THE ROTAN ADVANCE

Volume No. 53

Rotan, Fisher County, Texas, Thursday, July 30, 1959

No. 28

Dry Weather Gives Farmers A Break

Rainfall tapered off this week with only one shower recorded, that Monday morning which Fred Byerly gauged at .30 inch. The fall was much heavier in the south part of the county where 2 inches was recorded.

Byerly has gauged 6.17 inches for July and 19.24 for the year, to date. Much of the territory has had heavier rains during July, up to 13 inches.

Most farmers are getting the weeds under control, with the dry weather the past ten days and crops are doing nicely. Stockmen say they would like to have more rain, soon.

US Bonds Sales Good In County

Lance Davis, chairman of Fisher County Savings Bonds Committee, reports that June bond sales in Texas were 11.4% greater than May sales. Bond sales in Fisher county totaled \$43,224 for the first half of 1959. This represents 50.8% of the year's goal for the county.

Sales in Texas for the first half of 1959 were \$81,960,468, or 44% of the year's goal of \$182.5 million. "The fine sales increase shown in June points up the fact, that thousands of Texans are interested in an investment where their principal and interest are fully guaranteed by the U. S. Treasury Department. I believe strongly in the bond slogan 'Part of Every American's Savings Belong in Savings Bonds' Davis stated. "More Texans should take part in the Savings Bonds program, not only as a tangible expression of patriotism, but as a practical way of saving for future personal security," chairman Davis concluded.

Calendar Club Holds Regular Meeting

The Calendar Club met Tuesday afternoon July 28 at 3:30 in the home of Mrs. Billy Sumerlin with Mrs. William Lyles as co-hostess.

Next meeting will be August 25 in the home of Mrs. Joe Dale Burk with Mrs. Tommy Watkins as co-hostess.

Templer Enrolled At Hardin-Simmons

Abilene, July 28--Jerry Wayne Templer, son of Mr. and Mrs. N. I. Templer, route 2, Rotan, is enrolled for the second six weeks session of summer school at Hardin-Simmons University.

Enrollment for the second half of H-S U's summer session is expected to total about 450 when registration is completed for the last three-week term Aug. 4.

There were 513 on hand for the first half of the summer school, which include six six-week term and two three-week periods. Enrollment is about 10% above 1958.

The 1959 summer session will close with commencement exercises at 8 p. m. Aug. 21, George L. Graham, director of the summer school, has announced.

Guests of Mr. and Mrs. A. D. Turner Tuesday night of last week were Mrs. Rollins Cayce and Charles of Houston and Mrs. David Strayhorn and Thomas of Snyder.

Mr. and Mrs. Royce Huckaby, Robert Lynn and Don of Killeen visited her mother, Mrs. W. B. McKimney from Tuesday until Sunday of last week.

Mrs. J. T. Smith returned Tuesday from a 3 weeks visit with her children in the Houston area. She reports a wonderful time and the group helped her celebrate a birthday while there.

Mr. and Mrs. Ray Ashton, Billie and Mary Lou Ashton of Abilene visited last weekend in Eunice, N. M. with Mr. and Mrs. Doyle Bringer. Mrs. Morris Watson visited in Haskell Monday.

Public Schools To Open August 31

Supt. D. Y. McKinney announces Rotan Public School to open Monday August 31. Considerable repair work on all three buildings is being completed.

New furnishings are being installed in the primary and elementary buildings, completing a two-year program of replacing worn out and out-moded furnishings and equipment. Some new equipment has been added in high school.

Faculty is expected to be completed before the term opens.

Three primary teachers have resigned, Mrs. Elmo Cummins, Mrs. Tommy Watkins and Mrs. Wendell Morrow.

Negro students will start to De priest school in Hamlin Monday, August 10. Students above 6th grade are transported to Hamlin by school bus driven by S. B. Jones. This early opening will enable school being turned out for a period during cotton harvest.

4-H Club Boys Attend Dist. Camp

Seven Fisher County 4-H Club boys attended the District III boys 4-H Club Camp last week, July 22-24, at Buffalo Gap.

Club members attending the camp from this county were: Royce Green, Allen Lee, Michael Schubert, R. W. Callan, David Maberry, Gary West and Gary Floyd.

The boys camp is an informal type camp which is set up and planned by the boys from the District III 4-H Council. The agents from the 22 counties in the district serve as an advisory group. This gives the boys a chance to exhibit leadership by running their own encampment.

The program for the camp consisted of swimming, baseball, washers, and horseshoe pitching. The club members were divided into 4 groups and competed against each other for camp champions in each of the sports.

The night programs consisted of various demonstrations conducted by the club members themselves. A first aid and safety demonstration was conducted by Joel Wilson of the West Texas Utilities Company.

The last evening a Magician Act was presented by Rev. Porterfield, First Methodist Church, Anson. Presentation of awards movies were also shown the last night.

Local club members were accompanied by Willie Schubert, adult leader, and James S. Norman, County Agent.

Mr. and Mrs. Bernard Weems and son Bernie are visiting their parents here. They are moving from Ralls, where he has been coach in the school system, to Stephenville where he will be assistant coach in Stephenville high school. Coach Booth, former Rotan coach, is also at Stephenville. Mr. and Mrs. Weems attended to business in Stephenville last week and Bernie stayed with his maternal grandparents, Mr. and Mrs. Joe Kiker.

Guests in the home of Mr. and Mrs. N. I. Templer Sunday were, Minister Austin Siburt of Hamlin, Mr. and Mrs. A. D. Turner and Elaine, Letrice Counts, Mr. and Mrs. Gerow Roberts and Jerry Templer of Abilene. Jerry is a senior at ACC and will attend the University of Tennessee as a medical student next year.

'As It Looks From Here'

Omar Burleson, M. C.
17th District, Texas

Washington D. C. In 1960 the Federal government will again take a census. Uncle Sam will be taking an inventory of his people as to where they are, what they do and other details about our approximate 180 million Americans.

The machinery is already being put in order to conduct this vast undertaking which will last only a few weeks. Some 170,000 persons will be employed on a temporary basis to assist the Census Bureau officials in this mammoth effort.

Since the executive department is under the control of the Republicans, it will be their first census since 1930. It will be their job to recruit people to do the work. All persons to be hired must pass a qualifying test showing them capable of gathering and submitting the proper information.

Why is all this necessary? It is going to cost a lot of money, is it does every 10 years, but the information obtained is used largely by the business interests in private enterprise and by state and local governments.

Countless decisions are made and actions taken based on the facts concerning the Nation's population. Business depends on these statistics produced by a census in order to plan location, expenditures and other matters of judgment.

Decisions relating to the location of utilities, roads, schools, hospitals, water supply and other public planning is based on the numbers and types of people in given area and the rate at which the area is changing in size and character. Details used in advertising of almost every product conceivable is a matter of judgment based on information from the census.

The application of many state municipal and Federal laws depend on the size of a state, county or municipal population, since this information is a qualifying factor.

Not the least important is the way the census figures affect our Government. The number of Representatives in Congress from various states are based on population. After results of the census are known, states lose or gain representation in the Congress.

The U. S. Senate Labor Committee has approved a bill by Senator Hubert Humphrey which revises the old Youth Conservation Corps along the lines known as the CCC in the early depression days. Just what the purpose of it is this day and time is difficult to understand.

The small business administration has issued a pamphlet containing ideas helpful in deciding where to locate a plant, about market analysis, and so forth. The title is "Management Aids for Small Business." It sells at the Government Printing Office for 45c, but if you will write your Congressman 1531 New House Office Building, Washington 25, D. C., they will be furnished on request.

Although much has been done to overcome the law of gravity, it is still in effect. So is this truth: Hang on, you can't fall down until you turn loose.

Mrs. Lena Patterson and her mother, Mrs. L. C. Miller went to Galveston Saturday to visit Dr. and Mrs. Marcel Patterson and children.

"And I thought I was a good driver . . ."

A really good driver never takes anything for granted! Every driver should expect the unexpected and be prepared to react fast. Quick thinking in a pinch is a lifesaver. So don't take anything for granted. Overconfidence can dull the sharpest reflexes. Many of the 37,000 people killed on our highways last year might still be alive if good drivers never relied on chance. Drive as though your life depended on it—it does!

Where traffic laws are strictly enforced, deaths go DOWN!

About Your HEALTH

A weekly public service feature from HENRY A. HOLLE, M.D., the Texas State Department of Health, Commissioner of Health.

There is a new killer in our midst! Actually it isn't so new. There have been deaths from this cause for a few years now.

The tragic thing about this new killer is he strikes at infants and toddling children—the ones that can't protect themselves!

This killer comes in several forms. He appears as a crib sheet, pillow case, bib and worst

of all, a TOY.

However, this killer is easily recognized by grown ups. It is the clear plastic that is used for so many purposes these days.

Take shirts. Bags made out of this plastic are just perfect for protecting the shirt from dust and at the same time displaying the product.

But when such plastic materials

are used as crib sheets,

Last year in Texas, three infants eight, seven and five months old suffocated because they accidentally pulled the plastic sheet over the face.

Pillow cases too, are just as deadly. Early this year a four month old child was found in bed with its head buried in a plastic pillow case.

A month later a plastic sheet claimed another victim. And still another month later a five month old infant playing with a plastic bag pulled it over her head and suffocated.

In addition one baby suffocated from a plastic bib, and just the other day a fifth 1959 victim died—suffocated by a crib sheet.

Already the total has almost

equalled last year's toll.

Plastic bags have an important and useful place in modern life, IF they are used correctly.

You wouldn't let an infant play with a pistol. You don't use a razor for a peething ring. So why put something as dangerous as a plastic bag into the hands of an infant.

When pressed to his face, the plastic clings. When the infant tries to breathe, it clings all the tighter. The result is suffocation, because the little tike is unable to tear the material from his face.

So, protect little children from exposure to such plastic material.

SUN STOPPERS—Decorative canvas awnings like these can be real money savers for owners of air-conditioned homes. Tests by the American Society of Heating and Air Conditioning Engineers indicate that operating costs are decreased substantially when awnings are used to block sun's rays from exposed glass areas.

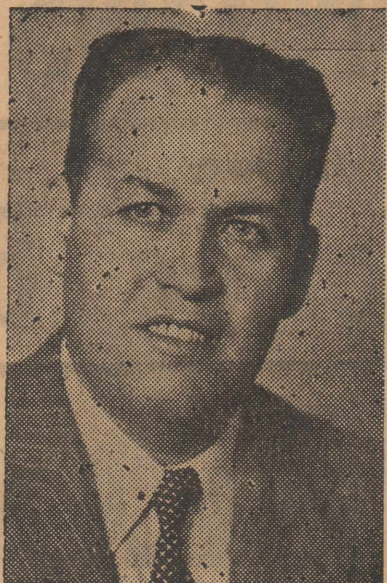

Other Disability Pay No Longer Offset In SS Law

Disabled workers who have not applied for social security disability benefits because they are receiving disability payment he received under Federal agency, or under a State Workmen's Compensation program, should get in touch with their local social security office without delay.

According to R. R. Tuley, Jr., manager of the Abilene social security office, many such workers can now get social security disability benefits. Moreover, benefits can go back as far as August, 1958, if an application is filed before September 1, 1959.

Under the law in effect prior to August 1958, a worker's social se-

curity disability payment was reduced by the amount of any other disability payment he received under a State Workman's Compensa-

tion program, or from another Federal agency. In a number of cases this meant that no social security disability payment could be made. As a result, many workers who would not have benefited by the "disability freeze" did not file a claim. These workers should check with their local social security office not later than August 31, 1959, Tuley emphasized today.

A representative of the Abilene office of the Social Security Administration will again be in Rotan on the morning of July 31, Aug. 14 and 28 at the City Hall. He will be glad to discuss your social security questions with you.

Mrs. Horace Carter, Robert and Reba and Mrs. O. S. Kiker visited in Bronte from Wednesday until Friday of last week and Mrs. Mary Phillips, mother of Mrs. Kiker came home with them for a visit.

WHY IS THIS SO?

Most denominational preachers claim to preach the complete gospel. Yet have you ever wondered why they never emphasize the cases of conversion as set forth in the New Testament? Why is it they will not quote the apostle Peter's reply as he gave it on Pentecost? Peter, convicted those people of a terrible crime when he said, "... let all the house of Israel know assuredly, that God hath made that same Jesus whom ye have crucified both Lord and Christ." (Acts 2:36). Luke says "Now when they heard this, they were pricked in their heart and said, Men and brethren, what shall we do?" (Verse 37). Now here is Peter's reply, "... repent and be baptized every one of you in the name of Jesus Christ for the remission of sins" (Acts 2:38). Why is it that not all preachers will tell their people what PETER COMMANDED THEM TO DO THEN? Call your preacher now, and ask him if he will. Note some cases of conversion as recorded in the book of Acts, how many of them have you heard emphasized?

1. The conversion of the Samaritans (Acts 8: 5, 12). This is never emphasized. Why?
2. The conversion of the Eunuch is completely ignored (Acts 8: 26-30) Why?
3. The conversion of Saul of Tarsus (who afterward was known as the apostle Paul). His conversion is recorded in two different places in the New Testament: (Acts 9:10-20; 22:16). It is not possible to find in all the New Testament an example where a person was saved from past sins in any OTHER WAY THAN WHAT ANANIAS TOLD PAUL TO DO when he said, "arise and be BAPTIZED AND WASH AWAY THY SINS." This is never emphasized. Why?
4. In Acts 10:34-38, is the conversion of Cornelius. The conversion of this man was the act that opened the door to the Gentile world. Cornelius was converted exactly in the same way, and in accordance with the commission as was given by Christ (Matt. 28:19; Mark 16:15-16; Luke 24:46-47; Acts 2:38). This was put into operation on Pentecost (Acts 2) and is taught today in the New Testament church. Therefore, those who refuse to emphasize these cases of conversion are preaching a gospel that will not save, thereby bringing condemnation upon themselves and those who heed their teaching (Gal. 1: 8-9).

One-key control: only Chevy in its field has done away with fumbling for two or three keys. The same key unlocks the door, starts the engine, opens the glove box and trunk.

WHY DO WITHOUT THIS CONVENIENT LITTLE TOUCH... LET ALONE

THESE BIG CHEVY VIRTUES!

BIGGER BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

GREATER ROOMINESS

Official dimensions reported to the Automobile Manufacturers Association make this point abundantly clear. For example, Chevy's front seat room is up to 5.9 inches wider than in comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

MOST ADVANCED ENGINES

We'll let SPORTS CARS ILLUSTRATED talk about Chevy's standard passenger car and Corvette V8's: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." And every motor magazine concurs! There are eight V8's to pick from—the widest choice in Chevy's field.

FRESH STYLING

POPULAR SCIENCE magazine's experts took one look and said, "In its price class, Chevy establishes a new high in daring styling."

HIGHER TRADE-IN

N.A.D.A.* Guide Books carry the proof of Chevy's extra trade-in value. They show that Chevrolet used car prices last year averaged up to a solid \$128 higher than comparable models of the other two cars in Chevy's field.

*National Automobile Dealers Association

FULL COIL RIDE

You've almost got to find a really rocky road to show off Chevy's easygoing ride to full advantage. MOTOR TREND magazine gives you an idea, though: "... the smoothest, most quiet, softest riding car in its price class."

BIGGER SAVINGS

Two Chevrolets packing our pennypinching 6 with Powerglide delivered a whopping 22.38 mpg in this year's Mobilgas Economy Run, winning the first two places in their class and walking away with top honors among all full-size cars. How can you argue with a figure like that?

See your local authorized Chevrolet dealer and see how much more Chevy offers!

*** County Agricultural Agent Texas A. & M. College Extension Service ***

Careless hauling and handling of livestock can cost producers a lot of money, says U. D. Thompson, extension animal husbandman. A recent USDA study shows the loss from careless hauling of livestock amounts to about \$100 million annually for the nation.

Four major causes account for most of this loss, says Thompson.

First, almost a fourth of all trucks hauled either too many or too few livestock. Animals shouldn't be crowded but the load needs to be fairly snug to avoid shifting. Marketing agencies and most truckers have charts which tell how to load according to type of animal and available floor space.

Second, only half of the loads were partitioned by type of animal. Horned cattle were seldom partitioned, resulting in much bruising and crippling. Partitions need to be put between animals of different sizes and types the husbandman says.

Third, almost 30% of the trucks had little or no bedding, leaving the danger of animals slipping or falling. Floors need to be "slip-proofed" with sand, shavings or sawdust, and a straw covering should be used to absorb moisture.

And fourth, the animals weren't handled properly when loaded and unloaded. Some truckers, and farmers too, used clubs, shovels and sticks. More than half the hogs and a fourth the cattle were mishandled as a result. Thompson says the only proper way to urge livestock along is with canvas slappers or electric prods, as clubs will injure the flesh.

In order to avoid losses, Thompson urges growers to make sure their livestock are hauled by reliable truckers. And be on hand when your cattle, hogs or sheep go into and out of the truck. Until sold, it's still your livestock. Producers eventually pay for these injuries, despite hauling insurance, he adds.

Research in fish-farming, the process whereby agricultural crops and fish are grown in rotation, is being started by the U. S. Fish and Wildlife Service, said Ed Cooper, extension wildlife specialist. The purpose of this study is to provide practical ways by which fish-farming can be conducted profitably in conjunction with agricultural crop growing.

Numerous problems on stocking, disease control, predation, competition and reservoir management must be solved before fish-farming can be economically feasible. The research program will be followed closely and results will be reported when available, Cooper added.

Cooper also said that the pelleted form of 2, 4-D shows same promise in controlling aquatic vegetation, particularly the emergent vegetation in shallow water around the edges of ponds and lakes. More research is needed, he said, before definite recommendations can be made. At the present time the sale and use of pelleted 2, 4-D is governed by regulations pertaining to hormone-type herbicides. The material may not be sold or used in those counties specified in the Herbicide Regulation.

And last, he cautions against trying to control pond weeds or fertilizing your pond now. These practices are effective in spring or early summer. It is too late in the summer now for effective work of this type. Either practice during late summer will likely result in oxygen depletion and loss of fish.

If oxygen depletion hits your pond, Cooper suggests using an outboard motor, either on a boat or fixed to stationary object, to aerate the water. Circulating water by pumping will get oxygen into it and the more splash the better, he says.

Mrs. Gabe Gentry of Anson visited her aunt, Mrs. M. E. Morrow Tuesday of last week. In the afternoon Mrs. Jim Strickland of Abilene and Mrs. Elmo Kolb of Sweetwater also came. All are nieces of Mrs. Morrow. Miss Emily Garrett, Mrs. C. C. Carter, Mrs. Thoma Morrow, Justin Morrow and Sandra also visited Mrs. Morrow and the other ladies.

Mrs. Mary Turnbow of San Angelo and Mrs. P. P. Cooper of Royston visited Mr. and Mrs. C. O. Carter last week.

McKay Family Reunion Held At Roby

The McKay family, formerly of Rotan gathered at the Community Center in Roby Sunday, July 27 for a family reunion and to celebrate Mrs. McKay's 80th birthday.

They started the day by playing "This Is Your Life" for Mrs. McKay and then crowning her "Queen For A Day". Mrs. Estell Thorn, a daughter, acting as MC placed the silver colored crown studded with rhinestones on her head. Homer McKay, the eldest son presented her with a group gift.

Lights were flashing all over the hall as everyone wanted pictures of the little lady who had reared her sixteen children, 14 of her own and two grandchildren. Thirteen of them were present, all eleven girls and one son. Bill McKay of Tipton, Calif., was unable to attend as well as a grandson, Charles Jr. of Crane. The granddaughter, Neva Jo Brooks of Norwalk, Calif., attended. One son, Charlie McKay is deceased.

Many other relatives and friends attended, with all enjoying a pot luck dinner and two nice birthday cakes were served.

Others of the group observing birthdays were Mrs. Ellen Davis and Shurline Thorn.

Attending were, Mrs. La Rhetta McKay, Mr. and Mrs. D. Davis and Gary, Mr. and Mrs. Earl Wharton, Mr. and Mrs. Beddo of Roby; Mrs. Neva Jo Brooks, Norwalk, Calif.; Mr. and Mrs. Bill Watley of King City, Calif.; Mrs. Vergil Carroll, El Centro, Calif.; Mrs. Sandra Baxter, Beverly, Ronnie and July of San Diego, Calif.; Mr. and Mrs. Buck Thompson, Wanda and Landa Kay Owens, Seminole; Mr. and Mrs. Emmet Dobbs, Breckenridge; Mr. and Mrs. Alton Davis, Abilene; Dayton Davis and daughters, Ruby and Nettie; Mr. and Mrs. Marshall Whorton, Sweetwater; Mrs. Ellen Davis, Uvalde; Mr. and Mrs. Jim Pettie, Rotan; Mr. and Mrs. George Walters, Curtis and Wayne of Montgomery, Alabama; Mr. and

"Just like my Want Ad said — every car is guaranteed — USED!"

WWII Vets In Last Year For GI Loans

World War II veterans today enter the final year in which application may be made for a GI home, farm or business loan.

Congress has set July 25, 1960, as the cut-off date in the post-war program that has already seen nearly 5 million World War II veterans take advantage of the GI Bill loan provisions since June 22, 1944.

The law allows an additional year, or until July 25, 1961, for the processing and actual closing of loans.

These dates do not pertain to Korean veterans who have until January 31, 1965, to make loan applications. World War II veterans who also served in Korea are considered Korean veterans for loan purposes.

Under the GI loan program, qualified World War II veterans are offered the opportunity to obtain VA guaranteed loans to (a) purchase, build or improve a home; (b) buy a farm or farm supplies; and (c) buy or expand a business venture. Since the program was launched and up through May 31, 1959, a total of 4,955,300 World War II veterans have made GI loans for a total face value of \$39,220,608,200.

Of this total 4,657,100 loans were made for dwellings; 228,400 for business ventures and 69,800 for farms and equipment.

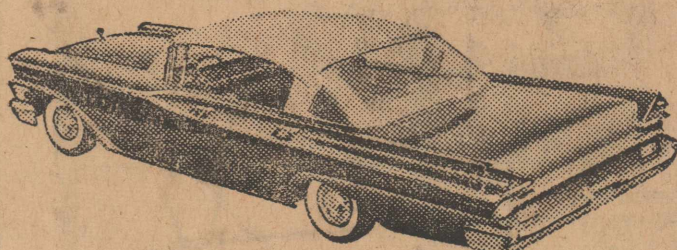

In total, 35% of the eligible World War II veterans have taken advantage of the loan program. An exceptionally low record of defaults has won the approval of the nation's financial leaders and an extremely high percentage of the loans have already been repaid in advance of the final due dates.

Texas Farm and City 4-Hers Share Projects

Timeworn distinctions between farm and city cousins are rapidly disappearing, say rural sociologists. Another fusion taking place is in 4-H Clubs.

In Texas as in virtually every other state, non-farm 4-H boys and girls are carrying many of the same projects as their counterparts living on farms, according to the Cooperative Extension Service.

With the help of county Extension agents, local volunteer 4-H leaders, and junior leaders the young people "learn by doing."

Two examples are the electric and entomology projects. Every household a tone time or another has need of simple electrical repairs in iron cords, switches, fans, wall outlets, small motors, and the like. Made-to-order items such as lamps always find favor with mother, while converting man-made energy to electrical energy makes many chores easier. These are but a few things that 4-H'ers learn to do and demonstrate in the electric project.

The entomology program often starts 4-H'ers in an exciting hobby like collecting butterflies, and identifying rare or indigenous species of insects. They also learn to recognize helpful as well as harmful ones.

Whether club members cultivate small gardens or vast acres they can apply this knowledge to growing better vegetables, flowers, fruits and grains. Pets and farm animals are benefitted, too.

All 4-H'ers strive to "make the

best better," and awards do not come easy. Slightly more than 10% of the 1,526 Texas club members enrolled in entomology last year won county medals, and nearly 8% to the 6,153 received medals for their electrical know-how.

Only one state winner in each category is selected. Miss Jeanette Pfeiffer, 16, of Carmine, Fayette county, was 1958 state entomology winner, and Olen Baley, 18, of Wichita Falls, was electric winner. Their award was a trip to the National 4-H Club Congress in Chicago.

Westinghouse Educational Foundation has been donor of the 4-H electric awards for nearly a quarter of a century. This is the eighth year that Hercules Powder Company has supported the entomology program. Arrangements for awards are made by the National Committee on Boys and Girls Club work. All winners are announced by the State 4-H Club office, Texas A&M College.
