

# Reds Crush Big Nazi Base Army To Direct Gulf Mexico Ships

## Defense Sea Area On Texas Coast Set Up

War Department Moves To Guard Shipping On Vital Texas Coast

By The Associated Press  
WASHINGTON (P)—A "Sea Range Area," in which private vessels may operate only with the consent of the War Department, was created by a Presidential proclamation Thursday in Gulf of Mexico waters adjacent to Padre and Brazos Islands along the Texas Coast.

Even after obtaining official permission to navigate the waters, ships will do so at their own risk and must comply with any orders issued by the War Department.

The area was described as lying between latitudes 26 degrees 45 minutes north and 25 degrees 57 minutes 30 seconds north, adjacent to Padre and Brazos Islands and the coast of Texas south thereof and extending easterly 25 miles into the Gulf, and including all waters of Laguna Madre south of latitude 26 degrees 45 minutes north.

Wednesday a "Defensive Sea Area" was established by a Presidential executive order for Matagorda Bay, between Galveston and Corpus Christi, which private ships may use only with the sanction of the War Department.

## Large Lease Deal Consummated In Northwest Martin

By Frank Gardner  
Oil Editor  
One of West Texas' largest lease transactions in several months came to light Wednesday when it was reported Sunray Oil Company of Tulsa, Okla., had leased 5,000 acres in Northwest Martin County from John E. Mabee, Tulsa oil man who operates an extensive ranch in Martin and Andrews counties.

The acreage reportedly lies in leagues 255, 256, 257 and 258, all in Briscoe County school land. Leases are said to have been taken for a 10-year period on a straight commercial basis, with unconfirmed bonus of \$500 per acre and 50-cent annual delay rentals.

Anhydrite was topped at 1,180 feet in Ed McAdams ad. No. 1 W. D. Johnson, Western Borden County wildcat. The well is drilling ahead past 1,970 feet in anhydrite.

**Andrews Wildcats**  
Humble Oil & Refining Company No. 1 H. O. Sims et al, extreme Northwestern Andrews wildcat and deepest active operation in the county, is drilling unchanged at 5,880 feet in line.

A short northwest outpost to the Fullerton deep Permian pool of Northwestern Andrews, Magnolia Petroleum Company No. 2-11-37 B. B. Ralph, is drilling red rock at 1,875 feet.

In West Central Andrews, Atlantic Refining Company No. 1-A Texu, scheduled 8,700-foot Ordovician test, is drilling at 3,607 feet in anhydrite.

**Ogilvie Shutdown**  
Steel line measurement corrected total depth of 6,020 to 6,015 feet in Anderson-Pritchard Oil Corporation No. 1 Charlotte Gregg Ogilvie et al, Northern Pecos County Ordovician wildcat test, and it has been shut down for repairs. Schlumberger was run. Contract depth was 6,000 feet. The well topped the Simpson, middle Ordovician, at 5,675 feet and at present depth either is in the Bromide member of the Simpson or at the top of the Tulip Creek member. It logged base of the Permian at 5,230-40 feet and drilled detrital, reworked Silurian and possibly some Montoya, upper Ordovician, before entering the Simpson. No shows have been delayed.

Seeking Delaware production in Northwestern Ward County, J. E. (Gene) Fitzpatrick and Fred Hyer No. 1 Pruitt is drilling at 4,565 feet in the last fall.

Magnolia No. 1-60 George Sealy, one-mile north outpost to the Poyote (Darby) pool in Ward, is drilling unchanged at 3,142 feet in line.

## Davies Says Bombardiers Symbolize U. S. Offensive

Mexico Expected To Declare War

LONDON (P)—Roundabout dispatches from Germany said Thursday that Berlin expected Mexico to declare war upon the Reich following receipt of an answer to her demand for satisfaction in the submarine-sinking of a Mexican tanker. It was said the German reply would be delivered Thursday.

## North Ward School To Present Closing Program Friday

North Elementary School will present a patriotic play, "America Through the Years," as its closing program of the year, Friday afternoon at the North Elementary School. The play will be presented twice, at 1:15 p. m. for parents of first and second grade children and at 2 p. m. for parents of third, fourth, and fifth grade students.

Songs and dances of the different periods in the history of the United States from the days of the first settlers to the present will be presented.

Junior High School commencement exercises will be held Thursday morning, May 28, at 10 o'clock at the high school auditorium.

South Elementary School presented its closing program, featuring dances, last week.

## Nye, Wheeler Ask To Have Investigation

WASHINGTON (P)—Demands for a general investigation of charges that attempts were being made to "smear" some Senators who oppose intervention in the war prior to Pearl Harbor met with opposition Thursday from Democratic Leader Barkley (Ky).

In an interview, Barkley said he did not favor launching any inquiry of this nature—as proposed by Senators Nye (R-ND), Wheeler (D-Mont) and Clark (D-Mo).

The demands were made after Barkley told the Senate Wednesday that a Justice Department investigation had exonerated Senator Walsh (D-Mass) of charges that Walsh could be accused of "conspiring with enemy agents" in a Brooklyn house of ill-repute, charges which Barkley said were published in the New York Post.

Nye told reporters that he and others intended to press for an investigation of what he described as "a definite campaign to smear certain members of the Senate" which he said had been "going on for months."

## Gibraltar Gets US Troops, Axis Report

NEW YORK (P)—Axis and Axis-dominated radios asserted Thursday that United States troops had arrived at Gibraltar, although they differed somewhat on details. There was no confirmation of these reports, all of which were presented as emanating from Algiers, Spain, near Gibraltar.

Victory said one transport carrying 5,000 troops followed an aircraft carrier and two cruisers into Gibraltar roadstead Wednesday night.

## Defense Housing, Slowed By Army Order, May Be Allowed To Resume

WASHINGTON (P)—Defense housing construction throughout the country is slowing to a standstill as a result of the Army's hold on virtually all supplies of softwood construction lumber. War Production officials disclosed Thursday.

In at least 15 cities, many with heavy concentration of war industries, housing projects have been stopped entirely and at least 35 other cities have reported "critical" situations because of dwindling lumber stocks. Similar reports from other defense housing areas are flooding into Washington daily.

Direct cause of the threatened collapse of the housing program is a WPB order, issued a week ago at the insistence of the War Department, "freezing" all sales and deliveries of softwood construction lumber by large producers for 60 days

## Army Air Force's New Bombardiers

The following aviation cadets were commissioned Thursday as second lieutenants:

James P. Alexander, Jr., Joseph H. Bagley, Jr., Robert W. Barrall, Ted Brannon, Thurman D. Burnett, William St. J. Chubb, Loy G. Coffee, Parkman W. Davis, Theodore S. Drew, Andrew D. Fee, Robert M. Freeman, Kenneth Gaynor, James M. Gill, Phillip Gram, Gerald G. Gray, Edward L. Griffin, James M. Hainon, Maurice E. Herbert, David A. Hillmann, Francis G. Hodge, Jr., Orval D. Huff, John A. Johnson, Robert E. Kaluzsa, Edgar W. Keller, Rone H. Lewis.

James J. McDermott, Jr., Lawrence O. McKenzie, Edward J. McPherson, John E. Maloney, William A. Marshall, Richard E. Martin, Albert C. Naum, Raymond F. Olshak, John F. Paschal, Jr., George A. Pinner, John B. Quigley, Percy W. Robinson, Albert S. Rogers, Daniel B. Schwimmer, William J. Scott, Clarence H. Shirley, Robert A. Simpson, Henry M. Sparger, Harold R. Taylor, Melvin J. Trimpe, Carlus Turner, Francis J. Wallace, William B. Werther, Harold R. Wright, Jr., Phillip A. Lanzo.

Ivan W. Arno, Jr., Donald C. Baird, Jr., Robert Berry, Robert F. Erubaker, Edward J. Brunl, Robert A. Coltrane, William Colantoni, Theodore P. Definer, Robert L. Edwards, Alfred P. Philippon, Charles H. Presidential, Howard E. Gilbert, Joe D. Gillon, Jr., Robert D. Grant, Benjamin F. Green, Jr., Robert P. Grover, James G. Hawthorne, Elmer O. Herron, Alvin Hirschberg, John V. Hogan, George R. Hunter, Edward J. Kalish, John F. Kelt, Leonard R. Kozarek, Joseph R. Lindsey, Olin K. McDonald, George E. McNeice, Zanon B. Malanchuk, Harold J. Mann, Estell Q. Martin, Robert A. Miller, Earl F. Nickerson, Jedediah G. Owens, Henry B. Peschau, Jr., Charles D. Porter, Jr., James H. Reid, Fenton Rodgers, Robert O. Scheible, Fred B. Scott, Bob E. Sells, Albert J. Simone, Charles G. Sorrell, Jack D. Swickard, Richard F. Tobin, Allen K. Trobaugh, William J. Turner, Harry J. Weiss, Jr., Robert S. Wilkins, Robert E. White, and John S. Trost.

## Plumber's Problems Under War Priorities Explained By Howe

Problems of the plumber and the builder under war time priorities were described Thursday noon by John P. Howe in an address to Midland Rotarians at their meeting in Hotel Scharbauer.

He urged proprietors of all firms whose merchandise and supplies are under priorities to explain terms of the ratings to customers before making sales, and he cautioned buyers not to sign priority ratings until they are familiar with their terms.

Regulations for defense jobs, and the activities of labor organizations also were discussed by Howe who said he plans to serve his Midland customers just as long as he can obtain materials.

Wallace Wimberly entertained with several piano selections. R. L. Miller was in charge of the program.

## Andrew Fasken Ships Yearlings Wednesday

The first herd of cattle to be driven into town for a considerable distance in more than a year was that of Andrew Fasken, a herd of more than 200 yearlings and short yearlings, steers and heifers. Shipment was by rail to Liberty, Missouri, and consigned to Bob Duden.

With the weather cool, and the roads good, Fasken chose to drive the animals instead of trucking them to the shipping point.

"There certainly was no intention of stopping defense housing," James S. Knowlson, director of industry operations, declared Thursday, "and something will be done about it."

## Second Large Class Gets Wings And Bars At MAFS Thursday

Brigadier General Isaiah Davies told new bombardiers at the Midland Army Flying School "America is in the war to win and the bombardiers will win it."

Addressing the second graduating class at the world's largest Bombardier College, its commanding general said "The bombardier symbolizes the American offensive.

"He is in the role of a team member. His watchword must be coordination and cooperation.

"You are fighting men in every sense of the word as officers and bombardiers," the general said in the exercises for the commission of the new bombardiers as lieutenants.

"You are graduating to a tradition of American fighting men—men who don't give up. You are graduating to the ranks of men who will win the war.

**Fight For Liberty**  
"You are a grave responsibility. You make decisions affecting the lives of many. You are men who do not give up. You are men who fight not because you like to fight, but because of principles and liberties.

"Your real test is yet to come. Some of you will be remembered as heroes while some will do what has to be done without notice.

"Your job is to carry the war to the enemy. You now are officers in the greatest democratic force the world has ever known."

Smiling, General Davies had a personal word for many of the new officers as he presented the commissions.

## Disprove Theory

Hitler's theory that only German blood can produce heroes is being automatically disproved at least once every three weeks at the Midland Army Flying School, General Davies said in awarding commissions and wings to the largest class of bombardiers to be graduated from the big war school.

"The Nazis claim that only German blood creates heroes. Yet every three weeks, we are graduating into one of the most heroic of all military callings men with the names and blood of virtually every nation," General Davies said.

Illustrative of his point was the presence in the class of men whose names denoted Irish, Dutch, English, Italian, French, Slavic, Greek, Polish and even German extraction.

Stressing the unusually high mental and physical qualifications of bombardiers, the general said the men who complete the course have many expectations of becoming outstanding heroes in World War II.

"This is true because the bombardier is the man who personally carries the war to the enemy."

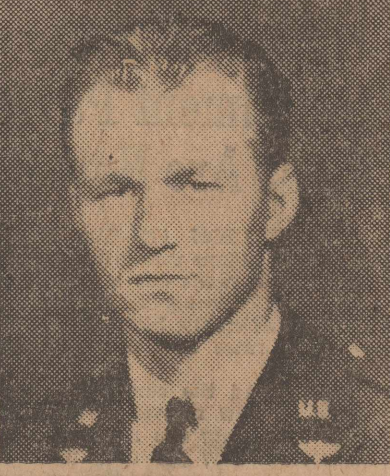

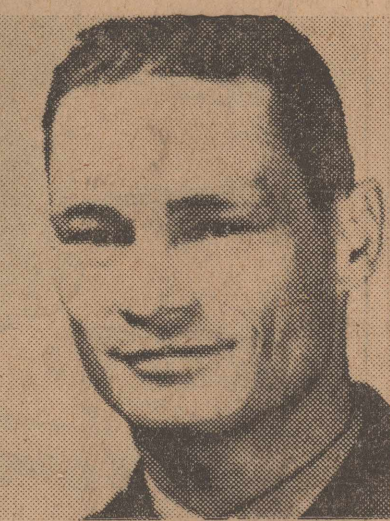

## Exercises In Theater

The exercises were held in the post theater. They were simple war-time brief exercises. Chaplain Theodore Schoech gave the invocation. Lieut. Carl W. Allen, bombardier school secretary administered the oath to the class.

Lt. Col. John P. Kenny, director of training, introduced General Davies. After his address the general awarded the commissions and Col. Kenny awarded the wings.

Training school officials include Davies, Kenny, Allen, and Lt. Col. John W. White, assistant director of training. Capt. Roscoe C. Crawford, commandant of the cadets, and Major Bertram C. Harrison, squadron commander of training unit two.

## Dropped Bombs On Tokyo

These four aviators, three Texans, were among those awarded the D. S. C. for their bombing of Tokyo and the Jap mainland under the command of Brig. Gen. James Doolittle. Left to right on top, Capt. D. M. Jones, Winters, Texas; Maj. J. A. Hilger, Houston, Texas. Bottom left to right are: Capt. E. J. York, San Antonio, Texas, and Capt. C. R. Greening from Hoquiam, Washington. (NEA Telephoto).

## Lieutenant Colonels White And Garland Receive New Assignments

Lieutenant Colonel John W. White and Lieut. Col. William M. Garland, both prominent in the bombardier training program at the Midland Army Flying School, have been assigned to new stations, effective Monday.

Colonel White will go to Big Spring where he will be project officer during construction of the Army's Advanced Flying School there. On its completion he is scheduled to become director of training at the school. At the Bombardier College here, Colonel White has been director of flying.

Colonel Garland has been ordered to Carr Field, San Angelo, effective Monday, where he will be project officer during construction of this Advanced Flying School. On completion of the school, he is scheduled to become its director of training. Colonel Garland has been assistant director of training for ground school at the Midland Army Flying School.

Colonel H. R. Baxter, executive officer of the Bombardier College, recently was appointed commanding officer at Goodfellow Field, San Angelo. He takes up his new duties in San Angelo Monday.

## Seminole Youth Was Killed In Islands

Ray L. Jackson of Seminole, son of Mrs. Fannie Jones Jackson, was reported Thursday by the War Department as killed in action in the Philippine Islands.

The War Department announced several additional names Thursday, Jackson being the only one in this section of the state.

## WAR BULLETINS

WASHINGTON.—(AP)—The Navy announced Thursday that a medium-sized United States merchant vessel had been torpedoed several weeks ago off the northern coast of South America. Survivors have been landed at an East Atlantic coast port.

WASHINGTON.—(AP)—Secretary of the Navy Knox informed President Roosevelt Thursday that the former French liner Normandy could be salvaged. The ship, taken over by this government for a troop carrier, burned and keeled over on her side at a New York pier.

AUSTRALIA.—(AP)—Amid indications that the Japanese are striving to conserve their bomber forces for a large-scale attack in the future, Australia moved Thursday to draft an additional 35,000 men into the civil construction corps, preparing for a great Allied offensive.

## Fierce Attack Takes Russian Army Seven Miles Into Defense

Guerrillas Behind German Lines Destroy Nazi Equipment, Retake Captured City, As Thousands Filter Through German Lines

By The Associated Press.  
Marshal Semeon Timoshenko's army reported Thursday that it had crushed one of the key German defense strongholds on the Kharkov front, wiping out the Nazi garrison in a fierce 40-minute struggle and storming forward six more miles.

Reporting the success of the sudden new surge in this sector, Red Star, mouthpiece of the Russian Army, declared that the stronghold was one the Germans had sought to hold at any cost.

At the same time, the growing strength of organized Russian guerrillas behind the German lines was said to be dinning an ever louder challenge to the Nazi grip on once-conquered Soviet soil.

Pravda reported that Guerrillas had recaptured one important city of several thousand inhabitants deep in White Russia, driving out Germans who had held the community for four months and beating off a strong German force, which attempted to recapture positions there in a dawn-to-dusk battle.

The importance of the city—its name was undisclosed—was indicated by the fact that it is the center of 70 collective farms, each a community comparable in size to the average American country village.

A Russian communique made no specific claim of further Red Army gains in the drive to recapture the Kharkov industrial center, but declared that "during the night of May 20-21 our troops continued offensive battles in the Kharkov direction."

## Skilled Workers To Be Deferred, War Board Says

WASHINGTON (P)—The War Manpower Commission Thursday directed the Selective Service System to instruct all local boards to consult with federal employment service officers before drafting any individual "skilled in a critical war occupation."

The directive included in an 8-point program announced by Manpower Chairman Paul V. McNutt to promote "the fullest utilization of the manpower of the nation."

A Manpower Commission spokesman said the action was intended to bring about closer coordination between draft boards and employment offices in the deferment of workers irreplaceable in war industries.

## Japs Attack Key China Coast City

CHUNGKING (P)—Japanese troops have been landed near Foochow, chief port and capital of the east coast province of Fukien, and have been engaged in heavy fighting with Chinese defense forces, the Chinese high command announced.

The invading force was carried aboard a dozen transports, which made their way up the Min River to a point near the city.

The descent on Foochow, a city of 400,000 and largest port between Shanghai and Hongkong, was a southward extension in the series of Japanese attacks which is assuming the character of a major offensive intended to knock China out of the war.

The new invasion was coupled with a land drive southward in Chekiang Province, south of Shanghai, in a determined effort to conquer that zone in which supposed air bases are a threat to Tokyo.

In the Far West in Yunnan Province, the Chinese reported they had recaptured Kanlanhai, key point on the Lungkiang-Kiao-Tengyueh highway, and seized large quantities of Japanese war supplies. There was no change in the positions along the Burma Road west of the Salween River and the Chinese said the Yunnan front was becoming stabilized.

On the Leningrad front Russian troops cut a road between two enemy centers of resistance and slew 600 Germans to repulse Nazi counter-attacks intended to restore the line, and Red Army artillery and mortar fire accounted for 300 more on northwestern sectors, the information bureau reported.

(Reichsmarshal Hermann Goering told German workers in Berlin Wednesday night that "this war is the hardest Germany has had to fight"; that Adolf Hitler suffered deeply for his troops during the winter campaign, "but he knew he must not yield."

The assembly of the first plane, Sorensen said Thursday, has proceeded that airplanes can be built by the same mass production methods that Henry Ford introduced into the automobile industry with his Model T car.

## One Every Hour! 30-Ton Bombers Start Rolling Off Assembly Line

DETROIT (P)—The first of the big four-engine bombers which soon will be put into mass production based on automobile manufacturing methods has rolled off the new half-mile long assembly line of the 37-acre Willow Run plant, the Ford Motor Company announced Thursday.

Edsel Ford, president, told correspondents on the National Association of Manufacturers "Production For Victory" tour that completion of the first bomber assembly marked a new phase in Ford's war manufacturing which now includes approximately 70 different contracts, including tanks.

"The bomber program we are now beginning is equivalent to the whole motor car business," Charles E. Sorensen, vice president, declared. "Our work on general war production will double the entire peacetime business of the Ford Motor Company and our employment will also be about doubled."

The bombing plane, which will be produced on the design of the Consolidated Aircraft Corp., is known technically as the B-24-E. It is a giant ship weighing 30 tons, powered by four Pratt & Whitney, 1,250-horsepower engines with a cruising range of 3,000 miles at a speed of 300 miles an hour. It can carry four tons of bombs.

Sorensen already has been quoted as saying the Willow Run plant has been built on an estimated production rate of one bomber every hour. Workers in the new plant probably will go on to three eight-hour shifts when high speed turn-out is attained.

A GOOD MOTHER WILL NEVER DESERT A SON IN DISTRESS. SO BE WORTHY: Standing by the cross of Jesus his mother.—John 19:25.

Shares The Rides

If you are one of those who have demanded that Washington find something concrete you can do toward winning this war, your time has come.

Right at home, without hardship or sacrifice, you can help to save lives of tens of thousands of Americans, to knock months or years off the time it will require to whip Hitler, perhaps even to save us from defeat.

You can resolve, and plan, and organize—and make good—to save rubber by sharing your car with others when you drive to work, go shopping, take the children to school, or use the automobile for any essential purpose.

If we continue operating our cars as we have, 20 millions out of the 33 millions will be laid up by late summer of 1943, for the duration of the war.

That would be a national tragedy. It would slow down to a snail's pace the present made tempo of our production. It would prolong the war by reducing the weight of material we can throw against Hitler and the Japs. It would mean the death of tens of thousands and the maiming of hundreds of thousands of soldiers, sailors and marines who need not be sacrificed.

Our whole productive economy is based upon use of the automobile. Without it, we can not get our war workers to and from their jobs.

We can not possibly meet the production demands of all our war without automobiles for workers' transportation.

In a year or 15 months, if we ignore present warnings and continue to waste rubber, vital factories must slow down because many workmen won't be able to get to their jobs.

By sharing rides the available tire supply can be made to last between three and four years. By that time we hope to have ended the war. If we haven't, there will be at least a possibility of relief through the production of synthetic rubber for the most pressing needs.

We can triple the lifetime of our national tire supply by sharing rides systematically, intelligently and universally. Probably we won't No such system ever works perfectly. But, to beat Hitler, it would seem worth the attempt.

All over the country isolated agencies are promoting the idea. The National Association of Manufacturers is co-operating with the Office of Defense Transportation. The Michigan State Highway Department is experimenting in Pontiac. The Associated Industries of Maine, the Massachusetts Planning Board, the Connecticut Manufacturers Association are surveying the possibilities. The California Shipbuilding Company in Los Angeles, the Tennessee Coal and Iron Company in Birmingham are in the midst of experiments.

Here is a chance for individuals and organizations, and service clubs, civic associations, Legion posts and women's clubs to organize share-the-ride groups, to save rubber, to shorten the war, to save good American lives.

—Buy War Bonds And Savings Stamps—

Victory

Emperor Hirohito, Nipponese Son of Heaven, has commended his naval commander for the crushing victory over American-Australian forces in the Coral Sea.

The maximum Japanese claim appears to be eight United Nations ships sunk or damaged and 98 planes shot down. On the other hand, we claim flatly and officially that we sank 11 warships and damaged six more in the Coral Sea engagement alone, plus several later. Our claims hitherto have proven conservative.

A few such Japanese victories will indeed prove crushing—for Hirohito and the Axis cause in the Far East.

—Buy War Bonds And Savings Stamps—

Newlyweds' Homes

The OPA's decision to limit installment buying works an unintended and unfortunate hardship on newlyweds. Unless they can save in advance, or borrow or beg the money, young couples will find it hard to furnish their homes. Under the regulations there must be a down payment of at least 20 per cent on furniture, as on other things, and the balance must be paid within a year.

The only solution Mr. Henderson's experts have found is for the youngsters to buy a few general utility pieces at a time, instead of outfitting the home all at once.

—Buy War Bonds And Savings Stamps—

Keep A Mask Handy

We are impressed with Nazi reiteration that "official assurances that Germany would not use poison gas hold as good today as ever." Surely nobody will worry about lethal gases after that. Do we not know the Reich's reputation? The "scraps" that bound her not to invade Belgium in 1914—remember? The Hague convention of 1899 and its renewal in 1907, pledging against use of lethal gases—remember, and the cloud of chlorine that killed 2000 and disabled 9000 Canadians and French colonialists at Ypres in 1915? The assurances to virtually every nation that Germany has devastated since 1938—remember them?

Trust Hitler, but keep a gas mask handy. If people could keep promises like they can secrets there wouldn't be any sense in making any.

"Great Axis Victory" In The Making

Installment Paying Of Income Tax Plans Are Now Being Worked Out

WASHINGTON (AP)—The House Ways and Means committee sought Thursday to work out a system of installment payments of income taxes to soften the blow of steeply increased rates in the low-income brackets.

Hardly had the committee completed its new individual tax program by raising the range of surtaxes from 6-77 per cent to 12-81 per cent than it turned to Secretary Morgenthau's proposal to collect up to 10 per cent of taxable income from salaries and wages.

That plan would authorize the Treasury Department, perhaps in September, to make regular deductions from paychecks which would be used as a credit against the tax bill due next March 15.

The committee's new income tax proposals would add an estimated \$2,756,000,000 to the \$5,000,000,000 now collected, with heavy emphasis on incomes below \$5,000.

The program would be based on \$500 exemptions for single persons and \$1,200 for husbands and wives, a normal tax of 6 per cent instead of 4, and minimum surtax rates starting at double the present level of 6 per cent on the first \$2,000 of net income.

The committee, rejecting a Treasury suggestion, decided to retain the present 10 per cent earned income credit up to \$14,000 in computing normal taxes only and also kept the present \$400 exemption for dependents.

Thus, the committee would bring into the income tax fold for the first time single persons earning as little as \$10 a week, would increase the average \$10,000 a year Congressman's tax from about \$1,200 to about \$2,000, and would increase the tax of a \$50,000-a-year man from about \$20,000 to \$25,000.

Treasury tax experts have explained in this manner the so-called salary "withhold tax" as a means of collecting income taxes on a "pay-as-you-go" basis.

Example of Plan
Take a man who earns \$200 a month and who has a wife and one child. He would have dependent exemptions of \$1,600. To that would be added 10 per cent of \$1,600 as little as \$16 a week, would increase the average \$10,000 a year Congressman's tax from about \$1,200 to about \$2,000, and would increase the tax of a \$50,000-a-year man from about \$20,000 to \$25,000.

Those monthly payments would be credited as part payment of taxes when individual returns are filed on March 15.

Peanut Vendor, President Nos. 1 And 2 Selectees

WASHINGTON (AP)—President Roosevelt drew serial number U-2 in the fourth registration drawing of his Selective Service Board Thursday.

James D. Hayes, chairman of the board that registered the President and White House aides on April 27, said U-1 was drawn by Steve Vissalakos, peanut vendor in front of the executive mansion.

The President, as Commander in Chief of the Armed Forces, has been classified 1-C, the designation for those in the forces.

Ladies Don't Like The Climb

OLYMPIA, Wash. (AP)—When the civilian defense agency put an air raid spotter's nest in the dome of the 287-foot statehouse it seemed a good idea. Women on the spotter's crew, however, objected to having to climb to the dome, so the nest is there any more.

Vegetables And Fruits Become Tasty Appetizers

By Mrs. Gaynor Maddox
NEA Service Staff Writer

Radishes, cucumbers, apples and apples are used by Russian-Americans as the base of delicious appetizers. The following recipes for appetizers, called "Zaguzki," have been tested by the editors of the new "Russian Cook Book for American Homes." All use in ingredients on sale in the average food store.

VEAL SALAD, RUSSIAN STYLE

Two apples, 1 large cucumber, peeled, 1 small dill pickle, 3 small boiled potatoes, peeled, 2 cups cubed veal (cooked) mayonnaise.

Cut up apples, cucumbers, dill pickles, and potatoes. Mix with

Russian singer Tamara is fond of Zukuski—dainty appetizers. The cubed veal. Add mayonnaise. Mix well and chill.

Kream Krust Bread Superior Product

Made by King's Bakery, sold by leading grocers and served by particular grocers, Kream Krust Bread contains a high content of milk, shortening and other rich ingredients and ranks high in food and health value.

Bread has always been a major part of man's diet and of high nutritional value because of the food content of proteins and carbohydrates which it possesses. Both of these elements are productive of increased vitality and energy, but of equal importance are the other ingredients.

King's Bakery makes Kream Krust Bread which is as fine a bread as is possible to bake. This bread is not only balanced in food value but it is fully 50 per cent richer in food value than the average loaf of a decade ago. Ingredients are purest, highest quality obtainable and these are skillfully blended by master bakers in a spotlessly clean and modern baking plant into the finished product, which contains

vitamins essential to good health,—including vitamin B1,—and one that should be served at every meal. King's Bakery also bakes pies, cakes, rolls and other pastries that are distinctive and delicious in taste. They are baked daily and their quality carefully maintained regardless of the cost of material and other circumstances.

King's Bakery is always open to public inspection. From the time their mixers start until their finished products are wrapped and offered to the public they make every effort to supply patrons with products made under the most sanitary conditions possible. Their business policy is one of cooperation with local residents, buying their supplies in Midland whenever possible and thereby supporting home industry. Ask for Kream Krust Bread and other products of King's Bakery and you shall be sure of the best but do your share in supporting home-owned industry. (Adv.)

Bomber Crashes, None Of Crew Is Hurt Seriously

A Midland Army Flying School bomber fell about 11 o'clock Thursday morning six and one-half miles northwest of Midland, one-half mile off the Andrews Highway, almost totally wrecking the plane, but with no serious injury to the Army four-man crew.

Lieutenant Madison, a member of the crew, made his way to a nearby windmill, and there Captain W. E. Wallace and Mrs. Wallace met him in a car and took him to the Midland Army Flying School. Other members of the crew remained with the ship.

Sheriff's Posse To Have Steak Supper

A steak and bean supper has been planned for the Sheriff's Posse at Cloverdale Park at 7 p. m. Friday. Dan Hudson said members of the posse will meet at the barns at 5 p. m. and ride to the park.

Council City Audits Annual City Audit

The annual city audit was received and accepted by the city council at its regular meeting late Wednesday. The audit was made by Nolan C. Phillips & Co. of Waco. The council also authorized payment of a number of routine bills.

LIVESTOCK

FORT WORTH (AP)—(USDA) —CATTLE salable 1,500; calves 600; common and medium slaughter steers and yearlings 9.00-11.25 good kind 11.50-12.50, choice grade scarce. Beef cows 7.50-9.50; bulls 7.50-9.50; good and choice killing calves 12.00-13.50; common and medium grades 9.00-11.50; good and choice stocker steer calves 12.00-14.00; stocker heifer calves 13.00 down; yearling stocker steers 9.00-12.50.

Hogs salable 1.300; top 14.10; packer top 13.00; most good and choice 13.00-14.00. - 1. This flag with horizontal stripes of white, green and red belongs to a Balkan country which has declared war on the United States. Name it.
2. What do American soldiers mean if they say a man "is full of feathers"?
3. Why should Shikoku, one of the four main Japanese islands, be of special interest to Americans?

Answers on Classified Page

PERSONALS

Mr. and Mrs. Ebin Holiman and his mother have returned from a trip to Dallas.

Spence Jowell, patient at Western Clinic Hospital, is reported to be in about the same condition as Wednesday with a possible slight improvement.

The cards game of cribbage is an outgrowth of a similar game called "Noddy."

Planned Feeding Program Essential

The Midland Feed Store's excessed are home products of unexcelled quality. They also mix feeds to order. B. H. Spaw, Prop.

The business of farming profitably has in the past twenty years become a problem of greater consequence each year. This situation is particularly true in the growing and feeding of stock and poultry. In this respect experiment and study on the part of the nationally known feed manufacturers and state agricultural colleges has revealed that rationing for either stock or poultry must consist of something more than farm grains if the most profit is to be realized. Farm grains are splendid when used as a base but should be supplemented with other elements to obtain the maximum in profit.

The Midland Feed Store has been particularly active in seeking out and passing on to farmers the facts concerning feeds and feeding. The result is that their feeds have acquired a splendid reputation in this section as feeds which get results.

Their feeds are made from Texas produced grain and are sold at prices which do not include freight costs, necessary on all feeds shipped in from other states. They have a mixing machine with which they can mix feeds to order, thereby giving you an opportunity of having your own grains mixed according to your own formulas.

In addition to these things the fact that the Midland Feed Store is a Midland institution and through taxes on their holdings, contribute to the city and county expenses, so that when you buy their feeds you are boosting a local industry whose manufacturing costs are represented to a great extent by wages paid to employees and kept in local where they are distributed with local people. The Midland Feed Store invites the poultry raisers and farmers of this section to consult with them on their feeding problems at an time and allow them to help you plan your feeding program. (Adv.)

## South American Luncheon Closes Year For Club

The Woman's Wednesday Club's "Good Neighbor Tour" as its year's study of Latin-American countries was entitled, came to an end with a South American luncheon at the home of Mrs. Andrew Fasken, 1511 W. Missouri, Wednesday afternoon at one o'clock. The meeting was the last one of the current club year.

The luncheon was served in buffet style from a table centered with mixed flowers carrying out the South American colors of red, yellow, blue, and green. Fiesta pottery service and bright-hued cloths on the small tables where guests were seated after being served added a brilliant note in keeping with the theme.

Yearbooks for 1942-43 were distributed.

Mrs. J. D. Bodkins was present as a new member of the club. Other members attending were: Mmes. Russell Conkling, J. M. DeArmond, George Glass, James H. Goodman, M. R. Hill, Fay Cowden, Clyde Cowden, C. W. Chancellor, O. B. Holt, R. L. Miller, Eric Payne, Robert M. Turpin, M. C. Ulmer, W. G. Whitehouse, and the hostess.

## Beta Sigma Phi Hears Reports At Regular Meeting

Reports on the cadet dance and on another project of Beta Sigma Phi now underway were heard at the meeting of chapter with Mrs. S. R. McKinney at her home on San Angelo Street, Wednesday evening.

Miss Alma Heard, new president, told of attending the state Beta Sigma Phi convention at Amarillo. Attending this, the last regular meeting of the year, were: Miss Marguerite Bivens, Mrs. Ralph Guyer, Mrs. Frances Stallworth, Miss Roselle Girard, Mrs. John Porter, Miss Maedeele Roberts, Mrs. M. D. Johnson, Mrs. T. J. Potter, Mrs. Cecil Waldrep, Miss Heard, Miss Dorothy Newbery, and Miss Wilma Ruth Holman, and the hostess.

## Home Arts Club Closes Year With Morning Coffee

To close the year for the Home Arts Club, Mrs. John B. Mills, retiring president, was hostess for a coffee at her home 912 W. Kentucky Wednesday morning at 9:30 o'clock.

Larkspur centered the lace-laid coffee table where Mrs. Marvin English, incoming president of the club, poured for guests. Napkins bore the name of the club.

Roses were used in the party rooms.

Mrs. G. W. Brennehan, vice president, presented Mrs. Mills with a gift from the club in appreciation of her services.

Present were a guest, Miss Essie Robinson of Big Spring, and Mmes. R. S. Brooks, N. W. Bigham, C. M. Dunagan, John Dunagan, English, F. W. Reiser, B. C. Girley, Ivan Hood, T. R. Higginbotham, G. W. McCoy, Ernest Neill, and the hostess.

## Install New Organ In MAFS Chapel

A new organ was installed in the chapel at the Midland Army Flying School Wednesday.

MAFS is one of the 700 military establishments to receive an organ. They have been placed at post chapels all over the United States and in Iceland, Pearl Harbor, Alaska, and South America.

Special musicians will be trained to play the organ here. Billy Muth, representative of the Hammond Company, will instruct the organists. He directed installation of the organ in the MAFS chapel.

The organ cabinet is located in the balcony of the chapel. Tone and volume is amplified through a concealed speaker.

## "Spring Fantasie" To Be Presented

As its closing concert, Watson School of Music will present pupils in a "spring fantasie" at the First Baptist Church, Tuesday evening, June 2, at 8:15 o'clock. The public is invited.

The program will be mostly capricious theme with an occasional military note. Decorations will be of the military type interspersed with flowers.

Summer classes of the school will start immediately after the close of the current term.

## Valley View To Have First Aid Course

"Kitchen Improvements" was the chief topic for discussion at the all-day meeting of Valley View Home Demonstration Club at the home of Mrs. Earl Fain, Tuesday.

Every kitchen should have a business center, it was stressed.

A covered dish luncheon was served at noon.

The Red Cross First Aid course will start June 1, the first meeting being held at Valley View schoolhouse at 8:30 o'clock at night.

Members present Tuesday were: Mmes. Sherwood O'Neal, Roy Lee, C. C. Cobb, F. T. Drummond, M. W. Randolph, and the hostess, Miss Alpha Lynn, county home demonstration agent, and Mrs. Robertson were visitors.

## DR. BRUMAGE IMPROVING AT HOME IN MIDLAND

Dr. W. S. Brumage, director of the Midland-Ector Health Unit, is reported to be improving nicely at his home in Midland where he has been ill for several days.

## Rocky Ford Moving Firm Modern

Rocky Ford moving vans at 1111 W. Wall in Midland is a modern fast and safe moving institution. Mrs. Annie Ford owner and operator.

For many years the transfer business was conducted with a team of horses and dray wagon. Later with the development of the automobile industry and nation wide road building programs, motorized transportation superseded the dray wagon and progressive transfer firms entered a new field in the industry, that of long distance hauling.

Rocky Ford moving vans has served this community for the past 15

## Novel Features Mark Meeting Of Study Club

The Pan-American theme was stressed in the Modern Study Club's last regular meeting of the year, held Wednesday at the home of Mrs. Geo. Abell, 1505 W. Illinois.

Mrs. Austin Flint was leader for the program and told something of the Pan American Union.

The American flag was placed in a holder first and afterward the flags of the other American republics, a brief talk on each country as the flags were placed affording a review of the year's study. Mrs. James H. Chapple played the national anthem of Panama.

Mrs. P. A. Nelson discussed "Art and Literature of the Americas", reading several poems by South American writers. Mrs. Chapple read one of the poems in Spanish.

Mrs. Lamar Lunt, retiring president, introduced Mrs. Geo. Vannaman, incoming president, who introduced other officers.

The staff for 1942-43 includes: Mrs. L. W. Leggett, vice president; Mrs. D. H. Turner, recording secretary; Mrs. Geo. Abell, corresponding secretary; Mrs. John W. Skinner, parliamentarian; and Mrs. Lamar Lunt, reporter.

After the installation of officers, the group adjourned to the porch of the Abell home where Mrs. Langdon Tennis danced a Spanish number, accompanied by Mrs. Eugene Vanderpool.

A tea hour was held in the garden, with refreshments served in the summer house where the Spanish theme was carried out in wicker donkey carts filled with flowers as table decorations and in the napkins.

Mrs. Foy Proctor and Mrs. Robert Turner sang Mexican songs.

Guests for the club program included: Mmes. Dana Secor, J. W. Devereux, Art Holland, D. Remer, J. M. Martin, W. Carl Clement, and J. R. Crump.

Members attending were: Mmes. A. J. Bedford, Chapple, Flint, M. T. Hartwell, J. M. Haygood, L. C. Link, J. E. Low, Lunt, Nelson, C. L. Sherwood, Tom Sealy, Skinner, D. H. Turner, Fred Turner, Vannaman, J. M. Devereux, W. W. Phillips, Bob Booth, and the hostess.

The club will have a called meeting June 3.

Games of bridge followed the service hour.

Mrs. Harris Eastham and Mrs. Wm. Y. Penn were guests.

Members present were: Mmes. A. B. Cather, John Cornwall, Alden Donnelly, David S. Gogins, R. W. Hamilton, R. C. Tucker, and the hostess.

SERIAL STORY CARIBBEAN CRISIS

BY EATON K. GOLDTHWAITE

THE STORY—Four visitors arrive at a Dutch West Indian island to complete the life of Bill Talcott, who is finishing six years there, as a branch manager for an American chemical firm. They are Halsey, Bill's successor; an auditor, who immediately accuses Bill of a large shortage in his accounts; MacDowell, a detective brought to take Bill back to the States if any irregularity were found; and June Paterson, beautiful cousin of Bill's former roommate. At dawn two more visitors arrive, deposited by a smuggling skipper after a fight in which MacDowell is wounded and Halsey routs the skipper.

EYE OF DEPARTURE

INEXPLICABLE as Bill Talcott's actions might have seemed to June Paterson, they were the direct and simple result of a combination of circumstances which, in the space of half a day, had changed the course of his life.

It is true that in questioning Halsey's orders and resenting his presence he had acted with ill grace, scarcely in the manner of one upon whom responsibility had rested for six long years.

Halsey was no coward and he was no fool. He had shown that clearly enough in handling the refugee smuggler. He had done so well that already black Tomas and Sebastian were looking upon him as a kind of super being; even June Paterson's eyes became stary as she inspected the rangy, lantern-jawed new manager.

about the guilt or innocence of Bill Talcott? Halsey was a Federal Chemical man. His life was routine, his blood was business. To him Plant Number Six was just a job, Bill Talcott just a plant manager being relieved.

BILL TALCOTT suddenly chuckled. "No matter how badly off he might be, he was in better shape than MacDowell." "Welcome to Abas," he chuckled aloud, and June Paterson, turning at his words, stared coldly.

Over a hastily assembled breakfast, the newest arrivals relaxed somewhat. First audience by any right belonged to the woman, and after having regaled that she was Martha Swenson, she told of her escape from Norway.

As her voice died silence came out of the rocky barrenness of the island and settled on the terrace. It was as if the lesser beings in their fight for existence recognized and paid silent tribute to one of their number.

an imposing array of bottles, and already a strange assortment of pills of various colors and shapes had been chased down his throat with several glasses of water. "It's an outrage!" the odd man in the too-large clothing muttered.

"You were in Martinique," Bill Talcott said drily. The professor held the bow of his glasses, peering through the lenses at Bill Talcott as if inspecting a new and interesting specimen.

"Abas! I don't want to remain here. There's no anthropology here. Whatever natives you have are imports from the other islands.

Halsey handed her a cigaret. "I understand there's a supply boat due tomorrow," he said. "We'll see that you're safely delivered. We've all been—"

Senate Farm Help Larger Than That House Has Given

WASHINGTON (AP)—Cheered by a double victory in the Senate, administration farm spokesmen Thursday faced the tough job of getting the House to reverse its stand on major controversies over the annual agricultural appropriation.

Bus Use Regulations Outlined By Eastman

Coming Events

- \*FRIDAY Red Cross workroom in the Old Heidelberg Inn will be open Friday morning from 9 o'clock until 12. Advanced nutrition group will meet with Mrs. Frank W. Lewis, 1706 W. Missouri, Friday morning at 9:15 o'clock. Belmont Bible Class will meet at the Methodist educational building, Friday afternoon at 3:30 o'clock. Women's Golf Association will have its weekly luncheon, Friday afternoon at one o'clock, at the Country Club. Lucky Thirteen Club members and their husbands will meet with Mrs. J. T. Walker at the city hall, Friday evening at 8:15 o'clock for an old-fashioned tucky party. Children's Service League will meet with Mrs. R. L. Blunden, 2011 W. Brunson, Friday afternoon at 2 o'clock. \*SATURDAY Story Hour will be held in the children's library at the courthouse, Saturday morning at 10 o'clock. Treble Clef Juvenile Music Club will meet at the Watson Studio, 210 W. Ohio, Saturday morning at 10 o'clock. Dance for men in uniform and girls of the Corps Club will be held at the Soldiers Center, 213 N. Main, Saturday night. Officers of Midland Army Flying School and their guests will have an informal dance at the officers mess, Saturday night from 9:30 o'clock till one. An orchestra will furnish music. Women Will Help In Texas' Harvest Fields AUSTIN (AP)—An acute farm labor shortage is looming for Texas, in the opinion of state labor commissioner John D. Reed, who reported 19,253 workers left the state for northern fields during March and April as a result of solicitation by licensed agents. Farmers were finding it necessary, however, to use more women, children and relatively inexperienced help and were exercising ingenuity to adapt their programs to more efficient utilization of machinery, equipment and available labor.

## Exporter Hurler Leaves For Army, As Team Victors

By The Associated Press  
The Beaumont Exporters won a ball game and lost a pitcher Wednesday night.

Surging back after their loss of the previous evening, the Shippers clouted Elmer Rummus and Al Brazle for 16 hits and quelled the Houston Buffs, 9 to 1.

Leslie Mueller, Beaumont twirler who leads the league in strikeouts left for his home at Beeville, Ill., to enlist in the Army. He may return, however, if found unacceptable for service with the armed forces. He has defective vision and a trick knee.

The last place Dallas Rebels stiffened behind the steady pitching of Gordon Maltzberger and defeated the Tulsa Oilers, 4 to 1.

Maltzberger gave only four hits up to the ninth, when he yielded a couple more. All were singles. The Rebels got their seven hits off Glenn Gardner in the six innings he worked.

Merv Connors had a busy night; he racked up two hits, batted in the first Rebel run and handled 18 chances.

The Shreveport Sports took advantage of Peterson's wildness in the ninth and made it two in a row over the San Antonio Mission, 3 to 2. York opened the last inning with a single and moved to second on Salty Parker's sacrifice. Ballinger walked and Ralph Hamner fanned. Padgett beat out a roller to third.

Peterson tossed four straight balls to Jo Jo Vitter, forcing York home with the winning marker.

Lefty Brilliant, Sports pitcher, was taken to a hospital after being hit in the face by a ball, but an X-ray showed there were no bones broken.

The Oklahoma City-Fort Worth game was postponed because of weather.

## Mechanical Guardsman Gets Army Approval

LOS ANGELES (AP)—L. K. Gerkey, owner of a small engineering plant, said Thursday he has invented a mechanical guardsman which will relieve some of the soldiers guarding defense plants for front line war duty.

The mechanical guardsman, technically an interceptor fence detector, has been tested for several months at Northrop Aircraft Inc. Army engineers said they were "very much sold on this system."

They explained that it eliminates defects often found in such devices as high voltage barriers, photo electric cells and microphones.

Gerkey's guardsman instantly flashes a warning to a sectional sentry box and to a master board if someone attempts to trespass or to cut the barrier around the war plant.

**DRIVER, 82, HOD NO LICENSE**  
PORT JERVIS, N. Y. (UP)—George Johnson, 82, appeared in court and paid a \$10 fine for driving without a license. He had been driving that way for 31 years, he explained, but he "didn't know you had to have one, if you owned the car."

**MARBLE TOURNEY CANCELED**  
ROCHESTER, N. Y. (UP)—Ira C. Sapoznik, president of the New York State Marbles Tournament Association, has called off all state tournaments "for the duration of the war." The 1942 tourney was scheduled for Rochester this spring.

## Sports Roundup

By Hugh Fullerton, Jr.  
Wide World Sports Columnist

NEW YORK. — Although Navy Bob Feller is at a station without a ball team, it doesn't look as if his arm will get rusty. . . . He is scheduled to pitch for a Navy team, composed mainly of college players from Quonset Point, R. I., against Hugh Mulcahy's Fort Devens Army outfit Saturday in a preliminary to the Red Sox-Athletics relief benefit game. . . . Then Bob will go to Chicago to help out the service all-star outfit Dizzy Dean is assembling and contribute his share of the receipts to the Navy Relief Society.

### Names Make News

Two celebrated baseball names are on the roster of the Rome (N. Y.) Canadian-American League club. Hal Chase is an outfielder and Dale Mathewson is a pitcher. Neither claims relationship to their famous namesakes. . . . Wally Pipp, Lou Gehrig's predecessor as the Yankees' first baseman, is working in the Big Willow Run Bomber plant near Detroit. . . . Tom Siddham, Marquette football coach, takes orders from one of his 1941 players these days. Joe Kinsey, a guard, has been named air raid warden for the Marquette athletic office building. . . . And at Wayne University (Detroit) Dave Boxer won the 117-pound championship of the intramural boxing tournament.

### Blackout Regulations

During a Sally League ball game at Jacksonville, Fla., recently the umpire mistook the flagpole in left field for the foul-line marker and gave a Columbia player credit for a home run on a hit everyone in the park figured was foul. . . . When the customers finally subsided, there wasn't a pop bottle left in the stands. . . . The next night Crowther Boyd, secretary of the Jacksonville club, had a red lantern run up the flagpole so there wouldn't be another mistake.

## Allred Files For Place On Ticket

AUSTIN (AP)—James V. Allred Thursday formally made application for a place on the Democratic primary ballot as a candidate for U. S. Senator.

In a letter to E. B. Germany of Dallas, state Democratic chairman, Allred forwarded the \$100 filing fee with his application.

He gave his age as 43; occupation, attorney; residence, Bellaire, Harris County.

Allred, former federal judge and governor and attorney general of Texas, also reiterated his campaign platform in the application letter and added these points:

Opposition to any change in the community property laws of Texas, to any repeal of the present 27 per cent depletion allowed upon oil properties and to any extension of federal control over the oil industry.

Former governor and attorney general, Dan Moody who with Allred opposes Senator W. Lee O'Daniel also has filed formal application for a place on the ballot.

## May Store Wheat In Unused Garages

TOPEKA, Kas. (AP)—Tire and automobile rationing, a headache to many, may turn out to be a life saver for wheat farmers and elevator operators.

The grain men, with bins already full and one of the largest crops on record coming up in a few weeks, are eyeing garages, filling stations and automobile sales rooms, vacated since the rationing order, for use as auxiliary storage space.

Most of these buildings have strong concrete floors and properly cleaned could hold large quantities of grain.

The regular elevators throughout the grain belt are filled and there is no immediate prospect of movement of any of this stored wheat, most of it security for government loans.

With this picture, Gov. Payne Ratner heeded a request of grain men Thursday and directed Eiland Carlsson state grain inspector, to determine if the buildings abandoned by the automobile industry are suitable for conversion to temporary grain elevators.

British Honduras is the largest source of mahogany used in this country.

# Sports Slants

By Shorty Shelburne

First baseball club hit by the order to "dim out or get out" on night baseball games is Jacksonville, Fla. Brig. Gen. Kenneth T. Blood has ordered no night baseball in Jacksonville for the duration, terming the baseball club's dimout as unsatisfactory. . . . There's bound to be some word slinging if the Brooklyn park is knocked off the night baseball list. Leo Durocher is just the man that is suited for the position of official sand raiser.

### Can't Stop A Good Man

Is Charley Root through pitching baseball? I should say not, chum. The old Chicago Cub hurler is putting the boys in the Pacific Coast League out on their spikes—strikeouts. Charley went after his eighth win of the season against Hollywood Wednesday night. And he hasn't been beaten but once since leaving the Cubs. . . . Could the Cub manager be kicking himself for letting Charley get away. Off hand I would say he could and probably is.

### Excuses Are In Order

Speaking purely unofficially, but with logical facts as a basis, I would say that Sammy Angott is not very anxious to meet Alie Stolz any time soon in a return bout. The return bout has been called off because Angott says he suffered a turned ankle in the bout with Stolz last Friday night. . . . Return match wasn't supposed to be fought until July, and where I come from, turned ankles heal completely in shorter time than that.

### Piggly Wiggly Has Some

Good softball players will be in order in the Midland Softball League if and when it gets started. An unending flow of top-flight players come from Midland Army Flying School, and Piggly Wiggly's team of Midland is loaded with them. Piggly's third baseman is a nice fielder, and can really put the ball on 'em when they are sliding in. The battery of Hayden and Foster will be bidding for top honors. Both boys got hits in the game played at the softball park Tuesday night. Foster homered, and Hayden rung up a nice double. . . . Add Piggly Wiggly to your list of championship threats.

### Random Sports Story

In case the Brooklyn Dodgers wonder how they rate in St. Louis: A baseball autographed by the Dodgers brought \$300 at a War Bond sale; a common bowling ball, not autographed, brought \$28,500. About the only thing at the sale rating lower than the Dodgers were a pound of coffee, and an alarm clock, \$700. . . . The Dodgers may not rate much in St. Louis, but the boys are sincere contributors to the B. F. F. (baseball fine fund) which is bound to make them rate plenty high with someone—no, not the umpires.

### One Has Been Good, Try Three

One "expert race forecaster" has been very good in giving you three winners in three straight "name" races, so let's try three experts this week—they should be three times as good as one.

"Official experts" Neville Alfrey and Frank Gardner are picking about the same, but a new predictor, Raymond Ayles, differs slightly in his predictions.

Alfrey says it'll be Requested, Fair Case and Alsab. Gardner says, "My slant is Requested, Alsab and Sun Again. Ayles gives us Alsab, Requested, and Bright Willie. . . . Who's the best? Read it in Sundays Sports Slants.

# Plenty Of Great Athletes From MAFS Play Big Game

## Bombardier Graduates Make Great Records As Athletes Before Flying

By Private Tanner Laine  
Public Relations Staff, MAFS

They are graduating a batch of bombardier commissions Thursday at Midland Army Flying School—bad news for Tokyo and Berlin!

The Japs, we learn, used athletes to harden their men. Well, if you please, Hitler, Hiro and Musso. Uncle Sam uses his athletes to chill the enemy directly.

There are plenty of good athletes in that bombardier bunch, too, getting commissions Thursday and they are ready! Carrying out a bombing mission, you know, is like playing a pretty important game. You have got to have the clock-work precision born to great teamwork.

### Is Like Baseball

Bill Boni, Wide World war writer and former sportswriter, likens bombing to baseball. He says: "It's like a baseball coach who has several fine players, each of whom wants to be a pitcher. That's the central position, the one constantly in the spotlight. You can't blame the boys. After all, ever since the Wright brothers took off a Kitty Hawk in 1903 the pilot has received most of the credit. For many years it was the pilot that got all the credit and who was alone responsible for the plane's operation."

"But modern bombers have changed that. Each man has his responsibility and without a better than competent performance by each man the bomber must fail in its mission. The gunner is invaluable. He must protect the bomber on the way to its target and must see that it comes safely home again."

The pilot may fly the course, but it's the navigator who lines it for

him. The bombardier is very much on hand.

"As for the bombardier—far too few of our aviation cadets know that, on all of our bombers, employing the bombsight, it is the bombardier who actually is in command and control of the plane once it has reached its target. He isn't responsible merely for seeing that his bombs hit that target—he also determines when the bomber should start her run and when that run is completed."

### Bombardier Takes Over

"Just how the bombardier takes over control of the plane is a development in the realm of military secrets. But it is on secret that the Army Air Force is doing the utmost to see that henceforth all members of successful bombing expeditions receive full credit."

Col. Edgar P. Sorenson, the Air Force's director of bombardment, has a piece to say on this teamwork: "certainly not detracting from the heroism of the late Capt. Colin Kelly, Jr., who received a post-humous award for seeing to the safety of his crew of six after his bomber had scored three hits on a Jap warship in the first days of the Pacific battle. Kelly was killed when he was almost home."

"But in the first dispatches I saw made no mention of any other man in the plane. I wondered whether by some freak Kelly had been able to sink that ship in a pursuit plane. Not until several days later did we know Kelly was chauffeuring a bomber—and there was no mention then of the bombardier who let fly the bombs."

### Bombardiers Hit Headlines

But the bombardier boys are hitting the headlines now. And this gang from the world's largest Bombardier College are ready when they have the ball.

Here are some of the ex-athletes graduating at MAFS:

There's fiery John E. Maloney, from Jersey City, and boxer at Alabama U. Maloney won three boxing letters, was co-captain of the '38 boxing squad, and went high in the slugging tourneys. Later he was a pro pugilist. Hot-head Maloney don't like the below the belt tactics of the Japs. And he's got something to spar at them with now—he learned it well at bombardier school. He's got some knowledge of knock-out drops.

Grid coach of St. Mary's of the Mount high school in Pittsburgh, Pa., winner of three successive championships, Eddie Brunl of Pitt himself was taught to tackle at MAFS. Taught to tackle the job of tackling the Axis—not a football opponent.

John Franklin Paschal, Jr., of Batavia, O. used to do track chores at the Ohio State University. Now he is on the mark and speeding along in fast bombers dropping at targets as a cadet at MAFS. Like millions of American men, Paschal is not running out on a chance to speed the United war effort.

Schwimmer is Swimmer  
Olin Kenneth McDonald, of Cheraw, S. C., knocked 'em out as Southern Conference boxing champion at the University of South Carolina. Now he is a "Hell from Heaven" bombardier and has been made ready to knockout the Japs with bombs.

Guess what sport Daniel Bruce Schwimmer, Newton-Centre, Mass., listed as his best. You guessed it—swimming. Schwimmer was swimming captain of his high school team at Newton-Centre and also splashed at Missouri U.

One of the boys who'll be maybe tossing that third strike that means "you're out" to the Japs is Estell Q. Martin, Miami, Fla., now a "dangerous man-bombardier." A former baseball hurler at Brewton Parker Institute and the University of Georgia, he's learned the art of slamming bombs "across the plate."

From a man's sport to a man's job is the record of Harold Russell

## Brothers Batter Brooklyn, Break Win Streak In Thrilling Game

Wright, Hamden, Conn., who played a mean game of hockey at the U. S. Coast Guard Academy, New London, Conn., and who now is in a tougher game—bombardiering.

James Green Hawthorne, Montgomery, Ala., earned his letter in varsity baseball at the University of Alabama. Cadet Hawthorne has earned a greater award as one of the Air Forces' bombardiers. He will be a commissioned officer and full-fledged "Hell from Heaven" airman after Thursday.

### Sniped To Bomber

Sniper to bomber! The thrill of rifle shooting seems small compared with that of bombing even to a former state champion rifleman, Cadet Edward L. Griffin, Atlanta, Ga., who is a bombardier-officer-to-be. Griffin won his rifle championship in 1940 and in 1942 will be a champion bombardier.

Clemson College produces tough football teams and players. One of these gridders, Allen Kieffer Trobaugh, Brunswick, Ga., is a toughened airman at MAFS.

Lawrence O. McKeezie's set-to with any Japanese will not be a "love game" and the former Georgia Teachers and University of Georgia netter is an ambitious member of Uncle Sam's Aces of the Air—the bombardiers.

It's a bigger letter "B" for Jimmie McDermott, Wesley, Mass., who won varsity letters in football, hockey and baseball when he attended Boston University.

Francis Irving Wallace, Hopedale, Mass., covers more distance on one bombing mission at Midland Army Flying School and may cover still more than he did in all his athletic career in track and cross-country at Maine University and the U. S. Naval Academy.

### Fit Fighting Air Man

Fit for a fighting airman is Cadet Howard Ralph Taylor, Slater, Missouri, who played football at William Jewell College in Missouri.

The wealth of athletic talent of the class of 42-7 is indicated in its many college varsity team members. Some of them include: Leonard R. Kozarek, Duluth, Minn., Junior College, University of Minnesota; Owens, Malad, Idaho, football and basketball at Idaho University; Robert F. Brubaker, Clearwater, Fla., tennis at St. Petersburg Jr. College and Florida U.; Zanon Malanchuk, Wallingford, Conn., football at Detroit University; Bob Berry, Philadelphia, Pa., track (javelin thrower) at Westchester State Teachers in Pennsylvania; Al Peter Philippone, Narbert, Pa., varsity football at La Salle College; Harold J. Mann, Scranton, Pa., football at University of Scranton; John B. Quigley, Rutland, Vermont, football, basketball and baseball at Green Mountain College in Vermont; Robert Otis Scheible, Akron, O., swimming and track at Miami U.; Al C. Naum, Lima, Ohio, football and basketball at Ohio U. and Bluffton College; Bob White, Greenwood, S. C., football and basketball, University of South Carolina; Gerald G. Gray, Valley City, N. D., football and tumbling at Concordia College in Minnesota; Robert A. Simpson, Ridgewood, N. J., track captain in high school and team member of N. Y. U.; Al Simone, Jersey City, N. J., baseball, NYU and St. Peter's College of Jersey City; Ivan Arno, Jr., Errol, New Hampshire, basketball and skiing at University of New Hampshire; Theodore P. Deffner, St. Louis, Mo., swimmer at Illinois U. and Armstrong Junior College in Georgia.

### Hogan Graduates

And there's John V. Hogan, Niagara Falls, N. Y., the average bombardier, who hit the sports pages all over the nation, when he was declared the physically typical bombardier. Hogan's five feet, ten inches height, 160 pounds weight, is average for all bomb droppers. Hogan participated in track and baseball at Niagara Falls, N. Y. high school and at Niagara University.

## Morton Cooper Bests Brooklyn In Pitcher Duel; Brother Catches

By Judson Bailey  
Associated Press Sports Writer

The Cooper kids from Atherton, Mo., are taking up this year where baseball's other brother acts, the Deans, the Waners, the Ferrells and the rest, left off.

The combination of Morton Cooper pitching and Walker Cooper catching has become a fearsome battery for the St. Louis Cardinals and Wednesday the boys made a family affair of beating the Brooklyn Dodgers, 1-0, in a stizzing show at Ebbetts Field.

Mort pitched two-hit ball while Walker tripled and scored the only run to snap an eight-game Brooklyn winning streak and shut out the National League Champions for the first time this season.

It also was the first defeat of the season for Whitlow Wyatt, the Dodger ace who won two games previously without looking nearly as good as he did in losing this one. He gave up only four hits, but Walker's triple in the fifth, followed by Frank Crespi's fly to center, decided the game.

### Hits as Well

Morton Cooper, who made one of the three singles that Wyatt also allowed, faced just 30 Brooklyn batters, none of whom got past first.

This was the fifth time this year that the two Coopers had worked together. Their first effort brought an 8-0 shutout, but the next two times they teamed up the Cards were blanked, 1-0.

St. Louis came close to moving into second place by the victory over the Dodgers, but the Boston Braves managed to remain a half game in front by nosing out the Pittsburgh Pirates, 4-3, in ten innings.

The Cincinnati Reds crushed the Phils, 10-3, with Ray Starr pitching a six-hitter and Ray Lamanno sparking a 13-hit offensive with a grand slam home run in the third.

### Mel Hits Homer

Mel Ott hit his sixth home run with one on in the first inning to help the Giants get a 3-0 lead for Bob Carpenter in the first five frames against the Chicago Cubs. Then the Bruins went to work. Claude Passeau hit a two run homer in the sixth, Lou Novikov singled two tallies across in a three-run seventh inning and Bill Nicholson homered in the ninth. Final: Cubs 6, Giants 3.

Just when Manager Jimmy Dykes had straightened his Chicago White Sox out, the world champion New York Yankees invaded Comiskey Park and halted the Sox' seven-game winning streak, 4-1. Joe Gordon hit two home runs to chase Chicago humbly back to the American League cellar. Cleveland's game with the Boston Red Sox was postponed, and thus the Yank's first place lead was swelled to 13 percentage points although they are deadlocked in won-lost reckonings.

Air-tight relief pitching by Luman Harris raised the Philadelphia Athletics out of the basement with a 5-3 decision over the Detroit Tigers. The Washington Senators shared Chicago's cellar spot by folding 10-1 at St. Louis in a night game.

## Bicycle Registration Over 600 Mark Here

A total of 633 bicycle licenses had been issued in Midland at noon Thursday, and people were still calling for them. It is expected that near one thousand bicycles will be registered before the end of the week.

No definite deadline has been set on the registration, but people are urged to buy their licenses before the end of this week.

ANNOUNCEMENT

Didn't Even Ask For A Date

BECKLEY, W. Va. (P)—Great-trust hath no man than that he lend his spare tire to a stranger in distress. Five women were en route to Concord College when a tire blew out. They had no spare and no tools. Before long a man stopped and asked if he could help. He lent them his jack and his spare tire, told them he was W. S. Bennett, of Bluefield, and asked that they leave his tire in Princeton at a certain garage. He didn't even ask their names. As he drove off, one of the girls signed, "Whatta man."

Bishop Seaman To Dedicate Church

The Rev. E. Cecil Seaman, bishop of the missionary district of North Texas of the Episcopal Church will visit Trinity Mission on Sunday May 24 to dedicate and consecrate the church. The service will be at 11 a. m. Several candidates will be presented for confirmation by the Rev. R. J. Snell, minister of Trinity mission. Holy Communion will be celebrated by Mr. Snell, assisted by the Bishop. Immediately after the service a picnic for church members will be held at Cloverdale Park. The Men's

Business Bravery

LYONS, Kas. (P)—The fellow who purchased a filling station is the nominee of L. C. Needham, Lyons real estate man, for the title of champion optimist of 1942 in the little business field. Needham says the transaction involved a small station at Macksville. Club of the church will be hosts at the picnic. Sunday, May 24, is Whitsunday and all young people of the church make their Communion on this day. In keeping with this observance the Bishop's sermon will be "Christianity, A Youth Movement." All young people of the Church are urged to attend this service.

Natives Trap, Save Shells For Jap

JUNEAU, Alaska (P)—Returning from a tour of 54 native schools in all sections of the territory, George A. Dale, associate supervisor of education for the Office of Indian Affairs, reports the natives are reviving their ancient fishing and hunting arts in order to conserve ammunition. Wherever possible, he said, natives are taking game without the use of ammunition, and he quoted one old Eskimo as explaining "every time a seal is taken in a sinew net, that saves one '30-30 cartridge for Mr. Jap."

He Got There By A Tooth

CHEROKEE, Okla. (P)—Clee Doggett's newspaper says a Cherokee bridegroom was delayed slightly in arriving at his wedding the other day. The church was filling with people; the minister was ready and so were bridesmaids, the best man and the flower girls. Then the about-to-be-a-bridegroom gave a last tug at his tie, to be sure it was tight. His fingers slipped and he knocked out a false tooth that fell down a drain pipe. It took the plumbers an hour to recover the tooth.

Plenty Of Vitamins

Asparagus, bacon, turnips and toasted wholewheat biscuits—vitamin-rich luncheon.

Beauty Requisite No. 1 Is Bathing And More Bathing

By Alicia Hart NEA Service Staff Writer

A surprising letter from a surprised woman reports that a great many of her friends still are unaware that beauty begins with bathing. My correspondent was astonished to discover that the women, well dressed and well housed, didn't bathe daily. And a little polite inquiry revealed that it's a matter of principle with them. They believe a daily bath would "ruin the skin."

What a horse-and-buggy era ideal! It's true that a very dry complexion can be cleansed best by cream instead of by frequent washing with soap and water. But even the woman with that kind of complexion should bathe daily. It is healthful, and good health usually means a clean complexion. The daily bath is the very first step to good grooming. Try a hot one at night, with lots of soap and lots of time to loiter. A cool shower in the morning, or a dip in a cool tub, will set you up for your day's tasks.

DAILY SHOWER IS A "MUST"

If you have done such a thorough job of "converting" your time to wartime uses that you just cannot find time for a leisurely bath every day, then speed up the daily shower, but do set aside time for one or two relaxing tubbings weekly. The physical effect is considerable. The psychological benefit is great.

You have alluring eyes, a perfect profile. But if you haven't that "washed behind the ears" look and feeling, the effect of those features will be nil.

We, the Women

By Ruth Millet

American girls had better start a "Keep 'em Single" organization—and they had better start it in a hurry.

It's all right to share food with our allies—we have plenty. But sharing our eligible men with the girls of Iceland, England, Ireland, and Australia is something else again. There's not any surplus crop of marriageable young men.

Now about this "Keep 'em Single" idea. Well, here's how it might work. Every town could have such an organization of young women, whose purpose would be to correspond with young men in the service—just as the towns near army camps have organized girls to dance with service men.

The men say over and over that they want mail—and the farther they get from home the better letters and packages look to them.

Get Busy, Girls, and Write So if American girls get busy with pen and ink and give American service men some reason for wanting to come back single—maybe they won't be so lonely they take themselves wives in other countries.

This doesn't mean the American girl who writes to an American in the armed forces is supposed to nab him for her own. All she has to do is make him feel there's a girl back home who is interested enough in what is happening to him and what he is doing to write him first and then answer all his letters. If he has an American girl to write to, to tell what he thinks of this and that, he isn't so likely to find himself married to a girl of some other country.

If he comes home single, he is just one more potential husband for some American girl—whether it is the one who wrote him all through the war or one he meets after getting back.

But either way he has been saved as a husband for an American girl. That is the main idea. "Keep 'em Single" girls. They rightly belong to you.

Major S. W. Hulse Jr., Promoted To Lt. Col.

SCOTT FIELD, Ill.—Promotion of Maj. S. W. Hulse, Jr., 28, son of Maj. and Mrs. S. W. Hulse, Midland, Texas, to the rank of lieutenant colonel at this military university of the Army. His promotion was announced Thursday by Col. Wolcott P. Hayes, commanding officer.

Colonel Hulse, who came to Scott Field June 23, 1939, from Chanute Field, Ill., is assistant director of the department of communications. His father is in the quartermaster corps at the Midland Army Flying School.

Graduating from the United States Military Academy at West Point in 1936, Colonel Hulse graduated from flight training at Randolph and Kelly Fields before going to Chanute Field in 1937. At Chanute he took the course in officers' squadron communications.

He was born in Manila, P. I., where his father was a civil engineer, and his early schooling depended largely on the posts to which his father was shifted. These included Ft. Bragg, N. C.; MacPherson, Ga.; Schofield Barracks, T. H.; Philadelphia, and Highland Park, Ill. Before entering West Point he enrolled in the army preparatory school at Ft. Sheridan, Ill.

He was promoted to 1st lieutenant June 12, 1939; captain Oct. 15, 1940, and major Dec. 1, 1941.

College Girls Plan Wartime Food Budgets

By Mrs. Gaynor Maddox NEA Service Staff Writer

At Stephens College, for girls, Columbia, Mo., students are taking up the study of wartime food budgeting and nutrition. One of the basic problems is that of the nutritionally balanced day's menu, planned with food cost and war-market surpluses in mind. Study the following daily requirement list, then plan menu costs to meet the nutritional needs of your family.

FOOD REQUIREMENTS

Milk: 1 pint adult, 1 quart child; eggs: one daily minimum 3/4 per week; meat, fish or poultry: recommended, 1 serving daily (liver, one time a week), minimum 5 times a week; meat substitutes: dried beans, peas, cheese, peanut butter, eggs. Vegetables: 1 potato or more a day, two or more servings other vegetables, 1 green, 1 yellow; fruits: 1 serving citrus or 1 serving tomatoes, 1 serving other fruit; cereals: 1 serving each meal, whole grain or enriched; sugar and fats, to complete energy needs. For a day's menu, using all of the required foods, something like this may be planned for a weekly budget of about \$3.12 per person:

MENU

BREAKFAST: Stewed prunes in orange juice, corn flakes, oatmeal muffins, coffee, milk. LUNCHEON: Cream of bean and potato soup, hard enriched rolls, baked apples, honey cookies, tea, milk. DINNER: Flank steak with frankfurter stuffing, mashed potatoes, buttered broccoli, apple pie, coffee, milk.

COOKIES THAT CAN GO TO CAMP

Cookies for Uncle Sam's nephews stationed in camps should be the kind which will pack and ship well, arrive with all their goodness intact! Fresh-keepers are made with karo, which does not cut into your sugar ration, like the trio pictured here. The recipes are given below.

CAMP-TRAVELING cookies that are equally good for the home cookie jar (the youngsters will bless you for them) are these prime favorites:

Filled Drop Cookies. 2 cups sifted flour 6 tbsps. sugar 2 tps. baking powder 1 cup karo 1 egg, well beaten 1/4 tsp. salt 1/2 tsp. vanilla 1/2 cup shortening Jam or Jelly

Stir together flour, baking powder and salt. Cream shortening, add sugar and karo slowly, and cream until fluffy. Stir in well beaten egg and vanilla. Add sifted dry ingredients, a little at a time, blending well after each addition. Drop by teaspoonfuls on a lightly oiled cookie sheet. In the center of each cookie place about a half teaspoon of jam or jelly. Bake in a moderately hot oven (425° F.) 12 mins. Makes 4 doz. cookies.

Oatmeal Macaroons. 5 tbsps. butter 2 tpsps. baking powder 1/4 cups karo 2 eggs, well beaten 1 tsp. almond extract 3 cups rolled oats 1/2 tsp. salt

Cream butter, add karo a little at a time, and cream until fluffy. Add eggs and almond extract and blend well. Mix together oats, baking powder and salt; add to first mixture, mixing thoroughly. Drop by teaspoonfuls on an oiled cookie sheet and bake in a hot oven (450° F.) for 12 mins. Makes 3 doz. macaroons.

Log Cabin Inn Popular Resort

The Log Cabin Inn in Midland is one of this sections most popular resorts. The whole strata of our social and business life has, during the past decade been constantly changing from the long established customs which prevailed a generation past. Time was when the hotel dining room and fort-nightly quadrille represented the ultimate places to dance in cities of this size.

However, welcome changes have come and the Log Cabin Inn is operated for no other reason than to provide clean amusement for the residents of this trade territory, and their visitors.

In this respect dancing is one form of recreation which always has been universally popular with people of all ages and Midland is fortunate in having an institution such as the Log Cabin Inn whose management is sensitive to public demand for regular and well conducted dances with good music.

West Texas residents can attend dances every night at which the best music for dancing which is available is furnished. That this policy is appreciated is shown by the fact that these dances draw good sized crowds each night.

# McKENNEY ON BRIDGE

By William E. McKenney  
America's Card Authority  
In tournament play it is not enough just to make your contract—you must play for every possible trick. In today's hand, for example,

Fishbein			
♠ J 5	♠ K 10 6 4		
♥ A 5 3 2	♥ 3 2		
♦ Q 9	♦ J 4		
♣ A K 4 2	♣ Q 6 5		
Dealer			
♠ A Q 9 8	♠ K Q 9 8		
♥ K Q 9 8	♥ 10 8 6 4		
♦ 9	♦ 9		
Duplicate—None vul.			
South	West	North	East
♠ Pass	♠ 2	♥ Pass	♥ Pass
♥ Pass	♥ 4	♦ Pass	♦ Pass
Opening—♦ J. 11 21			

If Harry Fishbein, this year's winner of the Masters Individual, was playing at auction bridge, he would simply discard a spade on the third diamond lead, forcing East to ruff. Then he would have no other losing trick.

But Fishbein figured he must try for five-odd, and ruffed the third diamond with the ace of trumps. It is true he must now find the trumps split two-two or the spade finesse a winner. If both break wrong the contract is lost. But Fishbein reasoned that the spade finesse must be a winner, as West, with the top diamonds plus the king of spades, would have been in the bidding. Hence four-odd was still safe if the trumps were split no worse than three-one.

# Midland Girl Gets Noyes Scholarship

Margaret Ann West of Midland has been announced as a winner of a La Verne Noyes scholarship for the 1942-43 term at the University of Texas. The award is made annually to twenty students, sons and daughters of veterans of the World War No. 1.

Noyes, a Chicago capitalist, established a like number of scholarships in 49 colleges and universities of America, honoring men who served the nation as soldiers of the war. Each scholarship covers all fees and tuition charges for a year.

# Yoke Top Skirt

Slimming lines result when this yoke treatment is used on a skirt, as every woman who makes her own dresses realizes! You'll feel smartly dressed in this frock not only because of the smartly detailed skirt, but because of the simple, full cut bodice and the pretty open neckline. You can use this frock, too, for all daytime occasions. Practical for firm cotton weaves such as gingham or chambray, soft and pretty, too, in the cotton sheers.

Pattern No. 8185 is in sizes 34 to 48. Size 36 takes 4 3/4 yards 35-inch material.

For this attractive pattern, send 15c in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W Wacker Drive, Chicago.

Find all the patterns you need in our new Fashion Book, the latest catalogue of our pattern service. Styles for all sizes from 1 to 52.

Pattern 15c, Pattern Book 15c, One Pattern and Pattern Book, ordered together 25c. Enclose 10c postage for each pattern.

# FBI Has Positions For Young People

D. A. Bryce, special agent in charge of the El Paso office of the Federal Bureau of Investigation, Thursday announced that the FBI has a large number of positions open for qualified clerical personnel. Applicants graduating from high schools in May or June particularly are invited to submit applications at once, thus assuring appointment without delay at the close of the school year.

Positions as stenographers, typists and clerks are available to both male and female applicants who are 18 years of age or older, and interviews will be given at any time at the FBI office, 202 United States Court House, El Paso, Texas.

Bryce urged that parents interest themselves in these opportunities to counsel their children in the choice of an interesting and patriotic career with the FBI. He also announced that these positions are open to all persons who are high school or college graduates and American citizens. Interviews may be arranged in person or by letter.

# Well, Now, What Do You Suggest, Pard?

Pullet, plunker, or dud, what name do you like for bombardier cadets?

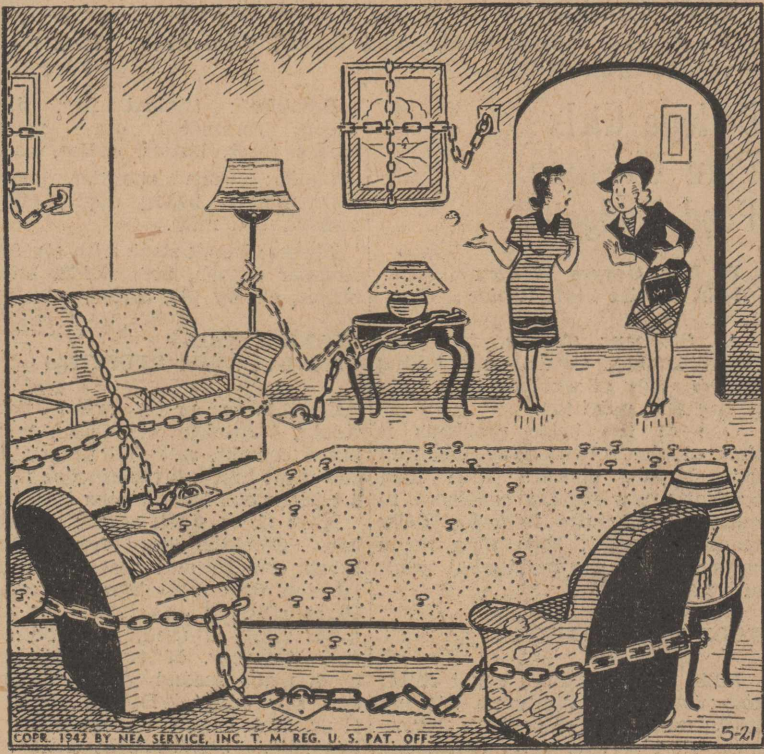

These are first suggestions that came in when the public relations office at Midland Army Flying School was requested to find a name for the tyro bombardier.

Why pullet—well tyro bombardier hasn't laid any eggs yet. Catch! Plunker—just a suggestion for the bombardier, whose air shots plunk to the target.

Dud—not to mean as it sounds useless, but rather to mean not explosive—yet!

ed that these positions are open to all persons who are high school or college graduates and American citizens. Interviews may be arranged in person or by letter.

# FUNNY BUSINESS

"We're expecting the installment collector!"

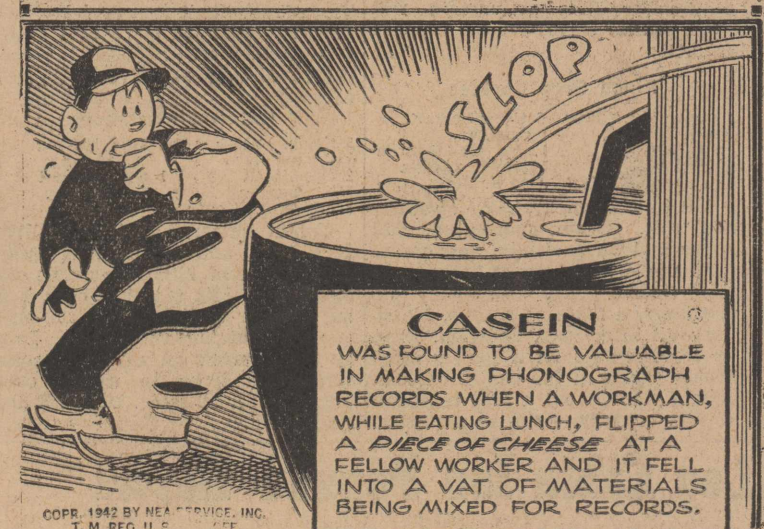

# SIDE GLANCES

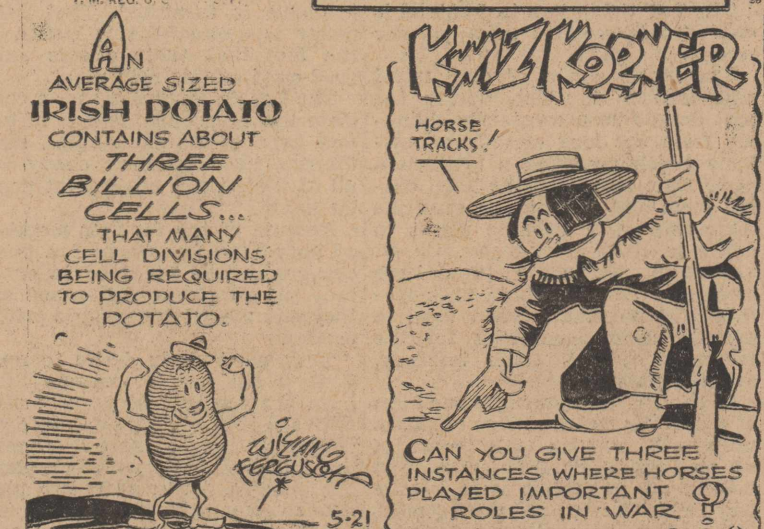

"Well, other men manage to tell their wives what goes on at the office! If you weren't the life of all the office parties, maybe you'd have more to say!"

# THIS CURIOUS WORLD

By William Ferguson

**CASEIN** WAS FOUND TO BE VALUABLE IN MAKING PHONOGRAPH RECORDS WHEN A WORKMAN, WHILE EATING LUNCH, FLIPPED A PIECE OF CHEESE AT A FELLOW WORKER AND IT FELL INTO A VAT OF MATERIALS BEING MIXED FOR RECORDS.

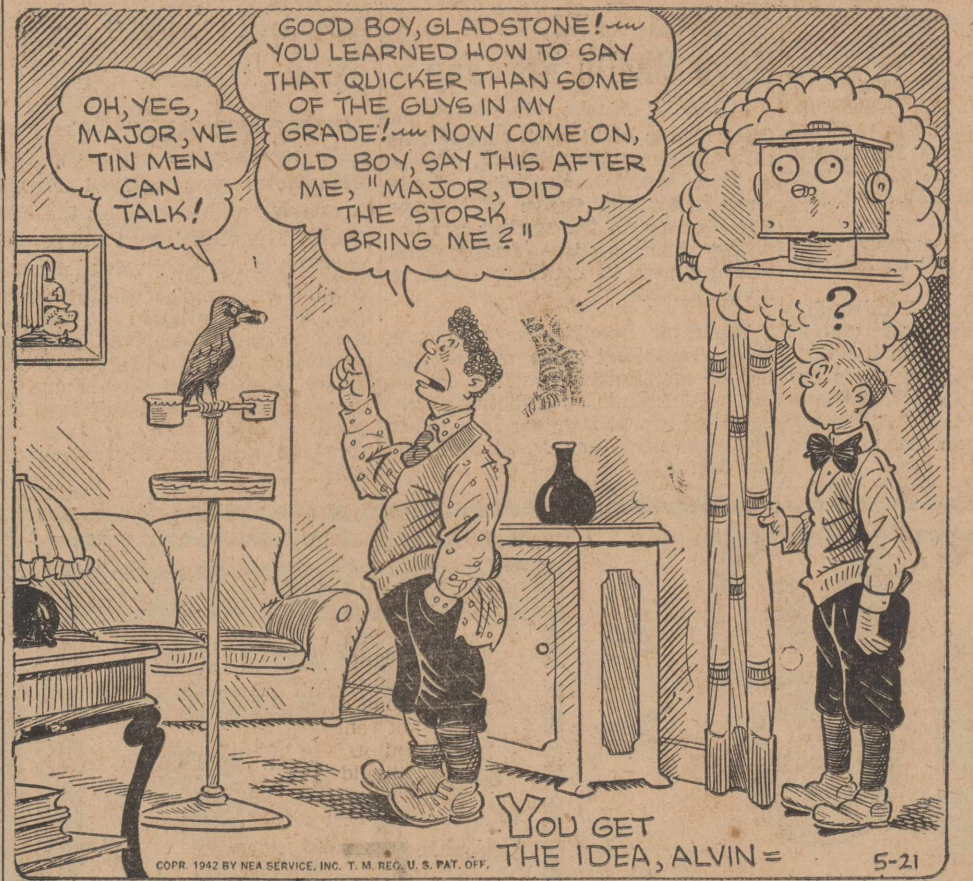

**AN AVERAGE SIZED IRISH POTATO** CONTAINS ABOUT **THREE BILLION CELLS...** THAT MANY CELL DIVISIONS BEING REQUIRED TO PRODUCE THE POTATO.

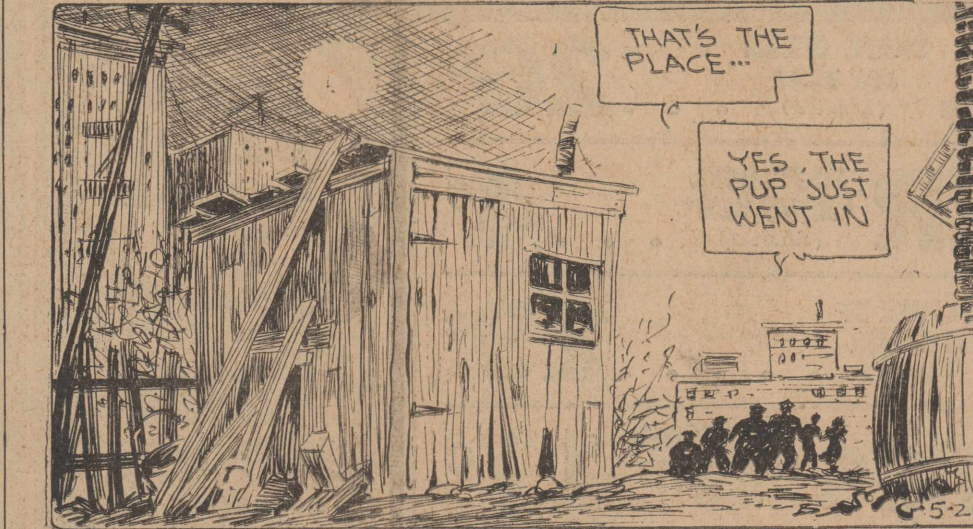

**KNOX KOPPER** HORSE TRACKS! CAN YOU GIVE THREE INSTANCES WHERE HORSES PLAYED IMPORTANT ROLES IN WAR?

ANSWER: The Trojan horse episode, Paul Revere's ride, Sheridan's ride.

## Farmers To Lend Land To Farmers

WASHINGTON (P)—Legislation to allow cotton farmers to lend temporarily their unused allotted acreage to other growers in the same state was agreed upon by a committee of Oklahoma congressmen.

Representative Jed Johnson, (D-Okla.) chairman of the group, said he would introduce the bill immediately.

Decision to offer the legislation came after representatives of cotton growers in Oklahoma, Texas and New Mexico failed in appeals to Agriculture Secretary Wickard for a readjustment of cotton quotas.

Tom W. Cheek, President of the Oklahoma Farmers Union, said the legislation was "a matter of getting 4,000,000 acres allotted acreage into production, with each state to stay within its own allotment."

## Geologist Committee On War Effort Asks Individual Reports

The recently appointed war effort committee of the West Texas Geological Society and the Permian Basin Engineers Association has assembled data relating to officer and civilian procurement for several branches of service, which are believed will interest the members. The committee, including K. S. Ferguson, chairman, and C. D. Verrees and E. A. Wahlstrom, have issued a list of these services, and ask that members keep the committee informed of their individual efforts and results.

Among the services found available to members are: volunteer officer candidates for the Army, confined to selective service registrants classified as 3-A only; supply corps, in Navy, for college degree, preferably in business; Marines, officers procurement, various specialty groups, ages 20 to 50; aviation volunteers, Navy, various specialty groups, age limit 28; Naval aviation, age limit 18 to 27; bureau of ordnance, Navy, civilian status for geophysicists; Air Corps, ground force, Army, university degree, special qualifications, ages 22 to 60; civil service, defense projects, must have specialized qualifications.

The committee especially urges that those not registered with the National Roster of Scientific and Specialized Personnel, to register without delay. It likewise urges that they register with the National Service Committee of the A. A. P. G. The committee has some blanks available for this.

## Ace Department Store Experts Go To School To Learn How To Run Army Post Exchanges

Typical of the retail experts at the Army's Post Exchange School at Ft. George G. Meade, Md., are the "students" above. Left to right, they are: Keith Kiple, of San Francisco, personnel manager of Edison Brothers Stores; Lt. Col. F. O. Britton, commandant of the school and former director of training for R. H. Macy and Co., New York; and Olaf Tackie, comptroller of Gimbel Brothers, Philadelphia.

By NEA Service  
FT. GEORGE G. MEADE, Md.—They're among the nation's top-ranking department store experts—but they're going to school to learn how to run canteens at army posts.

They are thirty executives from leading business houses, blizzed from civilian life to officer's commissions, who are studying at the U. S. Army post exchange school here, only one of its kind.

Upon receiving their commissions, they will replace field officers who are no on special duty as post exchange officers. The candidates will be given commissions ranging from lieutenants to majors, depending upon their age and professional attainments.

### RELEASE YOUNGER MEN FOR COMBAT

Many of the men, gray-haired and over 35 years of age, will replace officers of combat age in the continental United States. The younger men will be ordered to assist post exchange officers for six months and probably be assigned to overseas exchange work.

Every phase of retail store operation and Army paper work plus a liberal amount of close-order drill, is covered by the curriculum. The students even march to and from the Service Club Cafeteria in military formation for all their meals. The Army's post exchange service is a system of stores operated wherever soldiers are stationed. They function on the principle of getting the servicemen the best merchandise at the lowest possible price. In size and scope it resembles the old fashioned country store, selling everything that the soldier wants or needs. Post exchanges are operated

## American Flyers Bomb Nazi Ship

LONDON (P)—An armed German motor vessel was left listing and without a sign of life aboard in the North Sea by a mast-high attack by the second American Eagle Squadron of the RAF Wednesday afternoon, the flyers reported.

Flight Lieut. Thomas Wilcox Allen of Spartanburg, S. C. hit the helmsman and put the wheel out of action while other pilots silenced the ship's guns.

## Gas Rationing? He Should Worry

HUTCHINSON, Kas. (P)—Ray Hazenmacher was driving on a country highway recently behind a strong tailwind. So he opened the car doors and shut off the motor. He says the car sailed for 20 miles, sometimes as fast as 40 miles an hour.

## New WPB Official

A. I. Henderson, New York lawyer, succeeds William L. Batt as director of the War Production Board's materials division.

## When \$50 Touch Is Good News

PUEBLO, Colo. (P)—Anticipating bad news when he was called from a theater to receive a cablegram from his son, a flyer in the Royal Canadian Air Force on duty in England, a Pueblo man gave a sigh of relief when he read:

"Dear Pop, Wire me fifty bucks, care of my hotel, London. Enjoying my leave."

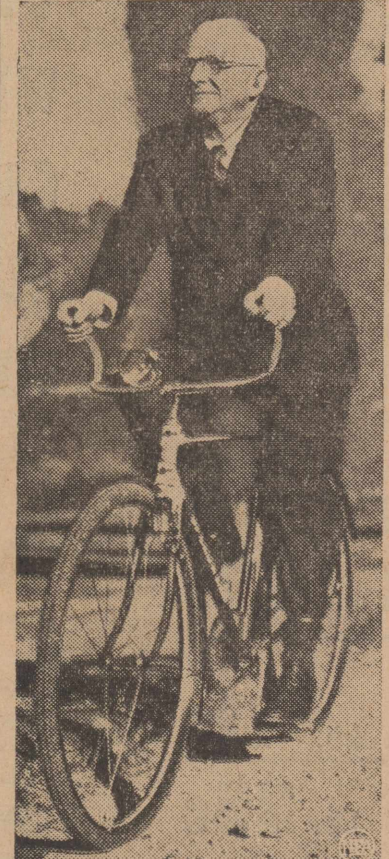

### Soup Joins MacArthur Parade

EAST ST. LOUIS (P)—An enterprising restaurant entrepreneur turned up with "General MacArthur Soup" on the menu shortly after the American hero was transferred to Australia. It consisted of beef stock, celery, onions—and lots of rice.

### Wedding Ring Lost 28 Years

BURR OAK, Mich. (P)—Twenty-eight years ago Mrs. Verro Gorbitt, wife of a St. Joseph county farmer, lost her wedding ring while on her way from the house to the barn. Recently, Gorbitt found the ring in the dirt—in perfect condition.

## U. S. Envoy Does His Part

Nelson T. Johnson, United States minister to Australia, rides his bicycle to the Australian legation at Canberra to help Australians save gasoline.

### STUDENTS FIND TIRE RATIONING PROPHESED

HARRISBURG, Pa. (P)—Bible students hereabouts insist the Good Book envisioned the rationing and carries a prophecy of the current conservation of garment materials. Authority cited for the inevitability of conservation is the 18th verse, 3rd chapter of Isaiah, reading:

"In that day the Lord will take away the bravery of their tinkling ornaments about their feet and their cauls and their round tires like the moon."

### ARMY SKIS PAINTED WHITE

LACONIA, N. H. (P)—A ski manufacturer in this village, supplying U. S. troops in northern regions, is painting the skis white for camouflage.

## Tornado Strikes 63 Imaginations

TULSA, Okla. (P)—John Spikes, meteorologist at an air school, rushed to Pryor, Okla., after a tornado struck here. He wanted to get a first hand account of the behavior of a "big blow."

"I talked to 63 different people," says Spikes, "and they told 63 stories, each one of which failed to agree with the others on the facts of what, how, when and why."

### Washington To Use Stickers

OLYMPIA, Wash. (P)—The national ban on new auto license plates will be met in Washington states in 1943 by issuing windshield stickers. A state law against putting things on windshields will be abandoned for the duration of the war.

### Makes Own Wooden Tires

OLYMPIA, Wash. (P)—Well, Fred Plant, local veneer company executive, has manufactured himself some 56-ply tires—out of thin sheets of veneer, glued together and rounded off on a lathe. Plant says the tires should wear well, even if they do ride a bit rough.

## Just As Quick Not So Comfortable

OKLAHOMA CITY (P)—Consider the case of O. E. Mason, in charge of an oil field salt water disposal system.

Mason has been getting around oil fields for 21 years—on rubber tires. Now he uses a horse.

One of his duties is the checking of 22 salt water meters. For six years he has ridden—on cushions—26 miles every day, covering his meter route.

"It took six hours by truck," says Mason. "I've cut the distance to 18 miles by horseback by riding across country and it still takes six hours."

### Tire Maker Takes His Turn

CHICOPEE, Mass. (P)—There are more than 350,000 new tires in the U. S. Rubber company warehouses here, but when company officials asked the rationing board for permission to use four of them on a truck, they were told to have the old ones retreated.

## They Hang Paper In A Hurry

HOME CITY, Kas. (P)—No war time splash in the pan is the business (in a man's field) that Mrs. Paul Kaufman and Miss Anna Schrieber have built at Home City.

They are paperhangers and have been at it 12 years. Their specialty is papering shops at night so as not to interfere with business. They're always in a rush to finish a job to see what the room looks like.

## Ration Card Passport To Bar

DENVER (P)—A sugar rationing book officially has become a passport which young Denver women will have to have to admit them to drinking places.

The ration books states the age of the person to whom issued. August Haneguth, manager of safety, has told police if the age of a young lady at a bar is doubtful an officer should ask her to produce her ration card to prove that she is not a minor and therefore eligible to buy a drink.
