Tornado Kills 27 Persons In Arkansas

Storm Injures More Than 200 In Ozark Mountain Community

BERRYVILLE, Ark. (AP) — At least 27 persons were killed and more than 200 were injured, many critically when a tornado leveled more than half of this Ozark mountain town Thursday night.

Several of the injured were so badly hurt that physicians advised against transporting them to hospitals.

Fires broke out immediately after the tornado, forcing the survivors to drop their rescue operations for a time to prevent spread of the flames through the splintered wreckage.

Produce - And Attack

United States armed forces now are fighting or stationed in 31 foreign countries or territories. Small wonder, then, that industry must go full force, for it takes a tremendous amount of war implements to equip these forces.

Rallying to the cause, baby-carriage manufacturers have converted to food carts for field hospitals. Producers of lipstick cases have converted to bomb fuses, outboard motors to gun carriages, business machines to shells, hair clippers to projectiles, beer cans to hand grenades, mouse traps to triped mounts, adding machines to automatic pistols, vacuum cleaners to gas mask parts, motor cars to tank and airplane engines, radios, to flying instruments, typewriters to shell-casings, and common pins probably to almost any other munition that can be named!

The job of conversion has been accomplished but there are still two major jobs to be done, one on the home front and one on the battlefront. Our fighting men cannot do their job until we civilians—all of us at home—do ours. That job is production, uninterrupted production, the most amazing production job the world has ever known.

This war is a race against time. The ships, planes, tanks and guns produced and delivered to our many battlefronts on time can decide our fate. If we hold the Axis Death Negro Woman hordes on the present fronts, while our strength gathers, it is possible that we can look forward to a not-too-fardistant victory.

We face the supreme test. We have adopted the only strategy that can win victory for the Allied Nations. For all we cherish, for ourselves and for those who follow us, in a land we love and revere, we will produce whatever Friday morning. More Taxes Are Coming

Don't let reference to the new "\$8 billion tax bill' fool you. The \$8 billion tag covers just the amount of the increase in taxes which it is hoped the new law will bring in. Total revenue which the Treasury estimates it will take in during a year under this law and the holdover provisions of previous federal tax laws is \$24 billion.

But with the federal government now operating on a budget of \$78 billion for the fiscal year 1943, this means that the difference between \$78 billion and \$24 billion, or \$54 billion, will have to be raised by borrowing. Sales or \$54 billion, will have to be raised by borrowing.
