## German Make Massed Tank Assaults

### Nazis Send Continual Wave Of Divebombers Over Stalingrad Area

MOSCOW (AP)—German and Russian infantrymen battled in the attics and cellars of a northwestern section of Stalingrad Thursday after the gates of the city finally had been opened to the invaders by massed tanks.

Bombs rained down without a lull upon the defending army—made up of soldiers, Red marines and armed civilians—and buildings within the smoking city on the elbow of the Volga as waves of Nazi divebombers hurled themselves into the assault.

It was apparent from field dispatches that the German Air Force held a clear numerical superiority.

The Moscow radio announced that the invaders were maintaining their advance, despite thousands of casualties.

Successful defensive actions were reported by the Soviet information bureau's mid-day communique a few hours later, and Russian field dispatches in no way intimated that the fighting was lessened or that the city was falling.

In the northwestern outskirts of Stalingrad, enemy automatic riflemen supported by tanks were reported by a Soviet infantry unit, the communique said. "Six tanks were disabled or set on fire by anti-tank rifle fire, hand grenades and incendiary bottles. The enemy automatic riflemen were surrounded and wiped out."

About 700 Germans were reported slain on other sectors of the Stalingrad defense zone in engagements which frequently developed hand to hand fighting. Nazi tanks, armored cars and ammunition trucks were brought under the damaging fire of Red army artillery.

Tremendous fury was reported in the fighting in the northwestern section, with the Germans swarming into every house they could seize.

Dispatches left no doubt that the (Continued on page two)

### John Matthews Will Return Here To Be With First Baptist

John Matthews of El Paso has been named educational director of First Baptist Church and will move to Midland about October 1 to take over that work. It was announced Thursday by Rev. Vernon Yearby, pastor of the church, who stated that Matthews' acceptance was received Wednesday night.

Matthews was educational director of the Midland church for several months, but left here about 18 months ago to take a similar position with the First Baptist Church of El Paso. He resigned that place to return to Midland.

### Republicans Okay Wages And Prices Stabilizing Move

WASHINGTON (AP)—Support for the administration's price stabilization bill appeared to be developing among Republican Senators Thursday as they assembled for a caucus to formulate their general policy on the controversial legislation.

While not in entire agreement on details, some members of the minority group seemed to welcome an opportunity to give President Roosevelt the responsibility for stabilizing wages, farm prices and other factors in the cost of living.

There still was no certainty that the House and Senate could agree on a bill by October 1, the deadline set by the President, but the Republicans were talking about a counter-deadline of their own. Senator Vandenberg (R-Mich) was reported considering an amendment that would "direct" the President to act to stabilize prices by October 15.

The Senate banking committee Wednesday ended two days of public hearings and was to go into closed session Thursday to consider amendments to the bill.

### Dr. Ryan To Close Hospital Saturday

Dr. W. E. Ryan announced at the Rotary Club meeting Thursday noon he had been called for Army duty and plans to close his hospital here Saturday night. The doctor is a major in the Army Reserve Corps and recently completed his physical examination for active duty.

"I'll be back when this war is won," he told Rotarians, "and urged them to carry on their fine program."

### Record Yield In Fullerton Deep Pool Indicated

By FRANK GARDNER Oil Editor

Largest production in the Fullerton deep Permian (Wichita lime) pool of Northwestern Andrews County has been indicated by Fullerton Oil Company No. 1-B H. M. Wilson, which also extends the west side of the pool one-quarter mile south.

On last test the well flowed 197 barrels of oil in three and one-half hours through one-inch choke on 2-inch tubing swung at 7,254 feet. Total depth is 7,300 feet in lime.

The well now is awaiting potential gauge. While bottomed at 6,974 it was acidized with 7,000 gallons and was given 2,000 more after deepening to 7,220 feet. Another 2,000-gallon treatment was administered at present depth of 7,300.

A short southeast extension test, Fullerton No. 2-A Wilson, is drilling past 6,620 feet in lime. In Southwest Central Andrews, Atlantic Refining Company No. 1-A Texu is drilling at 9,702 feet in lime and chert. It is the deepest test now being drilled in West Texas.

In the Embar Ellenburger pool of Southwestern Andrews, Phillips Petroleum Company No. 12 University-Andrews is drilling at 7,950 feet in shale and lime. Standard Oil & Gas Company No. 1-W University (Continued on page two)

### Abolish Credit For U.S. Soldiers

WASHINGTON (AP)—After a preliminary test, the War Department decreed Thursday a strictly cash policy for all soldiers at Army posts in the continental United States.

Secretary Stimson announced the new order which abolishes credit privileges for personal purchases enjoyed by soldiers for decades. The department said the new policy would save bookkeeping, further efforts to reduce credit buying and expressed belief also it would "inculcate the habits of thrift in the soldier."

The order becomes effective November 1 at all Army posts in the United States except Alaska. Local commanders will decide whether to (Continued on page two)

### Rotarians Listen To Lions' Speaker, But Sign No Applications

Frank Stubbeman, Lions Club talkmaster, outlined to Midland Rotarians at their meeting Thursday noon in Hotel Scharbauer what he thought was wrong with the Rotary Club.

"Why I would rather be a Lion" was the subject of his address and Lions were present at the session to applaud their speaker, but no Rotarian signed a Lions membership application.

"Lions," Stubbeman said, "are not trying to better themselves but to better other people and better the community as a whole." (Continued on page two)

### Lend-Lease Meat Purchases Reduced To Aid Domestic Consumer Supplies

CHICAGO (AP)—Purchases of meat by the Agricultural Marketing Administration, government agency which buys for lend-lease shipment to other United Nations, have slumped sharply over the past several weeks, a compilation of Department of Agriculture reports showed Thursday.

Scaling down of the agency's buying was a necessary result of the meat shortage, livestock experts said. The AMA, which formerly made heavy purchases weekly, now buys only every other week in an effort to make more supplies available for domestic consumers.

The recent reduction in purchases does not mean that a corresponding downturn has occurred in the aid this country is giving to the (Continued on page two)

### Manpower To Be Balanced As War Move

WASHINGTON (AP)—A government attempt to determine the future manpower needs of both the Armed Forces and industry was disclosed to Congress Thursday amid indications that the administration soon would seek a national service to combat labor shortages.

Wendell Lund, director of the War Production Board's labor division, reported government agencies were preparing a decision "on the largest and most efficient possible army which can be fully serviced by those who are left outside the Armed Forces."

"Until that decision is made, twin dangers face the nation's war effort," he said in a statement submitted to the House committee on defense migration. War Production Chief Donald Nelson also was scheduled to appear before the committee.

Must Balance Forces "On the one hand," Lund said, "workers may be taken out of jobs into the Army in such a way as to cripple production the Armed Forces need for their maximum efficiency. On the other hand, there is danger that the Armed Forces may be denied the men they need to operate the war machine."

"Until this decision is made," he said, the Selective Service and the War Manpower Commission are gravely hampered in their parallel responsibilities of manning the Armed Forces and industry."

Paul McNutt, chairman of the War Manpower Commission, told the committee Wednesday that a national service act, giving the government broad control over the nation's labor resources, was "inevitable" and essential to maximum production.

"I think the people are ready for it," he declared. He said no decision had been reached on the form of the legislation as yet.

### Crude Oil Buyers Cite Difficulties

AUSTIN (AP)—Certifying total nominations for October of 1,565,949 barrels daily, crude oil purchasers attending the statewide prorotation hearing Thursday emphasized lessening demand for gasoline resulting from curtailment driving and difficulties in maintaining production under prevailing priorities on materials.

Operators voiced strong support of the Railroad Commission's plan to establish lease allowables in its orders instead of per well allowables where lease allowables are practicable.

Pleading inability to dispose of crudes producing ordinary gasoline, Rex Baker of Humble Oil and Refining Company asserted that purchasers buying these types of crude "should take them ratably from all wells."

Stating that Humble added 1,000,000 barrels of high gravity, low octane crudes to storage, Baker suggested that the commission determine the total demand for crudes of this type and apportion production.

Nominations for the month were: No. 7-B West Central Texas, 26,217; No. 7-C West Central Texas, 19,897; No. 8 West Texas, 205,117.

### Primaries Count Out Twenty-Three Solons

WASHINGTON (AP)—The 1942 primaries have counted out four incumbent senators—all Democrats—and 19 House members, including 13 Democrats and six Republicans.

Of the 34 senators up for renomination, 24 were Democrats; nine Republicans, and one Independent. Nineteen Democrats were renominated, four defeated, and one, Green, Rhode Island, is expected to be renomination at a state convention late this month. All nine Republicans won the right to run again in November, and Norris, the lone Independent, has yet to announce whether he will run again.

In the last off-year primaries—1938—the Democrats lost four senators and 17 House members. The Republicans lost none in either branch.

The four democratic senators losing out were William J. Bulow, South Dakota, a two-term, defeated by Former Governor Tom (Continued on page two)

### American Planes Sink Eight Japanese Ships In Pacific Operations

By The Associated Press The main bodies of the Allied and Japanese forces in New Guinea were locked in bitter combat Thursday approximately 32 miles airline from Port Moresby following a new enemy advance down the southern slopes of the rugged, densely-wooded Owen Stanley mountains.

The immediate scene of the battle was the tiny hamlet of Loribaia, which the Japanese reached Wednesday after pushing forward eight miles from Efogi, where they had been stalled for a week after crossing the summit of the mountains with the aid of their familiar infiltrations tactics.

A communique from General MacArthur's Headquarters said the Japanese were exerting heavy pressure and that "serious fighting" was in progress, but there was no indication of the turn it was taking.

It appeared evident, however, that the Japanese had been strongly reinforced during the past week and that they were throwing everything into a determined effort to reach Port Moresby, a vital link in Australia's outer defenses.

### British Squadrons Are Over Heart Of Nazi Industry

LONDON (AP)—Massed squadrons of possibly 300 RAF bombers unloaded another huge load of explosives upon the industrial heart of Germany Wednesday night, striking at the Ruhr in a renewed effort to aid Soviet Russia by crippling Hitler's war-making machinery.

This massive night blow at the Ruhr, the Air Ministry disclosed, followed a darkening dusk attack by light British bombers on Wiesbaden, in the Rhineland. Wiesbaden is the seat of the German armistice commission that deals with French armistice matters.

British losses in the two air forays were 39 planes, it was announced. An authoritative source said specifically, however, that it was not a 1,000-bomber operation.

The RAF ran its string of night assaults on the Reich this month to 10 by this attack.

Spirit fighters intercepted a group of high-flying German daylight raiders over the English Channel Thursday morning and turned them back after they had tried three times to cross the British south coast.

Reflecting the tenseness created in Germany by this continuing offensive was a Berlin broadcast Wednesday warning the German people to "see to it that the blackout is complete." The warning was repeated by all Nazi radio stations.

### Mexicans Celebrate Holiday With Parade And Patriotic Meet

Decorated cars, carrying tableaux of highlights of Mexican history, formed the greater part of the parade of Mexican patriots Wednesday afternoon as the high point in the celebration of September 16 as a Mexican national holiday, and of the entry of Mexico into the war as a member of the Allied Nations.

A color guard of Mexican men in the United States Army carried the flags of the two nations, Mexico and the United States.

A program and dance were held Tuesday night and Wednesday night, with speakers on both occasions emphasizing the unity of the two nations in war on the Axis powers.

### THE WAR TODAY

By DEWITT MACKENZIE

The world's big ears are twitching with the announcement of General Hata, Jap Commander in Chief in China, that "the East Asia war is about to take an important step in cooperation with the European war"—a statement calculated to convey the impression that Nippon is going to attack Russia or India.

Just what scheme motivates the devious oriental mind in spreading this propaganda isn't apparent, although the odor of red herring is strong along the trail. Maybe the Japs are telling the exact truth—adopting Hitler's tactics of fooling the enemy by announcing his real intentions in advance. It's equally possible that Hata is just lying, for benefit of Mikado and country.

The probabilities are that Japan doesn't want to undertake either of these dangerous adventures. They would be illogical military moves, since her whole business now should be to consolidate her dangerously wide-spread conquests before America's rapidly growing strength overtakes her. She will be a fool if she attacks Russia or India.

World Weaken Japs In Pacific Still, the importunities of the powerful Hitler may move the Japs to embark on a new war in hopes that this may hasten the end of the Allies. The fall of Stalingrad would be impressive—and this industrial giant of the Volga today (Continued on Page 4)

## The 100-Percenters

In practically every city, town, village and hamlet in America you will find people who have gone all-out to help win this war. These are the men, women and children who have bought the war stamps and bonds. They are the ones who have taken up their posts in civilian defense. They are the ones who are now collecting scrap materials to keep our war furnaces going under full blast.

Women on trucks in New Jersey are collecting scrap from door to door. Movie managers in a dozen states are offering free tickets for scrap iron and rubber and collecting them by the carload. In Michigan one small town collected 154 tons of scrap rubber—three times its quota of 5 pounds per person. In Maine boy and girl scouts work with trucks scouring their neighborhoods for iron, steel, and rubber scrap.

In the Louisiana, Wisconsin, Connecticut, Alabama, Illinois, Virginia, and every other state in the union, air wardens are working on this huge national scrap drive. Minute Men, The American Legion, The Rotary Clubs, The Lions Clubs, Chamber of Commerce, and all other organizations, police departments, women's clubs, city councils and other civil groups—all are working from early to late to gather in every pound of scrap material they can lay their hands on.

These loyal Americans, these volunteers who answer every call to the colors are fired with the same spirit of determination that inspired our forefathers who founded this country and who have been fighting to defend its freedoms ever since. They are the ones who can be counted on in any emergency—not to do only what they think they have to do to "get by" but everything they can do to help their country. These "one-hundred-percenters" are the back-bone of America and when this war is won it will be their efforts that have won it and not those who always sit on the sidelines and let the other fellow do all the work.

## "Mighty Will Be Our Plowshares"

"Today we produce to destroy, but tomorrow we will produce to build." These were the words of Dr. Charles M. A. Stine at a recent meeting of the American Chemical Society as he described the new vistas to be opened to America after this war is won.

In a thousand and one chemical laboratories throughout America chemists are discovering new continents of matter at such a rapid pace under the pressure of war that "the world of 1940 has already become an antiquity," he said.

"The inconceivables of only two years ago are today's realities. The war is compressing into the space of months developments which might have taken a half a century to realize if necessity had not forced the pace.

"These pressures are unprecedented. The developments are unprecedented. Give us a victorious peace and the freedom of enterprise it should guarantee, and our progress will be unprecedented. Let our swords be mighty and mighty indeed will be our plowshares."

## Dealer Enterprise In America

When automobile plants turned over all their production facilities to war weapons, thousands of dealers all over the country were left with very little to sell. What does the average American dealer do in a case like this? Does he quit and go on relief?

No, he looks around to find some way he can help his country win the war. He goes into the military service, he gets a job in industry, or he adjusts his business to existing conditions.

The spirit of America in war as well as in peace is to take what comes, make the best of it and cling to these things that have made this nation unbeatable.

## Uncle Sam, Employer

The United States News reports that as of June 30 last, the Executive Department of the federal government had 2,207,754 men and women directly on the payrolls, excluding members of the armed forces and persons on relief.

Adding approximately four millions of soldiers, sailors, marines, etc., and 525,000 employees of the states, 931,000 of the cities, 335,000 of the counties, plus relievers and those who work for the legislative and judicial branches, some nine millions get their livings directly out of the public treasury.

## Japan Learns, Too

The Japanese, conquerors of millions of square miles in the Orient, are learning what the Nazis discovered earlier in Europe. It's one thing to overrun a weaker nation and another to subdue its people.

The Japs had supposed that the yellow peoples would submit docilely to enforced cooperation. This appeared to be the case temporarily.

But soon the conquered learned that they had been saved from the frying pan only to roast in the fire itself. Let India take note.

## Oil Industry To Accept Minimum Specifications

WASHINGTON (AP)—Petroleum Coordinator Harold L. Ickes announced Thursday that the oil industry had agreed to accept minimum specifications for petroleum products and to pool facilities in the Eastern States to increase their shipments to that area.

The agreement on minimum specifications, Ickes told a press conference, "squints in the direction" of an abandonment of use of brand names for gasoline and other products for the duration of the war.

He added, however, that the facilities which the companies had agreed so far to pool included only terminal facilities and storage space, although he indicated that a broadening of the agreement was expected.

No decision has been reached so far on whether brand names will be dropped although the pooling of storage tanks may mean that different brands will be mixed, Ickes said in amplification. A decision on whether to pool trucks which haul petroleum also lay in the future, he added.

Stinson also announced at his press conference:

Men between 45 and 50 who are experienced mechanics now will be accepted for enlistment as technicians with the Army Air Forces. Minor physical defects will not disqualify applicants.

Capacity of the Medical Administrative Corps officer candidate school at Camp Barkley, Texas, has been ordered doubled.

Army trucks and personnel will assist civilian agencies in the collection of scrap metal, when such activity will not seriously interfere with normal military duties. The assistance will be limited in general to communities in the vicinity of Army posts.

The two Army football teams—the Eastern All Stars and the Western All Stars—will not meet each other. As soon as their present schedules with non-Army teams have been completed, the teams will be disbanded and the men will return to their military duty.

## Wool

BOSTON (AP) (USDA)—Demand for medium wools continues in the Boston market. Sales of Ohio three-eighths and quarter blood graded bright wools were made at 53-54 cents and half-blood staple wools at 51 cents, grease basis. Medium wools of light shrinkage from Missouri were sold at 54-55 cents grease basis. Sales of foreign wool suitable for naval blankets were reported at unchanged prices.

At the conclusion of his talk he pointed out that both clubs are striving toward the same goal.

## Marines Beat Back Japs

Pacific Fleet headquarters said U. S. Army planes attacked Japan's chief base in the Aleutians at Kiska Harbor on Tuesday, sinking two enemy minesweepers and damaging three submarines, three big cargo vessels and "several" smaller craft.

In addition, the raiders killed or wounded an estimated 500 Japanese troops, shot down six planes and set fire to warehouses and supply dumps.

In the Solomon Islands, American Marines were reported to have beat down a third Japanese attempt to regain the prize Guadalcanal air base. The Navy said the intensity of the fighting had diminished, with Marine patrols scouring the interior of the island for surviving Japanese bands.

## New Jap Foreign Minister

British columns were believed continuing their week-old advance upon Tananarive, capital of French Madagascar Island in the Indian Ocean pending an agreement on armistice terms.

A French communique announcing Gov.-Gen. Armand Annet's overtures for peace said French resistance continued in the interim, with "the battle still raging as violently as before."

However, other reports said the French Colonials were offering only token resistance to the British, who opened their campaign at dawn last Thursday in a move to eliminate Madagascar as a base for Axis submarines preying on Allied supply lines to India, China and the Middle East.

No developments were reported in connection with a statement attributed Wednesday to Gen. Shunroku Hata, Japan's commander in chief in China, declaring that "East Asia is about to take an important step in cooperation with the European war."

However, Japan named Masayuki Tani, first secretary of the Japanese embassy in Washington in 1927, as her new foreign minister.

## Mrs. C. Sherwood Speaks At Modern Study Club Meet

Mrs. Charles Sherwood, chairman of the Modern Study Club, spoke on the program theme for the year, "America and a World at War," at a meeting of the club Wednesday at the home of Mrs. Fred Turner, 1705 West Missouri.

Instead of having the customary yearly luncheon the members contributed \$21 to the "KIT Fund."

Mrs. George Vannaman, president of the club, opened the meeting and was presented with a corsage of dis-fense stamps of red, white and blue. The group sang "America" accompanied by Mrs. Drexley Turner at the piano. A brief ceremony was held for the new members, Mmes. J. R. Crump, J. M. Martin, Dana Secor, W. W. Phillips and Pat Warren.

The roll call was answered with each person giving a short personal sketch of her heritage. Mrs. Vannaman spoke on "The U. S. A." A panel discussion was led by Mmes. D. Turner, Phillips and Sherwood.

The centerpiece for the table was the globe of the world. Around the globe was a question mark made of red, white and blue garden flowers.

Refreshments were served to the following members: Mmes. A. J. Bedford, Crump, L. W. Leggett, J. E. Low, Martin, Phillips, Secor, Sherwood, D. Turner, F. Turner, Vannaman and Warren.

## Tires, Tubes Issued By Board For Week

The Midland County Rationing Board, in its monthly weekly rationing list, has approved the following applications:

Passenger car tires for H. G. Burnett; passenger car tubes for Inter-coast Petroleum, Mrs. J. P. Stroud, Charles West, and Greenstreet Jones; truck tires for T. R. Harbin, H. H. Bostick, R. S. Anderson, M. E. Kennedy, Southwestern Bell Telephone, Snowwhite Creameries, and Rocky Ford Moving Vans.

Truck tubes were approved for T. R. Harbin, Gordon S. King, Southwestern Bell Telephone, and Snowwhite Creameries. Passenger tires for R. S. Anderson, M. E. Kennedy, Thomas E. Bizzell, and Otis White. Truck tires for Midland Steam Laundry, Rocky Ford Moving Vans, and Otis White. Obsolete tires were issued to Greenstreet Jones and Charles West. Darrell W. Daugherty was given a permit to purchase a bicycle.

## Brownsville Residents Rescued From Lowlands

BROWNVILLE (AP)—More than a hundred residents of lowlands flooded by the swirling Rio Grande seek safety Thursday aboard rescue craft brought on trailers from Port Isabel, Corpus Christi and Houston.

The Coast Guard was in charge of the evacuation. Water, rising almost an inch an hour in the danger zone Wednesday night, washed across the southernmost road five miles southeast of here.

Dark, churning water three feet above the level of Brownsville streets was held back by levees 300 feet from the main business section. Pools of sewage appeared behind the levees, which were only 18 inches higher than the water.

## HOOSIER MOMS TO CHEER HOOSIERS IN WAR ZONE

INDIANAPOLIS (AP)—Fighting men abroad soon will begin getting letters from new-found mothers—the "Hoosier Moms."

The volunteer group aims to build morale at the front with cheerful letters, cartoons and human interest new stories. Servicemen from the Indianapolis area will be on the receiving end.

## BOY, SPARE THAT BUCKET, WE NEED THAT DYNAMITE

MOORE, Idaho (AP)—A violent explosion rocked the community. Residents rushed outside. Some looked overhead for enemy bombers.

Others, just looking, spied a boy with a .22 caliber rifle. He had fired at a bucket in the yard of his home. The bucket was filled with dynamite.

## SEEK INVESTIGATION PREVENTION OF OKRA

BASTROP (AP)—Finding the South Central Texas autumn unusually warm and some of the native Texas vegetables strangely sick to northern palates, one Camp Swift outfit has appointed a committee to "investigate and prevent" the origin of okra.

## GIANT MAGNET GATHERS ARMY NAILS AND SPIKES

AUSTIN (AP)—Equipment used by the Texas Highway Department to keep civilian roads free of nails and metal is being used by the U. S. Army to rid Army Camp areas of nails and other items which cause serious damage to tires.

## DOGS FIRST WITH HIM, HE WAS LAST WITH HER

WEST CHESTER, Pa. (AP)—The will of the late Mrs. Edna Kreher was filed for probate, disposing of a \$5,000 estate. In it she wrote: "I leave to my husband nothing except the dogs whose comfort he put before mine."

Mt. Elbrus, one of the first of the Caucasus Mountains to be mapped, rises 18,471 feet—more than 2,500 feet higher than the highest peak in the Alps.

## Chic Velveteen

Dressy, though simple in design, this cotton velveteen "date" dress is one of the latest fall creations for the college crowd. Buttons down the front and on the contrasting belt are made of plastic material. It's well within WPB fabric limitations.

## PasTime Club Meets With Mrs. Stamper

The PasTime Club met at the home of Mrs. David Stamper, 305 West New York, Wednesday.

Two tables of bridge were played with Mrs. M. M. Holmes winning high and Mrs. Larry Logsdon second high. Mrs. L. M. S-need won bingo.

The room was decorated with roses and zinnias. Candies and flowers were of various colors. Bridge napkins and tallies also were vari-colored.

Refreshments were served to the following members: Mmes. C. W. Pillow, Ted Dykes, Verble Mitchell, Stamper, Holmes, Speed, Logsdon, and J. Wayne Campbell.

The club will meet next Wednesday with Mrs. Campbell.

## Allied Planes Bomb Mediterranean Port

CAIRO (AP)—Allied heavy bombers made a daylight raid Wednesday on the Axis supply port of Bengasi, more than 500 miles west of the Egyptian battlefield, scoring hits on two ships and setting one afire, a British communique announced Thursday.

At the same time, the bulletin said, British fighters were active over the battle area, shooting down at least two enemy aircraft and damaging many others. One British plane failed to return to base.

On the previous night Tobruk, also a vital Axis supply port, was blasted by heavy bombers.

There have been no activities on the land front except for patrol skirmishes and artillery exchanges, the communique said.

## FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little PASTEETH, the alkaline (mon-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get PASTEETH at any drug store.—(Adv.)

## Tojo, Dictator of Japan

Evil-visaged, bespectacled, balding Gen. Hideki Tojo, premier of Japan since last October, is now virtually unchallenged as dictator, with his emperor a restrained figurehead and only military associates remaining in his cabinet. Tojo has behind him many victories by his little yellow warriors in the Asiatic jungles, but also is beset by a growing number of defeats like the sinkings of his warships in the Pacific and the loss of the southern Solomons.

is shielding the strategic waterway with a body so torn from wounds that it will be a miracle if the Boche are thrown back. Should the Japs be beguiled into playing cat's paw for the Nazi all-highest, the fall of Stalingrad might turn the trick.

The perils Jap would risk in going after Siberia or India would be many. The most vital consideration is that in either case she would be seriously weakening her forces of all categories in the Southwest Pacific, thereby making Uncle Sam's task immeasurably easier.

This would be particularly true as regards India, Overland invasion through Burma and across the towering mountain ranges isn't feasible on a big scale. The Japs would have to employ a great waterborne expedition. This would mean that at a time when they need every transport, warship and airplane for use in the Pacific warfare, they would have to make a heavy call on these already badly reduced arms.

### SO HE DIDN'T BOUNCE CATCH BACK TO SEA

NEW ORLEANS, (AP) — Casting from a Mississippi seawall, Veteran Bar Pilot Rene Clerc hooked a springy bundle, yankee ashore a 300-pound bale of crude rubber.

In the case of Russia, the Nipponese would lay Tokyo and other great cities open to heavy aerial bombardment the moment the war began. The Reds have a strong air fleet at neighboring Vladivostok and presumably have warplanes at other Siberian stations. Russian territory would become available for American air bases. The Soviet submarine fleet at Vladivostok, estimated at 100 boats, would start raiding Japanese waters. And of course a failure to smash Pussia would mean that the Japs had cut loose an avalanche of power which, added to the American and other Allied strength, must crush the island empire. She most certainly would be driven into the sea from Manchuria, Korea and all her other Chinese conquests.

## SERIAL STORY OF BRIGHTNESS GONE

BY HOLLY WATTERSON. COPYRIGHT, 1942. NEA SERVICE, INC.

THE STORY: There is a stormy scene in the Bruce Frazier household when Candace Beech, who has fallen in love with Martin Corby, announces she is going into nurse's training. The Fraziers have reared Candace and Belle, Bruce's second wife and the girl's aunt, insists that her niece go to college and make a "suitable" marriage afterward. Peter Frazier, Bruce's son by his first marriage, is a roommate of Martin Corby's at medical school. But Peter loves Candace, too. He has jealously hurried Martin away from her on the excuse that he must arrive early for a summer hospital job in upstate New York.

### PETER IS PERTURBED CHAPTER VII

DRIVING up to the hospital Peter gave himself a bad time. To drive was second nature to him, the day was clear and there were no road hazards to claim his attention, he had long hours alone in which to do nothing but think; and his thoughts were grim.

Now that he was away from him and did not have to see him with Candace, the sudden dislike he had taken to Martin seemed inexplicable, his own violent reaction to the fact that Candace liked Martin seemed unreasonable and absurd. Now that he thought about it he realized that most girls did like Martin.

Well, why not? He was good-looking, he could be smooth as oil when he chose and girls, Peter imagined, liked "em smooth." He could, on the other hand, be moody and mean as sin—and they seemed to go for that too. At any rate whereas women, nurses and patients alike, tended to look on himself as a sort of combination big brother-father confessor, Martin they languished after; growing coy and making sheep's eyes at him. He had to admit, though, that it never seemed to matter to Martin one way or another. Certainly he had never returned their interest.

But then Candace, Peter thought, was as different from most of the shallow girls one met—as his practical mind, not given usually to such thoughts, bogged down in its search for a suitable comparison, as different as sunlight from electricity, he managed finally, Martin had certainly seemed to like her. He squirmed at the memory of Martin's hand reaching out to cover hers.

An uneasy suspicion about his own feelings entered his mind. To test it, he tried substituting other men he knew for Martin. What if Trellaney for instance whom he had always liked and admired, were to meet Candace and—his mind balked at the comparison and then had to admit it—well, fall in love with her; how would he himself like that?

Whether the Japs will regard the prizes as worth the risk remains to be seen. In any event, if they should undertake any such venture, I believe it will be in the nature of a defensive move rather than because of greed for new territory.

### Baylor Bears Look Beter With Twelve Lettermen In Squad

WACO, (AP)—The Big Train is back and Baylor's Golden Bears expect to railroad some Southwest Conference title hopes.

If they won the title themselves it would be regarded as an upset, but they're looking hungrily at a first division berth in a football race that should be as close as a high school boy's first shave.

The Big Train is Milton (Freight Train) Crain, 195 pounds of unadulterated dynamite in moleskins. Only a few close friends and relatives figured the Bears could finish higher than the cellar until news came from San Antonio Wednesday that Crain had been classified 4-F by his draft board because of an ear ailment.

The big blaster who led the conference in ground gaining last season will be with the squad Thursday and that should brighten the grin of Coach Frank Kimbrough.

### Have Twelve Lettermen

Return of the big fullback gives Baylor twelve lettermen, means the Bears will have a better running game than last season, the passing should be about as good and that the team generally should be stronger despite the fact that Jack Wilson, the great all-around back, and Jack Russell, one of the finest ends in conference history, will not be with the Bears.

Wilson played out his string and Russell joined the Armed Services. Seven of Baylor's returning lettermen are linemen but they are not distributed according to positions, necessitating several shifts.

Buddy Gatewood, playing his final season, will be at center. The 186-pounder is ranked with the best in the conference.

Olan Runnels is being shifted from center to guard and 240-pound Bubo Barnett is coming back from tackle to keep him company.

W. B. Godbold, whom Baylor followers think is as good as you'll find in the conference, remains at tackle. Albin Murski, a squadman last season, is slated for the other post.

Baylor is not worried about its end play with three lettermen—Wenzel Gandy, Jack Jeffrey and Aubrey Baily. Gandy and Jeffrey are slated to be the starters.

And Martin? He couldn't be too sure of how Martin would react, of course. But certainly his d.p. assignment ought to keep him plenty busy; even if it didn't, Peter didn't see where Martin would suddenly get money to go flying around; he'd never had any extra cash before. He felt fairly certain that Martin would be in no position to be seeing Candace—"to do any harm," was how he phrased it to himself.

He began to feel better. After all, he'd be away only a couple of months, nothing much could happen in so short a time. He had to go on to the hospital; Candace would be the first to despise him for a fool if he didn't. But just to be sure, first thing he'd do when he got up there was to go feeling around to see what the chances were for getting home on a weekend. Then . . .

HE didn't know quite what it was that he had expected, but it was scarcely what he walked into.

He had arrived soon after seven in the evening, faintly apologetic for being there before he was actually due. He had just been taken into the staff parlor and was on the point of shaking hands with the bridge-playing group assembled there when abruptly they forsook their various lounging poses and shot to their feet. He knew it wasn't for him, the show of deference, and he turned to find that a man who carried with him an aura of authority had entered the room. The men murmured "Good evening, Dr. Stacey," respectfully, and the older man returned it with careless good humor, waving them back into their seats. Standing there, leaning casually on the back of a chair, he reached over and began rearranging the cards held in one of the player's hands.

The flurry of explanations took a long time and meanwhile Peter had to stand awkwardly by. The chap who had him in tow, a fellow named Morrison, seemed to regard it all as rather a familiar joke. He smiled at Peter reassuringly and at the first opportunity he broke in. "Dr. Stacey," he said, "here is the first of our summer students, Peter Frazier, just arrived.—Dr. Stacey is our Chief," he added to Peter. Peter knew that and he gulped and felt tongue-tied.

The Chief stared, as though Peter were a specimen of a rare bug. His easy geniality faded. "I'm starting on rounds," he said severely. "I want all of you with me.—You too," he barked at Peter.

### Canada Puts All Citizens To Work In War Program

By James Montague.  
 OTTAWA. — Everybody in Canada must now work, except the very old, the very young and the disabled.  
 A severe manpower shortage brought job freezing and strict man power and woman power employment regulations aimed to provide "the largest armed forces possible, the optimum of war production, the minimum of civilian services, and the minimum of agricultural production in keeping with the needs of Canada and of Britain," according to Labor Minister Humphrey Mitchell.  
**Little Idle Labor.**  
 There is little idle labor left in the Dominion. Only 80,000 men between 16 and 69 or not employed, and about one quarter of this number are unemployable. Few of the remainder can be used in war work.  
 More than 250,000 persons are to be added to the fighting services and war industries before the end of the year. All men have been registered and complete control is now exercised over labor to place workers in jobs essential to the war effort.  
**All Women Registered**  
 During September, all women not already employed between the ages of 20 and 24 must register, and gradually other age groups will be registered, since further expansion of the war production program is largely dependant on women.  
 With its relatively small population, Canada must strike a balance between the needs of the two principal war outlets for manpower and woman - power - the fighting forces and the war factories.  
 The new National Selective Service regulations affect practically all Canadians, exceptions being women domestic servants, provincial government employees, clergymen, farmers, fishermen, hunters and trappers, teachers, nurses and probationers, and students.  
**Can't Quit Jobs.**  
 Other Canadians are not allowed to quit their jobs or to be discharged without seven days' written notice by either employee or employer. No employer may interview or hire any worker unless that worker has a permit from the Selective Service local office to look for employment. Neither employers or labor nor persons looking for work may advertise for jobs in newspapers without the approval of the Selective Service local office.

**World Problems Are Discussed At Meeting Of A.A.U.W. Members**  
 Mrs. Alma Thomas, chairman of the International relations group of A.A.U.W., related her experiences this summer while a student in Washington, D. C., at the A.A.U.W. meeting Tuesday at the home of Mrs. E. E. Reigle, 613 West Storey.

While in Washington, Mrs. Thomas studied "World Peace and The Problems Concerning Us As World Citizens," under the direction of international authorities, among whom were Dr. Hu Shih, the Chinese Ambassador to the United States, Arthur Sweetser, member of the information section of the League of Nations for twenty-two years, and other diplomats.  
 She explained that "events are making imperative a new international framework for society, and for the establishment of closer, wiser international relations."  
 A proposed new League of Nations was discussed and bibliography concerning the past League of Nations was given to the group for the next program, which will be Oct. 19.

**MANY DOGS BUT NOT A WATCHDOG AMONG THEM**  
 NORFOLK, Va., (AP) — Dave Robertson, former baseball player and now state game warden here, has many dogs at his pound on Princess Anne road, but apparently there's not a watchdog among them.  
 He reported to police that someone had entered his office, in the pound building, and stolen a pair of gold rim spectacles valued at \$10.  
**HE WAS REGISTERED ALRIGHT BUT WITH THE WRONG GROUP**  
 SAN FRANCISCO. (AP) — Willie Edwards, 39, registered at the fire house near his shoeshine stand. But a federal investigator disclosed Willie had signed up as a civilian defense fire warden—and not for the draft.  
 The court agreed it was an error. A United States Marshal will escort Willie past the fire house to Army induction headquarters.

### Quads In Cotton

It's a happy day for the Baggett quadruplets of Galveston, Texas, as, all dressed in their favorite cotton frocks, they pluck the flowers from a new species of oleander named after them. Youngest all-girl quads in the country, the Baggett children are now able to dress themselves, detect all the letters of the alphabet, and recite verses. They are the daughters of Mr. and Mrs. W. E. Baggett of Galveston.

### Legion Asks Control Labor And Industry To Increase Essential War Production

Niles B. Winter, district geologist with the Atlantic Refining Company, has been named head of the Child Welfare Committee of the American Legion in Midland. He succeeds John H. Goodman. Winter was elected Tuesday night by the Lynch Post, in regular meeting.  
 After discussion of labor strikes and other causes for delay of production in war defense plants, a committee was named to draw resolutions to be sent to Texas Legion headquarters, to Texas state officials, and to Texas congressmen in Washington, demanding that labor leadership and industrial leadership be governed in such way as to avoid strikes. The committee named includes R. W. Hamilton, Ben Danby and Niles B. Winter, who will confer with James H. Goodman in regard to such similar action as has been inaugurated by the Texas Legion.  
 Several took part in the discussion of labor disturbances, and condemned labor leadership that would encourage interference with war production. Dangers of over-high wage levels for semi-skilled labor as encouraging inflation, and as being out of line with the pay of men in the Armed Forces, were pointed out.  
 The post voted to meet one time per month, instead of twice per month as has been the practice, setting the third Tuesday as the regular meeting date each month. A special program is being planned for October 20, announcements on which will be made by the commander within a few days.  
 C. P. (Cap) Lyman presided at the session, which was attended by a large group. Several new members have been enlisted in the post, and plans are underway for a big rally to be held on the night of October 20.

### High Praise Given Army Fliers Who Succeeded American Volunteer Group

MIAMI, (AP) — Flight Leader Albert E. Probst, of Waco, Texas, one of the first pilots to join the American Volunteer Group in China, has high praise for regular Army air men who succeeded "Flying Tigers."  
 "They're doing a wonderful job," declared the veteran of some 75 sorties over enemy territory. "They certainly are not losing face."  
 Probst came here aboard a Pan American clipper. He is en route to Washington to offer his services to the Army Air Force.  
 The 26-year-old flier said he will tackle any assignment handed him, but hopes to be sent to Australia. "Because I feel there will be a general offensive against the Japs from there."  
 Brigadier General Claire Chennault, Chief of the Flying Tigers who became Commander of Army Air Forces in China, was described by Probst as "the best who ever lived."  
**More Grounded Planes Destroyed**  
 "He'd come to us, call all the pilots together and spread out a map on the ground," the flier related.  
 "These Japs have got something about here," he'd say, pointing to a spot on the map. "It would please me if something were done about this."  
 "Well we'd figure out the distances. If it wasn't too far for us to go without gasoline supply, we'd say: 'Okay, sir, we'll take off in 15 minutes.'  
 "If it seemed too far, we'd speak up and tell him so."  
 Probst was assigned to bombing raids, strafing missions and reconnaissance flights.  
 "We destroyed more Jap planes on the ground than we did in the air," he declared.  
**Japs No Match For Tigers**  
 During British retreat in Burma, the Texan was over enemy territory every day for two weeks "trying to find General Joseph W. Stillwell, the American Commander."  
 "They didn't have any food, you know," Probst added. "Some of our group finally located him and dropped provisions."  
 He termed Japanese good pilots, but no match for Tigers.  
 "Twenty to one odds against you isn't bad," he said. "Ten to one

Army All-Stars Win But Expect Trouble Sunday

BALTIMORE. (AP)—Col. Robert Reese Neyland's Eastern Army All-Stars headed Thursday towards the toughest of their three games in a nine-day endurance campaign for the Army Emergency Relief Fund with a second pro team's scalp at their belts.

The All-Stars staged a fierce fourth quarter comeback Wednesday night to defeat the Brooklyn Dodgers of the National Professional Football League 13-7, before approximately 45,000 persons in Baltimore's municipal stadium.

Then they entrained for Boston, where on Sunday they take on the National League champions, the Chicago Bears.

Col. Neyland wasn't optimistic about that encounter. "I don't think we have a chance against the Bears," he said after Wednesday night's victory. "We have too little time and they have too much power."

The All-Stars' defeat of the Dodgers was not the clear-cut victory which they gained over the New York Giants. Col. Neyland said his squad felt the effects of the previous game, adding that "The fact that we have more men enabled us to keep fresh men in the game and this more than anything else accounted for the victory."

Lieut. Harvey Johnson, Mississippi State, and Lieut. Sam Bartholomew, Tennessee, tore the Dodge line to pieces for four first downs in a row, and Lieut. Leonard Coffman, also of Tennessee, scored from the two to clinch the victory.

SMU's Gridiron Coach May Get Pain In Neck

DALLAS. (AP)—The boys were discussing the point that while Southern Methodist University might be in a pain in the neck to the favorites in the Southwest Conference football race Jimmy Stewart might get one in his trying to coach and watch the cash register at the same time.

Why, said one of the fellows, Jimmy's neck would need to be on hinges with him glancing at what his boys were doing on the field then looking up into the stands to keep an accurate account of the crowd.

All this banter came about when Stewart, who already was Business Manager of Athletics, was called in to take over the head coach job after Matty Bell joined the Navy.

Seriously speaking, Stewart is under a handicap in his maiden appearance as a Southwest Conference football coach. The first time he worked with the squad was this fall.

But the Mustang mentor is not downhearted.

"I never saw a bunch of boys take coaching better than that gang," he said proudly.

Stewart had many reservations when he spoke of his team's chances. The question of reserve strength was of major concern. General inexperience was next.

BOUND TO BE A SHORTAGE

AUSTIN. (AP)—Carroll Avery, service station operator, is going to turn up short on his cash register. Avery told police that a man came into his station, "punched four cents on the register, grabbed about \$6.00 out of it and ran off."

Brooklyn Knocks Them Out Of The Lot But The Cards Are Ahead Now

By The Associated Press. Ferdinand the figger fibert popped out of his hole Thursday, right smack into the National League lawn party, and threw such a scare into the folks in Brooklyn they all but leaped over the garden wall.

But Cards Won, Too. On the mound, bowled over Boston's not-so-Braves 6-2 at the same time and are still in there winning. They combed Jim Tobin for nine hits.

And those festivities caused Ferdinand to point out that if the Cardinals should even lose four of their remaining nine games, the Dodgers would have to take nine out of 11 to win.

And if the sons of St. Leo should fall completely apart and drop six out of nine, Durocher's dealings still would need seven of 11 to come home on the bandwagon.

However, the Dodgers are still better than a hundred-to-one shot. Certainly the manner in which they came back after their two days in drydock for repairs did them no harm.

Best Pitching Job. The pitching job of the day was turned in by Marv Breuer in twirling the New York Yankees to a 5-1 win over the Detroit Tigers.

Paul Derringer also tossed a better-than-bad job with a four-hit performance that gave the Cincinnati Reds a 3-1 decision over the Giants.

In case you're interested, the Chicago Cubs climbed over the Pirates into the National League's fifth place by splitting a twin bill with the Phillies, losing the first 3-1 to Johnny Podaly and taking the nightcap 4-1 behind Hiram Bithorn.

Johnny Niegeling whitewashed the Boston Red Sox with seven hits for a 3-0 St. Louis Browns' victory. Jim Bagby tossed a five-hitter for his 16th win as the Indians beat the Senators 5-1, and the Philadelphia Athletics trounced the Chicago White Sox 4-2.

Louis And Conn Not Only Men To Fight For Glory

By Harry Grayson. NEA Service Sports Editor. NEW YORK.—Louis-Conn fight at Yankee Stadium, Oct. 12, with every nickel above actual expenses going to Army Emergency Relief, sounds a note of the times.

Some hold that it is unfair to both to make them perform free, gratis and for nothing.

They point out that Corp Joseph Louis Barrow risks a million-dollar asset against a swift and dangerous opponent.

Corp. Joe Louis previously asked to be cut in on just one more start to the extent of \$117,000, which is what he owes the government in the way of 1941 income tax.

Obviously, the Army takes the attitude that Corporal Louis should have paid his 1941 income tax out of his tremendous earnings that year—just like anybody else.

His first two starts for Army and Navy relief is accepted as nothing more than a patriotic gesture, which is as it should be and the way Corporal Louis would like it.

Because of this, not a few contend that he should be recompensed. But Pvt. Billy Conn, on the other hand, is getting a second shot at the world heavyweight championship, and won't be the first to battle for nothing more than the privilege. There was Tommy Gibbons' grand stand against Jack Dempsey at Shelby in 1923, for example.

And Private Conn, filled out by the regularity of Army life, easily could be a more formidable contender this trip.

Mike Jacobs believes the second edition between Calvaryman Louis and Soldier Conn—100 per cent a war fund effort—will gross more than \$750,000 on Columbus Day as the first major afternoon pugilistic production in years. It may even bring back the million-dollar gate.

Corporal Louis and Private Conn would have drawn something like \$600,000 in New York in June had not Private Conn struck the hard head of his father-in-law, Greenfield Jimmy Smith, so savagely with a left hook.

Both would have been paid, so the broken record of the challenger's duke cost Louis something more than \$200,000 and Conn around \$100,000.

So now they fight with gloves for nothing, and what's so unusual about that? Millions of men are making greater sacrifices.

Four Games Thursday In High School Play

By The Associated Press. Four games Thursday will send the Texas schoolboy football campaign merrily on its way. Two of those tilts are highly important in early establishment of sectional favorites.

Tyler's Lions, of unknown quality but expected to be tough as usual, battle Woodrow Wilson at Dallas while the Breckenridge Buckaroos, about whom much has been heard lately, tackle the rugged North Side eleven at Fort Worth.

In other games Thursday, Colorado City plays at Brownwood while San Antonio Tech entertains its neighbor, Class A Lanier.

The schedule is heavy Friday with 53 games, most of them inter-district and including the top battle of the week—Masonic Home (Fort Worth) vs. Wichita Falls.

Wichita Falls, the defending state champion, picks a tough one against which to open the season and it should certainly give good line on what to expect from the Coyotes, who have been doing quite a little weeping over 1942 prospects.

Courtney Six-Man Team Looks Good For First Game

The Courtney school six-man football team will play its first game Friday, with second-stringers as opposition, getting ready for the first conference game on Friday of next week. Next week the team takes on Westbrook, playing at Courtney.

Fred Taylor, coach, is pleased with the showing of his team in early practice. He has about 20 boys reporting for regular workouts. This group includes Raymond Lawson, J. W. Graham, James Bullard, Carlton Hull, Jimmy Bickley, Bob Cross, Bob Davenport Harold Glaspie, Whitfield Lawson, D. H. Livingston, Waylon Livingston, L. R. Shoemaker, O. L. Snodgrass, Eugene Clements, Marshall Lauder, Wayne D. Stroud, Tommy Ledbetter, Travis Hembree, and Hubert Ray Kelly.

Six of the men are lettermen from last year. Coach Taylor came to Courtney from North Zulch schools, where he was an outstanding coach of six-man teams.

COACH DOESN'T PLAY BUT IS PRACTICE CASUALTY

COLUMBIA, Mo. (AP)—Coach Don Faurot, University of Missouri football coach, was the only casualty in heavy scrimmage recently—and he wasn't even playing.

He stood on the sidelines, watching a lineman crashed into him. The coach is out of the hospital already, but still on crutches.

Sports, Shippers To Open Playoff In Texas League

By The Associated Press. Shreveport and Beaumont go into the Texas League championship series at Shreveport Thursday night at 8:15, the Sports having won a place in the playoff by defeating Fort Worth Wednesday night, 8 to 2, in the seventh and deciding game of their round.

Gordon Maltzberger pitched the Sports to their triumph. Claud Horton, the Cat starter, was replaced by Oana in the fourth.

The Beaumont Shippers previously had eliminated the San Antonio Missions in the Shaughnessy playoff.

The Sports touched Horton for a run in the third, Parker nicked him for a single in the fourth, and Oana came into the fray, only to give Crompton a double that scored Parker.

From there on Shreveport hits were plentiful, the total being 13—nine off Oana.

Fort Worth scored in the eighth on successive singles by Jansco and Clifton, Tucker's infield out and Lillard's safety.

Thursday night's probable pitchers at Shreveport will be Hammer for the Sports, Fuchs for the Exporters.

Games will be played at Shreveport Thursday night and Friday night. The next two games will be in Beaumont, and the teams will return to Shreveport if more games are needed to conclude the series.

Sports Roundup

By HUGH FULLERTON, JR. Wide World Sports Writer. NEW YORK. (AP)—Instead of punishing those unruly spectators, maybe Brooklyn should give 'em a vote of thanks. . . . The Dodgers hadn't shown as much fight in weeks as they did in that pre-game brawl Wednesday, and did you notice how they started hitting right afterward? . . . If they can only stay mad now, they may still beat out the Cards. . . . Dixie Walker only got credit for four hits, but that wasn't a bunt he hung on that fan's jaw. . . .

The Washington Redskins have a club rule that players who eat in railroad diners must leave a 25 cent tip each time—which makes them very popular with waiters who have fed big league baseballers. . . .

Today's Guest Star. Jimmie Murphy, Canton (Ill.) Daily Ledger: "So Leo Durocher is going to join the Navy! If the Dodgers fail to win the National League pennant, he'd better ask to be assigned to submarine service. . . . or most any place other than the Brooklyn Navy Yard."

Offside. Starting the football season ahead of the gun, this dept. offers the following selections for week-end games—mostly on the theory that the Navy's pre-flight schools are the only service teams with manpower and practice enough to tackle a first-rate college outfit this early in the season: Iowa Seawawks over Kansas, St. Mary's Cadets over College of the Pacific, Wisconsin over Camp Grant, Missouri over Fort Riley, Jacksonville Flyers over Florida, Texas over Corpus Christi Flyers, Georgia (Sinkwich) over Kentucky, and North Carolina State over Davidson.

High-lighting "New York Nite" at Fort Sill, Okla. Wednesday night was the sale of War Bonds and Stamps of autographed baseballs.

Brisk Signal Calling Session Primes Bulldogs For Brownfield Football Tilt

Priming his Midland Bulldog\* gridiron eleven for their first game of the season Friday night at Brownfield, Coach McCollum Wednesday gave his team a short skull practice and then ran his first team charges through a brisk signal calling session.

Coach McCollum knows that Brownfield under Coach Post has a squad of big and experienced players. In fact, Brownfield is reported to have some of its players back from last year when they were close to the top of 1-AA competition.

Up against such a team as Brownfield, Coach McCollum has not been able to plan any definite attack. The Bulldog's practice sessions this week have covered all phases of attack. It may take just such a diversified attack to get the nod over the Brownfield eleven, McCollum has indicated.

Six Lettermen on Team. As the Midland Bulldogs line up for their first game, only six lettermen will be back from the 1941 squad. They are Bill Richards, Ivan Hall, and Marshall Whitmore in the backfield and Red Roy, Jimmy Watson, and Junior Bird in the line.

Other boys making up the first string eleven are J. T. Robinson, left tackle; John Guy McMillen, left guard; Jack Taylor, center; Buddy Davidson, right tackle; and Charles Kelley, left halfback.

The Bulldogs will leave Friday morning at 9:30 in the school bus. Game time is set for 8:45 p.m.

Judge McKinley will present an automatic record changing machine and 10 records to Coach Ed- die Anderson at Iowa City.

One of the records is "Mike McKinley of Iowa U.," dedicated to the jurist two years ago.

A Field Day For Texas Longhorns May Be Just That

AUSTIN, (P) — When they talk about a field day at the University of Texas this fall, it won't mean that the sports year is knocked silly and they're holding a track meet. It'll just mean that a 190-pound tailback from Mission who under-studied Jack Crain last season has been running wild again, and that he's been doing some more of that criss-cross running that marked Crain's three years in the South-west Conference.

Jackie Field of Mission — "the home of the grapefruit," he noted on the Texas football questionnaire — is five feet 11 inches of up and going backfielder who takes off at a moment's notice and stops only after prolonged efforts on the part of the opposition.

Not all of Field's running has been developed in mauling. He was a member of Clyde Littlefield's sprint relay team last season. Field is a physical education major in the University and has applied for admittance to the Marine Corps Reserve.

Buffalo Bill's Knife Stolen From Museum

CODY, Wyo. (P) — Thieves have stolen the knife of Col. William F. Buffalo Bill Cody used in the five-second scalping of Chief Yellow Hand after a gun duel July 17, 1876. The blade is missing from the Buffalo Bill Museum here. In his autobiography, Cody described his fight with the Cheyenne Indian chief near the present Wyoming-Nebraska border. "My usual luck did not desert me on this occasion, for his bullet missed me, while mine struck him in the breast. He reeled and fell, but before he had fairly touched the

ground I was upon him knife in hand, and had driven the knee-edged weapon to its hilt in his head, jerking his war-bonnet off, I scientifically scalped him in about five seconds. As the soldiers came up I swung the Indian chieftain's top-knit and bonnet in the air, and shouted: "The first scalp for Custer!"

Northwestern Captain Mixes Comedy With Fight EVANSTON. — Northwestern football colleagues call backfield ace Otto Graham the "One Man Band"—and with good reason. The triple-threat junior grew up in a musical atmosphere. His father, Otto, Sr., is band director at Waukegan High. His mother is director of music and organist at the First Methodist Church of Waukegan. A brother, Gene, plays in the United States Marine band. A younger brother was national oboe champion. Otto — well, he plays the violin, piano, cornet, harmonica and French horn.

This Economy Meal Loaf Wins "E" For Excellence

This juicy, brown meat loaf surprises homemakers with its wise note of thrift, for a serving costs only an approximate seven cents. Seasonal fruit and cider follow the economy theme for completing a fall supper.

With a return of old favorite games like tiddledewinks, cribbage and caroms, the beloved foods of Grandma's day are fast being revived to aid today's conservation program. A new skill at croquet and "double nines" matches a yen for old-time marrow pie, meat loaf, green pea porridge, fried apple cake and other dishes which helped grandma share a pretty penny. Today's war economy brings to the fore a fresh new recipe—a juicy, brown meat loaf—which combines old-fashioned thrift with good eating. The secret of the new recipe lies in its two chief ingredients—freshly ground beef chuck and oatmeal. Freshly ground pork loin ends is an addition which contributes both richness and flavor. Ground beef chuck, fairly unknown compared to some other cuts, makes a "hit" in this new economy loaf. As one of the thrifter and more flavorful cuts of beef, it adds a chewy deliciousness that's pleas-

Santa To Bring New Ration Book

WASHINGTON, (P) — The Office of Price Administration has announced it probably would give the nation a Christmas present — the first of four "all purpose" ration books which Americans will be using for the duration of the war. Providing a quick method of rationing any article or commodity as shortages develop, "War Ration Book No. 2" can be used for coupon rationing, such as is now employed in distributing sugar, or for point-system rationing, such as that used in England, permitting a consumer to "spend" a ration on different grades and kinds of general type of commodity. Each book is adequate for rationing at least two major groups of commodities for a minimum of six months. A total of 150,000,000 copies of the book will be printed for distribution shortly before Christmas, OPA said. Each consumer will obtain a book on the basis of his previous registration for sugar rationing.

Sing-O-Grams And Other Special Rate Telegrams Cancelled

No special-rate social and holiday greeting telegrams, tourate and reservation messages or sing-o-grams can be sent after midnight Friday by Western Union, Newton Swartz, manager of Western Union's Midland office said Thursday. The cancellation of all flat-rate telegraph services in the nation has been announced by the company to prevent possible interference with the efficient handling of the large and growing volume of vital war communications. Western Union had told the War Production Board it would cancel these services as soon as they threatened to interfere with government or war messages. "We shall still keep in effect the low rate Expeditionary Force message, to aid from members of the American armed forces overseas and the low-rate cable money order service to these forces," Swartz explained. Services discontinued are: Christmas, New Year's, Thanksgiving, Easter, St. Valentine's Day, Fathers Day, Mother's Day and Jewish New Year greetings, sent as special-rate messages. Social telegrams as special rates, for birthdays and other anniversaries, births, weddings, commencements and similar occasions; kindergarten to children, bon voyage messages, pep telegrams to school teams, and fixed-text messages from resorts and national parks. Also sing-o-grams and tourate and reservation telegrams for travelers.

It is a skillful exhibition of quick throwing and one-handed catching.

Stop Double-Time Rates For Work On Weekends WASHINGTON, (P) — Payment of double-time rates for work on any particular day in the week such as Saturday, Sunday or holidays, has been discontinued by a Presidential order. Reporter Describes Fatal Bombings That Sent Yorktown To Sea Grave

Editors Note: The valiant stand of the aircraft carrier Yorktown, which the Navy has announced as sunk, was witnessed by an Associated Press correspondent in the battle of Midway. Here is his story, written aboard a United States cruiser June 4 as the stricken Yorktown disappeared into the horizon. Two days later, as salvage vessels struggled to get the 19,000-ton carrier to port, she was torpedoed and finally slipped beneath the waves June 7.

By Wendell Webb With the U. S. Pacific Fleet (delayed) — (P) — The aircraft carrier Yorktown is a lonely blotch against the western sun tonight, and there is a lump in many a throat. The fleet is moving on.

We hold slight hope of ever seeing the Yorktown again. She is wounded, badly, and she is far from home. It was only this morning, June 4, although it seems like years—that the Yorktown and her sister ships launched their great broods of planes which already have slashed to bits the Japanese strength hurled toward Midway.

Hour after hour the attacks went on. Suddenly, early this afternoon, the enemy struck. A little distance away I could see shell bursts in the air, flaming planes falling into the sea, wisps of smoke marking the graves of enemy pilots. The Yorktown was being dive bombed.

Then came a great ominous belch of black smoke. Bombs had hit their target. This cruiser steamed at full power toward the wreckage of planes, life rafts, splintered boxes, oil slicks and debris of all kinds. What was left of the enemy had gone as we approached the smoking ship. The Stars and Stripes tossed through the dark haze. We circled, waiting and hoping, while desperate efforts were made to get the fire under control.

Fire Finally Controlled Slowly the smoke lessened. The ship appeared on an even keel, and hopes grew. Hardly a word was spoken during those long, anxious minutes. "Look, the Yorktown's moving." The gunners around me were jubilant.

Within another few minutes the entire fleet was under way. Then there came a quick report: "Enemy planes. Closing fast." The Yorktown had sufficient speed now to launch her remaining planes, and they were roaring off the flight deck. "Enemy planes to port."

Enemy Planes Return There were two waves of them, torpedo planes coming in low and dive bombers far above. It was a combined attack—the last, desperate assault of an already beaten enemy. Our fighters were tearing into both groups, few of the dive bombers ever got through, and no one was paying much attention to them anyway—we were watching the flashing torpedo planes, there appeared to be fifteen of them. Some fell away in flames, in spirals of smoke, in weird tumbles. Our fighters were taking a heavy toll.

Nine of the attackers kept right on coming. This cruiser stood by as they came within range, the whole fleet's anti-aircraft opened up with such a din I don't remember hearing a thing after the first second. The attackers tried to dive beneath the barrage. More planes fell. Our own planes, too, were all mixed up in the dizzy aerial whirl.

The most distinct memory I have on the moment is that every gun on the Yorktown was blazing. She was putting up a scrap if any ship ever did.

Snappy, Huh?

Presenting... the new "Home Front" uniform. Semi-military, it will be worn by the 250,000 women enrolled as volunteer workers in Bundles for America, Inc.

At the same moment, another enemy craft was slashing over our bow through a veritable wall of shell fire. His machine guns were pounding straight toward us. Across the bow, he went into a steep glide and let his silvered load plop into the water. He died within ten seconds in a mass of flames when the last plane to roar off the Yorktown cut him to pieces. The attack was over. Then A Sudden Quiet.

The sudden stillness was stifling. Our own fighters now were far away chasing the few remaining enemy planes. Every eye was on the Yorktown.

The huge water spouts sent up by the torpedoes had died. The ship was listing badly. Two planes hung like struggling beetles to her tilting deck. It was a sickening sight. Men were sliding down ropes and dropping into the water. Destroyers were pulling alongside and picking them up. The signal went up—"I am abandoning ship."

Hundreds of survivors took to life boats and rafts and were taken to several nearby ships. Hundreds of bobbing heads found safety with the lifebelts tossed from all sides. Men were working fast, but it was an orderly abandonment—if any such drama could ever be described.

An hour went by, two hours—hours that seemed like a bad dream. We watched silently from a few hundred yards away. All this time the enemy never came back—and we knew suddenly that the battle of Midway had been won.

The amateur team-of-four in the summer session of the national tournament is an interesting contest because it is a title that cannot be defended the following year. Winning this event makes a player a Master, and therefore ineligible to participate in the contest the next year. This year's winners are known in duplicate circles in New York but they are newcomers among the champions. They are Mrs. Julius Daub, Arthur Jarnel,

Opening—♠ K. 17

Mrs. Clementine Van Slochem and Morris Straus.

Jarnel gets a great thrill out of making a tricky play that upsets his opponents. In the hand shown today, two rounds of clubs were led, South trumping the second. South cashed the ace and king of diamonds, and on the second lead Jarnel (East) dropped the queen. Now the declarer was in a quandary. If he ruffed a third diamond, and East over-ruffed, back would come a trump and declarer would be left with a diamond loser. Game would then depend on the heart finesse.

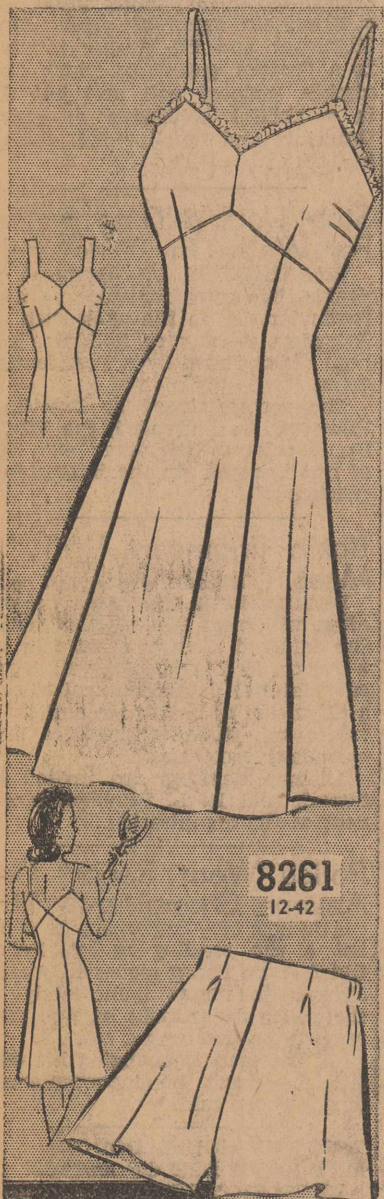

Declarer decided he would have to bank on the heart finesse in any event, and he ruffed a third diamond with the king. His not unreasonable idea was to try for six trump tricks by making the king plus five in his hand by the help of ruffs. But then the heart finesse lost and West made two trump tricks.

## Church Charters Bus For Sunday Mornings

PLAINVIEW (P) — The Rev. L. B. Reavis, First Baptist Church pastor, and church officials have arranged to charter a bus to provide free city-wide bus service for two hours each Sunday "for the duration."

And, they add, there's no obligation on the part of anyone riding free to attend the Baptist church or that of any other denomination.

## Gas Rationing Won't Bother Texas Autoist

AUSTIN, (P) — G. K. Efler, retired Austin merchant, is one Texan who has no fear of gasoline rationing.

Using his car only for essentials and utilizing busses for trips downtown, and for a short vacation trip, Efler drove his car two months on 16 gallons of gas.

He's just had the filling station man fill 'er up again, and hopes the added 16 will carry him until Christmas.

## PUBLISH CASUALTY LIST

WASHINGTON, (P) — Losses in the African and European war zones have appeared for the first time in an official Army casualty list as the War Department made public the names of 123 officers and men missing in action in various parts of the world.

## Anyway, That Turtle Looked Like A Sub

ASTORIA, Ore. (P) — "Hey," Claude Eley, passenger on a deep sea fishing boat, yelled excitedly to the crew, "there's a submarine over there."

Capt. Clifton Christiansen, following Eley's gaze, sighted something round glistening in the waves. He maneuvered the boat closer, fired a rifle and then hauled aboard a 6-foot turtle weighing 1,000 pounds.

## Boy Bites Dog, But Dog Then Bites Boy

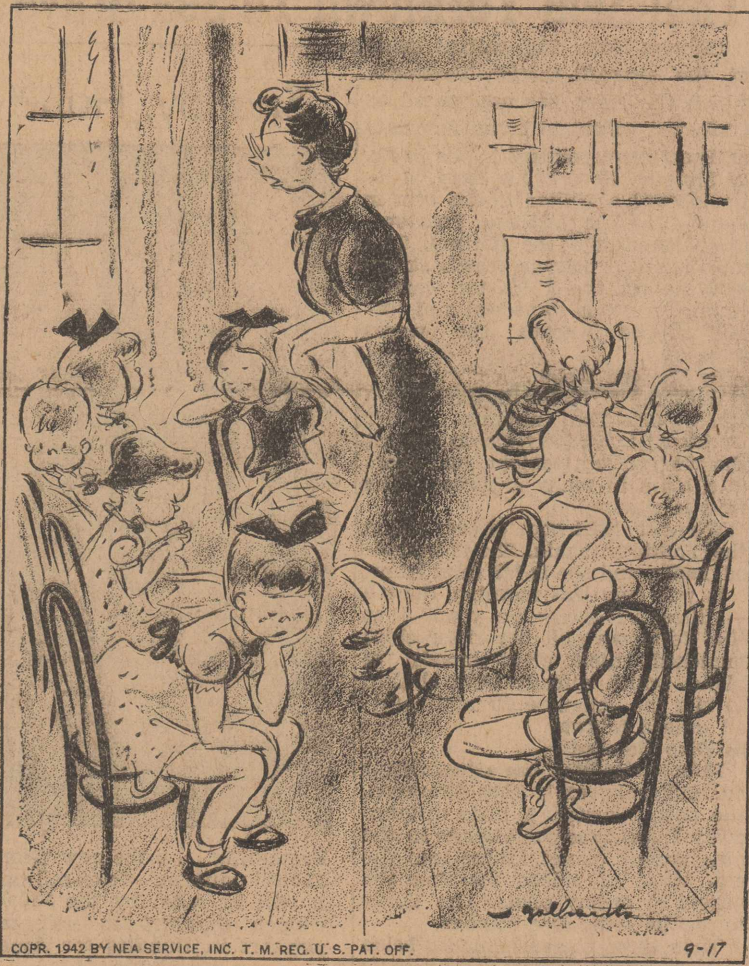

SAN FRANCISCO, (P) — "Boy bites dog," made the usual headlines here, but with an unusual twist. Five-year-old Bobby Castillon took a bite out of his pet dog. The dog promptly nipped his youthful master in return. Bobby was treated at an emergency hospital.

### War-time Food In Cane May Solve Feeding Problem

By Mrs. Gaynor Maddox  
NEA Service Staff Writer

Arriving now in the retail market are the canned foods packed under war-time regulations. These essential foods have been canned with government approval so that America's abundant food crops will be preserved for domestic use.

**Baked Tomatoes and Cheese**  
(Serves 6)

On No. 2 can tomatoes, 1/2 teaspoon salt, 1/8 teaspoon pepper, 1 tablespoon chopped onion, 1 cup bread crumbs, 1/2 cup grated cheese.

Mix together tomatoes, salt, pepper and onion. Place 1/2 of tomatoes in buttered baking dish; cover with 1/2 of bread crumbs, then cheese. Repeat, using remaining ingredients. Dot with butter; bake at 350 degrees F. about 30 minutes. Sprinkle with paprika and garnish with parsley.

**Asparagus Polonaise**  
(Serves 4-6)

One No. 2 1/2 square can white asparagus, 2 tablespoons butter, 1/4 teaspoon salt, 1 1/2 slices hard bread coarsely grated, 2 teaspoons finely chopped parsley.

Heat asparagus in liquor. Melt butter; add bread crumbs; mix well; place in hot oven or under broiler until delicately browned. Add salt and parsley. Drain asparagus. Sprinkle with crumbs or serve separately.

### ONE GOOD EXAMPLE BEGETS ANOTHER MAN'S GOOD DEED

FALLS CITY, Neb. (AP)—One good example begets another.

Guy Harper, restaurant owner, saved \$200 in pennies and nickels to take a fall vacation. Then he read about Imogene Gerwick and Alvin Strassl, young couple here, spending all their pennies for War Bonds.

Harper spent the \$200 for War Bonds. He won't take any vacation.

### Substantial Breakfast Gives You And Yours Starting Power For Days Work

Recommended for the substantial breakfast that most of us enjoy, cheese french toast, served with sausage or bacon, is equally delicious as a luncheon dish or midnight snack.

By Mrs. Gaynor Maddox  
NEA Service Staff Writer

Workers in war industries, women who keep the home fires burning, hard-playing school children, all need a substantial breakfast.

Fruit or fruit juice, a hot whole grain cereal and some enriched bread, or an egg dish, meat or combination of eggs and milk, all can be used.

Coffee is almost always one of the most important features of the breakfast of American men and women. With the shipping shortage we all must learn to ration ourselves. The first step in rationing is non-wasting.

Buy coffee by the pound as needed, every few days, as you would other perishable foods. Measure both coffee and water carefully. Don't guess.

Use only fresh, cold water and bring to galloping boil. Make only as much coffee at a time as is needed. If any coffee is left over, place in covered glass jars and store in refrigerator. Use for flavoring desserts. Keep coffee-maker and all parts of equipment very clean.

**Cheese French Toast**  
(Serves 4)

Eight slices day-old enriched breads, 2 eggs, 2 cups milk, 1/2 teaspoon salt, 1 1/2 cups finely grated American cheese, 4 tablespoons butter.

Beat eggs slightly; add milk and salt. Blend thoroughly. Dip bread slices into this mixture. Heat part of the butter in a skillet; add soaked slices of bread and cook until a delicate brown on one side. Turn, sprinkle grated cheese on top of browned slice, and cook underside until browned, and cheese is melted on top.

### Cadets To Be Guests In Odessa Saturday

The Cadets of Midland Army Flying School will be guests at a Barbecue to be held at Ector County Park, Odessa, Saturday. A dance will follow in the County Auditorium. Music will be supplied by Master Sergeant Thomas Marcell and his "Hell from Heaven Swingsters," which are now composed of several units.

Lieut. R. G. Schaeffer, who is in charge of the cadet entertainment, said he expects the best turnout of girls yet, now that schools have reopened.

The bagpipe, also known as the dudsack and cornemuse, was in popular use throughout Europe in the 15th century.

### Frontier Day Dance For MAFS Officers

The spirit of Billy the Kid and Annie Oakley will ride again at the Officers Mess at MAFS Saturday night when officers, their families and friends turn out for a "Frontier Night" dance, it was announced today by Lieut. Dan Hudson, now in charge of the Officers Mess.

Ladies are asked to attend in gold-rush, Wild West or Frontier costumes. Due to military regulations, officers will wear their usual Army garb, but the ladies are expected to make up for this deficiency with original costumes.

Lieut. Hudson said that a "Lady named Lou" atmosphere will prevail. Stage money will be sold at the rate of 500 for \$1 or thereabouts, and the printing press greenbacks will be used throughout the evening.

The Frontier Night party will begin at 9 p.m. Saturday. Music will be supplied by the "Hell from Heaven Swingsters," and a special program of Wild West entertainment has been arranged.

### STATE GIVES FIGURES ON SPIRITOUS DRINKS REVENUE

AUSTIN, (AP)—W. J. Townsend of the Texas Liquor Control Board has estimated that revenue from beer, wine and liquor during the state fiscal year just ended was \$9,686,819 or about \$1,600,000 more than for the preceding year.

This money is used for old age assistance and other social security purposes.

### REVERT BUILDING APPROPRIATIONS

AUSTIN, (AP)—The State Board of Control has announced that \$2,219,000 in unexpended and unencumbered building appropriations would automatically revert to the Treasury for the fiscal year just closed.

### Civil Air Patrol Has Remarkable Defense Records

By JACK STINNETT

WASHINGTON Without fear of contradiction from the Army, Navy or war industries, it may be said flatly that the Civil Air Patrol is hanging up the most remarkable record of any of the civilian defense groups.

There now are nearly 59,000 volunteers in the CAP; probably close to 15,000 planes; perhaps 30,000 pilots and almost an equal number of mechanics, radio engineers, and sundry office and air base ground workers. Their story can't be half told until this war is over. War-time censorship has the CAP coastal patrol wrapped in clouds. A dozen other phases of CAP activity are behind the veil of military secrecy—but the stories that can be written are exciting enough.

**On The Record**

CAP pilots are more completely "on the record" than those in the military air forces. Their cards on file here in Washington are masterpieces of individual case histories. There is hardly a thing in their professional, amateur, public and private lives that is overlooked. Their records go into one of those incomprehensible sorting machines.

The other day, the Army called Maj. Earle L. John, CAP national commander. "We need," said the general on the line, "30 pilots between 35 and 45 who can fly twin-engine planes, have had 2,000 hours in the air, and are willing to serve somewhere in the Orient."

**Sort Pilots For Jobs**

Major Johnson passed the word along. The keys of the magic sorting machine were punched and out came more than 400 CAP pilots who filled the bill. The Major called the Army back. The general said simply, "Pick 30; enlist them as captains and wire me for orders and transportation."

That request of the CAP was all tallwind and a yard wide. Take the one, for example, that came through recently for four pilots who had more than 2,000 hours in the air, could fly twin motor planes and amphibians and could speak Spanish fluently. The sorting machine did its work and up came 18. The four pilots are now serving "somewhere south of the Rio Grande."

**Fourteen "Sky Pilots"**

Major Johnson likes to chuckle over the request he got from one Army air unit. The officer in charge explained: "Regulations require that we have a chaplain. We are constantly on the move. Do you think you could find us a 'flying parson'?"

The CAP gave him his choice of 14 "sky pilots"—fourteen ministers who could play tag-along in their own planes from Australia to Iceland and never miss a prayer meeting.

(Note: There is one big indication of just how much the Army thinks of the CAP. It's the only civilian organization on the books that is allowed to wear the uniform of the U. S. Army. It's the only organization anywhere that is allowed to wear the wing and propeller emblem of the Army air corps. The CAP emblems are in silver—the air corps in gold. No other units outside the armed services can wear the "U.S." which appears on the shoulders of CAP men. CAP members wear red shoulder loops—almost the only distinguishing feature to the average civilian eye, but one which lends color and a snap to the uniform in the opinion of the men who wear them.)

How long is the war going to last? When will Hitler kick the bucket? When will the bombardiers soar over Tokyo again?

For the past few days Corporal Paul C. Showers, of the MAFS public relations office, has been warding off questions like these.

He's also been ducking questions of a more intimate nature, such as: "Should I marry the blonde or the brunette?" or "What do you make of this letter—is she giving me the straight goods or the double-cross?"

**Cause For Commotion**

The cause for all this commotion around the barracks is that Corporal Showers now stands revealed as the author of a new book covering various phases of fortune-telling via cards, tea leaves, numerology and other favorite media of seers and soothsayers.

### Senate Hears Farm Leaders On Pending Price Control Bill

WASHINGTON (AP)—State agricultural officials from cotton belt opened a second front Wednesday on behalf of farm interests in President Roosevelt's anti-inflation program.

The Senate Agriculture Committee called a special meeting to hear a group of state agriculture commissioners from the Southern states express their sentiments toward the pending price control bill and its probable effect on farm prices.

At the same time, representatives of both farmers and organized labor were on hand to give their views to the Senate Banking Committee, which is conducting a formal hearing on a resolution that would empower the President to stabilize prices at parity or the highest market price thus far in 1942.

**Consider Farm Wages**

Members of the farm bloc in Congress have proposed that the cost of hired hands be included in the computation of parity in farm prices, which means the equivalent of an index figure that represents a favorable purchasing power. Farm labor costs are disregarded in the present parity estimates.

Wages would be considered in the future under a farm bloc stabilization bill by Rep. Steagall (D-Ala.) which comes up for a hearing before a House committee Wednesday.

Secretary of Agriculture Wickard, as well as Price Administrator Leon Henderson, in their appearance Tuesday, supported President Roosevelt's request of Sept. 7 that the parity basis remain as it is.

The farmer's representatives were expected to endorse another provision of the Steagall bill that the government maintain full parity in farm prices through crop loans and purchases.

### Rubber Rationing To Become Tighter

SULPHUR SPRINGS, (AP)—Mark McGee, Texas OPA Director, discussing the rubber shortage, said here that "these county boards may seem tough to you now, but they're going to get tougher and tougher. We simply don't have the rubber to supply the tire needs of those who are eligible."

McGee addressed a gathering of East Texas farmers, dairymen and business men Tuesday. He outlined a plan to organize share-a-truck pools among East Texas agricultural industries.

Gasoline rationing to conserve rubber will probably come in Texas soon, but it needs another name, "because we would be fools indeed if we tried to convince anyone in this state that gasoline is a scarce commodity here," Max L. McCullough, Dallas Regional OPA Administrator, declared.

**Mary Lee Taylor's Three-way Cookies**  
Broadcast Sept. 17

2 cups all-purpose flour  
3/4 cup white corn syrup or strained honey\*  
3 teaspoons baking powder  
1/2 teaspoon salt  
6 tablespoons soft butter or other shortening  
1 teaspoon vanilla  
2 tablespoons white corn syrup, strained honey or sugar

1/4 cup white corn syrup or strained honey\*  
2 well-beaten eggs  
1/4 cup Pet Milk  
1 teaspoon cinnamon  
3 tablespoons coconuts  
2 tablespoons white corn syrup, strained honey or sugar

Sift flour before measuring. Beat with baking powder and salt. Put soft butter and vanilla in bowl. Add sugar gradually, mixing until light and fluffy. Then beat in corn syrup gradually. Beat in eggs vigorously. Add flour mixture alternately with 3 tablespoons milk. Beat until smooth after each addition. Begin and end with flour mixture. Divide batter into 3 equal portions. Drop one portion by teaspoons onto greased baking sheet, leaving a 2-inch space between each. Bake in moderate oven (375°F) on oven shelf slightly above center 12 minutes, or until brown. Mix cinnamon into second portion of batter, then bake as directed above. Mix into third portion of batter the remaining 1 tablespoon milk, the coconuts, and the remaining 2 tablespoons corn syrup. Bake as directed above. The 3 portions make about 4 dozen. Plain cookies may be garnished with chocolate decorations and cinnamon cookies garnished with halved raisins before baking if desired.

\*Syrup or honey may be omitted if sugar in shortening mixture is increased to 1 cup.
