### Hiway Dept. Using Color Posters

Austin, Texas — An old Chinese proverb says that one picture is worth a thousand words.

The Texas Highway Department believes it, and proved it today with the release of a set of spectacular new color posters to help tell the story of Texas' varied attractions.

The Highway Department expects the new posters will be valuable additions to its comprehensive line-up of Texas travel material.

Although they will not be available to individuals for personal use, the posters will be supplied free for display in airline, train and bus terminals, in the offices of travel agents, and at the sites of conventions and expositions where the impressive Texas vistas will be exposed to large numbers of passers-by.

The new posters depict color-saturated scenes at Caddo Lake State Park, an Indian at the Alabama-Coushatta Reservation, an auburn-haired Texas beauty inspecting richly-laden grapefruit trees in the Rio Grande Valley, and a glowing sunset on Texas' subtropical coast.

Along with those entirely new scenes, three popular earlier posters have been slightly revised and reprinted. They include the Alamo, a rodeo cowboy on a bucking horse, and magnificent Santa Elena Canyon in Big Bend National Park.

The seven newly-printed scenes will join two currently available posters which illustrate impressive El Capitan mountain in West Texas, and the sun drenched beach of Padre Island.

In all, the posters represent another facet of more than three and one-half million pieces of printed Texas travel material which the Highway Department distributes free each year.

**'As It Looks From Here'**

Omar Burleson, M. C.  
17th District, Texas

Washington, D.C. — The National Commission on Food Marketing has issued its report after about a year's study.

Bearing In Mind That Figures can prove about anything, the Commission's findings, although controversial, will hold a very great interest and will be the basis of considerable discussion in the future.

The Report Places Emphasis on the Farmer's Share of the consumer's dollar spent for food. The lengthy survey of the economics of food marketing which, from farmer through retailer, comprises the Nation's largest industry, concludes that farmers are not to blame for higher food prices.

It is Obvious that When the Housewife Buys a food product in the store she pays for all the services involved in producing, processing and distributing each item. Us-

ing figures for 1964, the Commission determined that consumer's expenditures for domestically produced farm food totaled \$69.8 billion. The marketing cost made up 68 percent of the food dollar for that year. The farm value was 32 percent.

The \$69.8 Billion Spent By Consumers in 1964 breaks down as follows:

Over-all marketing costs were \$47.3 billion, of which \$20.8 billion was for labor; \$5.1 billion for

**The Rotan Advance**

Thursday, July 21, 1966 No. 24

transportation; and \$18.7 billion is classed as "other" costs. (This last item includes such things as buildings and equipment, containers and supplies, advertising and promotion.) This leaves \$2.7 billion for corporation profit. The remainder of the total bill was \$22.5 billion, (the 32 percent for the producer.)

The Report itemizes the Different Commodities which have different cost spreads. For example, the farm share for butter is found to be approximately 70 percent because processing is relatively simple, transportation costs are low since the product is highly concentrated, and handling costs are moderate. By contrast, the farm share of the dollar spent for canned tomatoes is low, since 16 percent is charged to the high processing and container costs. A pound of choice beef retailing for 70.8c includes 17c for retailing, 2.3c for wholesaling, transportation and distribution costs, 5.3c for processing and 3.8c for "assembly" costs. For this one pound of beef, the farm value is found to be 42.4c.

For One Pound of White Bread Retailing At 20.7c, the breakdown is: retailing 3.7c, wholesaling, transportation and distribution 6.1c processing 6.7c, assembly .2c and farm value at 4c.

The Commission's Report States that although farm prices of a marketbasket of food were unchanged between 1950 and 1965, the farm-retail spread rose 37 percent and retail prices increased by 20 percent. The conclusion here is that farm efficiency has notably increased and, of course, continues to increase as larger units are operated. This means that the marginal farmers are being eliminated, but this is not particularly the point or concern of the Commission's report. It is a concern in the terms of their future in some other endeavor and their probable contribution to problems already acute in urban centers.

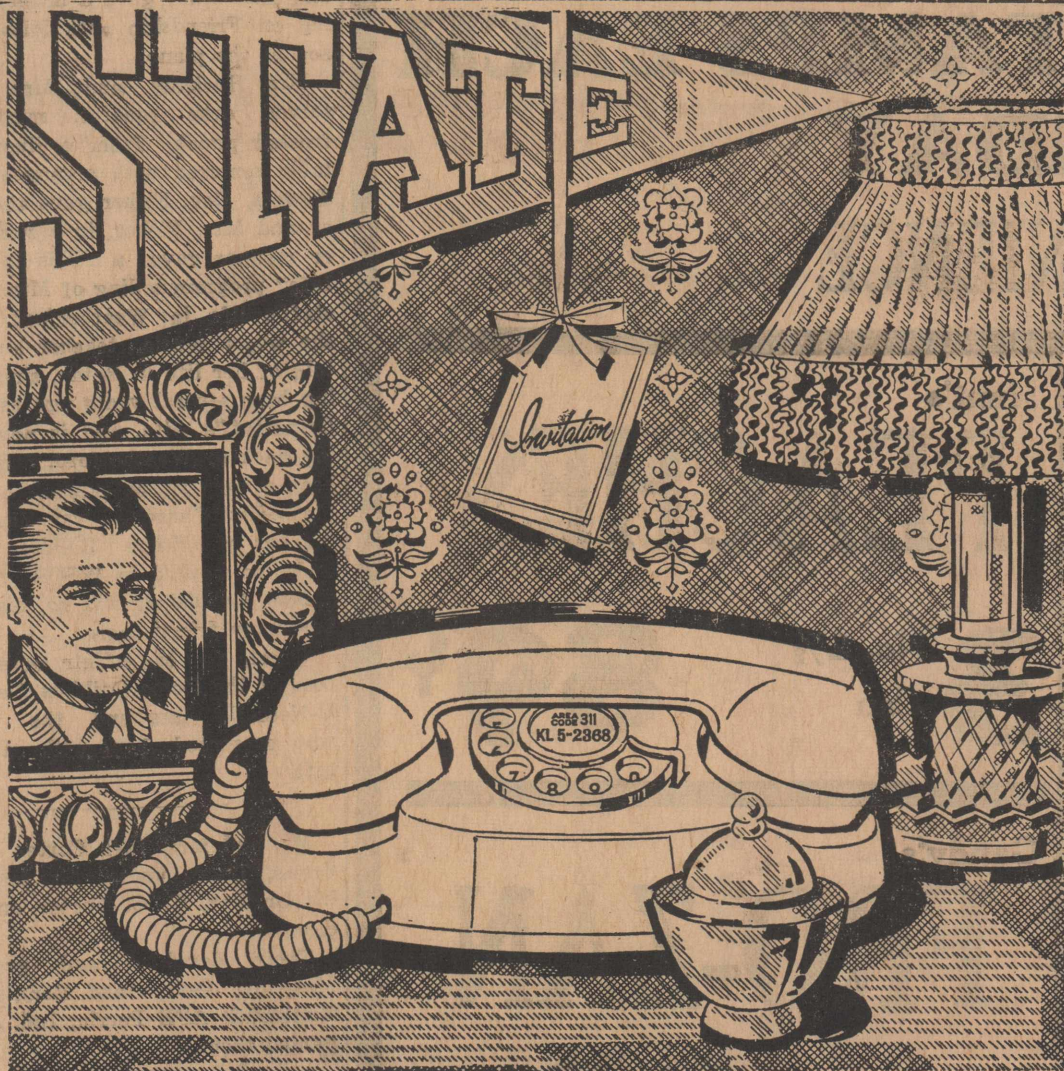

Following The Report of the National Commission on Food Marketing it is obvious that the producer of agriculture products, whether food or fiber, must continue his struggle to produce at a cheaper

unit cost if he is to receive his fair share of profits related to the cost of food from the grocer's shelf. This is to say, for instance, if cotton sold for 50c a pound, the percentage of the producer's profit would still be out of proportion to the price paid by the consumer if it cost him 44c to produce that pound of cotton.

It Might Help Us At Times To Remember: Not all men are equipped by nature to be great, but all have the capacity to be good.

**WO-HE-LO To Everybody!**

Dressed in her ceremonial Camp Fire Girls costume, Denae Kimball, of Houston, Texas, points to the spot where 1,000 teen-age Horizon Club girls will spend three weeks learning about our Latin American neighbors.

The Horizon Club Conference Afloat, first international sea and land conference of its kind sponsored by a national youth agency, was planned to give girls in the senior program of Camp Fire Girls an exposure to other cultures and experiences in sharing.

The Conference will combine the usual pleasurable aspects of a sea voyage with a full program of workshops and seminars to reinforce previous studies in the history, geography and culture of Latin America and the Spanish language.

At ports of call — San Juan, Puerto Rico, Cartagena, Columbia, and Kingston, Jamaica — the girls will meet government officials, visit girls' camps, rural communities, industrial plants and native homes, where several will spend time as house guests. The Horizon Club girls also plan to entertain their Latin-American counterparts aboard their ship, the M/S Aurelia.

The thousand girls, representing 35 states, have been working in after-school jobs for two years to defray most of the cost of the voyage. They will be accompanied by a professional staff of 100, including three chaplains.

"WO-HE-LO," — Work, Health, Love — is the watchword of the Camp Fire Girls organization.

### Mrs. Grindstaff Is Honoree At Church Affair Friday Afternoon

Hostesses for a surprise party honoring Mrs. H. F. Grindstaff in parlor of First Methodist Church Friday afternoon were, Mmes. Homer Aaron, J. W. Porter, Clarence Huckaby and Della Rives.

Mrs. Porter registered guests and Mrs. Aaron greeted them in the parlor. Miss Ann Tillotson and Miss Patricia Rily gave musical program, and Miss Riley gave a musical reading on Friendship with Miss Tillotson at the piano.

Mrs. Huckaby and Mrs. Rives served cake squares, mints and frosted punch from a linen laid table centered with arrangement of flowers. Rev. Fisher gave the prayer and Mrs. Fisher, in a very clever manner gave a "This Is Your Life" program telling of Mrs. Grindstaff's life in Weatherford, where she was a music teacher and then told of her life in Rotan, since coming here several years ago as Judge Grindstaff's wife, and is now moving back to Weatherford. She has been a very active member of First Methodist Church, was assistant teacher of Home Builders Class and also worked in WSCS program. Mrs. Grindstaff will be missed by her many friends here.

Guests for the affair were members of the Home Builders Class, the U-Need-Us class and the WSCS, who presented her with a lovely gift.

Mr. and Mrs. Jack Carter of Andrews, Texas, visited the family of his brother, C. C. Carter on Monday.

Their daughter and grandson, Mrs. Bill Pedigo and Ronnie from Bunkerhill AFB Perrin, Ind. accompanied them.

Mr. and Mrs. Truman (Vittitow and Janice of San Diego left Wednesday morning after visiting their parents here for several days. L. C. Vittitow and Mr. and Mrs. H. B. Campbell.

Mr. and Mrs. Murl McKinney Scott and Susie spent several days in Ruidoso this week.

Dr. Ewell Jenkins has been in Breckenridge Hospital in Austin for several days for treatment. He has been very ill.

**Little Zion Holds Bible School Com.**

On Friday evening, July 15, Commencement Exercises were held for Daily Vacation Bible School of Little Zion Baptist Church.

Mrs. Maggis Brooks, Principal, welcomed guests and expressed her thanks for the help of interested persons of the community. She then directed the exercises for the evening. Miss Josie Baird, Assistant Principal, gave the response to Mrs. Brooks "thank you". Mrs. J. R. Strayhorn, General Arrangements Chairman, recognized the following for their help in making the school a success.

Nursery-Beginner Dept. — Mrs. Pearl Powell, Supt.; Lou McCombs, Jeanie Moore, and Debbie Rains, G A girls, teachers; Primary Dept. — Karen and Kaye McKimney, GA girls and Mrs. W. B. McKimney, teachers and Supt. Junior Dept. — Mrs. Delfine Pascal, Supt.; Mrs. Alvin Harrell and Mrs. C. E. Leon, teachers; Intermediate Dept. — Mrs. C. Gray, Supt.; Mrs. Bobby Gruben, Mrs. John Denton, Mrs. Odell Rains, and Miss Jodie Thomson, teachers, Mrs. Rains also told the character story in general assembly each service. Lou McCombs was pianist for the week. Mr. Cliff Collins, Miss Lynda Powell, Donald Powell and Ross Bradley also assisted with the school.

Following the recognition of workers, Mrs. Strayhorn recognized the following groups and individuals who helped make the school possible by furnishing physical properties. Women's Mission and Bible Study Group of Rotan for materials for handwork, books for the school including teacher books to remain as permanent property of the church, furnishing refreshments one day, and serving refreshments at each morning session and the Commencement Reception. The refreshments Committee: Mrs. Luther Terrell, Chair.; Mrs. C. J. Dalton; Mrs. Hub Taggart; Mrs. Hughes. Others furnishing refreshments for one day: WMU of Cross Roads Baptist Church; Highland Home Baptist Church; J. D. Burk; and Mrs. Obed Hughes.

Special recognition was given Mr. and Mrs. Leslie Tonn who furnished materials for the Junior and Intermediate handwork; To Cross-Roads Church for several books; to Highland Home Church for the use of Projector, Flags and some books.

Superintendents of the various departments awarded certificates for attendance and good work in the school to the following.

Nursery Beginner — Charlot Beasher, David Black, Charles Collins, Jimmy Lee, Roger Hooper, Monica Lopus, Rena Lopus, Regena Pearson, Remona Pearson.

Primary — Esmeralda, Jerry Carr, Buddy Hooper, Susan Irvin, Ricky Lee, Gwen Pearson.

Junior — Willie Brown, Linda Joice Carr, Johnny Cliff Collins, Linda Gail Hooper, Toni June Irvin, Debra Lynn Lee.

Intermediate — Marilyn Carr, Shelia Dennis, Doris Jean Pearson, Judy Powell, Gloria Smith.

The joint effort of the people who worked together to make this school a success has been rewarded by strengthened friendship and understanding for both teachers and pupils attending. We feel that the Community as well as Little Zion Baptist Church has received lasting benefits from this work.

Rev. Doyle Morton and family spent Sunday night, Monday and Tuesday of last week, with Mr. and Mrs. Nealy Morton, Tuesday both families went to Utopia, spending three days there enjoying the nice shades of Sabinal River. Friday, Doyle and family went on to Beville, where Doyle is pastor of the First Methodist Church, and Mr. and Mrs. Nealy Morton went to Big Lake, visiting the Bob Sparks family, coming on home Saturday.

Mr. and Mrs. J. O. Hudnall, Mrs. Nath Underwood and Mrs. Guy Murphee visited Mr. and Mrs. Britton Lilly Sunday at Crowell.

They were joined there with other relatives from Burkett, Brownwood and San Antonio. Mrs. Lilly is an aunt of Mrs. Hudnall, Mrs. Underwood and Mrs. Murphee.

Steve Kelley, Fisher County Veteran Service Officer, is back on the job, regular days after several week treatment and examinations at WA Hospital, Big Spring and Hendrix Memorial Hospital, Abilene. His reports were all favorable.

Regina McArthur and Bruce Martin recently attended Camp Butman.

**Nash Miers Waited 40 Years To Cut Their Cake**

When Nash Miers and Bessie Louise Yates were married July 4th, 1926, forty years ago, it was a very quiet home affair. The ceremony was performed in Abilene, Texas, by a Baptist Minister, Dr. Burkett, with his wife as the only witness. This marriage was kept a secret for several months, because Bessie Louise had a job teaching school and married school teachers were forbidden in those days.

Some fifteen (15) years of married life on a McCauley farm where time was taken out from her teaching to raise a family of two children, Betty (Miers) Cox and Walter Nash. Along with the family, Nash began his Jersey herd, a hearts desire, which has matured on their Hobbs farm these twenty-four years. In more recent years Bessie Louise has taught school in Rotan (8 years) the remainder at Hobbs. She has also taught private piano lessons for many years.

Their son Walter is also associated with his Dad in the dairy business, and he is also a faculty member in Rotan Schools.

Betty is a teacher in Pampa schools. Since there had been no church wedding - no cake cutting, - no crowd of well-wishing friends and relatives, a surprise 40th Anniversary Affair was begun by Jimia Miers (daughter-in-law), The instigator, Betty (Miers) Cox and Mrs. J. B. Miers (Sue) of Hobbs Community. The Miers were spirited away, for a week-end to Stamford Lake, reluctant and protesting for leaving home, when they had planned the usual 4th of July celebration. Not only was this their Anniversary, but also Walter's birthday. Both Betty and Jimia had to be rather firm by saying, "Just this once, let us do something for you. We'll have everything ready when you get home Sunday." To be assured that all plans would go through, Glenn Cox, the son-in-law, whisked them away to the lake cabin of the Luther Maberry's who are life long friends of the pair.

Meanwhile things went fast in the Miers farm home. Walter and Jimia had to do emergency re-decorating in the living room while Betty assisted throughout the house. Concluding plans necessitated that Mr. and Mrs. Rudy Hamric, the Maberry daughter and (son-in-law), Betty and daughter, Diane, must attend a fish fry in the Maberry cabin. There were some 24 people enjoying this hospitality, including two Miers brothers, Wick and Buff and their families.

All plans began to unfold when the Lake Party arrived home, 12:30 p.m. Sunday to be greeted by friendly and house guests, Mr. and Mrs. Sim Reeves (a sister and brother-in-law) of Fort Stockton. The open house was listed on formal invitations for 3 to 6 p.m. but visiting went on until near ten o'clock. Some 125 friends and relatives came to be welcomed by Sue Miers at the door, receiving line, consisting of Bessie Louise, Nash, Betty, Walter and Glenn who directed each one to the registry (where Cheryl Cox, granddaughter and Vickie Barker (niece of Jimia) presided. Then came the attractive tea table containing traditional center piece and the long awaited Wedding

cake (a copied arrangement by Sue Miers.) Serving at the table were Jimia and Jamie (Miers) Clayton, a niece of Abilene. The couple's granddaughter, Diane Cox played selections on the organ during the afternoon. Also the honoree's Mother, Mrs. C. P. Yates of Hamlin said the good byes.

In keeping with the Ruby Red Wedding Anniversary, gifts were distributed in appropriate rooms. There the house party consisting of Mr. and Mrs. Roy Miers, Mr. and Mrs. Sim Reeve, Mr. and Mrs. George Dardin, Mr. and Mrs. Less McCombs, Mr. Rick Clayton, Mrs. Hester Hammit, and Mr. and Mrs. L. C. Yates, joined in the visitation.

County  
Agricultural Agent  
Texas A. & M. College  
Extension Service

"Truth" is the subject of the Bible Lesson - Sermon to be considered at all Christian Science services this Sunday. One of the central themes will be Jesus' parable of the sower whose seed fell by the wayside, on stony ground, and among choking thorns - "but other fell into good ground, and brought

forth fruit, some an hundredfold, some sixtyfold, some thirtyfold" (Matthew 13).

Related passages to be read from the denominational textbook, Science and Health with Key to the Scriptures by Mary Baker Eddy, will include these lines: "The spiritual sense of truth must be gained before Truth can be understood. This sense is assimilated only as we are honest, unselfish, loving, and meek. In the soil of an honest and good heart the seed must be sown; else it beareth not much fruit, for the swinish element in human nature uproots it."

Make an actual count of harmful

insects in your cotton to determine whether or not to spray. This eliminates guesswork and the hit-and-miss system of spraying.

If you find 15-20 of the same kind of insects per 100 stalks, the infestation is dangerous - and you should consider using an insecticide. The best way to sample a field is to count insects on 25 plants in 4 different sections of the field.

The most common insects to cotton and where to look for them are:

Fleahoppers - Inspect the cotton stalks from top to bottom. Look at the buds in particular for fleahoppers. They are about 1-8 inch long and pale green in color.

Bollworm or tobacco budworm - Look along the terminal leaves for signs of bollworm eggs and tiny worms. The eggs are about as large as the head of a common pin. They are white when first laid, turning light brown just before hatching. Be sure to look on the blooms for signs of the bollworm - their signs may show up anywhere up and down the stalk.

Boll Weevil - Look on the squares for punctures. The boll weevils puncture squares and bolls for feed or for egg laying. The mature weevil is about 1-4 inch long, grayish brown with a protruding snout containing the mouth.

Cotton leafworms and cabbage loopers - Both are light green in color. The cabbage looper has 3 rear legs. Look for both insects on the foliage of the cotton plant. Leafworms eat the leaves beginning at the outside and work in. Cabbage loopers begin inside and work toward the outside of the leaves.

It's a good idea to carry along a paper, divided into columns with the names of the various insects at the top when making the insect count.

For the right insecticide and dosage, ask for "Texas Guide for Controlling Cotton Insects," available free at the county agent's office.

Don't neglect your roses if you want flower production throughout the summer and fall.

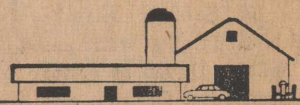

A disease and insect control program is a must. A preventive spray of folpet every 7 to 10 days will prevent blackspot and help control mildew.

An application of a complete fertilizer scattered over the surface of the rose every four weeks will insure continued growth and strong comes for late summer and fall flowers. The use of one to two pounds of 10-8-6 or 16-20-0 per 100 square feet of bed area is suggested.

To conserve moisture and reduce soil temperatures during the summer months, the county agent suggests the use of a two to three inch mulch of saw dust, shavings, pine straw, cotton burrs or other organic material. As the mulch decomposes, it should be replaced.

Precision Planted Cotton - Cotton planted at Texas A&M University with a precision planter on pre-shaped beds is off to a fine start. Lambert Wilkes, agricultural engineer, says it's from a fourth to a half higher and the stand much better than for adjacent cotton planted by conventional methods. It was up to a complete stand in 6 days compared with 14 for conventional planting.

## Windbreak Plantings To Be Available

College Station, Texas — Tree planters in 176 Texas counties last year planted 4.7 million tree seedlings which were distributed by the Texas Forest Service's Indian Mound Nursery near Alto, Texas, Mason Cloud, reforestation section head reported today.

Of the total seedlings sold, 4.5 million were Southern yellow pines - slash, loblolly and shortleaf. Thirteen other species, used mostly for windbreaks in Central and West Texas, accounted for 213,000 seedlings.

Four landowners in Newton County planted more than 1.2 million loblolly pines. Tree farmers in Trinity County planted the second highest number or more than 3-4 million trees. More than a thousand landowners participated in planting the 4.7 million seedlings.

Wind break species in order of popularity this year were redbud, Chinese elm, rose multiflora, sycamore, buffaloberry, mulberry, cottonwood, catalpa, black locust, osage orange, ponderosa pine, Austrian pine, and black walnut. Rose multiflora is not considered a tree but is used in many well-planted windbreaks.

About five million seedlings will be available to tree planters next year. Regular slash, loblolly and

shortleaf pines will be \$6.12 per thousand, state sales tax included. Pine seed production area and Sastrop seed source loblolly pine seedlings will sell for \$7.14 per thousand. Prices are f.o.b. the Indian Mound Nursery near Alto.

Applications for seedlings to be planted between December, 1966 and March, 1967 may be obtained by contacting your nearest Texas Forest Service office, county agricultural agent, soil conservation district, Agricultural Stabilization and Conservation Service office or by writing the Director, Texas Forest Service, College Station.

## Deadline For Stocking Catfish is August 1st

Austin, July 18 — The Texas Parks and Wildlife Department reminds sportsmen that August 1 is the deadline for applying for catfish for restocking.

Application s received after that time will be held over until next year.

Catfish are produced in all of the state's 13 hatcheries. Channel cats comprise all but a small part of the annual production.

Last fiscal year, distribution included 1,918,651 channel cats and only 6,011 flathead catfish.

Experiments now underway may alter the release of the new cats with relation to young bass. These tests are counted on to determine whether bass and cats released the same calendar year in the same areas works against the success of the catfish plantings.

Technicians have theorized that bass, released in the spring, may ambush the young cats when they are turned loose in the late summer.

Bass spawn by nature in the

spring, much earlier than catfish. Therefore they are on a growing spree and hungry, as the fisheries people know, by the time the catfish fingerlings are released.

Every angler is well aware that young bass are voracious and battle a casting bait when still very small.

The experiments may convince the fish managers that the ponds where catfish are planted in the later summer should not receive bass until the following spring.

Meanwhile, the Department advises sportsmen to address their request for stocking applications to the John H. Reagan Bldg., Austin, Texas, 78701, and to be prepared to justify placing more young fish in the designated areas. Technicians have found that a common deterrent to good fishing in some Texas areas is overpopulation.

*Your hatred hurts you.*

For every action there is a reaction. If we love we are loved. If we give we are given. When we learn this and believe it we have learned God's plan for us.

No man can live alone. He needs his neighbor. God told us this many times, "Love thy neighbor as thyself." God also told us who our neighbor was... everyone, even our enemy.

It is hard for us to accept this unless we realize that our hatred hurts us. Hatred drives out love. That is why God told us to love one another. The more we love the closer we come to God who is perfect love. Truly we are our brother's keeper.
