### Rotana Inn Open House Draws Large Crowd

Open House of Rotana Inn, Rotan's new motel held Sunday afternoon was well attended throughout the entire afternoon. Thunder-showers threatened to dampen the crowd the first hour, but visitors came steadily from the entire area and many adjoining towns.

Everyone was amazed with the new business, which is as many remarked "modern as tomorrow". It surpassed expectations in every respect.

Members of Beta Sigma Phi serve refreshments and acted hostess for the owners and management, and National Gypsum supplied refreshments and assisted in other ways.

The long standing need for commercial lodging in Rotan has been met, and cooperation of citizens in boosting the enterprise is all that is needed to make the Inn serve its purpose.

A special attraction in this afternoon's Rodeo Parade will be a Beta Sigma Phi float featuring a few of the beauties who are entered in the "Miss Rotan" contest. Don't miss seeing them! They will be dressed in their prettiest clothes and wearing the banner of the business, organization or individual who are sponsoring them.

Only a few of the girls will be on the float, due to previous commitments, but they will be an attractive group and will add much to the parade--one of these may be "Miss Rotan".

## HOME LUMBER CO.

Now why would Martha put laundry in the freezer?

Flameless electric living is a way of life, nowadays.

Sometimes this wonderful way of life in the world of women brings about strange sights—sights that are incomprehensible to the mere man. Often, a man sees things more marvelous, even, than laundry in the freezer.

That's because Martha... and all the Marthas served by West Texas Utilities Company... knows better than anyone (even us) the many ways to live better, electrically.

All right, Mister—why does she put laundry in the freezer? Ask the inventor; she will also show you other ways her family uses flameless electricity for a better life.

## 4-H'ers Tally Year's Work On Dairy Projects

Raising dairy cattle and demonstrating the use of dairy products in meals are popular 4-H Club projects. Hundreds of girls and boys throughout the state, in checking project results, are probably asking themselves the question a prize-winning dairy-maid asked herself.

"Where would I be today if I had not had the opportunity to join 4-H?" According to the youths' own stories, they learn good health habits, accept responsibility and work with others. And they usually profit from their efforts.

The dairy project is open to boys and girls who have one dairy animal or an established herd. Many young dairy members started with a single heifer, and in 10 years or less built a valuable herd.

Of the 134,000 club members in 50 states enrolled in a dairy animal project today, about a third are girls. This ratio held among the six national dairy scholarship winners last year.

### Cows Cooperate

The 4-H'ers not only learn how to care for dairy animals, but also adopt proven scientific methods of feeding, milking, marketing and breeding.

Showing and judging cattle are exciting aspects of the dairy program, according to the members. Extension dairy specialists, dairy industry personnel and volunteer club leaders help the young people acquire know-how and skills that will enable them to continue a modern dairy operation.

### Seeing Leads to Eating

This year an estimated 200,000 club members from Maine to California are participating in

the dairy foods demonstration program.

The "know-how, show-how" project is a favorite of the younger teenagers. Sometimes the girls pair off and work up a team demonstration. Others develop a solo demonstration. Audiences range from a few club members, groups of adults, to television viewers.

### Rewards Vary

Among favorite recipes are frosty milk drinks, cottage cheese salads, cakes, sandwich spreads, snacks and party fare. The recipes are double-barreled, youthful meal planners point out, because they are packed with nutrition and good eating.

Each of the 4-H dairy programs has a sponsor that provides incentive awards in the form of medals, wrist watches, educational trips and college scholarships.

This year marks the 15th anniversary of the dairy foods demonstration program sponsorship by the Carnation Company of Los Angeles.

The Oliver Corporation of Chicago, for the sixth straight year, provides the dairy animal program awards.

County, state and national winners are selected by the Cooperative Extension Service, and awards are distributed through the National 4-H Service Committee.

## Christian Science Service Sunday

Communion services will be held Sunday at Christian Science churches throughout the world.

Keynoting the Lesson-Sermon entitled "Sacrament" is the Golden Text from the Bible (Galatians 3): "Ye are all the children of God by faith in Christ Jesus. For as many of you as have been baptized into Christ have put on Christ." Readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include: "To keep the commandments of our Master and follow his example, is our proper debt to him and the only worthy evidence of our gratitude for all that he has done. Outward worship is not of itself sufficient to express loyal and heartfelt gratitude, since he has said: 'If ye love me, keep my commandments'" (p. 4).

Mr. and Mrs. Eugene Fraley and four sons of Eloy, Ariz. and Jim Fraley of Blackwell, Okla., visited Mr. and Mrs. Hester Hammit Thursday and Friday. Mrs. Fraley is a sister of Mrs. Hammit.

Mr. and Mrs. Wayne Poer and Dana Sue visited Thursday night and Friday with Mr. and Mrs. Clarence Parker and Marty in Ralls. Friday night and Saturday they visited Mr. and Mrs. Bob Poer in New Home. Lynna Lou returned home with them Saturday after a week long visit with her grandparents.

Mrs. Dean Jones, Kenneth and Kevin of Odessa visited the latter part of last week with Mr. and Mrs. Walter Hartsfield. Mrs. Jones returned home Saturday and the boys remained here for a longer visit with relatives.

Janice and Jeannie Aldridge visited two weeks in New Gulf with Mr. and Mrs. Ralph Chames, Becky Beth and Ralph Edward. The Chameses brought the girls home over the weekend and are spending a few days here with the Aldridges.

Mrs. Empress Day left today for Seattle, Wash., to visit her son, Mr. and Mrs. Jim Day and children. She will also attend the Worlds Fair. Then she plans to go by plane to San Francisco to join her daughter, Mrs. C. M. Sheldon and children, Susan and Miles who are there from Kuwait, Arabia. Susan plans to come home with Mrs. Day for a visit.

## ROTANA INN

How can this car have so much extra—and still be almost low-priced? Answer... it's a Buick... in name, styling, quality and resale value. Yet its price is right close to many models of the "low-priced" cars. So before you do any buying, come see how little extra it costs to get all the extra values included in LeSabre's surprisingly low price. Some examples...finned aluminum front brakes—safest made! A 401-cu. in. Wildcat V-8. Exclusive Advanced Thrust engineering that moves the engine forward—gives you straight tracking, flat cornering—and a nearly flat front floor! Turbine Drive automatic transmission—smoothest there is! And lots more you'd never guess LeSabre gives you. Your Buick dealer's great trades make LeSabre an even greater buy right now! **BUICK LESABRE IS THE BUY!**
