New Street Lights And Center Curbing Project Is Underway for Rotan

As an additional service to the communities, towns and cities it serves, West Texas Utilities Company has extended its street lighting services. The new street lighting schedules provide for mercury-vapor street lights in ratings of 8,000 lumen, 21,500 lumen and 43,000 lumen (two lights per pole).

Poles were installed this week for the new system, which will be painted as soon as hot weather complete 'bleeding' of solution used to treat the poles. The new lighting program will also include the modern lights on all highways coming into town.

In addition to this double curbing is being installed by State Highway Department in center of street with concrete strip between the two curbs. The highway work will be completed this week and lights installed in near future.

Mercury-vapor lamps, George Field, local manager said, are more efficient than incandescent lamps and are considered by authorities as the desirable primary source of illumination for modern street lighting. This new service is designed to help communities improve the quality of their street lighting.

He said, "That the cost of new mercury-vapor street lights is low and compares very favorably with rates of other Texas companies."

Field pointed out that this new street lighting service would be extended to all towns and communities the Company serves. The Company is eager to assist the progressive, "up-and-coming" communities it serves in having and maintaining good street lighting. Good street lighting is an important plus for a community in attracting new industry. A well lighted town is considered to be one of the sure indicators of a progressive, wide-awake community.

In addition to the deserved Civic pride of a well lighted community, Field pointed out, modern street lighting contributes substantially to crime reduction. It is a positive deterrent to vandalism and hoodlums.

Another benefit of modern street lighting is improved public safety. Statistics clearly show that well lighted arterial streets and main thoroughfares reduce the number of traffic accidents and fatalities.

PROPOSED TOWER

'As It Looks From Here'

Omar Burleson, M. C.
17th District, Texas

Washington, D. C. -- In 1961 an agreement between the United States and Mexico provided for what is commonly known as the Bracero Program.

The purpose was to regulate the movement of Mexican farm workers into the United States in the summer and fall. Large numbers of

such workers were admitted for a period of six to twelve weeks, paid wages equal to those of Americans, and returned to their homes below the border. Many workers returned year after year to the same employers, and it was mutually profitable. Under pressure from large labor unions, some Church groups and the reformist liberals, the arrangement ended last January 1.

These forces argued that it caused

unemployment in this country and that it hampered efforts to unionize farm labor.

The result is that at this very moment there are unharvested crops rotting in the fields in California. The flow of money from the West to the East, and even abroad, has been drastically reduced.

The fact is, there are fewer and fewer Americans who are willing to perform "stoop labor." Anyone who has ever picked cotton will know

it is not the easiest job in the world to pick berries or cut asparagus and celery. It is obviously not a matter of available workers, but a matter of their willingness to work. True enough, the wage rate is only comparable to the lowest of common labor, but here again it was proved on trial that this is not a principal factor in the problem of recruiting field workers.

With all the federal help programs and local relief, the incentive is just not there. As developed in hearings in California, out of more than 8,000 able bodied people receiving public assistance in the City of Los Angeles, 235 accepted jobs. At the end of 10 days, there were less than 30 working.

The Federal Government attempted to supply the need for workers by recruiting high school students called A-Teams. But the boys, athletes back home, found the work too hard and the sun too hot, and the teams melted away. Many college students who were "standing up for their rights" in the last semester, found stooping over in the fields to earn a few dollars quite another matter. Of 300 Indians transported from the Dakotas at a cost of \$6400 to the vegetable fields near Salinas, California, all but 20 vanished in a few days.

At the same time all this is going on there is a \$106,000 Poverty Training Program in Oxnard, California, to train advisors to train seasonal workers. This would indicate the growers of the farm products to be harvested are unable to tell them how to do it.

This situation concerns more than just the fruit and vegetable growers of California. It concerns cotton growers, sheep and goat raisers,

ranchers and about all other agriculture everywhere.

Furthermore, it concerns the housewife who is going to pay more for food. One lady recently buying a head of lettuce asked that it be "gift wrapped."

Prices are bound to rise for crops ripened in September and October, and after that, price of canned goods are likely to increase in the winter.

The human element touches more deeply the braceros themselves. While Washington spends billions to help the poor in Egypt, India and elsewhere, and all the talk about the Alliance for Progress, our Government has visited a cruel hardship on our nearest neighbors to the South. It is denying a livelihood to tens of thousands of Mexicans who depended on this work.

YOUR INSECT ENEMY Mosquito Prepares For Action

Americans in many parts of the nation may again be threatened by a mosquito population boom this summer. These voracious blood-sucking pests continue to annoy man and undermine his health just as they have for centuries.

On thousands of valuable cropland acres in the west (because of irrigation) mosquitoes reproduce abundantly and become a menace to man and animals. Beef cattle held on summer pasture in this area lose weight, and milk flow drops. Livestock production suffers in many parts of the nation because of the mosquito.

The threat to humans from mosquitoes as carriers of encephalitis ranks as the major summertime insect problem. Previous years' tragic experience in Texas and other states with the mosquito is causing more Americans to take notice of this dangerous enemy.

Mosquitoes thrive during periods of rain that leave pools of water standing in fields, around homes, and buildings. Mosquitoes must have water in which to lay eggs. If uncontrolled, these larvae hatch to breed millions more. Without control, the mosquito population can soar.

Many communities have found that clean-up of weeds and elimination of standing water areas are helpful. This helps deprive mosquitoes of breeding places.

But clean-up, itself, is not enough. Spraying also is important to kill both larvae and adults.

Last year, in many areas where mosquitoes were a

health hazard, homeowners and entire communities relied on malathion insecticide for effective control. A major reason is that this broad-range insecticide has the ability to provide quick kill of both larvae and adults. Even those that have previously shown a resistance to other chemicals can be controlled by malathion.

Equally important to pest control officials is this fact: Malathion has extremely low toxicity to man and animals. It is classed as non-persistent. That means the insecticide can kill mosquitoes quickly; then residues disappear as soon as the job is done.

Increasing numbers of individual homeowners are turning to spraying. They are aiding their communities to rid their premises of mosquitoes and other small flying pests. They have found it's the best way to strike back effectively against mosquitoes—pests that return each year to exact their toll from our population.

over 2000 hours of classroom and supervised instruction by a qualified nurse instructor and school professors. The first four months usually consists of pre-clinical and hospital ward work which is conducted in classrooms especially equipped for nurse teaching and demonstration. Tests are regularly conducted to evaluate the students' progress. The final eight months are devoted to hospital floor duty where the students put into practice skills and knowledge gained in the classroom. Students are usually "capped" at formal or semiformal ceremonies after completion of the first four months of training. Each school has its distinctive cap; however, association members may now own and wear a new approved State LVN cap if desired.

Since these students must rotate through all the many complex departments that make up a hospital in order to learn the basic concept of

each hospital service, classes are sometimes held in the morning and sometimes in the evening.

Usually a half-day is devoted to clinical study in the hospital. Most schools or hospitals provide a nominal wage for the student during the 12 months of school. Practically all graduates are retained by the hospital in which they are trained; however, many graduate licensed vocational nurses enter into private duty, clinics, laboratories, office nursing, home nursing and into industrial nursing.

After graduating from an approved school, the licensed vocational nurse takes the State Board examinations and if successful, receives a State license to practice. Hospitals in Texas had hoped that licensed vocational nurses would graduate in such numbers as to ease the critical shortage existing in the hospital nursing field. This has not yet come to pass.

The licensed vocational nurse performs her duties under the supervision of a physician or registered nurse. Like her "big sister", the

registered nurse, the licensed vocational nurse of today has earned her rightful place on the hospital health team and in the nursing world. Her occupation is a vitally important one.

It is not uncommon to find licensed vocational nurses in surgery, pediatrics, recovery room, medicine room, central supply, and in administering care to the patient in emergency room or ward.

Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.
HOUSE JOINT RESOLUTION NO. 8 proposing an Amendment to Section 24, Article III and Section 17 of Article IV of the Constitution of the State of Texas, to allow an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives, and increasing the per diem allowance of Members of the Legislature.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 24. Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. Senators shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives shall receive from the Public Treasury an annual salary in an amount to be fixed by the Legislature. All Members of the Legislature, including the Lieutenant Governor and the Speaker of the House of Representatives, also shall receive from the Public Treasury a per diem of not exceeding Twenty Dollars (\$20) per day for the one hundred and forty (140) days of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days. This Amend-

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

"In addition to the per diem the Members of each House shall be entitled to mileage in going to and returning from the seat of Government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no Member to be entitled to mileage for any extra Session that may be called within one (1) day after the adjournment of the Regular or Called Session."

Section 2. That Section 17 of Article IV of the Constitution of the State of Texas be amended to read as follows:

"Section 17. If, during the vacancy in the office of Governor, the Lieutenant Governor should die, resign, refuse to serve, or be removed from office, or be unable to serve; or if he shall be impeached or absent from the State, the President of the Senate, for the time being, shall, in like manner, administer the Government until he shall be superseded by a Governor or Lieutenant Governor. The Lieutenant Governor shall, while he acts as President of the Senate, receive for his services an annual salary in an amount to be fixed by the Legislature and the same mileage which shall be allowed to the Members of the Senate, and no more; and dur-

ing the time he administers the Government, as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office, and no more. The President, for the time being, of the Senate, shall, during the time he administers the Government, receive in like manner the same compensation, which the Governor would have received had he been employed in the duties of his office."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday following the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

"AGAINST the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

Sec. 4. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this State.

Hospital and You

by Gerald F. Geyer, Member, Council on Public Education Texas Hospital Association and Administrator Ochiltree General Hospital, Perryton

Early in 1947 the first efforts were made to establish recognized schools devoted to teaching the art of vocational nursing to interested women. The response to the initial endeavors of a few have mushroomed into a national organization better known in the vocational nursing world as the National Association for Practical Nurse Education and Service. Practically all States now provide a licensed training program for men and women who are interested in becoming vocational nurses.

Remarkable progress has been made in this field because of the interest and efforts of many far-sighted registered nurses who have realized the service that can be rendered by the licensed vocational nurse. The rapid growth of the licensed vocational nurse group may be attributed, in part, to the shortage of professional registered nurses over the State and even more so to the new found quality of service that the licensed vocational nurse now qualifies to offer.

The men and women of Texas interested in nursing careers are offered and opportunity to enroll in any of the 145 licensed schools working in conjunction with community hospitals located throughout the State. Entrance examinations call for two years of high school (or equivalent), passing grades on pre-entrance examinations, good physical and mental health, moral integrity, ability to get along with others and within the age limits of

18 through 50 years.

After considerable testing and screening, acceptable candidates are given 12 months of formal training and practice in nursing principles and procedures, body structure, personal hygiene, treatment of diseases, nutrition, emergency nursing and first aid, maternity and infant care, well-baby care, home and hospital housekeeping, community health, and recreational activities. The training program includes

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 17 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollars (\$100.00) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 51, Article III, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article III, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Ten Cents (10¢) on the One Hundred Dollars (\$100.00) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings or other permanent improvements at the designated institutions of higher learning provided that none of the proceeds of this tax shall be used for auxiliary enterprises; and the governing board of each such institution of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as

hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed four per cent (4%) per annum and shall mature serially or otherwise in not more than ten (10) years; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars (\$100.00) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"(1) Ninety per cent (90%) of the funds allocated on June 1, 1966, shall be allocated to state institutions based on projected enrollment increases published by the Coordinating Board, Texas College and University System for fall 1966 to fall 1978.

"(2) Ten per cent (10%) of the funds allocated on June 1, 1966 shall be allocated to certain of the eligible state institutions based on the number of additional square feet needed in educational and general facilities by such eligible state institution to meet the average square feet per full time equivalent student of all state senior institutions (currently numbering twenty-two).

"Not later than June first of the beginning year of each succeeding ten-year period the Comptroller of Public Accounts of the State of Texas shall reallocate eighty-five per cent (85%) of the funds to be derived from said Ten Cent (10¢) ad valorem tax for said ten-year period and not later than June first of the sixth year of each succeeding ten-year period said Comptroller shall reallocate fifteen per cent (15%) of such funds to the eligible state institutions then in existence based on determinations for the said ten-year period that are similar to the determinations used in allocating funds during the twelve-year period beginning January 1, 1966, except that enrollment projections for succeeding ten-year periods will be from the fall semester of the first year to the fall

semester of the tenth year. All such designated institutions of higher learning shall not thereafter receive any general revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Ten Cent (10¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue Funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this Amendment, and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This Amendment shall be self-enacting. It shall become operative or effective upon its adoption so as to supersede and repeal the former provisions of this Section; provided further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any state institution of higher learning under this Section prior to the adoption of this Amendment but such notes or bonds shall be paid, both as to principal and interest, from the fund as allocated to any such institution.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the General Election to be held on the first Tuesday after the first Monday in November, A.D. 1965, at which election all ballots shall have printed thereon:

Community Reunion Draws Large Crowd

The County Line, Cottonwood, Riverdale Community reunion met Sunday, August 7 and 8 at the American Legion Hall in Rotan. People began gathering there Saturday afternoon and by Sunday noon 300 or more people had registered. From the sound of the noise they made as they greeted each other we knew everyone was having a happy time meeting old friends - many of whom hadn't seen each other for twenty five or thirty years or more. Basket lunches were brought by all and enjoyed fully.

Mrs. Callie Yates Acker was recognized as one of the earliest Sunday School teachers. Mrs. L. C. Potet was recognized as having the most members of her family present. Jim Clegg was recognized as the man coming from the greatest distance. He and his family came from Whittier, California. Mrs. Grace Potet Phillips coming from Oceanside, Calif., with her daughter Susie, was recognized as the woman coming the greatest distance. It was later noted that Mr. and Mrs. Billy J. Head were there from Portland, Oregon. Mrs. Nannie Kendall Williamson, of Rotan, and Reed Murphree of Arizona were recognized as some of the earliest school pupils in the communities.

People registering from far away places represented California, Oregon, Idaho, Arizona, New Mexico and Oklahoma. Town in Texas represented were: Jayton, Dimmit, Hermleigh, El Paso, Lubbock, Odonnell, Rotan, San Angelo, Spearman, Kermit, Snyder, Sweetwater, Rule, Winters, Post, Abilene, Childress, Quitaque, Duncanville, Hamlin, Plains, Burkett, Midland, Colorado City, Aspermont, Peacock, Clairemont, Roby, Electra.

Officers were elected for another reunion three years from now, which will be the 2nd Sunday in August 1968. Bill Hudnall was chosen as President, Mrs. J. F. Clegg, Secretary and Mrs. Bill Hudnall as her assistant.

Once again we wish to thank the many local people that helped us make this an enjoyable affair. We especially thank the ladies that brought the nice food that was enjoyed and appreciated. Also, Mrs. Mattie Blevins for the delicious peanut brittle. Our wish to you is good, good luck and Gods blessings. We hope to see all of you three years from now.

Safety In The Yard

What can be more enjoyable than sunning in the back yard with its flowers and greenery? And for children, the joy of running through the back yard sprinkler on a hot, summer day is one that may be remembered through adulthood.

But the same back yard, innocent as it may look, presents possible dangers, particularly to children. Sentry Insurance recommends that we safeguard our children—and ourselves—against these threats:

- Lawn tools should always be stored when not in use. A power mower is especially inviting for children to play with, and it's also especially dangerous. Rakes, hoes, spades and other similar tools can also be harmful when left lying outside.

- Garden plants, bulbs and seeds should be strictly "forbidden fruit" to children. While most children know that they can get sick from eating toadstools, and can develop a rash from poison ivy, few are aware of the lethal poison in the tulip bulb, foxglove leaf, potato sprout and the rhododendron. Even the lovely lily-of-the-valley, when eaten, is poisonous.

- Stings from bees, wasps, hornets and even the mosquito can produce violent reactions in highly allergic people. Last year more people died from insect stings than from snake bites. If a member of your family is bitten by an insect, and the bitten area swells rapidly, call your doctor immediately. Fortunately, many people allergic to these bites may be given immunization shots for precaution's sake.

**State CoOp Meeting
In Dallas Aug. 11-13**

A thousand rural leaders will concern themselves with "Helping Texas Grow" when they convene in Dallas August 11-13 for the statewide annual meeting of electric cooperatives.

Nearly two hundred of the delegates will wear badges of honor signifying their service to the rural electrification for 25 years or more. The meeting marks the 25th anniversary of Texas Electric Cooperatives Inc., statewide association of the 79 member owned rural electric systems serving in rural areas of all but eight counties of the state.

Featured speakers on the program include Secretary of Interior Stewart Udall, REA Administrator Norman Ciapp, former Texas Secretary of State Tom Reavely and the national president of the American Dairy Association, Troy Kern of Cooper, Texas.

A convention highlight will be the selection of the 1966 Miss Texas Rural Electrification. She will be chosen from among five finalists Thursday evening, August 12, at the Sheraton-Dallas Hotel. Winner of the Texas title will vie for the national crown in Las Vegas early next year.

The meeting opens on Wednesday, August 11, with all day sessions for cooperative attorneys and members service advisors in addition to committee meetings. The first general session on Thursday will be opened by the Rural Minister of the Year, the Reverend Raymond Wolf, pastor of Emmanuel Lutheran Church at Knippa.

Edward Marcus, executive vice-president of Neiman-Marcus, will welcome the delegates to the city. Marcus is also chairman of the Texas Partners of the Alliance, an

adjunct of the Alliance for Progress program in which Texas rural electric systems are interested.

Competing for the title of Miss Texas Rural Electrification will be Donna Kay Perry of Shallowater, representing South Plains Electric Cooperative at Lubbock; Cheryl Beck of Talpa, sponsored by several West Texas cooperatives; Annette McDonald, Keller, Tri-County Electric Cooperative at Azle; Sandy Criswell from Sheridan, San Bernard Electric Cooperative, Bellville;

and Jan Brown, Harper, who represent Central Texas Electric Cooperative, Fredericksburg.

Managers of two rural electric systems who retired in the past years will be cited for their service. They are Raymond Perdue of Lone

Wolf EC at Colorado City and W. R. Barron, former manager of Robertson Electric Cooperative at Franklin.

Rural leaders will be special guests of the convention. They include Mrs. Doris Joiner, D. Leon, presi-

dent of the Young Homemakers of Texas; Kenton Harvey of Azle, Young Farmers of Texas president; Miss Deborah Richman, Scurry corresponding secretary of the Future Homemakers of America, Texas Association; state Future Farmers of

Each day we do something toward the making of habits and habits become our binding ways of life. Even the morning cup of coffee becomes a demand... punishing with headache the woman or man who omits it. Little by little we fashion our characters, our persons, our habits. *He is wise who makes habits which keep his feet free to walk.* Self-indulgence, dissipation, prejudice, become entanglements of soul. But church going, good companionship, self discipline in personal conduct, will keep one's feet free for good walking. *The really free man lashes himself to the mast of good purpose. To love good robs evil of its power... attend church regularly.*

Emphysema - a word you scarcely heard 50 years or so ago - is a word you hear more and more frequently today.

One reason is, whereas few people had the disease then, many are being diagnosed with it today. Just in the last ten years, deaths from this disease have increased six times over. More than 10,000 die from it every year.

Emphysema - pronounced em-fih-SEE-ma - is a serious disease causing the lungs to become greatly enlarged. Actually, it is derived from a Greek word meaning "inflation." Simply speaking, this is what happens when a person has emphysema. His lungs, which normally contract and expand - inhaling and exhaling air - begin to lose their elasticity. When this happens, air cannot be completely expelled and some of it remains in the lungs.

Emphysema may begin with only a slight morning and evening inconvenience in breathing. Next, a short walk may be enough to bring on an attack of breathlessness. As the disease progresses, the person works harder to inhale air. The lungs may become overstretched, at the same time becoming less efficient in exchanging oxygen for carbon dioxide.

Unless promptly treated, the lungs may be permanently damaged. A day-in, day-out struggle to keep the lungs working can develop, every breath requiring a major effort. The ultimate hazard of emphysema, however, is the extra

load it puts on the heart, which is required to pump harder and harder. Is emphysema a "catching" disease? The cause of this disease is not fully understood, but many different things are believed to contribute to its development. These include chronic bronchitis, severe whooping cough early in life, allergic asthma, repeated pneumonia, air pollution and smoking.

At the present time, emphysema is the most common chronic disease of the lungs. The best way to fight the disease is to prevent it by early diagnosis, by avoiding the causes of the disease wherever possible, and by proper care of other respiratory conditions when they occur.

Emphysema is a serious disease. It damages your lungs and it can damage your heart. If you have respiratory infections or troubles, see your doctor promptly.

Tech To Play Seven Home Games

Lubbock Aug. -- Texas Tech, for the first time since 1938, will play seven home football games this season.

Coach J. T. King could be pardoned for hoping that's an omen, for in 1938 Texas Tech enjoyed its only undefeated football season and wound up in the Cotton Bowl.

But a glance at the schedule shows that the Red Raiders will have to call on more than hope to come out on the plus side of the ledger, not to mention the almost-unprecedented perfect season.

University of Kansas, a Big Eight power, coached by former Tech assistant Jack Mitchell, could spoil things right off the bat. The Jayhawks open the season in a 7:30 p. m. contest in Jones Stadium Sept. 18.

Following a visit to Austin for Southwest Conference favorite Texas, Sept. 25, the Raiders play three home contests in a row - Texas A&M Oct. 2, Texas Christian Oct. 9, and Oklahoma State, another Big Eight foe Oct. 16. All are at night.

Southern Methodist will be played at Dallas before the Raiders conclude their home stand with another trio of games - with Rice Oct. 30, New Mexico State Nov. 6, and Baylor Nov. 13. Rice, homecoming, will be in the afternoon, at 2 p. m., as will Baylor.

To finish the season, the Raiders run up against University of Arkansas at the Razorbacks' homecoming, in a regionally televised game Nov. 20.

Season tickets for Texas Tech's seven home games may be purchased from the Athletic Department for \$35, \$38.50, \$42, and \$49. Mail orders should include a 50-cent mailing fee. Individual game tickets cost \$5, \$5.50, \$6, and \$7. Orders for individual games are being accepted now but will not be filled until September, to give priority to season ticket purchasers.
