Sheriff's Sale
The State of Texas, County of Haskell. Notice is hereby given that by virtue of an order of sale issued out of the Honorable County Court of Dallas County, Texas, by the Clerk of said Court, on the 8th day of December, 1927, in the case of First Mortgage Investment Company vs. E. A. Laughlin, No. 45580-B on the docket of said Court, on a judgment rendered in said Court on the 27th of April, 1927, in favor of the said First Mortgage Investment Company and against the said E. A. Laughlin, for the sum of \$524.73 less a credit of \$36.00, as of Sept. 30, 1927, together with interest that may be due thereon from the 27th day of April, 1927, at 6 per cent per annum, and costs of suit, with a foreclosure of an attachment lien on the following described real estate, to-wit:

That certain tract of land lying and being in the County of Haskell, State of Texas, to-wit:

Being a part of the George W. Lang survey, Abst. No. 306, Cert. 2906-3007, Sec. 37, and patented to Geo. W. Lang on the 27th day of April, 1861, by patent No. 268, Vol. 17, the part hereby conveyed being described by metes and bounds as follows:

Beginning at a stake in the East boundary line of said George Lang Survey, which stake is 2217.5 vrs. South of the original Northeast corner of said Lang Survey;

Thence west 2479.5 vrs. to a stake on East Bank of the Double Mt. Fork of the Brazos River;

Thence down the Double Mt. Fork of the Brazos River with its meanderings, 724.20 vrs. to a stake on the east bank of said Double Mt. Fork of the Brazos River;

Thence East 2455 vrs. to stake in the east boundary line of said George W. Lang survey, which stake is 1493.3 vrs. south of original northeast corner of the said Lang survey;

Thence South 724.2 vrs. to the place of beginning, and containing 315 acres of land more or less, together with all improvements thereon. Same being decreed to E. A. Laughlin by J. A. Walker, as shown of record of Deeds, Vol. 92, page 394.

As said attachment lien existed on the 24th day of January, Q. E. 1927, and on the 22d of February, 1927, and levied upon as the property of E. A. Laughlin, and that on the first Tuesday in February, 1928, the same being the seventh day of the month, at the court house door of Haskell County, Texas, in the town of Haskell, between the hours of 10 o'clock A. M. and 4 o'clock P. M., I will offer for sale and sell at public auction, for cash, to the highest bidder, all the right, title and interest of the said E. A. Laughlin in and to the above described real estate.

Witness my hand this 7th day of January, A. D. 1927.

Al Cousins,
Sheriff, Haskell County, Texas.

Resolutions of Respect
Rule, Texas.

Whereas, the Lord in his infinite Wisdom has seen fit to call from our midst our Beloved Sister, and neighbor, Mrs. Elsie Allison, wife of Brother E. D. Allison;

Therefore, be it resolved that the Pinkerton Missionary Baptist Church extends to husband and children our heartfelt sympathy;

And be it further resolved: that a copy of these resolutions be furnished the family of our deceased sister, and that a copy be recorded upon our church minutes.

Done by order of the Church in conference this, the 8th day of January, A. D. 1928.

Committee on Resolutions
Mrs. Pearl Williams of this city says she can do without the Free Press and called around Friday and renewed for the home paper.

Mr. H. C. Vandell of Weinert Route 1 is a new reader of the Free Press paid up for a year.

IT DRIVES OUT WORMS
The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price 35c. Sold by Oates Drug Store.

Cut Planting Costs This Spring

Your listing and planting costs this spring will be just about half what they were when you used one row listers if you do your listing two rows at a time with the

John Deere No. 667

By letting this two-row do the work of two one-row listers, you'll save the cost of one man and two horses. You'll get the accurate planting and good work for which John Deere listers are noted. Accurate planting because of the famous "999" drop for corn and the John Deere saw-tooth type picker wheel for cotton. Good work because of genuine John Deere bottoms that scour and wear well. Seed plates can be furnished for great variety of seeds. Either horses or tractor can be used with the "667". Row-spacing is quickly adjusted from 36 to 38, 40 or 42 inches. All adjustments easily made from seat. Depth of covering and depth of listing controlled by levers. Put this money-saving John Deere Lister to work on your farm this spring.

We want you to see this lister at our store next time you come to town.

Twenty Years Ago

(Taken from the files of the Free Press of January 11, 1908)

S. W. Scott returned a few days ago from a trip to Fort Worth, Austin, and Temple. He says that from what he could see on the trip, he regards this section of the state as being in much better condition than the section visited by him.

Dr. O. M. Guest who recently returned to Haskell has purchased Dr. W. W. Sands Dental Office and is now permanently located upstairs in the McConell building.

Mr. J. C. Holt was in Monday look-

ing after some land matters.

Mr. H. Carden who spent the holidays at Belton returned Wednesday.

Mr. J. I. Clark of the Paint Creek community was on the county court jury this week.

Mr. H. O. Williams returned the early part of the week from a visit to relatives in Arkansas.

We are informed that James O'Neal is no more of Haskell to the regret of several persons.

Frank Simmons has moved to the southern part of the county.

Mrs. Strain and Mrs. Moore of the west side were in the city shopping Wednesday.

Andy McMullen of Mudgee, Texas, was among the pleased prospectors in Haskell this week.

Mr. Brewer Norman went to Weirert to take charge of Mr. Jno. E. Robertson's store while he is away temporary from home.

Among those who attended District Court at Anson this week were: S. L. Robertson, W. L. Cason, E. Sutherland, J. W. Collins, Judge O. E. Oates and City Marshal Fitzgerald.

Miss Lizzie Wade spent the holiday season with relatives in Knox City.

Messrs. C. W. Green and R. J. Reynolds, proprietors of the Greenleaf Cafe, have dissolved partnership and Mr. Green will continue the cafe while Mr. Reynolds will turn his attention to the business of the Haskell Steam

Laundry of which he is part owner.

Mr. and Mrs. S. W. Boen were in the city Wednesday doing some trading. Mr. Boen moved here from Bell county and located 10 miles northeast of town.

Mrs. J. P. Alban of the northwest part of the county was in the city shopping Wednesday.

Last Monday, being the first Monday, was trades day in Haskell and the town was full of people with horses and mules for sale, and a good many of these animals changed ownership.

J. L. Baldwin had a number of fine mules on hand and sold a lot of them.

Virgil Touchstone made a flying trip to Mobe Thursday.

E. G. Stein of Sauerston was in the county capital Monday.

John Gardner of the Paint Creek community was a business visitor to the city Monday.

Miss Almeda McGeehan has returned from Waco where she spent the holidays with her grandmother, Mrs. Portia McGeehan.

Mr. E. A. Adams of the Marcy community was in the city Wednesday.

S. B. Street of Graham, who is interested in the Alexander Mercantile company spent several days in the city.

Mrs. J. P. Cantrell who has been visiting her parents, Mr. and Mrs. T. J. Morrison left Monday for her home in Hillsboro.

Mr. Luster Scott of Colorado City is visiting his cousin G. W. Andrews.

Frank Stephens, one of our active land men made a trip through Central Texas this week in the interest of his business.

W. C. Henderson who located at Gorman after leaving Haskell was here a day or two on business.

Mrs. W. C. Zerwer has returned home from Mangum, Okla., where she spent the holidays.

Mr. M. L. Benton of Knox City was in Haskell Monday.

H. C. Eldridge recently moved here from Bell county.

Mr. Bruce W. Bryant returned the early part of the week from a professional visit to Sherman.

C. A. Pinkerton of the Rule community was in the city a few days ago and said that a number of farmers were still holding cotton for better prices.

W. D. Kemp has sold his place to W. A. King and has purchased Mr. Brewer's residence.

Mr. Hunter Lanier, one of Knox City's prosperous merchants was in the city Wednesday.

W. B. Merchant of the east side was in the city Monday.

T. G. Williams has purchased an interest in the J. T. Ellis Grocery Store and will be known from now on as Ellis & Williams.

Mr. J. A. Bailey, one of our old time cattlemen who is still in the business says that the cattle have gone through the winter with very little feed. That he range has been sufficient for their needs.

Samuel Hunter of New Madrid, Mo., spent several days here looking after his large land interests in the county.

7260 neckties, 7260 shirts, 6050 suits of underwear, 9680 pairs of socks, 1815 pairs of shoes, 1210 hats, 16,355 handkerchiefs and 1815 suits of clothing.

Long distance telephone calls by girls in one year total 16,947 and by boys 12,820.

J. I. Beason of Smith Chapel community was in this city doing jury service last week.

A Business Proposition

Judge—You say the unwritten law would have justified you in killing Mr. Cohen, and you had pulled a gun on him. Yet you did not fire. Why?

Mr. Goodstein—Well, judge I pointed my pistol at him, he says, "How much you want for dot gun?" I ask you judge how could I kill a man when he was talking business?"

Again

-the Greatest Sensation of America's Greatest Industry

Again, Chevrolet has created an automobile so far beyond all expectations in the low-price field that it constitutes the greatest achievement of America's greatest industry.

Built on a 4-inch longer wheelbase—offering numerous improvements in performance, beauty and safety—the Bigger and Better Chevrolet marks a spectacular epoch in the development of luxurious transportation at low cost.

The engine is of improved valve-in-head design with alloy "invar strut" pistons . . . hydro-laminated camshaft gears . . . mushroom type valve tappets . . . AC oil filter . . . AC air cleaner and a new crankcase breathing system.

Throughout the entire car similar

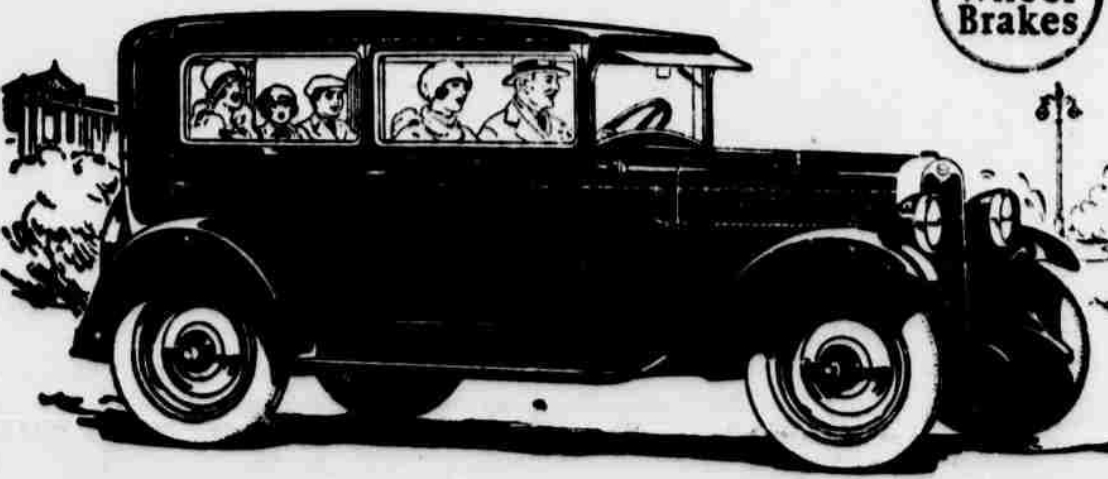

advancements are represented—from the four-inch longer wheelbase and the new semi-elliptic shock absorber springs—84% of the wheelbase, to the marvelously beautiful new Fisher bodies in new Duco colors.

Come in and drive this great new car. Drive it through traffic—and get the thrill of its darting pick-up . . . the smooth, certain action of its non-locking four-wheel brakes! Drive it on the open road—and test every point in the speed range for smoothness and roadability! Try it on the hills—and learn the true meaning of Chevrolet power!

Do that—and you will agree with thousands of others that here is the world's most luxurious low-priced automobile.

Every feature of advanced design demanded in the finest cars now offered in the New Chevrolet! Read this partial list.

- Improved valve-in-head motor.
- New stronger frame 4" longer wheelbase 107".
- New four-wheel brakes.
- Thermostat control cooling system.
- New alloy "invar strut" pistons.
- New instrument panel indirectly lighted.
- New ball bearing worm and gear steering.
- Semi-elliptic shock absorber springs: 84 per cent of wheelbase.
- Safety gasoline tank at rear.
- Larger balloon tires 30" x 4.50".
- New streamline bodies by Fisher.
- New Duco colors.
- Theft-proof steering and ignition lock.
- A. C. oil filter.
- A. C. air cleaner.
- Single-plate dry disc-clutch.
- New crankcase breathing system.
- New two post exhaust.
- Heavy one-piece full-crown fenders.
- Alumite pressure lubrication.
- Vacuum tank fuel supply.
- Improved Delco-Remy distributor ignition.
- Combination tail and stop light.
- Large 17" steering wheel with spark and throttle levers located on top.
- Rear view mirror.

T. C. U. STUDENTS ARE WELL CLOTHED

The average girl student in Texas Christian University requires for her wardrobe in one year: 10 to 12 pairs of shoes, 30 to 35 pairs of hose, 7 hats, 16 to 18 dresses, 13 to 14 outfits of "undies" and 2 or 3 coats.

This information was compiled this week by Burton Perry of Henderson, Texas, business manager of the 1928 Horned Frog student annual of T. C. U.

Perry is making a survey of articles of clothing and articles of convenience used by the students of T. C. U. The information gathered as a result of his survey will be published in a pamphlet form for distribution to Fort Worth Advertisers. This is to show the extent to which T. C. U. students patronize Fort Worth firms.

More boys than girls in T. C. U. can swim. Perry's survey statistics show. At least 95 per cent of the boys indicated that they were users of bathing suits, while but 88 per cent of the girls come in this class.

To dress the average T. C. U. boy for one year the survey shows the requirements to be 12 to 14 shirts, 12 to 18 neckties, 3 to 4 pairs of shoes, 16 to 18 pairs of socks, 11 to 12 suits of underwear, 27 handkerchiefs, and 3 or 4 suits of clothes.

You may have pictured in your mind the typical college boy dressed in knickers, yet not quite half of the boys in T. C. U. wear them, according to the survey.

However, if your mental picture includes the typical college boy arrayed in a slicker, you are nearer right here—70 per cent in T. C. U. wear slickers.

Four out of every five girls in T. C. U. possess a watch, the survey shows. Slightly more than half of them own a phonograph, while 20 per cent possess ukuleles. Sixty-four per cent have a desk lamp and 89 per cent use traveling bags.

T. C. U. girls make from 23 to 25 long-distance telephone calls each year, while the boys fall slightly behind in this respect, making 18 to 20.

It takes 6 vanities to maintain the beauty of the average girl for one year. Sixty-eight per cent of the girls reported that they used lipsticks.

As to the totals of individual items, to dress girl students in T. C. U. for one year it requires, according to their own reports, 8070 pairs of shoes, 24,210 pairs of hose, 5,049 hats, 12,912 dresses, 10, 301 undies, 1614 coats, 1614 pairs of gloves and 29,845 handkerchiefs.

The combined wardrobes of the T. C. U. boys for one year would contain

Political Announcements

The following announcements are subject to the Democratic Primary to be held next July.

- For District Clerk: Leo Lois Earnest.
For County Judge: Jesse G. Foster (re-election) Joe A. Jones.
For Tax Collector: Leon Gilliam, Ed Fouts.
For County Treasurer: J. E. Walling (re-election).
For Sheriff: Al Cousins (re-election).
For Commissioner Precinct No. 1: C. W. McKelvain, O. J. Corzine, J. S. Abarnatha (re-election).
For Commissioner Precinct No. 4: T. D. Strickland, W. E. Bunkley.
For Public Weigher Precinct No. 1: Geo. B. Fields, Frank B. (Slim) Reynolds, A. L. (Doc) Cox.

CITY OFFICES

(City Election to be held in April)
For City Marshal: J. H. Ivy, W. E. Welch (re-election).

T. J. LEMMONS RESIGNS POSITION WITH LAUNDRY

T. J. (Uncle Tom) Lemmons has resigned his position with the Haskell Laundry Company, and states that he is taking a much needed rest after five years in the harness. Mr. Lemmons commenced working for the laundry nearly five years ago when it was first established and has been on the job ever since. During the years since, Mr. Lemmons has had no small part in the building up of a business that has grown to be one of the largest and best equipped laundries in West Texas, and today, under the management of J. L. Tubbs, is one of the busiest places in the city. "Uncle Tom's" many friends will learn with regret that he has severed his connection with the Laundry, as he has almost become a "fixture" of the institution. However, they rejoice with him in his much-needed vacation.

THESE MEN SEEK NEW FIELDS FOR BUSINESS

Messrs. Ino Waldon, J. D. McMillian and Bill Earnest of the Sargent community are visiting the plains this week on an important business deal or transaction of some nature. These men are among our most progressive business men and we would hate to see them get involved in other work that would take them from our community for what would Sargent do without Mac to walk the streets hunting a real estate deal, Ino Waldon to manage the gin and pay the preacher or Bill Earnest to donate telephone poles for the school to use or other charitable purposes?

CUSTOM Hatching—I am now running my hatchery, set each Monday. See me for space and dates. Opposite East Ward School building, Phone 287, Crawford Hatchery, etc.

George Hardberger, City Marshal of Knox City was in the city Thursday on business.

W. D. Gilliland of the Howard community called at the office Friday and renewed for the Free Press. Walter is a real good farmer and a good citizen and he appreciates the news in the home paper.

Dr. W. J. Howell, Rochester's practicing physician renewed for the Free Press Monday to our field man who was in Rochester for a short while. Dr. Howell likes to get the news from the capital city.

Charter No 4474 Reserve District No. 11

REPORT OF CONDITION OF THE HASKELL NATIONAL BANK

At Haskell, in the State of Texas, as the close of business on December 31, 1927.

Table with 2 columns: Description and Amount. Includes RESOURCES (Loans and discounts, Real Estate, etc.) and LIABILITIES (Capital stock paid in, Surplus fund, etc.).

STATE OF TEXAS, County of Haskell, ss: I, A. C. Pierson, Cashier of the above-named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

Subscribed and sworn to before me this 9th day of January, 1928. A. C. Pierson, Cashier. Sam A. Roberts, Notary Public. CORRECT—Attest: Hardy Grissom, Mrs. M. S. Pierson, G. W. Waldrop, Director.

HENDERSON DRY CLEANERS Phone 183. Advertisement with a quote: "Said Mrs. Jones to Mr. Jones with a holler, 'For the love of Mike, look at your coat collar.' Now hubby Jones inclined to please. Removed the coat and saw the grass. Said he to her, 'My coat, what a mess. This suit is due for a clean and press.'" (Continued Next Week)

If You Want to Borrow Money on Your Land; Read This. I can make you a loan on your land at 6 per cent, 6 1-2 per cent and 7 per cent interest, payable annually, loan made for ten years, with privilege of paying one-fifth of the principal at end of any year, without paying a bonus. You can pay the loan during the first five years, if you desire. The only expense you pay will be abstract fees and recording fees. You get all the money you borrow. If you want a new loan, or renew an old loan, it will pay you to see or write me, before you make your application. I can get you the best loan to be had and save you money. P. D. SANDERS Haskell, Texas.

Six and One Half Per Cent Farm Loans. Being associated with the Commerce Farm Credit Co. of Dallas, with over \$100,000,000. Resources, I am prepared to make loans on farm lands upon very favorable terms, mostly at 6 1/2 per cent int. and on ten years' time with option of borrower to pay one-fifth of principal on any interest paying date. Interest payable only once a year. No payment of semi-annual interest nor purchasing of stock required. JAS. P. KINNARD, Lawyer, Haskell, Tex.

**WEST TEXAS UTILITIES
PLAN STUPENDOUS
GENERATING PLANT**

Bids for the erection of a building to house the first unit of what ultimately will be the largest electric generating plant planned to date by the West Texas Utilities Company will be received at that company's general office here by January 16.

The plant will be erected on the north shore of Lake Pauline, five miles southwest of Quanah, and when completed will consist of three units that will represent an investment in excess of \$5,000,000. Construction of the first unit will begin immediately after the contract is awarded and will be completed and ready for operation by September 1, 1928. The two additional units will be built when the need for more power from the plant arises.

The plant when the three units are ultimately finished will more than double the present available generating capacity of the West Texas Utilities Company, raising the available capacity of 40,000 horsepower to 100,000 horsepower. The unit to be erected this year will add 20,100 horsepower which, with 8,500 horsepower that will be added by the unit now under construction at the plant at San Angelo, will give the West Texas Utilities Company an available generating capacity of 69,000 horsepower after September 1. The unit of San Angelo, which doubles the capacity of the plant there, will be finished May 1.

The building to house the generating machinery will be of concrete, brick and steel, with red face brick used on the exterior and white stone for trimming. It will measure 125 by 150 feet and will equal a six-story building in height. Plans for the building were furnished contractors during the past week. Structural steel plans and specifications have been in the hands of contractors for more than a week and bids on these will be received at the company's general office here Jan. 13.

The plant will be three quarters of a mile west of the Lake Pauline dam and will be situated on the north shore. Much of the necessary machinery for the first unit has been bought, including a 20,100 horsepower turbine from the General Electric Company and three 1,000 horsepower Stirling Babcock and Wilcox boilers. The turbine is of the latest design and will operate on 375-pound steam pressure. The boilers are designed to operate at 350 per cent of rating.

Oil and gas will be used for fuel, all equipment has been bought with this in view. It can be converted to the use of pulverized coal should such a change

become necessary. A Foster-Wheeler 20,000 Square foot surface condenser, with circulating water pump, air pump and hot well pumps, has been purchased. The circulating pump will handle 36,000 gallons of water per minute. Water will be cooled by the surface method in Lake Pauline. The plant will generate electricity at 13,800 volts.

A sub-station in which will be installed four 6,667 k v transformers to "step-up" the electric current to 66,000 volts will be erected. For the plant auxiliary two 1,500 k v transformers will be installed in the sub-station and these will reduce the current to 2,300 volts for station use.

The plant will be easily reached by direct rail shipment of materials and fuel as a spur track is being built from the Fort Worth and Denver railway three miles away which will be available as soon as construction work is gone on the plant. A contract for grade and fill work was awarded early in December to R. V. Stroup Company and this is almost finished. Trestle work is well under way and steel rails, ties, switch and other track materials have been purchased and are enroute.

Shortage of fuel and water will be avoided in any emergency that might arise as a 10,000 barrel oil storage tank and two 25,000-gallon tanks on 100-foot towers for storage of service and make-up water will be erected.

Four transmission lines will leave the plant. One of these will connect with the transmission line leading through Pecos to the central system of the West Texas Utilities Company. One will lead to Quanah, one to Childress and the fourth to Vernon, permitting interconnections with the Texas Electric Service Company of Wichita Falls and the Southwestern Light and Power Company at Lawton, Okla.

Lake Pauline impounds 1,750,000,000 gallons of water and covers 610 acres of land. It was acquired by the West Texas Utilities Company from the estate of the late William Marsh Rice, founder of Rice Institute at Houston and builder of the Lake Pauline dam. The company also has purchased 400 acres of land adjoining the lake which is being landscaped for the purpose of being developed and beautified.

The reservoir was built by Mr. Rice for irrigation purposes in which he was intensely interested. In recent years, however, the irrigation project has been abandoned and the lake used for recreational purposes. By converting the water supply into electric energy the West Texas Utilities Company will be harnessing a resource that otherwise would be going to waste.

Steps to improve all of the company's property adjacent to the lake already have been taken in addition to the

landscaping work. The dam impounding the water is being repaired. Twelve cottages will be erected adjacent to the plant for the use of the operators. An "all weather" road will be constructed by the company to connect the plant with the highway leading to Quanah and Chillicothe.

The Lake Pauline site was chosen because it is practically the center of the territory and of the load required by the "north end" properties of the West Texas Utilities Company. The load requirements of the properties 100 miles north of Abilene, together with the Oklahoma properties of the Southwestern Light and Power Company will use all the power and electric energy that can be produced and transmitted from the plant.

Gas fuel and water sufficient to care for the company's needs are available at Lake Pauline. The reservoir is served by a large watershed and gas is produced in large quantities in virtually all directions including the fields in the Panhandle, at Burkburnett and Electra and in Oklahoma.

At Quanah is the junction of the trunk and transmission lines of the West Texas Utilities Company, interconnection with the power plant of the Southwestern Light and Power Company at Lawton, Okla., the Texas Electric Company at Wichita Falls, and interconnection in two pairs with the central plant of the West Texas Utilities Company at Abilene and in turn with the other large plant at San Angelo.

The Quanah, Abilene and San Angelo plants are located at economical transmission distances apart and are tied together with heavy transmission lines—two pairs of such lines—which permit their use as "stand-bys" or for emergency service to each other. This cuts down the surplus capacity required from each to give continuous and reliable service. When plants are so located the power supplied from them can be transmitted and sold in economic transmission distances from the plant, and at the same time two-way service to all communities supplied by the plants is provided.

One hundred West Texas communities, located in 38 counties, are now connected to the West Texas Utilities Company electric light and power system. The present available generating capacity now is 40,000 horsepower and its transmission lines exceed 1,500 miles in length. These lines are connected with similar transmission lines of other companies providing for the exchange of energy and lending stability and insurance against interruptions to service that is always likely to occur with isolated or self-contained electric power plants.

Almost phenomenal growth has been experienced by the West Texas Util-

ities Company since it came into existence less than seven years ago. At the beginning its territory embraced only Abilene and six small towns nearby. During that time, it has expanded to one of the major electric light and power systems in the Southwest, its light and power service extending to the McCamey and Yates oil fields 250 miles to the Southwest, and Clarendon a similar distance to the north in the Panhandle.

Development of this enterprise has called for the investment of more than \$29,000,000 in 38 West Texas counties which summed will be greatly increased by the \$600,000 expenditure on the San Angelo plant, now under way, and the more than five million dollars at Lake Pauline. The company has ten miles of electric railway, 99 miles of gas lines, ice plants in 23 communities with a daily production capacity of 700 tons, and more than 500 employees. In the 100 communities electricity is being served to more than 46,000 patrons, gas to more than 7,500 and water to more than 4,000. Seven years ago it served only 5,205 electric and 2,803 gas customers and offered no transportation service. The transportation lines operated by it are the Roby and Northern Railway Company and the Abilene Street Railway Company. More than 600 people are regularly employed by the West Texas Utilities Company in its various activities.

The development of the territory it serves has been a major part of the activity of the West Texas Utilities Company. Its power and transmission installations have been designed with a view to furthering the industrial and agricultural interests of West Texas insofar as adequate and dependable power can do it. The idea uppermost in the minds of the executives of the company is to assist West Texas to grow and develop as its economic position indicates it may do.

That it is entering into the industrial and agricultural life of the territory it serves is seen in the different communities. In the Yates, Trans-Pecos and McCamey oil districts it is doing all the work formerly done by gas or steam—pumping wells, drilling wells, pumping pipe lines, rectifying oil; in others it is operating water pumps, sawing wood, shearing sheep—in fact generally making itself useful about the farm and ranch, as well as in the more populated communities. Some 300 farms and ranches alone are receiving light and power from the West Texas Utilities Company.

Ambitions

Ambition of 1878—A gig and a gal.
Ambition of 1928—A flivver and a flapper.
Ambition of 1958—A plane and a Jane.

Prof. L. K. England of the Haskell high school returned Sunday night of last week from Chicago where he spent the holidays with his friend Miss Dunn of that city.

A. B. Carothers of Rochester was in the city Thursday on business.

Ex-Sheriff J. W. Collins has been spending several days in the city looking after his farms and other property in the county.

Dr. J. C. Davis of Rule was in the capitol city Thursday on business.

Martin Arend of Vontrem was doing jury service in the city the past week.

S. M. Singleton of Post was here Thursday on business.

W. D. Doolen enters his name as a new subscriber to the Free Press. He lives in the city and wants to know what happens in the county.

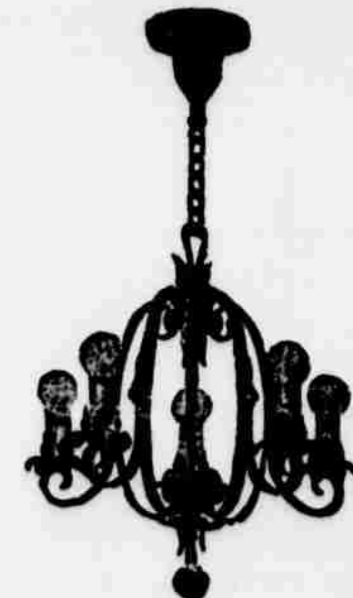

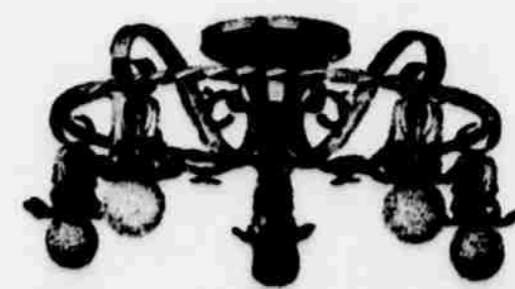

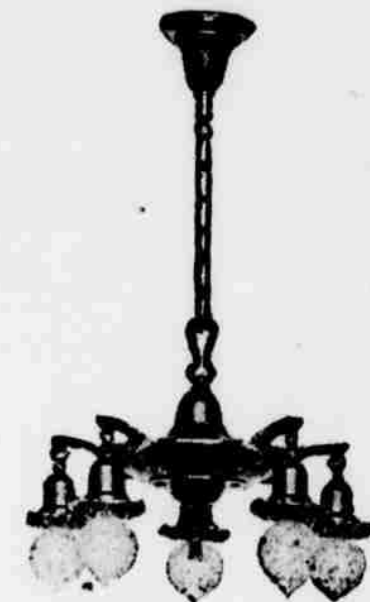

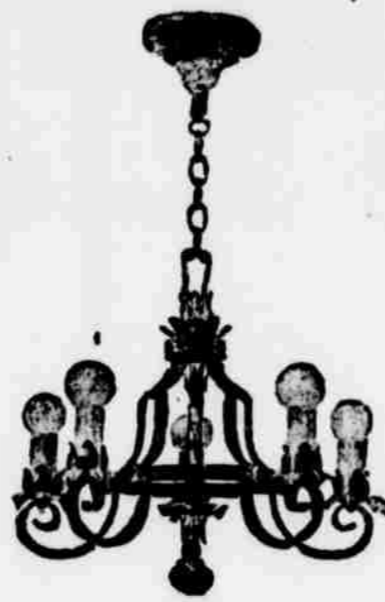

PLACE DOLLARS RIGHT

It's up to you to all times give
A weather eye to how you live.
The man who lives beyond his means
Is sure to fall and spill his beans.

QUALITY AT LOW COST

West Texas Utilities Company

From the Field

By W. M. Free

It has been quite a while since we had a field letter in the Free Press, but our friends have been calling for us to again take up the work of house to house news gathering trips, which in reality is the best way to get news first hand. There is no other paper in West Texas giving this service that we can call to mind at this time. The Free Press has never spared expense nor trouble to give to its readers the very best service and in this work it is planning to give to its readers the very best service that its resources will permit.

In doing this field work, our aim is to get the news from the rural districts and tell it to the world in our columns. We expect to tell the world, the name and place where our farmers live and just what they are engaged in, and what success they are having.

We have always met a hearty cooperation in this work and we are expecting to find our people just as loyal as ever to our efforts. There are no people on earth to us like the people of the country. We do not have to tell you that we grew up in the country. You all know that. The old saying is true, "You can take the boy out of the country, but you can not get the country out of the boy." That's true in our case. We always feel at home in the country where the air is pure and the association friendly (Yes, Home like.)

We have very little news to report this week as we have been getting things ready to begin our trips and just got out for a short trip a day or so this week. And say, by the way, our method of travel has changed since we made our first trip out of the city into the country. More than ten years ago we started out on foot, going from home to home and field to field and it was a great time to us. We enjoyed it. Then we advanced a little and many of you remember our little pony jet that was our side partner for quite a while. We are now making the trips in a jitney. We can see more people, but we do not have that feeling of security that we are sure to reach our destination as we did before. An old woman was said to have told a minister once that the jitney would take you there and bring you back, but we are never so sure about this, but this is our mode of travel now and the boss expects us to see you at your homes and just as you are.

There has been so much advancement in the way of farming since we came here and began this work that I am sure that in every home I shall find some interesting news to tell our readers and we want to see a smile on every face from the oldest to the youngest. We love happiness and the association of our friends and when we see that smile it brings joy to our heart, makes us feel welcome, make our efforts the more pleasant. Let's try and make the new year one of happiness and progress.

Our first trip was a visit to the Curry Chapel Church last Friday morning where we met a fine congregation of folks holding a Baptist rally. I do

not know whether that explains it or not, but they had some singing, preaching on certain lines and a dinner fit for the kings. We took part in the singing and the dinner. There was not a very large congregation present, but a representative body from the community including E. W. Kreger who is always on the job when there is any real work to be done. This was indeed an instructive program and those who took part in the program were able to handle the task set apart for them. Rev. Alvis, Whatley, O'Brien, Ball and last but not least the new Associational Missionary Parks all took parts on the program. There were other ministers who came in later including Lillard, Fuller and Arnold. The only thing we see wrong with these programs, enough people do not attend.

Saturday we spent in the city taking subscriptions and news items given us by our friends in the city and country. During the day at times we could hardly write the names on our books that was handed us for renewal and new subscriptions. No one appreciates their friends more than your humble servant and every encouraging word and deed is treasured by us.

Monday morning we drove out to the Roberts community and to the home where the awful tragedy occurred in which Jno. H. Roberts and his bride of a few weeks passed away. Just how it all happened no one will ever know as there was no one who witnessed the fateful and regrettable affair. There were a number of neighbors and friends of the family assembled when we arrived awaiting the remains of Mr. Roberts to be brought back to the home to be held for the funeral which was set for Tuesday afternoon. The whole community was shocked over the sadness of the occasion and many expressed their sympathy to the loved ones of this pioneer family. There are many rumors afloat, but there is very little facts connected with the things that have been rumored.

From there we drove to the city of Rule and met a number of our friends on the street and in their stores. C. C. Pouts a former Haskell boy who moved to Rule and has been engaged in various businesses which has finally terminated into his buying a variety store and he was very busy arranging his stock from the onslaught the public had made on his wares during the rush of business the Saturday before. A business of this kind will suit Charlis as there is plenty of profit and little work.

We also noted E. B. Harris on the streets rustling ads and news for his paper the Rule Review. Claud Norman stopped long enough from his barber chair to hand us his subscription to the Free Press for a year. Vaughan Bailey driver for the Haskell Laundry handed us his subscription and passed on. We did not tarry very long in Rule, but drove to the city of Rochester and spent about an hour in that city. Here we met a number of friends including our old friend Dr. W. J. Howell who gave us his subscription for the Free Press and "balled" us out for stopping his paper when it was out. But

that is the usual custom of the Free Press and he made friends with us by renewing again. We had a few words with Paul Smith who said he had just killed another good hog—sorry we had to come home and could not spend the night with him. John Mansell of Mansell Bros. Hardware Store was busy with the affairs of the store and said that business was fine and he was well pleased with his patronage. A. B. Carothers was at his desk in the store for a few moments while we were there but said he was not feeling well and soon went back to his home. He had just received a wire that his brother Andy Carothers had died in Waco that morning, an account of which will be seen in another part of this paper.

We left Rochester for home and made a stop on our way at the home of M. F. Emmerson a reader of the Free Press for a number of years. He was at the home of his neighbor, John Jones who had a very sick son and he was helping the family attend the sick boy. Mr. Emmerson is tenant farmer, but who if health and weather conditions favor him will soon be a home owner in Haskell or some other county of Texas. He made a good crop and has plenty of feed in his barns for another year and killed seven big hogs and salted them down. Mrs. Emmerson reported making 78 gallons of lard from these fine porkers. They have more than 150 Rhode Island Red hens and they are of select type, have been closely culled especially to color which is very hard to keep up to the standard because of the newness of the breed. Mrs. Emmerson stated that they had suffered severe loss from theft every year until this when they have resorted to locking the poultry houses at night. Mr. Emmerson has three good milk cows and plenty of work stock to cultivate his farm. He is on the road to prosperity with a firm tread.

Presbyterian Church

January 15, 1928.
Sunday School begins at 9:45 a. m.
Preaching services will begin at eleven o'clock; sermon by the pastor.
The Junior Christian Endeavor will meet at 5 p. m.
The Senior Christian Endeavor will meet at 6 p. m.
The evening church service will begin at 7 p. m.

The public is most cordially invited to attend all services at this church.

The Personal Side

How are the resolutions standing up?

The New Year which is always pictured arriving so swantly clad probably shivered a little as he made his bow.

Wouldn't Mr. Hearst have been an easy mark for Jim the Penman?

Many a man pays a lawyer money that would come in handy in paying the fine.

The new model A is at least inferior to the old model T in one respect—as a joke breeder.

The thing that every town should avoid is being known as only so many miles to some other town.

It is claimed that jaywalking is being reduced, so are the ranks of the jaywalkers.

This is leap year again, but then every year is leap year for the pedestrian at a busy crossing.

Ignorance of the law excuses no man, but there are enough other good alibis.

Every vaudeville actor is a lover of nature. He likes to listen to the rustling of the palms.

Think what a singer Patti might have become if she had enjoyed the benefits of toasted cigarettes?

President Coolidge is 55 and consequently is justified in considering himself exempt from the draft.

Greenland ranch in California has had temperatures as high as 134 degrees. At any rate the name sounds cool.

All plays are problems to the producers. The problem is how to get the people to buy the tickets.

Another thing the world needs is an alarm clock that will go off when it's time to rise to the occasion.

Cupid, it is rumored, is complaining of a shortage of arrows. Probably they are using all of them to mark the spot where the body was found.

There is now one automobile for every six persons, but the pedestrian crossing the street suspects that it's the other way around.

With automobile and airplanes becoming so numerous it is hard to find a one-horse town.

A cash and carry liquor system is proposed for Manitoba. But the trouble is that so few are able to carry the stuff.

Political platforms of 1928 may be expected to carry the usual amount of deadwood.

HOME DEMONSTRATION CLUB ORGANIZED AT BUNKER HILL

The girls of Bunker Hill school met Dec. 20th, 1927 at 10:30 a. m. and organized a Girl's Home Demonstration Club, with Miss Matilda Gunn acting as chairman.

The following officers were elected:

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

Gates Drug Store

Lola O'Keefe president.
Velma McIntere vice president.
Bessie Chatwell, secretary treasurer.
Beatrice O'Keefe, reporter.
By acclamation the club appointed the first and third Tuesday morning at 10:30 a. m. as a regular meeting hour.
Miss Gunn gave a drill in parliamentary procedure last meeting. We will begin active club work Tuesday the 17th.

Hallie Chapman of Roberts, after returning from an extended trip to Bell county where he visited relatives and friends, renewed for the Free Press while in town Tuesday.
Rev. I. N. Alvis renews for the Free Press. Bro. Alvis lives in the city but cultivates his farm in the Whitt Chapel community.
