

ITALY ACCEPTS UNCONDITIONAL SURRENDER TERMS OF ALLIES

Military Parade To Open War Loan Drive Thursday Military Armistice Is Granted Weary Army

Might Of Army Air Forces Will Be Displayed As Campaign To Exceed Goal Of \$1,744,400 Is Inaugurated

Purchasers Of \$50 Bonds Will Be Given Rides In Jeeps Driven By WACs From Midland Field

Displaying the might of the Army Air Forces, a big military parade at 11:05 a. m. Thursday will mark the opening of the Third War Loan drive in Midland—a campaign in which citizens are asked to invest \$1,744,400 in War Bonds.

The parade will feature the Midland AAF Band, a class of Midland cadets, special displays and various types of equipment used at the Midland Army Air Field.

Col. John P. Kenny, commanding officer, indicated it will be one of the largest military parades ever held in West Texas. He has assured Midland leaders of the full cooperation of the Bombardier College in reaching the high goal.

Germans Abandon Stalino In Face Of Red Advance

NEW YORK —(AP)— Marshal Stalin triumphantly announced in a special order of the day Wednesday that "the Donets Basin is cleared of the Germans."

LONDON —(AP)— The Berlin radio announced Wednesday that German troops have evacuated the steel center of Stalino in the Donets Basin after destroying all war installations.

The city has been menaced by the Soviet advance in South Russia for several days and the Russian midnight communique announced Tuesday night that Red Army units were by-passing the city in a pincer movement.

Russian announcements said that the Red Army was advancing all along a 600-mile front, exacting a heavy toll from the retreating Germans. Nazi casualties since the start of the summer offensive July 12 have reached the staggering total of 420,000 killed and 1,080,000 wounded, and 38,600 captured, Moscow declared. At least 30,000 square miles of territory have been recaptured.

The tremendous German casualties were announced in a special Soviet communique broadcast from Moscow Tuesday night. Listed also were staggering losses in war material, the Russians reporting they had destroyed 5,729 warplanes, 8,400 tanks, 5,192 guns and more than 28,000 trucks. Captured material included 1,941 tanks, 2,018 guns, 5,382 machineguns and 7,953 trucks.

The regular Soviet communique recorded a steady advance along the entire front Tuesday, despite increasing German resistance, especially in the important Donets Basin salient.

The relentless strength of the Red Army offensive gave the Nazis no rest on other fronts that were active Tuesday, according to the Moscow war bulletin. In the Northern Ukraine, the area south of Kharkov and on the Bryansk sector continuous gains were recorded, with more than 200 towns and villages captured in advances up to 12 miles.

President Will Speak Wednesday On Bond Program

WASHINGTON —(AP)— President Roosevelt will open the \$15,000,000,000 third war loan drive Wednesday night with a 10-minute radio address as part of an hour-long program beginning at 8 p. m.

The broadcast, originating in Washington and Hollywood, will include an all-star cast of motion picture and radio headliners. Roosevelt will speak at about 9:40 p. m. The Treasury's war finance division paid tribute Wednesday to the manner in which it said the nation's press is "forming a solid front-line for the record-breaking bond-selling" campaign.

EARL OF ATHLONE IN ALASKA
PRINCE RUPERT, B. C.—(Canadian Press)—The Earl of Athlone, governor general of Canada, has paid his first visit to Alaska, personally piloting an amphibian bomber of Royal Canadian Air Force part of the way north from this port.

Military Parade Route Announced

The big military parade launching the Third War Loan drive here will form at Midland High School at 10:30 a. m. Thursday and will start moving at 11:05 a. m. C. V. Lyman, parade marshal, said.

The line of march will be east on Texas to Main, south on Main to Missouri, west on Missouri to Lorraine, and north on Lorraine to the courthouse.

The order of the parade will be police escort, officials, color guard, Midland AAF Band, Midland AAF cadets, Legionnaires, police and fire departments, Army equipment, bomb sight float, machine gun display, sound truck.

H. R. Etheredge Is Killed In Plane Accident

First Sgt. Howard Regen Etheredge, 24, of Midland, was killed in an airplane accident near Memphis, Tenn., last Sunday, his parents, Mr. and Mrs. Robert B. Etheredge, were informed Tuesday night by the commanding officer of the Hobbs, N. M., Army Air Field.

Sergeant Etheredge was in the Engineering Corps and members of his family did not know he was in the Memphis area. No details of the accident were revealed in the communication received here.

Mr. Etheredge is a carpenter at the Midland Army Air Field. Services To Be In Snyder

Sergeant Etheredge was a graduate of Snyder, Texas, High School and moved to Midland with his family about seven years ago. He has been in the Army about three years.

Funeral services will be held in Snyder, Texas. Survivors include his parents; three sisters, Miss Elsie Etheredge of California, Mrs. Johnny Porters of Snyder, and Mrs. Gus Foster of Midland; and five brothers, Sgt. R. B. Etheredge with the Army in England, Glenn Etheredge who is with the Navy overseas, Troy Etheredge of Midland, Wally Etheredge of Midland, and Bobby Etheredge of Snyder.

Field Artillery Pieces Dropped By Parachute Being Fired At Japanese Targets In Markham Area By Allies

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC —(AP)— Field artillery pieces dropped by parachute with American paratroopers at Nadzab airport Sunday now are firing at Japanese targets in the Markham Valley in the direction of Lae, Allied headquarters disclosed Wednesday night.

It was also announced that a strong offensive patrol of 100 Japanese troops were routed near Singau Plantation, 10 miles east of Lae on Monday by Australian infantry which had landed on the New Guinea coast 48 hours earlier.

The troops were advancing westward along the Huon Gulf toward Lae itself and were approaching the Busu River, only five miles from Malahang, one of the threatened city's main airbases.

The Australians were within range of enemy guns at Lae, but they have not been fired, as yet. The silence of these weapons indicated the effectiveness of the heavy aerial pounding of Lae by Liberator bombers before the Allied invasion Saturday.

U. S. Paratroopers and other units in Markham Valley have not yet met serious opposition. It was said officially that operations on both sides of Lae are proceeding according to plan without real resistance.

Malahang airdrome, across the Busu River from the advancing Australians is three miles from Lae airfield proper which was the town's secondary airdrome.

Airstrip Taken
Paratroopers, virtually unopposed, captured the Nadzab airstrip in the Markham Valley, 20 miles north-west of Lae, Sunday, Wednesday, headquarters disclosed, from the U. S. Army's European theater headquarters, said RAF, Dominion and Aliea Spitfires escorted the bomber fleets.

The Nazi-controlled Paris radio declared that American bombers had struck in "violent attack" at Amiens and had pounded Abbeville more, but there was no announcement from Allied air officials of new raids against these oft-battered objectives. Mosquito bombers pounded enemy airfields and rail targets in France and Belgium, the Air Ministry announced, to keep the air offensive rolling through another night, and naval planes destroyed a German E-boat in the channel.

Anniversary Passes
The anniversary of the opening of the great German air offensive against London, which began the evening of Sept. 7, 1940, and continued without a lull for 85 nights, passed Tuesday night with only a few scattered Nazi raiders over England to remind Britons of the day.

More than 250 German planes raided this city the first night of the great blitz, striking at about 8 p. m. and raining incendiaries and high explosives on the capital until 4:30 a. m. They killed 430 persons and injured 1,600 in addition to causing widespread destruction.

WEATHER
Little temperature change.

Glasscock Gets 3,500-Foot Try On Keathley Fee

By JAMES C. WATSON
Oil Editor

A new wildcat operation to be started by September 20 will be McElroy Ranch Company and John M. Emch No. 1 B. A. Keathley, scheduled to drill to 3,500 feet with cable tools. The test will be in Central Glasscock County.

Location of the hunt for new oil is 2,310 feet from the west, 100 and 330 feet from the south line of section 40, block 34, TPRR survey, T-3-S, and approximately four miles northwest of Garden City.

Phillips Petroleum Company No. 1 Sterling, on the J. L. Glass ranch in Western Sterling County, is grinding downward below 5,185 feet in line an chart.

Texas Pacific Coal & Oil Company No. 52-Lane, Upton County test to 9,000 feet, is still drilling chrt around 7,031 feet.

Pump Repair At Price
Phillips No. 1 Ada C. Price, Pecos County extra-deep wildcat, is repairing a pump at a total depth of 12,717 feet. The breakdown allowed for only two feet of new drilling since Tuesday.

Pure No. 1 Sugg D & A
The Pure Oil Company No. 1 Sugg, Irion County wildcat, has been pronounced dry at a total depth of 2,527 feet in line which was topped at 2,405 feet. The hole will be plugged and abandoned. A small show of oil, with some water was reported last week from 1,842-52 feet in line and from 1,999-2,007 feet.

Fred Turner, Jr., and Phillips No. 1 Shannon, Crockett County exploration three and one-half miles north of the Olson field, is drilling below 2,219 feet and still is "no bananas." Some calculations on the operation expected that oil, water or something should have been produced.

Promises Victory

GEN. GEORGE C. MARSHALL

Marshall Says Invasion Plans Are Completed

WASHINGTON —(AP)— Allied preparations for smashing Germany's European fortress—including an invasion of Northwestern Europe—are virtually complete, Gen. George C. Marshall disclosed Wednesday, and plans for decisive triumphs over Japan are well advanced.

"The end is not yet in sight," the Army chief of staff said of history's greatest war, "but victory is certain."

Marshall's conclusion as to the invincibility of Allied arms was set forth in an extraordinary report to Secretary of War Stimson which he reviewed the early months of heart-breaking defeat suffered because of inadequate forces, revealed the swift measures taken to stem Axis aggression, told of historic decisions made in Casablanca and Washington, and showed how the enemy had at last been forced on the defensive road to defeat.

Enemy On Defensive
"Strategically the enemy in Europe has been reduced to the defensive and the blockade is complete," Marshall declared. "In the Pacific the Japanese are being steadily ejected or rather eliminated from their conquered territory. x x x

"There can be but one result and every resource we possess is being employed to hasten the hour of victory without undue sacrifice of the lives of our men."

In contrast to 1941 when there (Continued on Page 5)

American Fliers Bomb Targets In Nazi-Held France

LONDON —(AP)— American twin-engine Marauders blasted two enemy air fields near Lille in France Wednesday, rounding out a full week of non-stop assaults by Allied air units based in Britain to support the Mediterranean campaign and pave the way for the invasion of Western Europe.

At the same time Thunderbolt fighters of the U. S. 8th Air Force augmented the drive with sweeps over Belgium and Northern France, Air Bases Blasted

The targets of the medium Marauders in their seventh consecutive day of operations were the Nazi air bases of Lille-Nord and Lille-Vandeville, both of which had been hit previously in recent days.

Placed in shape and Australian troops are streaming in by air transport to reinforce paratroopers moving on Lae from the sea.

Lae has two airdromes, Salamaua 18 miles southeast, has one. All three are in danger of seizure as a consequence of encirclement which has trapped a Japanese army estimated at 20,000 men.

All three no longer can be used by the enemy. Allied bombers, escorted by fighters, have made it unsafe for the Japanese to use airstrips at Finschhafen, Madang, Nubia, Alexishafen and airdromes 350 miles above Salamaua around Wewak.

The envelopment of Lae and its airdromes is proceeding rapidly.

Dairymen Told OPA Officials To Recommend Price Controls For Feed

Midland County dairymen, at a meeting with Congressman R. E. Thomason and district OPA officials from Lubbock in the courthouse Wednesday morning, were advised that the representatives of the regional OPA office in Dallas will leave this week for Washington to recommend and urge the placing of feed under price control.

J. B. Mooney of the OPA district office in Lubbock told the group the representatives have the facts and figures from all districts in Texas and they will make their recommendations to the Office of War Food Distribution in Washington.

Milk prices would be stabilized if the recommendations of the OPA heads are granted.

Thomason To Aid
Congressman Thomason said he would be in Washington Tuesday and would do all in his power to aid the milk producers.

Howard Gholson, district OPA manager, told of the survey made over his district and of his recommendations to the regional office.

More than 40 dairymen and other interested parties attended the conference which was arranged through the offices of the county agent and chamber of commerce.

I. O. Sturkie, county agent, president and Roy Stockard, producer, told of the problems facing the dairymen. He said many dairymen would be forced out of business unless some relief is granted immediately.

A meeting with Congressman Thomason was held here Monday, and it was at his suggestion that the Wednesday meeting was held.

Thomason said the dairy problem is widespread and that something must be done if the milk producer stays in business. He said feed and milk prices must be stabilized.

After learning of feed costs here, the OPA officials agreed that milk cannot be produced at a profit under the present ceiling.

"Feed is at the bottom of all milk, poultry, beef and hog production," Mooney said. A round table discussion was held.

Italian Government Tells Soldiers To Lay Down Arms; Germans Get Warning

ALLIED HEADQUARTERS IN NORTH AFRICA—(AP)—Gen. Dwight D. Eisenhower Wednesday announced the unconditional surrender of Italy in the greatest victory for Allied arms in four years of war.

General Eisenhower announced he had granted a military armistice—approved by Russia as well as Britain and the United States—to the war-sick, tottering junior Axis partner being chewed by invasion.

Hitler's "European Fortress" was cracked, the way was opened for new offensives, the course of World War II immeasurably shortened.

Surrender of Italian armed forces "unconditionally" was made by the government of Marshal Pietro Badoglio, successor of Benito Mussolini, the architect of Fascism.

Thus the Casablanca "unconditional surrender" ultimatum received its first application.

Announcing the brilliant news, Eisenhower, who led the Allied triumph in Tunisia and Sicily as well, declared:

"The Italian government has surrendered its armed forces unconditionally.

"As Allied commander-in-chief, I have granted a military armistice, the terms of which have been approved by the governments of the United Kingdom, the United States and the Union of the Soviet Socialist Republics. Thus I am acting in the interests of the United Nations.

"The Italian government has bound itself to abide by these terms without reservation.

"The armistice was signed by my representative and the representative of Marshal Badoglio, and it becomes effective this instant," Eisenhower said in a broadcast at 11:30 p. m. (Central War Time).

Truce Reached Friday
"Hostilities between the armed forces of the United Nations and those of Italy terminate at once. All Italians who now act to help eject the German aggressors from Italian soil will have the assistance and support of the United Nations."

The truce actually was reached last Friday at Allied advance headquarters in Sicily—the very day that British and Canadian troops swept across Messina Strait to invade the Italian toe—but it was agreed, a special announcement said, "that the armistice should come into force at a moment most favorable to the Allies, and be simultaneously announced by both sides. That moment has now arrived.

"The possibility of a German move to forestall publication of the armistice by the Italian government was discussed during the negotiations.

Germans Get Warning
"To meet this possibility, it was agreed that one of the senior Italian military representatives should not return to Rome. He is now in Sicily."

"Further, Marshal Badoglio arranged to send the text of his proclamation to Allied headquarters."

Badoglio issued a proclamation saying the armistice had been requested and granted, and called on all Italian armed forces to "cease all acts of hostility against Anglo-Americans."

Germans Fearing New Landings By U. S. 7th Army

LONDON —(AP)— New landings by the U. S. Seventh Army are feared by the Germans, it was indicated Wednesday by a radio broadcast, which said that the American troops stationed in the Mediterranean area have "gone to sea."

"News of the beginning of landing operations is not yet available," said the broadcast.

The broadcast said the new Allied expeditions totalling "roughly 200 merchant and transport vessels" indicated that American forces "are about to carry out further landing attempts somewhere."

Extensive Allied ship movements in North African harbors, especially in Tunisia, were also reported.

Meanwhile, it was learned at Allied headquarters that the Italian fleet has abandoned the naval base at Taranto at the heel of the boot, steaming out of the much-bombarded port and going to Pola, on the eastern Adriatic coast south of Trieste—the Italian port most distant from the war areas. So far as is known, the other main portion of the fleet still is at La Spezia on the northwest coast.

Jeep Rides For War Bond Buyers

Jeep rides through the downtown section will be offered each person buying at least a \$50 War Bond at one of the two bond booths on the courthouse lawn Thursday. The jeeps will be driven by WACs. Persons riding will be required to sign waivers.

The booths will open following the parade and will close at 1:30 p. m.

One booth will be operated by Russell Howard and Cecil Hodges and the other by the Rev. Hubert Hopper and Hap Palmer.

War Bulletins

LONDON —(AP)— Hitler has ordered a complete reorganization of Germany's bomb-hampered war production, the German radio reported Wednesday in a broadcast of a decree dated September 2.

WASHINGTON —(AP)— The determined progress of Allied forces in the Pacific and "terrific destruction" of enemy planes and ships has thrown the Japanese on the defensive and thrust upon them "an appalling problem," Gen. George C. Marshall asserted Wednesday.

FOURTEENTH U. S. A. A. F. HEADQUARTERS IN CHINA —(AP)— American Lightning and Warhawk took further toll of Japanese transport facilities in the area south of Hankow Monday in dive-bombing and strafing sweeps, a communique announced.

Sound Military Plans

Winston Churchill's frank, intelligent discussion of Anglo-American-Soviet relations, with reference both to the so-called second front and to political considerations arising out of recent and potential successes, ought to silence those who for so long have been shouting about Anglo-American "anti-Sovietism."

The fact is, as we have said before and Winston Churchill says now, that failure of Great Britain and the United States to work more closely with Russia is not our fault. If it is a fault, and probably it is, the onus is upon Moscow.

President Roosevelt and Premier Churchill have long wanted to have Premier Stalin sit in on policy conferences, not including that at Quebec which the Soviet leader could not well have attended unless he is ready now to establish a second front of his own against Japan.

For his own reasons, which we can assume to be good, Stalin has chosen not to become a full member of the United Nations' supreme council. Churchill says bluntly that he and the President have been and are willing to "undertake further immense journeys" for the sake of sitting down with Stalin and talking things over. Could he do more?

With equal frankness he has gone further along that line, and has said that he and the President would like to have Russia participate in political decisions arising out of the Anglo-American victories in the Mediterranean.

As for the second front, Churchill concedes freely that Premier Stalin is justified in seeking, in every possible way, to induce Great Britain and the United States to take more of the weight of German arms off the Soviet.

But we, on our part, must consider the long-run possibilities. Of what avail would it be to open a second front in western Europe before we are ready, take the burden off Russia temporarily, and then, suffering a fatal defeat because of impatience, lose the war we now are winning?

The time for the second front that Stalin asks from us is nearing, just as the time for the second front that we are not asking from Stalin, but that would be immensely valuable to both Great Britain and the United States—a Russian front against Japan—may come some day.

We have not invaded western Europe because we were not yet physically capable of handling that assignment with reasonable prospects of success. Stalin has not taken on Japan, presumably, because he cannot handle two fronts at once.

Both of us must be motivated by sound military judgment. Neither of us can be expected to move until, in the words of Churchill, "we are satisfied that there is a good prospect of continuing success and that our soldiers' lives are expended in accordance with sound military plans and not squandered for political consideration of any sort."

We do not reproach Stalin for following that course in connection with Nippon, much as we would like to have a bomber base around Vladivostok, about 550 air miles from Tokyo.

Post-War Plans For Industry

Post-war studies of the now-defunct National Resources Planning Board indicate that the big job of reconversion of industry from war to peace will come in the first six months. That is why planning before the war's end is essential, to cushion against the quick shock of cancellation of war contracts and finding new jobs for workers.

There is some inclination to say that this job of reconversion is entirely a government responsibility and that it is therefore up to the government to have ready a shelf of work projects on which the unemployed can be re-employed till private business is ready to go to work again.

But the best estimates available indicate that federal works projects could take up the employment of only about two million new workers in the first year, and what is that when compared to the Army and Navy of 10 million which must be demobilized, and the additional 10 million workers in munitions and war production industries for whom new jobs will have to be found.

That throws the greater part of the burden of post-war planning on others — the state planning, the local community planning, and the planning of private industry itself. But before going into that, there must be considered another factor in the situation, which is the reconversion or the disposal or the peacetime utilization of the \$18 billion worth of new plant capacity which has been built during the war. Fourteen billion dollars' worth of this is government owned. Altogether, it represents a 40 per cent increase in U. S. plant capacity over pre-war levels.

As most of these new plants represent greater efficiency and higher technological development than the old, it would be economic folly to consider closing down these new plants so that the older, less efficient plants would continue in production. Yet here is a definite government responsibility to decide how these new facilities will be converted to peacetime use.

May Heaven Protect Him From Stumbling

Italy Gives Up --

(Continued from page 1)

American forces wherever they may be met."

Badoglio instructed the Italians, however, to "oppose attacks from any other quarters," a warning that German attempts to interfere would be met by arms.

U. S. Troops Ready

The announcement came as dispirited Italian troops by the hundreds surrendered to British and Canadian troops advancing up the Calabrian peninsula, where the Allies landed last Friday on the heels of a 38-day Sicilian victory which sent the Germans fleeing to the mainland.

The capitulation came from the government of Marshal Pietro Badoglio, who succeeded Benito Mussolini when the junior partner of Adolf Hitler was ousted July 25.

American armies which took part in the Tunisian and Sicilian victories have not participated in the Calabrian invasion, and the Italian surrender leaves them free to strike elsewhere in Europe.

Italians Asked Terms

The headquarters announcement said:

"Some weeks ago the Italian government made an approach to the British and American governments with a view to concluding an armistice. A meeting was arranged and took place in neutral territory. It was at once explained to the representatives of the Italian government that they must surrender unconditionally.

"On this understanding representatives of the Allied commander in chief were empowered to communicate to them the military conditions which they would have to fulfill.

"One clause in these military terms binds the Italian government to comply with the political, economic and financial conditions of the Allies which will be imposed later.

Other Meetings Held

"Further meetings were arranged and took place in Sicily. An armistice was signed at Allied advance headquarters there on Sept. 3, but it was agreed with the representatives of the Italian government that the armistice should come into force at a moment most favorable for the Allies, and be simultaneously announced by both sides. That moment has now arrived."

British Children Are Working For Victory

LONDON —(P)—Thousands of British school children who would normally be on holiday now are working instead for the royal army ordnance corps, helping to send vital supplies to the British armies in Sicily and elsewhere.

In the vast depots of the R. A. O. C. these boys and girls, working voluntarily and without pay, count, pack and stencil stores to be shipped to overseas theaters. The equipment has only just started, but already favorable reports are pouring in.

One colonel, who has 250 children under him, at a depot in the Midlands reported to the war office that their enthusiasm has to be seen to be believed. At another depot, a sergeant gave a group of 130 children enough work to last them, as he thought, for two days. Three hours later he returned and found the job completed.

USED MOAT AS SEWER

Not too romantic were the romantic castles of the brave, bold knights of old. The moat often was used as a sewer and the remains of previous meals were usually strewn over the floors of the castle.

TORPEDO "BACKFIRE"

War in the Pacific ocean, where lies the international date line, could bring about strange happenings. It would be possible for a torpedo, released from a submarine today, to blow up a ship yesterday.

Eighth Army Makes New Landings In Attempt To Trap Nazi Forces

ALLIED HEADQUARTERS IN NORTH AFRICA—(P)—British-Canadian troops, expanding their invasion hold on Italy's toe to more than 70 miles, have occupied Bova Marina, 10 miles east of Melito in the south and pushed up the west coast of the Petrace River.

(Wednesday's German communique declared that Allied forces had swung 40 miles up the coast to the north in a new landing at the Gulf of Eufemia Tuesday night and "have been subjected to concentrated attacks since early today."

(A Berlin broadcast quoting the International Information Bureau said later that four or five British infantry battalions landed at Pizzo in the lower part of the gulf, pouring in more reinforcements after a drive aimed to cut off "German rearwards to the south and southwest."

The new advances reported by Allied headquarters, covering some 16 miles since Tuesday's report, put Allied armies in control of an area of about 100 square miles.

Air Attacks Continue

The west coast advance carried six miles above Palmi to the mouth of the Petrace River, and here the invading troops were entering a small plain reaching some eight miles north of the Mesima River after hard travel in the mountains slowed by enemy demolitions and skirmishes.

The heavy Allied air assaults continued Tuesday, with American Flying Fortresses bombing the big enemy airfield at Foglia—principal base where the Germans were known to have concentrated a great number of bombers, fighters and transports—and shot down 11 out of a swarm of attacking fighters.

Thomason --

(Continued from page 1) and of Germany's plan to grab South America.

"One thing is worse than death and that is slavery.

"We are living in a land of plenty. What have we sacrificed? We've bought a few bonds, and complained about sugar or shoe rationing.

"If the bonds are not good, nothing is good. If we lose this war, all is gone. We have more money than we've ever had before in this nation.

"I pledge you that my first consideration goes to the winning of the war and getting the boys back home. We can take care of home problems later.

"Our men are fighting and dying and some are in prison camps. We are going to keep the faith and be true to these boys and men.

"The news from Italy is cheering but there is lots to be done yet."

He predicted the Midland Army Air Field will become a great permanent Army aviation installation.

McHargue introduced by Paul McHargue, president of the Midland Chamber of Commerce. Roy McKee, Rotary Club president presided at the meeting. Special guests included Col. John P. Kenny, commanding officer of the Midland Army Air Field, and OPA district officials from Lubbock.

Mrs. De Lo Douglas entertained with vocal selections. Mrs. Holt Jowell was at the piano. Members of Midland civic and service clubs and interested persons attended the meeting honoring the congressman.

Death Toll From Houston Fire Is Increased To 50

HOUSTON — (P) — Two more men died in a hospital early Wednesday to bring the death toll of the Gulf Hotel fire to 50.

Two others died in a hospital Tuesday night and another unidentified body was found in the blackened ruins.

The screaming, frightened men were trapped in the old, three-story hotel in downtown Houston Tuesday. Forty-four of them never got out. They died fighting to get down the only fire escape not blocked by flames.

Six died in hospitals and 12 others remained hospitalized Wednesday, some in serious condition.

Justice of the Peace W. C. Regan said evidence indicated most of the men trapped in the building were suffocated or asphyxiated before they were burned.

21 Unidentified Twenty-one of the victims remained completely unidentified. Five were only partly identified and of the 24 identified some were not certain. The hotel was under way, one by City Fire Marshal H. L. Matthews and the others by the State Fire Insurance Commission and the National Board of Underwriters.

A three-way investigation into the cause of the fire was under way, one by City Fire Marshal H. L. Matthews and the others by the State Fire Insurance Commission and the National Board of Underwriters.

Daughters Of American Revolution Hear Interesting Book Review

The opening meeting of the season of the Lt. William Brewer Chapter of Daughters of American Revolution, was held Tuesday afternoon in the home of Mrs. Ben Black. Outstanding feature of the program was a book review by Mrs. Earl Powell of Stanton, who presented "Citizen Tom Payne" by Howard Fast, a biographical portrait of a man who lived during the revolutionary period, and who had the modern conception and viewpoint of life.

Hostesses for the occasion were Mesdames Ben Black, Jack Wilkinson, and Hubert Hopper. Mrs. Black is the newly appointed regent of the Midland chapter.

The meeting opened with the pledge to the flag and Mrs. Earle Payne, the chaplain, led in prayer. Sponsors Project

It was voted to sponsor the project of donating blood plasma for hospitals. The chapter will establish a fund, where registrations from those who wish to donate blood will be taken and then may be called by the hospitals at appropriate times.

A committee was appointed to change the day of meeting from the first Tuesday of each month to another day. A report will be heard on this matter at another meeting.

Mrs. Jim Tom of Stanton was voted into membership, her name being the fortieth on the club roster. State Official To Visit

On the first Tuesday in October the state regent, Mrs. Frederick Brewster Ingram, of Dallas will be a guest of honor of the local chapter.

Present were Mesdames George T. Abell, R. D. Blaydes, John P. Butler, Jack Wilkinson, James Goodman, R. W. Hamilton, Hubert Hopper, George Kidd, L. Waldo Leggett, Earle Payne, Erma Mancil, Eugene Russell, H. C. Wheeler, Jerry Galhagan, Jim Tom and Earl Powell of Stanton, and the hostess.

Group Enjoys Garden Picnic In Odessa

The Christian Endeavor of the First Christian Church went in a group to Odessa as guests of the Odessa Christian Endeavor Tuesday evening.

After meeting at the First Christian Church at Odessa they were taken to the home of Mrs. Q. Simpson for a garden party on the lawn of her home. Games and other recreation featured and a "school day" bag supper was served to the guests present.

Those who went from Midland included Jean Dupuy, Eloise Pickering, Howard, Doris and Dale Mickey, Van Cummings, Charles Sherwood, Bill Price, Arthur Rounds, Norma Conley, Betty Pickering, Sharon Cornelius, Dorothy Butler, Edwina Hood, Shirley Brunson, and Mrs. Charles Sherwood and Mrs. Lee Cornelius, who chaperoned, with the Rev. and Mrs. J. E. Pickering.

Whit Wyatt won 23 games and lost 7 in 1938. He was with Milwaukee in the American Association.

For Every Day

Make this dress up for every day service—you'll not get tired of it after constant wear. The pleasing bodice has just enough detail to make it always interesting.

Pattern No. 8499 is in sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38, short sleeves, requires 4 3/8 yards 35-inch material.

For this attractive pattern, send 15 cents, plus 1 cent for postage, in coins, with your name, address, pattern number and size to The Reporter-Telegram, Today's Pattern Service, 530 South Wells St., Chicago, Ill.

Now! You may order the new Fall issue of "Fashion," our 52-page catalog of patterns. It presents 102 new patterns and a wealth of sewing and fashion news. The price per copy is 25 cents.

Annual Baptist Meeting Will Be Opened Thursday

The 35th annual two-day meeting of the Big Spring Missionary Baptist Association will open at the First Baptist Church here Thursday with several hundred delegates from throughout this area in attendance. An Associational Brotherhood assembly meeting will open at 3 p. m. Thursday in connection with the association meeting.

The Thursday morning program will be opened by the Rev. O. D. Carpenter of Big Spring, and organization work will be reviewed. Dr. A. C. Miller of Dallas will make a talk at the morning session.

The Rev. P. D. O'Brien will preach the annual sermon preceding the luncheon to be served at noon by the young people's department of the Midland church.

The Thursday afternoon program will be presented by the Women's Missionary Union and reports will be read and a song service held. A meeting of the executive board and the Brotherhood session also will be held.

Bob Steakley of Odessa will lead the song and praise service at 7:30 p. m. and Claude O. Crane of Midland will make a report on Sunday Schools. Laura Rae Coolsby of Odessa will give a report on training unions, and Mrs. Herschel Smith of Knott will give a WMU report. Thomas J. Pitts of Odessa will make a report on Brotherhoods.

The Rev. Arthur De Loach of Odessa will preach the doctrinal sermon to close the day's program. A song and praise service led by the Rev. Jim Fields of Greenwood Community will open the program Friday morning, and miscellaneous business will be transacted.

Others scheduled to appear on the Friday morning program include the Rev. Charles O'Brien, Jr. of Big Spring; the Rev. Vernon Yearby of Midland; the Rev. Elmer Dunham of Big Spring; the Rev. Duke D. Shaw of Smith Chapel (Ector County); the Rev. Rupert N. Richardson of Abilene; the Rev. Charles Torrance of Stanton; the Rev. O. C. Pierson and the Rev. Cecil Rhodes of Knott.

Luncheon will be served in the young people's department of the church.

Mrs. Joe Mims will lead the song and praise opening of the afternoon program, and talks will be made by the Rev. L. E. Frazier of Big Spring, the Rev. J. B. Fine of Goldsmith, the Rev. Hermann Robb of Vincent, and the Rev. W. C. Harrison, district missionary, of Odessa.

A. A. U. W. To Hold Opening Luncheon

The American Association of University Women will hold its first meeting of the season Saturday when a luncheon will be given in the education building of the First Methodist Church.

The event will begin promptly at 1 p. m. and an instructor from the MAAF will be the guest speaker.

MRS. ROY SKIPPER TAKEN SUDDENLY ILL

Mrs. Roy B. Skipper, who has been here because of an accident to Lieutenant Skipper's father, H. E. Skipper, was on her way to the station in company with her husband Wednesday evening, enroute to San Antonio, when she became suddenly ill, and was rushed to the Post Hospital at MAAF.

There is no rainy season in Puerto Rico.

Camouflage Last Year's Dress

A beige dress in simple, classic model takes on individuality by the addition of wool felt oak leaves, sewn down the front in wind-blown effect. Other bright-colored motifs are seen in the oval inset. They make up a floral design in bright peasant colors which are particularly effective on the white jumper.

Coming Events

THURSDAY—The Progressive Study Club will hold its opening event of the Fall season, a coffee at 10:00 a. m. in the home of Mrs. J. Howard Hooper, 109 Club Drive.

A meeting of the Young People's group of the First Methodist Church will be held at 8:00 p. m. Thursday in the home of Miss Frances Umberson, 708 West Kansas.

FRIDAY—The Belmont Bible Class will meet at 3:30 p. m. in the education building of the First Methodist church.

The Associational Brotherhood Assembly will be held in the First Baptist Church at 3:00 p. m.

The Red Cross Work Room in the Old Heidelberg Inn will be open for workers from 9:00 a. m. to 12 noon.

The World's War-Free Frontier! ... be ready to drive right over

No fierce border forts or haughty garrisons separate the U.S. and Canada, where peace-loving good neighbors welcome you. But there's fight in the fish up there. "When the lights go on again, all over the world," you can steer for the Canadian Rockies or quaint Quebec, without even a passport. You'll need a car, of course, but re-designing and re-tooling for new cars will take long months. So for prompt recreation after hard-earned Victory you'll need your present car!

But note: Rationed mileage that might seem to conserve your car now, may actually be destructive, because it encourages the inroads of engine acid!

You don't want that, and that's why to have your engine OIL-PLATED by changing to Conoco Nth motor oil. It's popular-

priced but includes the modern synthetic whose strong "magnet-like" force attaches OIL-PLATING and maintains it—even for days—on inner engine surfaces, sort of "walling them off" from corrosive acid. Always produced by combustion, this acid was little worry when constant driving kept the heat on it. Yet now, despite aggravated conditions, acid can be still less worry!—because you can OIL-PLATE with Nth today, for your engine's future. Continental Oil Company

Sorority Plans Luncheon Series At Scharbauer

The Beta Delta chapter of Beta Sigma Phi sorority held an interesting meeting Tuesday evening in the private dining room of the Scharbauer Hotel, the assemblage being the first of the autumn season.

The group decided to entertain at luncheon on the fourth Friday of each month during the coming season, the events to take place in the Blue Room of the Scharbauer Hotel.

The names of the "secret pals" of the summer months were revealed.

"Conduct, Expression and Purpose" is the subject of the club study, and the topic of "Conduct" was under leadership of Mrs. Roberta Bain, with Miss Nina Gothard and Mrs. Ralph Geiger taking part. Miss Ruth Smith was appointed social chairman for the dances of the military personnel for the field.

Three new members received into membership of the club are Erma John Blake, Doris Little and Juanita Sherrod.

Present were Mesdames Cecil Waldrep, Riley Parr, R. H. Frizzell, Jr., Roberta Bain, S. R. McKinney, G. B. Hallman, Frances Stallworth, John Porter, Pete Stringer, J. H. Fine, Ralph Geiger; Misses Maudeles Roberts, Nina Gothard, Les Johnson, Dorothy Hamilton, Ruth Smith, Blake, Little, Sherrod, and Janice Watts.

Sixteenth Birthday Is Observed With Lovely Dinner Party

A dinner party of attractive appointments was given Monday evening by Mrs. Owen Cochran in observance of the sixteenth birthday of her young son, Jerry Hudson, in their home at 521 West Wall Street.

A large birthday cake surrounded by sixteen tiny American flags formed the central figure on the table, and the place cards had standards of tiny flags. A color note of red, white and blue was in evidence throughout all the appointments.

Places were marked for Misses Charlene Wood, Doris Conley, Gloria and Mary Lanham of Dallas, Juanida Ruth Lord, Mary Ruth Bizzell, and Sue Davis; Messrs. M. L. Alexander, Dub Gray, Bobby Rountree, Ike Fitzgerald, Buddy Lanham of Dallas, and Gail McClinton.

The hostess was assisted in the hospitalities by Mrs. Greenwald, grandmother of the honoree, and by Mrs. Wedg. The young guest of honor opened a number of interesting gifts, brought by the guests, at the conclusion of the dinner.

Thursday Sept. 9

THE 3rd WAR LOAN DRIVE STARTS —TO BACK THE INVASION!

What you will be asked to do—

MARK WELL the date—Thursday, September 9th. For on that day, you must answer to your country's call.

On that day, the 3rd War Loan Drive opens. To you—and to every other true American—a clarion call goes forth to rally to the support of our flag.

You will be asked to back our fighting forces to the very limit of your resources. You will be asked to go ALL-OUT FOR INVASION by investing in EXTRA War Bonds—more War Bonds than you perhaps think you can possibly afford.

To meet the national quota, every individual in the country who earns a wage or draws an income or has accumulated funds must invest, if he possibly can, in at least one EXTRA \$100 War Bond. Those who can, must invest more—thousands of dollars' worth more. Each and every one must do his full part.

Scrape up the money from every source you can . . . turn in all the loose cash you carry with you . . . dig out what you had tucked away "just in case." Go without pleasures, luxuries, even necessities this September. And give our fighting men the things they need to fight with—and win.

These men are throwing everything they have into this fierce

invasion push. They are giving their blood, their lives. No one can put a price on such courage, self-sacrifice, devotion. But you can show you're with them to the limit! You can say it with Bonds . . . EXTRA Bonds this month.

World's Safest Investments

For this 3rd War Loan, you will be offered your choice of various government securities. Choose the one that fits your requirements.

United States War Savings Bonds Series "E"; gives you back \$4 for every \$3 when the bond matures. Interest: 2.9% a year, compounded semi-annually, if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1,000. Redemption: Anytime 60 days after issue date. Price: 75% of maturity value.

2½% Treasury Bonds of 1964-1969; readily marketable, acceptable as bank collateral. Redeemable at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated September 15, 1943; due December 15, 1969. Denominations: \$500, \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Price: par and accrued interest.

Other securities: Series "C" Savings Notes; ½% Certificates of Indebtedness; 2% Treasury Bonds of 1951-1953; United States Savings Bonds series "F"; United States Savings Bonds series "G".

Mrs. Rugel Gives Talk Sponsored By Fine Arts Club

Mrs. Clara Hood Rugel spoke to women of Midland Wednesday morning in the Yucca Theater on the subject, "The Boot Is Empty," or "What the Axis Alliance Is Costing Italy." The lecture was sponsored by the Fine Arts Club. Mrs. Roy Parks, president of the club, introduced the speaker.

"It might on first thought seem absurd," Mrs. Rugel said, "this speaking about a country that has been so ridiculed, about a man who for many months has been considered a joke, and the subject for caricature. But it is well for us to remember that we and Britain, too, have been most recently subjects for caricature. War correspondents have reminded us that in foreign papers cartoonists have sketched the tall, unafraid Uncle Sam being booted out of Pearl Harbor by an infinitesimal Japanese... the indomitable John Bull running fast down the Burma Road."

"It is well, too, for us to call to mind the definition of importance and greatness as pertaining to man. A man is great and important according to the influence he exerts upon the world. Genghis Khan is considered by historians as one of the seven greatest men the world has known because of the influence he exerted, in spite of the fact that he was the greatest scourge and cut throat the world has ever known. But out of the devastation and havoc he wrought there sprang and presided the world's finest cultures. It remains to be seen whether any good can come out of the present conflict.

"Mussolini, second only to Hitler, is responsible for this world holocaust in which we are now engaged. Therefore, he is important for a subject of discussion because he is great as a perpetrator of worldwide evil and suffering and death! His pernicious influence is universal. "Student Excelled The Master" "We can consider no man insignificant when his downfall shakes foundations the world over. We revere because those most shaken are Germany, Japan and Spain, the totalitarians. Vichy, too, is having its own chills and fever along with smaller fry. Mussolini will never be considered as great in his influence toward destruction as will Hitler. But he preceded Hitler, paved the way for him, gave him the ideas upon which to work. The student excelled the master. We are happy because Il Duce has also paved the way for Hitler's going out!

In Forefront

Betty Jane Hess, one of the cover girls in the film of that name, models a surprise dress, in the fashion forefront this fall because of the slide fastener shortage. It's in beige and black rayon crepe.

that can be woven. Italy depended greatly upon imported wool for her spinners, and upon foreign markets for the finished woolen products. Her flax and hemp had to be imported as did the India jute. She grew silk worms in Sicily and Sardinia and in some spots on the Boot, but most of her cocoons were imported from China. As to her rayon production, Italy produced forty per cent of the world's supply, but after entering the war, American, Chinese and Indian markets were closed to her rayon finished products.

"In 1938 Italy exported 557 million lire in marble, alabaster, granite, porphyry, limestone, sandstone, clay and gravel, and for years has been producing one third of the world's sulphur. Two years before entering the war, Italy discovered a fine coal mine at Carbonia on the southeastern coast of Sardinia, a mine producing six million tons of coal annually. Information comes to the effect that Germany has been shipping this coal back to the Patherland."

Reduced Death Rate In enumerating other losses, Mrs. Rugel mentioned the crippling of the new tubercular hospital system which included fifty-seven sanatoriums throughout the empire, a system that had reduced the highest tubercular death-rate in the world, from 65,000 a year to 11,000 a year; the interference in the land reclamation projects which extended throughout the empire, the largest one being the Pontine Agor south of Rome, which alone was much larger than Holland's Zeider Zee reclamation. Draining of the swamp lands," Mrs. Rugel said, "Not only gave more land for cultivation, but helped to rid the country of malaria."

She said Italy lost a tourist trade of 49,000 visitors annually to Italy proper, to the islands of Capri, Sicily, Rhodes, and to Tripoli in Libya; lost her chance at being host to a world exposition at Rome in April 1942, lost all her effort and expenditure at making Turin, Italy, the world's fashion center and bringing home from France leading Italian designers who under French names have made fortunes in Paris.

To these losses were added those of exporting wines, olive oil, trams, sardines, cheeses, citrus fruits, marmalades and confections. "The loss of her new colonization is perhaps one of Italy's greatest losses, especially that of Libya," Mrs. Rugel said. "To obtain Libya, Italy fought the Turkish-Italian War of 1911, which cost her millions of lire and much bloodshed. Since that time she has spent \$80,000,000 dollars in improving and colonizing, sending 100,000 Italian peasants there to cultivate the irrigated soil."

In closing, Mrs. Rugel quoted from one of the President's recent press conferences at which he said, "The Italians are now getting in their harvest. This year, we want the Italian people to keep it!"

In the days of wooden ships, nimble-footed powderboys raced to the loaders with boxes of explosives—and it was one gunner's job to see to it that there were no monkeybusiness from these youngsters (Ordinary instructions, U. S. Navy, 1864).

Treaty Of Peace Must Be Written Slowly After War

WASHINGTON—(P)—The top statesmen of America and Britain are agreed Wednesday that a peace treaty must be written slowly and deliberately after the war and the Anglo-American chiefs-of-staff combination maintained to enforce it.

There were indications, too, that President Roosevelt and Prime Minister Churchill are making headway toward a meeting with Marshal Stalin of Russia at which problems of military and postwar collaboration could be threshed out. More Progress Due

Roosevelt told a news conference Tuesday that progress had been made toward a three-power parley since the Allied war conference at Quebec and that he hoped for additional progress within 24 to 48 hours.

Churchill previously had urged that the smoothly clicking machines of the naval, air and military experts of the United States and Britain continued after the fighting ends. He suggested it be kept functioning, perhaps for years, until an arrangement is worked out to keep the peace and guarantee protection from danger and aggression.

It became certain late Tuesday that President Roosevelt shares this view.

Personals

Mrs. Ed Darnell is expected to return home from Lubbock Saturday.

Mrs. George Glass is reported to be doing nicely after having undergone a major operation Monday in the Lubbock General Hospital.

Mrs. Leo Brady is in Lubbock for a two weeks' treatment in the Taylor Clinic. She will go from there to her parental home where she will recuperate for a month.

Crisis Develops In Portuguese Colony

CHUNGKING—(P)—A dispatch to Chungking newspapers from Macao, Portuguese colony on the coast of South China near Hongkong, reported Wednesday that the Japanese have demanded the installation of Japanese "advisers" in Macao under pain of military occupation.

The governor of Macao is said to have refused the Japanese demand, reminding them of Portugal's neutrality status.

Thereupon, the dispatch reported, the Japanese allegedly sent additional troops into the districts bordering Macao, in order to "increase the pressure on the Portuguese authorities."

Rita Hayworth Weds Wonder Boy Welles

HOLLYWOOD—(P)—Orson Welles, the movie wonder boy who has been pulling rabbits out of hats and springing other surprises in his current big-tent magic show, has caught the film colony off guard again.

Welles and Screen Actress Rita Hayworth—the girl he saves in half during one of his feats of sleight-of-hand—were married Tuesday in nearby Santa Monica by Judge Orlando Rhodes.

The marriage was the second for both. Miss Hayworth, 24, whose true name is Margarita Canino, and Edward C. Judson, former Oklahoma oil broker, were divorced last May. Divorce likewise ended Welles' marriage to Virginia Nicholson, Chicago socialite.

Remains of several of its original Spanish forts are still visible in Puerto Rico.

Woman's Missionary Council Has Meeting

The Woman's Missionary Council of the First Christian Church held an important meeting Monday afternoon in the church, with the new president, Mrs. R. H. Frizzell, presiding.

"One Nation Under God" was the subject of the afternoon program, under leadership of Mrs. Ivan Hood.

"America the Beautiful" was the title of a hymn sung in unison by the council. Mrs. F. C. Cummings led devotionals. Three important topics were discussed, the first being "We Suscives" by Mrs. Ivan Hood; the second, "Let's Scrap the Old" by Mrs. R. T. Frizzell; and third, "Disease in Our Midst" by Mrs. J. E. Pickering.

A social hour followed during which refreshments were served. A re-organization of the circles of the church will be held next Monday afternoon in the church. Present were Mesdames Frizzell, Cummings, Pickering, Roy Jones, W. F. Elkin, B. W. Stevens, R. E. Land, B. W. Recer and Marvin and the Rev. J. E. Pickering.

Sixteen More Students Enroll in Schools

Sixteen more students enrolled in Midland schools Tuesday afternoon, bringing the total enrollment to 1,321, or 37 more students than on opening day a year ago. More students are expected to enroll in the schools during the week, Superintendent Frank Monroe said Wednesday.

FIRST AUTOMOBILE The first passenger automobile regularly manufactured for sale in the United States was produced by the Duryea Wagon Company of Springfield, Mass., in 1885, although a steam-driven prototype was invented by Henry Alonzo House 29 years earlier.

Minnesota contains more than 11,000 lakes.

The Ammunition is being passed

There's no monkey-business about the way the ammunition is being passed in this war, either. For example, the Navy's 5-inch 38 caliber gun throws shells at planes or surface craft at a terrific rate. Its powder and shells must come to the gun in a steady stream. How is it done? With an ingenious hoist whose tolerances are so close that the mechanism is comparable to the movement of a fine watch. Ammunition hoists for the Navy are being produced so fast and efficiently by the

Busch-Sulzer Bros. Diesel Engine Company that the organization has been awarded a second star in its Navy E pennant. Busch-Sulzer, which made engines for submarines in the last war, was founded by Adolphus Busch, the founder of Anheuser-Busch. He was the first to build Diesels in America—and the first American-made Diesel went into the Home of Budweiser. Now as then, the quest for better methods and facilities to produce the world's most popular beer never ceases.

Budweiser In addition to supplying the armed forces with glider parts, gun turret parts and foodstuffs, Anheuser-Busch provides materials which go into the manufacture of: Rubber • Aluminum • Munitions Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper • Soap and textiles—to name a few.

UNLOCKING ADVENTURE

By Charles Courtney

COPYRIGHT, 1943, NEA SERVICE, INC.

Charles Courtney is the world's highest paid legal Jimmy Valentine. This is the true story of his many adventures unlocking safes around the earth and under the sea.

CHAPTER IX

SOMETIMES I speculated about the treasures that were locked away with the 21,400,654 keys that New Yorkers carried about daily in their pockets and purses. Ten years ago we toted 2,525,455 pounds of metal and, even so, these keys were but a fraction of the whole number that the city used to carry on its daily affairs. There were, in addition the 12,755,371 keys that we left at home and the 6,708,368 that hung on the keyboards of hotels and institutions. Now we lose or leave at home or carry nearly twice that number.

Since we take the trouble to do such thorough locking up, you might conclude that we are lock-conscious and know how to take care of our valuables; on the contrary, keys lull us into a trance-like feeling of security. The front door is locked; we have the key; we feel safe even though the latch on the window can be forced with a penknife and a 10-year-old burglar can pick the cheap lock on the basement door.

Coming to the shop late one morning, I noticed a long brown roadster drawn up at the curb. An oldish, sandy-haired, impatient little man who might have been a banker was pacing back and forth in front of the door. "Are you the locksmith?" he called to me. "I've been waiting a half hour. Will it take you long to unlock my front door?" Without waiting for an answer, he opened the car door. "Come, jump in."

"But I must get my tools," I protested. He followed me into

the shop. "Can you identify yourself?" I asked him. "We don't open house doors unless we're sure the person is the owner." The man stuck his hands in his pockets and, with a sweeping, impatient gesture, spread out on my desk letters, car license, bank book, a tax receipt. "That will do," I assured him as he fished for more. We got into the car and he nervously hitched in and out of traffic like an erratic grasshopper.

WE turned into the east eighties and parked before one of a row of well-kept brownstone houses. The owner jumped out and ran up the steps. "Here it is. Do you think it will take you long?" I followed him to the heavy blue door and looked at the lock. "It might take a half hour, Mr. Larson," I told him. "You've got one of the finest made. How about the kitchen or basement door?" Without answering, he rang the bell of the house next door and spoke to the maid, who led us through the basement into a rear garden. There was a narrow gate in the high wooden fence. The man opened it and motioned me to come through.

On the other side was another garden, a trim square of lawn bordered with flower beds. The man was already rattling the handle of the back door "protected" by a cheap warded lock that I picked in a few seconds.

"What was wrong with the lock on that back door?" he snapped at me. "Nothing. It was just a cheap one."

"Would it give a burglar any more trouble than it gave you?" "It might take him five minutes with a piece of celluloid or a skeleton key." "Then what in blazes is the use of my locking the front door with a fine brass lock—and it ought to be fine, I remember what it cost—when you can leap over a fence and come in the back way?" He

glared at me as if I had sold him the lock.

"Don't ask me," I retorted, laughing at his ferocity. "I should be asking you."

"WHEN I think how much money I've put into it, you open the door in less than a minute makes my blood boil. The first thing is to get a new key for the front door. One will do. I have my name on the ring and I'm sure someone will return it. They always do." "In that case," I suggested, "I'd better change the combination. It's a very simple job. I don't have to remove the lock, just the cylinder. And when you have lost a key and want the combination changed, all you have to do is to loosen the set screw on the side of the lock and take the cylinder to a locksmith. Then no one can use the old key. You can't tell how many people have duplicates of yours by this time."

Mr. Larson looked at me sharply. "In other words, you mean I'm an idiot to label my keys?" Yes, I did think so, but he was only one of thousands who practically invite robbery by this open-handed practice. Lost key cases and rings with names on them are like pennies from heaven to crooks. Even the least enterprising will return the keys, collect a reward and, some time afterward, use duplicates to rob you.

"By the way," he shot at me as we were leaving, "is there any such thing as 'burglarproof'?" "Practically," I replied. And that is the essence of the matter. Theoretically, no lock is burglar-proof because what the ingenuity of one man has invented, the mind of another can solve. But practically, a lock may remain burglar-proof for a great many years. There are few safe or door locks that I cannot pick, but I have spent a quarter of a century studying them and not many crooks have taken that trouble.

(To Be Continued)

(From the book of the same name written in collaboration with Thomas M. Johnson and published by Whittlesey House, New York City.)

Yes, We Have

Seven pounds of bananas, taken internally, have put Frances Ward of Atlanta in the Marine Corps. Short on weight at her first examination, Miss Ward stuffed on the filling fruit, then was accepted. What's bothering us is, where'd she get the bananas?

U. S. Refuses To Give Lend-Lease Aid To Argentina

WASHINGTON (AP)—Possibly jealous and fearful over the growing power of Brazil, Argentina has asked for—and been firmly refused—American lend-lease materials, including the implements of war. The request came from the Argentine foreign minister, Vice Admiral Segundo Storni on August 5 and the flat turnaround was released by Secretary of State Hull Tuesday night. The exchanges, in which Hull pulled no punches, were made public here and in Buenos Aires. The Argentine cabinet distributed the messages without comment. Storni contended Argentina was pro-Ally, though it is the only neutral in the hemisphere. All others have broken off relations with the Axis. Hull shot back that Argentina still is doing business with the Axis, and harbors enemy agents and espionage. As long as Argentina stays out of the inter-American hemispheric defense setup, it would be folly for the U. S. to allow this country to have American-produced instruments of war, Hull intimated.

Handy Granddaughter

KANSAS CITY (AP)—Six-year-old Ella Farris stood with her parents in a crowd at the Union Station to see her grandfather off on a train. "Oh, mom!" she exclaimed. "Look at that man put his hand in grandpa's pocket!" Bystanders seized the man. Police said he had a long criminal record.

Even Dogs Hate Him

OSAGE BEACH, Mo. (AP)—Butcher Harry Frack tosses bits of meat to his 15-year-old dog Dietze and says "This one is from President Wilson. . . Here's one from Coolidge. . ." And so on. Dietze gulps the meat delightedly. She turns up her nose, though, when he says "This one is from Hitler."

Andrews May Get 25 Family Housing Units

WASHINGTON (AP)—The National Housing Agency has approved war housing programs which include: Andrews, Texas — 25 privately-financed family units.

FRANCE NEEDS FARMERS

Although 50 per cent of France's population normally is engaged in agriculture, it is not sufficient for that country's demand.

Traffic Gets Whoa Sign

NAUGATUCK, Conn. (AP)—Gasoline restrictions have linked the speeder problem, but nevertheless Police Chief John J. Gormley has an order for his men after hearing from several elderly people who fear for life and limb. From now on, he said, this galloping of horses down the main street of Naugatuck has got to stop.

New York has been the most populous state since 1820.

Governor Stops Over In Chihuahua City

CHIHUAHUA CITY, MEXICO.—(AP)—A sightseeing trip, luncheon and a state dinner were planned here Wednesday for Texas' Governor Stevenson on the second day of his goodwill tour of Mexico. The party arrived here Tuesday night after visiting ranches many miles from the Juarez-Chihuahua highway and traveling across two mountain ranges to visit Hacienda

Business Is Rushing

LOS ANGELES (AP)—Officer George Wood gave a traffic ticket to a jaywalker. Other curious pedestrians strolled over and a motorist double-parked to look on. So Wood gave them tickets, too. After writing 17 he quit and said he'd be back next day to finish up.

Terranates, where Stevenson was an honor guest at a barbecue.

Some G. I. Advice on Alaska

"Don't expect to be believed. Alaska is a country where sportsmen soon quit lying in disgust. The truth is too incredible."

"Don't take seriously stories of 'lending' their custom of 'lending' their wives. This fashion went out long ago."

"If you are starving on the trail, you can boil your Eskimo underpants in the pot and eat them for dinner."

"To explain a totem pole to a white man, with all its history, requires many days of a story-teller's time."

Here's how to act in Alaska, as explained by the Army's new pocket guide telling soldiers what to do and what not to do in the land of snow and Eskimos. The booklet is one in a series prepared by the Special Service Division of the Army Service Forces to inform our troops how to get along with the natives in the many parts of the world where Americans are based or fighting.

Glasscock Gets --

been encountered around 2,210 feet. causticness.

Magnolia Petroleum Company No. 3 Glenn, Crane County effort to find production from the Simpson section of the Ellenburger in the McKee area of South Crane county is below 4,835 feet making hole in lime.

Reynolds Going Down
 Humble Oil & Refining Company No. 1-B Reynolds, Culberson County 3,000-foot wildcat is being ahead in broken lime around 1,119 feet. The operation made 14 feet during the last 24 hours despite a shutdown for a fishing expedition.

Standard Oil Company of Texas No. 1 Keasler, 7,200-foot wildcat in Reeves County is drilling below 5,250 feet.

TXL Waiting On Orders
 Standard of Texas No. 1 TXL, five miles west of Orla in Reeves County is shutdown for orders at a reported total depth of 2,950 feet.

Shell Oil Company, Inc., No. 3 Sealy-Smith Northeast Ward County Ordovician test cored from 3,704-95 feet in chert and lime and recovered the full twelve inches. The drillers were doing in the hole with a diamond-pilot core drill at last report.

Union Oil Company of California No. 1 Cowden, deep test in Southwest Andrews County is drilling below 1,903 feet in anhydrite and shale.

Sinclair Prairie Oil Company No. 1 Crisman-Hunter, 11,000-foot wildcat, also in Southwest Andrews is shutdown while water well is being drilled.

Phillips No. 1 Embar is making hole below 8,280 feet.

Skelly No. 1-M Still Looking
 Skelly Oil Company No. 1-M University, South-Central Andrews County prospecting project is drilling in lime around 5,817 feet.

The Texas Company No. 1 Mabec, Southeast Andrews test, is boring away around 3,908 feet in anhydrite and salt.

Union No. 2 Biles, north offset to the same operator's No. 1 Biles, discovery for production in Northwest Andrews, four and three-quarter miles northwest of the Fullerton field, is making hole at 1,300 feet in redrock.

After More Oil On The Biles
 C. U. Bay No. 1 Biller & Lowe, wildcat two and one-quarter miles northeast of the Fullerton area, is drilling below 4,197 feet.

Continental Oil Company No. 1 Eilers, outpost to the Fullerton production, has recovered a fish and is drilling ahead below 4,484 feet.

Mid-Continent Petroleum Corporation No. 1-B University, two and one-half miles southeast of the Fullerton field, is drilling ahead in lime around 6,270 feet.

Two Tentative Locations
 Mid-Continent has filed application to drill east and south offsets to the No. 1-B University.

No. 2-B University will be 1,320 feet east of the operation now drilling and will be 660 feet from the north and east lines of the northeast quarter of section 16, block 13, University survey.

No. 3-B University will be 660 feet from the south and west lines of the northeast quarter of section 16, block 13, University survey, and 1,320 feet south of No. 1-B.

Drilling on both new locations will be contingent upon the No. 1-B making a commercial oil well.

Humble No. 1 Crew & Mast, North Andrews operation, is below

George W. Byerley Dies Here Tuesday

George W. Byerley, 75, died Tuesday night at the home of his daughter, Mrs. R. D. Byerley of Midland following an illness. Funeral services will be held Thursday at 3 p. m. at Big Spring cemetery under the direction of the Ellis Funeral Home.

He is survived by two sons, H. W. Byerley of Stanton and M. E. Byerley of Big Spring; five daughters, Mrs. Charlie Baker of Stanton, Mrs. Vestal Harmon of Lee, Mrs. Marvin Harris of Partan, Mrs. D. P. Dunbar of Big Spring and Mrs. R. D. Byerley of Midland.

Marshall Says --

(Continued from Page 1)

were never enough troops, planes, guns or bullets to fill the requests of Allies and field commanders. Marshall said that the United States now has "a reserve of trained units ready for dispatch to the various theaters as rapidly as shipping becomes available."

Bombing Takes Effect
 The general dealt at length with the effectiveness of strategic bombing of Germany by the American and British air forces. This ceaseless assault, he said, "gives promise of being a decisive factor in the ultimate destruction of the German citadel."

The general estimated that the Russian army is now engaging two-thirds of the German army and one-third of the German air fleet and to this statement he appended a footnote showing that American supplies actually delivered in Russia have included: more than 3,000 airplanes, 2,400 tanks, 109,000 sub-machine guns and 75,000 tons of explosives.

The report covered 58 pages plus 56 pages of footnotes, maps and charts. The latter particularly emphasized the point that the United Nations have had to deploy their forces over 50,000 miles of supplies lines with the twin necessities initially of holding strategic islands guarding the lines and producing ships to transport men and supplies over them.

Potential Twenty Game Winners Few This Season

By JUDSON BAILEY
Associated Press Sports Writer

With the closing of the major league campaign less than four weeks away, the field of potential 20-game winners among the pitchers has narrowed to half a dozen men, two in the American League and four in the National.

This indicates what a difficult goal 20 victories is for even good pitchers.

Sewell Has Won 20
In 1942 the two St. Louis stars, Morton Cooper and Rookie Johnny Brazley, won 22 and 21, respectively, in the National League while Cecil (Tex) Hughson of Boston and Ernie Bonham of the New York Yankees won 22 and 21 in the American League.

Of this group only Cooper will be a repeat this year. He has won 19 and lost eight in the Cardinals' sweep toward another pennant. Brazley has entered the Army and Bonham and Hughson have had a lack-luster season, each winning 12 games to date.

Truett (Big) Sewell of the Pittsburgh Pirates already has won 20 games and lost seven.

Elmer Riddle of the Cincinnati Reds has won 18 and lost nine and Hiram Bithorn, the Puerto Rican righthander of the Chicago Cubs, has won 17 and lost ten.

Tigers Win Fair
In the American League Spurgeon (Spud) Chandler of the Yankees is the nearest thing to a sure shot for 20 with a present record of 18 and three and Paul (Dizzy) Trout of the Detroit Tigers has won 17 and lost ten.

Trout attained his 17th triumph and fifth shutout Tuesday as the Tigers took a doubleheader from the Chicago White Sox 5-0 and 6-5.

These games, the only major league action of the day, were postponed from Labor Day. Trout had everything his own way in the opener, spacing seven hits and letting no runner get past second.

Another light schedule was on tap Wednesday, three games in the National and none in the American.

Now is the time to buy War Bonds and Stamps.

Trump Card

Alfred Fred Schoendienst, 20-year-old Rochester shorstop, is the most sought after ball player in the minors. Red or Junior Schoendienst is leading International League batters with 344. He is Cardinal property, of course.

Lack Of Reserves And Lack Of Condition Not Among Things For Coaches At Rice Institute To Worry Over

By HAROLD V. RATLIFF

HOUSTON — (AP) — There are two things Rice coaches are not worrying about in the coming Southwest Conference football race:

1. Lack of reserves.
2. Lack of condition.

The Navy V-12 program took care of both, sending plenty of men to Coach Jess Neely and

sending them in top physical shape.

Winning Is Problem
Now all the drawing Jess has to concern him is winning some games. That, says the cheerful pessimist of Rice, is going to be quite a problem.

He has four men who have college experience and five who have had the benefit of college in spring training. But Rice appears to boast

a very capable line and a backfield that can do some running and kicking but little passing.

Jess thinks the critics are placing Rice too high in rating the Owls fourth. He figures on battling Texas A. and M. and Arkansas to see which stays out of last place.

But Neely did think his line would take care of itself and that Bucky Sheffield, the Paris schoolboy star, would do a lot of good kicking and running the ends. In fact, Jess thinks his punting is going to be about as good as anybody's with Sheffield and Wilson Green of Houston, a boy who never played high school football, doing the work. Green is a left-footed punter.

Grateful To Aggies
Anchoring a line that shows weight, power and a modicum of speed is big Charley Malmberg, letterman at Rice last fall who looks like one of the best tackles in the country this year. Picking up Malmberg is Orville Crutchfield, a letterman at Louisiana Polytechnic Institute in 1942.

It seems Rice should be quite grateful to Texas A. and M. for involuntary favors. Sheffield went to Aggie land last spring and got in some very good practice. Then the Navy sent him to Rice. It was the same with Bob Zelsman of Amarillo, who is running at first-string guard for the Owls and looking very good. So was the case of Henry Hook, star Houston schoolboy tackle. And then there was the "find"—Frank Lawrence, who was a guard in high school at Gladewater but never had time to play football at A. and M. He came here to Rice, was shifted to blocking back, and the 185-pound young man is knocking 'em high, wide and handsome.

Leonard Kilgore, who would have lettered at Louisiana Poly had he not suffered a broken hand, is the No. 1 center—and a good one too. Flanking Kilgore will be Zelsman and H. J. Nichols, who played freshman football at Rice last year.

Squad To Be Cut
That brings us to the ends where Rice will depend upon its student manager of last year—Jack Simms of Dallas—and Richard Isaacks, tall Houston youngster. Simms got in some spring training but it's Isaack's first fling at college football.

Sheffield and Lawrence appear set at tailback and blocking back respectively, with Earl School of Emory, West Virginia, at fullback and Larry Mills of Tulsa at wingback. Sheffield is the only one of the quartet to have received college coaching before landing at Rice.

Sheffield is the top prospect as a passer at this time but Neely found his best flinger to be Joe Kucera of Edin High, who, however, does not become eligible for competition until Oct. 23.

Neely has cut his squad of 98 to 65 and will cut some 25 off of that because of lack of time for practice. He has only an hour and fifteen minutes daily and cannot give the proper individual attention if he has more than three or four teams.

Bulldog Gridders May Play Practice Contest With Monahans There Friday

Candidates for the Midland High School Bulldog grid team Tuesday underwent one of the most grueling workouts ever meted out to a Midland squad as Coaches Gene McClellum and Jack Atkins prepared their charges for a scrimmage tilt with the Monahans Green Wave.

The Bulldogs are scheduled to meet the Monahans team in a practice game on Sealy Field in the Ward County city Friday afternoon, if transportation can be worked out. Coach Milton McClellum's Greenies, who show promise of being one of the top teams in district 7-A this season, are scheduled to return the visit next week if the same difficulties can be overcome.

Fundamentals and offensive work constituted the main portion of Tuesday's stiff practice period, with stress being laid on blocking and tackling. The Bulldogs showed plenty of fire throughout the session, and the spirit of the candidates was good.

Some of the gridders are looking unusually good in the workouts, while many others will have to get down to serious work if Midland High School has more than a mediocre ball club this fall. Green material will spot the squad when it opens up against Brownfield here September 17.

Probable starters in the tilt with Monahans, if the Midland team manages to reach the Ward County city for the practice get-together, are:

- LT—Jimmy Watson.
- LT—John Spures.
- LG—Jack Taylor.
- C—Jim Edwards.
- RG—Red Roy.
- RT—Ed Griswold.
- RE—Copper Daugherty.
- QB—Bill Richards.
- TB—Ivan Hall.
- HBs—L. C. Neatherlin and Joe Stiskney.

Commission To Deal With Political Ires In Restless Balkans

WASHINGTON — (AP) — Political problems, particularly those of the Balkan powder-keg where restless Hungarians and Bulgarians already have been reported chafing against their war-forged bonds with Germany, are likely to be the main job of the Allied Mediterranean commission now being formed.

The commission's purpose, as explained in one official quarter Wednesday, is to deal with "problems arising from the consequences of military operations in Europe."

Another top official said its primary assignment is to get the Mediterranean out of the war.

There has been no word as to what form the commission will take or how it will approach the ticklish task of removing the entire Mediterranean area from the war zone and keeping peace there while the walls of Hitler's fortress are stormed.

FORCED RESTAURANT MEALS
Lycurgus, famous Greek lawgiver of the ninth century, B. C., made it illegal for men to eat their meals at home. He ruled that all men had to eat out together in public eating houses, to keep them from becoming "effeminate."

Sports Roundup

By HUGH FULLERTON, JR.

NEW YORK — (AP) — Luis Suarez, Mexican sports writer who came all the way to Forest Hills for a few days at the national tennis championships, is trying to persuade some of the girl players to spend a few months in Mexico this winter studying and playing tennis.

Headline Headliner
When the guy in the slot tossed him Arthur Sampson's story about the Yale quarterback barking out signals in the good old way, a Boston headline scribbled: "Yale, Like Cornell, Yells Like-er-Oddell."

One-Minute Sports Page
The next time Ace Adams goes to the mound, which may be Wednesday, he'll break his relief pitching record of 61 appearances. . . . And Paul Derringer needs only two more mound victories to make it 200 for his major league career. Then he'll probably be ready to join the only other 200 game winners in the league, Carl Hubbell and Freddie Fitzsimmons—on the bench.

Today's Guest Star
Jack Charvat, Tulsa (Okla.) Tribune: "Notice to barbers or razor salesmen: Stay out of Stillwater. There's no business for you in that town. . . . At least as far as finding potential customers on the Oklahoma Aggies football team is concerned. They are all beardless youngsters."

Service Dept.
Colleague Romney Wheeler reports that Lew Jenkins' kid brother, Francis, caused quite a stir at Fort Benning, Ga., until the soldiers discovered that he was no boxer. That's exactly what happened to Lew on a larger scale. . . . Maybe the Army figures that a guy with a sports writer's knowledge of double talk can learn anything. So Corp. Lou Gelfand, who used to write sports for the AP in Oklahoma and Corp. Chauncey Durden, former Richmond Times-Dispatch sports editor, are studying the Japanese language. Gelfand at the U. of Minnesota and Duden at the U. of Washington. . . . Pvt. Frank McElyea, former Boston Braves' rookie who started on the Fort Sheridan, Ill., baseball team this summer, has been transferred to Camp Grant for a course in recreational training. . . . With a .422 batting average, Frank doesn't need any training in the national pastime.

Aids Navy

Math wizard Dr. Albert Einstein of Princeton, N. J., is helping the fight against his old enemy Hitler by doing research work for the U. S. Navy.

Train Wreck Toll Increases To 78

PENNSYLVANIA — (AP) — The death toll in the Labor Day wreck of the Pennsylvania Railroad's Congressional Limited stood at 78 Wednesday as a procession of men and women with dead-haunted faces filed past the rows of gashed bodies in the city morgue seeking friends or relatives among the 23 still unidentified victims.

Railroad workers searched, too, in the rubble along the Northeast Philadelphia curve where nine of the flyer's 16 cars wrenched loose for still other bodies, and physicians said at least six of the 99 injured remained in hospitals might not live through the day.

A joint hearing to determine the exact cause of the wreck was to begin Wednesday by the Interstate Commerce Commission and the Pennsylvania Public Service Commission.

Guerrillas Expecting Balkan Attack Soon

LONDON — (AP) — Albanian guerrilla forces anticipate an Allied invasion of the Balkans within a month and the Germans are moving men and equipment from Yugoslavia into Albania to meet a possible thrust across the Strait of Otranto from the Italian heel. Istanbul press dispatches reported Wednesday.

Army Moves Materials To New Airport Here

Materials for the construction of buildings at Midland's new airport, north of the Midland Country Club, have started arriving. Some heavy timbers have been delivered at the field.

The new airport has been assigned to the Air Transport Command for use of ferrying service detachments. The Army plans to install a control tower and 13 prefabricated buildings at the port, soon.

Third War Loan Campaigners To Start Thursday

Campaigners in the Third War Loan drive will meet at breakfast at 7 a. m. Thursday in the Crystal Ballroom of Hotel Scharbauef. Prospect lists, literature and purchased order forms will be distributed.

Charles L. Klapproth, Midland County War Bond chairman, will preside. Col. John P. Kenny, commanding officer of Midland Army Air Field, will attend the breakfast.

Solicitations will start immediately following the breakfast. Members of the committee are Klapproth, M. C. Ulmer, Harris Eastham Jr., H. H. Watson, Hamilton McRae, Mayor A. N. Hendrickson, Roy Parks, Don Davis, Tom Sloan, Allen J. Watts, R. M. Barron, J. R. Martin, P. F. Bridgewater, Raymond Upham, Leonard Proctor, E. H. Barron, P. J. Minis, Fred Wampler, George Abell, Fred Wilcox, Paul McHargue, J. Howard Hodge, J. W. House, Ernest Sidwell, Dr. J. B. Thomas, Ed M. Whitaker, P. A. Nelson, Frank Monroe, Barney Greathouse, Bill Conner, T. R. Wilson, M. D. Self, J. P. Butler, Allen Tolbert, M. F. King, George Glass, Frank Cowden, Luther Tidwell, J. C. Miles, Fred Wright, G. G. Campbell, Roy McKee, J. B. Hoskins, C. V. Lyman, Joe Youngblood.

Cotton Estimate Is 11,679,000 Bales

WASHINGTON — (AP) — The Agriculture Department reported Wednesday that the indicated cotton crop this year, based on Sept. 1 conditions, is 11,679,000 bales of 500 pounds gross weight.

Indications a month ago were for a crop of 12,558,000 bales. Production last year was 12,824,000 bales and the average production in the ten years, 1932-1941, was 12,474,000 bales.

The census bureau reported that 1,784,629 running bales, counting round as half bales, had been ginned to Sept. 1, compared with 739,005 bales for 1942, and 506,720 bales for 1941.
