### Rotan Cats Win Another At Snyder

Rotan Cats played Snyder's Braves Monday, winning 10-2. Clyde McKimmey pitched 4 innings with scores of 5-2. Relief pitcher was Gary Trim. Game was called at five full innings of play, due to power failure.

This puts . Rotan Cats in first place in the league, 'winning two and tying one.

They meet Snyder's Rebels Friday night at 6:30. Come out and see a good ball game.

### Dist. 17 WWI Vets To Meet in Sweetwater

The 17th district of Veterans of World War I and Auxiliary will meet in Sweetwater at the National Guard Armory, Sunday, June 10.

Registration will' begin at 9 a.m. and coffee served until 10 o'clock when the meeting will be called to order. A sing-song will be led by H. V. Vittitow of Rotan and numbers will be given by two quartets, one from Trent and Rotan. Memorial message will be delivered by George McBeth of Rotan at 11 o'clock. The morning program will be hosted by District Chief of Staff Homer W. Hawkins of Sweetwater. Lunch will be served at 12 o'clock. Lon R. Adams of Rotan, the Dis-

trict Commander will be in charge of the afternoon meeting and officers for the district will be elected for the coming fiscal year.

All WWI Veterans and their wives are urged to attend this meeting.

### **Eastern Star Affair** Is Postponed

The public installation of the Order of Eastern Star was postponed Tuesday night because of the weather. The affair is now planned for Friday night at 8 o'clock. All Eastern Star members and friends are urged to attend.

#### Voters To Decide On New Methodist Pastor

### Paving Project Tuesday Moving Here Today

Citizens of Rotan face a serious decision next Tuesday in the paving last week a number of changes were bond election. Much information has been carried in the Adance since the election was called on what was being done in survey and other phases of the project including why Rotan. it would not raise taxes.

It was further explained that a majority of property owners on a street would have to desire pavement before their street was paved. If the majority did not wish to pave the street would be left off the project.

The City budget will pay the bond ssue off during the period, mainly n saving of street repair and proection of water mains crossing the streets. Another big saving made by the project would be the drainage problem, which would be greatly solved. This drainage has been a big problem since the beginning of Rot-

Since the project can be done without raising taxes or valuations, and each piece of property will be greatly improved by being on a paved street, and the fact that Rotan will be one of the best paved towns in the area of the geater part of the project is completed, can we afford to go backward instead of moving forward?

And I will on the first Tuesday in the month of July, 1962, the same being the 3rd day of said month, proceed to sell all the right, title, and interest of the Defendant in and to said property at the Court House door of said county in the town of Roby, between the hours of 10:00 a. m. and 4:00 p. m. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property, directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendant to redeem same in the time and manner provided by law and subect also to the right of the Defendant to have said property divided and sold in less divisions than the whole.

Dated at Roby, Texas, this the 14th day of May, 1962. A. E. Rollans, Sheriff, Fisher By O. O. Hollabaugh, Deputy.

### County Spricultural Agent Exas A. . M. College Actension Service

One of the main conversations since last Thursday has been about the hail and how much damage it caused. Roby and the immediate area seemed to be hit worse than any other part of the county.

Looks like most of the cotton will have to be re-planted from Roby West about ten miles and East about eight miles. The width of this 18 miles strip varies from a few miles to around ten miles.

Several home owners have been asking about the treatment of the hail wounds on their shade trees and shrubs. Damaged bark around the wounds should be removed so they will dry out and then the damaged area may be painted with shellac. When the shellac has dried, a wound dressing or tree paint may be applied over the exposed area.

There are various types of wound dressings. Those most commonly used are orange shellac, asphaltum paints, outdoor house paint, grafting wax and alchodol, and the commercial tree paints.

Formal dedication of the new sterile fly production plant at Mission, headquarters of the Southwestern Screwworm Eradication Program, are scheduled for Saturday, June 16.

The new plant, located at Moore Air Force Base, is designed to provide 50 to 75 million sterile flies per week. With production beginning in mid-June, the first flies from the new plant will be released in early July.

"We are very pleased with construction progress at the Mission plant," Marvin J. Bridges, executive director, Southwest Animal Health Research Foundation, said. "We will have fly production underway ahead of the date we originally hoped construction would be complete.

"Early completion of the plant will be a tremendous boost to the program since we will have the sterile flies required to cover the wide area necessary for eradication in the Southwest.

"Completing a 'crash' construct-ion program of this type would not have been possible except through the Southwest Animal Health Research Foundation, using funds contributed by individual livestock producers and sportsmen from all over

#### ation program.

### Former Resident Is Active in Boys Work At Corpus Christi

The following article is taken from Corpus Christi Call in regard to Mrs. A. E. Moreman, the former Vashti Wilson who was reared in Rotan. She was the daughter of Mr. and Mrs. Walter Wilson, early day residents of Rotan. She was unable to attend the recent gathering of friends, held recently at the nome of Mrs. Phil Malouf. She sent her regrets at not being able to see her schoolmates at the gathering:

"Mrs. A. E. Moreman is an enthusiastic woman. It shows in her ever-present smile, the quick movement of her hands as she talks, the warmth of her conversation.

Her enthusiasm extends to projects as well as to people. And first among those projects the last as our leaders. 11 years has been Boys' City Inc.

"I was first appointed to the board as persident of the Opti-Mrs. Club which has Boys' City as a project. At that time Boys' City was at Cuddihy, and the buildings near Driscoll were just a dream.

"I guess I've sold a million tickets in money-raising drives for those buildings. Selling Boys' City is my main function," Mrs. Moreman said.

Her interest in helping boys dates back many years to when she was a bride and took her husband's younger brother under her wing. Her own son, George, has three children, two boys and a girl. But boys and Boys' City aren't her only interests. She works actively at The Hearth and is "deeply involved in my church." She has been president of the Christian Women's Fellowship at the First Christian Church.

On weekends she and Mr. More man often travel to their ranch at Leesville where the spend hours "riding horseback together."

Born and reared in Rotan, she has always been called "Vashti' and never a nickname by her friends. The authoress, Edna Ferber was so intrigued with the name when she met Mrs. Moreman several years ago that she borrowed it for her book, "Giant".

'Mrs. Moreman met her suband a Corpus Christian, when he came to Rotan on business.

"It was in that small place that I got my love for people. In a small place you have little else to do but know people so you learn to get along with them.

"My wealth is in my friends. It is a challenge to meet new people,

### Responsibility----

The Rotan Junior Chamber of Commerce takes this means of chal-

lenging the citizens of Rotan to greater community responsibility. It is our aim to present from time to time some facts and ideas that will biuld up and strengthen the City of Rotan.

As citizens of Rotan we have the responsibility of critism and disagreement when the acts of others are contrary to our way of thinking. Responsilibity results in constructive disagreement and eventual solution of the problem, irrsponsibility results in destructive chaos.

As citizens we have the responsibility of praise for those who serve the town faithfully and to the best of their ability.

We have the responsibility to exercise our vote to insure that people with our own ideas are elected

We have the responsibility of paying our fair share of taxes so that the various functions of the city can be carried out.

We have the responsibility to work and serve. Let not Rotan ever be guilty of refusing to trade with a person because we disagree with his efforts at serving the communi-

We have the responsibility to shop at home first. We can not hope to have a good sound stable business district if everyone goes out of town to buy what can be obtained here. Also the merchants have the responsibility of trying to serve their customers as best as can be done.

We have the responsibility of taking pride in Rotan and to always of pernicious anemia, tuberculosis, stand ready to defend it against those who would tear it down. If we don't care enough to stand up and be counted for Rotan, no outsider will. Who wants to live in a town that's ashamed of itself?

We have a responsibility to take care of our own problems without help from the Federal Government. Such problems as the needy, indigent, schools, water, streets, and construction are all our responsibili-

Let everyone of us shoulder our part of the responsibility and make an even better place to live.

Rotan Jaycee's

Mr. and Mrs. Rex Hall proudly announce the arrival of a little daughter, Leah Sue Hall, 7 pounds, 1 oz. Leah Sue arrived May 26 at Hamlin Hospital. She has a sister, Lana Joy, 2 1-2 years of age.

### **Christian Science**

NAMED PRESIDENT - Ralph E. Wagers of Boston and Chicage was named President of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, at the June & Annual Meeting.

Gratitude for spiritual growth and progress was the keynote as Christian Scientists from many countries attended the annual meeting of the Mother Church, The First Church of Christ, Scientist, in Boston, Mass., Monday afternoon.

Uncompromising reliance on the unlimited resources of God, Spirit, opens the way to the permanent solution of every human problem, The Christian Science Board of Directors emphasized in a special message.

Bearing witness to this were incidents of spirtual healing read at the meeting. They included healings pleurisy, diabetes, cancer, and mental illness. Also reported were healings of alcoholism, broken bones, deafness, heart trouble, and impaired vision.

Named President of the Mother Church for the coming year was Ralph E. Wagers of Boston and Chicago.

A native of Michigan, Mr. Wagers is a well-known Christian Science teacher, practitioner, and editor. He traveled throughout the world as a Christian Science lecturer prior to becoming Associate Editor of the Christian Science religious periodicals in 1959. In addition to his work as an editor, he is currently heard on the international radio series "The Bible Speaks to You."

More than 800 radio stations Quarterly. throughout the wrold now carry programs in the new series "The Bible Speaks to You" on an everyweek basis, according to Will B. Davis, Manager of Committees on Freddie Smith, son of Mr. and Publication. He announced the start CLARK LIGHT Buenos Aires beginning next month. ### **Christian Science** Annual Meeting-Boston Service Sunday

The spiritual source of intellgence and creativity will be brought out Sunday at Christian Science church services.

"God the Only Cause and Creator" will be the subject of the Lesson-Sermon, which includes this passage from Isaiah (45): "I am the Lord, and there is none else, there is no God beside me: I girded thee, through thou hast not known me."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this selection will be read: "All substance, intelligence, wisdom, being, immrotality, cause, and effect belong to God. These are His attributes, the eternal manifestations of the infinite divine Principal, Love. No wisdom is wise but His wisdom; no truth is true, no love is lovely, no life if Life but the divine; no good is, but the good God bestows' (p. 275).

The Golden Text is from Hebrews (3): "Every house is builded by some man; but he that built all things is God."

W. P. Curry returned Saturday from Houston where he had been with his son, Fondean who had major surgery. Mrs. Fondeen Curry is also critically ill. Then Mr. and Mrs. Curry and daughters, Mrs. Bobby Rushing of Odessa and Sue Curry went to Denton Monday where Sue will attend NTSC this summer and Mr. and Mrs. Curry and Mrs. Rushing went on to Oklahoma City to be with Mrs. Arthur Rhine-

hart, another daughter of the Currys who had major surgery Monday morning.

help on many occasions from its Relief Fund, which is used for charitable and benevolent purposes in any emergency or necessity which may arise. . . .

Students from nearly 400 coleges and uniersities in 16 nations attended the biennial meeting in The Mother Church in September, 1961, it was reported.

New publications were announced, including an Indonesian edition of "Unity of Good" by Mary Baker Eddy, who discovered and founded Christian Science; Japanese and Indonesian editions of The Hearld of Christian Science; and an Italian edition of the Christian Science

### Local DKG Guests **Of Snyder Chapter**

Zeta Lambda Chapter of Delta Kappa Gamma held its Founders' Day luncheon in the Stanfield Elementary School Cafeteria, Saturday May 26. Attending this lovely affair were Empress Day, Delila Baird, and Josie Baird charter members of Gamma Tau Beta Epsilon Chapter of Colorado City. Members of the mother chapter were also guests of the Snyder group.

The event highlighted the year's work. Mary Davenport presented the program honoring the organization's founders. And Virginia Grove, president of Zeta Lambda, had charge of the beautiful candlelighting ceremony.

In paying tribute to the founders Mary Davenport said in part.

"Today we have come together to honor the founder of the Delta Kappa Gamma Society which is unique in the annals of organizations. Born of noble aspirations and nurtuted faithfully for more than thirty years, the society can best be interperted through its achievements its future can be predicted in terms of the sustained efforts of its members carrying out its program of work.

"Today we pay tribute to the twelve who on May 11, 1929 were imbued with the necessary wisdom and zeal to share in organizing the scoiety."

Candles were then lighted -- five white tapers for the deceased an l seven red for those yet living.

Mrs. Davenport concluded by saying, "Many other noble women inspired by the same ideals, have joined in the work begun by these brave twive. Through years of depression, wears of war, and years of heavy burdens for teachers, the

### Gift Party For Recent Bride

Mrs. Richard Fred Blume, the former D'Anne Moore was complimented at a Miscellaneous Gift Party in the home of Mr. and Mrs. Roy Kingsfield Wednesday afternoon, May 30.

Co-hostesses with Mrs. Kingsfield were, Mmes. L. A. Sparks, Dee Reese, Irma McSpadden, Charlie Rivers, O. R. Clark, Chas. O. Duke, also Mrs. Leon Moore and her mother, Mrs. Thoma Morrow of Abilene. Mrs. Kingsfield greeted guests and presented the honoree and her mother Mrs. J. D. Moore. Each member of the houseparty was presented an orchid corsage by Mrs. Blume and Mrs. Moore.

The refreshment table was laid with a white linen cloth and centered with an arrangement of yellow iris and chrysanthemums, flanked by lighted yellow candles in crystal holders.

Miss Shirley Turner served punch, miniature sandwiches and cookies.

Guests were registered by Mrs. Irma McSpadden. Mrs. Sparks was assisted by Margaret Swan in showing gifts. Organ music and vocal music was furnished by Celia Reese and Norma Sparks and Mrs. Morrow said the goodbyes.

### Future Seniors On Outing To Abilene

May 17 the Future Seniors of 1962-63 went to Abilene for a combination picnic and ice skating trip. Seven carloads of Seniors and sponsors attended. Everyone enjoyed the trip.

### Make Your Home Salable

by Alice Kemp, County H. D. Agent

Are you selling your house? A house, like any other merchandise, must look attractive to sell, Wanda Barkley, Extension service specialist in home management, emphasizes.

No other merchandise is subjected to such critical inspection and fault-seeking as a house, the specialist reminds. If the property is not attractive, it may draw bargain hunters who will buy only if they can get a lot more than their money's worth.

Here are four types of improvements that home owners can do:

Repair--see that every part of the structure is sound and that all mechanical equipment works. Even sticking drawer sh poor u keep and suggests hidden faults. Modernize-up-to-date kitchens and bathrooms count most. Experts say you get back money spent improving these rooms. A person who buys an obsolete house expects to fix it up himself and will knock more than enough off his offer to cover his anticipated expense. Decorate--brighten with new paint and paper, even if the buyer redoes everything the day he moves in. Also seed the flower beds, prune the shrubs and patch the lawn, especially in front. Clean-get rid of trash and clutter, straighten up the closets so they look spacious. When prospects are coming, see that every room is picked up and turn on some light to give the place a homey, confortable look

HERE'S WHY WIENER PRICES VARY

Have you noticed the variation in prices of a pound of weiners or hot dogs?

Here's some information for good shoppers on the subject by Mrs. Gwendolyn<sub>e</sub> Glyatt, Extension Service Food marketing specialist at Houston.

The list of ingredients on the label of weiners will tell you why some are higher-priced than others. Ingredients on the label are listed in order and according to the amounts included--such as ground beef, pork, cereal, dry non-fat milk and soy flour.

These ingredients--other than meat--absorb and hold water, thereby increasing the weight, Mrs. Clyatt points out.

"They're also lower priced than meat, so the cheaper packages of wieners will have larger amounts in relation to the meat content. The federal meat inspection mark is the shoppers' guarantee that the product is wholesale, suitable for human consumption, and is honestly labeled," she said.

The mark is a round purple stamp with the words "U. S. Inspected and Passed" printed within the circle. The stamp also has a rode number that identifies the packing house that processed the product.

### Former Resident To Marry in Cisco

Mr. and Mrs. Carl Warren of Cisco have announced the engagement and approaching marriage of their daughter Betty Gene to William Carl Griffin of Irving.

6 o'clock in the evening on Saturday June 30 in First Baptist Church. Miss Warren is a '62 graduate of

Cisco High School.

Mr. Griffin is a graduate of Hanahan High School, Charlseton, S. C., and attended Cisco Junior College. He is presently employed in Irving.

The Warrens are former Rotan residents and Betty has visited here each summer since the family moved to Cisco.

Mr. and Mrs. John Fry of Waco spent several days here with her parents Mr. and Mrs. Nelson Smith, this week and left Thursday morning for Riveside, Calif., where Mr. Fry will do graduate work on his Phd at the University of California. Mr. and Mrs. Fry are graduates of Baylor University, Waco. Other visitors in the 'Smith home are, Mrs. Broadus Smith and daughter Paula and her cousin, Becky Smith of Pasadena who are also visiting other relatives here.

### Post Stampede Rodeo Is June 13-16

Post---The Post Stampede Rodeo returning to the local scene June 13-16 after a two-year absence, of fers \$4.500 in cash prizes, in addition to trophy buckles and a handmade saddle.

### Local Delta Gamma **Sponsors** Magazines of Friendship

Gamma Tau Chapter of Delta Kappa Gamma, under the direction of its president, Empress Day, joined with the Southwestern Region in sponsoring this program. Each state in the region drew a different country to send reading, matter. Texas drew the Philippines; and Gamma Tau in turn drew the Quezon Provincial library, Lucena City.

To date Gamma Taus have sent more than 400 magazines to this library and to individual Filippinos who have asked to be included in the program.

satisfying and worthwhile project. It provides a way for each member as an individual American citizen to do something about furthering friendship with people in other countries and thus help present the America we know to people who often get only a distorted picture of our country and its people.

The chapter chairman has received several letters from recipients of magazines sent. The librarian of the Quezon library wrote, and we quote," . . . we are very grateful to you for giving us these much needed reading materials. . . Thank you again for your unconditional help."

And answer to our inquiry as to their need for books: "Our readers are voracious readers and they read more fictions than non-fictions as our records show. If Delta Kappa Gamma through you will welcome our needs for books, especially if they are from book club selections, we will appreciate very much the members' willingness to share their books with us. . . . I am looking forward to how we can reciprocate the kindness of the American People."

And speaking of reciprocation, individual donors have received letters from individual Filipinos who have read our magazines in the library. Quoting Raymundo C. Lagdameo of the Office of Engineers, Lucena City: "I have just finished reading one of your Friendship Magazines (The Saturday Evening Post) from a public library here and was suprised that they were being sent free by you. Since American magazines are being sold here beyond the reach of most readers including me (due to Import Control Law), I will apreciate so much if you will add me to your mailing list. Thank

were being borrowed for weeks; my heart felt gratitude for you and elect of Billy Earl Boyd of San Anyour friends who have given me this opportunity to understand more about the United States through "Magazines for Friendship". And under seperate cover we receive Philippines Free Press, a weekly magazine printed in the Philippines were guests. and in the English language. And it continues to come. We are learning something of their viewpoint with Miss Morrow receiving the atoo.

Although she would be proud to claim the credit, Delta Kappa Gamma did not originate the program "Magazines for Friendship". The

Gamma Tau feels this is a most Southwest Region decided at Phoenix last summer to assist with the work. A California professor, Mr. Croissant, organized and started the program as a non-profit organization to further giving people in other lands a true picture of America and Americans.

> Magazines for Friendship is people to people program. Good Okla. at Commencement services on magazines are mighter than dollars, and a well fed mind is infinitely more satisfying than a well fed body. Those individuals, who have a gnawing need to do something about the eroneous picture many people of other countries have of us, can so easily share our wealth of reading matter fostering goodwill and friendship rather than hatred because of our compacence.

The old addage, "Not what you give but what you share" fits here. Sending a used magazine (one well read) may be almost as expensive as sending a subscription to someone, but there is something about the sharing that has strength and goodwill.

Since her husband's death. Mrs. Kathleen Croissant has continued work of her husband. She is glad to give information to interested persons. Her address: Mrs. Kathleen Biology Club, Secretary-treasurer Croissant, MAGAZINES FOR FRIENDSHIP, 35 So. Raymond Avenue, Pasadena, Calif.

TWICE AS MUCH COOLING

with the patented advantages of

# PARAMOUNT COOLERS

Yes! This famous Paramount 5000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:

- Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assur-ing 100% cooling efficiency all summer long.

- Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.

- Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free-Flo Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.

- Added feature - Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.
