# FROM THE FIELD

By W. M. Free.

We are always glad for an opportunity to get out in the country and no one seems to know this better than county agent Trice. We are grateful to him for many pleasant outings in the country as he goes about his routine of duties. We try not to cause him any delay in his work and therefore try not to be a burden to him as we go along. But always glad to lay aside the duties in the Free Press office for a few hours in the country where the air is pure and the brightness of this great country is realized the more.

Saturday morning we had a short outing with Mr. Trice stopping at a few homes and enjoying very much the things noted below in this short article. We made our first stop at the home of John Kendall at the Duncan gin in the eastern part of the county where we found Mr. Kendall busy at work in his chicken yard. He has purchased a few lots near the gin and has fenced with poultry wire and in that inclosure he has many breeds of chickens which he purchased from various places over the United States. He breeds with baby chicks with all the breeds, Old English Game and the Lakelanders, the latter is a new breed in this country, but is a very beautiful breed of the Leghorn type and Mr. Kendall believes they will prove a very desirable breed. He is going to give them a thorough trial and see what they will do in this part of the country.

We next made our stop at the home of Mr. and Mrs. M. A. Clifton. They are old timers in Haskell county having lived here for many years. Mr. Clifton is engaged in the feed and grocery business on Depot Street which requires all his time. Mrs. Clifton is not content to sit idle has been for many years engaged in growing flowers to beautify her home and is also one of the best woman gardeners and chicken raisers in the city. Her flower yard this year is up to her expectation in every way. It is one of the most beautiful in the city and her roses, holly hocks, violets, pinks, lark spur, phlox, and numerous other flowers are in full bloom and the fragrance from those beautiful flowers makes the home happy and cheerful. Mrs. Clifton has an almond tree growing that is four years old, and she has some of the most beautiful pot flowers to be found anywhere. A glimpse at her garden and flowers filled us with many pleasant memories. She has more than 300 baby chicks of the Plymouth Rocks and Reds and they are just about ripe.

We drove from the Clifton home to the home of County Commissioner Clyde Gordon in the Rose Chapel community. He was in the city attending a Commissioner's Court meeting, but Mrs. Gordon showed us through the poultry yard that was filled with Rhode Island Reds of all ages. She has been selling baby chicks and fliers all spring, and now she has about 175 baby chicks and fliers on the yard. She keeps about 60 hens and her poultry business more than pays their grocery bill at this time.

We next drove to the home of J. A. Newby. He was busy plowing in the farm and planting his crop. He has terraced his farm and we noticed that he has a fine stand of cotton on some of his terraced ground. He has about 100 White Leghorn hens which according to Mrs. Newby are paying their grocery bill at the store. These hundred hens are producing more than an average of 5 dozen eggs per day which is a little more than 30 dozen per week. You see the hen works seven days in a week and she also works while her master goes to church or to the city.

We made our last stop at the home of Ed Robertson who was busy shocking a fine crop of barley which was being harvested on his farm. Perry Stark was helping him. This was one of the best barley crops we have seen grown in Haskell county and he was getting it harvested and shocked up in due time. Mrs. Clark has a fine flock of Plymouth Rock chickens and she is having fine luck with her baby chicks. She also has some fine young turkeys coming on. Ed has a good stand of cotton and his feed was looking nicely. He is making good on the farm and we believe he has struck his calling.

# NO-NOX

## MOTOR FUEL

# STOPS KNOCKS

## Turns Mountains into Mole hills

FOR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

## Gulf No-Nox and Carbon are Power Twins

GULF No-Nox Motor Fuel withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

With GULF No-Nox Motor Fuel in your tank—step on it—you will get the story better than we can tell it.

## This Guarantee goes with it

GULF No-Nox Motor Fuel is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF No-Nox Motor Fuel is priced three cents per gallon higher than ordinary gasoline—and is worth it.

Then they returned to the dining room where they found a large cake with nine lighted candles, this was soon equally divided among all of the little guests and with it they also had frozen lolly pops. To add to the festal occasion, red and yellow balloons were given as favors and then the entire party went to English Park where they finished this delight-

## Haskell County Federated Clubs Meets With Midway

The first meeting of the Haskell County Federation Clubs met last Tuesday afternoon with the Midway community at their commodious and well equipped school building, since its organization at Haskell April 30th. This was a fine and very enthusiastic meeting with seventy-five members present. The president, Mrs. H. M. Smith, presided. Mrs. Paul Frierson gave the welcome address and the president responded, telling the ladies that she was more than delighted with the way the women of Haskell county were rallying to this splendid cause. Numbers of bowls of flowers and a musical prelude on stringed instruments by the Misses Self, accompanied on the piano by Mrs. Will Whitman, created a splendid atmosphere before the program proper began. Special talks on all phases of the work of a County Demonstrator,

were given by local ladies and those from a number of other communities and towns. And what the Demonstration Agent will mean in teaching the girls to can, cook, and sew and in fact everything that a girl should know, was clearly discussed and understood. The Women's Clubs of Haskell will have charge of the next meeting which will be in the 4th precinct and the time and place will be given in the Free Press as soon as the Rule ladies make the appointment. The Midway ladies served a delicious refreshment plate.

## Singing At Tuxedo

The singing at Tuxedo, Sunday afternoon was attended by several singers from Stamford and New Hope and the Banker Hill Singing class. Mr. Henry McCauley of Stamford acted as chairman for the evening and a long and enjoyable programme was rendered.

The purpose of this singing was to get the people of Tuxedo interested in the song service and help the Baize brothers in organizing a class at that place. We hope that the singing helped them in some way, for there is nothing that helps to build a community any more than a good singing class.

Along the Way

It seems to be hard for the modern youth to distinguish between buoyant and flamboyant.

Even if Jazz gets into grand opera, most of us will not be able to discern any great change.

Not every one who tries to get something for nothing is a sucker. Some of them are politicians.

Wouldn't it be nice if the fellow who sows some wild oats could have some one else reap the harvest?

It's driving power that keeps things moving, but lack of driving judgment causes most of the traffic jams.

What has become of the old-fashioned girl who tied up her hair with ribbons from her beau's candy boxes?

Our women spend \$500,000.00 a year for perfumery. And just think that's only a scent a day for each of them.

Debt Funding (modern international style): "Jim, let me have another eight bucks and I'll pay you the five I owe you."

Don't expect sympathy from a bald-headed man when your own begins to get thin. Misery loves company, you know.

Great-grandad had one advantage. If friend wife wanted a new fur coat he took his trusty muzzle-loader and got her one.

The head writer's problem is short synonyms for big words, such as "Big Heads" for Artistic Temperament."

It's sometimes hard to deal with a little fellow and maintain your reputation. If you hit him you're a bully and if you don't you're a coward.

**My Own Grandfather.**  
How a man is his own grandfather is explained by C. J. Liebenberg in this manner:

I married a widow with a daughter. My father who was a widower at the time, frequently visited us. He fell in love with the daughter and eventually married her. My father thus became my son-in-law and my step-daughter became my mother-in-law.

Shortly afterward my wife gave birth to a son, who is naturally my father's brother-in-law and at the same time my uncle, for he is the brother of my step-mother. To make matters more involved, my father's wife became the mother of a son. This boy is my brother and also my grandchild.

My wife is logically my grandmother, for she is my step-mother's mother. I am therefore my wife's husband and grandchild, and since the husband of anyone's grandmother is his grandfather I have to acknowledge that I am my own grandfather.—Forney Journal.

**Marksmanship Demanded.**  
"Do you think he will miss me?" sang the entertainer in a cracked voice.

"If he does he ought never to be trusted with a gun again," shouted one of the irate audience.

**Impossible Directions**  
Doctor (to patient)—It is nothing to worry about; just a small boil on the back of your neck. But you must keep your eyes on it.

The little daughter of Mr. and Mrs. L. N. Simmons of this city who had her tonsils removed some time ago is reported to be getting along nicely. Mr. Simmons became alarmed at her condition last Thursday morning and carried her back to Stamford for examination, but she proved to be in no danger and is on the road to recovery very rapidly.

A. H. Wair made a trip to Amarillo Sunday returning Monday.

Mr. and Mrs. Lee Humphries of Rule were in the city Thursday.

**Come On In.**  
Old Maid (to boys in swimming)—Isn't it illegal to bathe without bathing suits, little boys?

Johnny—Yes, ma'am; but Jimmie's father is a policeman, so you can come in.

**Sign of Fading Beauty.**  
"I fear my beauty is beginning to fade."

"Why do you say that, girlie?"  
"I had to argue with the last traffic cop as to whether I was speeding or not."

**The Grasping Doctors.**  
"You're looking bad, Willie?"  
"Aye, I've been in the hospital and the doctors taken away my appendix."  
"These doctors 'll take anything. It's a peety ye didna have it in yer wife's name."

CITIZEN'S MILITARY TRAINING CAMPS FOR THIS SUMMER

This year the sixth Citizens' Military Training Camp will be held in the following places on the dates given: Fort Huachuca, Arizona, July 15 to August 13; Fort Logan Colorado, July 1st to July 30th; Fort Sill Oklahoma, July 9 to August 7; Fort Sam Houston Texas, July 6th August 4; Fort Crockett Texas, July 1 to July 30; and Fort Bliss Texas, July 22 to August 20. The object of these camps is to bring together young men of high type from all sections of the country on a common basis of equality and under the most favorable conditions of outdoor life, to stimulate and promote citizenship, patriotism, Americanism, through expert physical direction, athletic coaching and military training, to benefit the young men individually and bring them to a greater realization of their obligation to their mother country and the home. The camps are open to all men between the ages of 17 and 31 years who are of good moral character, intelligence, and in good physical condition. Candidates must be native-born citizens or must have made application at least for first papers of naturalization. Transportation from home to camp and return will be furnished by the government. Thirty days training, with good food, shelter, medical attention, clothing, ample opportunities for athletics and recreation, comradeship with bully good fellows and training in citizenship are for those who will enlist now as a candidate. The number of boys who can be taken care of in the camps is limited. As soon as a candidate is accepted serum for the inoculation against Typhoid, Para-Typhoid is sent to the Doctor who has been appointed to give the physical examination, but due to the fact that Smallpox vaccine cannot readily be shipped applicants are expected to secure it themselves. For further information concerning these Camps see Mr. M. B. Lebo, who is County Chairman of the Citizens' Military Training Camps.

**Very Unfair.**  
A clergyman had occasion to preach to the inmates of an insane hospital. During his sermon he noticed that one of the patients paid the closest attention, his eyes riveted upon the speaker's face, his body bent eagerly forward. Such interest was most flattering. After the service the speaker noticed that the man spoke to the superintendent, so as soon as possible the preacher inquired:

"Didn't that man speak to you about my sermon?"  
"Yes."

"Would you mind telling me what he said?"  
The superintendent tried to sidestep, but the preacher insisted that he be told.

"Well," he said at last, "what the man said was, just think, he's out and I'm in."

**Inherited.**  
"Late again, O'Malley," roared the boss. "How do you account for this persistent tardiness?"  
"Tis inherited, sir," answered O'Malley. "Me father was the late Michael O'Malley."

**The Correct Style.**  
Mr.—Aren't you ready to go yet?  
Mrs.—Tell me, doesn't my gown look as if it were slipping off my shoulders?  
"No; let's go."  
"Well, you'll have to wait. It's supposed to look that way."

HASKELL COUNTY BOY IN IMPORTANT POSITION

The Progressive Farmer of Dallas has the following article about a Haskell boy who was reared here and went away to school. After receiving his education he is now holding down an important position with one of our leading Texas educational institutions. We believe our readers will be glad to read of the success of this young man and we reproduce the article.

Virgil Porter Lee, professor of agricultural economics, Texas A. & M. College since 1923, was born May 18, 1891 on a farm in Hamilton County. He attended country school and high school at O'Brien in Haskell County. Graduating from the O'Brien High School in 1909. Mr. Lee taught school for two seasons. After three years' training at Thorp Spring Christian College, he entered the University of Texas in 1914, graduating in 1918, and taking the M. A. degree in 1919. During his university course, Mr. Lee specialized in history and economics. For one year Mr. Lee was in charge of the Department of History and Economics at Thorp Spring Christian College. He then spent three years in studying Agricultural Economics at the University of Wisconsin. After receiving the Ph. D. degree at this institution, he went to Texas A. & M. as professor of agricultural economics, teaching farm finance and marketing. Since coming to Texas, Dr. Lee has written a bulletin on Farm Mortgage Financing in Texas, published in 1925 by the Texas Experiment Station. He is at present engaged in writing a bulletin on Short Term Farm Credit in Texas.

College Paper Contains Twelve Articles From Haskell Girl

Perhaps the estimate is not too high when we state that no Haskell High School girl in the past has attained the success in her freshman year at college that Johnnie Morgan has. She was put to work in the office of the Baylor Bells, the official paper of the Baylor Belton College, in October of 1925, six weeks after entering college; and by Christmas she was society reporter, and now she is listed in the proper corner of the paper as Sport Editor. This week's edition of the paper is edited by the Freshmen and twelve marked articles indicate the authorship of Miss Morgan. We predict for Johnnie Morgan a bright and successful future in the field of journalism.

City women know that their neighborhood stores can supply them just what they want — and that, in most cases, the service is more alert and friendly.

The same thing is true of this "neighborhood". Our merchants—the men whose ads you read in this paper — are in position to furnish your home with the best and most popular brands of goods. Not only can they save you money, but they gladly relieve you of a lot of worry and loss of time.

The bride is a very attractive and popular young woman and possesses a charm of manner that has won for her a large circle of friends in her respective community. She was expression teacher at the Hamlin college the past term and is held in the highest esteem by her pupils and patrons. The groom is choir director for the Hamlin Baptist Church and is a teacher of voice. He is a graduate of the Vaughan's Conservatory of music of Lawrenceburg, Tenn., and has made quite a reputation as a teacher and gospel singer. We are glad to have this family to become a home owner in our city and if Spic has any more people like Mr. and Mrs. Baughman we can make room for them.

**Visits Old Home in Virginia**

R. H. Darnell of this city left last Saturday morning for an extended visit to his old home among the Virginia hills. He expects to visit his sister Mrs. L. B. Benton of Lynchport, Virginia, while away. He makes an annual trip to his old home and always has an interesting story to tell of the things he so much enjoys. Before going away he promised the editor he would bring him a persimmon on his return. Persimmons grow in profusion in all that country and the persimmon sprout when properly applied has been instrumental in bringing up a better citizenship. The thoughts of the persimmon sprouts have many pleasant memories to those who grew up among them.

Mrs. Wm. Schwartz of east of town was shopping in the city Tuesday. She brought a nice lot of fresh eggs to town.

**SACRED HARP SINGING HELD LAST SUNDAY**

The regular annual Sacred Harp Singing at Cook Springs Baptist Church was held last Sunday May 16, in a most pleasant and satisfactory manner. The people began arriving about 8:20 and continued on until far in the afternoon. A number of the old faces were missed, which shows that though slowly, yet surely, we are passing "over the river to rest under the shade of the trees." The leaders for the day were W. L. Ray, W. A. Short, J. M. Gipson, and J. W. Simpkins. A message was read from E. L. Carr (Uncle Waddy) who could not be present but sent his greetings, and two special songs were sung in his memory. **BAPTIST WORKERS COUNCIL HOLD SESSION AT SAGERTON**

Representatives from practically every church in the Haskell Baptist Association, including Haskell and the south half of Knox county, met with the Baptist Church at Sagerton in their regular fifth Sunday session on last Saturday and Sunday. A very strong program had been prepared, and practically all who were scheduled to speak were present, and a number of splendid sermons and addresses were given. The program was cast along the lines of the general denominational work carried on by the Baptists of the state and of the South. Special attention was given to such subjects as missions as the work is carried on both by the district Association and general state convention. Rev. I. N. Alvis of Haskell gave a very interesting inspiring and informing address on the subject of associational missions. In this address he gave a brief but comprehensive history of the work of Baptists in this section for the past thirty or forty years. He pointed in glowing terms the growth which these years have brought, showing how the old Stone-wall Association came out of the Sweet-water Association, starting work under the most discouraging circumstances with a bare half dozen churches and few members and preachers and has now grown into several Associations with scores of churches and thousands of members. He closed with a plea for earnest co-operative work on the part of the present day workers to the end the good work so well begun should be carried forward in a worthy fashion. His address was followed by an address on the importance of State Missions to Texas by Rev. P. D. O'Brien of Munday, after which a large and responsive congregation listened to a very able sermon by Rev. V. W. Tatum of Weibert, upon the importance of developing soul-winning churches. At the

noon hour a very fine dinner was served at the church by the ladies of the Sagerton church. The afternoon session was given over to the discussion of several matters. First the executive board of the Association held its session. A splendid report was given by Missionary J. W. Read. More definite plans were made for the erection of a home for our missionary in the city of Haskell. Money is to be raised at once to begin the building. Plans were made by which every community in the Association will have a revival meeting this summer. The pastors of the district will hold a number of these meetings. Others will be held by student preachers from Simmons University. At the Saturday evening service Rev. J. A. Kinser spoke on the place and importance of Home Missions. He was followed by Rev. L. E. Fraser of Rochester, who delivered a very able sermon on the subject of Foreign Missions. The Sunday services were given over to sermons and addresses on Sunday School and Baptist Young People's Work. The Sagerton meeting was considered by those present to have been a very helpful meeting in every way. The hospitality of the local people was unexcelled, and the spirit of the entire session was pleasant and harmonious throughout. The next meeting will be held with Rev. R. G. Brannen and the church at Smith Chapel on Monday, June 28th.

A Motors Love

The love of a Christian mother is like the radiant sun beam which pierces the thickest cloud. When adversity or sorrow comes, it crosses in stronger contrast to the surrounding gloom. A mother's changeless love knows no bounds nor limitations. It can reach across ocean or span burning desert sands. It penetrates subterranean vaults where toiled her low unknown and unending by the world above him, or it follows him in his ethereal flight through boundless space, standing and sustaining him with its mighty strength and winging him safely to his journey's end.

Bilious dull feeling My old stand-by is Theford's Black-Draught—I have used it off and on for about 20 years, says Mr. W. S. Reynolds, of R. F. D. 2, Arcadia, La. "So I take a few doses of Black-Draught and when it acts well, I get up feeling like new—full of pep and ready for any kind of work. "I can certainly recommend it." In case of biliousness and other disagreeable conditions due to an inactive liver, Black-Draught helps to drive the poisonous impurities out of the system and tends to leave the organs in a state of normal, healthy activity. Black-Draught is made entirely of pure medicinal roots and herbs and contains no dangerous or harmful mineral drugs. It can be safely taken by everyone. Sold everywhere. Price 25c.

Dr. Bernard is building a new home with all modern conveniences.

E. M. King, O. E. Melton, Mr. Rogers and Prof. Moore are also building nice new homes.

Mr. and Mrs. C. M. King had the misfortune to lose everything they had

when their home burned and the good people of O'Brien and surrounding country were kind enough to start them again by giving them practically as much as they lost. The neighbors also gave their work to Mr. and Mrs. Carney to rebuild the house which was complete in 3 days.

W. C. M. King and family and T. G. Carney and wife want to sincerely thank you for your kindness.

### ENDLESS CHAIN SCHEME IS USED TO SELL HOSE

Here is an endless chain scheme which is reported to have relieved working girls of a portion of their savings. The loss ran into many thousands of dollars.

The scheme is to sell silk hose to working girls by getting them to act as selling agents. A hosiery company rents offices in the downtown shopping district. Soon an attractive offer in silk hosiery is made through the local newspapers. By cleverly wording advertisements it would appear that any young lady can secure five pairs of hose worth \$2 a pair for only \$1. In other words, \$10 worth of silk for only \$1. Without stopping to analyze the proposition or to consider how impossible it is for any concern to stay in business and sell \$10 worth of silk hose for \$1, thousands of young women instantly fall for the scheme.

Here is how it catches its victims. Each victim pays \$1 and receives three coupons which they must sell to their friends, and then their friends must come in and pay down \$1 each, get three coupons each which they must sell to their friends and then these friends must perpetuate the scheme by selling coupons to their friends and so on indefinitely.

Here is where the promoters make a clean-up. One of the conditions which must be met before the young woman who purchased the first coupons receives her \$10 worth of hose for \$1 is that the three to whom she sold her three coupons must come in, pay down \$1 each for three coupons and then go out and sell them. Before the three have done this one or perhaps all three get "cold feet" on the proposition and rather than go out and "soak" three of their friends \$1 each they simply give up the job and charge their loss to experience. But in doing so they also block the girl who purchased the first coupon from completing her contract and of course she, too, not being able to complete her contract loses the money she invested in the scheme.

At a glance, the loss appears to be small, but the truth is, the scheme is capable of such great expansion that it soon takes in hundreds and thousands of victims. For example, it would be impossible to expand the scheme two-

ty-two times for that would be more than there are people in the world. Think of an endless scheme which expanded twenty-two times, or on the twenty-second transaction would sell millions of dollars worth of hose. This is but one of many endless chain schemes in use today in the United States. -American Bankers Association Journal

### "WINDS OF CHANCE" FILM HIT OF SEASON

Presenting an accurate, virile and colorful romance of Alaska and its pioneer days, Frank Lloyd's "Winds of Chance" will be shown at the Haskell Theatre Monday and Tuesday.

It is one of the few pictures with the power to sweep one virtually off his feet. Moving along at a startling pace, this latest First National epic combines the elements of scenic beauty and spirited action without slackening its pace, and there are so many celebrities in the cast that the reviewer feels that he has been entertained by a club composed of stars only.

More than any picture it has been our pleasure to see in several years, "Winds of Chance" deserves the distinction of being an all-star production. It is. And all of the stars in it share about as equally as it is possible for so real a drama to divide the honors. Anna Q. Nilsson, Viola Dana, Ben Lyon and Victor McLaglen are the principal quartet in the picture, but there is very little to choose between their parts and those of Hobart Bosworth, Dorothy Sebastian, Claude Gillingwater, and others, all of whom support to a degree the four principal characters, but also share individual moments of histrionic triumph which are vitally essential to the plot's success.

Dyea, Chilkoot, Summit, Sheep Camp, Linderman, Dawson City, all of the famous points of interest along the old gold trail to the Klondike are graphically introduced, and Alaska is for the first time truthfully pictured on the screen.

"Winds of Chance" is justifiably one of the screen hits of the year and worth going a good ways to see.

### MEN -

Men are what women marry. They have two feet, two hands and some times two wives; but never more than one collar or one idea at a time.

Like Turkish cigarettes, men are all made of the same material; the only difference is that some are a little better disguised than others.

Generally speaking, they may be divided into three classes: husbands, bachelors and widowers. An eligible bachelor is a man of ordinary intellect surrounded by people. Husbands are of three varieties: police, surprises, and consolation prizes.

Making a husband out of a man is one of the highest plastic arts known to civilization. It requires science, sculpture, common sense, faith, hope and charity—especially charity.

It is a physiological marvel that a soft, fluffy, tender, violet-scented, sweet little thing like a woman should enjoy kissing a big, aw-sard, stubby-shinned, tobacco and bay rum scented thing like a man.

If you flatter a man it frightens him to death, and if you don't you bore him to death. If you permit him to make love to you he gets tired of you in the end, and if you don't he gets tired of you in the beginning.

If you believe him in everything you soon cease to interest him, and if you argue with him in everything, you soon cease to charm him if you believe all he tells you he thinks you are a fool; and if you don't, he thinks you are a cynic.

If you wear gay colors and rough and a startling hat, he hesitates to take you out; if you wear a little brown toque and a tailor made, he takes you out and stares all evening at a woman in gay colors, rough and a startling hat.

If you join him in his gayeries and approve him in his smoking, he swears that you are driving him to the devil; and if you don't approve of his smoking and urge him to give up his gayeries, he vows you are driving him to the devil. If you are the clinging vine type, he doubts whether you have a brain, and if you are a modern woman, he doubts whether you have a heart. If you are silly, he longs for a bright mate; and if you are brilliant and intellectual, he longs for a playmate. If you are popular with other men, he is jealous; and if you are not, he hesitates to marry a wallflower.

### MOTIONLESS MULE PUTS KICK IN SPOOK RANCH

The lazy mule of "Spook Ranch," the Universal-Jewel production playing Saturday at the Haskell Theatre, puts a lot of "kick" in the picture with out raising his heels.

Indeed, if the mule had been willing to raise his heels at the right time, the Bill Bangs Mining Company wouldn't have been broken. And if Bill hadn't been broke he wouldn't have been so hungry that he bit the Chinese lunch "counter" on the head with a plate, getting himself into all the trouble without which the story couldn't have been a movie.

So it is that the citizens of Haskell who will be laughing and thrilling over "Spook Ranch" must thank the mule for laying down in the first act. From the moment the animal decides to get tired, one thing leads to another with lightning speed until he finds the beautiful girl who is being persecuted by a blackmailing gang.

Then follows a scene which gives the picture one of its biggest thrills.

While he is interviewing the girl concerning the peculiar actions of the ranch, Bill notices that the girl is not selling him the truth. She is being threatened by guns being pointed through the portiers. He leaps at the spot, and in the following battle, is overpowered.

The ruffians force the girl to take them to the hidden mine and in the shaft of the mine occurs another even more thrilling fight with Bill dashing into the shaft and holding the entire gang at bay while the girl and her father make their escape from the mine. Gun play follows, and Bill holds the narrow exit while he sends his dusky aide to secure the sheriff's posse. Meanwhile, Don Ramies, outlaw leader has run off with the girl, and the picture approaches a whirlwind close when Bill races after the two on horse back.
