Hammers Lose First Dist. Game To Hornets

Aspermont's Hornets piled a 27-6 win over the Yellowhammers last Friday at Aspermont moving them into first place in District 6-A running.

Both teams went into play undefeated in district play. The Hornets heavy offense 'outweighed Yellowhammers and steam rolled them much of the time.

Hammers made the first TD as they took over on downs after Aspermont received opening kickoff. The Hammers drove 59 yards in nine plays for the lone touchdown. On a fake field goal attempt, QB James Tompkins passed 12 yards to Eddie Mac Lang for the score. Pete Garcia's extra point was blocked by a Hornet.

On the second series of downs in the second quarter, Aspermont took an 8-6 halftime lead.

Two Aspermont interceptions and a fumble recovery stopped Rotans efforts to score late in the first half. With 14 seconds left in the first half Aspermont's Frazier intercepted a long Hammer pass on his 15 to insure the Hornets' half-time lead.

The Hornets did the remaining scoring in last quarter.

Yellowhammers go to Wylie for a district game Friday night.

Salvation Army Drive Open Here Today

The annual Salvation Army Campaign will get underway Thursday morning, October 22nd, with a 7:00 a. m. breakfast at Gene's Cafe, according to Loys Landes who is campaign chairman.

Mr. Landes named as captains; James Springer, Wayne Harris, Mac Weathersbee, Bernice Hardy, Bill Day, and Roy Kingsfield. The captains will name workers for the campaign and all are invited to attend the kick-off breakfast.

A goal of \$900.00 has been set for the Rotan Campaign. This year, the Service Unit gave emergency aid to a total of 124 people; 34 of whom were local people and 90 transients. The aid given included groceries, meals, lodging, clothing, fuel, medicine, hospital care, transportation and 3 boys attended camp Hobbitzelle, the Salvation Army camp near Midlothian.

The local committee, headed by R. L. Springer, also cooperates with the state-wide welfare services of the Salvation Army.

Bob Eastus, field Representative for the Salvation Army is in Rotan assisting with the campaign.

County Boy To Receive \$2,000 Scholarship

Computers at Texas A&M University's Data Processing Center were used in planning the 1964 statewide conference for the Texas Agricultural Extension Service.

Local extension agents, James S. Norman and Alice L. Kemp will be among the other extension agents from over the state attending the conference at Texas A&M University October 26-30.

Questionnaires were sent to all Extension personnel several months ago to obtain suggestions for speakers and conference objectives. Completed questionnaires were fed into computers, to help plan the conference.

Discussions will revolve around the general conference theme of "New Horizons in Adult Education." The conference also will commemorate the 50th anniversary of the Cooperative Extension Service being observed this year throughout the nation.

Some outstanding adult education leaders from major universities and other organizations are on the program.

A highlight of the Friday morning program will be the presentation of the \$2,000.00 Houston Livestock Show and Rodeo scholarship to Michael Schubert, Fisher County 4-H Club member. He was the winner of this scholarship this summer, selected for his outstanding work in 4-H, school, and community activities.

Michael is now enrolled as a freshman at Tarleton State College. The annual banquet of Epsilon Sigma Phi, Extension professional fraternity, is set for the evening of October 28.

Norman will be an initiate into this National Honorary Extension Fraternity at this time.

HD Ladies Report On State Convention

Mrs. Bill Lee of Longworth who is HD Council chairman and Mrs. Barney Bigham, Rotan Club president were recently sent as delegates to the annual Texas Home Demonstration association which was held in the Rice Hotel, Houston.

These two ladies brought a full and very interesting report of this meeting to Rotan Club members who were meeting in the home of Mrs. Pearl Cooper.

They also told of a beautiful installation service in which Mrs. Walter Byrd was installed as vice president of the district.

Others attending this club meeting were Meses. Dick Edwards, Luther Terrell, Byrtie Burrow, C. A. Ragan, Homer Aaron, C. C. Roach and hostess, Mrs. Cooper.

Mr. and Mrs. R. D. Shows visited friends in Junction and Kerrville this week.

A. B. Harrell returned home from Hendricks Memorial Hospital, Abilene Tuesday where he had major surgery.

Jaycees Halloween Carnival Being Planned

Rotan Jaycees will give prizes to the best costumed boy and girl at their Halloween Carnival, October 31. Also each person attending will be eligible to register for the \$25 bond to be given at 9:30 p. m. Your presence will be required at the drawing to win.

Local organizations will have booths. If you are interested in having a booth, call Richard Donahoo. Your club or organization is urged to take part in this event. The success of this Carnival depends on everyone taking an active interest.

The Jaycees realize the need of giving our children good clean fun while keeping them off the streets. Help them in their efforts by taking part in the Annual Halloween Carnival.

Mrs. Womack Attends WTU Conference

Two hundred women convened in San Angelo Sunday and Monday for the 10th annual Women's Conference of West Texas Utilities Co. They are a portion of the women personnel of the company, and come from more than 50 of the towns in its service area.

Attending from Rotan was Mrs. Azalee Womack, Chashier, Book Keeper in Rotan WTU office.

The Conference is an annual workshop established ten years ago to develop leadership qualities in women office workers with the basic objective of helping them serve the public better. Since the meeting is held on a business day, women employees alternate from year to year with a portion remaining on duty while the other attend the session.

The meeting opened with a Hawaiian Luau at 6:00 p. m. Sunday in the Cotillion Room of the Town House. Following the Hawaiian buffet dinner the group was entertained with a musical program presented by the Lassiter combo, and a singing trio from Abilene composed of Pat Neyman, Ann McDorman and Janice Smith accompanied on the organ by Rufus Edmundson.

The business session opened at 9:00 Monday morning in the Cotillion Room with Beulah Peiser of San Angelo presiding. The invocation was given by Myrtice Barton of San Angelo, followed by a memorial ceremony to deceased personnel conducted by Mary Wilkerson of Abilene.

Rev. Carl McMaster visited briefly with friends here last Thursday as he was returning to his home in Cotton Center after attending the Wilson Lectures at McMurry College. Mrs. McMaster was unable to go as she is teaching in the Cottonwood school, because of a teacher shortage. They report they are very pleasantly located in Cotton Center.

Hobbs Seniors To Sell Toothbrushes

The Hobbs Senior Class started their sale of the new Family-Pak of toothbrushes on Oct. 16. Profits from the sale will be used to help sponsor Senior trip.

Donald Hull, chairman of the Family Pak project, says that over half the toothbrushes in use are worn out. Dentists say that toothbrushes should be replaced every three months. "Dental health is important to everyone," says Donald, "and we of the Hobbs Senior Class are glad to put emphasis on this problem while conducting our fund raising project. Many people who need a new toothbrush just do not go out and buy it. We are going to take the brushes to them."

The toothbrushes in the Family-Pak are made of top quality Dupont nylon bristle. They are manufactured by the same company that make the popular Dr. West Toothbrush and other outstanding brands. Each Family-Pak contains two adult and one child's toothbrush. The price of only \$1.00 per pack is based on a price of 50c for the two adult brushes. The child's brush is free. Members of the Hobbs Senior Class will be calling on homes in the area in the next few days. Also, displays of toothbrushes have been arranged in the following locations: Superintendent's Office, Typing Room, Hobbs Lunch Room.

Local Ladies On DKG Program

Gamma Tau Chapter of Delta Kappa Gamma Society of Fisher and Nolan Counties met Sunday, October 11, in the Community Room of the National Bank of Sweetwater with Mrs. Joe Benson presiding.

In a business session Miss Josie Baird reported for the professional Growth Development and Community Service. An invitation from the Colorado City Chapter for the local chapter to attend a luncheon was accepted.

Mrs. H. D. Melton served as coordinator for a symposium on "From Village to Industrial Society." Mrs. James B. Day, supplying for Mrs. K. C. McCasland, discussed India.

She said in part that the English language has borrowed several words from the Indian language; for instance, bungalow, which was a typical type of dwelling first built in India, comes from the Indian word meaning "belonging to Bengal." Most educated Indians speak English, officials use it, and most of the proceedings in Parliament and Supreme Court are in English. India is seventh largest country in size, but it is the second largest in the world in population.

Mrs. Oddis Brown, in talking about Negeria, said that Negeria has more people than any other African country, more than 37 million, which makes it larger than Texas and Oklahoma combined. Negeria is chiefly an agricultural country. Few adults can read or write in Negeria.

Miss Josie Baird described Mexico as the old, the exotic, and the beautiful. In Mexico there is at least hope for people, for in Mexico they are better off than in other countries of this part of the world. Mexico is developing and has been for the past 25 years. For the people in Mexico, improved standards of living is a reality. Mexico has one predominant party which is the National Revolutionist Party. When criticized for its lack of democracy, Mexico says, "It has worked for us." It has protected national industry with high tariffs and invested in ownership and management until it has reached the point of being the biggest owner Mexico.

Miss Baird had on display hand-craft leather, hand blown glass, lacquer ware, handcrafted silver tea service and linen cloth which were all made in Mexico.

The chapter completed plans for the regional meeting which will be held November 14, in Abilene. Subject for the meeting will be "Texas Brags" or "How We Succeeded in Delta Kappa Gamma Without Half Trying."

Dr. Lola Beth Green will be the director and special guest will be Sara Miltia Hill, past state president. The meeting which will be held in the Womans Club will open with the president's breakfast and registration.

Miss Lois Rogge of Midland will be the speaker at the luncheon meeting. The local chapter will be in charge of exhibits and will present a skit on "How We Succeeded in Expanding Our Chapter."

Following the program and business, the hostesses, Miss Vera Ely, Mmes. Virgil Wolfe and Dewayne served a refreshment plate in a Halloween motif of fudge bars, nuts, candy, coffee and punch to Misses Faye Rhea, and Helen Etheredge of Roscoe; Mrs. Brown of Roby; Mrs. R. B. Robertson of Merkel; and Mmes. Whit Clark, Day, M. T. Hill, J. R. Strayhorn, Misses Josie Baird and Delila and Baird of Rotan; and Mmes. Benson, Roger Eaton, T. E. Knapp, Melton, C. L. Monk, B. M. Neblett, Herman Phillips, Vergil Pinnell, Olaf South and Miss Louise Bollinger of Sweetwater.

The next regular meeting of the chapter will be a dinner meeting at the home of Mrs. Benson, Sweetwater.

Rev. and Mrs. Shepherd of Sweetwater visited friends and attended to business here Monday.

**SRA Reading Program
In Junior High School**

Programmed materials are being used in Junior High reading classes. Each student proceeds at his own speed from one level to the next. These levels are color coded.

The fifth through the eighth grades are reading at a programmed basis. The materials are published by the Science Research Associates. The material gives each child a better understanding of reading, more speed in reading, and improve his listening ability.

Each student works at his own rate. He is given stories to read and then tests are given over the material read. When he has received three 100's on the tests, he advances to the next level.

For the teachers' use the levels are color-coded with 15 colors.

**FFA Boys Take
Interest In Sheep**

Seven boys from the local FFA Chapter are taking an interest in sheep for their show projects this year. It has been four years since there have been sheep bought by the boys in the Chapter.

The boys buying sheep were Eddie Mac Lang, Ronnie Tunnel, Ruben Rodriguez, Tony Deleon, Lanham Ross, Larry Carver, and John Burnes. These boys each purchased two sheep which were bought in Junction, Texas.

REMEMBER WHEN?

"Oh brother, is this contraption ever a monstrosity! Can you imagine finding space to put one of these, or even actually using it? This old 1901 Peck-Williamson water-heating stove and clothes dryer can't hold a candle to the modern, automatic, flameless electric clothes washers and dryers. Besides being completely automatic and flameless, they save so much time and energy. The electric dryer alone saves 3 hours weekly of the housewife's valuable time which she can spend with her family and clothes come out so soft, fluffy, and easy to iron, there's no telling how much time is saved just on the ironing board.

Sixty-three years sure makes a lot of difference. Visit your electric appliance dealer or the nearest WTU office."

Pedometer Records Student Milage

A pedometer is an instrument that is used to measure the distance one walks. It is put near the center of the body, and the up and down body motion causes it to click and gradually measure off the miles. It is calibrated to an individual's own stride and is reasonably accurate. Over the last couple of weeks, a pedometer has been put on a student daily, and his (or her) daily milage has been put in a long list of other students and their miles, and an average was taken. From this survey, the average Rotan High School student walks 2.4 miles daily during school hours. In my op-

inion this is quite a lot of average walking considering that most of this time is spent in class room desks. P. E. boys and girls and band students were included in the survey, and if these figures are accurate, all Rotan High School students together walk 480 miles a day and 2,400 miles during a five day school week. This would add up to 81,600 miles during a 36 week school year with deductions made for weekends.

Fire Prevention Awards For 3rd Grade

Last week, the third grade students earned fire hats and badges as rewards for working in the Fire Prevention Week Activities in primary.

The hats were earned by taking a test on the fire drill procedure, actively participating in the fire drill procedure, and making a poster on fire prevention. All students in the third grade made 100 on the fire drill test.

The badges were earned by participating in a home check test. Each student checked his home to see if there were any fire hazards.

Aspermont Hosts Rotan's Teams

Last week Rotan football teams were hosted by the Aspermont Hornets at Aspermont. Tuesday, the junior high varsity team played Aspermont. Friday it was high school's time, and Saturday morning the seventh and sixth grades team played.

Do RHS Gentlemen Really Prefer Blondes?

"Do our high school boys really prefer blondes?" was answered in a recent poll. A majority of the male students replied, "Yes." How does this answer effect the 108 female students of which 22 are natural blondes, 52 brunettes, 6 redheads, and 28 are raven-haired? Well we have 11 bottle-blondes. Who's next, girls?

Letter From Parent To Bus Driver

The following letter was written from a parent to a bus driver. The letter reads as follows:

"Dear Mr. Bus Driver: Today my little girl, who is six years old, rode your bus. She started school this year, and we are proud of her. I watch her every morning as she walks away from me and becomes your responsibility. I think she is the prettiest thing I've ever seen as she starts for your bus. Did you notice that she doesn't know how to hold her notebook? She was almost ready to turn and run back to me when she saw you open the bus door, then you smiled and spoke to her. Then she knew everything was all right. We told her that you would take care of her just the same as we would; when she saw you smile, I was sure she remembered what we had said.

She told us about her school day, and how much she liked her teacher; she also told us how nice you were to the children. She said everyone who rides your bus is to feel that he is helping everyone on the bus to be safe and happy. She told us that she is 'on your team'.

My wife and I just wanted to tell you that we are happy because our little girl is on your team, we want to be on your team, too. You will be careful with children, won't you?"

"A Daddy"

Getting Ready For A Pep Rally

Pep rallies are held to promote spirit. Long before the pep rally, efforts must begin to build up the spirit so it will be at its peak Friday. These efforts include locker signs, which is sketch of play picked by Coach Schkade as the play which will be the biggest threat to the Yellowhammers defense, big signs are placed over the front door and in various places throughout the building and an exhibit concerning the up and coming game is set up in the entrance hall. A pep rally is outlined and a skit written. Both must be practiced. Yells and songs to be used are typed and memographed. Speakers are approved by the coach and then given a specific topic and time limit. Mrs. Strayhorn is given a copy of the pep rally on Tuesday and the band prepares a song or songs. Twirlers, too, must begin getting routines ready for Friday. Color day-sponsored by the Student Council-is held each Friday in an effort to promote a spirited atmosphere. Tension builds; nerves are on edge; and there is still more to do. At dinner, Friday, a microphone and amplifier are set up. Then the gym is decorated and everything waits for 3:20. At this time everyone invited including eighth grade and high school students and all fans are seated ready for the starting signal. The head cheerleader steps up to the "mike" and the pep rally begins.

Desiccants have a place on the Rolling Plains. But unless they are used properly -- and when cotton is ready for their application -- they can do much more harm than good.

Older, more mature cotton frequently can be prepared for machine harvest before frost, says Shelby Newman, Agronomist at the South Plains Research and Extension Center, Lubbock, Texas. Experience shows that proper use of harvest-aid chemicals permits earlier harvesting of mature cotton before exposure to weather damage reduces the grade or actual field losses occur due to bad weather. Research shows that open cotton left in the field generally deteriorates one grade and around 1-32 inch in staple per month of weathering.

"When" is the key word in using harvest-aid chemicals. For example, if a desiccant is applied before cotton is fully mature - more than 60% of bolls open and preferably 80% -- not only yield decreases but also detrimental effects to seed and lint quality are possible. The more immature the cotton, the greater the losses. In any event, harvest-aid chemicals should be used only when at least 60% of the bolls are fully open, indicates research at the Center.

Proper timing of harvest-aid chemical use has been easier to obtain on cotton grown under non-irrigated and light-irrigated conditions than under heavy irrigation. This is because dryland or light-irrigated cotton generally matures 30-40 days before frost.

Economics is the biggest consideration when debating between harvest-aid chemicals or letting frost do the job. According to John Seibert, Extension Area Farm Management Specialist, it is up to each producer to determine, under his conditions, whether or not use of harvest-aid chemicals is profitable. From all indications, conclude Seibert, it is often hard to economically justify their use. Where such things as earliness of harvest for debt retirement and risk of adverse climatic conditions are of primary consideration, then economics -- or more net income -- is secondary.

L-145, Cotton Defoliation Guide is available at the county extension office in the courthouse.

Knowledge of tax options may increase '54 net income. "The way farmers utilize the 1964 Income Tax Regulations will determine their net farm income for 1964," says John J. Seibert, Area Extension Farm Management Specialist, Lubbock. Changes in this year's internal revenue code can be beneficial to the tax payer where certain qualifications are met.

The payment rate schedule on taxable income has decreased from that of 1963. This means less tax is due for those who have the same taxable income as 1963.

Far advantages for "Senior Citizens." Farm people over 65 of age can have an additional tax advantage if they have sold their personal residence during 1964. Part of the gain can be excluded from taxable income if the sales price exceeded \$20,000, or all of the gain can be excluded if the sales price was under \$20,000. This exclusion applies to a one-time sale of residence after the taxpayer is 65 years of age and if the home was used as a residence at least 5 of the last 8 years preceding the sale.

Taxpayers sixty-five years of age or over may deduct all medicine and drug expenses from income for tax purposes. Prior to 1964, the amount deductible was that amount in excess of 1% of the adjusted gross income.

Individuals with large fluctuations in income may be eligible for the income-averaging provision. If "averagable income" is more than \$3,000 (excluding capital gains, wagering gains and income from gifts and bequests, etc.) a taxpayer's tax liability may be reduced.

This Is Vital Period For Improved Pastures

The supervisors of the Upper Clear Fork Soil Conservation District and technicians from the Soil Conservation Service urges each farmer and rancher to take a close look at their improved pastures at this time.

The next thirty days is the most critical period in the management of improved pastures. Grazing should be discontinued for 3 to 4 weeks prior to the dormant season to allow plants to develop a good root system and regain vigor. Light grazing may be resumed after the plants are dormant if a good cover of litter is left on the ground throughout the winter.

The amount of root system on a grass plant is in direct proportion to the amount of growth present. Plants kept grazed to closely have a shallow, weak root-system that are unable to pickup moisture and plant nutrients' deep in the soil.

A plant that has a shallow root system and is low in vigor at the end of the growing season is more susceptible to "winter kill" than a strong healthy plant.

The first growth next spring must come from food that is stored in the plant this fall. This stored food will produce new stems and leaves and will be ready to get production off to a faster start next spring.

Research has shown that the most economical production from bermudagrass pasture is made before July 1. If a pasture has been properly in the fall, production can be increased by as much as 25% by the first of July of the following year.

Studies have shown that if the grass is allowed to grow to maturity just before the dormant season, a good vigorous stand will be maintained that will be ready for top production next spring.

Vernon's Texas Constitution Art. 3, County or municipal authorities; extra compensation; unauthorized claims.

Sec. 53. (The Legislature shall have no power to grant, or to authorize any county or municipal authority to grant, any extra compensation, fee or allowance to a public officer, agent, servant or contractor, after service has been rendered, or a contract has been rendered, and performed in whole or in part; nor pay, nor authorize the payment of, any claim created against any county or municipality of the State, under any agreement or contract, made without authority of law).

In view of the above law, the commissioners court cannot call an election on a petition requesting \$2,000.00 per year for the city of Roby and the city of Rotan in aid for county fire protection.

At the present time the county is paying the city of Roby \$50.00 per fire on any fire out of the city up to a maximum of \$600.00 per year. The county is paying the Rotan Fire Department this same amount.

Letter To Editor:

The Presidential race is getting hot. Lets consider it with an open mind. The Good Book said... "By their fruits, ye shall know them". President Johnson is running on his record in office, his experience of 30 years in Congress, as Senate majority leader, Vice President and now President for the last ten months, has demonstrated his leadership and a sense of mature judgement. He is familiar with all of our problems and is for Peace and unity among all Americans. He deserves a chance for an elective term of his own. It is also sensible to give a U. S. Senator to support his program. Senator Ralph Yarborough has proved his loyalty to carry on with LBJ with seven years seniority to his credit. Ralph will do the job for all the people regardless of who they are and he deserves his second term. Also the President needs all Democrat House members willing to support him.

All Texans should be proud of some of our delegations in Washington... The Best in the Nation... Patman, Jack Brooks, Lindley Beekworth, M. R. Thompson, John Young and some other Congressman.

Lets look at Mr. Goldwaters stand. No one can tell what he stands for. No experience as a leader in his 12 years in Congress. he has voted against nearly all bills... "NO"... He opposed most all progress under the Democrats administrations but offered no remedy of his own to anything he opposes. He is an extremist with plenty of SMEAR, opposed REA, old aged pension, medical care, school lunches for kids, standard wages for women workers, etc. Worst of all he favors some radical changes in Social Security. He seems to think that Texans are not capable to choose its own officers. He recommended Mr. George Bush for U. S. Senator, this man now trying to buy his seat with his Middle East oil money. Mr. Bush has lived in Iran before coming to Texas lately.

Mr. Editor, I feel that this will be my last letter in the future Presidential race. I have voted for President Woodrow Wilson in 1912. I am 3 score and two tens, have served in Texas Legislature, as Mayor, and a delegate to Democratic National Convention in 1944 and have fought for an Honest clean government. I have always voted a straight Democratic ticket. And again in November.

Thanks and God Bless Yau, Mr. Editor,
Respectfully, Cecil A. Lotief

Webster Doing Basic Training at Great Lakes

Great Lakes, Ill. (FHTNC) -- Russell L. Webster, age 17, son of Mrs. Jessie Basket of Rotan, has begun basic training at the Naval Training Center, Great Lakes, Ill.

The nine-week training includes naval orientation, history and organization, seamanship, ordnance and gunnery, military drill, first aid and survival.

During the training recruits receive tests and interview which determine their future assignments in the Navy. Upon completing the program they are assigned to service schools for technical training or to ships and stations for on-the-job training in a Navy rating specialty.

Naval training produces the power in seapower by supplying qualified personnel to man the ships, planes and shore stations of today's Navy.

SOUTHWESTERN BELL

BARRY GOLDWATER TAKES A STAND

★ STATES' RIGHTS

"States' rights is no mere slogan. It is the backbone of our Constitutional system. It is a check on the steady accumulation of massive power in the hands of national bureaucrats."

★ CIVIL RIGHTS

"The key to racial and religious tolerance lies not in laws alone but, ultimately, in the hearts of men."

★ HONESTY IN GOVERNMENT

"Certainly, simple honesty is not too much to demand of men in government. We find it in most. Republicans demand it from everyone — no matter how exalted or protected his position."

★ CUBA

"I have challenged the Administration to continue the strong action that would ultimately eliminate this Communist military and subversive base 90 miles off our coast."

★ PEACE THROUGH STRENGTH

"This entire nation and the entire world risk war in our time unless free men remain strong enough to keep the peace."

★ SOCIAL SECURITY

"I favor a sound Social Security system and want to see it strengthened."

★ FISCAL RESPONSIBILITY

"Government can preserve the value of the dollar by prudent budgeting, by living within the means of the people who pay the taxes and by encouraging individual enterprise."

SMALL MEASURE

Of all things—a man measuring his religion with an eye-dropper. An eye-dropper is used to administer small doses of medicine but it is not proper in the realm of religion. The mercy of God is an ocean divine, a boundless and fathomless deep. An eye-dropper is much too small to convey riches so abundant. *How unfortunate is that life that will attempt to take the bounties of God with an eye-dropper.* Yet, there are those among us who are satisfied with second-hand religion... the kind a man gets when he attempts to let his wife do his church-going for him. *God seeks to talk to all of us direct.* Mister, He doesn't want your wife delivering yours via the eye-dropper. Go to church... listen to the Divine voice of God as He seeks to pour His infinite grace and goodness into your soul. *Don't be satisfied with such small measure... an eye-dropper full.*

YOU IN THE CHURCH THE CHURCH IN YOU
 Character is a by-product of the church. It is here that young and old alike are showered with benedictions stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we on Sunday, "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.
