targeted at pre-teenagers. For further information, contact your local American Lung Association.

### Gas hydrates new energy source discovered in Gulf

COLLEGE STATION — Texas A&M University oceanographers have reported the discovery of gas hydrates, an icelike formation of methane and water that some feel could be an alternative energy source, under the ocean floor in the Green Canyon area of the Gulf of Mexico.

In the current issue of Science magazine released this week, Drs. James M. Brooks, Mahlon C. Kennicutt II, Roger R. Fay, R. Sassen and others report the occurrence of thermogenic gas hydrates in ocean sediments retrieved during geochemical surveys in the northwestern area of the gulf. The gases that form these hydrates have seeped up from much deeper reservoirs, Kennicutt said. The samples, he said, are the result of temperature and pressure under the ocean floor.

The temperature and pressure ranges in the sediments where the hydrates were recovered are very close to the stability limit of methane hydrates, Kennicutt said. Their recovery gives scientists the challenge of discovering what conditions allowed the existence of this frozen gas at elevated temperatures.

**BROWNIES**—Pictured at the conclusion of their investiture service Monday night were [back row, left to right] Michelle Whitfill, Amy Jasper, Lori Brannon, Holly Nance, Christina Stephens, Staci Hill; [middle row] Leslee Weaks, Kami

Martin, Kayla Ramsey, Johanna Bailey, Brandi Brunson, Kristi Bean, Christa Tucker; [front] Shannon Weaver, Carrie Baird, Dedra Johnston and Kara Kingery. Jessica Thompson was not present.

### Brownies Have Candlelight Investiture Service

The candlelight investiture ceremony of Brownie Troop 165 was held Monday night in the Pioneer Room at First State Bank. Over 50 family members and friends watched seven new members make their Promise and receive the Brownie and World Association pins. New Brownie members are Lori Brannon, Carrie Baird, Dedra Johnston, Shannon Weaver, Christina Stephens, Amy Jasper, Johanna Bailey, and Jessica Thompson, who was unable to attend.

A flag ceremony led by Kayla Ramsey and flag bearers Kara Kingery and Holly Nance opened the ceremony. Rev. Jerry Miller, pastor of the First Baptist Church, gave the opening prayer. Leslee Weaks gave the opening and the Brownies welcomed everyone with the song, "Hello, Hello." Kami Martin gave the history of Brownies and Christa Tucker spoke on the five worlds of Scouting.

Michelle Whitfill told of the Girl Scout Promise and the three promise candles were lighted by Kami Martin, Kristi Bean and Brandi Brunson. The two Brownie pins were described by Kristi Bean and Brandi Brunson. The pins were then given to the new Brownies by leader Vicki Bean.

Brownie ways were told by Holly Nance who talked about the Brownie sign and Brownie handshake; Staci Hill who told the Brownie motto, "Be Prepared," and Kara Kingery, who told the Brownie slogan, "Do a good turn daily." Kayla Ramsey talked

about the Girl Scout Law and the ten law candles were lighted by the new members.

Christa Tucker introduced the leader who handed out the remainder of the awards. The second-year Brownies received their membership star and their yellow Brownie B patch. The Brownie B patch is earned by doing projects during the year. Some of the projects were singing for the senior citizens, attending Day Camp, taking part in the flag ceremony for homecoming, and visiting the museum at Plainview.

The closing was led by Leslee Weaks, Michelle Whitfill and Kristi Bean, and Rev. John Bailey of the Assembly of God Church gave the closing prayer. The ceremony was ended with the Brownies singing the Brownie Smile Song and Taps.

Refreshments were served to those attending by Jeneva Bailey, Sheryl Weaver, Ann Jasper, Betty Stephens and Mary Jo Brannon.

Brownies meet Mondays from 5:00 until 6:00 p.m. at the First Baptist Church in Silverton.

Bud Vaughan is scheduled to enter St. Anthony's Hospital in Amarillo Monday and expects to undergo surgery Tuesday.

Bob McDaniel came home from St. Anthony's Hospital in Amarillo Sunday after having had knee surgery there last week.

Chick Northcutt was moved by the Silverton Volunteer Ambulance Service from St. Anthony's Hospital in Amarillo to Swisher Memorial Hospital in Tulia Tuesday afternoon. He is continuing to recuperate from a broken hip.

### Extension Homemakers Meet In Allard Home

The Southwestern Extension Homemakers met on Thursday, October 25, in the home of Mrs. Georgia Allard. The devotional was given from memory by the hostess, including the most beloved Twenty-third Psalm and portions of John 14.

During the business session, Lanita Cantwell was elected Council Delegate by acclamation. The Halloween Carnival was discussed, and each member was asked to bring "goodies" for the fishing booth.

Lois Nance, one of the delegates to the state meeting, gave a report on the workshops she attended at the convention. Family Life was one of the most stressed workshops. Each family is encouraged to adopt a person in a nursing home, a handicapped

person or a child in need—not necessarily a physical need, but one in need of being loved.

Each member present gave at least one interesting incident from his family history, which members were encouraged to write up this year. This part on the program was given by Lanita Cantwell.

Those present were Lois Ziegler, Theta Holt, Syble Teeple, Polly Jarrett, Christene King, Lois Nance, Lanita Cantwell, Frances Kellum, Lynda Fogerson, and the hostess, Georgia Allard, who served lovely refreshments to those present.

**TEXAS CABBAGE PATCH**

If the only place you have seen cabbage lately is in connection with the advertisements for "Cabbage Patch Kids," then maybe you have neglected this nutritious, delicious vegetable.

Cabbage is grown year-round in many areas of Texas. The harvesting of this vegetable, which grows best in cool, moist climates, is winding down in the High Plains. However, the peak season for harvesting cabbage in the Lower Rio Grande Valley is between November and April.

Weight conscious individuals know that cabbage is a good low calorie vegetable. A good source of Vitamin C, cabbage also contains calcium and a half cup serving contains only 25 calories. Delicious cooked or raw, cabbage is equally at home in summer or winter recipes.

When purchasing cabbage look for firm, round compact heads that feel heavy, and the color should be bright. Avoid purchasing cabbage that has wilted leaves or appears to have dehydrated. If unwashed and stored in a plastic bag, cabbage may be refrigerated for up to two weeks.

Cabbage is available in many varieties. Red cabbage is a variety used primarily in salads and for pickling. If red cabbage is cooked in alkaline based water (baking soda added) then the cabbage will turn an unattractive color. Therefore when cooking red cabbage, add a small amount of lemon juice or vinegar to help retain the red color. Using a knife instead of a chopper when cutting up cabbage prevents excessive Vitamin C loss also.

Incorporating cabbage in salads, main dishes or as a side dish provides for a good low calorie source of Vitamin C and who

knows, you may discover that you are a "Cabbage Patch Kid" also!

Enjoy these low cost, low calorie cabbage recipes from the Texas Department of Agriculture.

**SKILLET CABBAGE**

- 1 cup thinly sliced cabbage
- 1/4 cup finely chopped green pepper
- 1/2 cup diced celery
- 1/4 cup diced onion
- 1/2 cup chopped tomato
- 1 tablespoon vinegar
- 1/4 cup water

Combine ingredients in large skillet. Cover and cook over low heat 5-10 minutes. Vegetables should be firm. Yield: 5 - 1/2 cup servings. (25 calories per serving)

**TEXAS CABBAGE ROLLS**

- 8 large cabbage leaves
- 1 pound ground beef
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 2 tablespoons onion, chopped
- 1 cup cooked rice
- 1 egg
- 1 (10 1/2 oz.) can condensed tomato soup
- 3/4 cup water

Pour boiling water over cabbage leaves. Let stand for 5 minutes, then drain. Season meat; add onion, rice and egg. Roll a portion of filling into each leaf, fasten ends with toothpicks. Place the cabbage rolls on rack or steamer in the pressure cooker. Pour tomato soup and water over rolls. Cover, set control and cook 8 minutes after control jiggles. Reduce pressure normally for 5 minutes and then place pan under faucet and run cold water over the pressure cooker before opening the lid. Serves 4.

**CABBAGE-PECAN BALLS**

- 2 tablespoons butter or margarine
- 1 (3 oz.) pkg. softened cream cheese
- 1/3 cup blue cheese
- 1/8 teaspoon salt
- 1 tablespoon lemon juice
- 2 tablespoons minced green pepper
- 2 tablespoons minced celery
- 1/4 cup chopped pecans
- 1/4 cup finely chopped red

**Churches Celebrating Bicentennial of Methodism**

The Methodist Churches are celebrating the bicentennial of Methodism. In honor of this, Kenneth Wyatt, an artist from Tullia, went to England in search of material about John Wesley. The artist's interpretation of John Wesley sending Thomas Coke to America is an inspiring challenge to a very receptive church.

For the over nine million United Methodists, as well as the wide Methodist Family, this artist has painted the picture "Offer Them Christ."

Chester Strickland and his wife, Gladys Smithee Strickland, presented this picture to their home church here in Silverton. The picture will hang in the foyer of the First United Methodist Church with a plaque underneath which reads: "Chester and Gladys Smithee Strickland Dedicate This Painting to the Glory of God In Loving Memory of our parents."

Their parents were members of the Silverton church for many years. Mr. and Mrs. Willie Smithee joined this church in 1906. All of their present family grew up here.

Mr. and Mrs. C. M. Strickland joined this church in 1926. All of their children were members.

This picture has a very special meaning and honor to our families since Nancy Nance Montague, her daughter, Cassidy, and her son, Courtney, are all in the picture. Nancy is a daughter of Durene Strickland McPherson. All three of Durene's children grew up in this church. Her other two children are Wayne Nance and Juannah Jennings.

Betty McMurtry Devin, a niece of Mr. and Mrs. Willie Smithee, is in the picture, as well as her husband, Delbert Devin, a

cabbage

long-time friend of the family. Chester and Gladys Strickland feel it is a great honor to present this picture to the church where they grew up and were married. Even though they have lived away from Silverton for many years, it is still considered their home church and they have many sweet as well as sad memories.

As they unveiled the picture, it was with love and humility. Standing with them during the unveiling were Kathleen Smithee Green, Einell Smithee Montague and Durene Strickland McPherson. They were sorry that the rest of the family could not be present to share the honor since their parents were loved and dedicated members of this church.

It is the hope of Chester and Gladys Strickland that by the life their parents lived and the heritage handed down to them, that they, as christians, can "Offer Them Christ" through this community and the world.

A memorial to the loved ones in their family who have gone on: "They never really leave us, those loved ones Who have passed through the Valley of Death to the sunshine above. A thousand sweet memories are holding fast

to the places they Blessed with their presence and love."

**Drug treatment programs successful according to study**

**COLLEGE STATION** — Drug treatment programs seem to be successful in helping some chronic drug users kick the habit, according to the results of a 12-year follow-up study of almost 500 opiate addicts nationwide.

Of the 26 percent of the addicts who reported they had not used illicit drugs for the last year before the follow-up, more than half said they had been on a treatment program when they quit, said Dr. Dwayne Simpson, head of the Behavioral Research Program at Texas A&M University which is conducting the research — one of the few long-term national studies of chronic drug abusers.

Sponsored by the National Institute of Drug Abuse, the study shows that drug treatment programs may be the key in disproving the old adage "once an addict, always an addict."

Some people believe it good luck for a white dove to fly over them.

## CARDS OF THANKS

We would like to thank everyone who helped make the annual Halloween Carnival a success. Without your support and participation, it would not be possible to continue this project.

Thanks again,  
Progressive  
Extension Homemakers

A great big thank-you to the Booster Club for the painting of the gym. It looks so good! We especially thank the following people for organizing, painting and clean-up of this big project: Mr. and Mrs. Doc Simpson, Mr. and Mrs. Riley Harris, Mr. and Mrs. J. E. Patton, Mr. and Mrs. Dewey Estes, Mr. and Mrs. Fred Edwards, Mr. and Mrs. Joe Brannon, Mr. and Mrs. Lynn Frizzell, Mrs. Carolyn Lowrey, Dale McWaters, David Schott and all other high school students who helped.

Also, a very special thank-you to Mrs. Jimmie Sue Estes for the painting of the owl. Her many hours of tedious work is something that will be treasured by the students and fans of Silverton High School for many years. Thanks also to her "helpers" who helped get the whole project going: Mrs. Mary Jane Patton, Mrs. Sharon Simpson and Mrs. Sybil Martin.

Thanks to Arch Martin and Calvin Shelton for the framing and hanging of the owl.

Silverton has something of which to really be proud! We appreciate you all!

Coach Kelly Braisher  
and the Owlettes
