

In Memory of Milton Mathison
Words of consolation written by C. W. Williams of Milton, son of Mr. and Mrs. R. N. Mathison of Weisert who passed away Monday June 23 after many days of suffering.

A little friend has been called above to be father who gave him life. He will be missed by loved ones and friends but his sunny patient kind disposition will live on in the memory of those who knew him.

friend can accompany you, its a path we must go alone. The weary pilgrim says, Ah! Must I go alone. But a voice that we have heard before comes ringing out over the stillness.

Cover Cotton With Cotton Texan's Bill Gets Real Results

BY UPSHUR VINCENT.
M. WHITEKER of the West Texas Chamber of Commerce has argued for years that the cotton baling industry should be reformed.

Along in the South, and for more than 40 years attempts had been made specifically to introduce the use of cotton baling in a substitute of jute imported from India.

Thus, a study was made of bagging in all of its phases, not only as a covering for American crops, but as a container of the materials that go to produce those crops.

Senators Joseph E. Ransdell of Louisiana, reporting for the committee on agriculture and forestry, on the Marvin Jones bill called attention to the fact that agencies of the United States had in past years shown commendable activity in finding new uses for cotton.

Youthhood Makes Study.
But a real systematic research looking to the re-establishment and development of a domestic industry which holds much promise for utilizing low grade cotton was not undertaken until the country was confronted with the enormous crop of 1909-10.

When more uses shall be found, better marketing facilities provided, and advanced farming methods used, the Southern farmer will still find a profit in his staple crop; and cotton will still be king of the agricultural world.

These three bales of cotton went to Bremen, Germany, from the United States and back again to Washington. In the center is the ordinary jute-covered bale while on each side is a bale covered in cotton bagging.

Harvey S. Firestone, Jr., Sends First Message From Liberia To Rubber Company's Own Station In Akron—Daily Reports On Rubber Growth To Follow

Mr. and Mrs. Harvey S. Firestone, Jr., now in the African jungles, today broadcasted the first message sent from the special radio station recently erected on the Firestone rubber plantation in the interior of Liberia, on the West Coast of Africa. The message was received at a similar station on the roof of the Firestone factories at Akron, Ohio.

This marks a new era of communication with the interior of inaccessible countries. Heretofore, the method used was to send foot messengers through jungle trails, taking days to get in touch with the outside world. Broadcasting by radio direct from one continent to another thus gives the Firestone Tire & Rubber Co. a great advantage in developing its million acres of rubber lands that were secured from the Liberian government. Although these properties are located over 5,000 miles from the Firestone headquarters at Akron, Ohio, it will now be possible to send reports every day by radio from the Liberian plantations to Akron.

**100,000 Acres Laid Out**

Mr. Firestone, Jr., has been in Liberia since early January. In his first report by radio today, he said that the Liberian government officials were enthusiastically cooperating with Firestone in the company's great undertaking to make Liberia one of the important rubber-growing countries of the world. Mr. Firestone said that during the first year two 50,000-acre plantations had been laid out, one on the Du river and the other 150 miles south of the Du on the Cavalla river.

Firestone engineers in the same time had constructed over 75 miles of roads and had built and established headquarters on the two plantations, with housing facilities for the resident staffs of 118 Americans. Power plants for the development of electric power, light and refrigeration had been built, as well as hospitals and trade stores for the benefit of the Africans and also to supply the needs of the 15,000 natives who are employed in clearing the jungles and planting rubber trees.

**1,500,000 Trees Planted**

During the past year, according to Mr. Firestone's first radio report, over 1,500,000 rubber trees have been planted on a total of over 15,000 acres of cleared jungle lands. This is a record in rubber plantation work. It is the largest number of trees set out and acres planted by any single company in the same length of time. And Mr. Firestone stated that the rate of progress in clearing land and planting rubber trees is being constantly increased.

Mr. Firestone reported that the steamship sent over for service had been placed in commission along the Liberian coast and is now linking up the Firestone plantations and the coast towns of Liberia. He expressed the hope that Firestone will soon have its own vessels operating directly between New York and Liberia, making the Atlantic passage in less than two weeks. When this is done, it will not only give Firestone an advantage of from two to five weeks in time as compared with other rubber-growing countries, but will also greatly reduce the cost of transportation.

**Teach Natives Trades**

Great progress in the development of the Firestone trade schools was also reported. Mr. Firestone said that the natives were very anxious to learn under the instruction of the Firestone technical staff. The dark-skinned Liberians are being taught to be carpenters, blacksmiths, electricians, automobile mechanics, sanitary en-

gineers, soil experts and foresters. Now that the Liberians, for the first time in the history of the country, have a system of good roads, they are suddenly becoming enthusiastic about motor transportation, and they all want to ride in automobiles, trucks or tractors. As a result, Monrovia, the capital of Liberia, has established a traffic squad to police the traffic on its principal streets. When the Firestone company went into Liberia, there were no roads in the country, and only one automobile. This was owned by the President of Liberia, who had very little occasion to use it because of the absence of good roads.

When Mr. Firestone arrived at the Du river plantation, he was greeted as the "Great White Chief" by many thousands of Firestone native employees who had erected a great arch of leaves and ferns at the entrance of the property and lined the road on both sides as he drove through eleven miles of the plantation to headquarters.

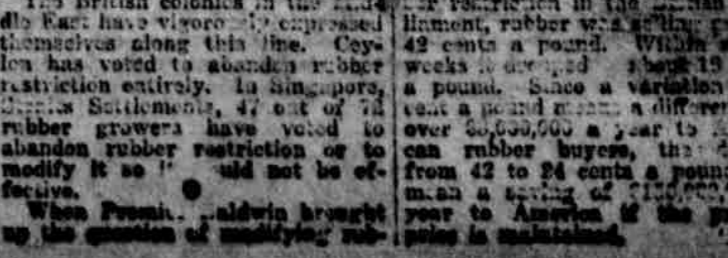

**\$5,000,000 Loan to Liberia**

Mr. Harvey S. Firestone, Sr., has successfully arranged a \$5,000,000 loan in America for the Liberian government. This places Liberia on a firm financial basis, and permits the development of roads, schools and public buildings. The 118 Americans comprising the Firestone technical staff are helping to organize the 2,000,000 or more native Liberians and give them remunerative employment which had not been hitherto available in their own country. The natives are proving very adaptable and willing to work in an organized way. This has made possible the clearing and planting of such a large acreage during the past year and has undoubtedly had a very appreciable effect in the recent reduction in the price of crude rubber.

European newspapers have carried many articles deriding Firestone for going into Africa to plant rubber. They claimed the soil was poor for rubber growing and that the natives would not work. The British government now realizes that Firestone's Liberian enterprise is anything but

### TELLING THE WORLD

Outside and Inside Dope on Haskell County People As Told By Our Rambling Representative.

We read in the papers that a Dallas youth came near getting into serious trouble in Ranger Texas in buying horned frogs to take to the Democratic Convention at Houston to sell to the fellers down there for souvenirs. The young man was a dealer in phrynosoma cornuta (If you know what that is) He advertised in a Ranger News Paper that he would be in Ranger the following week and buy all the Horned Frogs offered for sale. When he arrived in the city numerous boys swamped him with thousands of frogs, many more than he wanted or had money to pay for. He bought the first 1,200 at the price of 10 cents for the large ones and 5 cents for the small ones. The boys who came in a little late with their frogs were disappointed and still worse their parents became irate. The youth was arrested for not taking all the frogs that had been gathered up for him. But the District Attorney let him go because he could make no case against the boy to hold him on, so he freed him. But the parents were not to be out done, so they filed a damage suit against him and had his auto and his toads attached. But the boy's father came to his rescue and squared matters up and the boy with the frogs was permitted to pursue his journey. The thing that caused the trouble was just too many frogs and believing the advertisement. When you advertise in a news paper you get results, but it might get you in jail, but nevertheless it proves the fact that advertising pays.

#### Will Chastain.

Thursday afternoon, June 28th we hit the trail for a spin in our jitney in the country and we were at a loss which way to go. But on going out the road toward Rule we felt inspired to call at the home of Will Chastain. He has lived here a number of years, has lots of friends and no enemies. He is man who takes the world easy, never rushes or frets but goes right along. He came here a tenant farmer, but now he is a contented home owner with the means at hand to make a living for himself and family. To make the rugged path of life just a little more pleasant, he stocked his farm with White Leghorn Egg Machines and in the language of Mrs. Chastain, "They are getting lots of eggs." When we came outside of the home to continue our journey a small cloud had come up and it began raining. That was the evening that a hail destroyed lots of crops and damaged farm houses and injured livestock. But it never caught us out, side, we were in the Haskell county court house when the big cloud came up.

#### J. W. Pritchett.

Our next trip was the following Friday when we drove to the home of Mr. Pritchett and spent the noon hour with him looking over his reds and of course Mrs. Pritchett prepared a good dinner and we enjoyed the many good things to eat placed on the table. You will find an account of his chickens and other things mentioned in another column of this paper.

#### J. P. McIntyre.

J. P. McIntyre has lived in Haskell

children were chopping some dandy cotton and he seemed to have moisture to grow it for quite a while yet. This Thursday the day along to be remembered by the hot winds. Mr. Kreger is not going to give up, but is still trying to get maize in the ground and growing to make his feed. Mrs. Kreger set an incubator three times this year and has about 150 young chickens on the yard of the Rhode Island breed and they are looking nicely. Mr. Kreger owns his home and has three good cows, seven head of hogs. He and his family strive to make their living at home. They make an effort to sell something from the farm all along to help pay the family expenses. Mrs. Kreger sold 22 fat hens which brought her \$26.00 in cash a few days ago. She says that why she likes the Reds. The children of this family are musically inclined and they are a great joy to their parents in music making and singing. Mr. Kreger has made the sacrifice and has given his children some advantages in music and from the joys he is getting he is glad that he could give them this opportunity.

#### Mrs. R. S. Henry.

Although Mrs. Henry is a widow lady it does not deter her from farming and making an effort to earn her way through the world. She is helping her son Noble make a crop cultivating 100 acres of good land in the Curry Chapel community. She has bought a house and lot here in town and will move here for the benefit of the school for her daughter Miss Archie who will be in High School next term. She has a large flock of chickens and is milking two good cows and has two good hogs.

#### V. B. Burrows.

Mr. Burrows who came from East Texas to this section last year and made his first crop in farming again this year. A little cloud covering just a few farms not long ago hailed out his crop which forced him to replant most of it and his crop is late. I believe Mrs. Burrows stated that they had a stand on most of their ground. They have a good milch cow and a hog and have lots of chickens and are striving to make a living from the farm.

#### N. E. Pryor.

Mr. Pryor is from East Texas. He has lived here one year and is beginning his second crop in this country. He, Mr. Burrow and his son-in-law E. T. Honea are working a large tract of land in cotton and maize. We noted some oats that had been cut and shocked on this farm. He too was in the hail strip and had about 100 acres to replant. He came from Red River county to this section and Mrs. Pryor says they like this country fine and expect to make their future home here.

**Building New Residence**  
Minnard Field a resident of this city for a number of years who is now with the Isbell-Burton Motor Company of this city is building a new home in the Ballard addition in the north part of the city. R. D. Baughman, contractor stated that the building consists of four rooms and bath, modern in every detail. The concrete foundation is already down and the work will continue until completed.

#### LOCAL NEWS ITEMS FROM SMITH CHAPEL COMMUNITY

**Presbyterian Church**  
The pastor and those who attended the Young People's Conference at Kerrville June 19th to 23 report a most wonderful experience. The conference was well attended, and a fine inspirational and instructive program was carried out from the first day to the last minute of the conference. All of those who attended went back to their homes full of new interest and high purpose to carry on the work in their local churches.  
The young people who attended from Haskell will have charge of the evening service next Sunday evening. This will be an echo meeting of the conference. Every member of the church is urged to be present.

It's easy to say "They'll get along somehow." But "getting along somehow" usually means broken homes, women at work, children scattered among relatives. Go into the factories, the stores, the laundries—one tenth of the women at work are there because someone said—"They'll get along somehow."

**Mesdames Williams and Bailey Entertain With Series of Parties.**  
On last Tuesday beginning at five o'clock and lasting until ten o'clock p. m., two groups of friends were entertained jointly by Mesdames Walter Williams and Vaughn Bailey in the home of the latter with seven tables of "42" White and blue hot house daises in baskets all over the house, with little Misses Noka Lois Bailey and Freddie Verne Lee, who gave out the score pads, and Misses Verna, Lucile and Norma Gilstrap and Orinia Wood, patriotically dressed in red white and blue aprons and caps, as they served the menu of chicken sandwiches and pineapple sherbert, one of the loveliest parties of the season was the result. When the guests arrived they were refreshed with punch by Mrs. O. E. Patterson who presided over the punch bowl. When the games were over at both afternoon and evening parties, cut glass baskets of the favored flowers

centered the tables, laid with red, white and blue covers, while the refreshment plate was served. Tiny hilk flags were the favors. Afternoon guests from 5 until 7 were: Mesdames H. B. Binion, J. A. ## SAGERTON FARMER WINS WITH POULTRY

J. W. Pritchett of Sagerton Route 1 is one of the leading Rhode Island Red breeders of this section of Texas, although he only has three years of activity to his credit in the business. But during this brief time he has won in the shows of this section of Texas, 88 ribbons on his birds in the 9 shows where he made entries. He has 36 first prizes, 29 special prizes and many other winnings which are below the first and specials. He has one cock bird which he has shown in 8 shows winning 8 first prizes under competent judging. His birds have won sweepstake prizes in most all the shows as the best pens etc. of all breeds which proves the fact true that you can not raise birds which will take away the blue ribbons from cheap, poor breeding stock.

He is planning to place a pen in the Dallas State Fair at Dallas this fall and if he does he will absolutely make competition for somebody. Mr. Pritchett makes a study of Reds and knows what he wants to do. A glance at the 120 youngsters which are running on an unrestricted range around the premises will prove this statement true beyond question.

He has shipped eggs and stock all over Texas and his patrons are boosters of the Pritchett strain.

He buys his breeding stock from the most reliable breeders in the United States and pays the price for their very best. He is growing some young birds now from 100 eggs for which he paid \$75.00 and he has a number of others he paid \$1.00 an egg. That's why he wins—he has the foundation stock.

Mr. Pritchett is engaged in farming and is breeding Reds on the side. He is not an extensive breeder. He takes care not to overwork his range and yards and gives his birds plenty of fresh air, water and clean feed. He is planning on going into the business a little more extensively in the future as he has been unable to supply the demand for his high class birds. He has to turn down many cash orders.

## LARGE CROWD HEARS J. ROSS BELL

J. Ross Bell of Paducah, candidate for Congressman, 18th District, addressed a large crowd of Haskell county voters in the courthouse here last Saturday afternoon at 2 o'clock.

Judge Bell during his address, outlined some of the most important parts of the platform upon which he is basing his campaign, urging a more liberal recognition of the problems confronting the agricultural section of this district in Congress, and promising if elected to do his utmost to carry out measures that would be of benefit to the people of this section.

After speaking here, Judge Bell addressed the voters at Rule and Rochester later in the afternoon.

## FOUND BURIED TREASURES IN YARD

E. H. Breeden living south of the crossing of the Wichita Valley on the Stamford and Haskell Highway was exhibiting in the city last Saturday, a pistol, watch and razor which his children dug up in his yard at a depth of about one foot. The pistol was an old make, rusty and out of commission. The watch was an old key winder, in a silver case very badly corroded. The razor was only a rusty blade with the handle all decayed and crumbled. These articles had been placed in a Dixie Queen Tobacco Box of heavy tin when buried and seemingly must have been wrapped in a handkerchief and it was all gone but a small bit which contained a laundry mark of "B. H. D." which was very legible. Doubtless these articles had been stolen many years ago and buried to hide the crime. The place where they were found is an old settled place and many people have lived in the buildings since they have been there.

## UNDANGEROUS OPERATION

Rev. J. E. Tucker pastor of Tanner Point Baptist church was taken to the Baptist Sanatorium at Abilene Sunday afternoon for an operation for appendicitis. He was accompanied by his wife and Rev. Hardesty of Abilene, Rev. Hall and Rev. Smallwood of Rule going Monday to be present at the operation. His many friends wish for him a speedy recovery.

Mrs. J. J. Cabe and daughter Mrs. Stella Munde of Electra are visiting in the home of J. C. Montgomery of this city. Mr. Montgomery and Mrs. Cabe are brothers and sisters.

## Court Civil Appeals Place Being Sought By Judge Patterson

Recognized as one of the ablest members of the bar of West Texas, Judge B. W. Patterson of Cisco, has announced his candidacy for Associate Justice of the Eleventh Court of Civil Appeals at Eastland.

Since 1893, when he was licensed by the Supreme Court of Texas, he has continuously engaged in the general practice of law in the State and Federal Courts. In 1912 he was licensed by the Supreme Court of Oklahoma, and for several years he was the law partner of Congressman Joe B. Thompson, at Pauls Valley, Oklahoma.

Judge Patterson served as a member of the Texas Legislature in 1923 where his marked ability was recognized through appointment on important committees and won him the rank of administration leader. He introduced one of the law enforcement bills of major consequence and was one of the authors of the measure creating the Texas Technological College, which a committee later located at Lubbock.

He did not offer as a candidate for another term in the State law making body.

Details of his early life may be summarized tersely. He was born in Arkansas, moved with his father and mother to Brokenbridge and when the town of Cisco was organized in 1884, he made his home there; graduated from the Cisco public schools, obtained his literary training at Baylor University and graduated from the Texas University law department.

Friends of Judge Patterson point out that he is a man of unbounded activity and great vitality—and that physical fitness is one of the chief qualifications for the proper performance of the arduous duties of a member of the court of appeals.

He further declares that he works long and diligently in the practice of his profession, habitually opening his office at an early hour and frequently remaining there on into the night studying in his comprehensive law library, which is so ample that it would be the pride of any lawyer's heart. Such diligent application to duty is the great need of the nation in public affairs.

Concerning the legal knowledge and skill of Judge Patterson, he occupies a position of eminence in his profession. His unexcelled courtesy, genial and cordial manners have won for him the esteem of all.

When Chief Justice William Pannill recently resigned, Governor Moody appointed Associate Justice Hickman to the Chief Justiceship. It is the associate justiceship formerly held by Judge Lickman for which Judge Patterson is a candidate.

Judge Burette W. Patterson of Cisco, candidate for Associate Justice Court of Civil Appeals, was in the city Monday in the interest of his candidacy. Judge Patterson was accompanied by T. C. Williams of Cisco, former Haskell resident and County Superintendent of the Haskell county school for a number of years.

Hon. Jesse R. Smith of Brokenbridge, State Senator from the 24th District, was in the city Thursday in the interest of his candidacy for re-election. Judge Smith is now serving his first term, and is basing his candidacy for reelection on his record for the past four years.

- The materials that were to be used were limited to either bleached or unbleached muslin. These materials are very satisfactory for laundering, for wearing, and lend a very pleasing appearance. Patterns for the aprons may be secured from Miss Gunn at the Home Demonstration Agent's office.

## COURTNEY HUNT ANNOUNCES JULY CLEARANCE SALE

Courtney Hunt & Co. will open on Friday of this week, their Big July Clearance Sale, as will be seen from their advertisement in this issue. The sale is in charge of Mr. George Neely of Dallas, who states that merchandise throughout the store has been drastically reduced in price, in order to make this the greatest selling event of the summer. A number of surprises and inducements are offered their customers who attend the Sale, and it will be well worth the time of anyone to pay a visit to this progressive store and note the extremely low reductions in prices which have been made for this event.

J. C. Halliburton and family were in the city Saturday from the Foster community. Mr. Halliburton is a good farmer who raises Rhode Island show birds.

Mr. and Mrs. C. W. Marrian of Gilham are shopping in the City Saturday.

## ROCHESTER PLANS TWO DAY PICNIC

A two-days picnic and celebration has been announced at Rochester on Friday and Saturday of next week, July 13 and 14, and business men of that progressive city have been making plans to make the celebration one of the best ever staged in this section.

Candidate Speaking, Band Concerts, Ball Games and a number of other attractions have been planned. Amusement of amusement is assured all who attend. Plenty of free coffee and ice water will be provided and people of this section are invited to bring their basket dinners and spend the entire day either on Friday or Saturday. Several candidates for State office will probably address the crowds during the two days, together with candidates for local and county offices.

Remember the date—July 13 and 14, Rochester, Texas.

## FAIR CATALOGS TO BE PRINTED SOON

Work of assembling the premium lists for the 1928 Haskell County Fair Catalog was started last week, and directors of the Association are now busily engaged in completing the work in order that the work of printing and distributing the catalogs may be started as soon as possible.

Some few revisions and added premiums will appear in the new list, which will be out earlier this year than ever before, if present plans are carried out.

## PLEASANT VIEW LADIES GIVE ICE CREAM SUPPER

At the Pleasant View School house last Friday night a cream supper was served to a large congregation of people who had gathered for a great social time. The candidates of the county were invited and most of them were present and made their announcements. W. O. Sargent was made Toast Master and W. M. Free of Haskell was called on to introduce the candidates. All the office seekers made good talks and the entire affair was free from any mud slinging or bitterness which is often experienced in campaigns. The amount received from the sale of cream and soda pop was \$35.35 but there were some expenses to come out of this. The proceeds will be used to send delegate from the 4-H Club to the A. & M. Short Course at College Station this summer. These ladies have a fine club and this supper was given under their auspices. M. L. Raynes and his two sons furnished instrumental music for the occasion.

### BOY SCOUT CAMP AT LEUDERS JULY 30TH

The best Boy Scout camping program in Texas is what they are saying about the program for Camp Tonkawa, the Chisholm Trail Council Boy Scout Camp which opens at Leuders July 30 and continues through August 12.

The Camp Tonkawa scout program is arranged so as to interest all classes of scouts, tenderfoot, second and first class and merit badge scouts. Experienced adult leaders including some of the best scoutmasters in Texas will guide the activities.

Scoutmaster W. T. Harris, one of the most experienced archery experts in Texas will have charge of archery, the making of bows and arrows and target practice. Scoutmaster Wm Lee Kincaid of the winning Jamboree Troop 1928, will direct the Camp Activities and will be assisted by several Eagle Scouts.

Scoutmaster Bob Harvey, after a year of additional experience in Y. M. C. A. work in New Mexico is returning to Abilene to become a member of the camp staff.

Little Chief Many Talents, Ralph Harp, will again direct the Indian dances and Indiancraft and will be assisted by a crew of blood thirsty "Indians" who know how to dance the Scalp Dance until your scalp feels uncomfortable.

Judge Jim Stinson of Abilene will direct the Camp Tonkawa presidential election and will be with the boys several days.

The West Texas Baptist Sanitarium will furnish two trained nurses who will be on duty at all times. Big Chief Eat-Um-Up-Heap, Scout Executive Ed Shumway, will be camp director and this is an assured fact that the program will be full of pep and real scouting activities.

Let us send our scouts to receive the scout training that awaits them at Camp Tonkawa.

A crowd estimated as 2500 people packed the grandstand and bleachers at the Haskell County Fair Race Track Wednesday afternoon to witness some of the fastest motorcycle races ever staged on the local track. Warm and fair weather was in store for the many visitors and only a slight south wind was blowing. No accidents marred the events of the day as has happened for the past several motorcycle and automobile races staged here.

Rural Murray of Ranger, easily the favorite rider of the day, upheld his reputation for fast riding, winning the major events of the program.

E. A. Kathcart, Waco, riding a Harley-Davidson machine, lowered the track record made at the last Independence Day Races. His time for the one and one-quarter miles was 77.15 seconds.

In Event 2, an 8 mile race, E. A. Kathcart, Waco won first; Rural Murray, second; George Zerschausky, Austin, third. Time 8:45.35 seconds.

Event 3, 5 miles a stock machine race, was won by Wade Anthony, whose time was 6 minutes and 45 seconds. Robert Enice took second place; and Larry Sherrard, third.

Event 4, 10 miles, Rural Murray, first; George Zerschausky, second, and E. A. Kathcart, third. Time 12 minutes and 2.15 seconds.

Event 5, 10 miles, Rural Murray, first; George Zerschausky second; E. A. Kathcart, third. Time, 11 minutes and 56.45 seconds.

Event 6, 5 miles, E. A. Kathcart, first; Gus LaBude, Oklahoma, second; L. A. Myers, Wichita Falls, third. Time 6 minutes 33 seconds.

## GAS MAINS BEING PLACED OVER TOWN

Work is going rapidly forward in the laying of the gas mains throughout the city, and within a few weeks the mains will have been extended to every section of town, according to officials of the Haskell Gas Company.

Several crews of men have been at work for the past three weeks on the different phases of the construction work, and have made exceedingly rapid progress. No definite announcement has been made as to the exact date when gas will be available through the new mains, but it probably will be in the very near future.

## M'GREGOR SHOWS HERE THIS WEEK

The Donald McGregor Shows, the carnival attraction for the week at the Fair Park, opened their engagement here Tuesday night, under the auspices of the Fair Association.

Large crowds have been in attendance each night, and a number of attractions are to be found on the grounds. Three rides, a merry-go-round, merry mix-up, and a ferris wheel, provide plenty of amusement for old and young alike, and seem to be enjoying a fair patronage.

A Monkey Speedway, Negro Minstrel carrying 21 people, Pit Show with a number of attractions, including Little Edna, advertised as the world's greatest musical prodigy, the Hawaiian Shows, Athletic Show, featuring Joe Ferguson, tough and ugly middle weight fighter and wrestler, Jack Shields and Connie Biggs, any of whom agree to take any and all comers who aspire to the gloves or mat, and "Ada" ballyhooed as the "strangest human" alive, comprise the attractions on the midway outside of the usual number of concessions.

The carnival will remain here the remainder of the week, opening each afternoon and night.

## CONGRESSMAN JONES DELIVERS ADDRESS

Congressman Marvir Jones of Amarillo, candidate for re-election as Congressman for the 18th District, addressed a large gathering of voters on the court house lawn Saturday afternoon at 4 o'clock.

Mrs. J. U. Fields of this city, former president of the Texas Federation of Women's Clubs, introduced Congressman Jones, paying high tribute to his ability and qualifications in this responsible position.

In his address, Congressman Jones outlined briefly his record as representative from this district, and mentioning some of the bills which he had been instrumental in passing, and explaining the qualifications necessary to properly fill this high office. He also invited his audience to ask any question they might desire, stating that this privilege was accorded to all the voters of his district at any time.
