Price Ceilings Are Put On Canned Foods

Midland Interest Focused On Well Northwest Of City

By Frank Gardner Oil Editor

Interest in this sector Saturday was focused on a wildcat prospect in Southeastern Andrews County seven miles north of the Midland County line and about 18 miles northwest of the city of Midland.

The test is the Texas Pacific Coal & Oil Company of Fort Worth and Seaboard Oil Corporation of Delaware No. 1-D Midland Farms Company in the center of the northwest quarter of the southwest quarter of section 48, block 40, township 2 north, G. & M. B. & A. survey.

Operators were scheduled Saturday to start drilling with cable tools into the expected oil zone. The well is bottomed at 4,653 feet in lime where 7-inch casing is cemented. Plug was drilled before rotary was moved off. Following installation of the spud bit, hole was bailed dry of rotary drilling mud.

The chief importance of No. 1-D Midland Farms is because of its proximity to Midland. It will, if production is attained, precipitate a drilling campaign on an entirely new trend, through the Midland basin. No. 1-D is considerably higher on structure than the same partnership's No. 1-A Midland Farms, failure drilled several years ago which showed oil and gas in promising quantities.

Ralph Anhydrite High

Magnolia Petroleum Company No. 1-11-37 B. B. Ralph, one-half mile west and slightly south of Fullerton Oil Company No. 1 H. M. Wilson, deep Permian (Leonard series) discovery producer in Northwestern Andrews County, was 23 feet higher on the anhydrite marker than the pool opener. It was revealed Saturday. The Magnolia outpost topped anhydrite at 1,680 feet, datum of plus 1,713. It is drilling ahead below 2,300 feet in anhydrite and salt.

Fullerton No. 2 Wilson, west offset to the discovery, is drilling below 2,800 feet in anhydrite, while the firm's No. 3 Wilson, a north offset, is drilling past 1,560 feet in red rock.

Mascho Oil Company, headed by James A. Mascho of Midland, No. 1 Sun-University, Southern Andrews wildcat two miles northwest of the Emma pool, is building Derrick Cross & Johnson of Odessa are contractors on the project.

Seaboard No. 3 M. A. Townerberry, one mile north and slightly east of the West Fuhrman pool in Andrews, is shut down for water at 1,378 feet in red beds. A third water-well is being drilled.

Fred Postelle No. 1 M. S. Doss, Southeastern Gaines County wildcat southwest of the H. D. Mackenzie Lake, last was reported drilling at 4,090 feet in anhydrite and potash. Its anhydrite top of 2,450 feet, datum of plus 668, is said to be 177 to 187 feet lower than the old Carter No. 1 Giesbeck, dry hole six miles to the south.

Stanzell Oil & Gas Company No. 12 American Warehouse Company, in the Cedar Lake pool of North-eastern Gaines, was completed on swab for daily potential of 633.76 barrels of 33-gravity oil and gas-oil ratio of 145-1. It topped pay at 4,596 feet, drilled to 4,745 and was shot with 720 quarts.

Ray A. Albaugh of Lamesa and Richmond Drilling Company of Midland No. 1 Mrs. Katherine Weaver Rose, Dawson County wildcat west of Lamesa, is drilling past 4,445 feet in lime and anhydrite.

WASHINGTON (AP)—The government clamped price ceilings on 25 canned fruits and vegetables Saturday in the first application of such regulations to any food other than sugar.

Announcing simultaneously further details of sugar rationing plans, the Office of Price Administration said ration books would be denied persons having more than two months' supply.

The OPA's canned goods order forbade canners and wholesalers to charge more for a selected list of items than the highest price they received in the period between February 23 and February 27.

Dealers Responsible

Dealers will be responsible for stabilizing their own prices. Administrator Leon Henderson declared, adding that "should this responsibility prove too much, OPA will take steps to control prices at the retail source."

Blanketed under the ceiling, effective Monday, were canned apples, applesauce, apricots, cherries, fruit cocktail, fruit salad, peaches, pears, pineapples, plums, asparagus, all dried beans, lima beans, snap beans, beet, carrots, corn, peas, pumpkins, sauerkraut, spinach, sweet potatoes, tomatoes, tomato juice and tomato catsup.

Henderson said the action, to be superceded within 60 days by a permanent price schedule, was necessary to halt speculation, profiteering and price increases which since last August have amounted to about 20 per cent at the canners' level, and about 10 per cent at the retail level.

Supplies Are Adequate

At the same time, Henderson cautioned housewives against hoarding canned goods, declaring present supplies were adequate for "reasonable consumer needs" despite heavy demands of the armed services and lend-lease requirements.

OPA announced a registration for sugar rationing books would be held during a four-day period late in March. No ration book will be issued to a person possessing a supply of sugar equivalent to more than eight weeks' supply.

Although OPA has tentatively placed the allotment per person at 12 ounces a week, it is understood this figure possibly is subject to downward revision.

Desperate Nazi Attempts To Save Army Frustrated

Russians Shoot Down Big Supply And Troop Planes Of Germans

MOSCOW (AP)—Desperate Nazi attempts to save the trapped Sixth Army by rushing up air-ferried reinforcements drawn from the spring offensive reserve have been frustrated by Russian anti-aircraft gunners and fighter planes, dispatches from the Stavka Russia front declared Saturday night.

They reported shooting down big German supply and troop planes and capturing prisoners who said they were sent to the front from camp in Germany where they were being trained for the spring drive.

Southwest of Moscow, on the front extending through the Donets Basin and into the Crimea, the Germans were reported lashing out fiercely in counter attacks possibly intended to divert the strong Russian pressure in the Northwest.

Wide Out Germans

The Red Army acknowledged that at one place on the Southern front the Germans drove a wedge four miles wide and six miles deep into the Russian line, but said Russian counter measures straightened the front and wiped out the assault force.

On another part of the same front 900 Germans were reported killed in a one-day fight.

On the Southwest front the Germans were said to have attempted six successive counter attacks. These were reported beaten back with heavy losses to the Germans.

Dispatches from the Central front West of Moscow also mentioned German counter thrusts but said they failed and that the Germans left 550 dead on a single battlefield.

The Red Army reported successful use of tanks despite snow-covered fields.

Red Star, mouthpiece of the Army, said the Germans were losing men at the rate of a million a month, killed, captured and wounded.

Torpedo Blasts Tanker Off New Jersey Coast

The Standard Oil Co. tanker R. P. Reese torpedoed by an enemy submarine off Asbury Park, N. J., burns furiously as the sinking vessel washes over ships' middle. Loss of life was feared to be very heavy. (Credit: U. S. Army Air Corps from NEA Telephoto)

Invasion Hordes Run Gantlet Of Allies' Fleet And Air Corps

Americans, Dutch And Australians Battle To Hold Island As Ships Land Jap Troops At Two Points

By The Associated Press

BATAVIA, Java—Japanese invasion hordes running the gantlet of the Allied Nations' Southwest Pacific Fleet and Air Corps landed early Sunday in Western and Middle Java, last island bastion of the Allies in the Netherlands Indies, and immediately came to battle with defending American, Dutch and Australian forces.

The first Japanese troops, part of a massive invasion force borne by transports, landed in Northwest Bantam Province, opposite Japanese-occupied Sumatra, and in Indramaju Bay, on the North Central Coasts.

These thrusts, flanking Batavia, were followed by additional landings on an extensive front along the North Coast about 19 miles east of Rembang, which is some 90 miles northwest of the naval base of Soerabaya.

Allies Battle Invaders

The forces taking part in the Bantam landing were heavily engaged by United Nations naval units.

Two other sections of the landing fleet were attacked overnight by Allied aircraft and it was announced officially that losses were inflicted upon the enemy.

"These bombing attacks are still proceeding," the official announcement said.

The Dutch announcement said news was lacking immediately on the results of the naval battle off Bantam.

The Batavia correspondent of the official Aneta News Agency departed immediately "for the front," indicating, the agency said, that vis-

(See WARFARE, Page Three)

American Navy Defeats Japs

WASHINGTON (AP)—The Navy announced late Saturday an 8,500-ton Japanese cruiser and three enemy destroyers were put out of action in the Battle of Java, and added that American submarines in the Western Pacific were believed to have sunk five other enemy vessels in earlier fighting.

The Japanese cruiser was identified as the Mogami, a warship of a type which carries a complement of 800.

The Navy said "none of our vessels suffered heavy damage in the initial phase of this battle for Java, and our forces are still intact despite the overwhelming superiority in numbers of the enemy naval forces."

Sink Other Ships

In addition to the victory over the Japanese cruiser and three destroyers accounted for Friday, the Navy said these vessels were "believed sunk" by submarines.

"One large ship" torpedoed twice on Feb. 23, one "large enemy auxiliary vessel" torpedoed twice on Feb. 24, an enemy transport and a ship of type unknown each hit by a torpedo on Feb. 25, on a date unknown, a torpedo hit on an enemy transport.

The enemy forces in the Java battle, the Navy said, consisted of a superior group of combatant vessels covering 40 transports.

American forces participating with Dutch, British and Australian units in the action Friday, were described as one heavy cruiser and five destroyers, none named.

Short And Kimmel Ordered To Stand Courts Martial

WASHINGTON (AP)—Major General Walter C. Short and Rear Admiral Husband E. Kimmel were ordered Saturday to stand trial by courts martial on the charge of "dereliction of duty" for failing to take proper safeguards against a surprise Japanese attack on Pearl Harbor.

Until the trials are held, possibly after the war, the former Army and Navy commanders of the Hawaiian defenses were permitted to retire to civil life on the regulation retired pay of \$6,000 a year for officers of their rank.

The long-studied decision that they should face trial was announced in almost identical statements by Secretary of War Stimson and Secretary Knox of the Navy, which bore the approval of President Roosevelt.

The statement that the trials would be delayed "until such time as the public interest and safety would permit" suggested no early airing was likely, under war conditions.

The charge of "dereliction of duty" was made by the Roberts Inquiry Commission and preparations for the court martial trials were ordered on the basis of the findings of the group headed by Associate Justice Owen J. Roberts of the Supreme Court.

Two Councilmen To Be Elected April 7

A city election will be held April 7 to elect two councilmen. The terms of Paul M. Margue and B. R. Greathouse expire.

Councilmen are elected for two-year terms, with one group coming up for election each year. Other members of the city council are Mayor Marvin C. Ulmer and Councilmen Ralph M. Barron, D. H. Roetzger and Tom Sealy.

Mrs. C. E. Adams Hurt In Automobile Mishap

Mrs. C. E. Adams, wife of Sergeant C. E. Adams of Midland Army Flying School, suffered head lacerations and other injuries when the car which she was driving overturned a mile from Midland on the old Odessa highway Saturday night.

The Adams' little son who was riding in the automobile was not injured.

Junior Livestock Show Plans Made; Prospects Bright

Midland's finest Junior Livestock Show is fast shaping up, and local leaders will go out Monday to complete the prize lists, and arrange other final details. The show will be held March 30 and 31, and more than 75 Midland County youths have been grooming stock for the annual event.

Prize monies for the several divisions were set up Saturday for calves, lambs, hogs and heifers.

Meeting Saturday to complete the setup, and to announce the progress of the show plans today, E. H. Barron, George Glass, Linton Brunson, A. B. Bohannon, Jess C. Miles, Forest King, P. G. Bridgewater, Bill Collyins, Ira O. Sturkie, and Harlan Howell discussed details of show operations. Barron was named chairman of the group, Sturkie, secretary, and Collyins and Howell were expected to direct the publicity for the event.

Forest King, George Glass and Andrew Faskin were named to see cattlemen regarding prize setups; and chamber of commerce president, Ralph Barron was asked to name a committee from that organization to see business establishments of the city regarding prizes.

M. G. McConnell of Kermit was named as auctioneer for the sale of the livestock on exhibition; George W. Barnes of Texas A&M College was named judge of calves; and T. L. Leach of Texas Tech College was named judge of sheep and hogs.

All animals shown will go on sale in the afternoon following the judging in the forenoon, and with demands what they are the sale is expected to yield the young stockmen good returns.

Prizes in the calf divisions, both senior and junior, will be made to the 15 leaders, and a blue ribbon rosette for the grand champion. There will be 15 prizes for lambs, and a blue ribbon rosette; a range of 15 prizes for pigs; and five prizes for Hereford heifers and five for the shorthorn heifers.

Bombs Will Rain On West Texas 20 Hours Per Day

Flying and bombing by cadets will start Monday from the Midland Army Flying School. Lieutenant Colonel John P. Kenny, director of training, announced Saturday.

"The first class of the Midland Army Flying School has been groomed by ground school training and now is ready to take the air and to commence the actual work for which all its training has prepared it," he said. "Next week we will drop our first bombs in actual schooling."

On the flying line the sleek new AT-11 advanced training planes have been supplemented by the grim, war-painted B-18's, to assist the newer and smaller advanced trainers in turning out this first class of bombardiers in record time. The B-18 is a large Douglas-built bomber which has done good service in actual combat against the Japanese, and now is being retired for newer, faster and more powerful bombers. Bombardiers prefer them to the newer AT-11's because of the steady sighting platform, made possible by the great weight and size of the B-18.

Captain Kenneth A. Mack, in command of the 437th Ordnance Company, responsible for the loading and delivery of the bombs to the flying line, has said "All Ready!"

"We have all the bombs needed, and our organization is ready to deliver them as ordered. We are ready to keep the boys going."

Flying is scheduled for 20 hours per day, and it was said, unofficially, that more than 1,000 bombs will be dropped daily, as the young bombardiers train to hit the mark.

John M. King Enters Race From Prairie Lee For Commission

John M. King, Jr., of the Prairie Lee community, announced Saturday that he would be a candidate for County Commissioner, from Precinct No. 2.

King is a son of a former county commissioner, John M. King, Sr., who served the county for many years from the Prairie Lee area.

Born and reared and educated in Midland County, King feels that he is acquainted with the conditions and needs of the area, and able to offer a good service.

He is married and he and his family live on a farm in the Prairie Lee sector. He had been in Midland several years with the Burton Lingo Lumber Company, but last year began the development of a farm.

Forty-Five Boys And Girls Will Enter Stock In Garden City Show

Twenty-four calves and 70 lambs are entered in the fifth annual Glascock County Livestock Show, which will be held at Garden City Tuesday, March 3. Defense Savings Stamps, to a value of \$152.50, have been posted for the prize winners. Nineteen 4-H boys, two 4-H girls and 22 4-H boys have entered stock.

"On to Garden City" is the slogan adopted by the Midland Chamber of Commerce, in making plans for a large delegation to attend the annual Glascock County show. President Ralph M. Barron of the organization has named a special committee to roundup Midland merchants to take a large delegation to Garden City. The roundup committee members are J. P. Butler, P. J. Mims, T. Paul Barron, J. C. Smith, Paul A. Nelson, and Fred Fromhold. Calls will be made Monday.

Following the judging, which will begin promptly at 10 o'clock Tuesday morning, there will be a free barbecue served to visitors. After the barbecue the stock show by the boys and girls will go on auction, at the high school gymnasium building.

E. J. Hughes, Bill Reed, and Foster Conger, all of Sterling City, will judge the fat lambs, breeding cat-tles, and horses. Ira O. Sturkie, Midland, will judge the boys' fat calves. Boys and girls exhibiting fat

Light Rain Lends Hope Dry Spell Is Broken

A light rain was falling early Sunday morning, after a Saturday of intermittent mists and winds, offering some promise that needed rain may materialize in the area.

Generally warm weather, with cloudy areas, added to hopes of showers that showers soon might be expected.

DALLAS REDUCES WEST TEXAS BUYING

DALLAS (AP)—The Magnolia Pipe Line Company announced Saturday it had joined other West Texas crude oil purchasers in a reduced buying schedule. Starting at 7 a. m. Sunday, Magnolia's take will be held to 60 per cent of the allowable, the reduction to be spread over fields in Ector, Cochran, Gaines, Ward, Winkler and Hockley counties. The same reduction will apply to the Vacuum field in New Mexico.

Second Bombardier Class At Midland Army Flying School

Ground school training ended Saturday for the first class of bombardiers at the Midland Army Flying School, and the second, Class of 42-7, arrived at the field Friday night. More than 100 men are in each class.

The class of 42-7 was issued uniforms, equipment and gear, and assigned to quarters Saturday. Then the men were attached to the several organizations. Monday morning they will be greeted by Colonel J. Davies, commanding officer, in a short address at a program at the cadet headquarters.

Under the speed-up program, the cadets complete their ground course in a period of two to three weeks, and are then started in the actual bomb-dropping training. So, as the new ground class goes into its training, the first class will take up its bombing practice and training.

Ground school cadets have a strenuous daily training program, for they are up at 6 o'clock and have a continuous routine, with time out for meals only, right on through till 10 o'clock, bedtime.

Arch M. Stanley Has Entered Race County Commissioner's Post

Seeking place as commissioner of Precinct No. 1 in Midland County, Arch M. Stanley, a farmer and taxpayer of Midland County is asking the consideration of the voters of Precinct No. 1 as commissioner.

He has served as director of the Farmers Co-Op Oil Society for 10 years and has also served the ranchers and farmers as county committeeman on the Triple A program for three years. He has reared a family of nine children, three of them having graduated from the high school of Midland.

"I believe I am qualified for the position and if elected will do my best to take care of county affairs," Stanley said. "I wish to thank the voters for their support in 1940, placing me second place of four contestants."

Sheriff And Bystander Killed In Gas Blast

ST. JOHNS, Ariz. (AP)—Sheriff John Nunn and another bystander were killed late Saturday when a truck loaded with butane gas exploded in the entrance to Whiting Bros. N. R. Link is secretary-treasurer of the show; and Berry Duff, county agent, is general superintendent.

Two Have Filed For School Board Posts

Election of two board members of the Midland Independent School District will be held April 4, it was announced Saturday. Terms of Mrs. Fannie Boss Sivals and N. B. Lash are expiring and both will seek re-election.

The board has seven members. Members include L. C. Link, president, Chas. D. Vertrees, secretary, and Percy Bridgewater, Hamilton McBee and Russell C. Conkling, and Mrs. Sivals and Lash.

Old Man Texas Will Be 106 On Monday

WASHINGTON—ON—THE-BRAZOS—Old Man Texas will be 106 Monday.

Here on the historic spot where the Texas Republic came into existence hundreds of patriots will celebrate its birthday Monday with an independence program honoring the memory of Lorenzo de Zavala, one of the signers of the Declaration of Independence.

Gov. Coke Stevenson will be the principal speaker.

Crane Wins Regional Title

Crane took the regional basketball title Saturday night by defeating Cross Plains, 25 to 20.

WAR BULLETINS

TOKYO. (From Japanese Broadcasts)—(AP)—The newspaper Nichi Nichi warned Sunday of the possibility of a United States attack upon Japan from the Aleutian Islands.

LONDON.—(AP)—Fighter-escorted British Blenheim bombers blasted docks at Ostend, on the Belgian Coast opposite Dover, Saturday afternoon, the Air Ministry announced. Three RAF fighters were lost.

BANDOENG, Java.—(AP)—The staff of the American consulate general burned its files in Batavia, preparatory to leaving. All American correspondents were advised to leave the Indies capital.

BANDOENG, Java.—(By Trans-Pacific Telephone to New York)—(AP)—Powerful Japanese invasion forces battled their way past the blazing guns of outnumbered United Nations warships in the Java Sea overnight and landed in the face of furious Allied resistance at three places along the northern coast of Java.

IF WE HAVE FAITH TO TRY GREAT TASKS:
I can do all things through him that strengtheneth me.—Phil 4:13.

A 'Good Neighbor' Policy

The Axis is getting the economic hot-foot these days the South American way. And for once "Yankee imperialism," to borrow a term from our none-too-pure past, works for the benefit of the United States and our sister republics to the south.

Loud protests roared from the Straits of Magellan to the Canadian border with publication of the list, naming names and calling out companies upon which the United States asked the other nations to turn a cold business shoulder.

We were accused of reviving "dollar diplomacy," that curse of the past by which we—often with the help of a few strategically placed machine guns—forced our Central and South American neighbors to do business with us and our way or else.

This time, however, we really played the part of the good neighbor. That blacklist blasted the way for important gains through the enemy economic lines, and put money in the none too crowded treasuries of South America.

Since publication of the list, 200 blacklisted firms have bit the economic dust in Mexico, 18 have gone bankrupt in Cuba and similar encouraging reports come from other countries. South Americans firms get most of this business once hogged by German, Italian or Japanese companies.

Naturally the dollar side of this appeals. And it should. It is almost as important that we put the enemy out of the airline, banking, motion picture and steel business as it is that we should score military victories.

Best of all, however, we are proving to ourselves, to Latin America and to others who care to listen that the United States can wield economic weapons in the interest of our neighbors as well as ourselves. That alone makes the whole thing worthwhile in view of our past policies south of the border.

Buy Defense Bonds and Savings Stamps

We Believe The President

Radio Tokyo, in a blast at President Roosevelt's Feb. 23 address:

"Every American is aware now of the fictitious character of Knox's Pearl Harbor report."

President Roosevelt in his talk to the nation: "To pass from the realm of rumor and poison to the field of facts: The number of our officers and men killed in the attack on Pearl Harbor on Dec. 7 was 2340 and the number wounded was 946. Of all the combatant ships based on Pearl Harbor—battleships, heavy cruisers, light cruisers, aircraft carrier, destroyers and submarines—only three were permanently put out of commission."

The Jap propagandists say the Knox report was fictitious. Our President says it was true. We choose to believe the President.

Buy Defense Bonds and Savings Stamps

Stop The Stoppage!

An American aviator in Java was quoted by press associations as saying the United Nations would win the battle for the Dutch East Indies "if we only had 200 planes." Maybe they will get them, but if they don't that is one of the saddest stories of the war.

The Allies have been too late with too little too many times. Of course, many factors—some valid, some stupid—cause this, but nobody can get around the fact that "too little" means the war implements just weren't produced. One reason they are not being produced is that in January—the month after Pearl Harbor and Wake Island—43 strikes in war-production plants tied up 15,512 workers for a loss of 661,976 man-hours, or enough to build four 170-foot submarine chasers.

Maybe those four sub chasers wouldn't win the war. And maybe they would. The important thing is there will be no strikes or even workers if we lose the war. There will be nothing but slaves of the New Order.

Budget Gardens

There's a new "back to the farm" movement sweeping the country in which every householder can share, even if his "farm" is no more than a rug-sized back yard plot of ground. Start planning that war garden now, and gather your harvest next-summer in fresh vegetables for your table and lower food costs for your budget.

Buy Defense Bonds and Savings Stamps

The idea of moving the clocks ahead an hour in wartime is to get us all up earlier to get ahead of the Rising Sun.

Herr Goebbels' latest propaganda makes the pagan god Wotan a first cousin of the Jap sun god. Next logical step is to rechristen Adolf Hirohitler.

Key Letters In The War Effort

May Damage Proved Reserves If No New Oil Found To Help Big Demands

Just what effects the war will have upon the petroleum industry cannot yet be determined but some trends are becoming increasingly apparent. It is clear that the war effort will impose large and unusual demands upon the industry over and above the normal civilian uses. It also seems clear that this increased demand may be offset by certain other factors.

Despite the confused supply and demand situation the industry's operations during February of this year showed little signs of curtailment or restriction. The IPAA Index for February shown in the accompanying chart proves that the industry continued to operate at high levels under the stimulus of the war effort. The figures on which this index is based for February and the corresponding month of the previous year are as follows:

Table with 2 columns: Item (Crude Oil, Motor Fuel), 1942, and 1941. Rows include Production, Stocks, Average Price, Demand, and Tank Car Price.

As shown by these figures, the index for gasoline demand has increased 22 points over last year while the index for crude oil production has moved up 17 points to supply this demand.

During the coming months it will be interesting to observe the effects of changing war conditions on this IPAA Index.

Two Trainmen Hurt In Santa Fe Wreck

MARIETTA, Okla. (P)—The ten-car Santa Fe Ranger, fast north-bound passenger train, was wrecked at the approach to a bridge three miles north of here Saturday, injuring two trainmen, shaking up its passengers and tearing up the track for about a quarter of a mile.

Smith Is Candidate For Lieutenant Governor

AUSTIN (P)—The campaign for the Texas lieutenant-governorship gained a fourth candidate Saturday with the announcement of Senator John Lee Smith of Throckmorton, author of the first legislative resolution calling on Congress to curb strikes in defense industries.

Bibles Found in Waste Paper

CHARLESTON, Pa. (UP)—The Waste Paper Conservation Drive is producing more than just old paper here. Items found in one bundle included four women's hats, corsets, lingerie, a pair of silk stockings and seven Bibles.

W. W. Smith Transferred To Mineral Wells Office

W. W. Smith, who has been in charge of the Railway Express Agency in Midland for the past year, has been transferred to Mineral Wells as agent, and he and Mrs. Smith left for that city Saturday night. He is being succeeded here by A. S. Hollingsworth, who comes to Midland from Floydada.

Mascho Oil Company And American Drilling Corporation Test In Lea Tops Anhydrite High Structurally

HOBBES, N. M.—High anhydrite top was attributed Saturday to a wildcat seven miles west of Tatum in North Central Lea County. The test, Mascho Oil Company, Midland, Tex., and American Drilling Corporation, Hobbs No. 1 Tide Water Associated Oil Company-State, topped the anhydrite at 2,100 feet, datum of plus 2,032. According to some correlations this places the new well approximately 80 feet higher than the old Esull Hagan No. 1 State, failure several miles to the northeast which quit short of the porous zone.

At last reports the Mascho-American wildcat was drilling ahead below 2,550 feet in salt. It is located in the center of the southwest quarter of the northwest quarter of section 18-12a-35e, on acreage farmed out by Tide Water. That firm and L. H. Wenz, Ponca City, are donating acreage and bottom-hole money toward the well. F. J. Dangle and Continental Oil Company are contributing acreage, while Skelly Oil Company and Texas Pacific Coal & Oil Company have purchased spreads. Contract calls for a depth of 5,200 feet unless production of sulphur water in the lime is encountered at a shallower point.

Six miles west of the Jal pool in Southeastern Lea, Frexy Wilson and associates' No. 1 Saunders failed to show anything in drilling to original contract of 4,200 feet and is going ahead past 4,250 feet in anhydrite. Gulf Oil Corporation and Western Gas Company are contributing money toward deepening. The wildcat is 680 feet out of the southeast corner of section 11-25a-35e. Continental Oil Company No. 1-A-12 Vaughans in Lea's Cooper district, flowed 132 barrels of oil per day through 3/4-inch choke on 2-inch tubing swung at 3,945 feet. Located in section 12-24a-36e, the well topped main pay at 3,670 feet and is bottomed in lime at 3,680 feet. It was shot with 220 quarts of nitro from 3,350 to 3,675 feet.

In Southeastern Lea's Rhodes area, Krupp-Plaherty Corporation No. 6-B Moberly, section 21-26a-37e, flowed 188 barrels of oil in 48 hours through open 2-inch tubing set at 3,095 feet. It topped pay at 3,246 feet, is bottomed at 3,310 feet in lime and was shot with 50 quarts from 3,246 to 3,283 feet. West Outpost To Eunice Rotary is being rigged up for a west outpost to the Eunice pool of Lea. It is the Drilling & Exploration Company, Inc. No. 1-H Shiloh Oil Company-State, 990 feet from the south and 800 from the west

Texas Exes Will Hear Capt. Nevil At Monday Meet

A native Texan, Capt. Wm. Nevil will speak on "Texas Traditions" at the annual March Second Banquet of Texas Exes at the Hotel Esplanade, Monday evening at 7:30 o'clock. Captain Nevil is an officer at the Midland Army Flying School.

Boyd Laughlin, Midland attorney will give a report on what the kind of defense work the University of Texas is carrying on.

All former students of the University in Midland and the surrounding area are invited to attend the banquet. Reservations should be made not later than Sunday night with Mrs. John Kellough, phone 231, or Mrs. Chas. Vertrees, phone 482.

TWO FLIERS KILLED IN AIRPLANE CRASH

SAN ANTONIO (P)—Second Lieutenant Benjamin H. Sherman, Jr., 25, and Cadet William H. Dahling, 22, were killed Saturday when their Army training plane crashed near San Antonio.

the Shugart, Paton Brothers states location for No. 1 Sergeant 1,940 feet from the north and 660 from the east line of section 27-17a-30e. Slight showing of oil was logged in sand from 3,080 to 3,090 feet by Brewer Drilling Company and associates' No. 1 State, Chaves County wildcat in section 15-11a-29e. It is drilling ahead past 3,115 feet in lime.

Also in Chaves, Harry Steinberger No. 1 Headley, section 26-14a-28a, is drilling unchanged at 3,760 feet in lime. J. O. Wood No. 1 J. L. Green, section 7-7a-29e, has passed 605 feet in anhydrite.

Second War Powers Bill Passed By House

WASHINGTON (AP)—The second war powers bill, vesting emergency authority in the hands of federal agencies and the President, was passed Saturday by the House.

The action came on voice vote as the climax to four days of heated debate. It finally passed and sent back to the Senate for concurrent action on comparatively minor amendments.

The measure contained a controversial provision giving federal reserve banks limited authority to purchase government obligations directly from the Treasury.

Under present statutes, they must be purchased on the open market. As passed by the House, the bill contained these thirteen emergency provisions:

1. Gives the Interstate Commerce Commission the same emergency powers over motor carriers it now exercises over railroads.

2. Extending the government's power to acquire real as well as personal property for emergency use.

3. Provides penalties for violations of priorities orders.

4. Authorizes federal reserve banks to purchase government obligations directly from the Treasury.

5. Permits the waiver of navigation and marine inspection laws in emergency cases.

6. Removes from the requisitioning by the prohibition against taking machinery or equipment in actual use and necessary for the operation of a business.

7. Excludes certain part-time officers and employees of the government serving in the war effort from the Hatch Act.

8. Permits the assignment of CCC workers as guards for war industries, utilities and natural resources.

9. Provides free postage for the Armed Forces at home or abroad.

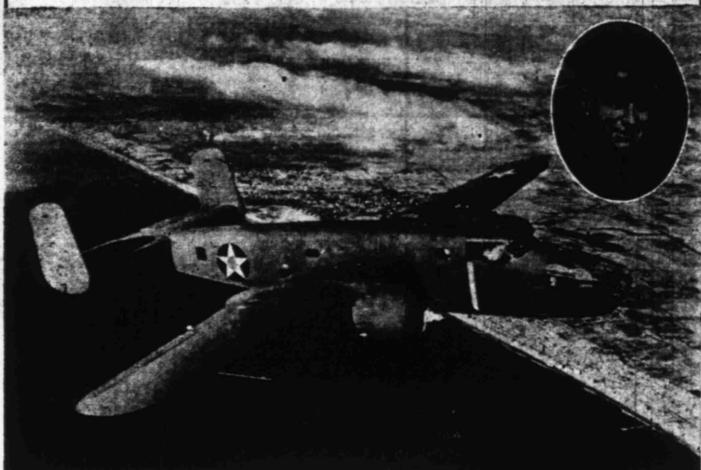

10. Allows the Treasury Department to accept gifts made on condition they be used for a particular purpose.

11. Permits minting of 5-cent pieces from silver and copper in order to save nickel for war tools.

12. Gives the government power to inspect the plants and audit the books of war contractors and subcontractors.

13. Permits the commerce department to furnish previously confidential census information to other departments for private use in evaluating war resources.

Bomber Honors General Mitchell

The spirit of the late Brig. General Billy Mitchell rides with the sky armada of the United States Army Air Force. North American Aviation, Inglewood, Calif., has named this airplane the Mitchell Bomber in recognition of the exploits of this outstanding aviation figure. The plane is the B-25.

Congratulations to:

Mr. and Mrs. Henry Howlett, Jr., on the birth of a daughter in an Odessa hospital, Thursday. The baby weighed 6 pounds 7 ounces and has been named Nancy Sue.

MIDLAND HARDWARE & FURNITURE CO. heartily welcomes these new arrivals, and requests their parents to call by our store, 106 N. Main and receive a welcome gift for them. (Adv.)

PERSONALS

Russell Holcomb, formerly with the Tide Water Associated Oil Company here, enlisted in the Navy and has gone to San Diego, Calif.

Mrs. Virginia P. Jeffers and Mrs. H. B. Spence attended the gift show in Dallas the past week.

Jack Pattison, son of Mr. and Mrs. P. R. Pattison, recently joined the Air Corps and has been transferred from Fort Sill, Okla., to Camp Roberts, Calif.

The Baptist state executive committee of whose membership committee the Rev. H. D. Bruce, Midland pastor, is chairman, will meet in Dallas this week. Mr. Bruce will leave Monday night to attend the meeting.

Fred Gordon Middleton has gone to Washington where he entered the music department of the Navy.

Whites, Negroes Clash Over Move In Detroit

DETROIT (AP)—Fourteen persons were injured in clashes between white persons and negroes as the latter sought Saturday to move into a federal defense housing project designated for them. Mayor Edward J. Jeffries ordered police to halt further attempts to move families into the new unit.

Twenty persons were jailed as police were forced to use tear gas to disperse a crowd armed with steel bars, clubs and bricks.

Oil News--

(Continued from page 1)

hole had been reamed to bottom at 5,497 feet in Magnolia No. 1 State-Arthur M. Loar, one-mile southeast outcrop to the Abell Ordovician field in Northern Pecos County. A steel line measurement corrected depth of 5,455 to equal 5,466 feet. Coring from 5,466-77 returned four feet, the top foot hard calcareous sand and the bottom three feet green shale. Four feet of green nodular shale were recovered by coring from 5,477-97 feet, present depth.

In the Barnhart Eilenburger, lower Ordovician, pool of Southeastern Reagan County, Amerada Petroleum Corporation has staked location for No. 1-RP University in the center of the northwest quarter of the northeast quarter of section 10, block 48, University survey. It is approximately one-half mile southeast of the firm's No. 1-RD University, new producer extending production slightly more than one mile east.

The No. 1-RD now is shut in while running bottom-hole pressure test. It went to 9,229 feet in dolomite and swabbed an estimated 3.2 barrels of oil and 8 barrels of wash water hourly after gun-perforating 5 1/2-inch casing opposite the Eilenburger pay zone.

Amerada No. 1-RE University is drilling at 3,563 feet in shale, while its No. 1-AC RC University has passed 5,924 in shale and lime shells.

Warfare--

(Continued from page 1)

orous land action already was under way.

It was believed in Batavia that the "Rembang" region was one scene of such land fighting.

Mass For Offensive In Burma, where the situation already was admittedly "very serious," the invader's troops were believed massing for a new offensive on Rangoon, and London acknowledged the Rangoon-Mandalay railway line probably had been cut. Yet the outmanned British Imperial defenders still appeared to be exacting a punishing price for every enemy gain. Some 2,000 Japanese infantrymen were wiped out in a single attack on a Sitang River bridgehead.

Dutch troops also carried on their stubborn delaying actions against stronger invasion forces; inflicting heavy losses on the enemy in Timor, and fighting him every foot of the way in Sumatra and in Southern Celebes.

Laot at Bataan. On Bataan Peninsula there again was a lull in the fighting. Yet in a series of light skirmishes General MacArthur's men held to the ground regained in their surprise counterattacks.

Australia, meanwhile, ordered military rule for all of its vast northern territory and sent out its bombers for a fresh raid on the Japanese island bases from which that territory—which is threatened, The Japanese countered with a new attack on Port Moresby, on the south coast of New Guinea opposite the Australian mainland.

Tokyo, meanwhile, issued a claim that a cruiser had been set afire and five planes shot down in an attack by an otherwise unidentified "enemy" force of nine warships on Japan's Wake Island garrison. This action was said to have taken place five days ago—and the report promptly ran afoul of a statement by a U. S. submarine commander who, returning to his Honolulu base said the island "looked deserted."

Leslie Young Joins U. S. Medical Corps Leslie Young, representative of the Carpenter Paper Company and resident of Midland for a year, has enlisted in the Medical Corps of the United States Army. He left Friday for Lubbock from where he will go to Fort Sill, Okla. A graduate of Texas Technological College, he has done pre-medical work and has related training.

His place with the paper company is being taken by Ray Howard, who will bring Mrs. Howard here soon to make their home.

CORRIGAN JOINS ARMY FERRYING COMMAND LONG BEACH, Calif. (AP)—Douglas (Wrong Way) Corrigan has joined the Army Air Corps ferrying command.

"Don't worry, compass or no compass, I'm taking these Army planes the right way now," Corrigan said Saturday as he left on his first delivery flight.

Resigning?

Secretary of Labor Frances Perkins, first woman cabinet member and veteran of President Roosevelt's cabinet, is reported planning to resign.

HATCH'S CONDITION REPORTED SATISFACTORY

ALBUQUERQUE, (AP)—Although yet too soon to determine definitely the possible effects of injuries he sustained in an automobile accident Friday, Senator Carl A. Hatch (D-NM) was said by his physician Saturday night to be "progressing satisfactorily."

Hatch received a spinal fracture and serious internal injuries when the car in which he was riding overturned.

American Tourist Will Like Wonders Of Own Continent

Americans who go to Europe or other foreign lands to view ruins or encounter unexplained mysteries of the past are overlooking ruins and mysteries just as great much nearer home. Don Blanding, poet, told an audience of Town Hall members and their guests at the high school auditorium, Saturday night.

He described in vivid terms the great temples and pyramids in Yucatan, Mexico, built by a people who came no one knows whence and whose fate no one knows—buildings whose architecture and acoustics are still marvels of engineering to modern buildings.

Garden Talk

Blanchard McKee, "Your Neighbor and Mine," has just brought us his program. None swells the throat and warms the heart as McKee.

Now, that we feel cleaner, better and uplifted, why not get down to earth? Soon, ladies, your boy friend will be home for his noon meal. What plans have you made for the day's meals? Have you been to your groceryman for your vegetables? Are you getting canned or fresh ones today? Whether it's a block or a mile, you're going in your car—or are you? You may have a bike with you, but it's not in either case, watch your step. Accidents will happen—so beware.

Would it not be better, handier, healthier to step out to your garden—all filled with nice fresh vegetables, pulled a weed here and there and fill your apron or basket with choice vegetables from your own garden? While in your garden, you doubtless will get some good "setting up exercises"—a little cultivation with your garden tools. You know, better than I, how you value that sylvan life. Two birds with one stone, you know. Your hands? Well, your garden gloves protect those lovely bridge hands.

Be a good American. Have a good American garden this year. It's for defense, you know and victory too. Our nation asks that each of us do his and her part. The home garden seems to be such a small part. This year, here in Midland, it is of great importance.

In former articles you have been urged to get garden minded. You have been advised to take certain steps, ahead of time. Fertilize, spade, fork or plow the area—order your seeds—plan your garden. Avocado boxes make nice "flats" in which to sow seeds for transplanting. Place these "flats" in a warm, sunny spot—turn them daily to the sun, spray with lukewarm water. When about 60-70 high transplant to larger boxes. Soon, if you will set these plants outside on pleasant days, they will become hardy, stocky, well-rooted plants that will grow.

Sixteen more days—March 17—St. Patrick's Day. Last year, my diary reveals the temperature was 28 degrees, cloudy wind from the North and—it was snowing and sleeting—precipitation .46. Last year was a wet one for these parts. This year will probably be a dry one. Easter comes on April 5. There's usually raw, cold weather at that time. So, plan your outdoor plantings to be done after Easter and then with vocers convenient for heavy frosts and thin ice.

Watch the mesquite bushes. They're usually pretty smart. They do not put out their leaves till danger of freezing has passed.

Neighbor: be a good neighbor. Have your own garden vegetables this year.

Your neighbor, Edward G. Bedford, The Evergreen, Midland, Texas, P. S.: Raise a FLOWER GARDEN. too.

Axis Submarines Sink Two Tankers

By The Associated Press Flames roaring up from two torpedoed tankers brought the raging war at sea close to the United States shore again with the disclosure that two American vessels were attacked off the Atlantic coast, one in sight of New Jersey's seashore resorts.

An Axis U-boat, with running lights aglow, converged the loaded Standard Oil tanker R. P. Resor into an inferno with one torpedo hit when the ship was off the New Jersey Coast. Only two men of a crew of 41 were listed as rescued.

The Navy announced the torpedoing of the Atlantic Refining Company tanker, W. D. Anderson off Florida, with only one survivor from a crew of 36 reported in safety. The survivor said flames had completely enveloped the 10,227-ton vessel.

While the 7,451-ton Resor remained a smoking hulk, survivors of a huge British merchantman told how the "biggest sub we ever saw" sank their ship Feb. 6 about 900 miles from New York. Two men were killed in the blast, 15 reached New York, and 54 are missing in three lifeboats that were helpless in a 2 1/2-knot gulf stream that pushed their boat northward.

Requests Order Second Hearing For March 16 AUSTIN (AP)—Regents of the University of Texas Saturday night ordered a hearing here March 16 to take testimony on charges made by persons seeking the removal of Dr. John W. Spies as dean of the medical branch at Galveston.

Curvesome Catch

Izaak Walton probably would have done more fishing and less writing about it had he drawn in his net with this lovely haul. Deightful Donna Reed, pride of Denison, Ia., now makes movie lots lots more interesting.

Daring British Raiders Destroy Nazi Radio Base

LONDON (AP)—Striking boldly into German-garrisoned France for the first time since 1940, British parachutists and heavily-armed infantry Friday night carried out a successful surprise invasion 100 miles across the English Channel and for a few brief hours spread terror and confusion among the Nazi defenders of the mouth of the Seine.

Setting what London quarters believed was the pattern for a new 1942 style of British offensive action which may pave the way to a major smash at Germany from a western front before the year is out, the large force operated with strong RAF and Royal Navy support under a combined operation headquarters, completely destroyed a vital radio location center near Le Harve, and returned with the only survivors of a German garrison as their prisoners.

Not a single plane was lost in the operation, through large numbers of bombers were used to ferry the parachutists and many fighters were used to put an umbrella over the expedition both ways across the channel, a combined Army and Navy communique said.

Likewise the naval forces which aided in the landing operations returned safely, and casualties were "very light," the communique added.

QUICK ON THE DRAW MOSTLY WITH A CAMERA

DARLINGTON, S. C. (AP)—Sheriff Charles A. Grinnell would as soon be caught without his gun and badge as his high-speed camera. For the sheriff always backs up his evidence in a court case with an ample supply of photographs and many times his pictures have solved important crimes.

Up to two years ago he hadn't operated any type of photographic equipment. But today he uses high-speed and regulation news cameras and develops and enlarges his own prints.

Large numbers of skiers from U. S. go to Banff, Jasper and Mount Revelstoke National Parks in Canada since the war closed European ski grounds to Americans.

Underseas Sailors Tell Of Victories At Enemy 'Doorstep'

HONOLULU (AP)—American sailors who "hadn't seen the light of day for months" unfolded stories of triumphs under the sea Saturday, and told of carrying the war "right to the enemy's front doorstep" in the Far Pacific.

They also reported Wake Island, which fell to the Japanese Dec. 23 after a two-week siege, was "deserted." Date of the submarine inspection of Wake was not given.

"Their stories," a Navy spokesman said, "reveal for the first time a type of heroism that gets scant publicity because submarine operations of necessity are secret operations."

The Navy, in a release from the office of the commander in chief of the Pacific Fleet, gave its own description of the men as "grinning, triumphant, taciturn," and said that reports indicated their craft torpedoed enemy ships "somewhere almost in view of lookouts at his principal home ports."

THERE'S STILL LIFE IN THE OLD BUS

KNOXVILLE, Tenn. (AP)—Just because you haven't got tires for that old jalopy, it's not a total loss.

The University of Tennessee Agricultural Engineering Department used the steering gear of an old car to drive a cross cut saw by a quarter-horsepower motor. It works, too—saws through a 30-inch oak log slick as a whistle in 30 minutes.

WHAT WOULD COWS DO FOR A FLY-SWATTER?

BEGGS, Okla. (AP)—When one of his cows gave birth to a calf without a tail, Coman Oulbert, 17-year-old 4-H club member, had an idea.

He suggested to County Agent Sewell G. Skelton that it might be profitable to breed stub-tailed dairy cattle so dairymen could avoid being switched in the face while milking.

Fifty-two foreign sources helped fill Christmas stockings in U. S. in 1939; by January of 1941 the foreign sources had been reduced to 30, and by September, 1941, only eight foreign countries remained on the list.

QUALITY BY KUPPENHEIMER

McKENNEY ON BRIDGE

By William E. McKenney
America's Card Authority

Yesterday I said that one of the points to be considered in deciding what suit to open is the advisability of holding back aces and kings when possible. One of the uses of these high cards is to give re-entry to the defense for continued attack against any weakness in the declarer's cards.

A curious working of this principle is shown in today's hand. West has a choice of two five-card suits for his opening lead. Neither has been bid by any player. Neither is very strong in itself, but one is topped by an ace.

♠A96	♠J1033
♥J1062	♥97542
♦875	♦K2
♣J96	♣A4

Dealer

♠K952	♠AKQ
♥AQJ10	♥K109
♦K109	♦K109

Duplicate—None vul.

South	West	North	East
1 N.T. Pass	2 N.T. Pass	3 N.T. Pass	Pass

Opening—♠3. 28

Which suit should he open? As a general rule, he should open the weaker. Whichever suit he opens, he has to find some help from his partner, else his suit can never be established. But even more is necessary.

West must be able to get in the lead after his suit is established, in order to run the long cards. He cannot hope that East has a holding that will solidify either suit. Declarer must be assumed to have at least a third-round stopper in each.

If diamonds are opened and established with the loss of only one trick, as they can be in this hand, how is West to regain the lead? His queen of clubs is too low to be a sure prospect.

But if clubs are opened and have the luck to be established with one lead, the ace of diamonds is a sure re-entry (unless the declarer can run his game in spades and hearts). West should open the three of clubs and this lead in fact sets the contract.

Decorative Apron

8133

As pretty as a picture! Here is an apron which gives color, charming line and feminine appeal to your work-a-day costume. An apron which you can make up from all bright scraps of cotton you have been saving—so it is thrifty as well as smart! And practical, of course, with its protective bib top held in place with shoulder straps which button in back. So original in styling, too, that you are going to make this apron again, and again—as gifts for all your friends and family.

Pattern No. 8133 is in sizes 14 to 20; 40 and 42. Size 16 can be made with 1 1/2 yards 32-inch material or with remnants as suggested. 5 1/2 yards of bias binding.

For this attractive pattern, send 15c in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W Wacker Drive, Chicago.

Select all the new patterns you need for your own sewing and for your family sewing in the Fashion Book, our complete catalogue of recent pattern styles.

Pattern 15c, Pattern Book 15c, One Pattern and Pattern Book ordered together 25c. Enclose 1c postage for each pattern.

Exceed Food Quotas, Pigg Urges Farmers

W. E. Pigg, chairman of the Midland County USDA War Board, has again urged all farmers and ranchers to make their effort to reach, and if possible to exceed their pledges in the production of the commodities so essential in the nation, namely: Dairy products, eggs, pork, beef, and vegetables.

"Production of these vital products is the duty of every loyal farmer and rancher," said Pigg. "The armed forces are serving on the battlefield; the defense plants are doing their part to supply our forces with necessary equipment; and the farmers and ranchers must and will furnish the food which is needed in this fight for our country."

Building Permits For Week Total \$15,600

Building permits in Midland for the week ending Friday, February 27, totaled \$15,600, bringing the year's total to \$132,280.

Permit was issued for building of a six room frame dwelling with garage attached at 1019 W. Storey. A&L Housing and Lumber Company holds the \$7,900 contract, and V. C. Maley is owner of the house.

Morris Snider is to build two \$1800 frame dwellings for Mrs. Harry B. Prickett at the addresses of 506 and 508 N. Pecos, and P. W. Stonehocker has contracted to build a \$5000 brick veneer at 1511 W. College for C. K. Lowe.

NEW YORK (AP)—Wool top futures Saturday closed 4 of a cent higher. July 129.0.

FUNNY BUSINESS

"We're planning to have him become a doctor or a minister so he can always get tires for his car!"

SIDE GLANCES

"He insists that as long as the war makes it possible for his brother to go through college in two and a half years, it's high time somebody did something about the grade schools!"

Cattle salable 50; calves 50. Trade nominal. Top mature steers 12.00; yearlings 12.50; cows 9.25; fat calves 12.00.

Hogs salable 400; top 12.95; good packing sows 11.50-11.75; stocker pigs 10.80 down.

Sheep salable 900; trade nominal. Steady; top sales on wool offerings included lambs up to 11.50; yearlings 9.50; aged wethers 7.50.

Prices Slant Higher On Stock Market

NEW YORK (AP)—The stock market Saturday managed to finish a modest recovery week with prices slanting irregularly higher.

Nothing particularly stimulating was found in the war news and the rule of keeping commitments light over a week-end was accentuated by the Battle of Java and the desire to await the outcome of this engagement as well as other international developments.

Generally good earnings statements aided an assortment of favorites.

Cotton

NEW YORK (AP)—Cotton futures Saturday closed 30 to 40 cents a bale higher.

Cows Slow To Cooperate In Daylight Saving Time

SIT, HELLENS, Ore. (UP)—Clatsop county residents cooperate in the daylight saving time demonstration, but their cows didn't.

Case farmer reported: "The cows have been accustomed to being milked at 5 a. m. and they seem to resent it when a farm hand comes around at 4 a. m."

3. Self-starters were standard equipment before balloon tires and four-wheel brakes.
4. Studebaker started as a buggy manufacturer.
5. In addition to Detroit, cars are made in Flint, Pontiac, and Lansing, Mich.

Senate Seeks Policy On Farm Price Level

WASHINGTON (AP)—The Senate farm bloc decided Saturday to seek an agreement with President Roosevelt on commodity price policies rather than pressing efforts aimed at forcing the administration to let corn, wheat and cotton prices rise. In explanation of the change of tactics, one member of the group told reporters: "Sometimes a brief retreat brings victory."
TRUCK RATIONING WILL START MARCH 9
WASHINGTON (AP)—Rationing of new trucks, truck-tractors and trailers will begin March 9, the War Production Board announced.

SERIAL STORY

KINGS ROW

BY HENRY BELLAMANN

TIME IS SHORT
CHAPTER XVI
"SAY—when are you going to Europe? Not soon?"
"In September."
"Why don't you tell me?"
"I didn't know it until today."
"Say—that's tough! I'll be damned if I know what I'm going to do without you." Drake thumped Parris resoundingly to lessen the sentiment of the remark.
"Parris, you and me have been in pretty much the same kind of boat so much of the time. You remember I said that right here at this corner about three years ago. We still are, in lots of ways. My girl can't see me, and won't, and yours can't come out in the open either and go around with you like other girls and their fellows."
"Cassie's not exactly my girl, Drake. Dr. Tower is very peculiar."
"I should say he is. I think he's kind of crazy—keeping Cassie shut up all the time away from everybody. But Dr. Gordon's not crazy. He just don't like me."
"Drake, you take on like everything's fixed over. You can get things fixed up all right."
"Oh, let me alone! You don't know how I feel. Don't talk to me, Parris, I—I just can't stand any more." He turned quickly and almost ran up Federal street.

FOR the first time Parris drew back a little from Drake to get a better perspective. He realized, as he never had, that Drake could be completely illogical and inconsistent, and then feel terribly hurt because he was misunderstood. A new and deep fear for Drake arose like a physical ache in his heart. Drake was the best friend he had, probably the best he would ever have. But even as he thought about it he knew that his hopes for Drake had always been uncritical.

The chances of terrible frustration lay deep in Drake's character—chances, even, of disaster.

DARRIS worked hard. He read day and night, and for the first time prepared digests for his reading for Dr. Tower.

There was a conspiracy of silence among Madame's older friends. Most of them knew of Parris' almost fanatical devotion to his grandmother. They looked at him a little pityingly, but said nothing. Even Drake seldom asked about Madame's behavior.

"Ann," looked with wide, dry, wondering eyes at the seemingly unbreakable old woman, so slight and thin now she scarcely dent the heaped-up pillows. Each day she smiled and spoke casually to Parris. Then she gave over to the interminable hours of incredible horror—one minute at a time until tomorrow.

During the next two weeks, Dr. Gordon came every day. It was no longer possible to put Parris off with childish answers.

He was eating breakfast absent-mindedly and gloomily. Anna came, downstairs. He looked up quickly. "She is terribly ill, isn't she, now?"
"Very ill, yes. But the weather will be cooler soon—it is usually better the last two weeks of August, you know."
Parris went quietly upstairs and into his grandmother's room. The table was covered with medicines. A hypodermic case was lying open; the needle and piston evidently freshly dried had not been replaced. He picked up the tube of white tablets and read the label. Just then Anna returned. He pointed at the hypodermic case. Anna blanched a little.

"How long has this been necessary, Anna?" His voice shook slightly.
"For several weeks, Parris."
He waited as if he could not say the next word. He picked up the shining hypodermic needle and held it down again.

"Cancer?" He was surprised that he could say it.
Anna answered in the same tone of voice. "Yes, Parris."
"Why wasn't I told?"
"Madame wished it, Parris. She wanted you to finish your work without worry. She insisted, Parris; she made me promise."
"Yes, yes, I guess so. So that's it! But why did she make plans for me to go to Europe in September? Didn't she—doesn't she know?"
"Yes, of course she knows. She—she thought she would live through September."
The last trace of color left his face. Anna moved instinctively nearer.

"And—she won't. Is that what you mean?"
"It is impossible that she should live more than a few days. I had made up my mind after Dr. Gordon's visit yesterday to tell you."
He turned and left the room without speaking. Anna heard the door of his room close softly.

"DARRIS!" Cassie's voice over the telephone sounded hurried and anxious. "Listen, Parris, I've got to see you."
"Oh, I can't now, Cassie."
"Parris, I wouldn't call you if it wasn't important!"
"What does he really say about me, Cassie?"
"Well, he said one day that you were—now, let me see, I want to get it just right. He said you were a very rare personality."
"What do you suppose he meant by that?"
"I don't know. He said you were going to be a great doctor someday."
Parris stopped and held her by the arm. "Listen, Cassie: I want to be a good doctor—a great one if I can. When I come back—maybe, somehow the time'll pass quickly—when I come back will you marry me?"
(To Be Continued)

Speed Up Is Ordered In War Production

WASHINGTON (AP)—Told by President Roosevelt that victory depends in large measure on increased arms production, the War Production Board Saturday ordered a fresh national drive to quicken the rate of output. The new speed-up program calls for establishment of joint labor-management plant committees to consider all suggestions for increasing production, 24-hour use of machines, awards to employers and workers for outstanding accomplishments, and faster conversion of factories to war needs.

Coronation Of Courtney Athletic Queen To Take Place Friday Night

COURTNEY (Sp)—Coronation of the Athletic Queen of Courtney High School will take place in the school gymnasium, Friday night, March 6.
The patriotic theme will be carried out along with the athletic motif. Jim C. Hazlewood will serve as herald and Lloyd Ledbetter and Wayne D. Stroud will be the queen's jesters.

The court of Queen Mary Francis of the House of Managan and King Homer of the House of Howard will include: Duchess Wanda of the House of Sprawls escorted by Bobby Don of the House of Davenport; Duchess Geraldine of the House of Davie escorted by Eugene of the House of Clements; Duchess Lois of the House of Francis escorted by Raymond of the House of Lawson; Duchess Elene of the House of Patterson escorted by James of the House of Myrick; Duchess Rhetta of the House of Ledbetter escorted by Dudley of the House of Powell; Duchess Syble of the House of Chisholm escorted by Vance of the House of Smith; Princess Clara Marie of the House of Shoemaker escorted by Carlton of the House of Hull; Princess Avalene of the House of Crudup escorted by J. C. of the House of Flowers; Princess Gladys of the House of Mattingly escorted by Marshall of the House of Lower; Brenda Hazlewood and Wilma Robnet will carry the Queen's train and Reginald Myrick will bear the crown.

Make Shut-in Happy With Battery Radio

Have you a battery radio put away somewhere in a corner of the garage or attic? There's a tubercular shut-in—a woman who has been an invalid for years—living just outside the city limits—to whom such a radio would mean brighter and happier days.
Anyone who has a battery model to contribute or to sell at a reasonable price is asked to call Mrs. T. S. Jones, phone 986-J, or communicate with any other member of the Children's Service League.

Have You Purchased New License Plates?

"A slight increase was shown during the past week on the sale of new license plates," reports County Tax Assessor-Collector J. H. Fine, "but a greater increase is needed. Only 400 new plates have been issued and only thirty days remain in which an estimated 2000 automobile owners may purchase 1942 license plates. An average of one hundred sales a day is needed to avoid a last minute rush. Special plates may be purchased, but those desiring them must come early. Everyone is urged to buy as soon as possible—and don't forget that you must have a certificate of title and your 1941 license receipt before you can get new plates."

Midland Has New Athletics

New Physical Conditioning Games Making Great Hit With School Boys

By **Cleddie Shelburne**
 Have you been around Midland High School during the past week? You are missing the biggest sight in the history of the school if you haven't. A new athletic program has been launched, and to see it in action is one of the greatest things you will ever have a chance to witness.

Entertaining—yes—but not that alone. The program is one that runs hand in hand with the national defense physical fitness program.

National Defense is the main topic of life to every American at the present time, and there can not be too much emphasis put on any phase of it.

The athletic program of every branch of the Armed forces has been stressed doubly during the past year, and has become one of the main divisions of training. Gene Tunney, Jack Dempsey, Al Davis, university coaches—athletic directors from every field of the sports world have joined the various branches of the U. S. forces to insure correct training in the physical conditioning program.

Universities, Colleges, and all educational institutions which maintain an athletic program have adjusted it to cover a wider field with the main object being physical conditioning.

Midland High School is one of those educational institutions which has recently expanded sports activities into an exceptionally wide field.

Coach B. E. McCollum has started an athletic program at Midland High that coincides in every way with the never ending cry for physical fitness.

New Games Played Daily

Physical education periods at Midland High are not "dry" by any means. New exercises and games are introduced every day, and what is really a class on the regular daily schedule of every student is looked upon by those students as a fun-making period. So smoothly carried out is the program that, even when perspiration is dripping from every body, laughter is unending and delight shines on every face. Work that is building the bodies of "tomorrow's Bombardiers, Pilots, Soldiers, Marines, Sailors" who will give America assurance of an unexcelled armed force that is physically fit, thought of as an entertainment.

Many Essentials Developed

The program is not essential to national defense alone, but is also essential to building athletic squads which will never let the colors of Midland High's Bulldogs be down-trodden. The football squad, basketball squad, track squad, tennis teams, and all other sports teams will always be in the prime of condition through the excellent gym classes conducted at the school.

Special training workouts must be conducted for the various sports events, but the basic factor to all is complete physical fitness. Speed, sharp thinking, power, competitive spirit, and sportsmanship are all developed in physical education classes, and when applied to the different events they yield a synchronized

Fast Trainer

Chuck Fenske, former national mile king, warms up with plane as backdrop at Randolph Field. Fenske, rejected as pilot by Army Air Corps because of weak eyes, is an assistant physical trainer at Texas post.

Down—SPORTSLANE

—With Tanner Laine

By Private Tanner Laine
 Somewhere in one of the 1000 barracks in the replacement center of the U. S. Army Air Corps Sheppard Field:

Hello Midland! Sports in the Army Air Corps—sure they got 'em. (I have just been tied up with a little matter of rookie drill where the only sports you see or hear are races to the chow line and marching—always marching). But we do have a sports recreation period in the afternoon and one can see thousands of boys—playing soft ball, volley ball, basketball, and touch football. Just for the love of playing.

Private me stood recruit quarantine as long as I could and the other night I stowed away with my 406th Squadron's basketball team and went to town only to see them lose the post championship to the 408th Squadron. It was fast basketball. Score 25-22.

Some ex-big name cagers are here and they are in great shape and really scrap. Our squadron team won 18 and lost 2 to win the American League camp championship. Sheppard Field has entered the Southwest A. A. U. football slated for Dallas, March 5-7. The Cadet Five has won 6 and lost 2 in a short season. They challenged West Texas State but the Canyon Buffs were already full-booked. I hope they state Midland Bombardiers and come there. I'll stow away again.

Baseball! Sheppard Field will be playing it. Three Southwest Conference nines already are on the Cadet schedule—Texas Aggies, TCU, and SMU Mustangs. Practice is in full swing. Promise games include set-to's with Fort Worth Cats (Texas League), Wichita Falls Spudders (West-Texas League), and Hopesoo Pittsburg Pirates and the Philadelphia Athletics (who are coming through Wichita Falls this spring). Interest in baseball is not without its support for the camp athletic director is Lieut. W. Jeffrey—erstwhile Texas Aggie baseball star and football ace.

They box in Army camps. Five boxers from here won Golden Gloves district titles. One—Foytik, Flyweight, lost in the semi-finals at Fort Worth. He was kayped by the champ, Art Sheppard Field, like at all posts, the atmosphere is conducive to "fighting." It was noted in the Golden Gloves affairs recently many good fighters came from Army (West-Texas League), and Hopesoo Pittsburg Pirates and the Philadelphia Athletics (who are coming through Wichita Falls this spring). Interest in baseball is not without its support for the camp athletic director is Lieut. W. Jeffrey—erstwhile Texas Aggie baseball star and football ace.

Abilene Cagers Lose Two In Row To Austin High

EL PASO (Sp) — Austin High Panthers of El Paso won a place in the state basketball tournament here Friday night by edging the Abilene Eagle of district 3AA, 37 to 31, in the second game of their bi-district series.

The Eagles played a far better brand of basketball than they did Thursday night when they lost to the El Pasoans, 45 to 19, but were unable to overcome the small lead the Panthers held for most of the game.

Sam Stovall, Abilene's best and all-district forward, had a good night in connecting for 14 points to win individual honors of the game. Dick Redmond, guard, paced the Panthers with 11 points.

Arkansas' Razorbacks Beat TCU 63 To 37

PAVEYVILLE, Ark. (AP) — Arkansas' Razorbacks clinched at least a tie for the Southwest Conference basketball championship Saturday night by sweeping the Texas Christian series with an impressive 63 to 37 win.

The Razorbacks, 1941 champions, met the Horned Frogs fast break with an even faster floor game.

Basketball Scores

By The Associated Press
 Arkansas 63, Texas Christian 37.
 Baylor 48, Southern Methodist 38.
 Nebraska 41, Missouri 40.
 Wisconsin 44, Ohio State 39.
 Michigan 49, Chicago 36.

Bees keep warm in the winter by huddling in clusters. They constantly work their way from the outside of the cluster to the inside, and back again. The exercise keeps them warm. The temperature at the center of the cluster always is about 98 degrees.

Rifles, Bayonets For Company F, Local Defense Guard, Received

Rifles and bayonets for Company F, Midland's Texas Defense Guard unit, arrived Friday night and will be distributed or put into use at once. Packed in grease, the rifles now are being cleaned and will be on the shoulders of the Midland men Monday night at the regular drill.

Uniforms will arrive during this week, and will be issued as quickly as possible. The Adjutant General recommends that a Guardsman wear his uniform one day a week at his regular occupation, provided his work is not of a nature to soil or tear it.

Tunney Likes Glamor Boys For Navy Work

RALEIGH, N. C. (AP)—If Lieutenant Commander Gene Tunney ever had to send a landing party ashore to capture an enemy position, he'd rather have the party headed by Bob Feller than by Joe Doakes, an individual with a masters degree in physical education.

Gene said so in an interview Saturday designated to explain why, as director of physical fitness for the Navy, he has grabbed up such box office glamor guys as Feller, Billy Soose and Freddy Apostoli.

Tunney feels that men like Feller, largely because of the fame they've built up for themselves in the sports world, are naturals for the work.

Further Slump In Texas Oil Yield Under New Order

AUSTIN (AP)—Texas oil production, which averaged 1,544,231 barrels daily this week, or 51,769 under the recommendations of Federal Petroleum Coordinator Harold L. Ickes, will decrease 68,076 to a total of 1,476,155 Sunday, railroad commission engineers reported Saturday.

The March proration order will effect an actual flow of 34,448 barrels daily under the federal coordinator's suggested 1,510,600 with an allowable production of 1,536,061 as compared to 1,606,389 Feb. 1.

Actually, all except certain fields which cannot due to physical reasons, will be shut down Sunday, the first of nine shutdown days in the new month as compared to seven in February.

Also effective Sunday, will be the commission's order permitting shutting in of East Texas fields making more than 100 barrels of salt water a day and transferring the allowable to other wells of the lease.

Well pluggings overtook new well completions this week, reducing the state's total by 13 to 99,565.

Parks Sets Record As Bears Beat Mustangs

WACO (AP)—Little Dwight Parks, Baylor University's half-pint basketball guard, scored 28 points Saturday night to bring his total to 214 to set a new Southwest Conference individual scoring record as the Bears swept past Southern Methodist 48 to 38.

Rice Defeats Texas To Set New Mark

AUSTIN (AP)—Rampaging Rice Institute crushed Texas Saturday night 61 to 41, finished in a tie with Arkansas for the 1942 Southwest Conference basketball race and set a new conference record.

The Owls' win gave them a season record of 10 wins and 2 losses.

All-Conference Cagers Named In Southwest Loop

By Harvard V. Ratliff
 Associated Press Sports Editor

The game of basketball hasn't been turned completely over to the giants in the hurly-burly Southwest Conference.

The all-conference team averages almost 6 feet 4 inches in height but one of the forwards is Chester Palmer, 5 feet 9 inch scrapper from Rice, and one of the guards is little Dwight Parks, the 5 feet 8 inch scoring phantom of Baylor's Bears.

Here is the team, selected by a composite vote of the seven coaches:

Player	School	Pos.	Ht.
Chester Palmer	Rice	F	5-9
Bill Henderson	A&M	F	6-4
Bill Cross	Rice	F	6-6
Bob Kinney	Rice	C	6-6
R. C. Pitts	Arkansas	G	6-4
Dwight Parks	Baylor	G	5-8

You will note that instead of a quintet it's a sextet. The reason is that three players tied for the forward posts.

Moon To Go Blind For One Hour Monday Night

DALLAS (AP)—There will be a blackout over the country Monday night but not a hand will be laid to switch to bring it about.

The first total eclipse of the moon since 1938 will occur then, the earth moving its bulk between the sun and the moon from 4:28 p. m. (SWT) until 10:15 p. m. The moon will be in total shadow one hour and two minutes.

Requested Wins Rich Flamingo Stakes

MIAMI, Fla. (AP)—Ben F. Whitaker's Requested, forced to play second fiddle to Alsab as a two-year-old, turned the tables Saturday with a spectacular victory in the Rich Flamingo Stakes worth \$28,150.

Coming out of nowhere with a burst of his old speed, Alsab snatched third place, back of the longest Redhorn.

SOCIETY

Eighth District Federated Clubs To Open Tri-Day Annual Convention Monday At Big Spring Settles Hotel

Fine Arts Program, Victory Dinner, And Good Neighbor Luncheon Are Among High Points Of Scheduled Activities

"Education for Democracy's Victory" will be the theme of the sixth annual convention of the eighth district, Texas Federation of Women's Clubs, to be held in Big Spring, Monday, Tuesday, and Wednesday, with the Settles Hotel as convention headquarters.

Registration will open at 10 a. m. Monday and at 12:30 o'clock a board members' luncheon and official board meeting will be held.

Midland women holding official positions are: Mrs. J. Howard Hodge, first vice president and nominee for the presidency; Mrs. Hal C. Peck, eighth district trustee; Mrs. James H. Goodman, state chairman of American Citizenship; Mrs. Louis F. Caddell, district Fine Arts chairman; Mrs. F. H. Lanham, district art exhibit chairman; Mrs. J. A. Haley, district chairman of Indian welfare; and Miss Lydia G. Watson, district chairman of club ethics.

Officers to Attend
State and General Federation officers will be in attendance at the convention. Among those expected to attend are: Mrs. J. W. Walker, of Plainview, State Federation president; Mrs. Grace Vance, Refugio, first vice president; Mrs. Volney Taylor, general chairman of motion pictures and past state president; Mrs. Jefferson D. Atwood, Roswell, New Mexico, General Federation chairman of American Citizenship; Mrs. Joseph M. Perkins, Texas director to General Federation; and Miss Ethel Foster, state treasurer.

From 4:30 to 5 o'clock, Monday afternoon, convention visitors will be honored with an Indian Arts tea at the home of Mrs. Carl Strom, with the 1930 Hyperion Club and Big Spring Music Club as hostesses.

(See FEDERATED CLUB, page 3)

Collings Home Is Scene Of Evening Party

Members of the Lucky Thirteen Club entertained with a 42 party at the home of Mrs. H. S. Collings, 511 W. Louisiana, Thursday evening with husbands as guests.

High score in the games went to S. P. Hall for men and to Mrs. C. H. Shepard for women.

Flag designs lent a patriotic note to lilies and nandina berries were room decorations.

Present were: Messrs. and Meses. W. N. Cole, Ellis Conner, J. L. Daugherty, Delbert Downing, S. P. Hall, B. M. Hays, O. H. Jones, L. F. Joplin, J. A. McClurg, C. H. Shepard, J. T. Walker, Mrs. J. C. Hudson, the hostess and Mr. Collings.

MARRIAGE JITTERS PARDONABLE

PORT WORTH (UP)—A pretty girl in traffic court told the judge: "I'm leaving tonight to get married. I was doing some last minute shopping and was too excited to notice the parking meter." The judge suspended the fine.

MIDLAND, TEXAS, SUNDAY, MARCH 1, 1942

SECTION II

Miss Virginia Davies To Wed Army Officer

Colonel and Mrs. Isaiah Davies of Midland Army Flying School announce the engagement and approaching marriage of their daughter, Virginia Lee, to Lieutenant Robert Ashton Strauch, Army Air Corps, Midland Army Flying School, son of Mr. and Mrs. Bernard Andrew Strauch of Champaign, Illinois. Miss Davies attended the University of Texas. Her fiancé attended the University of Illinois where he received his bachelor of science and master of science degrees in architecture. He is a member of Phi Delta Theta social fraternity, of Scarab, professional fraternity, and of Gargyle, honorary fraternity. The wedding will take place April 4 in Trinity Episcopal Church.

Tri-Color Theme Is Chosen For Joie de Vie Party

Red-white-and-blue was the color scheme and designs of soldiers and sailors marked the playing tables when Mrs. Charles L. Klapproth was hostess to the Joie de Vie Club and a group of guests with an afternoon bridge, Friday, at her home, 1011 W. Texas. The patriotic motif was further carried out in the Defense Stamp prizes and their wrappings of red, white, and blue. The same theme was suggested in the refreshment course.

Guests were: Meses. C. W. Chancellor, A. Leksich, L. H. Tyson, Mary March, Clyde Cowden, Guy Cowden, and M. C. Ulmer.

Members present were: Meses. P. F. Bridgewater, R. C. Conkling, John Dublin, Geo. Glass, Wallace Irwin, J. R. Martin, Roy Parks, J. M. Speed, Sr., Fred Turner, and the hostess.

In the games, high score for club was held by Mrs. Bridgewater and second by Mrs. Martin, high for guest by Mrs. Tyson, and cut by Mrs. Speed.

Mrs. J. H. Chapple Hostess To Weekly Bridge-Luncheon

Mrs. James H. Chapple was hostess for the weekly luncheon of the Women's Golf Association at the Country Club Friday.

Present were: Meses. J. A. Mascho, Dan Hudson, Curt Inman, J. H. Longabaugh, Leif Olson, Pearl Blair, Ed Warren, L. A. Absher, J. P. Ruckman, W. M. Blevins, Miss Marian Wadley, Meses. John Shipley, W. P. Thurmon, Don Oliver, R. C. Tucker, John Cornwall, Geo. Shelton, R. H. Henderson, John House, P. H. Liberty, R. E. Kimsey, Wright Cowden, R. I. Dickey, H. S. Forgeron, and Chapple, and three guests, Meses. Alexander, Chandler, and Emerick.

After luncheon, bridge was played, the door prize of Defense Stamps going to Mrs. Ruckman. Mrs. Curt Inman will be hostess for next Friday's luncheon.

G. A.'S PRACTICE PROGRAM

G. A.'s met Friday afternoon at Calvary Baptist Church with Mrs. Fred McPherson as counselor. Girls attending were: Melba Lee Story, Inna Jean Smith, Nancy Jo Booth, and Marvel Story.

The group practiced the program for Sunday night.

Miss Adale Reiger and Lieut. Thieme Are Wed In Morning Ceremony

Mrs. Clarence Thieme was Miss Adale Reiger until her marriage here Saturday.

Couple Will Be At Home In Abilene After Honeymoon

Massed woodwardia fern and white tapers in seven-branched candelabra, with a stately window as background, formed the altar setting for the wedding vows recited by Miss Adale Reiger, daughter of Mr. and Mrs. Dunn Reiger, and Lieutenant Clarence Thieme of Camp Berkeley, Abilene, son of Mrs. Alvin Thieme of San Benito, Texas, at the home of the bride's parents, 901 W. Texas, Saturday morning at 10 o'clock.

The Rev. H. L. Wiederanders, pastor of the Lutheran Church at Abilene, officiated at the single ring ceremony in the presence of relatives and close friends of the couple.

Miss Madeleine McCarty of Eagle Lake, Texas, former roommate of the bride at Texas Christian University, was maid of honor. Lieut. Alton A. Hansen of Camp Bullis, San Antonio, was best man.

Wears Plumage Tweed

The bride wore a suit of plumage tweed with blue and rose as dominant tones. It was made with cardigan-style jacket and six-gored skirt and was worn with a brimmed hat of the tweed, a powder blue blouse, and other accessories in navy. Following the traditional custom, the bride wore as "something borrowed" a diamond-studded brooch that had been her maternal grandmother's; as "something old" a handkerchief of handmade lace that she carried in an arm bouquet of blue Spanish iris tied with matching satin ribbon.

Mrs. Reiger's corsage was of white carnations as was that of Mrs. Thieme, mother of the bridegroom. Mrs. Francis Melear presented the wedding music, playing Mendelssohn's "Wedding March" for entrance of the bride party. "I Love You Truly" softly during the recital of vows, and the "Bridal March," "Lobengrin" by Wagner as the recessional.

Triple-Tiered Cake

A reception was held immediately after the ceremony. The triple-tiered wedding cake was decorated with white rosettes and topped with lily-of-the-valley wreathed arch with two bells, beneath which a pair of lovebirds perched in a nest of roses.

Presiding at silver services at either end of the refreshment table, Mrs. Clarence Scharbauer and Mrs. E. M. Whitaker poured for the guests and Mrs. L. M. Freels presided at the bride's book.

Others in the house party were: Meses. R. A. Estes, R. E. Estes, Weldon Grossman, R. P. Rankin, Geo. Elliott, Jr., of Odessa, and Miss Anna Beth Bedford.

Members of the house party wore corsages of pink gladiolus. After the reception, Lieutenant and Mrs. Thieme left by automobile for a honeymoon trip to an unannounced destination, after which they will be at home in Abilene.

Bride Heard Here

The bride, whose father is secretary of the Scharbauer Cattle Company, is a member of a pioneer family here, was reared in Midland and graduated from Midland High School in 1937. She received her bachelor of arts degree from Texas Christian University, Fort Worth, in June, 1941.

While a student she was a leader in campus activities, serving as president of Phi Sigma Iota, national honorary society for modern language majors and as president of Los Hidalgo, Spanish club, for two years. She was elected representative student from the modern language department for two years.

Lieutenant Thieme is a graduate of San Benito High School. He received his degree from Texas A&M College in 1939 and is now field artillery officer attached to the 645th Tank Destroyer Battalion at Camp Berkeley.

Out-of-town guests for the wedding, besides members of the bride party, included the groom's mother, his sister, Mrs. Vosberg, and his brother, Oscar Thieme, of San Benito. Lieut. Mrs. Clinton Beck of Harlingen, Miss Griffin of Abilene, and Miss Betty Ruth Wagner of Austin.

Service League Has Work Meeting

Red Cross knitting and work on layettes for the Children's Service League welfare cases were done by members of the League meeting with Mrs. Cooper Hyde, 314 South L, Friday afternoon.

Mrs. Van Welch reported on the emergency closet for the Red Cross and also on the work she is doing in obtaining a loan closet of sick-room supplies for use by Mexicans. Present were: Meses. Burton Atkinson, Fred Cassidy, Robert Dewey, John M. Hills, T. S. Jones, Vaughn Maley, Van Welch, and the hostess.

Health Director To Speak To PTA

Dr. W. S. Brumage, director of the Midland-Ector County health unit, will be guest speaker at the meeting of the Junior High PTA, Tuesday afternoon at 3:30 o'clock at the Junior High School. His subject will be "Home and School Cooperation".

The theme of the program will be "Family and Community Health."

Assembly Of God WMC Meets At Church

The Assembly of God WMC met Thursday afternoon at the church with Mrs. Long in charge of the scripture reading from the first chapter of James.

Closing prayer was by Mrs. P. Porter.

Present were: Meses. D. Branch, C. McKinney, J. B. Wharton, Walter Bryan, Frank Cain, John Woods, O. L. Stultz, J. B. Dooley, Porter, Long, and Miss Althea Hines.

High School Welcomes B. E. McCollum As The New Bulldog Coach

The high school faculty recently welcomed into its membership the new coach, Mr. B. E. McCollum. Mr. McCollum was born in Estelline, Texas, where he also attended high school.

"Serve Country With Good Education" Says El Paso Educator

Dr. D. M. Wiggins, president of the Texas School of Mines of El Paso, spoke before the high school Tuesday at 11:20 on world affairs and education.

Bulldog Track Team Begins Season Under Coach McCollum; Charlie Kelly Is High Cage Scorer, Watson, Stickney Following

The Bulldog track team has been working out in the gym the past week due to bad weather. Coach McCollum, newly appointed head coach of Midland High, will be the coach.

F.F.A. Has Father-Son Banquet Tuesday; Forty-Nine Attend

Members of the Midland, Stanton, and Garden City chapters of the F. F. A. honored fathers at a banquet Tuesday at the Crawford Hotel at 8:00.

Homemaking Class Visits Local Nursery

The third-year home-making class, under the direction of Miss Jeanne Logan, heard Mr. R. O. Walker from Walker's Nursery make a talk on "Choosing Trees and Shrubs for the Yard."

Make The Honor Society Your Goal!

Scholarship, leadership, character, and service all put together make up the National Honor Society, an organization which was recently established in Midland High School and which should be the aim and goal of every student.

Nine members of the senior class were initiated into the National Honor Society in assembly Wednesday morning by ten seniors of the Odessa Chapter of the National Honor Society.

The program was conducted as a trial to determine whether the proposed members were worthy in scholarship, leadership, service, and character.

Beth Ann Taylor defended the scholarship of those on trial by saying, "All the students in question have 85 or above on scholarship for the past two semesters."

Joan Sadler testified on the leadership displayed by these nine students in Midland High School. Betty Sue Knickerbocker revealed a wide range of service accomplished in fields of music, publications, athletics, and clubs.

A candlelight ceremony concluded the program. Blue and gold candles placed beneath the shield of the National Honor Society were lighted by the initiates.

The "Bulldog's" choice for the District 3AA all-district basketball team is Sam Stovall, Abilene forward, Peppy Blount, Big Spring forward, Cecil Blair, Lamesa center, Jon Cowser, Odessa guard, and Anderson, San Angelo guard, were chosen for the first team.

The high scorer for the Bulldog cagers the past season was Captain Charlie Kelly who scored 154 points. H. G. Bedford and Billy Stickney were second and third, scoring 145 and 127 points respectively.

Frank Troseth Leads High School Band In Assembly Friday

Friday morning the High School Band played before assembly with Frank Troseth directing.

Calendar Of Coming Events

- Monday—Spelling tests; seventh period six weeks exam. Tuesday—Clubs meet; second, fourth, and sixth period exams.

Midland Boys Who Build Planes For Bombardiers

When the Midland Army Flying School needs planes of enemy nations, the Midland school boys and girls were quick to answer the call. Now the planes are rolling off the line. In the picture are shown, left to right, Max Allen; R. C. Ferguson head of the manual arts department of the high school and director of the plane-building program; Bobby Roripaugh, Pete Williams, Billy Graybeal, and Lt. Colonel John W. students of the school were not present for the concert at which the above picture was made.

Midland High School Students March Hand In Hand To Aid Defense Program; Many State Preference In War Program

Have you selected your defense programs, high school boys and girls? They say you are too young, but you are proving to them day by day that they are talking about the men and women of tomorrow, not today's youth.

All of these jobs are behind the actual fighting and winning of the battles of the armed militia. "There must be sixteen men on the ground to maintain each fighting man in the air," said Dr. Wiggins of El Paso School of Mines in a recent address to the high school student body.

In the flying forces of the air there are many well trained pilots and more to come. Students in this high school are at the present time arranging their remaining educational development in accordance with the field of war efforts.

Exchange Column

"Emerson was always active in community life. If he were living today he would probably be an air raid warden."

2 GARMENT SPECIAL

At "Home Defense Concert"

The patriotic theme was featured in music and in platform recitations when students of the Watson School of Music were presented in a "home defense concert" at the First Baptist Church last week. Eight students of the school were not present for the concert at which the above picture was made.

Federated Clubs--

(Continued from page 1)

for the affair. Mrs. Strom possesses many Indian relics as well as an outstanding collection of antiques.

State President to Speak
 Monday night will be designated as President's Evening. All club presidents will be in the procession and will be introduced by Mrs. J. Howard Hodge, who is in charge of the evening's program.

State President, Mrs. J. W. Walker, and Mrs. J. C. Cunningham, district president, will present their official addresses.

Tuesday, club reports will be made and at noon a luncheon at the Settles Hotel will honor junior club women. All convention visitors are invited to attend this luncheon for which the Modern Woman's Forum and the Delta Kappa Delta Delphian Chapter will be hostesses.

Drive to points of interest in the city has been planned for Tuesday afternoon.

The Victory Dinner at the Settles Hotel Tuesday evening at 6:30 o'clock will honor all convention visitors. Decorations and appointments will feature the patriotic motif.

Fine Arts Program
 The Fine Arts program at 8:30 o'clock, Tuesday evening, under direction of Mrs. Louis Caddell will be one of the high points of the convention. It will be presented in the municipal auditorium.

Wednesday noon a Good Neighbor luncheon will be held with clubs of Coahoma, Stanton, and Forsan as hostesses. The newly-elected district officers will be honored. Latin-American music and dances will carry out the Good Neighbor theme in the luncheon program.

Midland Delegates
 In addition to district officers named above, the following official delegates from Midland clubs will attend: Mrs. Hal C. Peck, City-County Federation; Mrs. A. P. Shirley, Fine Arts Club; Mrs. Geo. Vanaman, Modern Study Club; Mrs. Louis Caddell, Twentieth Century Study Club; Mrs. Russell Conkling, Woman's Wednesday Club; Mrs. Ella Mahoney, Home Arts Club; and Mrs. Harold E. Berg, Progressive Study Club.

In addition a number of other Midland clubwomen are expected to attend as visitors.

Because of the war effort and the interest of clubwomen in learning what they can do for national defense, this year's convention perhaps will be less gala than those in the past, officials said.

COAST GAS SALES RISE DESPITE BAN
SAN FRANCISCO (AP)—An expected slump in gasoline sales in California as the result of rubber and auto rationing has turned into an increase. Consumption in January exceeded that of January 1941, according to a survey by the Western States Promotion council.

with Mrs. H. E. Skipper, 605 S. Weatherford, Friday afternoon at 3:30 o'clock.

Escondida Club will meet with Mrs. J. L. Greene, 706 W. Louisiana, Friday afternoon.

Red Cross workroom in the Old Heidelberg Inn will be open Friday morning from 9 o'clock till 12 and Friday afternoon from 1:30 o'clock until 5.

Rankin Highway Club will meet with Mrs. Charlie Lynch, Friday evening at 8 o'clock, for a 42 party with husbands as guests.

Petit Jurors Named For Week Of March 16

Jurors for the third week of the Midland County Court, which will begin March 16, have been named. The list includes E. M. Allen, R. O. Brooks, L. J. Bryan, Floyd Counsell, Jr., Ralph Geisler, S. P. Hall, E. S. Hitchcock, O. J. Hubbard, Roy McKee, Sherwood O'Neal, W. E. Pigg, and Hugh Walker.

Wink City Finances Show Fine Improvement

WINK (Sp)—The City of Wink has issued a financial statement showing that the condition of the city is sound. It is operating on a cash basis, and the statement shows that a number of debts contracted as far back as 1935 have been paid, amounting to approximately \$1500; sewer bonds are being retired ahead of due date, and the sewer department shows a profit. Many delinquent taxes have been collected, and additional equipment for the fire department has been purchased and paid for.

Maurice Tixiers Visitors Here

Mr. and Mrs. Maurice Tixier of Casper, Wyoming, were dinner guests Saturday evening of her brother, Hilton Kaderli, and Mrs. Kaderli, 503 W. Storey.

The Tixiers and their small daughter, Linda Susanne, arrived Friday for a visit with her parents, Mr. and Mrs. W. A. Kaderli, at Stanton. They will be guests of the Hilton Kaderlis here early in the week.

The Tixiers formerly lived here where he was with the Schumberger Well Surveying Corporation.

PALS SOCIAL CLUB MEETS WITH MRS. WASHAM

Games of bingo were diverted when the Pals Social Club met with Mrs. Gene Washam, Wednesday afternoon. Prize was won by Mrs. Helen Abbott.

A party plate was served to the following members: Mmes. Abbott, Dorothy Whitson, Harry E. Barney, Lena Weathered, Doc Miller, Evelyn Wilson, J. W. Gray and the hostess.

Next Wednesday's meeting will be with Mrs. Lena Weathered.

Good Milk Is Important Factor In Health For Defense; Care Outlined

By Dr. W. S. Brumage
Midland County Health Officer
(Note: Since publication of the grades of milk sold in Midland County was made last week in The Reporter-Telegram, it might be well to emphasize the importance of good milk in the National Defense setup.)

A safe, abundant milk supply is recognized as an important factor in our National Defense. Milk and cream together, either by themselves or in combination with other foodstuffs, make up about one-sixth by weight of all the food eaten by the average American family. Milk supplies in particularly convenient and usable form materials that children need if they are to develop strong, normal bodies; and it is a valuable food for adults especially when it is combined with such foods as cereals and green vegetables.

Briefly stated, milk is an extremely valuable food because it contains, first, materials that children need for growth; second, materials that young and old alike need for the repair of their body machinery; and third, materials that all need for fuel, to provide them with heat and with the energy necessary for work.

This does not mean, however, that milk has these ingredients in such proportions that it can serve satisfactorily as the only food of a grown person or even of a child. Since it contains such a high percentage of water, five or six quarts each day would be required to meet the needs of an adult if milk were his only food, and in this case unnecessary quantities of protein would be consumed.

On the whole, milk as well as even more thoroughly digested than other animal foods. When milk is the only food eaten by a healthy adult, decidedly less of its nutrients are digested than is the case when it forms a part of a mixed diet. Taking other food with the milk hinders the formation of lumps, or curd, of casein in the stomach and so makes the milk easier to digest. Of course, very young children digest mothers' milk alone better than any other food, because such milk is thoroughly adapted to their use.

That the best food for an infant is milk from a strong, healthy woman is admitted by everyone. When this is not obtainable, the more nearly the substitute resembles it the better. Cow's milk is the most common substitute and when necessary may be artificially modified.

Fortunately, most healthy babies thrive on good cow's milk or on cow's milk simply modified. It is the sickly who require special preparations, and their needs vary so greatly that only the physician familiar with the case, and not always he, can say what change is necessary.

The milk for babies should be the purest obtainable, and should be cared for scrupulously after it is delivered. In fact, it is usually more important that the milk for babies should be pure than that it should be especially rich, for the fat in very creamy milk may cause difficulty in digestion. Since raw milk may contain harmful bacteria, pasteurized milk is often considered safer for babies.

Besides the chemical compounds, milk contains minute forms of life called bacteria, which enter it from many sources during milking and handling. Milk is an ideal food for bacteria, and they multiply rapidly when the temperature is favorable.

Philosopher

LEON WEAVER
In the new Republic Picture "Tuxedo Junction". One of the features now showing at the Ritz.

FLIERS ARE INJURED

ENID, Okla. (AP)—Lieut. V. Alberty, 26, Hollywood, Calif., and Flying Cadet Carroll W. Jones, 21, Okemah, Okla., were injured Saturday when their training plane crashed at Waukomis, nine miles south of here.

orable. Most bacteria, however, are very sensitive to heat and cold, a fact of great practical importance in handling and marketing milk. Cooling milk to 50 degrees F., immediately after it is drawn from the cows, is an effective way to check the growth of bacteria, and Pasteurization is the most satisfactory way of destroying them by heat, without producing undesirable changes in the milk itself. Pasteurization is a common method of applying heat so as to destroy as many bacteria as possible without producing undesirable changes in the milk. Many cities now require that all except certified milk and "special" milks be pasteurized before sale.

In Pasteurizing, milk is generally heated to 143 degrees F., held at this temperature for 30 minutes, and then rapidly cooled. This treatment does not make the milk entirely free from bacteria, though when done by the best commercial method it destroys a large proportion of the bacteria present and delays souring. While efficient Pasteurization destroys disease germs, such as those of tuberculosis, diphtheria, and typhoid fever, it is not an insurance against future contamination, and as great care should be taken of Pasteurized as of un-Pasteurized milk.

No matter how well milk has been handled up to the time it is delivered to the consumer, it can not be expected to keep well if it is then carelessly treated. Milk should be kept clean, covered, and cool; these three points consumer as well as producer should never disregard.

Fortunately, we have 44 grade A Dairies and two Creameries in Midland County, which cooperate admirably with the health program. The City of Midland adopted and enforces the 1939 Milk Ordinance and Code recommended by the United States Public Health Service. This insures the people of Midland wholesome, healthy milk for young and old alike.

Scrap Campaign Continues; Yields Very Fine Results

DALLAS—The Texas petroleum industry's scrap collection campaign is bringing big results, Charles F. Roeser of Fort Worth, general chairman of the Texas Mid-Continent Oil and Gas Association's drive, said here Saturday.

"Hundreds of tons of old iron and steel have been piled up in collection centers in leading Texas oil counties, Roeser said. 'Already some of this has been loaded into freight cars and is now on its way to Eastern mills to help relieve the steel shortage. Much of the cast iron is being moved to Texas foundries which need it and which can use it more cheaply and quickly.'

"Collection week, ending today, is only the kickoff in our scrap campaign. We're in the game until it is won. In fact, next week should see even more scrap trucked in and loaded out for shipment."

So gratifying were the results of the week's drive that Roeser is extending the campaign indefinitely. "I am asking county chairmen and State committeemen and other operators to keep on collecting the scrap as it accumulates, for the duration of the emergency," Roeser said. "We don't want to make this a one-time proposition, but a continuous program of collection. With the organization which we now have, operators will find it easy to keep on moving in their scrap as it may pile up to dealers for shipment to foundries and mills."

Building Permits For Texas Total \$5,593,691

By The Associated Press
Building permits for the week in Texas totaled \$5,593,691 with 150 projects, reports the Texas Contractor, building trades publication.

Engineering projects totaled \$4,770,980 and building construction \$822,711.

Houston forged ahead of Dallas for the year with permits of \$2,881,325. Its total for the week was \$678,965.

City	Week	Year
Houston	\$678,965	\$2,881,325
Dallas	198,296	2,802,889
Fort Worth	191,933	934,529
Austin	156,225	596,396
Galveston	66,223	373,528
Corpus Christi	64,465	1,256,827
Ablene	59,285	202,119
Lubbock	49,275	740,523
Waco	47,533	270,988
Midland	15,600	132,390
Wichita Falls	10,850	77,096
Tyler	5,320	57,107

Eat Properly And Win The War

It has been said "an army travels on its stomach." This being so, you, the men and women of tomorrow, eating properly? Below is a well balanced daily proportion of meals suggested by Texas State Food Standard:

- 1 pint to a quart of milk
- 1 egg
- 1 serving of meat, poultry, fish or cheese
- 1 serving of Irish or sweet potatoes
- 1 serving of green or yellow vegetables
- 1 other serving of vegetables
- Fruit serving and another during the day
- 1 serving whole grain products
- Other cereals and bread as desired
- Butter, or margarine with alpha-betic vitamins added
- Some sweets
- 6 to 8 glasses of water.

Miss Muirhead Talks To Nursing Class

Miss Sudie Pearl Muirhead, physical education instructor, gave a talk to the home nursing class, on "Health of the Older Child." Friday morning at the courthouse. It was the classes last chapter and Miss Muirhead ended their final discussion before their exams. She centered her subject on health of Midland High school youths, and used several of her outstanding pupils for examples.

She told the nursing class about the physical and health education program for the past three years in high school and of its future plans. Miss Muirhead related how the pendulum of education is moving over for more formal gymnastics and tumbling, and more body building. She stressed the health habits that are not being taught, and told how the homes could help.

A program is being arranged for every high school child to play physical education, Miss Muirhead said, and its aim was "a sound mind in a sound body."

Lynch Speaks To Future Homemakers

At the Future Homemaking Club meeting Thursday, Dorothy Fay Lynch, freshman, gave a talk, "Kitchen Fronts," in which she revealed how the English people conserved their food supplies. She emphasized that the English had the amount of meat in one week that we Americans have in one day; also that the English students were raising chickens for their armies. Geneva Thompson, senior, spoke on "Sugar Conservations." In her talk she told how the American people were beginning to conserve their food supply.

Miss Iva Butler, foods teacher, told the students how the foods classes were learning to cook with less sugar, using syrups and honey for a substitute. She told them how to make a cake with less sugar than is usually used, and how to make one without any sugar at all.

Those Western Maniacs!

Bud Abbott (L) and Lou Costello go "western" in their latest Universal comedy riot, "Ride 'Em Cowboy" which opens a four day run at the Yucca Theatre today!

'What Would You Do In Case Of An Air Raid In Midland?' Miss Butler Puts This Problem Before Foods Classes

"What would you do in case of an air raid at Midland Army Air Field?" This was the question which Miss Iva Butler asked her seventh hour foods class. Following with this question, "Where could you serve best?" Miss Butler gave the girls something to think about. In order to prepare the Future Homemakers of America with an adequate food supply for an air raid emergency, the girls were instructed to plan meals for 25 persons which would meet the requirements of the Texas State Foods Standard. Each of the food students took energy building and yet easy to keep foods to prepare during such an emergency.

The second problem presented by the foods instructor was to prepare a well balanced, palatable meal when all usages of heating were discovered. With the restoration of the gas supply, the girls were given the same instructions. Experiments were made in Thursday's laboratory in the usages of foods without sugar and meat substitutes. Examples of these sugarless and meatless foods include the following: red beans and tomatoes, salmon croquettes, spinach, mixed vegetables, unsweetened peaches, cocoa which had honey and karo replacing the sugar.

The menu taken by these homemakers in replacing lightbread or rolls were whole wheat muffins, biscuits, and corn bread. Miss Butler announced that such programs would continue in the near future.

The fifth and sixth period second year foods girls have as their present program hospitalization in case of an air raid. Two girls, La Verne Hastings and Mildred Jones, are making an attractive hospital bed from an orange box. Virginia Countess, Alberta Lee, and Lauragene Landis are preparing a bed tray to be used in the hospital room. A bed cradle is being made by Jean McCracken and Lorene Styron. Jo Ann McCracken, Rose Beth Shirley, and Tommy Jean Newsome have as their duty that of making pressure rings. A rubber sheet is being prepared by Faye Shelburne and Jo Ann McCracken. A service tray is being enameled by two homemakers—Johnnie Gray and Frances Brasher.

Equipping an adequate medicine cabinet for war time emergencies is another duty for these classes. Miss Butler announced that the Midland homemakers are following examples of many other high school homemakers in Texas.

Eisenwine Is Explosives Agent For Winkler County

WINK (Sp) — Jake Eisenwine, Deputy County and District Clerk, has just received his appointment as Explosive Licensing Agent for this county, through the Department of Internal Bureau of Mines, Washington. Any purchase of explosives of any kind must be made after receiving a proper license, according to Eisenwine. His appointment is for the duration of the war.

Clubs Meet Once; Mary Floyd Speaks To Business Club

Because of an extra assembly program last week, clubs were in session only once.

In the Pan-American Club, sponsor, Miss Jacobina Burch, presented a talk on the Pan-American Union, stressing the flags, products, and individualities of each of the Latin American nations.

Having as its chief topic in Thursday's meeting that of discussing one hundred octane gasoline, the Science Club explained the relationship between the motor and the fuel of an automobile. Mr. G. B. Rush, science sponsor, stressed the importance of Diesel motors to the members.

As a special feature in the Photography Club's activities Thursday, Mr. Sam Spears, diversified occupations instructor, explained the usages of each part of a camera.

Miss Sudie Pearl Muirhead's Coaches Club began competition in badminton Thursday with each member alternating in refereeing and playing.

Newly organized Variety Club, under the direction of Miss Ella Lund, discussed club dues and Catocal pictures last week.

The Dramatics Club had as its chief diversion last week that of rehearsing the two plays "Whodunnit" and "The Last Man On Earth."

Mary Floyd, Evelyn Huff, and Doris Jean Shookley were in charge of the Business Club's program Thursday. Mary Floyd read newspaper articles to the group which emphasized how to get and to keep your job. Members discussed the program which they are to present in a March assembly.
