VOLUME 80 NUMBER 36

Owls Win Season Opener At Amherst

Bradley Brunson and Neal Edwards took turns running all over the Bulldogs as the Owls defeated Amherst 42-6 in the season opener last Friday night.

Silverton led by a 14-0 count at the midway mark but exploded in the final two periods to put up 28 points, 14 in each quarter.

Edwards ran in from 20 and 10 yards for the two first half touchdowns.

Amherst scored from 20 yards out to cut the lead to 14-6 early in the third period, but it was all Owls after that as Brunson scored from 10, 12 and 28 yards, and Edwards stuck another in from the 15. Wayne Henderson was successful on three of six PAT kicks.

As a result of his play in the game, Edwards was named Six-Man Player of the Week by the Amarillo Daily News this week. He was described as being the key to success for the Owls, as he rushed for 218 yards on 29 carries in the game. He also made nine tackles at his outside linebacker position.

Edwards had plenty of help in the win. In his first game at safety, Will Rowell intercepted the last two passes thrown his way, recovered a fumble and made seven tackles—not bad at all for an evening's work. This earned honorable mention for Rowell in the Player of the Week selection.

Silverton racked up 176 yards rushing and held Amherst to only 62 yards total offense. Amherst completed one of 10 passes for 10 yards and had two passes intercepted. The Owls amassed 18 first downs to just two for the Bulldogs.

The Owls will have their first home game Friday night when they host Bovina for a 7:30 p.m. kickoff.

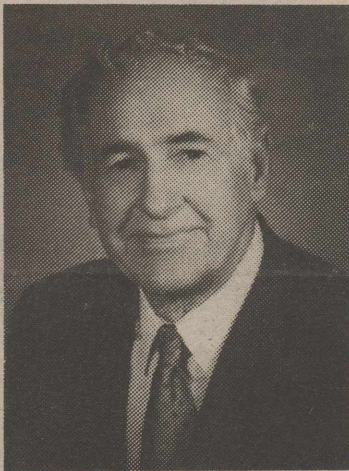

LAST WEEK'S RESULTS

Higgins 40, Three Way 22; Lefors 34, Patton Springs 18; McLean 20, Groom 12; Miami 1,

Texline 0 (forfeit).

THIS WEEK'S SCHEDULE

Lefors at Guthrie, Whitharral at Miami, Groom at Texline (to be forfeited to Groom), McLean, open, and Higgins at Lazbuddie at 3:00 p.m. Saturday.

George Martin

Martin Is Write-In Candidate for Judge

George Martin of Silverton is announcing his campaign as a Democratic write-in candidate for County Judge of Briscoe County subject to the General Election in November and is asking for your vote and influence.

Martin has lived in Briscoe County since 1928. He attended Rock Creek and Francis Schools and graduated from Silverton High School in 1937. He has attended Texas Tech in Lubbock.

During World War II, Martin was stationed in the South Pacific serving as Company Clerk for Division Headquarters of the 25th Infantry Division under command of General Douglas MacArthur.

Shortly after his honorable discharge in 1945, Martin became administrative officer for the ASCS office in Silverton. He later retired to engage in farming and ranching in Briscoe County.

"I am asking for your vote and your influence for me will be greatly appreciated," Martin said. "I am familiar with county government procedures and with the needs of the people of Briscoe County."

"I will do everything in my power to carry out my duties as

Improper Use, Disposal of Lawn, Garden Chemicals Causing Problems In Silverton

Lawn and garden chemicals can be a great benefit to growing a healthy lawn and garden when used according to label directions; however, when homeowners apply and dispose of the chemicals in an improper manner, they can cause serious damage.

One of the most recent problems seen in Silverton is the improper disposal of containers containing weed killers such as 2,4-D. The containers may appear to be empty when, in fact, they may still contain a small amount of chemical. When burned in your trash barrel the containers release the chemical into the air damaging or killing any trees or shrubs it drifts onto. Several cases of this have been reported this summer in Silverton. This prompts a reminder to be sure to follow label directions on the proper disposal of the containers and never burn them in the trash barrel.

Another problem is the improper application of the chemicals. Never apply more chemical than the label recommends. The attitude of, "if a little is good, twice that much will work twice as good" (the Rambo method), can result in the killing of trees, ornamental shrubs and even grass. It is also illegal and you could be held liable for killing your neighbors' trees.

A little common sense in applying lawn and garden chemicals will help you avoid problems. A few simple rules to follow are:

1. Always follow label direction when applying the chemicals. NEVER use more chemical than is recommended.
2. Remember that the weather makes a big difference in the effectiveness of the chemicals. This is especially true of herbicides. Weeds must be ACTIVELY GROWING with plenty of soil moisture or the chemical will not work well.
3. Special care should be taken when mixing and applying lawn and garden chemicals. Always

your next county judge.

"Time is limited, but I plan to contact as many of you as possible.

"Remember—this is a write-in campaign—so in order to make your vote count for me you need to write in George Martin.

"Thank you very much for your vote and support," he concluded.

wear rubber gloves and a pesticide mask and notify neighbors before you spray.

4. Never spray any chemical when the wind could cause it to drift.

5. Remember that when you apply chemicals around your lawn and garden, you're applying them at a per acre rate that is several times higher than the rate a farmer would apply in a field; therefore, the potential danger is much greater.

6. Control runoff water from treated areas. Never water your lawn to the extent that water runs off and onto a neighbor or into the street. The chemicals you have applied will run off with it.

If you have any questions concerning the proper use of lawn and garden chemicals and the disposal of containers, contact your local chemical dealer, County Extension Agent, or the Soil Conservation Service.

Public Hearings To Be Held

Two public hearings will be held in Silverton soon.

The first is a public hearing on the resubmission of the application for Texas Capital Funds for Briscoe County Processing, Inc. Judge Jimmy Ross says that Briscoe County Processing, Inc.

has asked for the hearing, and indicated that they are once again ready to proceed with the grant application.

This hearing will be held at 10:00 a.m. Monday, September 12, in the District Courtroom.

A public hearing for the adoption of a budget for Briscoe County for fiscal year 1989 will be here at 10:00 a.m. Monday, September 19, in the County Courtroom.

The proposed budget is available for public inspection in the County Clerk's office during regular business hours.

Booster Club To Sponsor Hamburger Supper

Silverton Booster Club will sponsor a hamburger supper before the football game Friday night. Serving will begin at 6:30 p.m.

The price will be \$2.50 for a hamburger, chips and a drink.

At 7:00 p.m. the 1988 Owls and their parents will be introduced. Plan to come early and enjoy supper and the game with the Booster Club.

Rattlesnake Killed At Davis Home

A rattlesnake was killed at the Mildred Davis home a few days ago, and this prompts a reminder that rattlesnakes can be found anywhere and are especially dangerous at this time of the year.

CRP Acreage Haying Period Is Extended

The final date to hay CRP acreage has been extended to September 30, 1988. A request must be filed at the ASCS office prior to haying; only 90% of a field may be hayed, and there will be a 25% reduction from your annual CRP annual payment for acres hayed (unless hay is donated).

All CRP acreages must be certified by September 15, 1988.

Contact the Briscoe County ASCS office for details.

CAPROCK COUNTRY TO PLAY FOR DANCE

Caprock Country will play for a dance at the Show Barn from 9:00 p.m. until 1:00 a.m. Saturday, September 10. The public is invited to attend.

Go
Owls!

First Place Class Beginning Tuesday

A new First Place Class will begin on Tuesday, September 13, at noon at First Baptist Church in Silverton.

All who are interested may call 823-2412 or 847-2524. You are invited to join this group.

OBITUARIES

LALLA BROWN

Funeral services for Miss Lalla Brown, 92, who made her home at 511 North Pierce in Amarillo, were conducted at 11:00 a.m. Saturday at the Buchanan Street United Methodist Church with the Rev. Beverly, Titus, pastor, officiating.

Burial followed at 3:00 p.m. Saturday in the Silverton Ceme-

tery, with arrangements directed by Blackburn-Shaw Memorial Chapel.

Miss Brown died Thursday of last week.

She was born in Briscoe County and was one of the ten children of the late Quinton E. and Cora (Montague) Brown. She was in the Womens Army Corps during World War II, and had lived in Amarillo since 1946. She was a Methodist and a member of the American Legion.

She was preceded in death by her brothers and sister, Lloyd Brown, Barney G. Brown, Reba Thomas, Herbert Brown, Printz Brown, Clarence Brown, Clinton Brown and Garland Brown.

Survivors include a sister, Althea Hutchison of Canyon, and several nieces and nephews.

The family requested that

Allsup's Graduates Silverton Manager

Fay Perkins has successfully completed Allsup's Store Manager Training Courses held at the company's home office in Clovis, New Mexico. The nine-day course includes instruction in customer relations, company policies, operational procedures, and management skills.

The entire training program represents an effort by Allsup's to provide better service to customers and prepare managers for a rewarding career in the convenience store industry.

Fay is manager of the Allsup's store at Main & Highway 86 in Silverton.

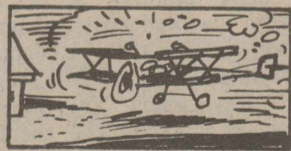

Allsup's Convenience Stores, Inc. is an equal opportunity employer.

Bill Self Undergoes Surgery in Big Spring

Bill Self of Abilene, a former Silverton resident and son of Mart and Sis Self, underwent surgery at the Big Spring Veterans Hospital Tuesday, September 17. He had a piece of shrapnel about 1 1/2" long, 3/4" wide and 1/2" thick removed from the area of his groin.

Thirty-eight years ago in Korea, a mortar round fell near Bill's legs while he was serving as a sergeant in the Marine Corps in the United Nation's action in that country. Hundreds of pieces of metal were blown into his body. Several operations were performed to remove as much of the material as possible. Some shrapnel was left, one piece of which is in his lung.

About six months ago, he began having difficulty in moving his right leg. An X-ray revealed that a piece of metal that for nearly 40 years had been embedded in his pelvic bone had become dislodged and was now "floating." This foreign object was now causing him to have some pain when walking. The surgery successfully removed the shrapnel and Bill can now walk a bit closer to magnets.

The first airplane purchased by the U.S. government was called the *Miss Columbia* and bought from the Wright brothers in 1909.

LEGAL NOTICE

The Commissioners Court of Briscoe County, Texas, will conduct a public hearing at 10:00 a.m. Monday, September 12, 1988, in the District Court Room, Briscoe County Courthouse, Silverton, Texas.

The hearing will be for the purpose of receiving public comment regarding resubmission of the application for Texas Capital Funds for Briscoe County Processing, Inc.

New Endorsement Standards

THIS IS THE BACK OF ANY CHECK

All Payee Endorsements MUST be contained in this area on the back of ALL checks.

This also includes ALL rubber stamps, handwriting, cash register generated information, etc.

NOTE: Rubber stamps from grocery stores, or any other retail stores must also restrict their information to this area.

IT'S MONEY IN YOUR HANDS!

The Federal Reserve Board has adopted endorsement standards for all financial institutions effective September 1, 1988. This will enable these institutions to more readily identify the depository institution (the institution where the item is deposited by the customer) to which the returned check or notice must be sent.

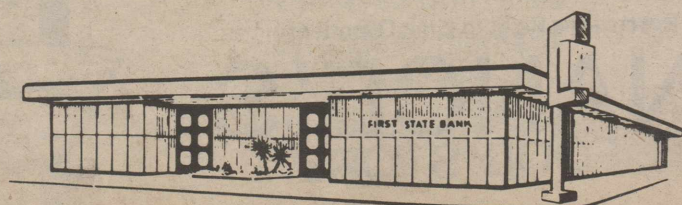

The area from the trailing edge of the check to 1.5 inches from the trailing edge is reserved for the depository institution's customer signature or endorsement stamp. (See illustration.) Does your endorsement stamp comply with these standards? The remainder of

the check is reserved for the endorsement of the depository institution and subsequent collecting financial institutions.

You should benefit from the faster return of checks if you protect the legibility of the depository institution's endorsement. Failure to follow these endorsement standards could result in your incurring a financial loss.

Should you have any questions, please contact your bank or financial institution.

First State Bank

Summer Was Cooler, Damper Than Normal

The weather across the Texas South Plains during the summer months of June, July and August was characterized by slightly cooler than normal temperatures with slightly above normal precipitation.

Temperatures averaged 0.9 degree below normal and ranged from 0.7 degree above normal at Lubbock to 2.3 degrees below normal at Lamesa.

Maximum temperatures averaged 1.9 degrees below normal and ranged from 1.1 degree above normal at Tahoka to 3.8 degrees below normal at Seminole. The highest temperature reported during the season was 111 at Paducah on June 9.

Minimum temperatures averaged exactly normal while ranging from 1.6 degrees above normal at Floydada to one degree below normal at Crosbyton. The lowest temperature of

the season was 45 on June 1 at Friona.

Silverton's average maximum temperature was 87.3 degrees and the average minimum was 62.8 degrees, giving an average monthly temperature of 75.1 degrees.

Precipitation was scattered throughout the season and despite below normal averages for June and August, the well-above normal July average caused the seasonal average to be 0.38 inch above normal. A large variation was evident with totals from as low as 3.76 inches at Big Spring to as high as 16.42 inches at Plainview. That total at Plainview was the highest above normal at 8.26 inches above whereas Crosbyton recorded the lowest below normal with 3.80 inches below.

Silverton's summer rainfall measured 12.03 inches, 3.22

inches above the 45-year average of 8.81 inches for June, July and August.

AUGUST

Silverton's average maximum temperature for August was 88.3 degrees, less than the South Plains average of 90.4. The average minimum temperature was 63.5, also coming in below the 65.2 South Plains average for overnight. This gave Silverton an average August temperature of 75.9, somewhat below the South Plains average of 77.8.

The total rainfall measured for Silverton by Fred Strange for August was 3.15 inches, 1.66 inches above the South Plains average. This was also .51 of an inch above the 45-year average rainfall of 2.64 inches.

South Plains precipitation was scattered throughout the month and averaged 0.98 inch below normal while ranging from 1.26 inches above normal at Plainview to 2.68 inches below normal at Abernathy.

Highest temperature reported during August was 103 at Tahoka and Paducah on the 9th and also at Paducah and Spur on the 10th.

Economic Plan To Be Discussed For Texas

A public hearing is scheduled for residents of this area to comment on the Strategic Plan for Texas' Economy at 1:00 p.m. Tuesday, September 20, at the Texas A&M Regional Research Center, 6500 Amarillo Boulevard West in Amarillo.

This Strategic Plan is a "blueprint" for the development and diversification of the Texas economy. It is being drafted by the Texas Strategic Economic Policy Commission, which is chaired by Governor William P. Clements and includes the Lieutenant Governor, Speaker of the

House and 15 civic leaders.

The Commission was formed by the 70th Legislature to develop a plan by January 1, 1989.

The first draft of this Strategic Plan is ready for public comment in a series of 20 public hearings across Texas.

You are invited to participate. Your advice and input are needed. Please attend this important hearing. This is an opportunity for you to contribute to rebuilding the Texas economy for the future.

Effort Continues to Get Disaster Payments

Briscoe County Judge Jimmy

Ross is continuing to work for disaster payments for area cotton farmers who were hailed out in 1987, but the prospects for accomplishing this are beginning to look dimmer than ever.

Judge Ross has written a letter to Attorney General Jim Mattox in which he asks him to consider a suit alleging that the Secretary of Agriculture has abused his discretion in failing to implement the payment program.

In the letter, Judge Ross reminded the Attorney General that without disaster payments many of the producers are having a difficult time staying in business. He wrote, "We feel this disaster in 1987 will have the same economic effect on our producers as the drouth of 1988 has had on many producers in other parts of the United States."

In short, Judge Ross said that he believes all producers should be treated the same and if payments are to be made to producers who lost their crops because of the drouth, they should also be made to producers who lost their crop because of hail.

Time to Enter Make-It-With-wool Contest

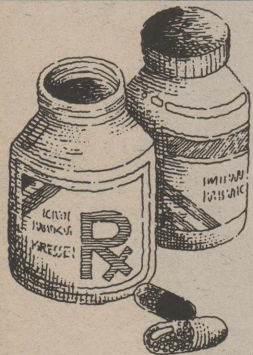

Youth and adult seamstresses are invited to enter a garment in the Make-It-Yourself-With-Wool contest sponsored annually by the Texas Sheep and Goat Raisers Auxiliary and the American Sheep Producers Council.

The district contest will be held on Saturday, October 22, in Plainview in the J. Lindsey Nunn Building on the Wayland Baptist University campus.

There are four age divisions for the contest: Pre-teen (13 and under), Junior (14-16), Senior (17-21), and Adult (over 21). Entrants select wool fabric and make and model their wool garment in the district competition. Winners advance to the state contest in College Station on December 3.

Last year Ashleigh Wyatt and Virginia Hardin entered this contest, and Ashleigh won her division at the district contest and placed fourth in state competition.

Entries are due to be received at least two weeks before the district contest. Entry forms are available from Lynda Fogerson at the County Extension Office or from Colleen Chadwick of the Hale County Extension Office at 293-8481, Ext. 269.

Neal and Dee Turner

Turner Brothers Win Trophies Playing Baseball in Lubbock

Neal and Dee Turner, sons of Doug and Karen Turner of Lubbock, grandsons of Mr. and Mrs. John Turner of Lockney and Mr. and Mrs. Rex Holt of Silverton, won trophies at the conclusion of their first summer of baseball activities.

Neal played softball for the first time with Lubbock Christian Athletic Association. He played on the Trinity Astros, and his team finished in second place and he received a trophy. He played basketball for the 4-5 grade team from Highland Baptist Church.

Dee played the first summer session of T-ball in the Lubbock Christian Athletic Association. His team was the Orioles, and he received a trophy for his partici-

pation. He also plays fall and spring soccer and played basketball for the Highland Baptist Church in the first and second grade basketball team.

Adult Clothing Construction Class To Begin Wed.

An adult clothing construction class will begin September 14 at 4:00 p.m. in the Silverton School Home Economics Department.

This is an educational program of the Texas Agricultural Extension Service, and the class will be taught by County Extension Agent Lynda Fogerson.

There is no charge for this basic sewing class, which is open to all county residents.

The class is limited to 10 participants with a minimum of six required to hold the class.

Call 823-2131, Ext. 12 to enroll. Advance enrollment is required.

Fair Entry Information Available At Extension Office

Adults or 4-H youth who want to enter textile items (needlework, sewing, arts and crafts) or baked goods in the Tri-State Fair in Amarillo or the South Plains Fair in Lubbock may call Lynda Fogerson at the County Extension office, 823-2131, ext. 12, for entry information.

Exhibiting food and clothing items in these area fairs would be an additional learning experience for 4-H members participating in food and nutrition and clothing projects.

Mrs. George Seaney and Mrs. Pascal Garrison visited George Seaney Wednesday of last week at the Care Center in Tulia, then went to be with the family of Mrs. Hattie Bradley and attended her funeral. Price and Hattie Bradley and George and Agnes Seaney were life-long friends. George and Hattie started to school together 80 years ago in Oklahoma. Both families came to the Plains the same year, 1924. The Seaneys rented land in Briscoe County and the Bradleys rented land just over the line into Swisher County. Both families had relatives living out here before they came.

Social Security In Briscoe County

BY TERRY J. CLEMENTS

Although the Social Security cash benefits program and the supplemental security income (SSI) program are administered by the Social Security Administration, the sources of funds required to finance the programs are entirely different.

The Social Security insurance programs are financed almost exclusively by a payroll tax levied against the earnings of workers in Social Security-covered employment, their employers and the self-employed. The taxes collected are intended to approximate Social Security expenditures; any excess is kept in trust funds and serve as a reserve. By law, these funds can be invested only in Federal securities.

The Social Security cash benefits programs, retirement and survivors insurance, and disability insurance have their own trust funds.

SSI provides benefits to needy people 65 and over or blind or disabled with low income and few resources. Unlike Social Security, eligibility for SSI is based on financial need. The program is financed through general revenue funds.

SSI provides a nationally uniform, standard benefit amount for individuals and couples; however, the amount actually paid varies in relation to any other income they may have, including Social Security benefits, and their living arrangements.

Shirts & Skirts To Have Dance September 10

Shirts & Skirts will dance and serve barbecue and all the trimmings Saturday night, September 10, at 7:00 p.m. in the home of Wayne and Billie Pearson, 709 S.E. Second (Silverton highway), Tulia.

This is the annual fund raiser for the club, and the cost will be \$5.00 per person. All area dancers are invited.

In case of rain, the activity will be moved to the VFW Hall.

Maines Brothers To Play For Dance

The Maines Brothers band will be playing Saturday, September 10, for a dance sponsored by Floyd County 4-H. The event will be at the Entertainment Building on the Fair Grounds in Lockney from 9:00 p.m. to 12:00 midnight. There will be an admission charge of \$5.00 per person.

Proceeds from this event will go toward supporting the 4-H Interstate Exchange Program in Floyd County.

Everyone is invited to attend.

People believe if you hang a string of onions in your house, you will be healthy.

PTA UPDATE

Initial response to membership enrollment in PTA this year has been good but we are still looking for many of you. We will have a table set up at the Bovina football game so that anyone who wishes can sign up then or send \$2 to Donna Francis, Route 1, Box 54-B, Silverton 79257.

Why do good schools result from lots of community involvement? What difference can your time make in our school? When Johnny Student sees you at the school giving your time he thinks, "That's Joe Smith from the station. I wonder why he's here. He must think what goes on here at school is important. If Joe cares about what we do at school, maybe it IS worthwhile. Maybe it's worth me trying a little harder."

Even though you may not have children or grandchildren enrolled in the Silverton School, you can be a Partner Taking Action. As a PTA member, you could be a first-day bus greeter. Each year on the first day of school, students arrive on the buses and

are sometimes new students, even kindergarten children. Wouldn't it be nice to find a friendly man or woman to greet them, help them find their classroom and see that they get settled in?

We need more people to help with reading programs, music education, hands-on science teaching materials. Many of the teachers need help cutting out, glueing and making teaching materials. We need people experienced in yard and garden care in this area to help advise us as we plan the outdoor education project. **WE NEED YOU!** But nothing is actually expected of you as a member. If you join as a show of support, we will appreciate it and your dues greatly.

Everyone in the community is welcome to our first program September 20 at 7:00 p.m. at the school when we will be having Open House.

Not only does an involved community make a good school, but a good school can make a better community, one more

attractive to new residents or better able to retain current ones. It's a good trade-off, Partners. Let's Take Action.

Pork Referendum Vote Is Today

Pork producers in Briscoe County still have an opportunity to vote in a special referendum today (Thursday) as authorized by the Pork Promotion, Research and Consumer Information Act of 1985. This voting has been taking place since yesterday, September 7, and will continue until closing of business today.

Purpose of the referendum is to determine the continuance of the 100 percent checkoff program which provides funds for pork research and promotion to enhance the pork industry. The checkoff is at the rate of 25 cents per \$100 on all hogs and pigs as well as on all imported hogs and pork products.

The voting will be held at the County Extension Office during normal business hours.

4-H Happenings

A county-wide 4-H Family Swim Party was held Tuesday night, August 30, at the Silverton Pool with approximately 100 4-H'ers, parents and leaders attending.

Three Silverton clubs elected officers for the coming year, and the Adult Leaders Association met to plan fall activities. The annual 4-H achievement banquet was set for October 15; the 4-H fund-raising pig sale will be November 3. National 4-H Week is October 2-8 and activities will be planned by clubs during this time.

All 4-H members who participated in projects during the 1987-88 club year are reminded to turn in a completed 4-H Project Record Form for each project in order to receive a year pin and recognition for that project at the banquet. Record forms are due by September 15, in the County Extension Office in the Courthouse. 4-H'ers needing a form may pick one up from the Extension Office.

4-H Leader Forum

The South Plains 4-H Leader Forum and Council meeting will be held Saturday, September 10, at Texas Tech University in Lubbock. All parents and leaders are invited to attend. Cost for a catered lunch, program expenses and speakers is \$8.00 per person.

Leaders may select two workshops to attend from the following: Developing a Champion (livestock project), Record Keeping—Beginning, Record Keeping—Advanced, Scholarships, Club Manager Training, The "Real" Parent-Leader Association.

The District Adult Leaders Association and District 4-H Council will have their semi-annual meeting. County delegates to these associations will participate.

Jerry Kunkle of Amarillo will be the keynote speaker to conclude the day's program. He is a noted inspirational speaker and entertainer.

Teen 4-H'ers have an opportunity to attend a program by The Esteem Machine from Midland. This is a group of teenagers who do role plays about current problems of teenagers on suicide, drugs, peer pressure, sex, alcohol and other concerns of youth.

Adult leaders or teens who plan to attend this forum need to bring \$8.00 per person to the County Extension Office by September 8 (today). The program will conclude by 2:30 p.m. on Saturday.

Alaska—America's largest state, twice the size of Texas—has fewer people than any other state.

The term *drawing room* is a shortening of the word *withdrawing*, for the room to which guests withdrew.

Cleveland Is New Coach at Dumas

Kevin Cleveland, a two-time All-State player at Dimmitt and a former Wayland Baptist Pioneer, is the head basketball coach at Dumas High School.

Only 23, Cleveland has been associated with basketball his entire life. He is the son of Kenneth Cleveland, who has directed the Dimmitt Bobcats for 28 seasons.

The new Demon basketball coach took Silverton to the play-offs in his first year of coaching last season.

During his high school career, Cleveland was an all-district performer four years and made all-state twice.

Salt-Free Cookery

Tame Your Tot's Taste For Salt

Taste: It begins at birth. Our famous "sweet tooth," for instance, is not learned or developed—we arrive with it. However, the initial response to salt is different. Newborns are actually neutral to saltiness—they can take it or leave it. So why not get your youngsters off to a healthy start in life by limiting the amount of salt they get in their daily diet?

Some tips to try:

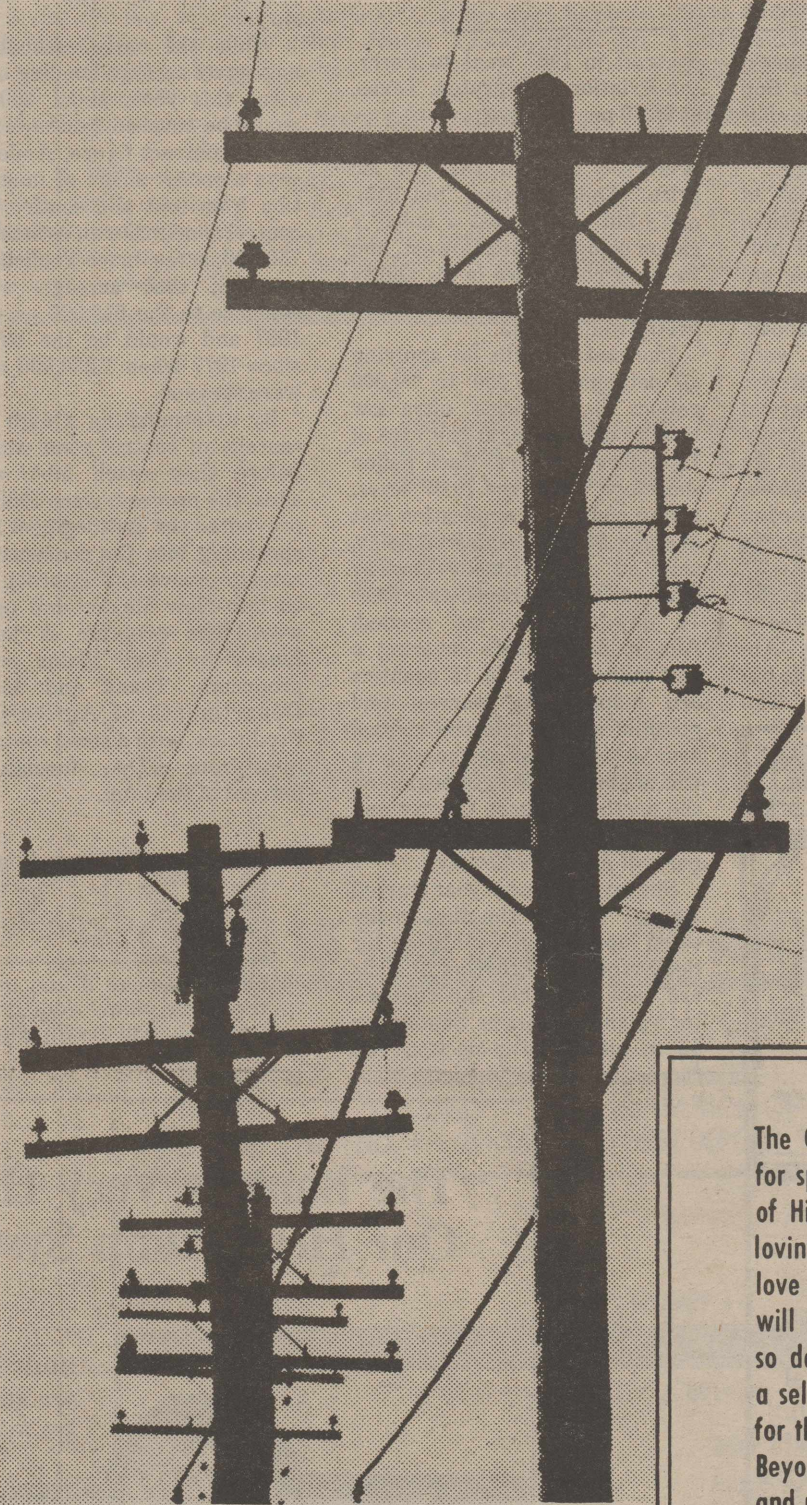

- Remove the salt shaker from the table and cook without salt.
- Serve low-salt, low-fat foods such as fish, chicken, pasta, vegetables and home-made soups.
- Counteract boring meals by increasing flavor with citrus juices, peels, aromatics, herbs and spices like Mrs. Dash Lemon & Herb. It's a salt-free seasoning that's a savory blend of 14 natural herbs and spices. It enhances the delicate flavor of those healthy lighter foods such as vegetables, pasta, fish and chicken.
- Serve water with meals rather than soft drinks. Heavily sweetened soft drinks will dull the taste buds and also contain surprisingly high amounts of sodium.

LEGAL NOTICE

Notice is hereby given to the Texas Alcoholic Beverage Commission, Austin, Texas, that an unincorporated Association of Persons has applied for a Private Club Registration Permit to be located at INT S/W Corner HWY 86 and FM 378, Silverton (Not in City), Briscoe County, Texas. Said private club to be operated under the name of Rock Creek Country Club. The officers are as follows: Bufford Garland Johnston, President; Cordie Mae Johnston, Secretary/Treasurer.

COMMUNICATION

Telephone lines spread across our nation, giving us immediate contact with loved ones. Vital business is rapidly contracted through this medium.

Our linkage to God is prayer. Through prayer we can express our love, our thanks, and seek God's help.

"Hearken unto the voice of my cry, my King, and my God: for unto thee will I pray."

Attend church, join others in fellowship and prayer to God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

The contract for aerial spraying in the 1988 High Plains Boll Weevil Control Program has been awarded to Kimmel Aviation of Greenwood, Mississippi.

Kimmel submitted a bid of \$5.94 per gallon of insecticide, the lowest of three sealed bids opened September 1 by program officials at the offices of Plains Cotton Growers, Inc., Lubbock. Forty aerial applicators were invited to bid on the contract. PCG, father of the 25-year-old weevil suppression effort, conducts the program through its Boll Weevil Steering Committee, currently chaired by Borden County farmer Jarrell Edwards of Route 1, O'Donnell.

Edwards was unavailable for comment, but PCG's weevil program manager Johnny Anderson said he considered the bid satisfactory on all counts. The

contract in 1987 went to Perryton Aviation of Perryton, Texas, at \$5.09 per gallon.

"Obviously we would have preferred to hold the line on price," Anderson said, "but Kimmel's bid was almost a dollar a gallon below the next lowest, and we have confidence in his ability to perform, so all in all we're pretty well pleased."

The contract calls for applying an estimated 50,000 to 60,000 gallons of insecticide, ultra low volume malathion, at the rate of 12 ounces per acre. Each gallon therefore will cover 10.67 acres, giving a per-acre application cost of about 56 cents. Infested fields, selected from weekly survey data, are to be sprayed on a 10 to 14 day schedule as needed. Almost 4,000 fields covering a half million acres in 15 counties are mapped for survey and possible spraying in the control zone, which lies along the eastern rim of the Caprock. It begins on the north in Briscoe County and curls around the south end to parts of Andrews County.

Surveying for this year started August 29 and the first malathion application is slated for September 19. Program officials are requiring that the contractor's planes report on September 15 to allow for inspection and correction of any defects. Kim-

mel expects to use some of his own planes, but says a majority of the work will be sublet to pilots and aircraft from the High Plains area. Twelve planes are to report to the Spur Airport for the initial work, and will be supplemented by four more planes at a later date if necessary.

While the early estimate of aggregate acreage needing treatment this year, about 600,000, would be covered by the 60,000-gallon contract figure, Anderson says a recent surge of in-migration from east and south of the control zone make an estimate of 750,000 acres more realistic. If reached, that acreage would compare to the 615,000 acres of 1987 and would be the largest since 1977 when 1,250,000 acres were sprayed.

By exterminating a high percentage of control zone weevils before they reach hibernation sites, the program since 1963 has prevented the dreaded pest from spreading into the concentrated acreage above the Caprock and on into New Mexico and points west. The program is jointly funded by High Plains cotton producers, Texas and U. S. Departments of Agriculture. Producers, with a small contribution from TDA, furnish 70 percent of the total.

LETTER TO THE EDITOR

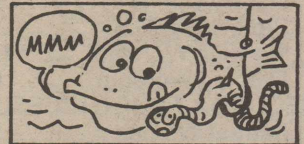

Dear Editor,

Please enter my subscription for one year to your most interesting paper. I have enclosed a check for \$12.50. The Thursday, August 18, 1988, edition was and is a most interesting paper, just like getting a letter from home, or attending a family reunion. Very interesting even tho it has been some fifty years since I lived in Briscoe County. So many old acquaintances mentioned, made me "homesick" to read it.

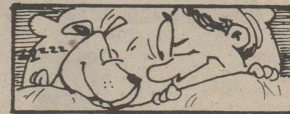

Do you have any idea how long there has been a "Briscoe County News"?

Thank you,
Evelyn Tucker

[Ed. Note: The numbering of volumes [years] of the Briscoe County News is now at 80—indicating an 80-year history of the newspaper. A newspaper was begun in Silverton early in the 1890s, and has been published under several names, including Silverton Light and Silverton Signal.]

A marine catfish can taste with any part of its body.

People believe if you use the same pillow your dog uses, you will dream what he dreams.

Rabbits don't perspire. Neither do guinea pigs.

GARLIC OIL

With Parsley and Chlorophyll

Garlic contains potassium, phosphorous, a significant amount of B and C vitamins, as well as calcium and protein. It's generally accepted that garlic acts as a diuretic, stimulant, expectorant, and sweat promoter. For centuries, it has been a common European remedy for colds, coughs and sore throats. European physicians have reported that garlic has two outstanding medical properties. One is that it tends to open up blood vessels and reduce blood pressure in hypertensive patients. The other property is antibiotic, and several researchers have found that garlic in large amounts can be effective against bacteria that may be resistant to other antibiotics. The addition of parsley and chlorophyll helps remove the aroma of this natural herb wonder, leaving no after-taste or bad breath. Contains no preservatives, no artificial color or flavor, no sugar and no starch.
