

## NEWS PROTESTS WORK ORDER

### Urged To Resist Internment

(AP)—The Netherlands government in London Friday urged former members of the Dutch government in the Netherlands to resist internment by German occupation authorities.

The men were told in a broadcast message, "keep quiet. Disregard all orders from the Netherlands government gives you summonses. Try to make yourselves as unfindable."

Some 400,000 veterans of the Holland army are involved. Officers and men alike, interned after Holland capitulated in May 1940, to the Nazi war machine and later released on Adolf Hitler's orders, have been commanded to report at once for return to war prisoner camps, the Berlin radio announced Thursday night.

The order was issued by Gen. Christiansen, commander of German forces in Holland, who last May sent back to prison camps in Germany 2,000 Netherlands officers on charges they had shown hostility to Germany.

The decree came less than a week after Queen Wilhelmina of the Netherlands made an Easter Eve address from London to her people, lashing at the breaking up of Dutch homes by labor conscription, which she termed "slave labor," and promising that German occupation leaders and Dutch traitors would be punished as soon as the Netherlands were liberated.

### Where's Rommel?

Whereabouts of German Field Marshal Rommel still was unknown Friday as Allied troops shoved the Axis troops farther back into the "coffin corner" of Tunisia.

### Curfew Bill Is Approved

AUSTIN —(AP)— On Gov. Coke Stevenson's desk for what was almost certain to be his signature and final enactment into law Friday was a liquor curfew bill passed by the House and Senate.

The measure outlaws consumption or possession of any alcoholic beverage in a public place between 12:15 a. m. and 7 a. m. weekdays and between 1:15 a. m. and 1 p. m. Sundays. The bill was finally passed by the Senate 19-2 Thursday without debate.

An amendment which would have prohibited sale of beer in the unincorporated areas of a county during any hour when its sale was forbidden in the county's most populous city or town was killed.

**Tax Law Passed**  
On its way to the House with a favorable committee report was a bill embodying Governor Stevenson's emergency message recommendations that the legislature consider amending the state law to permit taxing certain federal properties in Texas.

Stevenson in his message Thursday said federal law provides that states may tax real property of certain federal agencies, but present state law prevents such taxation.

"I understand that the value of the property . . . is several million dollars," Stevenson's message said. In a session Thursday night the House passed more than 75 local and uncontented bills, a number of them Senate measures which now lie on the governor's desk.

**TG Name Changed**  
Bills finally passed included: Requiring that any officer authorized to make arrests on the highway have lettering on the side of his car so as to be readily identified.

Permitting counties to establish child welfare advisory councils. Changing the name of the Texas Defense Guard to the Texas State Guard and providing for pay if guardsmen are called out on duty.

Permitting any incorporated city or town to vote on adopting the city manager-form of government.

**ODLUM IN CHUNGKING**  
CHUNGKING —(AP)— Major General Victor Odium, Canada's first minister to China, arrived Friday.

### American Troops Make Large Gains

ALLIED HEADQUARTERS IN NORTH AFRICA —(AP)— Allied troops edged forward on both ends of the Tunisian front Thursday while Lieut. Gen. K. A. N. Anderson's First Army fought off powerful Nazi counterattacks in the Medjez-El-Bab area to hold all but one small section of its positions before the Tunis plain, it was announced Friday.

The Second U. S. Army Corps, pushing through Northern Tunisian mountains toward Tunis and Bizerte, made further advances, the Allied communique said. French and United States detachments were reported in a dispatch filed from the field Thursday night to have fought their way to within 20 air line miles of Bizerte, wiping out concealed German machine-gun nests in a cross-country advance.

The dispatch said these men were within three miles of Lake Achek, the western shore of which lies 17 miles from Bizerte, Lake Achek flows in to Lake Bizerte, which empties into the Mediterranean near the Axis-held naval base.

**U. S. Infantry Gains**  
U. S. infantrymen were reported to have made substantial advances across the high ground north of Sidi N'Sir, itself 35 miles southwest of Bizerte, and compelled the Germans to draw back to Djebel Amtra to avoid being outflanked.

Between the two fields of combat, the Americans made progress around the heavily fortified Jofna position guarding the road to Mateur. Fields and roads about green and bald hills there were found with hundreds of mines and booby traps.

A military spokesman said the American forces launched an attack four miles east of Sidi N'Sir against German gun emplacements on hill 609—Djebel Tahent—which dominates the valley extending 16 miles northeastward to the Mateur road junction, but met strong resistance and failed to reach the summit.

**Nazi Counterattack**  
Nazi troops counterattacked repeatedly against U. S. lines south of the hill, but all the thrusts were repelled.

Gen. Sir Bernard Montgomery's Eighth Army mounted a local attack on the southern front and gained its objective, the communique announced, adding that "an enemy counterattack in this sector achieved slight success."

German tanks and infantry struck heavily again at First Army lines in the Medjez-El-Bab sector, but the communique said that, with the exception of one small gain by the enemy in the Medjez-El-Bab area, all attacks "were repulsed with heavy loss to the enemy and our forward positions were maintained."

The military spokesman described the fighting in the First Army zone as "bloodier than in some time." He said the Germans were making every effort to hold their own positions and to drive the British from recently gained high ground.

**Allied Planes Active**  
The enemy air field at El Aguija was bombed and fighter-bombers carried out attacks on enemy ground positions and troop concentrations. Two more enemy planes were reported destroyed Wednesday night. Ten Allied planes were reported missing from all these operations.

Light Allied naval forces engaged a flotilla of fast enemy motor craft in the Sicilian channel Wednesday night and cut one of them in two by ramming and damaged two others by gunfire. It was announced. One of the latter probably was sunk, the communique said.

### WAR AT A GLANCE

**By The Associated Press**  
LONDON — Netherlands government appeals to former members of Dutch Army to resist Nazi internment.

**ALLIED HEADQUARTERS IN NORTH AFRICA**  
—Allied troops score gains on Tunisian front.

**GEN. MACARTHUR'S HEADQUARTERS**  
—Allied warplanes violently attack Japanese barracks and planes at Amboina.

### Get Your Balloons—With Bullets

It's the Southwest Pacific, not a circus, where these sailors are sending up the balloons. And they're targets, not toys—fired at for practice by anti-aircraft gunners aboard a Navy transport.

### Meat Ration Point Values Are Revised

WASHINGTON —(AP)— The OPA Friday revised meat ration values effective Sunday morning, to switch many American appetites from round steak and center pork chops to other cuts, especially spareribs, brains, tongue and pig knuckles. Some people will find more expensive steaks more attractive on a point comparison.

Round steak (both beef and veal) and center pork chops each were raised a point to 9 points per pound. Loin pork chops, slices of boneless ham steak and beef flank steaks also went up from 8 to 9 points per pound. Round tip beef roast and veal sirloin or chops went up from 7 to 8 and veal leg roasts stepped up from 6 to 7.

Pork spareribs came down a point from 4 to 3 points per pound, hocks and knuckles from 3 to 2, and most variety meats (brains, sweetbreads, etc.) were reduced a point per pound each. An exception was liver which was unchanged at 6 for beef and 8 for veal. Shank end ham, fresh or ready-to-eat, was cut a point.

An oddity of the new schedule is that, in coupons, round steak becomes more expensive than porchouse steak, although the latter usually costs about 13c a pound more in cash. Persons having more cash than coupons may choose porchouse, T-bone, sirloin, club and rib steaks at their continuing rate of 8 points per pound (except 10 inch rib, which is 7) instead of round steak at 9. End pork chops remain at 7, lamb loin chops at 8, lamb rib chops at 7, and ham butt roasts at 7.

**First Major Change**  
Widely-rumored reductions in luncheon meats, however, failed to materialize. Beef hamburger did not increase, remaining at 5 points per pound.

The order was the first major change in the scale of meat ration since beef, veal, lamb, mutton and pork were put under rationing on March 29. Minor adjustments in sausage points were the only previous alterations.

The new decrees made a few changes in canned fish and cooking oils, but cheese and butter remained at 8 points per pound; lard, margarine and shortening at 5. Salad and cooking oils, however, were reduced from 6 to 5 points a pint (or pound).

**Caviar Value Cut**  
Canned sea mussels, which formerly were in a general category requiring 7 points a pound, were cut to 1. Caviar and fish roe came down, too, from 7 to 3 points on a pound basis.

The new point values will be applicable Sunday only to red E and F coupons in the No. 2 ration book. A, B, C and D stamps will expire at midnight Friday night. Blue D, E and F coupons for processed fruits and vegetables also expire (Continued on Page 5)

### May Defy President

By The Associated Press  
Walkouts in the soft coal mines swept toward an industry tie-up Friday and John L. Lewis' United Mine Workers told President Roosevelt his plan for settlement of their wage dispute through the War Labor Board is unfair to "a half million of America's finest industrial workers."

"Our every request" could only be denied by the WLB, the miners' policy committee at New York told the President in reply to his appeal for uninterrupted production in the interest of war production. It called instead for "a renewal of collective bargaining."

Meanwhile, time was running out fast, and miners were quitting work in droves, ahead of both the midnight expiration of their contract and the President's Saturday morning deadline for assurance the industry will keep rolling.

**Lewis Cue Awaited**  
The miners made clear they are waiting for a cue from Lewis. Pennsylvania supplied an example of the trend, the number of men on strike there increasing to more than 44,000, twenty-four hours before the 10 a. m. Saturday deadline set by the President for full scale resumption of mining.

In West Virginia, it was the same story. There union officers said "sentiment among the men is with Lewis and unless something happens the mines will close down at midnight Friday." Many of the mountaineer state's 130,000 miners, it was said, will leave work reluctantly but nevertheless they will leave unless their chief goes along with the White House order.

In Ohio, coal mine operators predicted that all the state's 20,000 soft coal miners would join shortly in the walkout which sprang from a dispute over what wages should be provided in a contract succeeding the one expiring at midnight Friday.

**UMW Chief Silent**  
Lewis' purpose in assembling the policy committee apparently was to decide what to do about the President's order, but he was silent. (Continued on Page 5)

### War Bond Purchases In Midland Campaign Total Over \$690,480

War bonds purchased in Midland this month totaled \$690,482.54 at issue value, according to a report issued by the city \$45,482.54 over its quota of \$645,000 in the Second War Loan campaign.

Campaign workers received word that the quota was based on issue value or actual purchase cost of the bonds, rather than face value at maturity. In previous campaigns, all quotas were figured on face value of the government securities.

But even with the change in system, Midland had soared well over its quota and another day's purchases remain to be tabulated.

The quota, the largest in Midland's history in such drives, had worried campaign leaders, but they expressed joy when the latest tabulation of purchases showed the city had reached its goal by a substantial margin.

### WEATHER

Considerably cooler.

### Breaks Robert

STONING —(AP)— The United States revealed its consul general in Martinique and abrogated agreements with Admiral Georges Thierry d'Audoubert de la Roche, French high commissioner of the Caribbean.

Secretary of State Hull announced Friday that in a note handed to Robert before the departure of the consul general the high commissioner was notified that in view of his attitude the United States would have to consider him a tool of the Hitler regime which has enslaved his French homeland.

"It is a matter of common knowledge," the note said, "that the territory of Metropolitan France, contrary to the wish of the French people, is being used in an ever-increasing degree for active military operations against the United States and that the Vichy regime is now a part of the Nazi system."

**Not Binding**  
The government of the United States does not recognize Vichy nor will it recognize or negotiate with any French representative in the territories which remain subservient to or maintain contact with the Vichy regime.

In the circumstances the government of the United States does not consider effective or binding any informal understanding with respect to the French Antilles based on past discussions and conditions, nor does it consider that those discussions can serve as a basis for either present or future relations with the French Antilles."

### New Activity For Ordovician Pools In Winkler County

By Frank Gardner, Oil Editor  
Immediate activity for North Central Winkler County's new twin Ordovician pools was promised Friday when Magnolia Petroleum Company staked location for a test three-quarters of a mile southeast of its discovery, and Sid W. Richardson, Fort Worth independent operator, reportedly made location for south and west offsets to the Amon G. Carter deep strike.

Magnolia will drill No. 21 State-Walton in the C SE SW section 4, block B-3, psi, three-quarters of a mile southeast of the No. 20 State-Walton, in the C NW NW of the same section, which now is standing while cement sets sand at 3 3/4 inch casing run to bottom at 10,774 feet in Ellenburger, lower Ordovician, dolomite. No. 21 State-Walton has been announced as a 10,800-foot test.

Amon G. Carter No. C-2 Pure-J. B. Walton et al, C SW NE section 1, block B-3, (three and one-half miles further east, cemented 7-inch casing at 9,551 feet with 800 sacks and is standing while cement hardens. Total depth is 9,600 feet in Ellenburger dolomite. Designation and footage of the reported Richardson locations have not yet been announced, but the south offset to the Carter well probably is in the C NW SE and the west offset in the C SE NW section 1.

**Parker Moving In**  
It also is reported that Parker Drilling Company, which owns some scattered tracts in the vicinity of the Carter discovery, is moving a heavy-duty rig to the area.

Whether the rig will be employed to drill Parker's own leases or contracted for another company has not been revealed.

Manolind Oil & Gas Company, Shell Oil Company, Inc., No. 1 O. Blue estate, Eastern Winkler Ordovician project 15 miles southeast of the Carter discovery, is drilling at 9,386 feet in sand at 3 3/4 inch casing run to bottom at 10,774 feet in Ellenburger, lower Ordovician, dolomite. No. 21 State-Walton has been announced as a 10,800-foot test.

In Southeastern Lea County, N. M., the R. Olsen Oil Company and (Continued on Page 5)

### Methodists To Dedicate Church Sunday

Midland's beautiful new First Methodist Church will be dedicated Sunday morning by Bishop Ivan Lee Holt of Dallas. The church will be free of debt by the time of the service, the Rev. Carl Clement, pastor, said. It is known as one of the finest churches in the Southwest. A new pipe organ in the church will be dedicated Sunday afternoon. It is the gift of Mr. and Mrs. George W. Glass and Mrs. O. B. Holt Jr., in memory of Mr. and Mrs. O. B. Holt and O. B. Holt Jr. The amplification system which will be heard from the tower is the gift of Mrs. Phil Scharbauer.

**In Dealing With Rats**

The first reaction when President Roosevelt told us that the Japanese had executed some of Jimmy Doolittle's Tokyo bombers, was "an eye for an eye" — let's murder man for man.

But we are civilized from the heart out, and not merely from the skin part way in. We aren't Japs and we aren't Huns. The hysterical demand for revenge in kind left its sponsors feeling a bit ashamed of themselves.

Now we have time to consider more calmly what we should do, and why. With the deepest horror and loathing, in full recognition that the "men" who could do such a thing are not men, but a particularly low form of animal life, we might as well face certain facts.

To execute Jap for Jap, with or without torture, would not bring back to life the heroes who have been murdered in Tokyo, nor would it salve the wounds of those who have been tortured but not killed.

To execute Jap for Jap, or ten for one, or to torture all the Japs in our hands with every device ever created by sadists, would not influence the fate of American fighting men who may fall into Nipponese hands in future.

To the Japanese, human life is of no account except as it may contribute to their own welfare. They will use against us our humane instincts, knowing that we will not sink to their level — and not caring particularly whether we do — for once a Jap has been captured, so that he no longer can fight for the Mikado, he is written off the books.

Nobody with influence in Tokyo is interested in anything we might do to those we hold prisoner. If anything, they might rather like to have us get rough. That would give them a new argument why their soldiers should die in their tracks rather than surrender or permit themselves to be taken alive.

Common sense, then, coincides with humanity in forbidding that we debase ourselves even slightly to salve our scarified feelings.

So what shall we do? Must we sit supinely and weep? Indeed not.

Let's buy war bonds down to the last dollar. Let's produce arms and munitions to the last pound of raw materials. Let's forget our selfish bickerings and lay aside our ideologies and suspend our class warfare.

Let's make Europe the immediate objective, because that probably is the best strategy and, anyway, we're too far committed to shift now. But let's give MacArthur more equipment so that he can start toward Tokyo instead of having to perform daily miracles to keep the Japs from taking Australia.

—Buy War Bonds And Savings Stamps—

**A Needed Investigation**

A searching Congressional investigation to learn what plans various government agencies and officials have in mind to change manufacturing, marketing, and other business practices is scheduled to get underway within the next two weeks.

The inquiry, which will be conducted by the House committee on interstate commerce.

The committee is specifically instructed, under this measure, to investigate what government officials and agencies are doing and are proposing to do with particular reference to the elimination of trade marks, standard brands, brand names, advertising, and marketing practices.

It is too early to predict with any degree of certainty what this congressional search will divulge, but it is an excellent idea to smoke out, in advance of their appearance in some formal dress, any radical measures or reforms that might have an adverse effect upon our economy, if such reforms are found to exist.

—Buy War Bonds And Savings Stamps—

**Preparing To Challenge**

Administrator Brown is facing the probability of a test to determine just how far limited grants of wartime authority can be stretched.

Laymen have assumed that the Emergency Price Control Act of 1942 just about suspended peacetime restrictions upon federal powers in this field. But some industries, feeling that they have turned the other cheek until they are dizzy, have read the text, and have discovered that there is a statutory ceiling upon OPA's actions.

A field day for lawyers is predicted unless — and here is the government's out — unless OPA conforms its program with the War Production Board's, so as to take advantage of Donald Nelson's broader powers.

—Buy War Bonds And Savings Stamps—

**Really At War**

Rumors that the United States is at war have now been verified from the nation's capital. An agency known as the War Production Board sends word that production of baby carriages this year will exceed the pre-war average and is expected to supply a demand for 900,000 carriages and 163,500 strollers, baby-walkers and sulkies.

Declarations, proclamations, drafts, shortages, expeditionary forces and casualty list are good preliminary signposts. But a boom in the baby market is the unarguable evidence that a people is in the midst of total war.

It's unhealthy to suppress a laugh, says a Chicago doctor. Sometimes it's not so healthy to burst into a fit of laughter.

**The Old Woman Who Lives In A Shoe**

**Betsy Beckham Bundy's Advice To The Lovelorn**

Q. My daughter who is nearing 17 is very much engrossed in a young boy in high school, and it is not exactly my idea that she continue to go with him. While he comes of fairly nice family, and is a nice, well-mannered boy, his family is not of the wealthier families of the town in which we live, and I prefer for her to do better financially.

A. The world is running over with designing matrons, who wish their daughters to marry wealth, and wish to break up a beautiful romance, if wealth is not behind the romance of their daughters.

I would suggest to you to lay more stress on character, refinement, wholesomeness, sincerity and right. If the young man of whom you write has character, is bright-minded, and comes of respectable people, he may be the wealthiest man in your town ten or fifteen years from now. It is a deplorable fact that some designing women think more of their daughters' marrying money than they think of the true worth in any other respect. There are many men who in their teens had no financial backing at all but now are some of the wealthiest men in America. It is intellect, energy, stability and the determination to win that makes real men. Real men are the only ones to be admired or desired. If a boy inherits a large sum of money from his parents and has not the qualifications of a real man, the money inherited will do him more injury than good. There are many business men who have had assistance in a financial way from their parents and have won great success, which is a fine thing for all concerned, but for a mother to desire to break up the romance of her daughter because there is not enough wealth in the sweetheart's family is a matter that is unworthy of her. No real woman will do such a thing. I would suggest that you not meddle in the happiness of your daughter at this time, since her romance has been of several years standing. You could ruin her life, and such things have been done. Just let the daughter manage her own romance from now on, put desire for wealth aside, and try to learn the real values of this life.

Send in your problems to Betsy Beckham Bundy, who will advise on affairs of the heart.

**Lt. Tanner Laine Now At Baton Rouge, La.**

HARDING FIELD, LA.—Lt. Tanner Laine, former sports columnist of The Midland Reporter-Telegram, now stationed at Harding Field, near Baton Rouge, La., with a tactical unit. He recently finished a course at the school of applied tactics in Olando, Fla.

**Wagging His Alibi**

LOS ANGELES —(P)— Mrs. Dotie Donnelly answered Herbert Ufer's \$1,850 dog-bit damage suit by bringing Pat, her German shepherd dog, into court.

His tail, she pointed out, is shorter than that of the offending dog which Ufer described.

Judge Robert Clifton is pondering the matter.

**INTERRUPT DICE GAME**

Police interrupted a dice game on Weatherford street at 2:45 a.m. Friday and arrested seven negroes. All were charged with gambling.

Ancient Egyptians used funerary wreaths as early as 1200 B. C.

**Public Health Notes**

**J. A. Olean, M. D., Director Midland City-County Health Unit**

**Health Our Heritage**  
I can think of no finer introduction for this column than the inspiring words of Dr. Carl V. Reynolds of North Carolina:

"Health is our greatest heritage. It transcends material riches, for it is the essence of life. In possession of it, man moves on with majestic tread, conquering those forces which harass humanity; without it, he is minus that dynamic power which gives impetus to the achievement of his noblest physical, intellectual, and spiritual aspirations.

Perfection is a goal humanity may never be privileged to reach; but we do know that health is our natural heritage, while disease and maladjustments constitute the abnormal. To attain health, therefore, we must conform to those principles of living which promote it. To retain it, we must hold the gains already made as we plan future conquests.

**Many Accomplishments**

Much has been accomplished in recent years through preventive and curative medicine. Science has made contributions to the alleviation of human suffering which cannot be evaluated.

When we consider the fact that since the middle of the nineteenth century the period of human expectation at birth has been extended from 38 to approximately 62 years, our appreciation of the past is deepened, our hope for the future stimulated. When we realize that many diseases which formerly brought countless thousands to an untimely death are now both preventable and curable, we experience a sense of appreciation and gratitude to an omnipotent Providence that has opened the eyes of men and women that they might see and learn the truth as a means of attaining freedom for themselves and for future generations.

**Men Must Have Been Peeling Ambitious**

KEARNS FIELD, UTAH—(P)— Four privates on kitchen police duty were told to peel 400 pounds of potatoes. The mess sergeant came to find they'd peeled 800 pounds and were still at it. "We wanted to quit," one explained, "but every time we were about to stop, we heard someone yell, 'Hey, K. P.' We thought that meant keep peelin'."

**OPA Official Praises Food Situation Here**

Midland restaurant food and prices were praised Thursday night by J. B. Mooney, district OPA price officer from Lubbock, at a conference with food merchants of this area.

"I found in Midland the best food at the fairest price that I have found on this 10-day field trip," he asserted.

He told the merchants the OPA expects them to make a "reasonable profit" in business but urged them to cooperate closely with the OPA in breaking "black markets" and eliminating "chiselers."

Food retailers and wholesalers of six West Texas counties were invited to confer with Mooney and other OPA district officials here Thursday evening.

They told price panel members and clerks that every cooperation should be extended to merchants and customers to make the new OPA regulations work smoothly.

New duties and new, simplified price regulations were explained.

**TWO FLIERS KILLED**

DALLAS —(P)— Ensign David Ernest Kehl, USNR instructor at Waco and Lt. Elwood Alexander Cobey Jr., USN of Washington, D. C., student, were killed Thursday when their plane crashed near Webb Field, an auxiliary field of the Naval Air Station, Dallas.

**6 miles up, and 45° below**

"100 in the shade," remarks the sweating pilot as he takes off from a sun-baked Texas field . . . "45 below," he observes some time later as the altimeter registers 6 miles and the crew shivers even in fur-lined flying suits.

Up in the stratosphere it's colder than a Siberian winter. In the rarefied air men sometimes lose consciousness and radios often fail—yet planes must keep going if they are to fulfill their deadly mission.

That they can keep going under these grueling conditions is another outstanding achievement of modern petroleum research. At 45° below conventional lubricants become too stiff to allow bearings to turn. This problem was solved by the development of new, low-viscosity lubricants for high altitude planes—known technically as stratosphere lubricants.

The production of stratosphere lubricants is just part of Humble's big job of manufacturing critical petroleum war products. The same refineries that have always produced Esso Extra, Humble and Thriftane gasolines for your car are now working around the clock to turn out millions of gallons of high-octane aviation gasolines. From plants that produce the familiar Esso, 997 and Velvet motor oils are coming also vast quantities of Humble-Esso Aviation Oils. In these and many other ways Humble is converting Texas' greatest natural resource — petroleum — into weapons for America's ultimate victory.

**HUMBLE PRODUCTS FOR THE MACHINES OF WAR:** Asphalt, Aviation Gasolines and Aviation Engine Oils, Camouflage Paints, Diesel Fuels, Engine Oils, Univis Instrument Oils, Marine Paints, Navy Symbol Lubricants, Recoil Oils, Rust-Ban Protective Coatings, Stratosphere Greases, Toluene, Torpedo Greases, Waxes, Waterproof Lubricants. **FOR THE MACHINES OF INDUSTRY:** Automotive Lubricants, Cutting Fluids, Cleaners, Diesel Fuels, Gasolines, Industrial Lubricants, Launching Lubricants, Motor Oils, Paints, Petroleum Solvents, Quenching Oils, Rust Preventives, Waxes. **FOR YOUR CAR:** Products and service to help you care for your car for your country.

by Joe Marsh

Charlie Jenkins writes me from down at camp:

"Dear Joe: Somethin' mighty swell happened to me on my last day's leave. I'm standin' on the corner, not knowin' anybody in town, when a stranger says 'hello, soldier—how'd you like a chicken dinner at home with me and the wife?'"

"Well, it turns out they were the kind of folks who couldn't do enough to help out soldiers. They'd invited two other fellows and just as soon as we're introduced the lady brings us a glass of beer before dinner.

"We had a fine dinner, talked till ten . . . Honest, Joe, I'll never forget their hospitality. Makes me feel good fighting for people like that."

Thought you might like to hear what kind o' fellows we got in this army of ours, and how they like to enjoy themselves when they get a chance to.

Joe Marsh

### Will Dedicate Beautiful Service Sunday Morning

Methodist Church, one of the most beautiful in the city, will be dedicated with a special service Sunday morning. Bishop Ivan Lee Holt of the diocese will officiate at the ceremony.

The church has a new pipe organ in the church which was dedicated at 3:30 o'clock. The service will be held at 10 o'clock.

The church is located at 1100 S. W. 10th St. in the new building. The service will be held at 10 o'clock.

### Coming Events

#### SATURDAY

Treble Clef Juvenile Club will meet at 1 o'clock at the Watson School of Music.

Midland County Museum will be open from 2:30 until 5 o'clock.

Robyn Junior Music Club will meet at 10 o'clock at the Watson School of Music.

Mrs. Percy Mims and Mrs. J. O. Nobles will be hostesses at the Soldiers Service Club.

### Prominent Organist Will Play Sunday At Methodist Church Here

Mrs. Nita Akin of Wichita Falls, an outstanding American organist who recently has returned from an Eastern tour which included recitals at Columbia University and West Point, will be guest organist at services dedicating the First Methodist Church's new building and organ Sunday.

She also has given recitals in Europe and holds the honorary degree of doctor of music from Southwestern University.

As one critic writes, Nita Akin is an "inspired and inspiring artist." Praised by Critics

"Her recital is more than an organ concert, it is a unique experience, a contact with a great personality whose brilliant technique and superb interpretations lead her audience into another world, that of sublime music."

"Nita Akin combines greatness and simplicity... poised, serene and lovely... she has all the attributes of charm, kindness and graciousness... she is endowed with a great musical spirit."

The church dedicatory service will start at 10:45 a.m., and the organ service will be held Sunday afternoon at 3:30.

Grateful appreciation is expressed by the church in the dedicatory program to Mrs. Phil Scharbauer, the late Phil Scharbauer, the late Mrs. Scharbauer, the late Mrs. M. Riggs and to J. W. Bullock.

## SOCIETY

### Get Your Scent's Worth By Applying It Where Air Gives Circulation

By Alicia Hart, NEA Staff Writer  
The way you apply your perfume is every bit as important as knowing the right scent for every occasion.

A careless dab on either lapel of your suit is never as effective as a subtle spraying of the hem of your skirt, insists designer Lilly Dache. "Perfume," the attractive French milliner points out, "should be applied where the air can waft it around. Then, and then alone, does it do its lovely work to the full."

She prefers, for instance, to spray it on her veil or into her hair. This, she says, allows the maximum circulation of scent for the minimum amount of perfume used.

If you favor toilet water for daytime, and apply perfume only for after-five occasions, don't mix your scents—match them. You'll find, Mme. Dache points out, that just a drop or two of perfume will intensify the fragrance of the toilet water you used earlier, and make both last much longer.

LILLY DACHE: "be subtle."

### Fay Dublin Program To Be Musical Treat

Mrs. Maude Leonard will present Miss Fay Dublin in piano recital, assisted by Miss Glenna Graham, vocalist, Friday evening in the First Presbyterian Church.

The program will include the following numbers: "Claire De Lune," "De Bussy, Miss Dublin; "I Heard You Singing," E. Ewin Czerle, Miss Graham; "Rustles of Spring," "Sindling, Miss Dublin; and "There's Just One Song," Lucile Lind, Miss Graham. Miss Dublin will play a prelude by Chopin, Largo Opus 28 No. 20 and Magnolia in a group; L'Amour - Toujour - L'Amour by Friml, Miss Graham. Final number of the program will be the Crescendo, Per Lasson by Miss Dublin.

The program will begin at 8 p. m.

### Church Group Honors Mrs. Douglas Nix

The Friendly Builders Class of the First Methodist Church was entertained delightfully in the home of Mrs. Douglas Nix, Thursday afternoon, when Mrs. Melvin Little was co-hostess.

The business session was in charge of Mrs. T. H. Hudkins, who reported 16 hours for the club at Red Cross work, and 21 visits by the visiting committee.

The feature of the afternoon was the book review presented by Mrs. Ray Howard, who gave in a most interesting manner "The Robe" by Lloyd Douglas.

Special guests present were: Mesdames W. A. Black, J. H. Brock, M. J. Allen, Joe V. Birdwell, H. M. Reigle and Ray Howard. Members of the club present were Mesdames L. T. Fowler, A. C. Moore, N. W. Beauchamp, S. H. Hudkins, Zelma Smith, Ira Cole, Smith Umberson, A. B. Stickney, Pat Barber, Gladys Holster, and Mrs. Douglas Nix, the hostess.

Mrs. Nix plans to leave Midland the latter part of May to make her permanent home in Fort Worth. Members of the club presented Mrs. Nix with a handsome gift as a parting remembrance.

**OCHO CLUB MEETS**  
Mrs. C. S. Noland, 910 North Kentucky, will be hostess Thursday, May 6, to the regular meeting of Ocho Club, when the hours will be spent at bridge. The meeting is called for 1:30 p. m.

### Musical Review Here Expected To Go Over In A Big Way Friday Night

Crazy Show, USO-Camp shows star musical revue, comes to the world's largest bombardier school for two engagements Friday night, April 30.

Anything can happen in the show which was designed with all the emphasis on goofiness—and in this one, everything goes. The comedians sing, the singers make with the jokes, the dancers ad-lib and the gag men dance.

Ben McAtee, who is definitely of the Milton Berle school of comedians, is master of ceremonies for the show. His delivery is smooth and glib and he keeps the show moving right down the stage with effortless style that goes over with a bang.

Wilbur Hall and Renie and Eddie Hanley also double in brass in the laugh section of Crazy Show. Hall and Renie, headline comedy duo, who sing and play a variety of musical instruments, are a miniature musical comedy show in themselves. Eddie Hanley, a very talented dramatic comedian, is sure-fire.

The show will be free to all personnel at the bombardier college and free transportation will be available from the Post Exchange.

Core of the earth is estimated to be 1800 miles below the surface.

Members present were: Mesdames F. E. Ingham, W. A. Black, D. W. Brunson, J. P. Garver, Laura Wright, M. L. Wyatt, and Mary S. Ray and special guests were Mrs. S. T. Cole, Mrs. Henry Butler, and Mrs. Middleton, daughter of the hostess.

Officers of the club for the coming year include: Mrs. Ingham, president; Mrs. Wyatt, vice president; Mrs. Ray, secretary, and Mrs. Black, assistant secretary.

The next meeting is scheduled to be with Mrs. Ray.

### Girl Scouts' Badges Like Those Of Boys

Girl Scouts met Thursday afternoon in the First Baptist Church, when the hours were spent in the completion of badges, which are similar in design to the Boy Scout badges.

Present were Misses Betty Chancellor, Betty Jo Green, Mickey McDonald, Helen Shelton, Billie Ann Hill, and Valley Jean Secor.

Core of the earth is estimated to be 1800 miles below the surface.

Members present were: Mesdames F. E. Ingham, W. A. Black, D. W. Brunson, J. P. Garver, Laura Wright, M. L. Wyatt, and Mary S. Ray and special guests were Mrs. S. T. Cole, Mrs. Henry Butler, and Mrs. Middleton, daughter of the hostess.

Officers of the club for the coming year include: Mrs. Ingham, president; Mrs. Wyatt, vice president; Mrs. Ray, secretary, and Mrs. Black, assistant secretary.

The next meeting is scheduled to be with Mrs. Ray.

### Lucky 13 Club Has Delightful Session

Spright flowers were used in profusion Thursday evening when Mrs. J. A. McClurg entertained the Lucky 13 Club in her home, 403 North Street.

Progressive 42 featured the evening hrs, and high scores in the game were won by Mrs. V. H. Shepherd and Mrs. James Walker.

Clusters of roses and spring flowers adorned the interior of the club and a social hour and refreshments followed the game.

Members present were: Mesdames H. Jones, Ellis Cooper, H. S. Hays, Houston Sikes, S. P. Hall, M. Hays, W. N. Cole, James Gherty, D. D. Downing and the ess.

**WOMAN'S SOCIETY OF THE FIRST METHODIST CHURCH**  
The Woman's Society of the First Methodist Church will meet Monday afternoon in the church, when president, Mrs. W. P. Knight, preside.

**Thousands Say TAKE SWAMP ROOT TO AVOID GETTING UP AT NIGHT**  
Many sufferers find fast relief with famous Dr. King's Swamp Root. It's the tonic that helps wash away painful sediment. Feel better... sleep like a top!

Thousands get fast, wonderful relief from backache or getting up nights due to sluggish kidneys with the remarkable stomachic intestinal liquid tonic called Swamp Root. For Swamp Root acts to flush out acid element from your kidneys. Thus soothing irritated bladder membranes.

Originally created by a well-known practical physician, Dr. Kilmer, Swamp Root is a combination of 16 herbs, roots, vegetables, and other natural ingredients. No chemical or habit-forming drugs. Just 16 ingredients that quickly relieve bladder backache, run-down feeling due to sluggish kidneys. And you can't miss its marvelous tonic effect!

Swamp Root today! Thousands have found relief with only one bottle. Take as directed on package. All druggists sell Dr. King's Swamp Root.

**PERSONALS**  
Mrs. Stanley S. Shine left Thursday for Dallas, where she will spend the week-end.

Mr. and Mrs. Douglas Nix and family plan to leave the latter part of May to make their home in Fort Worth.

Use and sale of fishing tackle and other articles used for fishing has been classed as a prime necessity in Uruguay and placed under government control.

SERIAL STORY

DARK JUNGLES

BY JOHN C. FLEMING & LOIS EBY

COPYRIGHT, 1943, NEA SERVICE, INC.

CHIEF'S WELCOME

CHAPTER XXIII
BARRY woke heavy-headed and listless to the dismal sound of an early thunder shower.

"Good!" cried Barry. "Then in a couple of days we'll be ready for our call on Moncha Suma. If we just come out all right with the old bird—!"

"You'll come out all right, I know you will," Lila murmured, her smile deep and assured.

Barry squeezed her hand gratefully. "You're a good sport, Lila." The slashing rain stopped abruptly, as though it had been turned off. Steam rose from the hot ground of the clearing.

"What is it?" Barry was watching them curiously. "It sounds like they're chanting."

"Let them chant," said Lila. She rose from the table and pulled him toward the estancia door. "Let's pack your things so that when you get back from Moncha Suma's—"

But Barry's gaze was still on the native demonstration. "Wonder what's up?" When she refused to go with him, he set out the clearing alone.

Barry made his way to the door of the hut. He stepped across the threshold and halted in amazement.

On a rough table in the steamy hut, there were two tubs of water. As a wiry little Indian and his moaning wife looked on in stolid suffering, Allison dipped a tiny black baby first in one tub and then in the other!

"What on earth is going on here?" cried Barry.

Allison glanced over her shoulder. There was a look of frenzied absorption on her face. "Con-convulsions," she said briefly. "I had 'em when I was a baby."

Barry strode up to her. The tiny black limbs of the child in her arms were twisting in strange contortions. "What are you doing with it?" he cried, alarmed.

"Hot water—cold water," Allison snapped lowering the small black body into the other tub. "My nurse used to do it to me. Bring me that kettle on the stove!"

Barry brought it and poured steaming water into the hot tub. "Hot as the trinket can stand it without blistering," Allison ordered. She went on dipping. The Indian woman's moans continued, and the low chanting came from outside.

Cold apprehension rose in Barry. The crazy little dabbler was play-

ing with fire this time. What imp of Satan had tempted her to tinker with the life of an Indian child? They'd blame her if it died. And it looked right now as if that's just what it was doing. If the small black body writhed in convulsive agony, then abruptly stiffened. The tiny face was black and mottled, the eyes glazed.

The Indian woman's moans rose shrilly. Allison's white little jaw tightened.

"Hotter," she whispered to Barry through clenched teeth. "Hotter still." Only he could hear the desperation in her muted tones as she went on dipping with feverish speed, not breathing—back—forth—back—forth.

All at once the stiffened little body relaxed. It was the death spasm.

Barry took his first deep breath as he went back across the clearing with Allison.

"Beginner's luck," he told her. "You'll be the miracle woman to them now. But I wouldn't try that again."

Allison looked up at him. Her eyes were wide with piteous fear and she was trembling all over. "Why did I stick my big foot in?" she whispered. "What if—what if—"

Barry whooped with amusement. "You're the battiest little screwball," he told her. "Your scare reflex is wired in wrong. It always begins to twitch after the danger instead of before!"

As they neared the house they saw Lila on the shaded veranda talking to a half-naked Indian. She called to Barry in a voice of controlled excitement.

"He says he's a Quiche," Barry's laughter died. His throat constricted with shock. He took the veranda stairs three at a time, cursing himself for going without his gun.

The tall, dark Indian gave him a piercing look. "You Mis-tair Fielding?"

Barry nodded.

With a swift movement, the Indian reached out a long brown arm and opened his fingers. A folded paper lay in the dark palm. Barry opened it and read it. It said in a painstaking, flowing script,

"Will you return to my house now to talk of the mines?" It was signed by the Chief of the Quiches! (To Be Continued)

McKENNEY ON BRIDGE

By Wm. E. McKenney

America's Card Authority
If East and West had reached a contract of four spades on the hand shown today, there would be nothing to write about, but getting into the wrong contracts makes bridge interesting.

Bridge hand diagram showing cards for South, West, North, and East, including a Dealer position.

Duplicate—North vul.
South West North East
Pass Pass 1 1 N T
2 2 A Pass 3 N T
Opening—2. 30

The partnership bridge comes in. Let us say that South opens the deuce of hearts. Should North play the ten? I do not think so.

The opening of the deuce shows that South holds three or four hearts with an honor. That honor may be the king—East may have bid no trump with three hearts to the queen.

Therefore, North's correct play is to go up with the ace. Then he should lay down the king of diamonds, telling his partner that he holds the diamond ace for the purpose of re-entry, in case East attempts to block the heart suit.

South will shout for the continuation of the diamond suit by playing the nine-spot on the king. North will then play the ace of diamonds, and he will get the three from South. Thus, even without his gun.

If North ducks the first heart, East will cash six club tricks and six spade tricks, making a grand slam.

Vegetable cheese is made from the milk of the cow tree in British Guiana.

Flower Raising Hobby Paying Off In Colors For C. B. Dunagan Of Midland

C. B. Dunagan, 402 South Weatherford Street, has a beautiful flower garden at the side of his house. The plot, about 25 by 30 feet, is a profusion of poppy and larkspur blooms these days, and many other types of flowers soon will be blossoming out.

California poppies are blooming in profusion throughout the garden and their colors vary from pale white to scarlet red. There are pale yellow, deep orange, pink, and many other colors in the bed. Blue and white larkspur and several varieties of wild flowers add to the color scheme.

Dunagan planted poppy seed in the space three years ago, and the flowers have seeded themselves each year since. He has turned the plot into an experimental ground and the results are pleasing. Located at one end of the gar-

den is a giant joint cactus which will be in bloom soon. It is about 12 feet wide and eight feet tall—and came from only a small joint he planted some years ago. Dunagan says he has always had a desire to be a farmer, and since he hasn't lived on a farm in 36 years his flower raising is a pleasurable substitute.

Lt. Arsdale Is Station Communications Officer

Second Lieut. George E. Arsdale, Jr., a graduate of Army Air Forces officer candidate school at Miami Beach, Fla., April 18, has been assigned to 43rd Base Headquarters and Base Squadron at the Midland Bombardier School and to duty station communications officer.

Midland Bombardier School Needs Hundreds Of Old Alarm Clocks Now

The Midland AAF Bombardier School needs old alarm clocks. That was the request of Col. John P. Kenny, the commanding officer, as he revealed a new technique of bombardier instruction which has been developed and now is in full swing here. Super-size models of bombing devices which will save approximately 260,000 hours of instruction time a year now are being constructed in the new training aids department of the Bombardier School here in sufficient quantity to supply every bombardier school in the country, Colonel Kenny said. To construct the intricate parts of these models, he declared, hundreds of old alarm clocks are needed. Anyone who can give us an old worn out clock will be playing an extremely vital part in the training of the 'Hell from Heaven Men,' Colonel Kenny pointed out. The clocks may be left at the Midland Chamber of Commerce office. Large Scale Models The models being constructed by the Bombardier School here include a fifteen-foot working mock-up of the famous Norden bombsight, as well as large scale models of the Pitot tube, air speed indicator, pilot direction indicator, and other complex instruments which it is vitally important for the bombardiers to understand thoroughly. 'The mock-up of the bombsight alone,' he said, 'is one of the most important developments in the entire bombardier training program. Not only does it save precious hours of training time, but it permits clear, accurate instruction in operation and maintenance of the bombsight. Reports from the fighting fronts have proved again and again how extremely important it is for the bombardier to have a thorough understanding of the operation and general maintenance of his bombsight.' Colonel Kenny said, 'Now, through the use of these oversize models, we are able in a few hours to school a bombardier in the complex mechanism of the bombsight with a clarity and thoroughness previously impossible.' Colonel Kenny said the school here will not only provide the complex models for every bombardier school in the country, but also will supply special diagrams and a series of 180 charts which will so simplify bombsight instruction that 'a man who has never seen the sight before, after a study of the charts, diagrams, texts and models, get sufficient background to teach its operation thoroughly and accurately.' Program Is Complete These comprehensive charts, texts and graphs which will soon be in use along with the models at bombardier schools, are being prepared here under the direction of Colonel Kenny, a pioneer in the development of bombardier training. Col. John D. Ryan, director of training, and Capt. William L. Richards, director of ground school. The models have been developed and built by Lieut. Joseph J. Chopp, a former professional magician, and he now supervises the staff which is producing the almost magic devices for Army Air Forces schools. A native of South Range, Mich., Lieutenant Chopp was commissioned last summer to be a ground school instructor of student bombardiers. As a preliminary he took the entire bombardier's course to acquire a full understanding of the problems. 'We ran into many difficulties in explaining the mechanics of the bombsight to cadets,' Lieutenant Chopp said. 'It takes several hours to take a cadet and several more to assemble. By the time you had it down to a point where you could explain the part you wanted, half the day was gone. Besides, the sight has so many tiny parts that it is impossible to give a room full of students a clear picture of the subject. The result was that Lieutenant Chopp set to work to build a model bombsight big enough to demonstrate its workings to a large class. In three months he had completed the job—a model that is complete in all details. 'In fact,' he says, 'you could bomb with it if you had an airplane big enough.'

Lewis Protests -- Former MAAFBS Crew Bombs Ice Jam In Canada

The anthracite contract also expires Friday, and New York conferees on this related dispute delayed resuming their meetings until after the UMW policy group has met. As expressed by F. A. Norman, president of a local union in the Fayette (Penn.) field, this is the way the miners feel about it: 'If President Roosevelt came down to this patch himself and told these men to go back to work without an agreement, without a contract, they'd tell him: "You go back and get an order from John L. Lewis. Then we'll go back to work."'

Meat Point -- (Continued from Page 1) Friday night, and minor changes in the canned goods point values also may be announced over the weekend. Since the changes take place during the weekend that bridges the April and May meat stamps, the only valid stamps Saturday will be the E stamps become valid, along with the F stamps, however, the F stamps become valid, along with the E's, which will remain good until the end of the month. Extracts Exempted Another change was to exempt from rationing bouillon cubes and meat extracts or concentrates. Vienna sausage came down a point. Permission was granted butchers to include in hamburger 'heel of round and skirts' as well as other scraps and discards. Commenting on the unchanged status of sausage (except minor changes on types containing less than 50 per cent meat), OPA said the over-abundance of sausage on the market was due to overproduction and not to abnormally low public demand. A press statement said any cut in sausage point values would merely encourage diversion of regular meat to sausage.

New Activity -- (Continued from Page 1) Atlantic Refining Company No. 1 Langley drilled out retainer from 8,165-75 feet and now is gun-perforating 5 1/2-inch casing from 8,187 up to 8,170 feet, opposite the basal Pecos Ordovician. Phillips Petroleum Company No. 1 Ada C. Price, Southeast Central Pecos County Ordovician test 29 miles southeast of Fort Stockton, is drilling at 10,520 feet in shale. In Northern Pecos, Bryce McCandless No. 1 University is drilling unchanged in granite wash at 5,429 feet. Culbertson & Irwin, Inc., of Midland No. 1 R. G. Helner, five-eighths of a mile southwest outpost to the Heiner Ellenburger pool in Northern Pecos, is standing with 7-inch casing cemented at 4,269 feet in lime, corrected by steel line measurement from 4,277 feet. Seeking Ordovician pay on the west side of the Yates field in Eastern Pecos, Standard Oil Company of Texas No. 1 Douglas Oil Company et al is drilling at 7,310 feet in hard lime believed still to be Pennsylvanian. It logged dry porosity in oolitic lime from 7,240-88 feet. West of the Wentz Cambro-Ordovician pool in Northeastern Pecos, Gulf Oil Corporation No. 1 Roy Girvin is rigging up rotary, Skelly Drills Ahead A prospective 'Holt pay' strike in Southern Andrews County, Skelly Oil Company No. 1-K University, is drilling ahead below 5,510 feet in lime. A core from 5,500-10 feet recovered three feet and four inches of coarsely crystalline lime bearing good porosity and oil saturation, and four feet of slightly stained lime with no porosity. The well logs tested a total of approximately 28-1/2 feet of pay since topping the Holt zone at 5,464 feet. The Rev. Father John J. O'Connell, of the Catholic Church, was to have charge of the services. Interment will be in Fairview Cemetery under direction of Bar-fow Funeral Home.

Wool BOSTON—(AP)—(USDA)—Sales of spot Australian staple fine wool were made Friday at an out-of-bon dcean price of \$1.10 and half-blood staple at \$1.05, same basis. Sorted mohair of 32s grade was sold for future delivery at 85 cents. Spot half-blood Montevideo greasy wools were sold at 43 cents in bond.

Roberts Baby Burial Scheduled Friday Funeral services were to be held Friday afternoon at 2:30 o'clock for the infant baby of Mr. and Mrs. Robert B. Roberts. The Rev. Father John J. O'Connell, of the Catholic Church, was to have charge of the services. Interment will be in Fairview Cemetery under direction of Bar-fow Funeral Home.

## Favorites In Kentucky Derby Troubled With Aches, Pains

LOUISVILLE, KY. —(P)—A field of 12 three-year-olds was entered Friday to run in Saturday's 69th Kentucky Derby, but there was still some doubt over the highly-regarded Ocean Wave would get to the post.

LOUISVILLE.—(P)—They've been calling this the "Street Car Derby" and the "Catch Count Fleet" derby around here for weeks but if this Saturday's scramble isn't a natural for the "Bunion Derby" then there's

plenty of bounion in Derbytoun. Which there isn't.

For, giving this 69th Kentucky Derby field a quick run-down, as the entry book opened Friday morning to settle the whole thing, you find the top two favorites and one of the choicest of the other hay-stokers troubled with foot aches and pains enough to drive a chorus line out of business.

Just take the top hay-stoker of the lot—Count Fleet. Twelve days ago he won the Wood Memorial after being all but cut down like a weed in a victory garden at the gate. Next there is Ocean Wave, second choice to the Count in the derby. He won the blue grass stakes nine days ago with a cracked heel. Then he waltzed in with the derby trial mile by nine lengths with the same ailment, only that time it was a little tougher to take.

Next, there is Slide Rule, who pulled up sore after a workout three weeks ago.

Count Fleet's left hind leg is coming around like the second trip on a merry-go-round. Even Trainer Don Cameron isn't worrying about that any longer.

Ocean Wave, on the other hand, is a horse from a different garage. "He's 50 per cent better," Trainer Dean Jones says.

## VanderMeer Has Edge Over Major League Pitchers

By Judson Bailey  
Associated Press Sports Writer  
Pitching has been the prize product of the major leagues this spring and scintillating performances have been piled one on top of another. But there would be no argument if the question were asked, "Who is the outstanding hurler to date?"

The answer is Lefty John Vander Meer of the Cincinnati Reds.

The New Jersey Dutchman, slated for early induction, has gone to the mound three times in eight days, pitched 29 innings and allowed only two runs and 12 hits.

Debuting Thursday he turned back the Pittsburgh Pirates 6-1 on six hits. He had a shutout, till the ninth, when the Bucs finally bunched three blows for a run.

This triumph kept the Reds tied with the Cards for third place in the senior circuit as St. Louis slipped over a 4-3 twelve-inning conquest of the Chicago Cubs.

The Brooklyn Dodgers completed a sweep of their series with the Phillies on the gift of two unearned runs for a 4-3 victory.

The Boston Braves vaulted into second place back of the Dodgers by beating the New York Giants 5-2 behind the six-hit hurling of Charley (Red) Barrett.

Yanks Beat Red Sox  
In the American League the New York Yankees were forced into twelve innings by the Boston Red Sox, but won 7-3 with a final four-run blast in which Nick Etten and John Lindell each singled with the bases loaded.

The Yankees' path to another pennant was smoothed considerably Thursday when rookie shortstop George Stinnett was ejected at the Hartford, Conn., induction center because of stomach ouches.

The Washington Senators maintained their grasp on third place with a 5-1 decision over the Philadelphia Athletics.

In the other game of the day the Detroit Tigers also were outbut but beat the St. Louis Browns 3-2. Virgil Trucks held the Browns to four safeties.

## Sports Roundup

By Hugh Fullerton, Jr.  
NEW YORK.—(P)—Don't be surprised if you see a lot of pros playing football in the Western Conference next fall (and no wisecracks now) . . . The tip is out that the Big Ten is about to okay the former play-for-pay-players who are sent to the colleges by the armed services for training.

One-Minute Sports Page  
The Reds need only three more victories and they'll have the National League pennant practically cinched . . . In each of the two years they won the pennant, 1939 and 1940, they won seven of their first ten games. The count so far is 4 and 3 . . . Henry Vasquez, who fights Bob Montgomery at Holyoke, Mass., next Monday, was stricken with infantile paralysis when he was a kid and took-up boxing to rebuild his muscles.

Service Dept.  
Eric Pedley, the first westerner ever to play international polo, finds considerable similarity between polo and derjag gunnery, which he now teaches . . . In both you have to hit a moving object while traveling aboard another moving object. The essential skill, he says, is timing.

Overbidding his hand when Comedian Bob Hope was playing golf and selling war bonds in Fort Worth the other day, AP Sports Scribe Harold Ratliff stood by complaining that the high wind was about to blow his hat off . . . "Why don't you pull it down tighter?" someone asked . . . "Scared to," he replied. "If I raised my hand above my hips I might discover I had pledged myself to buy \$15,000 worth of bonds."

## \$45,000 Beauty

Walter O. Briggs paid Dick Wakefield \$45,000 for signing and the Michigan youth is more than living up to expectations in the Detroit Tiger outfield. The son of the old catcher, Howard, led the Texas League with 345, was adjudged most valuable player.

## Continuation Of College Athletics Seems Assured

CHICAGO.—(P)—The continuation of college athletics is more certain now than it was a year ago, Major John L. Griffith, athletic commissioner of the Western Conference, declared Friday.

Griffith said he based his conclusions on several general known facts and others which he was not at liberty to disclose.

"For one thing," he said, "the public now that our college athletic facilities designed for peacetime can be of value to the war effort."

Conditioning Helps  
"These boys say their sports conditioning enables them to get out of tight places alive and is helpful to them in actual fighting."

Griffith said that all Western Conference schools, as well as Notre Dame and several other midwest independents, are making sure their spring sports programs go through. He declared that although few of the nine football-playing Big Ten members have any idea of what graders will be available by next fall, they intend to engage in the fullest possible schedule of games.

Aggie Football Team Short On Lettermen  
COLLEGE STATION.—(P)—Speaking of turnovers, take the Texas Aggie football prospects. Only three lettermen remain at A. and M. due to calls to the service. They are Barney Welch, back, and Hank Foldberg and Walter Steymann, tackles.

NINE MEN KILLED IN CRASH AT HARLINGEN  
HARLINGEN.—(P)—A medium bomber crashed and burned in a field a mile northwest of the Harlingen Army Gunnery School Thursday, killing nine members of the crew.

The school's public relations office said the craft was approaching the air base for a landing after a routine gunnery flight over the Gulf of Mexico.

An automobile spark plug streaked with soot on the outside indicates the need for a new, cooler plug.

## Security Against

Fire Damage  
A few dollars a year insures your property against fire damage—however slight or destructive. Why risk economic disaster? Your family, your future depends largely on a well planned fire insurance policy.

## Conference Ball Championship Is Nearing Decision

COLLEGE STATION.—(P)—The Southwest Conference baseball championship went on the line Friday when Texas meets Texas A. and M. in the first of a two-game series.

Each club has lost one game while winning five and will have to take both tilts to grab the title. Defending champion A. and M. planned to use J. E. (Smoky) Garden on the mound Friday and Texas was to rely on Jim Collins, who beat the Aggies at Austin the first time the teams met this season.

Collins and Grady Hatton, infield star, were to have some into the service last week but enlisted reserve corps orders did not arrive, so they will be able to play in Texas' final games.

Saturday Luke Kent is due to hurl for the Longhorns with Lefty Johnny Shuford working for A. and M.
