THINK SILVERTON!

THURSDAY, JUNE 27, 1985

VOLUME 77 NUMBER 26

## Committee Appointed To Study Mackenzie Manager Applications

In its most recent meeting, the board of the Mackenzie Municipal Water Authority approved a committee to review applications and select the ones desired for personal interviews for Mackenzie Authority manager.

The committee includes C. J. Payne, T. Owen Thornton, John Earl Simpson and Don Brown. It was anticipated the committee would be ready for recommending personal interviews by the next board meeting.

Outgoing manager Neil Taylor told the board that the finalization of the water project was not completed and would not be completed until probably August and that he was willing to stay on until such time as it was completed.

### OTHER BUSINESS

Manager Taylor then gave a report on the water project and the reservoir. He stated that the lake's depth at the dam at that time was approximately 109 feet. This represented an increase of approximately 18 feet due to recent rains on the watershed.

He reported that the distribution system was now beginning to operate in a more satisfactory manner. The board then proceeded to discuss the request of Cactus Cove Marina for using treated water from the treat-

ment plant.

After a discussion Bud Couch moved that the marina pay for the meter and installation thereof, but they would not be charged anything for the water up to the minimum of 2,000 gallons per month.

Over the minimum they would be charged at the standard rate of \$2.00 per thousand gallons. This motion was seconded by John Earl Simpson, voted upon and carried unanimously.

## Delinquent Taxes To Be Turned Over To Attorney Soon

Carlye Hill, Chief Appraiser for the Briscoe County Tax Appraisal District, reminds taxpayers who have not paid their 1984 taxes, that their accounts MUST be turned over to the delinquent tax attorneys on July 1, which will add an additional 15% to their taxes along with an 18% penalty and interest for the month of July.

Delinquent tax notices were mailed out May 30 to all delinquent taxpayers for Briscoe County, Silverton ISD, City of Silverton and Mackenzie Water Authority.

According to the Texas Tax Code, in each year divisible by

## Boulter To Hold Town Meeting In Silverton

Continuing with his series of district-wide Town Meetings, Congressman Beau Boulter (R, 13) has invited the citizens of Briscoe County to a Town Meeting on Tuesday, July 2, at 7:00 p.m. in the Pioneer Room at the First State Bank in Silverton.

"Over the past six months," Boulter commented, "these meetings have been central to keeping me in touch with the people of the 13th District. We've talked about everything—from farm problems to the Cost of Living Adjustments for Social Security recipients. While I'm in Silverton," Boulter continued, "I want to talk first about the 1986 budget, and then get into whatever the folks there want to talk about."

R. C. Kitchens returned home Sunday after having been a patient at Central Plains Hospital in Plainview for several days.

five, CERTIFIED LETTERS SHALL BE MAILED to all taxpayers who have more than the current year's taxes due.

Certified letters which are returned UNCLAIMED to the tax office and persons for whom the tax office does not have current addresses WILL BE PUBLISHED IN THE LOCAL NEWSPAPERS.

## 4-H Dress Revue Awards Presented at Program

Eight county 4-H members were announced as winners of Dress Revue awards at a program held Thursday night of last week in the Fellowship Hall of the First Baptist Church, and will compete in the District 4-H Fashion Show at the Texas Tech University Center Friday as a result of winning their respective categories.

Junior I participants are Ashleigh Wyatt, non-tailored daywear; Kami Martin, active sportswear; Leslee Weaks, evening and specialty wear.

The Junior II winners are Vera Ruth Pinkerton, non-tailored daywear; Celeste Sperry, tailor-

ed daywear; Oleta Lane, evening and specialty wear; Penni Fogerson, active sportswear.

Kristy Fogerson is the senior division entry in evening and specialty wear.

Sixteen 4-H members entered this year's county competition.

Other participants in the Junior I division were Kacey Fuston, Audra House and Kristi Bean in non-tailored daywear and Christi McWaters and Kayla Ramsey in active sportswear.

Other entries in the Junior II division were Amy Ramsey, Jennifer Grimland and Heather Gray in non-tailored daywear.

Special awards were present-

## SWIM LESSONS OFFERED AT POOL

Swimming lessons will be offered starting July 9 for a two week session, Tuesdays through Saturdays at 10:00 and 11:00 o'clock a.m.

Lessons will be divided by age groups, 4-6 year olds and 7-9 year olds.

The cost will be \$30 for the two week session.

If you are interested in having your child take lessons, please contact Tammi Edwards, 823-2453, or Jena McFall, 823-2429, by July 5.

## See DRESS REVUE—Continued On Page Six

Briscoe County 4-H members who will be modeling their garments at the District 4-H Fashion Show in Lubbock Friday are Penni Fogerson, junior II active sportswear; Oleta Lane, junior II evening and specialty wear; Kami Martin, junior I active sportswear; Leslee Weaks, junior I evening and specialty wear; Ashleigh Wyatt, junior I non-tailored sportswear; Kristy Fogerson, senior evening and specialty wear.

## Grasshopper Control Program Began Here Early This Week

The Texas Department of Agriculture solicited bids last week on a contract to spray more than 47,000 acres of rangeland in Briscoe and Swisher counties, in

**JAMIE FRIZZELL**

One Briscoe County 4-H'er spent from June 17-24 in a mountain camp near Cloudfroft, New Mexico, learning about electricity. Southwestern Public Service Company was host and provided instructors for groups from 19 Texas South Plains counties.

Representing the Briscoe County 4-H was Jamie Frizzell.

an effort to control grasshoppers, Ron White, Assistant TDA Commissioner for Regulatory Programs, has announced. Spraying was scheduled to begin Monday morning.

"Under the Cooperative Rangeland Grasshopper Control Program, farmers and ranchers in the infested area will pay one-third of the treatment costs, with TDA paying one-third, and the USDA Animal Plant Health Inspection Service paying the other third," White said. "The Panhandle spraying program, which could begin as early as Monday, is expected to cost nearly \$180,000. The cost per acre is estimated at \$3.75, with each participating party paying a \$1.25-per-acre share. A total of approximately 47,750 acres of rangeland is expected to be treated by airplane with malathion," White said.

According to Andy Feild, an entomologist with TDA, the current grasshopper population in Briscoe and Swisher counties is 20-30 per square yard, and in some instances is as high as 50 hoppers per square yard. The cost sharing program is available countywide to groups of farmers and ranchers, if inspectors count at least eight hoppers to the square yard. The program is authorized for rangeland only, Feild said, since routine treatment of cropland for other pests also controls grasshoppers.

"There has not been a grasshopper control program in Texas since 1982," Feild said. "The control program provides protection for three to five years. Outbreaks usually follow mild

spring weather and a low incidence of disease, parasites and predators. Those conditions, plus late summer rains that provide food for the female hoppers, will usually result in an outbreak. Such favorable conditions for egg-laying in the fall of 1984 made 1985 a potentially-serious grasshopper year.

"The spraying must be done before the majority of grasshoppers reach maturity, when egg-laying begins. The pesticide works best when the insects are in the lower stages of development—before they develop wings. If we wait much longer to act, it will be too late," Feild said.

Field is in Silvertown heading up a task force of TDA staff who will supervise the spray program, which, under ideal weather conditions, will take approximately one week to complete. The spray plane is expected to spray the City of Silvertown for mosquitoes while it is here.

## Governor Signs New Seat Belt Law

Texans need to "buckle up" to save lives and money, Governor Mark White said in signing the new seat belt law.

"The bottom line for me is whether this legislation will promote the health and safety of the people of Texas and do so in a reasonable constitutional manner. And that is exactly what it does," White said.

The measure approved by the recent legislature provides a fine of \$25 to \$50 for not wearing seat belts while in the front seat of a moving car and most pickups.

The law becomes effective September 1, but no fines will be levied until December 1.

Pickup trucks with a carrying capacity of 1,500 pounds or less are included in the law. Efforts were made in both the House and Senate to add a "Bubba" amendment to include all pickup trucks but the amendments were soundly defeated.

The larger pickups were exempted, legislators argued, because those are "working pickups" with the passengers in and out of them a lot.

Rep. Bill Messer (D-Belton) said the only intent of his bill was to save lives. Sen. Ted Lyon (D-Rockwall) was the Senate sponsor.

The measure approved by the Legislature does not meet the current federal requirements for mandatory seat belt laws, but Messer said the federal requirements could change.

## Writers' Workshop Scheduled July 19-20

The Panhandle-Plains Writers' Workshop—scheduled for Friday and Saturday, July 19-20—has several sessions which might be of interest to the people of this area.

Osler McCarthy, a special projects editor of The Kansas City Star, will conduct sessions on free-lancing and print media. Rose-Mary Rumbley, who writes for both the Dallas Times Herald and Dallas Morning News and also writes advertising campaigns for industrial shows, will lead a session on "Bringing Historical Material to Life."

Other writing specialists include Linda Craven of the News Information office at West Texas

## Emergency Loans Available From Farmers Home

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA), Becky D. Via, FmHA county supervisor, said today.

Ms. Via asked that those who need farm credit as a result of drought and freeze make their needs known at the Farmers Home Administration office at 107 West California, Floydada, Texas 79235.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until February 7, 1986, for physical and production losses.

FmHA loans covering actual physical and production losses may be used to replace installations, equipment, or buildings, (including homes) lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on cur-

rent real estate and chattel debts.

Funds can be used for essential operating and living costs, Ms. Via said.

Applicants that certify that other credit is not available may receive loans covering actual losses at an interest rate of five percent for the first \$100,000.00, and are scheduled for repayment as rapidly as feasible consistent with the applicant's ability to pay. Applicants who certify that other credit is available may also receive these loans at a higher interest rate.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster.

Among some primitive tribes, people hope to secure more game birds by drawing pictures of the creatures and imitating their cries.

**home is no place for your valuables**

Especially if you're **not** at home. A smart idea when planning a vacation is to put your jewelry, important papers and other valuables in a safe deposit box while you're away . . . and for just pennies a day, you'll be assured that they'll be there when you return.

First State Bank

Approximately 138 high school seniors spent June 19 at the third of four Southwestern Oklahoma State University Freshman Orientation Clinics. After a day of advisement and campus tours, the students became enrolled as freshmen at Southwestern. The final orientation session will be held Friday, August 16, 1985. The students include [front, left to right] Ramona Franklin, Garntsville, Utah; Debbie Zeiser, Elk City; Holly Henderson, Miami, Texas; [back row] Myron Moore, Hollis; Robbie Carnes, Booker, Texas; Estella Trevino, Silvertown, Texas; Shane Pinckard, Booker, Texas.

### German Festival Slated Saturday, July 6

The Thirteenth Annual Nazareth German Festival will be held Saturday, July 6, in conjunction with the grand opening of the new larger Community Hall.

The event starts at 2:00 p.m. with live bands providing music. The Otwell Brothers from Tulsa will be performing during the afternoon. Everyone will remember the Otwell Brothers from the years they were with the Lawrence Welk Show. In recent years, they have worked out of Nashville, Tennessee.

Plan to spend some time at the Arts and Crafts Show where people from all over the Panhandle will be showing and selling their crafts.

Be thrilled by Dr. Hoofnikle, the magician, who will be performing during the afternoon.

A German sausage meal will be served starting at 4:00 p.m. and continuing until 7:00 p.m. On the menu will be German sausage, sauerkraut, potatoes, green beans, homemade breads, German chocolate cake and apple strudel. Prices are \$5.00 for adults, \$3.00 for children (12 years and under). They will be selling fresh sausage by the pound.

Dance to the music of the Rough Riders from 9:00 p.m. until 1:00 a.m. During the dance, the Otwell Brothers will make a special appearance. There will be drawings for a number of prizes during the dance.

All proceeds from the day's events will be used to pay off the new Community Hall.

Come early and stay late, enjoy yourself and help make this the best German Festival Nazareth ever had. Rose Mary Wilhelm, publicity chairman,

says, "Hope to see each and every one of you in Nazareth Saturday July 6!"

### Genealogical Societies To Hold Annual National Conference

The Federation of Genealogical Societies will hold their Sixth Annual National Conference August 15-17, 1985, at the Vista International Hotel, 200 West 12th Street, Kansas City, Missouri. Family researchers from all over the country are invited to attend to further their education. The Federation holds their conference in various parts of the country each year. Kansas City was chosen for the 1985 conference because of its accessibility from all areas of the nation, therefore, the theme for the Conference is "Crossroads of America," which salutes the role the midwest played during the great frontier migration and westward trails era. Eight local genealogical societies in the Kansas City area will co-host the conference with the Federation.

According to a national survey, there are over 2,000 genealogical societies in the United States and over 10,000,000 individuals involved in tracing their family lineage, making genealogy one of the most popular activities in the United States. This nation has been blessed with thousands of people who recorded important family data for over three hundred and fifty years. Today these records are an enormous source for anyone who is seeking the story of his family background. Few of these seekers are looking for ties to royalty or wealth. Most are trying to find the role his/her ordinary ancestors played in the history of this great country.

This convention is planned to appeal to beginners as well as the

professional genealogist and is open to the public. Among the noted speakers will be Commodore Grace Hopper, the highest ranking woman in the United States Navy; Nick Vine Hall, Sydney, Australia; Rabbi Malcolm Stern, New York City; George Pelling, Past Chairman, Federation of Family History, Wallasey, England; Roy Blunt, Secretary of State, Missouri; James Dent Walker, Washington, D. C.; Dr. George K. Schweitzer, Knoxville, Tennessee; with other sessions directed by professional genealogists, archivists and researchers.

Registration fee is \$50 for the complete conference prior to July 1, 1985, which includes a syllabus of speakers handouts and surname listing of those attending; thereafter, \$65. For registration packet or additional information contact "Crossroads '85 Committee, P. O. Box 2307, Olathe, Kansas 66061.

"We have planned a well balanced program," says Leland Adams, Chairman of the Crossroads committee. "A special four-hour course in 'Beginning Genealogy' (with a registration fee of \$15 for those not wanting to attend the whole conference) is being offered for the first time at a National Conference. We will cover national and regional topics, and have material that will help the beginner and professional genealogists, librarians, social studies teachers who are now bringing genealogy into the classroom, as well as sessions to help officers and directors run their societies more effectively."

Contact Leland Adams, Chairman, 10821 W. 91st Street, Overland Park, Kansas 66214, phone 913-888-3356, or Hazel Kelly, 326 N. Buchanan, Olathe, Kansas 66061, phone 913-7664-4419.

Mr. and Mrs. Melvin Watkins of Canyon, Misses Melanie and Anita Watkins of Amarillo, and Mrs. Lottie Owens of Quitaque ate lunch with Mrs. Ollie McMinn Father's Day. After lunch, all went to the cemetery to put flowers on graves. They drove to the Lockney cemetery to put flowers on the graves of Melvin's parents.

### AS A MAN THINKETH

Gerald Beasley  
"I DON'T KNOW  
MUCH BIBLE"

Even "religious" people will state, "I don't know much Bible." We discipline and stretch our minds to soak up intricate facts of modern technologies (we're after that buck!), but neglect (Heb. 2:3) "the word of God, which liveth and abideth."

The young lady doesn't tell her fiancé she knows little about cooking. Typists don't plead ignorance of the skill to employers. The machinist doesn't admit ignorance of the lathe, nor the carpenter of the saw. These

professions sense the need for proficiency, and the needed training is sought.

"All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness; that the man of God may be perfect, thoroughly furnished unto all good works" (2 Tim. 3:16-17).

Bible study is not "as easy as falling off a log," but there is great enlightenment awaiting the "noble" student (Acts 17:11; Lk. 8:15). No matter how challenging a mere modern technology, it cannot guide to forgiveness of sins and eternal life. The Bible can. Think!

### NOTICE OF INTENT TO IMPLEMENT RATES

General Telephone Company of the Southwest in accordance with the Public Utility Regulatory Act and the Rules of the Public Utility Commission of Texas gives notice of its intent to implement new exchange access rates for the provision of shared tenant and tenant resale services.

These proposed rates are applicable to customers of General Telephone Company of the Southwest, excluding hotel/motel customers, who provide local exchange telephone service of General Telephone Company of the Southwest to their tenants or patrons on a resale or shared use basis. This resale or sharing arrangement is normally provided utilizing a customer-provided PABX or other similar stored control switch capable of common control processing or other features commonly associated with a PABX "Smart" switch.

These proposed rates are designed to recover costs on a usage basis for local exchange telephone service access and are identical to General Telephone's "Optional Measured Service" rates. The monthly access rate will be \$28.95 per trunk line and the usage rates are as follows:

Over	Up To and Including	Band	Set Up	Full Rate Period Each Minute
0	7 miles	A	\$ .025	\$ .015
7	14 miles	B	.035	.021
14	21 miles	C	.050	.030
21	28 miles	D	.070	.042
28		E	.090	.054

As this is a new service offering, we are unable to determine the number of customers who may be affected. Currently, there are no known prospective customers. Until any customer utilizes this new offering, there will be no effect on the revenues of the telephone company, and in any event, the telephone company does not expect revenues to be affected by more than 2 1/2 percent. These proposed rates, where applicable, will provide tariffed local exchange access to customers who then will provide shared or resale services to tenants.

These proposed rates have been suspended by the Public Utility Commission of Texas and will become effective as proposed or modified by order of the Commission on a date to be determined by the commission.

The proposed rate schedule is on file with the Commission for public inspection and is also available at any business office of General Telephone Company of the Southwest.

Persons who wish to intervene or otherwise participate in these proceedings should notify the commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumers Affairs Division at (512)458-0223 or (512)458-0227, or (512)458-0221 teletypewriter for the deaf.

General Telephone

## Robertson Displaying Ranch History Days Photos During June

Photographs taken by Jack Robertson during "History Day at the Ranch" are being featured in an exhibit at the First National Bank in Floydada during June.

JACK ROBERTSON

The photos were taken in the fall of 1984 when the General James Smith Chapter of the Daughters of the Republic of Texas presented the project.

The use of sepia, or brown tones, gives Robertson's work a timelessness, making modern photos look as if they could be old. His eye for detail and his penchant for capturing the spirit or character of his subjects is revealed in this collection.

When asked in an on-the-job interview about his personal preference in subject matter, Robertson replied, "Next to portraits, I really like taking landscapes, being outdoors, using creativity with nature."

Young in years, but old in experience, Robertson has gained his expertise by taking classes at Southwestern in Weatherford, Oklahoma, LCC and Texas Tech in Lubbock, and working in a photo lab as well as in a camera store. He is an accredited member of the Texas Professional Photographers Association and of the Professional Photographers of America.

Robertson, originally from Silvertown, is the son of the late Jack Robertson and Mrs. Gayle Robertson. He is assisted in his business, R. Photography of Floydada, by his wife, Allison. She takes care of the secretarial duties and art work, including repairs, retouching, and restoration.

The First National Bank in

### LEE GREENWOOD IN CONCERT AT SIX FLAGS OVER TEXAS

Lee Greenwood, recently honored as Entertainer of the Year by Music City News, will appear in concert at Six Flags Over Texas on July 4.

Adding to Greenwood's "winning streak" is the popularity of his latest single record, "Dixie Road." The song is currently ranked in the Top 10 by Billboard Magazine and is steadily climbing in the rankings.

Greenwood's Six Flags concerts will be held in the theme park's Music Mill Amphitheater. Due to the size of expected audiences, two performances will be presented. The first show is scheduled for 6:00 p.m. and the second performance is set for 8:00 p.m.

Floydada is proud to display this collection of photographs and wishes to invite everyone to come by and view the remarkable work of Jack Robertson between the hours of 9:00 a.m. and 3:00 p.m. Monday through Friday.

## Vacation Time Around Corner

Vacation time is just around the corner. Many Texas motorists will be on the road taking advantage of both the warm weather and the many vacation activities Texas has to offer. But, with more people driving more miles than ever before, there are a few precautions motorists need to take before and during trips.

Before leaving on long trips,

you need to take a little time to check over your vehicle. A long stretch of unfamiliar road is no place for a breakdown. So, checking simple items such as tires, cooling system, battery, belts, and hoses can prevent unwanted and unnecessary breakdowns. But nothing can spoil a vacation anymore than having an accident.

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety,

stated, "The number of vehicles on Texas highways is increasing each year, and unfortunately, traffic accidents are keeping pace. Many people think they will never be involved in an accident, but no one is immune from having an accident."

The best defense against the many hazards involved in driving is to drive 55 MPH and use seat belts. Driving 55 is more important than ever before.

**Showers Continue To Fall on Silverton**

Another .52 of an inch of rain fell on Silverton Friday night of last week, according to the official record kept by Fred Strange, and this brought the June total to 6.25 inches and the 1985 total to 13.52 inches.

The rainfall on Tuesday morning of last week was reported in error at .50 of an inch when it actually was .63 of an inch.

Tuesday morning's rainfall was heavier at Lake Mackenzie where 1.80 inches was recorded. North of the lake, Bud Roberts reported receiving two inches.

Friday night, another .70 of an inch fell at the lake.

The rainfall was heavier southwest of Silverton Friday night, with about two inches falling in the Dempsey area.

Even though the lake continues to rise a little with each rain, the depth at the dam continues to be in the neighborhood of 109 feet—about six or seven feet deeper than the previous maximum depth.

Showers continued to be in the forecast, and the skies over Silverton were cloudy Tuesday morning at this writing.

**MOVIES OF PARADE**

**TO BE SHOWN**

**FOR SENIOR CITIZENS**

Judge Fred Mercer will show movies of the Silverton Pioneer Day parade for entertainment at the meeting of Senior Citizens tonight (Thursday) at seven o'clock.

Be sure to attend. You might see yourself on camera.

**P-TA, Library Sponsoring Summer Reading Program**

The Silverton P-TA and the Briscoe County Library are sponsoring a summer reading program July 2-30. All children up to eighth grade are invited to participate.

Theme for this year's program is "Awesome Adventures in Reading." It is sponsored by the Texas Reading Commission and is programmed to help youngsters set their own goals in reading and simply enjoy reading throughout the year. Each child

Rev. and Mrs. Randy Hughes of Roscoe came to the home of their parents, Mr. and Mrs. Berton Hughes, Monday to spend a few days and to pick up Amy and Matt, who had been here visiting their grandparents. They all left Thursday to go to Amarillo.

Mr. and Mrs. Edwin Visage of Denton had lunch Sunday with their aunt, Mrs. Ollie McMinn. They had attended a Smith and Visage reunion in Amarillo over the weekend. While there, they visited Mr. and Mrs. Melvin Watkins. Edwin is a nephew of the late Bud McMinn.

will set his or her own goal as to the number of books he or she feels he can read in this 28-day program. No penalty will be given for those who set their goal too high, or too low. Each child who participates will receive a certificate of accomplishment at the end of the program.

The additional books needed for such a program will be provided through the Area Inter-Library Loan system. Many of the books will be coming from the Amarillo Public Library, so there will not be a shortage of books.

In addition to the reading program, there will be a pre-school and beginning readers' story time each Friday afternoon from 2:00 until 2:30 p.m. Parents are welcome to accompany their children, if they like. It is asked that the reading club participants come to the library after this program is over, to allow the younger children time to themselves.

The Briscoe County Library hours are Tuesdays, 8:30 a.m. to 11:30 a.m. and 2:00 until 5:00 p.m., and Fridays, 2:00 until 5:00 p.m.

The P-TA encourages everyone to make the extra effort for your children this summer by encouraging them to participate in this program.

#### BROWNIES TO HAVE BAKE SALE

Brownie Troop 165 will hold a bake sale Saturday, June 29, from 8:30 a.m. until 1:30 p.m. at Nance's Food Store.

The proceeds from this sale are going to the Cystic Fibrosis Foundation.

The brownies will be selling cakes, pies and cookies.

All baked goods need to be at Nance's by 8:30 a.m. Brownies are asked to wear their uniforms.

The work schedule for Saturday is:

8:30-9:30—Leslee Weeks, Carrie Baird, Christina Stephens  
9:30-10:30—Shannon Weaver, Kayla Ramsey, Holly Nance  
10:30-11:30—Kami Martin, Brandi Brunson  
11:30-12:30—Michelle Whitfill, Dedra Johnston, Staci Hill  
12:30-1:30—Kristi Bean, Kara Kingery

#### TEXAS HIGH IN HEALTH FRAUD ADVERTISING

Texas, California and New York lead the nation in the number of advertisements for fraudulent health items carried in publications, according to a recent Food and Drug (FDA) study.

As a result of a survey of the nation's newspapers and magazines, the FDA identified advertising for fraudulent items in publications ranging from the small weekly newspapers to multimillion-circulation magazines.

According to the FDA, weight-loss products are the most popular items being promoted by fraud artists. Body wraps, sauna suits, waist wraps and vibrating belts are among the items heavily advertised.

Yet, there is no scientific or clinical evidence to support the use of these devices for controlling weight. There is also no data to back up promoters' claims that these products will eliminate cellulite and bulging fat, make spot reduction possible or control appetite.

Diet pills are another widely advertised health fraud. The "grapefruit pill" diet accounted for almost half of the weight loss ads surveyed in the FDA study. Hair restoration schemes for restorers or clinics are next in popularity to diet hoaxes, the study shows. However, the FDA has advised consumers that no product has ever been approved as safe and effective for preventing baldness or restoring hair.

Other advertisements included those for wrinkle removers, hypnosis plans, and offers of quick ways to treat heart disease, arthritis, alcoholism, depression and high blood pressure. In addition to wasting millions of dollars on these products, consumers may not be receiving the legitimate health care they need.

The FDA is now listing product recalls, seizures and other regulatory actions in its Weekly Enforcement Report. In addition to taking regulatory or legal actions against the promoters of these products, they hope to do a little advertising of their own to warn consumers about health frauds.

#### FREEZER ICE CREAM FOR JUNE— NATIONAL DAIRY MONTH

Dairy products and summer months automatically seem to go together. The familiar sound of the music from the ice cream man's truck sends children begging for the cool, creamy confection.

Ice cream has been around for hundreds of years. The Italians, Chinese and French all developed crude versions of what we call ice cream today. Some of the common ingredients used in these earlier ice cream recipes included snow, fruit juices and honey. Ice cream was first advertised in 1774 in New York newspapers. George Washington and Thomas Jefferson loved ice cream. In fact, Jefferson developed his own 18-step formula for making ice cream. Dolly Madison was famous for serving ice cream at many White House functions.

According to Gail Corley, Education Specialist with Associated Milk Producers Incorporated, the story of the invention of the ice cream sundae, is an interesting one. In the late 1890's, the city commissioners in Evanston, Illinois passed an ordinance forbidding the sale of ice cream sodas on Sunday because of the bad influence of such "Sunday afternoon dallying" by the town youth. A resourceful soda fountain operator bypassed the law by serving ice cream with syrup but without soda. This became the "Sunday soda" or just the "Sunday" and it was so popular that hundreds were sold every day of the week. When the town fathers objected to the name "Sunday," the spelling was changed to "sundae."

Dairy products are an important part of our diet. It is recommended that children have at least three servings a day of foods in the dairy group. Teenagers need four or more servings, adults need two or more servings and pregnant and lactating women need three or more servings a day. A serving is considered to be a half cup. Foods in the dairy group include milk (whole, low-fat, skim, non-fat dry, and buttermilk), cheese, cottage cheese, sour cream, cream cheese, yogurt, ice cream, ice milk, butter, cream and half & half.

Dairy foods are our primary source of calcium in the diet. When we are young an adequate source of calcium is important for the development of strong bones and teeth. As we become adults, calcium is also essential for the prevention of osteoporosis, a condition which makes the bones soft and weak thus making them more susceptible to breakage. Osteoporosis is common in women after the age of 40 and in elderly men. From birth to age 40 we can build up the density of our bones; after age 40 we cannot. However, people over age 40 can slow down the rate at which their bones lose calcium by exercising and eating a

variety of foods, including calcium-rich foods. If you are dieting, substitute skim milk for whole milk, ice milk for ice cream, non-fat yogurt for regular yogurt, etc. By substituting the lower fat dairy products a person can keep the fat content from dairy products at a low intake and still keep a balanced diet rich in calcium. Remember to look for the "Real" seal on all dairy products. This seal, developed by the American Dairy Association, assures consumers that they are buying a real dairy product and not an imitation product.

The number of milk cows in Texas stands at 316,000 head, down from last year by two percent. During the month of April, Texas dairy farmers produced 356 million pounds of milk. Production per cow averaged 1,125 pounds. Texas has around 2,600 dairymen, Dairy farming is a seven-day-a-week, year-round business. The United States Department of Agriculture figures show that more than 90 percent of the commercial dairy farms have disappeared in one generation. Efficient, modern dairy farms, which produce more milk of higher quality from fewer cows, means fewer opportunities for families wishing to have their own dairy business.

If you are going to be in the Austin area on June 22, 1985, be sure to visit the south lawn of the State Capitol, because the Ice Cream Crank-Off, a contest to select the National Ice Cream of Texas will be held. The ice cream cranking will begin at 11:00 a.m.

June—National Dairy Month, is a good time to dust off the old ice cream freezer and make some cool, nutritious, delicious, homemade ice cream. To help you get started, try these recipes from the American Dairy Association and the Texas Department of Agriculture.

#### PEACH BUTTERMILK ICE CREAM

1 envelope unflavored gelatin  
2/3 cup sugar  
1 1/2 cups buttermilk or regular milk  
1 egg, beaten  
3 cups whipping cream  
2 teaspoons vanilla extract  
1/4 teaspoon salt  
1 1/2 cups pitted, peeled and mashed fresh peaches\*

3 tablespoons sugar  
Combine gelatin, sugar and buttermilk in two-quart saucepan. Cook over low heat, stirring occasionally, until gelatin is dissolved. Stir a small amount of hot mixture into egg; return all to saucepan. Cook over low heat, stirring constantly, one minute. Stir in cream, vanilla and salt. Combine mashed peaches and sugar; stir into cooked mixture. Chill; churn-freeze. After freezing, transfer ice cream to a plastic freezer container. Ripen in freezer at least three hours before serving. Makes two quarts.

\*Frozen unsweetened peaches may be used.

#### PEANUT BUTTER ICE CREAM

2 eggs  
1/3 cup sugar  
1 cup peanut butter  
1/2 cup light corn syrup  
2 cups heavy cream  
1 cup milk  
2 teaspoons vanilla

In a medium bowl, beat eggs until frothy. Gradually beat in

sugar until dissolved. Add peanut butter and corn syrup; beat until well blended. Stir in cream, milk and vanilla. Add the peanut butter mixture to can of ice cream maker. Follow manufacturer's instructions for making ice cream. Freeze until firm. Makes two quarts.

#### GERMAN CHOCOLATE ICE CREAM

1 cup sugar  
1/4 cup all-purpose flour  
1/4 teaspoon salt  
1/4 teaspoon cinnamon  
1 quart whole milk  
2 bars (4 oz. each) sweet cooking chocolate, melted  
3 eggs, beaten  
1 cup shredded coconut  
1 quart light cream or half & half  
1 cup chopped pecans

Combine sugar, flour, salt and cinnamon in a heavy saucepan. Gradually add milk. Cook over medium heat until thickened, stirring constantly. Cook two minutes. Blend in chocolate. Stir a small amount of hot mixture into eggs; return to cooked mixture. Cook one minute. DO NOT BOIL. Add coconut; cool. Stir in cream. Chill. Stir in nuts. Churn-freeze. Approximately one gallon.

#### Farmer's Prayer

As Farmers and Ranchers, Dear God, please give us wisdom and patience to understand why a pound of T-Bone steak at \$2.50 is high, but a three-ounce cocktail at \$1.75 is not. And, a fifty cent cup of soft drink at the ballgame is cheap but a fifteen cent glass of milk for breakfast is inflationary. And, Lord, help me to understand why five dollars for a ticket to the movie is a bargain, but \$3.35 for a sixty pound bushel of wheat is unthinkable. Cotton is too high at sixty cents a pound, but a twenty dollar cotton shirt is on sale for \$18.50. And corn is too steep at two cents worth in a box of flakes, but the flakes are just right at fifty cents a serving. And also, Lord, help me to understand why I have to give an easement to the gas company, so they can cross my property with their gas lines, and then double my price for their gas. And also, Dear God, help me to understand the consumer, who drives by my field and scoffs at me for driving a seventy thousand dollar piece of equipment, that he built, so he could make money and drive down that right-of-way that they took from me to build a road, so that he could go hunting and skiing. Thank you God, for your past guidance and help, and please help me to make sense of it all.

—Reprinted from "Foundation Facts", submitted by O. C. Rampley

SILVERTON

SANTOYA

**Santoya Added To Most Wanted List**

A dying man's declaration has resulted in Marcello Santoya, jr., being placed on the Texas Most Wanted list.

Investigators say Alan Carner, 19, was fatally shot in broad daylight as he was walking down a street in Irving on January 13, 1982.

While paramedics vainly tried to save Carner's life as he was being rushed to a nearby hospital in an ambulance, the young man told a police officer that Santoya was the person responsible for the shooting.

Detectives say Carner had been dating an acquaintance of Santoya's and that this had created bad blood between the two young men. There had been several altercations involving the pair.

Carner told investigators just before he died that around 4:00 p.m. on January 13, Santoya drove up next to him as he was walking down the street and shot him one time in the back.

On February 15, 1982, a Dallas County Grand Jury indicated Santoya for Carner's murder.

This week a reward of up to \$1,000 is being offered for information leading to the capture of Santoya, who has eluded police for more than three years.

Anyone with information on the location of Santoya is asked to call the Texas Crime Stoppers Advisory Council toll-free at 1-800-252-8477 or their local Crime Stoppers program. Callers do not have to reveal their identities.

Santoya is 5-6, 130 pounds with black hair and brown eyes. He will turn 24 on July 4.

Detectives say Santoya has a string of arrests and his criminal record includes a conviction for obstructing police. However, since Carner's shooting, Santoya has avoided any contact with the law. He is believed still to be hiding out in Texas.

Texas Most Wanted is a cooperative effort between Texas Crime Stoppers and the Department of Public Safety.

Mary Shurbet of Floydada, Donnie Meriwether of Lockney, Ruby Brannon of Silverton and LaVerne Pitts of Lubbock met at the home of Velma McKee in Lubbock recently for a slumber party. They had dinner at Asahi, then went back to Velma's for a really good visit.

The ladies are sisters and are daughters of Mrs. R. E. Young of Floydada.

GARRIS

**Added To List of Texas' Most Wanted**

Robert Earl Garris looks more like a kindly grandfather than a man charged with murder.

But looks can be deceiving.

Garris, who will turn 50 in July, is charged with the March 25, 1984, shooting death of Glen Duckworth.

Investigators say Duckworth, 33, was sitting in his house with a friend watching television. Both men were getting very intoxicated, police reports indicate.

Suddenly a third man burst into Duckworth's house and fired one shot, striking the victim in the head. He died in an Amarillo hospital about 24 hours later. The shooting suspect fled on foot and successfully avoided a police dragnet.

Detectives say they have no idea what prompted the shooting. However, shortly after the slaying, a warrant was issued for Garris' arrest.

He is described as a white male, 5-9, 160 pounds, with brown hair, balding on top, and blue eyes. He was last seen wearing a beard.

Garris has a tattoo of an eagle on his left forearm and another tattoo of unknown design at the base of his left thumb.

Investigators say Garris uses several aliases, including the name Robert Johnson and the nickname "Virginian." He is a painter by trade.

Despite his easy-going countenance, Garris has been known

to carry a .22-caliber derringer and law enforcement officers have been warned to expect the middle-aged fugitive to be armed and extremely dangerous.

This week Garris has been added to the Texas Most Wanted list. A reward of up to \$1,000 is being offered for information leading to his capture.

Anyone who might know where Garris is located is asked to call the Texas Crime Stoppers Advisory Council toll-free at 1-800-252-8477 or their local Crime Stoppers program. In all cases, callers do not have to reveal their identities.

Texas Most Wanted is a cooperative effort between Texas Crime Stoppers and the Department of Public Safety.

Mr. and Mrs. Charles Sarchet spent Saturday in Lubbock visiting with his sisters, Mrs. Edith Cruce and Mrs. Elizabeth Skelton. They also visited with Mr. and Mrs. Johnny Robison, Casey and Corey of Arlington, Cynthia Cruce, Keenan, Haley and Tanner Cruce, all of Lubbock.

**Great American Race In Amarillo Today**

The Amarillo Chamber of Commerce invites you to join the cheering at the Sheraton Hotel, 3100 I-40 West, when the Great American Race comes to town at 5:30 p.m. Thursday, June 27, and takes off again at 6:00 a.m. Friday, June 28. The event is free of charge.

See more than 100 antique automobiles, including three Amarillo cars, competing for a quarter million dollars in prize money in a 3,300-mile, 11-day, coast-to-coast precision driving contest.

Don't miss the excitement as these vintage cars streak, sputter and chug across the local finish line at the Sheraton from 5:30 until 8:30 p.m., then take off Friday, June 28, from 6:00 until 9:00 a.m.

Enjoy food, free entertainment and fireworks starting at 5:00

p.m. Thursday, June 27, as the Chamber celebrates a special Business After Hours at the Sheraton. Mesa Petroleum president T. Boone Pickens and Amarillo mayor Rick Klein will welcome the racers, along with five bands, the Khiva clowns, a drum corps, a magician, a barber-shop quartet and chorus singers.

Then Friday, June 28, come to the Sheraton at 6:00 a.m. for a special Chamber breakfast, and watch the racers take off for Oklahoma City and Wichita, Kansas.

In ancient India, a person with jaundice would drink water containing the hair of a red bull in the hopes that it would restore his healthy color.

**WATCH**

↑

**UP**

**FOR**

**POWER**

**LINES**

Out on the job, power lines bring needed electricity to the site. But they can be dangerous . . . if you don't watch up! You need to be especially careful when you are handling re-bar, pipes, scaffolding, or tools that are long enough to contact overhead lines. Contact with power lines is also a potential danger to operators of front-end loaders, dump trucks and any other equipment of unusual height.

Keep an eye up for power lines. Watch up, for safety's sake.

*shalt love the Lord thy God with all thy heart, and with all they soul, and with all thy strength, and with all thy mind; and thy neighbor as thyself.*

The basis of God's first and greatest commandment is love. God gave man the freedom to choose ... and therefore will not force his love on anyone. God took the first step and is always ready to receive any who would come to Him.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**"... in thy presence is fulness of joy ..."**

Wheat stubble on left—Sudan on right.

## Rainfall, Stubble Management Important

With recent rains of about six inches, you may have forgotten how dry it can get here. Briscoe County receives about twenty inches of rainfall annually. This is enough moisture to raise a good crop of dryland wheat or grain sorghum if it all soaks into the soil and if it comes at the right time.

Since we cannot control the time rain comes, or the way it falls, a look is needed at some ways of conserving moisture.

First, producers need to remember that the moisture in the top six inches of soil is only a part of the moisture stored in Pullman-type soil. Around six inches of water useable by plants can be stored in the soil. This can mean the difference between making a crop and a crop failure.

There are several ways to increase the penetration of rainfall and to decrease runoff. One of the most inexpensive and efficient methods is the use of crop residue.

Wheat stubble is ideal to help rainfall soak into the soil and protect it from evaporation. Crop residue also breaks up raindrops and prevents crusting. Row dams, terraces and diversions are some other ways of conserving rainfall.

Remember, if rainfall is lost in runoff it is expensive to replace whether by irrigating out of a lake or pumping from an underground well. Obviously the cheapest water is rainwater and the storage of that water is very important.

The Caprock Soil and Water

Conservation Service would be glad to help you check your soil moisture and to work with you in finding the right system of conserving water on your farm. Call 823-2320 or come by the Soil Conservation Service office located west of the courthouse.

## "Integrity Keepers" District Convention Held in Amarillo

In recent years, political analysts have been setting and re-setting the "Doomsday Clock." It's usually thought that it's ticking out mankind's last days on earth.

That subject was highlighted in the principal speech of the four-day "Integrity Keepers" District Convention of Jehovah's Witnesses held at the Amarillo Civic Center Coliseum.

Addressing an audience of 6,646 persons at the final session, A. C. Manera spoke on the subject "God's Times and Seasons—To What Do They Point?"

Manera made it clear, however, that a nuclear holocaust should not be the nation's main concern.

The "Doomsday Clock" denotes how close we are to nuclear war and potential annihilation. Manera said we should be more concerned about God's clock and assessing the times and seasons from his point of view.

Manera said God has a destination for this earth and for human life on it. He has purpose for these, otherwise he would not

have created them.

"And that purpose is certain to be accomplished right on schedule," he stated.

Manera stressed that we need to ask: What time and season is it from God's viewpoint?

"We are very deep into the final part of the 'last days,'" Manera said. "All evidence in confirmation of Jehovah's timetable points to the fact that we are nearing the end of this system of things. Thus, earthshaking events are to take place in the immediate future."

### THE TIME OF THE END

Manera said the handwriting is on the wall. Referring to the days of Daniel of the Bible, he reminded the audience that God's finger wrote the words of doom for Babylon on the wall. At that very moment the Medo-Persian armies were invading the city through gates left carelessly open.

Manera implied that when God decides to act, nothing can stop him. Divine intervention, he said, is based upon God's own timetable.

"Today, nuclear-tipped missiles threaten the survival of life on earth," Manera continued. "In view of this dismal outlook, students at an American university held a referendum. They asked the university to stockpile suicide pills for those who wanted to use them in case of nuclear war."

"Yet the nations keep spending more and more on armaments. The cost has risen to more than a trillion dollars a year," he said.

Manera quoted a New York Times editorial which concluded: "Things are out of control." He compared this world to ancient Babylon, weighed in the balances and found wanting.

"So, what time is it from God's viewpoint," he asked. "It is closing time for this world. Its sun is setting. Nighttime is fast approaching for it. Its winter is nearly upon it."

"When it comes," he said, "it will mean the forcible removal from office of all world rulers... The march toward the final showdown at Armageddon continues on relentlessly."

Concluding his remarks, Manera urged conventioners to wor-

ship God, learn of his purpose and harmonize their lives with doing his will.

"Have a share in the most important work that is being done on earth today," he said, "the gathering together and training of those who will survive Armageddon and who will have the wonderful prospect of living forever on a paradise earth."

## Summer Garden Color Suggestions

With the heat of summer, the gardener and many plants tend to go on vacation, often leaving the landscape void of color.

However, some outstanding colorful summer annuals and perennials will provide color and beauty with a minimum of care during the hot days of summer, says a landscape horticulturist.

The vinca or periwinkle is one flower that thrives where many would perish, says Dr. Bill Welch with the Texas Agricultural Extension Service, The Texas A&M University System. This robust summer annual demands little attention, yet provides a mass of color all summer. The All-American variety "Polka Dot" will serve as a summer ground cover with its low mass of blooms while the deep lavender "Little Linda" and the pink and red "Delicata" provide variety.

Zinnas have a sure summer heat tolerance and ability to grow under adverse conditions, Dr. Welch notes. Even though zinnias have been around for many years, many new and improved varieties offer vivid colors and durability. Zinnia blooms now range in size from tiny border hybrids to giant Dahlia types.

The Gloriosa daisy is a summer perennial, returning each summer to open its typical daisy blooms of rich orange, pink and mahogany. The large graceful heads of the Gloriosa daisy are supported on strong stems which are excellent for cutting, says the horticulturist.

Portulaca is unsurpassed as a summer border or rock garden

plant, adds Dr. Welch. Often called moss rose, this summer annual prefers the sun and will tolerate dry, hot conditions to produce warm, vivid blankets of color. For continuous summer production, sow seed at six-week intervals.

Salvia is a persistent annual with bright scarlet or blue spikes of bloom throughout the hot summer until cut down by frost. The rich red varieties are most showy when displayed against a background of green or white, Dr. Welch suggests. Cut faded blooms often to encourage more growth.

Summer or late cosmos produce rich yellow or orange blooms from mid-summer to late fall and demand little or no care. "Sunset" and "Goldcrest" varieties produce brilliantly colored blooms. Cosmos may need staking in windy areas.

Marigolds may be planted from early spring well into summer. Many improved varieties offer a wide range of plant and bloom sizes as well as color variations. No other summer annual will provide the rich, clear vivid yellows and oranges of the French or large marigold, Dr. Welch says, and few plants will outproduce this carefree summer annual. Plant marigolds throughout the summer for continuous bloom into the fall.

## Ranch Tours Planned During IRR

Separate ranch tours in South Texas and Mexico will make up the final day of the Fifth Annual International Ranchers Round-up, July 29-August 2, at the Laredo Civic Center.

Persons planning to make the tours should pre-register by July 1.

The U. S. tour will include the historic Callaghan Ranch, the Espuela Beefmaster Ranch and the Ranch Blanco.

To pre-register, contact any County Extension Office, the Webb County Extension Office at 512 727-0801 or the Texas A&M University Agricultural Research and Extension Center at Uvalde at 512 278-9151.

## CUSTOM APPLICATION

WE APPLY:

Liquid Fertilizer with Cotton Herbicides  
Wheat Top Fertilizer with 2-4D and Glean  
Combination Anhydrous and Liquid Fertilizers  
In Deep Ban

## FERTILIZER MIXES

To Fit Soil Test

Nitrogen		Zinc
Phosphate		Iron
