Methodist Missionary Women Meet at Church.

On last Monday afternoon at three o'clock, the hour of meeting during the fall and winter months, the women of the Methodist Missionary Society met in regular meeting at the church and enjoyed a splendid and instructive program on their work in Brazil. The president, Mrs. S. R. Rike presided and the meeting with a song and service until all had gathered, she turned the meeting over to the leader, Mrs. J. M. Gose, who gave an interesting talk on the work in Brazil, illustrating with a map, and calling attention to the vast resources of that country and means to help in the organization and education of a needy people. Two special reports on the crisis and individual work in Brazil, were read by Mrs. R. Montgomery and Mrs. Mack Marshall. A number of quilts are in the process of being made, these to be sent to needy base and the second box of clothing is being packed for the Settlement House. Thus, one is in close touch with the Women's Missionary Society to realize the intent and purpose that controls the life of the organization, to keep touch with the needs at home and abroad and to do all in their power to supply that need, as well as to glorify God's word and seek to become like him and to lead of him day to day. The bible lesson as given by our president, Mrs. S. R. Rike was deeply spiritual and taught us of the fatherhood, the sonship and the brotherhood of all man-

Haskell County Federation of Women's Clubs to Have Flower Show.

In one of the most enthusiastic meetings since the organization of the County Federation of Women's Clubs, the executive board with the president Mrs. H. M. Smith in the chair, met last Saturday afternoon at the Magazine Club Library and discussed minute plans, and finally voted to have a Flower Show and Baby Show jointly at the Haskell Fair Park, Oct. 29th and 30th, which will be last Friday and Saturday in October. Miss Minnie Ellis is general program chairman, and she and Mrs. Smith will appoint special chairman in every independent school district and in every rural school district. The baby show will begin promptly on Saturday morning and every mother should avail herself of having her baby weighed, measured and examined by a physician and bear in mind that unusually dainty clothes are not necessary as the clothing are removed for the examination. For further information about the baby show, ring Mrs. H. M. Smith or Mrs. L. W. Kirkpatrick. Mrs. Will Whitman of the Midway community is music chairman and will be prepared to give all information regarding instrumental music, solos, duets and so forth. It is hoped that every community will contribute to the special programs that will be given at appointed hours, for information regarding this division, see community chairman or Mrs. Will Whitman or Miss Minnie Ellis. And for the flower show proper, let every woman in the county select her best potted plants and prepare to bring them, also cut flowers. A lady present on the above occasion stated that to carry ferns and potted plants, all prongs should be gathered up and tied in place with paper around it, allowing none to hang down. And for the cut flowers, if asperin tablets are placed in the water, it will cause them to keep fresh longer. This organization is for the best that can be obtained in every community, for the raising of more and better edibles and learning how to can and preserve the surplus. And the planting of more flowers, shrubbery and trees: To this end a county demonstration agent will soon be secured for Haskell county for the girls work. Let's make the first Flower Show a memorable occasion from the standpoint of co-operation and unity. Let every woman in the county contribute something. There will also be a County Carnival in which the school boys and girls will have a part. For information regarding same, see community chairmen. The organization will meet in November with the Pleasant View community, the date to be appointed by them. After that meeting, they will not meet again until early spring. Then Mrs. H. S. Post the First Vice President introduced the president. She said that the president had not only gained recognition in club work abroad, but that she was a faithful loyal church worker. Resolution of Respect for Mrs. O. M. Guest.

We, the women of the Missionary Society of the Methodist Church of Haskell, feel deeply the loss of one of our beloved members, Mrs. O. M. Guest, who passed from this earth to her heavenly abode on September 19th, 1926. Mrs. Constance Lillian Guest, wife of Dr. O. M. Guest, was a consecrated Christian, deeply pious, and before her long illness, which confined her to her room and invalid's couch for more than five years, was a teacher of rare ability in the Sunday School and valued member of the Woman's Missionary Society, having served as president and other important offices. Therefore, be it resolved, First, that we express to each other the love and appreciation that we felt for our departed sister and co-worker; and for the influence of her life that will ever be present. Second, that we offer the bereaved family, sincerest condolence in their loss of this noble wife and mother. Third, that a copy of these resolutions be spread on the minutes of the Missionary Society; that a copy be furnished the family of the deceased and that a copy be published in the Haskell Free Press. Respectfully submitted—Mesdames F. G. Alexander, Chas. Parsons, C. M. Kaigler, Committee on Resolutions.

CANNON BALL BAKER BREAKS 3 RECORDS

Slashing a generous slice off three coveted transcontinental motor records in one swooping drive, "Cannon Ball" Baker of Indianapolis has arrived in Los Angeles, driving his own Ford roadster, sealed in high gear just five days, two hours and 13 minutes after leaving New York City. He was officially timed at start and finish by Western Union officials.

This time cuts 11 days and 5 3/4 hours off the old high-gear transcontinental record, made by a six-cylinder car selling for three times as much as the Ford. It is also two days and 13 3/4 hours faster than the fastest time ever made before by any kind of a car with one man driving from coast to coast without relay of drivers. The previous one-man speed record over this course was made by Baker in 1920, driving a \$2000.00 car. Baker's new record is also 16 hours faster than the best time ever made across the continent on a motorcycle.

The car used was a standard type Ford Roadster that was not equipped with overhead valves nor special cams nor counterbalanced crankshaft. It was Baker's 74th trip across the American continent.

Nervous hot flashes

"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha F. Marlow, of Broken Bow, Okla., "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered."

"I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon."

"Some friend suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Cardui."

Cardui has helped thousands of suffering women.

LATE HAPPENINGS IN WEST TEXAS

Tulia-Contract has been let for the construction of a 42 room modern hotel here, the cost of which will be approximately \$70,000.
Carlsbad, N. M.-Carlsbad will be host to members of the Pecos Valley Medical Association on October 28. A trip to the Carlsbad Cavern is included in the convention program.
Marfa-A bond election fostered by the local chamber of commerce recently carried here for the issuance of \$58,000 for waterworks and \$56,000 for sewerage.

government means additional men on the pay roll and exaction delay and annoyances.
And some of us who are phone users can supplement this. For instance, American newspaper men, during the recent epidemic of channel swims, frequently had occasion to call up Cape Gris Nez in France. You don't ask for "long distance" as in America. You ask for "trunks". In my own case, I must have called up the Hotel Sirene in the little French village dozens of times. Yet the last time I did so, the "lidy" in charge of trunks serenely said to me:

"I can't give you the Hotel Sirene for the reason that you can't give me the hotel's telephone number."

Farmer of Foster Will Cut Next Year's Cotton Acreage

W. M. Harrell of the Foster community says that regardless of how the price of cotton goes from now on that he is cutting his cotton acreage half for next year's crop. He made 100 tons of maize this year and has it all in his barns. He is now gathering his corn crop which will doubtless exceed 800 bushels. He has 13 head of hogs and more than 500 White Leghorn hens, 4 good milk cows and ten head of work stock. Mr. Harrell expects to increase the number of cows, hogs and chickens. He expects to live at home and raise a surplus of cotton, which he can market at his own good time. He has a large cotton crop now in the gathering but says if he sells at the present prices he does not expect much money out of it and no profit at all for his labor and expense of making. When Mr. Harrell says a thing he means what he says. He never grieves, as the saying goes, over spilt milk.

CAUSE LOTS OF CUSSING

Ownership of public utilities by cities or by state is not always what it is cracked up to be by American theorists. Here in Great Britain people are used to public ownership of public utilities, but they also are very frank in their criticism. For instance the nation runs the telephone service. It is part of the postoffice department's job. And listen to this tale of woe by an English business man speaking to me about it:

Horseless Horseshoes
If any one fears that the game of pitching horseshoes will die out for want of implements as the automobile replaces the horse, he may set his mind at rest. "Horseshoes" that are not shoes and could not be worn by horses are now manufactured especially for use in the game.

They come in pairs of a regulation size and weight, painted and numbered for easy identification. In most outward aspects, even to the presence of calks, they resemble their prototypes, but they betray themselves for what they really are by the absence of nail holes.

Not That Cruel
It was Mary Jane's first week at school. Each day she hurried home with a story to tell mother of the day's occurrence.

One evening she rushed into the house, saying to her mother: "Mother, do you know what the teacher wanted us children to bring her tomorrow? Cat-tails! She told every one who could bring some to raise his hand. But, mother, I didn't raise my hand, cause we haven't any cats, and, anyway, I knew you wouldn't let me cut their tails off."

Wise Old Cat
A London householder is responsible for the latest story of animal sagacity, and inasmuch as we have had so many tales of sea serpents and other such varminths, it would be cruel to cast doubt upon its veracity.

The householder says that his pet tomat developed the habit of begging for cheese from the dining table. A watch was kept on the cat, and it was discovered that after eating the cheese he would go to a mousehole and breathe heavily down it.

Attend Funeral of Nephew.

Mr. and Mrs. Tom Baker of Midway attended the funeral of their little nephew Bert Baker of Abilene who was accidentally killed by being run down by an Automobile Friday October the 1st driven by Roy Price a citizen of that city. The little fellow was returning home from the primary training school of the A. C. C. He had reached the corner of Grape and North First St. when the accident occurred. He was picked up and carried to a sanitarium and he only lived a short while, his little body being so badly crushed that he soon passed away. It will be remembered that he is the son of E. N. Baker a brother of Tom Baker who lives here and Mrs. S. W. Treat who formerly lived in Haskell County. The little fellows mother died soon after his birth and Mrs. Treat took him and was rearing him. It is said that she did not reach his bedside until he had passed away at the Sanitarium, although she was notified at her home and she rushed to him. His remains were carried from Abilene to Temple and laid to rest Sunday beside his mother in the Temple Cemetery the old home of the family.

SHE TELLS THE STORY OF MANY OTHERS

Dr. W. C. Rountree, Tackama, Texas.
Dear Doctor:-About 8 years ago I was taken with a bad case of stomach trouble. I got better in Winter and worse in Spring and Summer. I suffered untold agonies, took many kinds of medicine and found no relief. After four years I broke out with something that looked like sun burn. At first it appeared on my hands, later on my face and neck. My mouth got sore. Feet burned and swollen until I could hardly walk. My heart beat too fast and I had a hurting in my chest. Some one sent you my name and you sent me one of your little books and Questionnaire. I did not order your treatment at first. I waited thinking I would get better, but instead I got worse. Finally I got so bad that I could not walk 20 steps without resting. I ordered your Pillsora treatment and on the 9th day of July 1926 I began talking it. I soon saw that it was helping me and by the time I had taken one treatment the rash and many of the other symptoms had disappeared. I have taken your treatments and am entirely relieved of all symptoms of Pillsora. I appreciate the honesty and kindness with which you have dealt with me, for I have found everything that you told me about the treatment to be just like you said. I want to ask all who have this disease to not put off ordering your treatment like I did for while they are waiting this terrible disease is stealing their life away.

Snow White Fields, No Hands.

Nearly all the cotton fields in the Center Point and Sayles communities are snow white. Most of the cotton is open due to the fact that the worms destroyed the leaf protection causing the bolls to crack open. Very few farmers have been able to get help in gathering their crop so it looks like there will be lots of cotton go to waste if we keep having rains like several we have had in the past two weeks.

Snow White Fields, No Hands.

"THE FAR CRY" AT THE HASKELL THEATRE

"The Far Cry" is a modern story with some modern ideas worked out. A modern American mother defies conventional customs and in bitterness sees her daughter reap the result. Blanche Sweet is the heroine who literally carries out her mother's theories only to hear the ringing, jeering echo of heartbeats, the cheers, the fears of pleasure seeking humanity. Jack Mulhall is co-featured with Blanche Sweet. Other featured members of the cast are Hobart Bosworth and Myrtle Steadman. These are American folk, who know the social customs of America but who in a faraway land in Paris and Florence try out new theories. The most talked of director in Hollywood is directing this picture, that's Balboni. At the Haskell Theatre for one day only, Thursday, Oct. 14.

Where does all the money go? YOUNG Mrs. Henshaw was almost in tears. She had been telling Mrs. Blair something about her failure to "get a few dollars ahead." "Where does all the money go?" she asked hopelessly. "Do you really want me to tell you, dear?" Mrs. Blair replied, in the kindly voice of mature experience. "Like so many other young people," she continued, "you and Jack are 'always broke'—as you say—because you have no systematic, intelligent buying plan. You need to adopt a budget! You should study your problem—know exactly what you must have each week and buy accordingly." "There comes the big test! Do you know how to buy—what to buy, and when, and where? You simply must learn, and the best way in the world is to study the advertisements in your newspaper. Read the ads carefully; apply their suggestions to your own needs, and you will save money! I know, because for many years I have done so." © 1925, O. L. H.

Will Cut Cotton Acreage 50 Per Cent On the 1927 Crop

J. A. Rose of Foster, a leading farmer in that section was in the city Saturday and made the statement that he expected to cut his own crop next year at least 50 per cent and had instructed all his renters to that effect. He says he will move near the city of Haskell this fall. He has more than 50 tons of fine maize in his barns and expects to feed out to hogs and other livestock and chickens what he does not keep for another year or until he sees the possibility of another feed crop. Jim says it makes no difference to him how the price of cotton goes, up or down—he is going to make the cut in his acreage.

C. T. Jones and family of the Pleasant View community were in the city Saturday shopping. He says that he has quite a lot of cheap cotton on his farms to pick and market.

John L. O'Dell who recently moved to Abilene was a visitor to the Fair most of the week last week.

CHEVROLET PRODUCTION EXCEEDS ALL RECORDS

The Chevrolet Motor company, largest manufacturer of three-speed cars, shattered two of its marks during September when it established a new monthly record of 81,158 passenger cars and trucks and attained a production total of 593,281 units for the first nine months of 1923, eclipsing the half million production of the entire 12 months of 1922, Chevrolet's greatest year.

Neither of these figures ever has been approached by any builder of cars with three-speed selective transmissions.

Mrs. Maggie W. Barry Lectures at Baptist Church Wednesday Afternoon.

Perhaps the most widely known national character that ever came to Haskell on the lecture platform was Mrs. Maggie W. Barry, Chairman of the Department of American Homes of The General Federation and Specialist for Women's Organizations at A. and M. College Bryan, Texas. Mrs. Barry spoke Wednesday afternoon at three o'clock at the Baptist Church to a large and appreciative audience who sat entranced with her charming and commanding personality and easy flow of language on the twin subject, "Some Social Problems and The Home." Out of the rich experiences and stored up knowledge of the past, this teacher, philosopher and linguist brought to her hearers vital truths about the problems of today and the homes of today and made a clear deduction that everlasting truths and principles are the same yesterday, today and tomorrow. While in Haskell Mrs. Barry was the house guest of Mrs. R. C. Montgomery who was a former pupil of hers when she. Mrs. Barry taught in English department of Kidd-Key College, Sherman, Texas. Haskell county women are indebted to The Magazine Club for the privilege of hearing Mrs. Barry on the above occasion.

FAIR AWARDS AND EXPENSE CHECKS LATE

Due to matters in hand and adjustments to be made, the award checks and expense checks to be issued by the Haskell County Fair Treasurer cannot be completed this week, at best. Those having accounts against the Association especially small balances, that might have been purchased in October are requested to get them in at once, mail to P. O. Box 387 or hand in at the offices, M. H. Post or Manager's office, over Payne's Drug Store.

THE PUBLIC ALWAYS WANTS TO BUY

It is a proven fact that the public always wants to buy. Occasionally in times of stress the people are unable to buy as freely as they would; but when ever they are able to do so, the people are eager to buy and are more likely to over-buy than otherwise. Truthful and plain publicity is real advertising. The people are not so much interested in high-brow blah' blah' they do not know nor do they care what it is about. Competitive advertising is what creates real interest for the buyer and he makes his purchase through reliable advertising and is benefited through the deal. Reading advertisements is educational to the buyer, whether or not he patronizes the advertiser he is benefited. Of course the buyer should really patronize the advertiser for he is the real benefactor to the buyer and spends his money to keep in line with the channels of trade and protects him against paying too much for his purchases.

WILL CUT ACREAGE OF COTTON NEXT YEAR

LOW PRICED COTTON NOT WORRYING THIS FARMER

Felix Josselet of the Josselet community was in the city Saturday and stated that he had cut the acreage of cotton on his farm this year. He only has half of his farm in cotton. The other was planted to feed and grain. He has five hogs for his meat this year and has eleven pigs for his meat next year with plenty of feed to feed them. He has a large flock of Rhode Island Red chickens and plenty of cows for milk and butter for the family. What cotton he will make this year will be a surplus and he can market it at his own good time. He stated that he had never bought a hog since he has been married and keeping house, which is more than 15 years and he has lived in Haskell county all the while. He has only bought a little lard one time during these years, but stated that he had bought a little meat a few times. He expects to sow half his farm in wheat and oats and says that he has plenty of season in the ground to bring it up. He will then plant the other half of his farm to maize and cotton and he expects to cut the acreage of his cotton crop for the next year quite a lot over this year.
