# \$467,000 Allocated For Improvements To **New Midland Airport**

Telegrams from Washington late Thursday announced the allocation of \$467,000 for additional improvements to Midland's new airport, north of the Country Club.

From Senators Connally and O'Daniel and from Congressman R. E. Thomason came the information that the Civil Aeronautics Administration had allocated the money for the improvements.

The original allotment for the port which soon will be completed totalled approximately \$387,000. More funds were provided later.

Details of the new additions to the port have not been revealed but it is known that CAA authorities have been planning adding more land to the airport tract, widening and lengthening the new runways, also adding another run-way ,and additional lighting. **Contractors Are Busy** 

U. S. engineers and contractors are still busy on the initial con-WASHINGTON. (AP) — Senators

#### Bombardier College Official Name Is **Changed By Army**

The world's largest Bombar-dier College, at Midland, received official notice Friday of the third change in its name.

The college known as the Midland Army Flying School and prior to that as Sloan Field now is officially designated as the Army Air Forces Bombardier School, Midland, Texas. Notice of the official change

was received from the Gulf Coast Army Air Forces Training Center at Randolph Field.

The change is effective at once and all letterheads, forms and blanks will be changed to conform with the new name.

Clear Decks For Federal Taxes Sales

# Drive Germans From House To House Amid Wreckage Nightmare

By Roger D. Greene Associated Press War Editor

Russian shock troops, attacking with gun butts and bayonets, were reported driving the Germans from house to house amid the nightmare wreckage of Stalingrad Friday, and once again it appeared that the astonishing Soviets had warded off disaster. It was the 39th day of siege.

Rallying to Premier Stalin's call to "stand firm", the Red armies were pictured in official dispatches as stemmng the Nazi assault in the heart of the city and scoring gains on both flanks of the beleaguered Volga metropolis.

Fresh German divisions brought Goes To Colorado

#### A PROCLAMATION

Any loss of human life, any interference with production, any loss of critical materials hinders and impedes our war effort.

Uncontrolled fire, even in normal times, is a national menace. It kills or disables thousands of our people and destroys a significant portion of our national wealth each year. Today, when every machine is being taxed to its fullest productive capacity, when new hands are working with unfamiliar tools, and when agents of our enemies are seeking to hinder us by every possible means, it is essential that destructive fire be brought under stricter control in order that victory may be achieved at the earliest date.

Nothing less than the united vigilance and effort of all the people will suffice to break the grip of this menace. Fire hazards everywhere must BERLIN (From German Broadcasts) (AP)-A DNB be detected at once and eliminated. Loss of life and property from blaze and smoke must be reduced in every State in the Union. Prevention of all uncontrolled fires must be our goal.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate the week beginning October 4, 1942, as Fire Prevention Week; and I earnestly request the people of the country to give special heed to the importance of taking active measures during that week, and throughout the year, to conserve our human and material resources from the destructive toll of fire; and I direct the Office of Civilian Defense and other appropriate Federal agencies to initiate programs for emphasizing the importance of attaining these objectives. I also desire to enlist the cooperation of state and local governments, of educators and civic groups, and of the press, the radio, and the motion-picture industry, with a view to promoting widespread realization of the dangers of fire and knowledge of the methods of controlling it FRANKLIN D. ROOSEVELT

> OPA Officials Aid **Business Men Here** With Regulations

Officials of the Office of Price Administration arrived in Midland shortly after noon Friday and immediately began private conferences with businessmen needing assistance with OPA regulations concerning ceiling prices.

The conferences were to continue until 3 o'clock when a general meet-ing, open to the public, was sched-uled. The open session will continue during the remainder of the afternoon with all merchants, professional men and other interested parties urged to attend. The general meeting is being held in Crystal Ballroom of Hotel Scharbauer.

Two representatives of the OPA arrived Thursday afternoon and began a survey of OPA compliance among service firms.

Blessed shalt thou be when thou comest in, and blessed shalt thou be when thou goest out.-Deunteron-**Draft Board Problems** In all the screaming about manpower-trying to find enough labor for the farms, the shipyards, the munitions plants, the aircraft factories and the other essential industries-so many restrictions have been placed on local draft boards that before long there must be considered the question of where will they find manpower to fill up the expanding ranks of the Army. The present indicated strength of the Army is above four million men, but hints have been dropped that by the end of 1943 there must be some 10 million men in service. The labor supply now being inadequate for the demand, what will it be when these additional six million men But the problem of the local draft boards is where they will find the six million. Their difficulties become apparent only when you look at the list of skilled laborers whom the draft boards have been ordered not to touch.

the job of the local boards seem almost impossible. This list of necessary men serves to explain why the local draft boards have been forced to reclassify many of their registrants upward, why the Army is taking quotas of up to 10 per cent illiterates, up to 2 per cent venereal diseased, men who are physically hasdicaped, childless men, men with dependents.

It covers more than a thousand trades and it must make

THE REPORTER-TELEGRAM

The list of occupational deferments must be dug out of the nearly 450 memoranda which National Selective Service headquarters has issued. Since April, 1942, these exemptions have been issued in the form of occupational bulletins, of whih there are now 21. Since its creation, the War Manpower Commissios has been issuing directives to Selective Service headquarters for these occupational deferments, but before that every government agency took a hand in trying to tell the Seletive Service where to lav off.

For the time being, we have stopped making auto-For the time being, we have stopped making automobiles, refrigerators, bicycles and other useful, peace- porter; J. B. Ellis, treasurer, and The Friendly Builders Class of scrap drive. It's the real thing: time products that we could buy and use any time, and guns, bombs and other things that are useful only in wartime. We have stopped making the things we want and ed group captain for the service roll. Define have stopped making the things we want and ed group captain for the service roll. Define have stopped making the things we want and ed group captain for the service roll. Define have stopped making the things we want and ed group captain for the service roll. Define have stopped making the things we want and ed group captain for the service roll. have concentrated on the production of warplanes, tanks, are making the things we must have to win the war.

Thousands of formerly unemployed now have Jobs. Brunson, Ferguson, Tom Carr, Sut-Added thousands are ming more money than they ever ton, Marvin English, Curtis, Wright, Hudkins, teacher, with a gift in num, zinc, lead and other salvage made before. So, with more money is our pockets to spend and less to spend it on, either the value of money is reduced or the value of the goods has increased—figure it Former Midland Girl either/way-the result is the same. They both mean inflation to the man in the street.

The danger in inflation lies is the fact that whom it is in operation, all the money we earn and all the money we lewood, daughter of Mr. and Mrs. have saved is worth less to us and to everyone else. Inflation is just as simple as that and just as dangerous.

I MISSED getting my hair cut this morning on account of the scrap collection.

When I climbed into the barber chair, Ray says to me:

"Sorry, Joe. Ain't got time for you today. We're closing up this morning at ten."

And then I remembered. This was the day the town had agreed to drop everything — and I mean everything — and collect scrap for Uncle Sam.

Yes sir, the drugstore, the corner garage, Sam Abernethy's general store — every place in town except the post office — closed up tight today from 10 to 5. \* \* \*

And you ought to see the result piled up in front of the fire house. One hundred and fifty tons of metal that had been lying around in attics, cellars and back yards of our town since Charlie Jenkins' great-grandfather joined up with the Texas Rangers.

That's almost 200 lbs. of metal for every man, woman and child in our town. Just shows you-when American citizens go out to do a job for Uncle Sam they do it right.

No. 48 of a Series

Judge Cunningham and I were talking about it this evening, sitting on the front porch and having

a sociable beer together. We agreed that the way this town went all out to collect scrap was a pretty good illustration of how Democracy works. No need to crack a whip ... no need to pass a law ... just self-determined folks working hand in hand to get a job done for their own people.

Because from where I sit, that's what we're fighting for—the right to work together—of our own accord. To do the job because we want to, not because somebody tells us to. And when the job's done, to relax as we see fit.

And the Judge agreed. He point-ed out that one of the things that helps folks get together is just what we were doin' now.

It's great, after a good day's work, to be able to have a chat and a glass of beer if you want to.
