## CARELESSNESS TAKES TOLL OF LIFE AT MATADOR

Death, suffering and sorrow was brought to a number of people last week through carelessness when a motorist drove up to a filling station in Matador with his family seated in the car with a lighted lantern in the rear. When the gas tank was being filled the lantern ignited the fumes of the gasoline and in a moment the car and the filling station was a mass of flames. A baby was burned to death and others suffered serious burns before they could be rescued. The car was burned up and the filling station seriously damaged. Just a thought to extinguish the lantern would have saved the accident—suffering, sorrow, and death.

## SHOOTING AT DUNDEE RESULTS FATAL

Herbert Griffin, Archer county ranchman who was shot and seriously wounded last Monday afternoon at Dundee by Lige Griffith, died at the Wichita General Hospital at Wichita Falls Tuesday morning at 6:15. The bullet fired from a high powered rifle, entered the right side and bored its way through the abdomen, penetrating the intestines and shattering the liver. The physicians on examination found that the injury was of such a serious nature that there was little hope for his recovery. A charge of murder was filed against Lige Griffith Tuesday morning at Archer City and he was placed in jail.

Lige Griffith was the State's chief witness in two trials in which Herbert Griffin was charged with the killing of Hugh Reilly, Jr., which occurred some time last year. The men had quarreled, according to reports over the location of a line fence which led up to the shooting of Reilly by Griffin. Lige Griffith, a tenant farmer, resided on one of the farms of the Reilly ranch, north of Dundee. The shooting of Hugh Reilly, Jr., occurred some 1,100 yards northwest of the Griffith home and at both trials, when Griffin was tried for murder, Griffith testified as one of the main witnesses for the state.

In October, 1924, when Griffin was tried the first time on the murder charge, Griffith testified that he had heard a rifle shot on the afternoon of May 16, 1924, while he was harnessing his span of mules. He said after he concluded this work, he drove the mules, hitched to a wagon from the barn to the house. He stated at this point he could see the line fence, where the shooting of Reilly occurred. His testimony was that he saw a man run hurriedly to an automobile parked in the corner of the field and then run back to the spot where later Reilly's body was found. He said that when the man ran back from the automobile it appeared as though he was carrying something in each hand. Griffith further testified at that time that when the man reached a spot where Reilly's body was later found, he stopped, took a few steps toward the fence and again slightly stooped as though placing something against the fence.

The testimony of the state showed that a gun was found lying beside the body of Reilly and that another of Reilly's guns was found leaning against the fence. It was the state's contention that Griffin had placed these guns. The jury at the first trial returned a verdict of guilty and assessed a penalty of 25 years in the state penitentiary. At the second trial of the case held at Graham in the 30th district court, in September of this year, the defense launched a heavy attack against the testimony of Griffith, presenting a long list of witnesses, who, in substance testified that it was impossible to look across the pasture, a distance of 1,100 yards, and determine whether a man was carrying anything in his hands or whether he stooped or stood erect. The jury in the second trial returned a verdict of acquittal. Griffith, aged 40 years, is married and the father of three children. Griffith, aged 40 years, is married and the father of three children.

If the Chicago physician is correct in saying few women are color blind, how is it some of them are healthy higher up on one cheek than the other?

A philologist says the easiest word in the entire language to pronounce is "ma." There are those, however, who say "gimme" with marked fluency.

**The Meanest Man.**  
The meanest man in the world is the guy who proposes to an old maid over the telephone and after she accepts him tells her he had the wrong number.

**Best By Test.**  
The English class of Chubbtown colored school had to write on "the most useful animal."

Roosevelt Cheek's essay read as follows:  
"De mos' usefulest animal dar is de chickens, fur yo' can catch dem wid de leasest ob troubles on de darkest ob de nights, an' dey kin be et befo' dey is bawn an' ateh dey is daid."

**Fighting for An Ideal.**  
Bystander—They are fightin' 'cause Bill said Alf's wife was cross-eyed.  
"But Alf's a bachelor, ain't he?"  
"Yes, but the principle is wot made Alf wild."

**Not If He's A Good Shot.**  
"Do you think he will miss me?" sang the entertainer in a cracked voice.  
"If he does he ought never to be trusted with a gun again," shouted one of the irate audience.—Medley.

**Encouraging.**  
Sign in a neighborhood restaurant: "Don't be afraid to ask for credit. Our refusal will be polite."—The Christian Register.

**No Need for More.**  
Lady Jane—Have you given the goldfish fresh water Janet?  
Janet—No, mum; they ain't finished the water I gave them yesterday yet.

**George on Waffles.**  
Wife—George, would you like some waffles for supper?  
Husband—No! They look too much like fried cross-word puzzles.

**Oh—Oh—**  
Sonny—Dad, the new boy next door said I looked like you.  
Father—Well, did you thank him?  
Sonny—Naw, I didn't say anything. You see he is a lot bigger than me.

**Soft But Hardening Fast**  
Brown always did possess a soft heart. This is how he wrote: "Dear Mrs. Harrison: Your husband cannot come home today, because his bathing suit was washed away. P. S. Your husband was inside it."

**Frequent Bilious Attacks**

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief.  
"A neighbor told me of

**BLACK-DRAUGHT**  
Liver Medicine

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work."  
Bilious attacks are "seasonal" with many people. Millions have taken Theodore's Black-Draught to ward off such attacks, and the good results they have realized should induce you to try it.

Judge and Mrs. J. G. Foster and little son J. G. Jr. and Mrs. Foster's mother Mrs. Emmett Loe have returned from a visit to relatives at Dallas. Mr. N. I. McCollum went to Dallas this week and was accompanied home by Mrs. McCollum who has been to see her daughter Miss Marguerite at school and visiting a sister in Dallas.

Mr. and Mrs. J. A. Newby of Route 4 were shopping in the city Monday and while here stated that cotton pickers were badly needed in that section. He stated that he had a number of bales of open cotton in the field and only one or two pickers.

Mesdames J. U. Fields and H. D. Neff left for Vernon Wednesday where they will be special guests of the President of City Federation of Clubs who will be hostess on Wednesday afternoon to the federation.

Miss Inez Woodward spent last week end in Abilene visiting home folks. Mrs. Abdon Holt and little daughter of Lubbock are guests of her parents Mr. and Mrs. N. T. Smith.

Mr. and Mrs. J. W. Roberts and little daughter Marilyn returned to their home at Chillicothe Monday after spending the week end with relatives here.

**"SAFETY FIRST"**  
At the High School auditorium Friday evening November 6th, at eight o'clock, the Faculty of the school under the direction of Lois Ware, will present "Safety First," a comedy drama of modern setting.

This play is widely known as one of the funniest of comedies. Every man

will have a true sympathy for poor Jack and Jerry and many married men will receive sound advice on not lying to the wife, though of course married men do not need such advice. No woman should miss the revelation of man's perfidy contained in "Safety First." Bring your troubles with you for we will surely cure the worst case of blues.

**FORD**

**All Others**  
**Some Interesting Facts!**  
*Along with the gossip that is now so prevalent about comparative values in MOTOR CARS—it is well to remember that the FORD CAR still retains its price supremacy and recent improvements enable it to compete with any car in its class from the standpoint of design and appearance—But this does not tell the whole story—*  
*Do you know your FORD car has more horsepower per hundred pounds of weight than any car selling at retail for less than \$900. IT'S TRUE!*  
*Do you know your FORD car cost 50 per cent less horse power than any car selling at retail for less than \$900. IT'S TRUE!*  
*Do you know replacement parts for your FORD car cost 97 per cent less than any other car selling at retail for less than \$900. IT'S TRUE!*  
*Do you know your FORD car cost less per mile to operate than any other car made regardless of price? IT'S TRUE!*  
*Do you know your FORD car has better second hand value than any other car regardless of price? IT'S TRUE!*  
*If you do not stop to think of these facts—They are well known to other car dealers—you should obey the well known rail road signal—STOP! LOOK! AND LISTEN!*  
*Bear this in mind—If the Ford car did not have this superior advantages over all other makes of cars—WHY-WHY-WHY are dealers of all makes of cars so frantically anxious to trade for your FORD at long values—One reason only because your FORD has these selling points possessed by no other make and they know it.*  
*Why are they not as anxious to trade for other makes at long prices. And why we ask—WHY-WHY-WHY will they not trade for THEIR OWN MAKE of car at long values—your neighbor who has owned one knows WHY. ASK HIM!*  
*THE FORD MOTOR CO. has never placed a car on the market until it was right, PERFECTLY RIGHT and the 1926 models are coming thru the branch plants now and will be only a few days until we can supply your needs in any model.*

**HASKELL NATIONAL FARM LOAN ASS'N.**  
5 1/2 Per Cent Farm and Ranch Loans  
HASKELL, TEXAS

37 Volume 70 described by name and books as follows: Beginning at the S. W. corner of the east 1/2 of section 24 and at the S. W. corner of a tract of land deeded to G. W. Hirshey by Mrs. S. L. Scott out of said survey. Thence north along the west line of said land to the intersection of said line with the public road; Thence southerly along the south line of said road to where said road intersects the south line of said survey; Thence west along the south line of said survey to the place of beginning. The plaintiff owning, holding and claiming the same in fee simple and that on the date last above mentioned the defendants unlawfully entered upon and ejected plaintiff therefrom and are now unlawfully with holding from her the possession thereof to her damage in the sum of \$4,000.00 and that the annual rental value of the same is the sum of \$1,000.00. Plaintiff says that she and those under whom she claims are claiming such lands and premises heretofore described, cultivating, using and enjoying the same and paying all taxes due thereon for a period of more than five years after the defendants right of action, if any they ever had, which plaintiff does not admit, but denies, accrued and before the commencement of this suit, and of this she is ready to verify and here now pleads the five year statute of limitations in bar to any right, title or interest of said defendants and each of them in and to said land and premises.

Plaintiff further says that she and those under whom she claims claiming to have a good and perfect right and title to said land and premises hereinbefore described, and continuous possession of said land and premises, occupying the same and having the same enclosed and has had and held the peaceable, adverse and continuous possession of the same, cultivating, using and enjoying the same for a period of more than ten years after the defendants right of action if any they ever had, which plaintiff does not admit, but denies accrued and before the commencement of this suit and this she is ready to verify and here now pleads the ten year statute of limitations in bar to any right, title or interest of the defendants and each of them in and to said land and premises.

Plaintiff says that the defendants, Elizabeth Kingsbury, T. J. Farmer, Ella Stine Farmer, and Mrs. Ella Dean, and the unknown heirs and the legal representatives of the said Elizabeth Kingsbury, T. J. Farmer, Ella Stine Farmer, and Mrs. Ella Dean, and all unknown owners and the husbands of such of them, as were married women are setting up some sort of a pretended claim or claims and right to said land and premises, based upon the fact that the said Elizabeth Kingsbury at one time deeded said land irregularly in that there is no showing that she ever had which plaintiff does not admit, but denies, accrued and before the commencement of this suit and this she is ready to verify and here now pleads the ten year statute of limitations in bar to any right, title or interest of the defendants and each of them in and to said land and premises, and that said claims of said defendants and each of them are void and of no force and effect, that said notes have in fact been paid off, but that said claims, casts a cloud on the title of plaintiff's land and premises and should be cancelled, and held for naught and the clouds removed.

Wherefore, premises considered, plaintiff prays that the defendants and each of them be cited in the terms of the law and for the time and in the manner required by law to appear and answer this suit and petition; and that upon a final trial hereof that she have judgment against the defendants and each of them for the title and possession of said land and premises and for damages, rents and costs and that all the right, title and interest in and to said land heretofore existing in the defendants and each of them be divested out of said defendants and each of them be invested in plaintiff and that her title by limitation be perfected, that the clouds be cancelled, and that the claims of said defendants as heretofore set out be removed, and that said title be perfected as being good and valid as a fee simple title in said plaintiff in all things, and for such other and further relief general and special in law and equity as she shall show herself entitled to under the law and the evidence.

Herein fall not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, Estelle Tenyson, Clerk of the District

Court of Haskell County,  
Given under my hand and seal of said court, at office in Haskell this 6th day of October A. D. 1925.

Hangings of crushed velvet flanked each side of the throne, which was beneath a canopy of pink orchid. The throne was flanked by two Egyptian slaves, dressed in yellow and stood at each side of the throne, which was a high backed, carved chair. Incense burners and wick-burners filled with yellow chrysantheums stood to the right and the left of the throne. Palms in earthenware were placed inside of a rail which formed a semi-circle inclosure in front of the throne. Purple and red foot-covers concealed behind the rail lent an Egyptian effect to the setting. The orchestra struck the processionals, and the processionals, Miss Steel and Lucile Robertson, dressed as roses, with pink petal skirts, green hose and sandals, took their places at the enclosure, each carrying an atomizer with which she

sprayed rose perfume upon the royal procession. At the right of the throne was an electrically lighted device by means of which the names of the visiting royalty with the colleges represented were flashed before the spectators as the procession advanced. Prior to the approach of the Royal party Misses Ivy and Daphne Campbell gave a special dance in Hawaiian costume. Then came the pages to the Royal Court, followed by the two Ethiopian boys, who drew a white satin covered cart upon which rested the Queen's crown, resplendent in the red and purple light cast by small globes which decorated the cart. The crown was designed especially for her majesty by Arthur A. Everts who also furnished for the Queen a handsome diamond platinum watch, three flexible platinum bracelets, a diamond platinum brooch, a strand of oriental pearls and several rings set with rare diamonds. A group of flower girls preceded the royal procession which was led by Miss Lone Roberts of Terrell. H. A. Olmsted acted as prime minister, placed the crown upon her head as she knelt before the throne. The Duchesses, representing the various schools which responded to the invitations of the All-College Club, then entered, each wearing an elaborate evening gown and head dress of pearls and plumes, and each carrying an arm bouquet of pink roses, and a golden staff tied with the colors of her school. The ladies of honor, representing the various foreign nations followed the Duchesses, each accompanied by pages. Miss Natalie Sharp, representing Russia, wore a white satin frock, characteristic of that nation, white fur hat, and white leather boots. Her pages were dressed in the same way, making a striking picture. Miss Mary Hobson of the court of Italy was dressed in true Italian fashion. Miss Adelia Greiner, representing Scotland, appeared in Highland Kilts and Miss Betty Chase of the Court of

England, wore the red and white riding habit. Mrs. Herbert Maulinson of the Court of Spain, wore a handsome yellow scarf and black lace head dress. Miss Suzanne Smith of the Court of Egypt, borrowed all of Cleopatra's charms as well as her costume; Miss Mary Mildred Houghton borrowed the Kimono and cherry blossoms from Japan. Miss Alace Houghton representing Turkey, wore the characteristic costume of that land. These ladies

of honor, standing in front of the rail, formed a colorful and picturesque sight with the Duchesses and the Royal Throne as a back ground. The Queen was royal in gown of white chiffon studded with pearls and rhine stones. Her long train was carried by Jane Wilhide and Mary Jane Harding. Immediately after the coronation, Doris Walters gave a classic dance for the pleasure of her Majesty. Doris McMahon interpreted the "Charleston." Then the or-

chestra struck up the royal processionals march, which the Queen led forming the grand march. This is the greatest social honor that has ever come to a Haskell girl and as the honor acclaims her America's most beautiful girl, her picture was in all of the large papers. Mary Ella reigned for two nights, following the coronation the All-Circus events took place the following evening at the Fair Park Stadium.

**Thursday Luncheon Club.**  
 The regular gathering of the Thursday Luncheon Club took place last Thursday at the home of Mrs. Elmer Irwin. Through the summer months they often hiked to the woods and parks for an evening picnic spread, but in common with all other clubs they are getting back to normal, which is for each to bring a dish at the noon hour which all together makes quite a feast. The afternoon was spent in

hand work and congenial conversation. Those present were: Mesdames John Couch, Sam A. Roberts, Mrs. B. M. Whiteker, H. S. Wilson, Alfred Pearson, O. E. Patterson, Travis Arbuckle, F. L. Daugherty, Wiley Reid, special guest Mrs. L. P. Taylor and the hostess Mrs. Elmer Irwin.  
 NOTICE—Library will be open from 3 to 5 on Saturday afternoons. Mrs. J. E. Irby.

## BACK OF A GOOD NAME

Rarely in manufacturing history has a name entrenched itself so firmly in the confidence of the entire world as the name Dodge Brothers.

Everywhere and to everyone this name means but one thing: a product built honestly of the best available materials and sold at a just price.

Behind this product, this price and this enviable reputation lie certain impressive and fundamental facts.

So important is a knowledge of these facts to the motor car buyer that Dodge Brothers, Inc., have determined to publish them, from time to time, until every newspaper reader in America may be presumed to have read them:

Dodge Brothers, during the past eleven years, have built and sold more than one million four hundred thousand motor cars—and more than 90% of these cars are still in service. This record requires no comment. It stands impressively alone in motor car history.

It has never been Dodge Brothers policy to build yearly models. When an improvement, that is really an improvement, is discovered, it is made at once. Their slogan, "Constantly Improved But No Yearly Models" is familiar the world over.

Dodge Brothers build one chassis and only one. This policy materially lowers manufacturing cost. It also enables Dodge Brothers engineers to concentrate their entire time and thought on the betterment of this one type.

Dodge Brothers have never had an "off year" or an "off car." This is because they have never used the public as a testing ground for "new models" or lowered the quality of their product in the slightest degree. Every change has been an improvement on the original design.

Dodge Brothers pioneered in building the first all-steel open car and the first all-steel closed car. These epochal develop-

ments have saved Dodge Brothers owners many millions of dollars by materially prolonging motor car life and by effecting marked economies in manufacture. This construction has also reduced incalculably the danger from accident and fire.

Dodge Brothers sell directly through their dealers to the purchaser. There are no sectional distributing agencies to increase the cost of distribution and the cost of the car.

Dodge Brothers have never given so-called "free service." The car is sold at a fair and honest price. Nothing is added to this original purchase price to pay for service that the owner may never need.

Dodge Brothers Dealers were pioneers in unanimously adopting the flat rate service system. By this system, the owner knows in advance what any service job will cost. There are no unpleasant surprises in his bills.

The sturdiness and long life of Dodge Brothers Motor Car is reflected in its resale value. Comparatively few Dodge Brothers Motor Cars are advertised in the resale columns of the newspapers. The values they bring testify unanswerably to their goodness—and the public's belief in their goodness.

The time has passed when transient novelties can lead a thoughtful buyer to overlook the great essentials of motor car worth. A few of these essentials, outlined above, go far to explain why Dodge Brothers name is accepted, the world over, as the hall mark of dollar-for-dollar value.

ONE-PROFIT Facilities Alone Make Possible

this Sedan of fine quality—at the lowest price ever placed on a Sedan by Studebaker

THERE was a time when the automobile buyer seeking greatest value for his dollar was justified in considering a car of second-grade quality, which was reasonably satisfactory from the standpoint of transportation alone.

But with the advent of Studebaker's One-Profit manufacturing policy, cars of the finest quality, such as the Standard Six Sedan illustrated below, are now only slightly higher in price than those of second grade. This small difference in price is practically nothing in comparison to the vast difference in materials and workmanship—plus increased pride of ownership, and the extra service—that a Studebaker gives.

Under this One-Profit system we build in our own plants all bodies, engines, clutches, steering gears, dif-

ferentials, springs, gear sets, axles, gray iron castings and drop forgings. Thus we eliminate extra profits and overhead that all other manufacturers (except Ford) must pay to outside parts and body makers—and what we save goes to the buyers of Studebaker cars.

And because we have facilities for manufacturing all vital parts on this One-Profit basis, we are able to design, engineer and build every Studebaker car as a complete harmonious unit. Being Unit-Built, the Studebaker functions as a unit—with all the advantages of unit over assembled construction.

The result is years longer life—scores of thousands of miles of excess transportation—greater riding comfort—minimum repair costs—and, finally, higher resale value.

A UNIT-BUILT CAR

Value Stabilized by "No-Yearly-Models"

THE fine Studebaker Standard Six Sedan illustrated below is upholstered in genuine wool cloth. Carpets are wool. Windows are real plate glass. Four wide doors. Equipment includes an 8-day clock, gasoline gauge, coincidental lock to ignition and steering gear, automatic windshield cleaner, ash receiver, rear-view mirror, stop light, dome light, safety lighting control on steering wheel, and full-size balloon tires. This Sedan has many superiorities—hidden as well as obvious. Body pillars are of fine northern white ash, cross-members of hard maple. We pay a premium for the best steels. Slam the door and the sound says "quality." Swing on the door. Run one wheel up on the curb and note how the doors still open and close—how the motor still runs smoothly. Sit on the firm, heavy fenders. Try the steering gear. See how easily it handles the full-size balloon tires. Test the comfort of the deep, wide seats.

Run the engine—the most powerful in any car of its size and weight, according to the ratings of the N.A.C.C. and the Society of Automotive Engineers. This is Studebaker's lowest priced Sedan. Make comparisons—then realize why no car at a comparable price has more than superficial resemblance. Come in and let us demonstrate this sturdy One-Profit car.

**Are You Weak, Nervous?**  
 Houston, Texas—"I have used some of Dr. Pierce's remedies and I feel myself perfectly satisfied." I became run down in health and had weak and nervous spells. I took the "Golden Medical Discovery" and the "Favorite Prescription" and it was surprising how quickly and rapidly I improved. Just a few bottles of each put me in good health. I can recommend the "Golden Medical Discovery" as a general tonic and the "Favorite Prescription" for feminine troubles.—Mrs. W. H. Jackson, Route 1, Box 254, N. All dealers.
