Do You Want To Improve your School
Do you ever give a second thought to dropping your candy wrappers and paper cups? How many times each day do you carelessly drop your litter?

The front of our school shows your carelessness. Have you ever noticed the front of our school after the lunch hour. There are candy wrappers, paper cups, gum wrappers, wax, and much more.

Let's all try to improve the appearance of our school. Put that litter in the trash cans. When you think of all Rotan High has done for you, isn't it only fair that you do a little for our old school in her golden years.

Its new look is just one nice thing about the '67 Chevy pickup

'67 Fleetside Pickup

THERE ARE LOTS OF OTHERS.

For instance, new durability: New sheet metal construction discourages rust. Eliminates exposed joints on cargo box and tailgate. Provides self-washing wheelhousings with special splash shields. Inner cab is specially treated against rust.

Also, added comfort, safety and convenience: Improved visibility all around. Dual master cylinder brake system. Telescoping lower steering shaft. Energy-absorbing instrument panel. Interior color-keyed to go with exterior paint. One-hand tailgate latch.

And extra strength: Full-depth double-wall side panels (Fleetside models). Double-wall steel in cab roof and other important areas.

Plus famous Chevrolet truck features: Independent Front Suspension that gives a smooth ride—like a car. The most popular truck 6's and V8's. (And there are lots more, as your Chevrolet dealer will show you.)

Skit Given Honoring Senior Footballers

Thursday, November 10, the Senior cheerleaders gave a skit honoring the Senior football players. The skit was in poetic-form, and propheized what each player would be in the future. Members of the band acted out the parts. The skit began with the cheerleaders meeting Aladdin.

As the green of spring and autumn turns to brown We, too, will change, we have found

So, we wondered as the years did pass, What happened to the football players of our Senior Class.

We strolled about the town we knew, our yearbooks in our hand And then we stopped to rest a while where we had practiced band.

We looked upon each page with care, our memory so to keep,

We felt our eyes grow — oh, so tired, and then we fell asleep.

Before us stood Aladdin, robed in all his might, Beside him was his magic lamp, he spoke to ease our fright.

"Any wish is yours," Aladdin said, A million thoughts raced through our head. "Aladdin, I would like to see The Senior class that was part of me."

He rubbed his lamp with care and ease, What we saw we know will please. You will remain under Aladdin's spell While what we saw, we now will tell.

Archie Overby I hardly knew The things he'd learned to say and do. Dancing and singing upon the stage He'd fast become the nation's rage.

The Democratic Convention opened wide, Senator Patton strolled inside He started to speak admist the roar, That greeted his appearance on the floor.

I glanced into a beauty shop, Charles had risen to the top Experts traveled many miles For his opinion of new hair styles.

A cloud had gathered near the sun. I hardly recognized this one Gerald was writing a brand new book On how to learn to sew and cook.

Cattle grazed for miles around, I looked about the trampled ground. Joe's ranch could not be far 'Cause the cattle were branded J.M. Bar.

Stephen is teaching typing in Rotan High "I laughed at their language," he said with a sigh, 'Cause when I was in typing I was one of the best Of cussing the keys and all of the test.

Male - patterned baldness — that's Perry's fate, But that was no problem, he had a toupe' at 28!

Jess SoRelle has fulfilled his name With robbing and plundering he's got glory and fame His shortness didn't stop him even tho it took all his might To rob the secret of the Jolly Green Giant.

Then I came to Stanley, immediately I thought of a nodding head When reading every Digest he always needed a bed, Now's he's a well-known success For producing No-Doz which he claims is the best.

FB Membership Hits High Point

Waco — (Spl.) — The Texas Farm Bureau passed the 100,000 mark in membership Wednesday, for the first time in its 33-year history. Dairy Farmer Oswald Norman, 47, of Route 1, Willis Point, Van Zandt County, was the 100,000th member signed up this year. His membership was processed about noon, Nov. 11th as the Texas Farm Bureau set an all-time high record in membership. TFB Organization Director Wayne Little said the official 1966 total would be several hundred over the 100,000 mark. His staff is still tabulating the flood of memberships that poured into the TFB headquarters here the first two days of this week. Oct. 31 was the end of the organization's fiscal and membership year.

Little said the new record high membership means that more than nine out of every ten farmers and ranchers in Texas belonging to a general farm organization are members of the Texas Farm Bureau.

Texas Farm Bureau President C. H. DeVaney drove to Van Zandt County Wednesday afternoon to personally present Norman with his membership card and to congratulate him on being the 100,000th member.

The Normans milk 126 cows on the dairy farm in eastern Van Zandt County. He owns 360 acres and leases 500 more. He and his wife are parents of a boy, Michael Lynn, 8; and a daughter, Sue Ann, 4. Norman said he joined Farm Bureau to take advantage of its newly inaugurated livestock marketing program.

The Texas Farm Bureau had 95,204 members last

Cotton Producer To Vote On Promotion Order

Producers of upland cotton will vote Dec. 5-9 to determine whether a research and promotion order should be issued for upland cotton, the U. S. Department of Agriculture announced today.

Officials of USDA's Consumer and Marketing Service said the referendum will be conducted by mail ballot through county ASCS offices in conjunction with the upland cotton marketing quota referendum, but in a separate ballot.

Approval by two-thirds of the producers voting, or by a majority of producers voting if that majority accounts for two-thirds of the cotton represented in the referendum, is necessary for the order to become effective.

Today's announcement followed USDA's final decisions of the provisions to be included in the proposed order and on the regulations to be used for the referendum.

The proposed cotton research and promotion program would be administered by a Cotton Board composed of members nominated by cotton producing organizations and selected by the Secretary of Agriculture.

The program would be financed through assessments of \$1 per bale from upland cotton producers, to be collected by cotton handlers designated by the Cotton Board. Collections from any producer who did not wish to contribute would be refunded upon written application. Assessment would start at the beginning of the ginning season for the 1967 crop.

C&MS officials said producers are eligible to vote in the referendum if they were "engaged in the production" of the 1966 upland cotton crop during calendar year 1966. The term "engaged in the production" is defined to include planting an upland cotton crop even though the crop is not harvested if the failure to harvest is not caused by the neglect of the farmer.

Those sharing in an upland cotton crop or proceeds from it, on a farm as an owner, cash tenant, sharecropper, share tenant, or landlord of a share tenant (except for a landlord of a standing rent, cash rent, or fixed rent tenant,) shall also be considered engaged in the production of that crop.

In addition, owners or operators of a farm for which an acreage allotment for an upland cotton crop was established according to the Agricultural Adjustment Act of 1938, as amended, but on which that crop was not produced, shall generally be considered to be engaged in the production of that crop in the year in which that crop, if produced, would have been harvested.

This definition of "engaged in production" is also used in the marketing quota referendum regulation.

Each producer is entitled to only one "yes" or "no" vote in the referendum.

C&MS officials explained however, that if it is necessary to calculate the volume of production by voters to determine the outcome of the referendum, county ASCS offices will make this calculation on the basis of their records of 1966 planted acreage and projected lint yield per acre for each farm.

A farmer with additional production in the county or state other than the county in which he is eligible to vote must establish that interest with his ASCS office prior to the beginning of the referendum in order for that production to be considered.

This order was proposed by the National Cotton Council. The legislation authorizing it was designed to enable cotton producers to engage in a comprehensive self-help program to strengthen cotton's competitive position and to maintain and expand domestic and foreign markets and uses for U. S. cotton.

USDA's final decision in favor of the order was based on the evidence developed at a 2-week public hearing in August and includes consideration of comments failed on the recommended decision published in the Oct. 5 Federal Register.

A summary of the proposed cotton research and promotion order to be voted upon will be sent to each eligible voter along with his ballot. Complete copies of the order will be available at county ASCS offices.

A PLACE TO PRAY

Man can, and should, pray anywhere. God has placed no limitations on his communing with him.

Our Lord has said, "... Ask and ye shall receive." God listens when we seek him, no matter where, however he desires that we gather together in prayer too. "... mine house shall be called an house of prayer for all people."

Attend church Sunday and know the joy of prayer with others.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Johnny Ammons, manager of Midwest Electric Coop, who recently spent six months in South Viet Nam assisting in establishment of a rural electric system there, was chief speaker at the annual Fisher County 4-H Achievement Awards Banquet in Rotan, Saturday night.

Ammons said he believed that if the agitators and demonstrators in this country could spend some time in South Viet Nam, they would appreciate the opportunities and benefits they enjoyed in our great nation.

The banquet in the Rotan school cafeteria was sponsored for the eighth straight year by the Midwest Electric Coop and the Citizens State

Bank of Roby.

Among 4-H'ers having a part on the program were Bobby Smith, Linda Morgan, Terry Floyd and Peggy Coffman.

Nancy Whitworth and Phillip Maberry presented adult leader awards. Several adult leaders assisted Mrs. Alice Ballenger, county home demonstration agent and James Norman, county agricultural agent, in presenting the 4-H awards, including the Gold Star to the top 4-H boy and girl.

Top awards at the banquet went to Nancy Whitworth, the 1966 Gold Star girl; to Phillip Maberry, Gold Star boy; to Mr. and Mrs. Carl Kreidel, outstanding adult 4-H leaders.

He has been active in exhibiting heifers at livestock shows, carrying out beef cattle demonstrations and serving as an officer in his club.

His name and that of Miss Whitworth will be engraved on a Gold Star honor roll plaque that hangs in Fisher County courthouse.

Mr. and Mrs. Kreidel have been active adult leaders for two and five years respectively. Mrs. Kriegel attended the state 4-H adult leader Forum in Austin as representative of District 3 of the Extension Service and as a result assisted in conducting a similar Forum for district adult leaders at Vernon recently.

Mr. Kreidel has worked with exhibitors of livestock in state, regional and county shows. He also took part in the District 3 Forum at Vernon. Their names will be engraved on an honor roll plaque in the courthouse.

Many widows may be unaware of a change in the social security law and still think they have to wait until they become 62 to collect social security widow's benefits. This is the concern of R. R. Tuley, Jr., district manager of social security in Abilene.

Until the change in the law effective September 1965, the widow of a man who had worked under social security could not qualify for monthly widow's benefits until she reached 62. Now, she can elect to have her payments start as early as her 60th birthday, but in smaller installments to take account of the longer time that benefits will be paid.

Tuley pointed out that generally women who choose to take these reduced benefits will collect about the same value in benefits over the years. He urged widows, who may have been waiting for their 62nd birthdays, to call or visit the social security office nearest their homes to find out how the age-60 benefits would work out in their particular cases.

The social security office in Abilene is located at room 2321 in the Federal Building. Office hours are 9 a.m. until 5 p.m. Mondays through Fridays. In addition, the office is open from 5 p.m. until 9 p.m. on Tuesdays to afford persons who cannot come in during regular hours an opportunity to discuss social security matters with a representative.

Watch For Regimentation

Vice President Humphrey old a gathering of farmers, a short while ago, that: "Today the age of surpluses is all but for bringing a substantial gone. Next year will be a year part of our reserve acreage out of mothballs. The farmers of this nation will be called upon to expand production. This is . . . good news for our farmers, for our consumers, and for hungry people throughout the world."

Before becoming too sanguine about future production miracles that will be expected of American agriculture, it should be remembered that the productivity of agriculture in the United States, just as in all other lines of endeavor, has rested upon adherence to the free market, private enterprise system. As inflation progresses, there is talk of wage and price controls and all the other paraphernalia of regimented systems that have brought starvation and ruin to other nations. It does not take a very long memory to recall the disruptions in supply and demand, the black markets, and the scarcities that were the consequence of previous attempts to impose police state type regulations on the American economy.

Wage and price controls are no remedy for inflation. They are a guarantee of scarcity.

AT 12:01 A. M. MONDAY!

ALL NUMBER CALLING

AT 12:01 a.m. Monday, November 21, all Rotan telephone numbers will be changed from two letters and five numerals to seven numerals.

The present prefix of "WI 7" will be changed to "735," but the last four digits of each telephone number will remain unchanged.

For example, "WI 7-2299" will become "735-2299."

Rotan will thus become one of the first cities in Southwestern Bell to conform with the new nationwide system

of numbering, known as All Number Calling.

All the new numbers are contained in your new telephone directory, mailed to all customers this week.

We think you'll find the new all-numeral telephone numbers easy to use, with fewer chances for error in dialing them.

The new numbering system will pave the way for future telephone improvements, and will help to keep Rotan at the forefront of telephone progress.

"Be sure to use your new telephone directory after 12:01 a.m. Monday!"

The new all-numeral telephone numbers for Rotan are in your new telephone directory delivered this week. Be sure to look up local numbers before you call.

Throw away your old telephone directory after the change, because all telephone numbers in it will be WRONG numbers after 12:01 a.m. Monday.

And don't forget to give your new number to people who may want to call you Long Distance!
