Adults Contract Children's Diseases

Adults can, and do, contract many children's diseases. And usually, they suffer from them much more than children do. For instance, many adults contract worms, or ailment usually associated with children. Sometimes they suffer intensely and take expensive medical treatments, without realizing that worms are the cause of their troubles. Yet the symptoms are the same as in children: loss of appetite and weight, grinding the teeth and restless sleep, itching of the nose and anus, and abdominal pains. And the same medicine that surely and harmlessly expels round and pin worms from children will do the same for adults—White's Cream Vermifuge, which you can get at Reid's Drug Store and Payne Drug Co.

A State Fair Crowd

The grounds of the State Fair of Texas are so large and the streets so wide that even on the biggest days the place never seems to be crowded unless the people are attracted to some one particular spot.

On such occasions one may get an idea of what a good sized crowd really looks like. The above photograph shows one section of a throng of over 20,000 people who gathered in front of one of the speakers' stands on Dallas Day, 1927, at the State Fair, to see the Dallas Birthday Cake cut by the mayor.

Ten minutes after the ceremony was over, this crowd had completely dispersed through the grounds and mingled with the other 160,000 persons present that day, leaving this spot no more crowded than the rest of the grounds.

Over a million persons attended last year's State Fair, breaking all known records for American fairs. Everyone believes that the 1928 crowd at Dallas will be even larger, for there will be more to see and enjoy. The dates are October 6 to 21.

Return From Trip to Plains

Mr. W. A. Hise and family of the Howard community returned last Friday from a three weeks trip visiting Mr. W. L. Hise, his brother, of Lockney, Texas. They reported an enjoyable time and stated that crops looked fine in that section. Mr. Hise joined him on his trip. While out there Mr. Hise put up his wheat land. His many friends of Haskell and also Howard will certainly miss this good family, as we learn that he is moving to his farm this fall one mile south of Lockney, which he purchased last year. His many friends wish for him success in the future. His son-in-law, Lee Green, will also move with him to his new home.

Uncle Billy is one of our standbys, and has been a subscriber to the paper for something over fourteen years, and he has a standing invitation to call and see us every time he is in town.

At six personal friends of the honoree called for the tea hour.

Mrs. John W. Pace gave a piano selection and as Miss Brucille Bryant entered with a number of keys which she gave to several girls, Misses Galen and Ruth Robertson brought a large treasure chest to the honoree. The only key which would fit the chest was the tiny gold one given Mrs. McKee and as she opened the chest, beautiful gifts were displayed.

"Bagged Seed" For Planting Being Tried in County

We have noticed several fields of grain sorghum in Haskell County where paper sacks have been placed over the top of the stalks as the head was coming through the boot, of course, we had our idea about keeping away the birds, etc. We were informed that the sacks were not placed there for that purpose, for the birds soon get used to the sacks and will soon light on them. The sacks according to Trice were placed there to keep the seed pure; that is, to prevent the cross-pollination, with other heads in the same fields and to do away with the possible chance of a mixture with other heads in the same fields and to do away with the possible chance of a mixture with foreign pollen.

One pound each of kaffir, yellow milo and feterita were received from the Experiment Station which had been grown under bags there and is known as "Bagged Seed". These seed are the highest yielding varieties that have been developed at the Experiment Station during the past several years. To keep the seed pure a certain amount of the seed are bagged each year for planting purposes the following year and in this way the pedigree of the seed is kept up. From experiments run in many counties of the state the seed have been found to increase the yields from several pounds to several hundred pounds more per acre each year, thereby paying for the increase price of the good seed over inferior seed many times over.

From one pound of seed obtained from the Experiment Station the past year and planted by W. H. Cunningham, near Rochester, according to Trice several hundred acres have been planted in Haskell County during the present year which should increase the yield on these farms by many tons. Trice states that he has been helping to keep up the pure line work in the county and that he has some bagged kaffir and milo maize at his place and that Calvin Frierson, club boy in the Midway community, has some bagged feterita and that W. H. Cunningham of Rochester has bagged milo maize. The heads grown under the bags are not for sale at any price, yet the maize grown from the bagged seed are the ones sold for planting purposes.

According to County Agent Trice these demonstrations are open for inspection at any time and any one interested in maize breeding and pure seed should take time to visit one or more of the plots.

Mr. and Mrs. R. C. Montgomery and their niece Mrs. C. E. Hinson of Graham left overland this Thursday morning to enjoy camp life for a few weeks in the mountains of New Mexico.

 ing and strong.
 principle is involved in the
 faces the citizen of West
 and the people of this day
 submissive to the gross

injustices imposed upon them by giant
 corporations than were the citizens of
 the Colonial days.
 I refer especially to the gasoline bus-
 iness. We are today being forced to
 pay a long profit to the big refineries
 and gigantic corporations have sprung
 up during recent years, who, through
 the unscrupulous use of their dirty dol-
 lars have brought reproach upon our
 government and who by the same token
 are striving to control all branches of
 government having regulatory powers
 over their business.
 George Washington and other Colon-
 ial heroes told England that they
 would fight before they would submit
 to the long profits demanded of them.
 The people of West Texas have hum-
 bly submitted to the long profits that
 have been demanded of them by the
 big refiners of oil.
 Personally I believe that the time is
 here when the people should come to-

gether and remedy this unjust situation
 and we believe that the citizens of
 Knox and Haskell counties now have
 the main solution to this problem that
 will prove of untold value to the citi-
 zens who still have sufficient faith in
 co-operation and who do not shrink
 from their obligations in meeting face
 to face problems of the day and solv-
 ing them to the betterment of them-
 selves and their fellowmen. This plan
 is almost parallel to the plan that has
 been worked out in bringing from a
 dream to a reality the Farmers Union
 Gin situation here, and with the same
 co-operation can be worked out where
 it will serve the farmers and others to
 even a greater degree than has the
 Farmers Union plan.
 The power gained through co-oper-
 ation is the greatest known force to
 man and many of the greatest achieve-
 ments have been accomplished through
 its use. When applied to business it

makes the weak strong and becomes
 the competitive force of the mighty.
 As others are using it for their benefit
 and advantage, why not you and I?
 It is impossible to stand alone against
 the combined forces of co-operation.
 That has been proven in every instance
 from the bundle of sticks to the World
 War. And, since co-operation is the
 deadliest foe to selfish interest, those
 who have selfish interest who serve
 never fail to discourage a move in the
 direction of co-operative helpfulness.
 In line with our ideas of the advan-
 tage that accrue from co-operation to
 the citizenship as a whole I have after
 much investigation and thought, heartily
 approved the plan of building
 a small refinery at some point in
 either Knox or Haskell county to
 enable gasoline users in these counties
 who believe in the spirit of co-oper-
 ation to save a substantial sum on their
 gasoline bill each year. This plan has
 been presented by Messrs Corah and
 Lightfoot, and is in brief as follows:
 First. Messrs Corah and Lightfoot
 propose to furnish 40 per cent of the
 capital stock to build a small refinery
 in our territory, placing 60 per cent of
 the \$25,000 capital stock among the
 citizens at \$10.00 par.
 Second. The management of the cor-
 poration shall be in the hands of seven
 directors. Five are to be elected by the
 60 per cent stockholders, and two by
 the 40 per cent stockholders.
 Third. The 40 per cent stockholders
 shall never own more than 40 per cent,
 which will always leave control of the
 corporation with the citizens.
 Fourth. The 40 per cent stockholders
 shall receive no salary for their services,
 but only the dividends from their stock
 while we are receiving the benefit of
 their capital and experience.
 This is one of the most unusual and
 fairest propositions that I have ever
 known to be offered, and believing that
 it will be of untold benefit to the peo-
 ple I am giving it my endorsement and
 support.
 A. J. Bunts.

CAMPAIGN NOTICE
 Rule, Texas, August 8, 1928.
 To Whom It May Concern:
 Information has come to us that a
 report is being circulated to the effect
 that Joe A. Jones, candidate for vice
 office of County Judge of Haskell Coun-
 ty, and for several years manager of
 the First National Bank of Rule, de-
 frauded this bank out of \$2,500.00 by
 means of a loan which he made to him-
 self while manager of the bank. It is
 further charged in said report that Mr.
 Jones withheld knowledge of such loan
 from the directors of the bank until the
 same was barred by the statutes of limi-
 tation. That the bank subsequently
 delivered such note to an attorney, and
 sought to collect the same by legal
 process.
 Now, we, the undersigned President
 and Cashier of the above named bank,
 denounce said report as false in every
 detail. Mr. Jones does not owe this
 bank a dollar. Neither did he ever
 seek to withhold knowledge of a loan
 to himself, or any other person, from
 the board of directors. No note of his
 in favor of this bank was ever barred
 by limitation, nor was any such note
 ever placed in the hands of an attorney
 for collection, or legal demand made
 for the payment of the same. At the
 time of Mr. Jones' retirement as man-
 ager of this bank on Feb. 1, 1924, he
 was indebted to this bank on promiss-
 ory notes in the approximate sum of
 \$2,000.00. This indebtedness was paid
 by him during the month of June, 1924,
 and without demand being made upon
 him for the payment of same.

WESTERN UNION TELEGRAM

El Paso, Texas, July 31, 1928

Hon. Earle B. Mayfield
 Austin, Texas

While our relations personally have always been pleasant, as you know I did not support you for Railroad Commissioner nor for U. S. Senator, giving my support to Senator Culberson. I voted for Mr. Owsley Saturday. Remembering your statement on tariff views to me in Washington last March which coincided with my position since I became a voter and which means the life of the Livestock and Farming Industries of my District, I shall support you in the Run Off against Mr. Connally with my whole strength. Surely the people will not elect a man to the Senate who as far as my recollection goes in ten years service with him cannot point to a single bill with the name of Connally that has passed either body. If Mr. Connally has any claim upon the Live stock and Farming Interests after voting against and fighting both Emergency Tariff Bills, I fail to see what he bases it upon. The Sixteenth District is still Democratic by Fifty Thousand. Will you speak in it. Now is the time to give the people the facts. You can safely trust them when they know the facts.

CLAUDE HUDSPETH
 (Political Adv.)

Mr. Bunts has been for the past five years President of the three Farmers Union Gins at Munday.

Mrs. W. G. Russell received a telegram from Indianapolis, Ind. Wednesday morning stating that he sister Mrs. R. W. Covedill and daughter Jean of that place would reach Haskell Saturday for a visit with Mr. and Mrs. Russell.

Mr. and Mrs. Hill Oates will return the last part of this week from the Wichita Falls Clinic Hospital where they both underwent major operations.

Unintentional Suicide
 Many people are slowly poisoning themselves just as surely as if they drank iodine every morning for breakfast. They are daily absorbing the toxins, or poisons, created by accumulated waste matter in their constipated digestive systems. Sooner or later disease will conquer their weakened bodies.
 If you have dizzy spells, headaches, coated tongue, bad breath, insomnia, no appetite, bilious attacks or pains in the back and limbs, you are probably suffering from self poisoning caused by constipation. The surest and pleasantest relief for this condition is Herbine, the vegetable cathartic which acts in the natural way. Get a bottle today from Reid's Drug Store and Payne Drug Co.

Subscribed and sworn to before me by G. W. May, President, and E. J. Cloud, Cashier of the First National Bank of Rule, Texas, this 8th day of August, A. D. 1928.

WHY does CONOCO AMALIE have such Expert Endorsement?

IT must be an unusually good oil to have the unqualified endorsement of the designers and builders of engines used in 207 automotive vehicles.

But no wonder these experts favor Conoco Amalie! Made from Pennsylvania Crude and made a better way, Conoco Amalie does a 100% lubricating job.

It retains its viscosity under practically all operating conditions—thus sealing the pistons and greatly reducing crankcase dilution—the cause of so much costly wear and tear on the motor.

If you really want your motor correctly lubricated, Conoco Amalie will do the job.

Get it at the Conoco sign.

Scene From "The Desert Song"

"A most laughable play, with plenty of good music, one of the best-acting men's chorus ever assembled, a multitude of pretty girls in beautiful and sometimes startling dances and a company of real stars in the principal parts" is the way the New York newspaper critics wrote of "The Desert Song," the morning after the now world-famous operetta was produced.

Since then "The Desert Song" has duplicated its New York hit in both London, England and in Chicago. The directors of the State Fair of Texas have secured it as the main entertainment feature and it will be presented in the Auditorium at Fair Park, Dallas, every evening from October 6 to 21, with matinees Tuesdays, Thursdays, Saturdays and Sundays.

"The Desert Song" is said to be the most expensive entertainment ever engaged for a State Fair in the history of the American stage. "Nothing is too good for Texas," says the management.

of unusual charm and wide-spread locally was the miscel-
laneous given by the members
of Eastern Star at the
Mrs. H. M. Linceum in honor
of Breazeale on Tuesday af-
ternoon.
The beauty of the Lin-
ceum was enhanced by the pre-
sence of palms, ferns, other
plants and cut flowers, which
formed a lovely background for the
entertainment.
The guests were greeted by Mrs.
Breazeale, the gracious hostess,
and entertained for a time with
the arrival of the guest of

honor, who is Worthy Matron of the
local O. E. S. Mrs. Tom Talley became
mistress of ceremonies and very char-
mingly carried out the entertainment and
"show" features. A lively and fun-
provoking contest, "An Imaginary Hon-
ey-moon," was conducted. Mrs. Bee-
man and Mrs. Winfield then conducted
the honoree and her aunt, Mrs. R. E.
Ellis, to "the East," a bower in the
dining room especially decorated in
celestial blue, besprinkled with golden
stars. In a brief message from herself
and sister "terrestrial stars," Mrs. Tal-
ley very appropriately expressed their
desire that the heavenly stars shower
the bride with blessings of happiness
and good fortune. As each golden star
came tumbling down, its written mes-
sage, appropriate to a particular gift,
was read. The last to fall was Aurora,

the morning star, largest of the group,
displaying the colors of the order.
Aurora brought the gift from the Chap-
ter members—a handsome silver break-
fast set consisting of percolator, sugar,
cream and tray. Many, useful and
beautiful were the individual gifts dis-
played in this unique shower.
Refreshments of fruit punch and
cakes were served by Mrs. Harry Dur-
ham and Mrs. Gorom to some sixty-five
guests—Fort Stockton Pioneer.
Mrs. Breazeale is the daughter of
Mr. and Mrs. Jno. T. Ellis of this city.

thing from the serving to washing the
dishes and cleaning up afterward. So
complete was the entertainment in
every detail and so thoroughly enjoyed
by the wives that they suggested that

the next courtesy be a chicken dinner
with all accessories and that the date
be not very far in the future. This is
one way of arousing outside interest in
the class.

**It's a wonderful range
— a real Favorite**

BEAUTIFUL beyond comparison is this new **Favorite Thermal Range** with rounded surfaces, flush front, curved cooking top, with its beautiful lustrous, glistening and white porcelain finish. No more surfaces where grease and dirt may collect, no more unsightly hinges. Gone are the sharp corners replaced by a surface that is as easy to clean as a glass bowl.

JUST AS GOOD AS IT LOOKS

The name **FAVORITE** on a range disposes of all doubt about its quality. You accept nothing on faith, you know the range must be right or the name **FAVORITE** wouldn't be placed upon its door. **FAVORITE** prices are reasonable and Favorite quality is unusual.

BAKES WITH THE GAS OUT HALF THE TIME

The Thermal Oven, so called because of its insulated walls, retains the heat and cooks an entire meal with the gas out half the time. It cooks on imprisoned heat, keeps the kitchen cool, retains all the cooking smells within the oven and uses only 25 cu. ft. of gas for a three hour meal, while the ordinary range consumes from 50 to 70 cu. ft. This saving alone soon pays the cost of the new Thermal Range and it becomes an investment—not an expenditure.

BUY YOUR FAVORITE RANGE NOW

COUNTY TAX RATE LOWERED 4 CENTS

The Commissioners Court of Haskell County, in session here the first of the week, lowered the county ad valorem tax rate 4c on the \$100.00 valuation, with an additional reduction in Precinct No. 1 of 5c, making the total reduction in that Precinct 9c on the \$100 valuation of property.

The rate for the present year therefore will be 60c compared to 64c for the previous year, and will mean a reduction of several thousand dollars in the aggregate for tax payers of the county. The above rate is based upon a valuation of approximately \$10,000,000 in the county, about the same as for the previous year.

Presbyterians Close Successful Revival Meeting Sunday

The revival meeting at the Presbyterian Church closed Sunday night with five additions to the church, and several others who will come in a short time. The number of individuals received into the church does not tell the story of the good work done during the meeting. There has been a great blessing to many of the Christian people who have been members of the church for a long time. There has also been much seed sown among the people that will bring forth its fruit in the future.

The pastor and the members of this church wish to express their thanks to the people of the community who cooperated with us in making this meeting a success. Also we thank the people who opened their homes and received them as guests. They went away with a warm feeling in their hearts for the Haskell people with whom they met while here.

Suggestions for Combating Spread of Mosquitoes

A warning that breeding places of mosquitoes should be destroyed at once, was sounded by M. Pierson, field supervisor for the State Board of Health, while here this week.

Due to the recent rains, Mr. Pierson states that Haskell may expect hordes of mosquitoes within a few days, unless steps are taken to prevent the breeding of the pests, and in this connection we give a statement from him below suggesting the steps that may be taken to avoid such an epidemic.

Outside of the homes in Haskell we have at least two possible mosquito breeding places. The excavations of the gravel pit west of town have standing water in them and large numbers of mosquitoes will breed from these places unless kept oiled. As these places cannot very well be drained, the best solution would be to use the "knapsack spray can" constantly and keep aicum of oil on the surface and in the midst of the weeds along the edges.

There is also a possibility that mosquitoes may breed in the lake South of town and this can be determined by investigation to see if there are any wigglertails. If so, the "knapsack spray can" can be used around the edges most effectively.

For the homes the following procedure is recommended:

- Remembering that all standing water breeds mosquitoes, we should
1. Drain or oil all ditches where pools of standing water gather.
2. Punch holes in discarded cans so they will not catch and hold rain water.
3. Allow no old crocks or other containers to sit around the yard unless they are turned mouth down so as not to hold water.
4. Cover rain barrels with two or three tablespoonfuls of kerosene oil. It smothers the wigglertails and prevents their becoming mosquitoes. Or keep the barrels always covered with a tight cloth.
5. Cisterns and old wells are prolific breeders of mosquitoes and should either always be kept well oiled or kept tightly screened with very fine mesh wire cloth.

When we remember that these dangerous pests may live five months or more, we are apt to be careful about their breeding. There is no need for a town like Haskell being bothered with mosquitoes if each resident will see that his home is not a breeding place and the city authorities will look after all other possible breeding sources.

YOUNG MAN JAILED ON FORGERY CHARGE

A young man who gave officers his name as Clarence Franklin, was placed in jail Tuesday, and two indictments charging forgery were returned against him by the Grand Jury in session here Wednesday.

He is alleged to have forged the name of Rev. H. R. Whitley, pastor of the First Baptist Church of this city, and Rev. L. B. Smallwood, Methodist minister of Rule, to checks which he passed at Rule and in Haskell.

Sheriff Al Cousins stated that at Rule Franklin was alleged to have proffered a check bearing the name of Whitley in payment for something he had purchased. Upon being told that he would have to be identified, the young man left and returned later, stating that he had cashed the check, and presented another check with the signature of L. B. Smallwood, which was accepted.

In Haskell, Franklin is alleged to M. C. Maxwell at the Maxwell Filling have given a check for \$10.00 to Mrs. Station, which bore the name of H. R. Whitley, stating that he was the son of Rev. Whitley, and the check was accepted.

Upon investigation, the parties accepting the check at Rule learned that it was a forgery, and the Sheriff's office was notified, and Franklin was arrested at Rochester and brought to this city where he was placed in jail.

Court officials stated that his case would probably be called for trial Saturday of this week.

REPORT OF COTTON PESTS IN COUNTY

A close inspection of several cotton fields in Haskell County with E. R. Reppert, Entomologist with the Extension Service of the A. and M. College, last Friday showed the presence of the following cotton pests with infestation as shown following the name of each:

- Webworm or "Careless Worm"—Heavy in some sections of the county.
- Cotton Leaf Worm—Very light, with no great damage likely during the week or ten day.
- Cotton Boll Cutworm—Well distributed throughout cotton fields but feeds on weeds and other plants as well as cotton, no large amount of damage done.
- The Cabbage Looper—Might easily be mistaken for the leaf worm as it moves with a looping movement, often waving with the middle of its body upward in a light green worm with a faint whitish stripe down each side, infestation light, but distributed throughout the cotton fields generally.
- Cotton Flea—Infestation common, but good many noticed in certain sections.

BEST GROWING IN COMING FAIR

in the coming Haskell Fair, which is to be held August 5 and 6th, is becoming each day as the time for the date rapidly approaches. Present is coming to be the watch word for the many fair exhibitors throughout the county as daily they are at pains to locate the best exhibits of Florida and kaffir heads, cane, and various other agricultural products.

In the years past and especially the first fair was held in little thought was given to the best exhibit until it was show, and of course, the result was very satisfying to the exhibitor and visitors in the long run.

As the dry weather that has held for the communities in its grip for several months it will make it difficult to prepare good produce from other communities where more rain received, yet, even in some of the best communities of the county agricultural products could not display at the fair this fall.

For the past few years the Haskell County Fair has received many compliments for the splendid showing in the various departments of agriculture, including the Livestock, Poultry, and various other departments, yet the Fair of 1919 did all connected with the Fair and the coming show will surpass all in Haskell County during the past years.

and that the Haskell County Fair continue to hold its high place in the county fairs of the State.

number the dates of the Haskell Fair, October 4, 5 and 6th and making preparations for the end of exhibits this year. In all of these exhibits will surpass those of any year.

All in the Rochester community should remember the date of the fair which is September 28 and 29 and the best showing possible in the fair to be held the following year.
