Katy Files to Abandon Waco-Stamford Line

According to daily press releases the Missouri-Kansas-Texas Railroad has filed an application with the Interstate Commerce Commission in Washington, D. C., for permission to abandon its line from Bellmead, near Waco, to Stamford.

The abandonment would mean the ceasing of operations by Texas Central Railroad, an MKT affiliate. The line is about 220 miles long, extending through McLennan, Hill, Bosque, Hamilton, Erath, Comanche, Eastland, Callahan, Shackelford and Jones Counties.

In its original announcement several months ago, the railroad indicated that the tracks from Stamford to Rotan also would be abandoned.

Since then, Katy reportedly has agreed to continue operating this section, principally to serve the National Gypsum Plant here, through an arrangement with the Burlington Lines, which operates the Wichita Valley Railroad from Wichita Falls to Abilene. It is understood that Katy crews would operate trains to Rotan, using the Burlington tracks from Stamford, eventually connecting with the Katy at Wichita Falls.

No date for abandoning the Stamford-Bellmead line has been announced.

Rotan would not be affected by this change, if the railroad takes care of National Gypsum, and it is hoped improvement of the track to Stamford will be improved.

Leon Helm Is State Skeet Singles Champ

Leon Helm of Amarillo won Texas State Singles Championship Skeet Shoot at Amarillo. He formerly lived here and is son of Mr. and Mrs. Tommy Helm. The following article from Amarillo Daily News is by Jim Thomas sports writer:

"I'll admit that nine times out of 10, I'd lose to Gravestock but this time I felt like I could beat him." That was the way Leon Helm described his feelings after he won a hotly contested shoot-off with Larry Gravestock of Wichita Falls for the Texas State Singles Championship at the state shoot at Amarillo Gun Club last weekend.

When Helm stepped up to the line his thoughts followed a single path: "Break the bird I've got to break this bird." Recently of Hereford and the Hereford Gun Club, Helm now lives in Amarillo and is a steady shooter at the Amarillo Gun Club. New to the trapshooting circles, he had been aiming at clay targets only 18 months—long enough to break 199 of 200 birds in a fierce Panhandle wind and enough to outlast the fabulous Gravestock in a tense shoot-off.

I sat Helm down in the big middle of the near-hysterical crowd at the Amarillo Gun Club during the state shoot and questioned him. He searched for words that would describe his feelings without braggadocio.

"I credit all my shooting ability to hunting quail and dove with my dad. That's where I really learned to shoot.

"I hope this doesn't sound silly but I take one bird at a time and concentrate on it. I don't think about the 100. I think about the 25 birds ahead. I eliminate that 25 down to the first five at the station. Then I think no further than the next bird—one at a time.

"Sometimes I concentrate so hard I forget if I've reloaded my gun. I often have to look to make sure.

"On each bird I look straight ahead, try not to hear any background noise. If the guy next to me misses, I try not to notice. Before I shoot, I try to tell myself, 'I've got to get this one.' I've got to get this one, whether it's the first bird or the 200th."

Helm, a big man with deep set pale blue eyes, says he is never surprised at his score because he doesn't keep track.

Facing a big shoot, he doesn't talk to anyone or let them talk to him—not even his wife. Between rounds, he sat in the car with her, "but we didn't talk of scores."

"It really helped to have a good squad. They shot with the same rhythm, there wasn't any excessive talking or noise. They knew I was shooting good and they didn't say a thing," Helm said.

He said the shoot-off with Gravestock held no special nerve problems for him. "I had the same feelings as in the main event."

Asked if Gravestock's reputation as an unbeatable shooter caused him any anxious moments, Helm

Callan Hospital Is Certified For Medicare

Callan Hospital of Rotan has been notified by the Social Security Administration that it meets the requirements for certification under the Hospital Insurance Program, commonly known as "Medicare."

George McDonald, hospital administrator, said notice of the certification was received last week and that the hospital staff would be happy to cooperate with the government in carrying out this program of assistance to our elderly citizens who need medical care.

Under this program, the beneficiary has to pay the first \$40.00 of hospital care during each spell of sickness and the first \$50.00 for doctor's care. It is important that each patient keep a record of his expenses until these deductibles are met, in order to receive the full benefit from the program which will begin July 1.

'Fogging' Is Helping Mosquito Problem

City crews have been 'fogging' the town this week in an effort to control mosquitoes and flies. Mosquitoes have become very prolific since the rains and are a health problem.

All alleys and streets are being fogged and the work will continue until the problem is under control.

Community Singing At Four Square Church

A Community Singing will be held Sunday July 3 from 2 to 4 p. m. at Four Square Church, 8th and Genevieve sts.

The auditorium will be comfortable and plenty of ice water.

Local quartets will participate, and lovers of good singing are assured of a refreshing occasion.

Elmer Price had surgery on his hip Tuesday morning at Callan hospital, and is doing nicely.

Mrs. T. A. Smith of Dallas visited her mother, Mrs. E. E. Patterson from Tuesday until Friday of last week.

He said he knew the Wichita Falls shooter by name and knew he was good but it didn't seem to bother him.

"I felt so good I could have shot a thousand targets without a miss" he said.

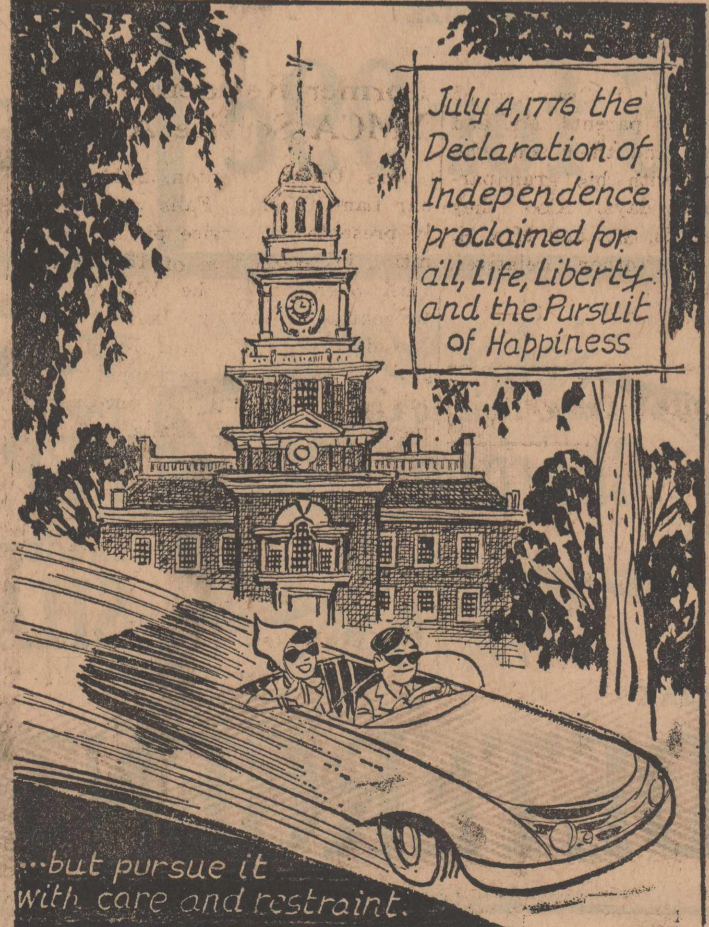

Helm dropped his 138th bird in the main event with Gravestock. I asked the new state singles champ if that didn't give him a twinge of doubt and shake his confidence a little.

"That was the hardest part of all—to put that miss out of my mind. When I dropped that bird I had to push it out of my mind and break the next 12 birds," he said.

He broke the next 12—and 25 more in the shoot-off. Helm shoots a trap grade Model 12 Winchester.

As state champ, Helms was presented with set of sterling silver and a sterling bon-bon dish.

NEW PERSPECTIVE

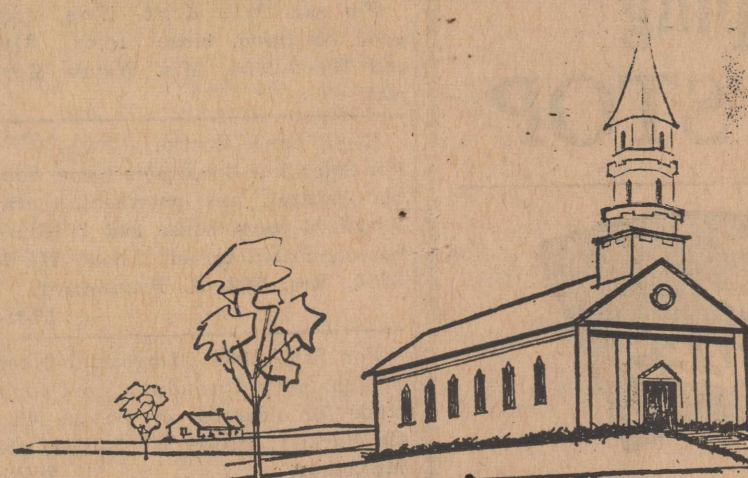

She went up and up. "Again, Daddy, again," until from her great height she looked down on a strangely distorted scene. Daddy was different from the top. Mommy was little and far away. Even the familiar old tree had hidden its friendly trunk and she caught her breath with a thrill of the unknown. I saw her expression change and suddenly there was a cry tinged with fear, "Don't Daddy!"

I dropped back while the swing slowed down. She tumbled out of the swing into my arms and I realized that there was a vast and unfamiliar world ahead for my child, with many distorted themes. I looked across the house tops to a church spire and thanked God for a foundation of faith... to guide her through the uncertainties ahead.

THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

'As It Looks From Here'

Omar Burleson, M. C.
17th District, Texas

Washington, D. C.—Great Moments In American History: Columbus refuses to turn back. The Mayflower lands at Plymouth Rock. A settlement starts on the James River. The Colonies break with England. 'Tis the "Star Spangled Banner." The defenders of the Alamo answer Santa Anna. Our flag is raised over Alaska. Gold seekers rush to California. American women get the right to vote. An American walks in space around the earth.

On July 4, 1776, America declared its independence from the British Crown. Of all events affecting our Nation, this is the greatest.

The Central Eastern Seaboard of our County, of which Washington is the center, is full of history and historical reminders.

From the Crest of the Blue Ridge Mountains to Gettysburg, to Philadelphia, to the Capitol in Washington, Virginia and Chesapeake Bay, is history itself—Jamestown, Williamsburg in Virginia, and Fort McHenry at Baltimore.

On the night of September 13, 1814, Francis Scott Key, whose home stands on the District of Columbia side of the Potomac River bridge named after him, wrote the "Star Spangled Banner." Our Flag and the song it inspired are inseparably woven into the American fiber. It was the Garrison Flag of Fort McHenry, still flying defiantly after 25 hours of bombardment of the Baltimore fortress by the British, which led Francis Scott Key to write the poem, since set to music, that is now our National Anthem.

As a young Washington Lawyer, Francis Scott Key had sailed under a flag of truce to the British Fleet in the Chesapeake Bay. His mission was for the release of a friend, Dr. William Beanes, who had been captured by the British after burning the Capitol and the White House. Although Beanes was released, the truce team headed by Mr. Key was detained by the British during the attack on Fort McHenry in Baltimore.

In his anxiety for the Outcome of the Battle, Key remained on the ship's deck all night. When "by

the dawn's early light" he saw the Flag waving, his pent up emotions gave way and he expressed himself in the immortal lines.

The Report Goes That He was Unable to put all his thoughts on paper during those turbulent moments but finished that night when he had safely returned to Baltimore.

A Few Days Later, Without Title or the Author's name, it was printed in handbill form and distributed on the streets in the shops and hotel lobbies.

Soon The Lines Were Being Sung To The tune of an English ballad popular at the time. Its name, "To Anacron in Heaven." Slowly the song grew in popular affection, and in 1931, President Hoover signed the bill making it our official National Anthem.

The Original Manuscript of "The Star Spangled Banner" is enshrined in the Maryland Historical Society in Baltimore, which paid \$26,400 for it. It was purchased from the estate of a Henry Walters, a citizen of Baltimore. The huge original Fort McHenry Flag, which measures 42 by 30 feet, is displayed in the new Museum of History and Technology in Washington, D. C. and Fort McHenry is a National Shrine.

To remember and appreciate these incidents of our heritage is to exercise our patriotism.

On This Fourth of July We Might Remember Too how Daniel Webster described our Constitutional Government, "A more glorious edifice than Greece or Rome ever knew."

Peggy Coffman's Texas Trip Told To HD Club

"See Texas First" said Peggy Coffman, Rotan 4-H girl, to the Rotan Home Demonstration Club, which met in the home of Mrs. Pearl Cooper, recently.

Vacation by bus, train or car, Texas has beautiful scenery. She began her trip at Spearman with a visit to the Mule Rolling Train. Then to Palo Duro Canyon and Panhandle Plains Museum at Canyon. Raise In Auto Insurance Rates Is Expected

The average motorist in Fisher County will pay \$4 more for automobile insurance if the proposed change in rates is made by the State Board of Insurance, according to the Southwestern Insurance Information Service of Dallas.

Present cost of insurance on a new Ford or Chevrolet private passenger car driven to and from work and not driven by a male under 25 years of age is \$138. The new cost would be \$142. This includes basic liability coverage of \$10,000 for injury or loss of life of one person, \$20,000 for two, and \$5,000 property damage; \$100 deductible collision; and full coverage comprehensive insurance.

Under the new rates, motorists would pay \$1 more for bodily injury and property damage liability and \$5 more for comprehensive. But the cost of \$100 deductible collision would be reduced \$2.

Cost for the same coverage but with \$50 deductible collision would be increased \$4, from \$151 to \$155. Other types and older cars would have different rates. Texas has 26 rating territories and eight automobile classifications. The cost estimates given are for cars in classification 1B, which includes about half of the private automobiles in Texas.

For cars in this classification and insured under \$100 deductible collision policies, insurance would cost less in nine territories and remain unchanged in two. Costs for \$50 deductible policies would be lowered in seven territories and unchanged in one.

Even with the rate increases, Texas would rank about 30th among the stats in the cost of automobile insurance to policyholders.

DPS Predicts Heavy Holiday Traffic Toll

AUSTIN--The Director of the Texas Department of Public Safety today reported that DPS estimates indicate that 31 persons will die in traffic accidents during the three-day Fourth of July holiday, and cited incidents from last year's Independence Day holiday as examples of how these mishaps might occur.
Col. Homer Garrison, Jr., DPS director, said the estimate was compiled by the DPS Statistical Services on the basis of past experience and the current trend of traffic deaths. Last year, 28 persons lost their lives in traffic accidents during the holiday period.

"On the first day of last year's holiday period," Garrison said, "a speeding driver lost control of his car and struck a guard rail. His car flipped high into the air and landed upside down. A passenger was killed."

"In another accident, a car pulled over from a country road onto a major highway, directly into the path of an oncoming truck. The truck skidded 134 feet but couldn't stop in time. The driver of the car was killed."

"In still a third fatal accident, one car attempted to pass another on the right hand side. The car in front moved to the right, causing the passenger to swerve, lost control and overturn. One person was killed, one was injured."

"Our files contain the details of

each tragedy," he continued, "and each of them is made even more tragic by the fact that, with proper awareness, they could have possibly been avoided."

Garrison pointed out that the responsibility for avoiding an accident rests with each individual driver.

"Most drivers are basically good drivers," he said. "But too often even the best driver lets his attention wander . . . and lack of attention to one's driving can be a fatal fault . . . for instance, last year one man was driving a car with five children as passengers. He entered a curve too fast, hit his brakes and lost control of his car. The vehicle overturned, killing one of the children."

To focus attention on the added dangers of holiday travel and the need for awareness while driving the DPS will conduct "Operation Motorcade" during the holiday period. From 12:01 a. m., Saturday, July 2, through 11:59 p. m., Monday, July 4, traffic fatalities will be tabulated by the Department and the totals will be announced officially three times daily as a means of keeping safety uppermost in the minds of the motoring public.

"If each driver will assume an attitude of watchfulness and awareness toward the actions of other drivers," Garrison said, "the number of accidents can be materially reduced. Paying attention could well make the difference of a split-second between a near-miss and a fatal crash."

As a part of the DPS' operation,

The Rotan Advance

calling for maximum enforcement and public support, additional personnel from other uniformed services of the DPS will augment the regular Highway Patrol force.

In addition, Garrison added, numerous agencies, organizations and individuals will help in the coordinated program to cut down on traffic accidents by taking part in the "Operation Motorcade."

The Texas Council of Safety Supervisors and the Texas Motor Transportation Association will conduct a "Holiday Road Patrol" in which a fleet of 35 to 40 cars will be used over the state to assist stranded motorists, thus relieving highway patrolmen for enforcement work.

The Texas Safety Association will stress the need for awareness and acceptance of responsibility on the road, and will coordinate local safety council holiday safety programs calling for cooperation with law enforcement officials to cut down on the number of traffic deaths.

The Texas Highway Department will conduct an information and education program stressing the need for caution in and around construction areas and on freeways. They will utilize special area construction maps and bulletins to warn drivers of hazardous conditions in specific areas.

FB Plans European Market Trip

Waco (Spl)—The Texas Farm Bureau will conduct a second Agricultural Market Builder tour of Europe Sept. 15-29, according to Walter Meyer, Waco, Farm Bureau director of trade development.

The TFB-sponsored tour will include sight-seeing and marketing activities in seven countries in Europe—England, Holland, Belgium, Luxembourg, Germany, Switzerland and France. At the end of the original tour, tours will be available on an option basis to Scandinavia, Spain and Portugal, and Italy. Tour members may choose to take a special one-day excursion to Berlin.

Tour members will meet with farm groups and visit farming operations in the various countries as well as the traditional scenic attractions. They will visit some of the famous places of the world—including Smithfield and Covent Garden in London, and the Grosse-market in Frankfurt.

More than 40 persons have already signed up for the two week tour. According to Meyer, there is still space for some 50 persons on the tour. For those who are interested in details of the trip a request for a brochure should be mailed to Walter Meyer, Texas Farm Bureau, P. O. Box 489, Waco.

The Market Builder tour drew this comment from Governor John Connally.

"As your Governor, it gives me pleasure to see the largest general organization of farmers in this state embarking on a second Agricultural Marketing tour. First and foremost, you are building friends for Texas. New markets will naturally follow if we will but use the same principles that have made our state the number one exporter of farm products in the nation."

"Of course Western Europe knows of our cotton, wheat and feed grain. But it needs to learn about our canned and frozen food products, our poultry and turkey, winter vegetables, melons, citrus, flax, beef, pecans, peanuts, seeds and feed products, just to mention a few."

"My I urge you—the farmer, the rancher, the agricultural businessman to take advantage of this opportunity to promote an appreciation of Texas and its many fine products to our neighbors in Europe."
