material the year round requires planning and regular attention. Good litter management is practiced by many poultrymen with very good results, says Ben Mormeli, extension poultry husbandman.

Dirt floors are used for most poultry houses in warmer climates. There should be level and packed dirt fill several inches deep over the floor area. Then the area around the house should be graded and trenched sufficiently to keep surface rain water out of the house. Sidewall protection will exclude most of the wind driven rain.

> Select a littler that is free of mold and very low in dust. If Providing housed poultry with a mold spores are inhaled by the bird, they may start to grow in the air sacs and cause serious loss. Also, the litter should be porous and fluffy and cut into small pieces to keep it from matting.

Use sufficient litter to do a good job, advised the husbandman. This means litter should be three or four inches deep for started chicks or poults, and six inches or more for laying hens. Littter delivered to the farm may range in cost from \$10 to \$50 per ton, depending on the type bought. Among the more common litters used in Texas are wood shavings, sugar cane litter and peanut shells, Wormeli says corn cobs, cut straw and peat can also be used. One ton of litter should provide a four inch thick covering for 1,000 to 1,500 square feet of floor space.

An adequate amount of good litter is an essential requirement for floor type poultry production and should be included in the essential costs. The cost of gambling on insufficient litter can be hazardous, warns the husbandman.

It's so inexpensive to cook the modern electric way. The average family served by WTU can cook a com-plete meal the easy, fast electric way for less than three cents (3¢).

If you're like most homemakers, you'll agree to this: seeing your family sit down to a delicious dinner is one of the biggest thrills any woman can have. But - how often can you really enjoy it, when you're tired out, exhausted, after hours of battling with a balky, old-fashioned stove. Well, if that's your situation, get ready for something wonderful to happen-to you! Just start cooking with a modern, automatic electric range. Here's cooking that's faster, easier, cleaner - a sange that does the work for you, turns itself on and off so

that you don't even have to watch the food cook. You'll find that you'll enjoy dinner, too, along with the rest of the family. This is really living better-and cooking better - electrically. See the new automatic electric ranges on display today at your electric appliance dealer.

High school seniors and graduates have only until November 14 to apply for the Navy's Reserve Offi-P. Smith, Chief of Naval Personnel, said today. Applicants will take nationwide competitive examination Thursday. on December 12 as the first step toward an appointment as midshipman.

Designed to supplement the officer output of the Naval Academy, theNROTC program makes it possible for a young man to earn a regular commission while studying at civilian college of his choice which has an NROTC unit. All tutition. fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for four years. During the summers the student goes on interesting training cruises to many parts of the world. Afer completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a prospective career officer with the Navy's far-flung fleets.

High school seniors and graduates who have reached the 17th anniversary of birth and have not reached the 21st birthday on July 1 19-60 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid physical exam early in 1960. From the pool of qualified young men remaining in competition, approximately 1600 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. Seperate quotas are established for applicants within these services.

Application forms are available at high schools, colleges, Navy Recruiting Stations, or from the Chief of Naval Personnel, Department of the Navy, Washington 2g, D. C.

(Although this is addressed to Chevrolet owners, we'd be glad to have you read it, no matter what make you now own or plan to buy. It might well be as interesting and significant to you as to the Chevrolet owner.)

TO THE MORE THAN 16 MILLION PEOPLE WHO OWN CHEVROLETS

The first and the latest-the 1010 and the 1860 Chevrolet. The per concerepresented here is the result of continuing efforts to make your new Chevrolet always more beautiful, more useful and more valuable in every respect.

You belong to the largest family of owners in the automotive world. We hope you're proud of that. It must give you great satisfaction to know that your judgment in choosing Chevrolet has been confirmed by so many other people. We know that we can hold your

preference and your loyalty only by meeting our responsibilities to you fully and completely from the day you buy your Chevrolet to the day you trade it in. And so we'd like to talk with you about our responsibilities as we see them, and what we are doing to meet them. Our first responsibility, we think, is clear: To design and build products

that satisfy your needs and your wants to the highest possible degree. To that end, we have done these things for 1960:

Made the 1960 Chevrolet more eco-

nomical, roomier, more quiet and com-fortable, easier to handle and maneuver. Introduced the compact and revolutionary Corvair. Produced a new line of Chevrolet trucks with unprecedented advances in efficiency, cargo handling, driver comfort and ability to get a job

But it isn't enough to design and build the kinds of products you want. They must be built *right*. Solidly. Carefully.

Let us assure you of this: Chevrolet's fine reputation as a solid, well-built, dependable product is being safe-guarded by more checks and inspections and tests, than ever before.

Along with your Chevrolet dealer, we want you to have available the finest and most complete service facilities. That is why we: Conduct training schools for Chevrolet Galer mechanics. Study and recommend improved service equipment and tech-niques. Maintain the industry's most complete parts warehouse system.

Finally, neither Chevrolet nor your Chevrolet dealer has any intention of forgetting you after you buy. To help keep you happy with your Chev-rolet, we have established a department new to us, and so far as we know, new to the automobile industry. This is the Chevrolet Department of Owner Relations, whose only job is the coordination of Chevrolet and Chevrolet dealer activities so that you enjoy utmost satisfaction during your entire period of ownership. Through this department, and through all the other extraordinary steps we are taking, Chevrolet and your Chevrolet dealer hope to keep you a happy member of the Chevrolet owner family.

HOW TO BE ABSOLUTELY SURE OF income equal to 10°, more eggs

for the first 30 days after switching to Nutrena

Run this 30-day performance test with your own flock

Here's our cash-on-th-line offer: Switch from whatever ration you're presently feeding to any Nutrena egg feed. If you do not get at least 10% more eggs during the first 30 days on Nutrena than you got during the previous 30 days, Nutrena will pay you the difference in cash!

For example, let's say you got 500 dozen eggs from your flock last month. You must get 550 dozen eggs in the next 30 days or Nutrena will pay you the difference between your actual production and 550 dozen eggs at the current market price.

No one, not even Nutrena, can guarantee that you will get 10% more eggs under all circumstances. But by signing up for Nutrena's 30day performance test, you're absolutely sure of either 10% more eggs or the equivalent income in cash.

There are no catches, no strings, no unreasonable conditions. If your flock is not obviously diseased or molting, this performance test is offered to you in all good faith when you switch to Nutrena from any other brand of egg feed.

So don't miss out or this unusual opportunity. You must sign up and start Nutrena's 30-day performance test before December 31. Don't wait. See us for the details today. Start now enjoying the benefits of a Nutrena egg feed program.

Christian Science Sunday Service

1001 Crane St. Sweetwater

The meaning for today of the book of Genesis will be set forth in the Lesson-Sermon entitled "Adam and Fallen Man" at Christian Science services Sunday.

Opening selections to be read from the Bible present these verses: "God created man in his own image of God created he him; male and female created he them . . And God saw every thing that he had made, and, behold, it was very good" (Genesis 1:27, 31.)

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read (183:21-23): "Divine Mind rightly demand's man's entire obreldience , affection, and strength. No reservation is made for any lesser loyalty. Obedience to Truth gives man power and strength. Submission to error superinduces loss of power."

Many Select Christmas Gifts From Hospital Bed

Sanitorium---Do your Christmas gift selecting from a hospital bed. Sound impossible?

At McKnight State Hospital near San Angelo, it's not impossible. Because of time and work donated by volunteer workers and because of gifts and cash donations from West Texans, tubercular patients will be able to send small gifts to their loved ones.

Here's how the annual Christmas gift shop works: anyone who wishes may contribute a gift item suitable for men, women and children. Volunteer workers, headed by Mrs. Paul Coulter of Water Valley, will wrap each item in cellophane.

Many of these gifts will be put on display in the Volunteer Services Building at McKnight, for patients who are able to leave their beds to come and make a selection.

For those unable to leave their beds or their buildings, volunteers will take a selection of gifts to them.

Patients do not purchase the gifts --- they are free, through the generosity of West Texans. The patients are given gift certificates --and with these, they "buy" the gifts.

Volunteer workers then wrap and mail the gifts to the patients' family.

Workers have already begun collecting items suitable for gifts. But many are needed. You may send ladies stockings men's underwear, toys for children--anything that a patient might be pleased to give someone in his family. Cash donations are needed, too. Cost of wrapping and mailing gifts this year is estimated at \$400. Make checks payable to McKnight Patients Christmas Gift Shop. Wherever you live, you may send items at no postage cost to you--sinmply take the package to the motor freight line office in your city and mark the package to go to the Christmas Gift Shop at Mc-Knight State Hospital. The freight line will deliver it free of charge. Gifts must be at McKnight by Nov. 20. Send yours today!
