SS Payments Are Heavy In County

991 people in Fisher County remanager in Abilene, revealed today, an increase of \$98,304 and 73 people over 1964.

A large part of the increase in payments resulted from changes made by the Social Security Amendments of 1965, Tuley said. Those changes which were in addition to the new program of health insurance for the aged, included a 7% increase in monthly benefits reactoactive to January 1965; benefits for widows as early as 60; benefits for full-time students between 18 and 22; benefits for some people over 72 who hadn't worked long enough to get social security before; and the payment of disability insurance benefits to workers who are unable to work because of a disability that lasts 12 months or more.

"In addition," Tuley continued, "a good many older people, upon applying for Medicare, found they were ole for regular social security

Speaker will be Dr. Francis Gregory, assistant director for Manpower Devlopment, U. S. Department of Labor. The candidate is the son of Mr.

and Mrs. Moses Madison York, of Rotan.

Baccalaureate services will be at 10:00 a. m. on Sunday, May 29, with Dr. E. C. Rowand as guest speaker. He is pastor of Central Christian Church of Dallas.

Authority Gives Rabies Information

In order to better understand the disease we know as rabies it is important to correct some of the more common misconceptions, according to Dr. V. H. Driscoll of Wharton, a practioner in that area of the State and a member of the Texas Veterinary Medical Association Public Information Committee. Few diseases have been recognized for a longer period of time nor have: been more misunderstood than rabies.

"This is not a disease confined to our canine population but includes other domestic pets and all warm blooded animals as well. This disease is not, as is the common belief, a seansonal problem. In fact the disease in Texas occurs more frequently in the winter and spring than in the summer and fall. Symptoms of the disease are not always expressed in violent and viscious actions. Indeed any change from the animal bite is the best first aid is sometimes the first observed

symptoms. Since rabies is a disease of the central nervous system it is commonly confused with many other conditions. Definite diagnosis is usually impossible until pathological studies are made of the brain tissues. The appearances of inclusion bodies that enable diagnosis to be renderd does not occur until the disease has run its course and the

Which raises the queston of how The seriousness of this disease usual antiseptics in the event of an suspected of having rabies the place household pets."

Meet the "Hot Stick" brigade

In spite of improvements, service interruptions are at an absolute minimum in the territory served by MIDWEST ELEC-TRIC COOPERATIVE. Expert cooperative electricians use "hot sticks" to transfer high tension lines from one pole to another without interrupting service. In some instances, bucket trucks allow the lineman to handle these "hot" wires with gloved hands. Constant system improvements, continual upgrading of service with no interruptions . . . these are the aims of the electric cooperative crews.

Gamma Tau Chapter of Delta Kappa Gamma met recently in the Club room of the County-City Library in Sweetwater.

An impressive candle light service was held as Mrs. Joe Benson, president, installed the new officers for the 1966-1968 biennium. Taking office were Mrs. Whit Clark, president; Louise Bollinger, first vicepresident; Helen Etheredge, secondvice-president; Katie Lou Walker, recording secretary; Mrs. Ralph South, corresponding secretary; Mrs. Robert Phillips, treasurer.

In a tribute to Founders of Delta Kappa Gamma, Mrs. T. E. Knapp sketched the life and accomplishments of Annie Webb Blanton. Other Founders were portrayed by Mrs. Herman Phillips, Mrs. Aleta Pinnell, Mrs. Robert Higgins, Mrs. De-Wanyne Wilson, and Helen Etheredge.

Mrs. J. R. Strayhorn briefly traced the history of Gammau Tau Chapter since its organization 25 years ago.

Miss Bollinger, chairman of Committee on Achievement, paid tribute to members who this past year have shown outstanding creativity in various fields. The outstanding program, "Say It with Music," a tribute to its coordinator. Mrs. Bart Strayhorn. Others included Mrs. Frank Davis, originally in "notes"; Delila Baird, chairman of Table Decorations, and leathercraft for speaker's gift for the April meeting; Faye Rhea, Helen Etheredge, Janette Marbut, St. Patrick's Day decora-

tions, also place cards for the April Meeting; Melba McCall, Christmas Party Decorations, favors, and dinner.

Higgins and Wilson served punch, cookies and nuts to Mrs. Earlene Kelley, a guest, and members Mrs. Oddis Brown of Roby, Miss Delila Baird, Mmes. Whit Clark, James B. Day, M. T. Hill, Charles McCall, K. C. McCasland, Wendel Morrow, J. R. Strayhorn, and C. E. Leon of Rotan. From Sweetwater, Mmes. Co. Program Building Committee Met May 10

The spring meeting of the Fisher County Program Building Committee was held Tuesday evenng, May 10, at the Agriculture building in Roby.

The vice-chairman, James Cave, presided in the absence of chairman, W. P. Schubert.

In reporting for the crops' committee James Norman stated that a number of the committee plans have been carried out or are in the making for the near future. A tour to observe small grain demonstrations was set up for May 19 with James Mulky of the extension department conducting the tour, program.

Another project is a cotton fertilizer demonstration that has been set up on the Timmons farm south of Roby.

Also there has been a meeting set for May 27 on pecans with the horticultur specialist from A& M giving demonstrations on grafting and budding and other valuable information on growing pecans.

Mrs. Alice Ballenger reported on some of the women's programs that have been done this far. She stated that she, in cooperation with the local school homemaking teacher, has assisted low-income families in the county by teaching them how to use the commodities they receive to more advantage and by giving them other useful information. She and Miss Hambright will hold a workshop with the colored women in the near future.

Three drapery workshops have been conducted with women from all over the county.

4-H work is progressing in the county with as many as 9 adult leaders actively working with clubs. George Dorman and Milburn Cook of the technical action panel discussed as one of their greatest problems, the prevent of wind erosion on diverted acres. Some sort of cover crops and residues must be used.

A few plans for '67 were discussed. A tentative appointment has been made with Mr. Charles Baker to conduct some short-courses to help small rural business and all people involved in agri-business. A workshop on parliamentary proceduce was also suggested. The committee will meet again in September and our county agents urge that more people from all over the county meet and offer their suggestions so that more and better programs of all types can be worked out.

with by the Congress during this Session still lie ahead. Committee work has been completed on many major bills and debate will be scheduled shortly.

Aside from Legislation are many other concerns such as the progress of the war in Viet Nam, a worsening of our balance of payments, continuing inflation, and a shortage of labor and materials for certain essential production.

nents, after a year's improvement a eversal has set in. While the farmer and agriculture generally have been charged with a high percentage of the cause of inflation, farm ex-

hey otherwise would have been. We paid for farm imports in a very important way. It can be considerably more if the Government will quit tampening and hindering the process. In a number of industries a real shortage of labor is showing up. Over-all unemployment figures are the lowest in 12 years. Scarce skills are even lower. At the same time, gislature is now pending to Fedralze the Unemployment Insurance Program to the point of giving inentive not to work. Under these conditions there seemngly is no great effort to reduce rograms which simply create jobs ut add nothing to the output of seful goods and services. A part of this picture is the coniued high government spending whih could have no other effect than a contribute inflationary trends. This, coupled with the cost of the Viet Nam operations, which actually nave not hit the blood stream of our conomy as yet, means that further cost rises are bound to occur. Under hese conditions a tax increase may be recommended as one way to siphon off surplus money. One would think it would be considerably better to treat the disease when we clearly see it coming on than to deal with the symptoms after the patient is bedridden. Once again, people 65 and over are reminded that May 31, 1966 is the closing date for enrollment in the Medicare Voluntary Insurance Plan. It will be recalled that the original deadline of last March 31 was extended for another two months. In that extension, according to the Social Security Administration, about 400,000 enrolled. The Administration further reports that 90 percent of our older Americans have signed up for the Program, which amounts to 17.2 million people. Beginning in July who have chosen to pay \$3 a month will receive certain protection against the cost of medical cane for the rest of their lives. There are some who have not yet made their decision and who should do so right away, since, under pre-

No Vacation From Voting

"Summer soldiers" and "sunshine patriots" threaten to dictat : the election results June 4 by their conspicious absence from the polls. A poor voter turnout could mean that a very small minority of Texas citizens choose the candidates who will be governing all the citizens. The June primary falls in vacation season and lots of voters may take a vacation from their duty as citizens as well as from their work. Absentee voting for the second primary begins May 25 and continues through May 31, but the Memorial Day Week-end takes out one work-day at the courthouses where the county clerks will handle absentee ballots. Persons living within county seat towns who want to vote absentee must go in person to the clerk's office to do so, and can vote only on May 25, 26, 27 and 31 since the offices will be closed Saturday, Sunday and Monday.

Mail applications for absentee ballots from residents outside the county seat must be received in the clerk's office by 5 p. m. May 31. Abentee voting for the scond primary begun May 25 and continues through May 31. It can be done in person or by mail through the county clerk's office.

An exhortation to vote merely for the sake of voting is inadequate. It needs to be amplified with the reminder that voters should thought fully consder the candidtes and the issues and cast an intelligent vote. Fisher County voters will face a very short ballot, but it is still important to voice your choice. One state race, Attorney General, with Franklin Spears of Bexar Coun-

ty and Crawford Martin of Hill County.

Only local race is for District Clerk and names appear on the ballot in this order; Nealy A. Morton nad Pearl M. Hughey.

To the Patrons of the

Rotan Independent School District

The School Board feels that the present high school build-ing (which was built in 1925) is inadequate and proposes the building of a new one. This proposed building would be located on present school property and would be designed along with a new auditorium and gymnasium to make the Rotan campus a unitized whole.

In order for this type of unit construction to be carried out, the issuance of bonds would be necessary.

We feel that the District is in good financial shape and the erection of the cafeteria, the addition to the Primary building, and major improvements in the athletic plant, all without additional taxation, indicate the soundness of the financial policies of the Administration.

At the present time this District contains approximately one-half of the total scholastics of the four districts in the county. It has much less than the legal limit for bonded indebtedness. The District has a very well rated evaluation. In view of these facts, the Board is unanimously opposed to consolidation.

RUIEDUUR-FAITERRS FUR PRUSRESS

ECONOMIC DEVELOPMENT .. its benefit to you

Economic development means developing all of the basic economic resources of a community or area to their fullest potentials, creating new wealth in the area and attracting wealth from outside the area. It CAUSES a higher standard of living for all of the people, making the community a better place to live, work and play. It PROVIDES improved community facilities, increases job opportunities, especially for the young people, and attracts new people to the town.

FIVE BASIC SOURCES FOR ECONOMIC IMPROVEMENT

- -INDUSTRY-creates new jobs, utilizing and increasing the labor force's value to the community plus helping to share the tax burden for improved community facilities.
- -TOURISM-adds wealth to the community that was created outside of the area, and makes a favorable impression on tourists as a good place to live. Tourists' dollars circulate many times within a community.
- -AGRICULTURE-improvement of product yields and quality of products produced plus further processing of the products can add greatly to the economy of an area.
- -NATURAL RESOURCES-developed in an area change and increase the wealth as well as providing job opportunities. Depletion of the natural resources can cause adverse effects on the economy.
- -GOVERNMENT-local, state and federal institutions and agencies keep tax money in the area and in some cases, bring in additional wealth from the outside.

An object of a sound economic development program is to balance the economy of a community or area from all five sources. AT-TENTION and EFFORT should be given to the ones which present the best possible chances for economic development and improvement. Attracting new industries, or the expansion of existing industries, usually provide an excellent opportunity for economic. development.

Ask your WTU local manager for additional information and services available.

Light was the first thing God created? "Woe to those who put light for darkness and darkness for light," Isaiah 5:20. Jesus said, "I am the light of the world, he who follows me shall not walk in darkness," Matt. 5:7. A great statesman said guidance for America was not in the state house, or the court house. or the counting house, not even in the school house, but in the Church House. Bad men are not wise men. Atheists and scoffers at church and reliaion are ignorant men. Light reveals . . . it shows the difference. What sunlight is to the body, God and the Bible are to the mind. Is your soul facing God's light? Are You Out of the Darkness?
