# Partnership

... means a joint interest. But in family life it means more than that. It

means planning together, working together, going together and doing together ...

It means sharing the finer things of life. The husband is to love his wife

as Christ loved the church. The wife is to be devoted to her husband as the

church to Christ. It takes more than thrills in courtship to avoid spills in

marriage. Be he governor or gravel shoveller, he is happiest who finds his

happiness in his home and in his church. This is proof of a truly great partnership.

## "God Speaks Through His Ministers"

Loy S. Mitchell, Evangelist, Rotan Church of Christ

**THE TWO WAYS**  
 "Enter ye in at the strait gate; for wide is the gate, and broad is the way, which leadeth to destruction, and many there be which go in thereat; Because strait is the gate and narrow is the way, which leadeth unto life, and few there be that find it." Matthew 7:13-14

The Bible teaches us there are only two ways; one goes to heaven (life) and one goes to hell (destruction). As you read this article, you are on one or the other of these two ways.

The Entrance. One gate is narrow, the other is wide. This should cause us to think of beginnings. We cannot get on the way until we pass through the gate. The first gate is said to be strait. No one can become a Christian without effort. We do not drift into the kingdom of God, but we are born into it by obedience. (John 3:5) Even those reared in Christian home must make a decision. Will I leave all in the world and wholly follow Christ?

The second gate is said to be wide. Evil is all around us. It takes little effort to go through

this gate. We can just follow the "crowd" and be swept through this gate!

The Way. Life is more than just a beginning. One must consider the whole course before embarking. The strait gate leads to the narrow way and the wide gate to the broad way.

Why is the right way narrow? Because there is only one right way, while there may be a diversity of wrong ways. Man must follow exactly as God commands. In the second place, the narrow way requires self-denial. We must deny self and the pleasures of sin and follow Christ.

Why is the wrong way broad? There is no law in sin for sin is lawlessness (I John 3:4). Each man follows his own will or desire, hence the way is broad.

The End. Each way is separate to their respective ends. The broad way is no short cut to the narrow way. Each has a separate destination. However, be sure of this - the character of the way determines the kind of ending. One leads to life and one leads to destruction. Where are YOU on your journey

today?

### Rotan People Invited To West Texas Fair

Abilene - A vast array of educational exhibits depicting America's vital space programs - present and future - will await Rotan school children and teachers who will be guests of the West Texas Fair on Tuesday, September 10.

A total of 930 special school days admission tickets has been mailed to Supt. K. C. McKasland said President O. R. (Bud) Gray.

Prime space exhibit will be the unusual "Moon Base," an intricate series of models showing what life would be like inside manned moon bases of the future. The huge, enclosed moon base will be making its first West Texas appearance, Gray said.

A towering Atlas missile, similar to the ones which boosted United States astronauts into orbital flight, will make its debut at the fair also, in addition to a National Aeronautics and Space Administration exhibit. The Fort Hood Sky Divers will be featured in twice-daily free fall parachute jumps.

Rotan visitors who remain for the free midway shows at 7:30 and 9:30 p. m. will see the New Christy Minstrels, television and recording artists and vocalist Libby Horne, who has entertained many a captive audience (including Oklahoma Prison Rodeo crowds).

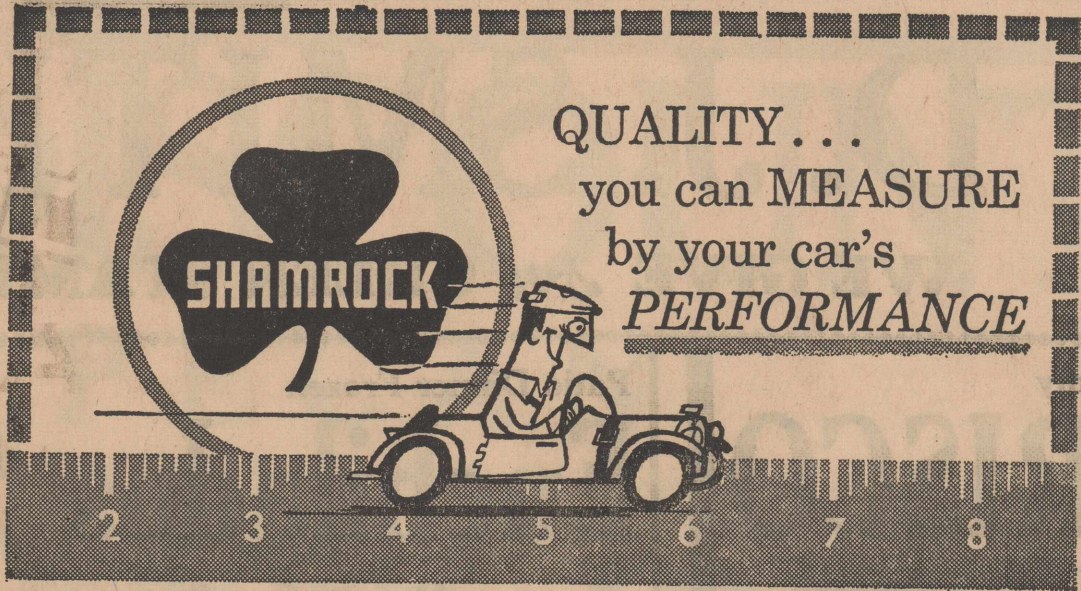

The West Texas Fair will host the Official State Show of the Texas Jersey Cattle Club and will

sponsor Angus cattle and Paint Horse shows for the first time. Other livestock judging will include Appaloosa and Quarter horses, swine, sheep, goats, poultry and rabbits.

Premium money totaling \$28,000 will be awarded in the livestock and agricultural divisions, women's an dyouth departments and in various contests, including an old fiddler's contest, tractor operator's contest and a horned road race.

Bill Hames Shows will return with a maze of more than 30 rides and shows and a free midway act.

Mrs. M. E. Worrell Jr. and daughter Patricia of Dallas came Monday and visited her mother, Mrs. E. E. Patterson until Wednesday of last week.

### Caution Urged On Higher Speed Limits

Austin -- The director of the Texas Department of Public Safety warned motorists today "not to take the new, higher speed limits to literally" since they went into effect August 23.

Col. Homer Garrison Jr., reminded that "there are a multitude of circumstances and situations under which even the old limits were too fast for safety."

"With more than two-thirds of the Texas highway system under a 70-mile-per-hour daytime maximum speed for passenger cars and 65 miles per hour at night, we wish to appeal to all Texans to exercise keen judgment and drive reasonably and prudently regardless of what the signs say. The law prohibits driving a vehicle too fast of existing conditions.

"The Department of Public Safety believes that the objective of speed legislation is to contribute to the efficient movement of traffic on the highways. We feel the new law will help to accomplish this, and our objective of enforcement is to secure substantial compliance with the speed law by all users of the rural highways. The prima facie speed limits fixed by the Legislature or established by zoning authority will be construed to be the maximum permissible speeds under normal conditions, and speeds in excess of such limits will be considered illegal.

"Our enforcement personnel will stop and initiate appropriate enforcement action against all persons observed by them to be committing clear-cut and substantial violations of the speed law."

Garrison urged motorists to be particularly cautious in assuming the higher night speed limit to 65 miles per hour. He said research by the U. S. Bureau of Public Roads shows that increasing night speeds from 55 MPH to 70 MPH doubles the accident involvement rate, and that the severity of accidents increase rapidly at speeds over 70 MPH.

"We repeat that serious problems may develop with the new speed laws unless the driving public accepts and applies them with a high degree of responsibility to themselves and their families and others," he said.

"And we would like to emphasize at this time that traffic deaths are running far ahead of last year already, with an increase of about 100 deaths. Unless we can hold the line against this trend, we will wind up with an all-time high traffic death toll in 1963.
