STORM REPORT

Dear Friends, My first day of high school was great! I didn't want to admit it, but I was a little nervous about being in high school. It was like one of those days when you are going out on stage for the first time. You know that you are ready, but you are nervous about what people will think. It was that feeling. Did you get that feeling when you started high school? You are so excited to be there, but you have this sickishness inside that you are not going to fit in or find the right people. Well, I had that feeling.

We first met in the auditorium. Coach Bailey talked to us about bullying and how we needed to act in high school. Then we went to our classes. My teachers are very help- it with all 5 members voting for, ful, strict, kind, and some are 0 against, 0 abstaining and 2 funny.

THE ARMADILLOS HAVE EMERGED IN NASHVILLE

The Outlaw phenomenon produced powerful music and everlasting bonds between Nashville and Texas. Willie and Waylon, Bobby Bare, and Kris Kristofferson demanded and got greater creative freedom and the movement was real—not just a marketing term, but a creative flowering, a confluence of art and revelry, whiskey and poetry.

It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments
