FHA Helps Many Borrowers

A total of \$2,585.70 in loan funds has been used in Fisher County to support family farms since the Farmers Home Administration was expanded six years ago, George Dorman, rural supervisor for the rural credit agency said today.

Approximately \$858,290 was advanced in 1967. This amount included loans to seven Young Farmers for the purchase of farms.

Currently 110 farmers in Fisher County are using the supervised credit services of the Farmers Home Administration.

The supply of Farmers Home Administration credit which supplements the credit supplied by banks and other private credit sources is one of the measures recommended by President Johnson to provide family farmers an opportunity to earn parity of income.

"These loans have enabled farmers to stay in business who would otherwise have had to give up and go to the city. They have helped young farmers get established. They have enabled farmers to keep going after sustaining losses from severe hail storms and inadequate moisture during the normal planting season."

Farmers Home Administration loans can be used to buy land, refinance debts, acquire livestock and equipment, pay fertilizer and fuel bills and pay other expenses connected with acquiring, improving, and operating farms.

The incomes of farmers using Farmers Home Administration credit in Fisher County in 1967 totaled approximately \$1,041,600.

Loans are made only to families who are unable to obtain adequate credit from other sources. The program is tailored to individual family needs and loans are accompanied by technical assistance in farm and money management.

The Fisher County office is located at 203 W. Snyder, Rotan.

Mrs. Mike Byerly and Dave of San Angelo spent Sunday and Monday here with her parents, Mr. and Mrs. S. G. Murphree and Mr. and Mrs. Fred Byerly.

Mrs. Elmo Caudle of Hale Center visited her sister, Mrs. O. R. Clark Tuesday night. She returned home Wednesday.

Mrs. O. R. Phariss of Snyder spent Tuesday here with her parents, Mr. and Mrs. R. O. Allen.

Mr. and Mrs. Doc Hardin and children of Hobbs, N. M. recently visited his parents, Mr. and Mrs. Lester Hardin.

Open House for the new \$175,000 Crest View Lodge at 711 East 5th street will be Sunday from 2:00 to 6:00 p.m.

The ultra modern complex consists of 12,000 feet of centrally heated and air conditioned floor space, is a well equipped Home for the aged and will accommodate 48 patients.

The Open House ceremonies will open with Mayor Joe D. Burk dedicating the new Lodge and guest speaker will be Melton Field, President of Rotan Chamber of Commerce. Rotan Art Club will display an outstanding selection of paintings under direction of Mrs. C. A. Ragan, who is president of the Club. The famous Gatlin Quartet will entertain with Gospel and modern songs during the hours.

Clear View is owned by R. W. McDonnell of Snyder. Homer Baird will be administrator of the Lodge under supervision of C. S. Cochran, Coordinator. He is also Coordinator of Clear View Lodge in Haskell; Hill Crest Lodge in Snyder and Edge Cliff, which is under construction in Sweetwater.

Crest View Lodge will be a Medicaid Home and all prices and rules are governed by the State Department of Health. They will have Beauty Shop, laundry facilities, Therapy Room, TV and telephone outlets in each room, in addition to private bath for each room. The well lighted dining room affords much color and gaiety as an appetizer. Also an outdoor fenced recreation area.

The management extends a cordial invitation to everyone to call Sunday afternoon and see this modern complex.

Mr. and Mrs. C. R. Alred and daughters of Topeka, Kansas, visited her father, W. E. Keener and other relatives here several days last week. Morton Receives First SS Check

Left to right, R. R. Tuley, Jr. District Manager, Social Security Administration, Donald A. Morton, and Wayne Baker, Field Representative, Social Security.

(The following article is by Wayne Baker, Field Representative, Social Security Administration.)

"There haven't been too many silver linings in the clouds that have hovered over Donald A. Morton of Roby since December 27, 1956. On that date, he fell from a utility pole and has been paralyzed from the neck down ever since.

One new bit of cheer came as a result of the 1967 Amendments to the Social Security Act, represented by a \$115.00 per month award effective February 1968.

Although many people still think of social security as something for old folks, the truth is that the young families of today are more financially secure than any previous generation.

The new disability provision that helps Donald A. Morton is one that reduces the amount of social security credits needed for disability protection. Instead of requiring five years of social security credits in the ten years just before becoming disabled, persons under 25 can be found insured with as little as 1 1/2 years of coverage, and a gradual increase until the 5 year requirement becomes operative at age 31.

Donald became disabled at age 19. His earlier inquiries had received negative replies as he had not worked as much as 5 years on jobs covered by

Talent Show Set For April 19

The Calendar Club will sponsor a Benefit Talent Show April 19 in the High School Auditorium. All proceeds will go to the West Texas Rehabilitation Center. There will be three divisions. Trophies will be presented in each division to Mrs. Bobby Gruben, vision. Get your entry in Telephone 735-2575.

Mrs. Mattie Key and Mrs. W. A. McCright attended dedication service of First Methodist Church in Cotton Center, Sunday. Bishop Slater conducted the service. The ladies enjoyed visiting with Rev. and Mrs. McMaster, a former pastor of Rotan Church. The McMasters are pleased with their work there and seem very happy. Mrs. McMaster has been teaching in the school since they moved to Cotton Center.

Mr. and Mrs. R. O. Allen and Mrs. Bessie Shipp and Mrs. O. R. Phariss of Snyder attended an Eastern Star school in Midland Saturday. They visited Diane Phariss in Big Spring, who is attending college. She is daughter of Mrs. Phariss and granddaughter of the Allens.

Hammers Win Dist. UIL Meet

Rotan High School, for the eighth consecutive year, won the district 6-A University Interscholastic League meet. The meet was held on March 23 at Merkel.

High Rating At Music Festival

Cheribeth Crawford attended the National Federation Junior Festivals in Lubbock March 22nd. The Festivals were held under the auspices of the Texas Federation of Music Clubs.

The Festival Entrants did not compete against each other, but rather, each was rated on his own merits as a student and not a professional performer. Her piano solos in the Difficult I Class won a superior rating which was the highest rating given.

Cheribeth has for 9 years been a pupil of Mrs. E. L. Kubala in Snyder. She is the daughter of Mr. and Mrs. G. W. Crawford.

Traffic Safety Dem. April 3

On April 3rd, students of Hobbs and Rotan schools will have an opportunity at Hobbs at 9:30 a.m. and Rotan at 1:30 P.M. to see for themselves how the false impression and sense of security that a driver of a modern automobile gets, can and does, often lead into the danger zone and trouble when they participate in a series of driving tests Bernard Weeb, Hobbs principal and Neil Wright Rotan High School Principal announced today.

The tests, which will be in two parts, will be given under the direction of Ben Ballard, Assistant Safety Director, Texas Farm Bureau.

The first section will be a short talk and film on traffic safety, while the second will be a demonstration.

High point of the demonstration will come when driving tests are made with various students and faculty members in the specially equipped car. An electric detonator which is mounted on the front bumper of the car, will fire yellow paint bullets to indicate the distance required to stop the car in an emergency.

The driver being tested will be signalled to stop by the report of the first shell. The second will be fired automatically when the brake is applied, and the third when the car halts. Distance between the spots of paint will then be measured to determine the reaction, braking, and total stopping distances.

Tests will be limited to 20, 30, and 40 mile per hour speeds because of the danger of making emergency stops at higher speeds. Police officers high speed tests.

will be used as drivers in the As part of a program for safety on the highway, the Texas Farm Bureau Safety Department presented this driving demonstration 196 times for 44,000 students during the 1966-67 school year. Over 750 programs have during the 1966-67 School been given since 1957. The program is being brought to Hobbs and Rotan under the sponsorship of Fisher County Farm Bureau. The public is invited to attend.

EADES FAMILY DONATES PLANTS

The W. D. Eades family have donated over 200 plants for yard planting to the Housing Authority of Rotan.

These will greatly add to general appearance of these places and is a splendid gesture by the family. They also gave a similar number last year.

Medicare Signup

Fisher County residents who were born before July 1901 and have not enrolled for doctor-bill insurance under Medicare now have a last chance to sign up, Wayne Baker, field representative for social security, said today.

"If they do not sign up by April 1," according to Baker "they will never have another chance to be covered by the provisions of the Medicare program that helps pay doctor bills and other medical expenses. Those born Aug. 1901 through Sept. 1903 can enroll early in 1969 if they

miss out this time.

"This coverage will involve a \$4.40 monthly premium, ten per cent more than those who enroll before they are 65 will pay, and will be effective July 1."

Additional information regarding enrollment may be obtained at the Abilene Social Security Office, which will remain open until 9 p.m. on April 1, to accommodate all possible near last-minute decisions.

A "JOLLY" GRADUATION TO TOTAL ELECTRIC LIVING

"Electric heating is healthier—we never have colds any more... we just love it." —Mrs. Grady Jolly

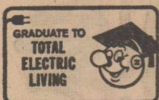

Built at the turn of the century—converted to total-electric operation 1963. No structural changes—a few partitions added plus insulation and wiring. "Decorating was the big job!"

Take a happy, lively family like Dr. and Mrs. Grady B. Jolly, Randy, David, Don and Joy, put them slap-dab in the middle of a 40-acre suburban estate, surround them with horses, pets, vines, trees and old walls and they will make it into a lovely, livable home where friends meet and enjoy the livin'!

The big country kitchen with its total-electric convenience is the heart of the home. Mrs. Jolly's eye for antiques, knack with a paint brush and skill at her electric sewing machine has re-created the look of early America that loses none of its traditional charm amid the ultra modern electrical conveniences.

- Total-electric Gold Medallion • 11 rooms—3 baths—6 in family • 40 acres electrified fence
- 2 water pumps—power tools • ALL FOR \$52.80 PER MONTH AVERAGE OPERATING COST • It's easy to convert to Total-Electric Living... See WTU or your building contractor

Brother of Mrs. J. Allen Dies

Charlie C. Nunn, 75, long-time rancher in this area, died at 2:25 a.m. Tuesday in Simmons Memorial Hospital after a long illness.

He was brother of Mrs. Jack Allen.

He was son of a pioneer ranching family in this area, the late Mr. and Mrs. Joe Nunn, who settled on a ranch in south part of Fisher County in 1896. Mr. Nunn was living on this ranch at the time of his death.

Funeral services were held Wednesday at 3 p.m. at 4th and Elm St. Church of Christ, with the minister, Mr. Preston Cotham, officiating, assisted by Mr. Will Scott of Throckmorton. Burial was in Garden of Memories Cemetery.

He was born April 23, 1892, in Nolan County and was married to Jessie Headstream in Roby March 26, 1944.

Mr. Nunn was long active and interested in city and community projects, serving on the school board in Gannon Community for many years, and was active for some 20 years in the Fisher County Agriculture Stabilization Committee and with the Conservation Service. He was presiding judge in voting Precinct 10 of Fisher County for many years. Mr. Nunn was a long-time member of the Farmers Union and was instrumental in organizing rural electrification in the area.

He was a member of 4th and Elm Street Church of Christ in Sweetwater.

Survivors include his wife; one son, Charlie Joe of Sweetwater; one daughter, Mrs. Mac Hendrix of Amarillo; two brothers, Clyde of Sweetwater, and Pete of Mitchell, Neb.; five sisters, Mrs. Annie Jones Mrs. Lucy Whittenburg and Mrs. Story Bonner, all of Sweetwater, Mrs. Jack Allen of Rotan and Mrs. Hill Spruell of Iowa Park.

The Charles Nunn family requested, in lieu of flowers that donations be made to the Karen Allen Fund at Rotan, a niece, who is ill with acute lymphatic leukemia.

NOTICE TO TENANTS

Tenants in Housing Authority units are advised to call at the office if they desire free plants for their yards. These were donated by the W. D. Eades family.

Girls Attend Course at Hardin-Simmons

Monday, March 18, a panel of five girls attended a counseling course at Hardin-Simmons University. They were Brenda Landes, Kaye McKimney, Armda Partin, Linda Wallace, and Kay Kennedy.

Principal Neil Wright, who is taking this course, had the girls assist him by discussing the problem, "Pressures on Teenagers." Different areas such as grades, religious pressures, and social pressures were discussed. After the group discussion was completed, some of the fifteen teachers asked the girls some questions.

Bailey Qualifies As Parachutist

Ft. Benning, Ga., (AHTNC) — Army Private First Class William R. Bailey, 21, son of Mr. and Mrs. Leo A. Bailey, 511 Sheridan, Rotan, received a Parachutist Badge Feb. 28 upon completion of the Infantry School's three-week airborne course at Ft. Benning Ga.

His training, which included five jumps from a C-130 airplane flying 170 miles an hour at an altitude of 1,250 feet, qualified him as a parachutist. He also underwent strenuous physical conditioning.

Mrs Clark Heads DKG Meeting

Gamma Tau Chapter of the Delta Kappa Gamma Society, International, met in Sweetwater at the Country Club on Sunday afternoon at 2:30 p.m. Mrs. Whit Clark, chapter president, presided.

Following a brief business meeting, Miss Louise Bollinger, chapter program chairman, introduced Mrs. Bart Strayhorn who gave a program on "Value in Music". Mrs. Strayhorn was assisted by members of the committee on music. Mrs. W. K. Callan and Mrs. N. D. Miers.

Mrs. Strayhorn began her program by asking if the group had ever been requested to evaluate or justify something that as long as they could remember had been accepted as true.

She continued that to her it is as natural to assume that there is value in music just as there is value in breathing or in being friendly. Music had its own specific function in our complex life and is an integral part of our being.

This value cannot be measured in tangible things because only those who produce the music or reproduce it ever obtain financial gain and they could easily be the poorest of all in musical wealth.

As a beginning in the quest for an insight into the value of music, Mrs. Strayhorn led the group in singing three of the Delta Kappa Gamma songs with Mrs. Miers at the piano.

Following these songs, the speaker discussed the varied purposes of these songs and the different inner feelings evoked by each. This led to a discussion of why we have different types of music and the value in each.

In order to answer the questions involved, Mrs. Strayhorn gave some background for music involving moods and feeling. She said that music is not man's invention but only man's development. Man refined and developed music because nature implanted ideas in his mind.

She asked "Would a la Baird, Josie Baird, Janette Marbut, Faye Rhea, Bollinger,

whistling through the grass? Would man have liked the sound of hitting sticks together if he had not heard the clap of thunder, the rhythmic dripping of rain, or sound of running hoofs? Would he have begun to sing if he had not heard the birds?"

The speaker continued that music reflects the attitudes of a people of a society. In each period of history the music has certain definite qualities. There is a correlation with art and literature of the period. One can sense a feeling of rebellion, unrest, or peace of mind.

Our musical heritage in America is a rich and varied one. It includes not only the wealth of symphonic and operatic music, but the fabulous world of theater music, pop music, folk music, patriotic and church music.

Folk music has the exotic appeal of never having formally been composed. It sprang spontaneously from the throats of pioneers, workers, prisoners, slaves, hill billies, and lads and lassies of the prairie.

To demonstrate how music stimulates and controls thinking, Mrs. Callan presented varied musical numbers at the piano. Seasonal music, religious and patriotic selections were given. It was noted that each persons has his own thoughts as a song is played.

Each person's thoughts depend upon his own experiences in relationship to a song.

Mrs. Strayhorn noted some of her own reactions to the various song presented and led the group into reminiscing as popular tunes from years past brought back memories.

Hostesses for the meeting were Mmes. Herman Phillips, J. Frank Davis, Robert Higgins, and T. E. Knapp.

Others attending were: Mmes. R. L. Brown, Callan, Clark, James B. Day, N. E. Kennedy, Charles McCall, Miers, Robert Phillips, Ralph South, Bart Strayhorn, J. R. Strayhorn, C. J. Dalton, C. E. Leon, Inez Lawrence, H. D. Melton, W. W. Ogden, Demind. She asked "Would a la Baird, Josie Baird, Janette Marbut, Faye Rhea, Bollinger,

You say people are afraid to get involved?

...not everyone.

Many telephone people have made it their business to get involved in other people's problems. They've saved hundreds of lives in the process, often risking their own safety.

Over the years, 240 Southwestern Bell employees have been awarded the Vail Medal, an award recognizing acts which exemplify the company's highest traditions of service.

Among our Vail Medal winners are employees who... pulled a mother and her son from the rushing waters of a turbulent river... carried a baby from a blazing trailer home... dragged a man and woman from a burning car.

The list goes on and on.

And we're proud of them all. They're the kind of people you can count on to get involved.

Recent Bride Honored At Tea

Mrs. Gene Terry, nee Patricia Riley was honored Saturday afternoon with a gift party in the home of Mrs. Mark Strickland.

Hostesses were, Mmes. Preston Morrow, R. D. Sar-

tor, James W. Hunter, J. R. Strayhorn, W. B. Tillotson, and Miss Rebecca Strickland. Mrs. Wallace Strayhorn greeted arriving guests. Receiving with the honoree were her mother, Mrs. George Riley, Mr. Terry's mother, Mrs. W. S. Terry and Mrs. Brooks Middleton. Mrs. Terry wore a shirt

waist shift. Her dress of green silk with muted dots. Belt was a wide black ribbon looped in a bow.

Hostesses' corsages were white carnations tied with yellow ribbon.

On the serving table and buffet were arrangements of yellow daffodils. Mrs. James Hunter and Miss Strickland presided at the serving table.

House Party members were, Mmes. W. S. Terry of Jefferson; Mrs. Brooks Middleton and Nancy Kay and Mrs. Ruth Withers of Haskell and Mrs. S. B. Adams, maternal grandmother of the honoree.

Mr. and Mrs. Terry were married March 2 in Georgetown, where they are students of Southwestern University.

THANKS

I want to thank all my 'friends' who were so concerned when my fishing float disappeared last week. This was recovered and no charges have been filed—yet. Several of my fishing buddies lost sleep over this and I especially want to thank Bill Day, Robert Phillips and Charles Thornton for the star roles they played in the mystery.

The float is being used regularly, but I have yet to catch my first fish.

HD Club Studies Sizing Changes

A number of things have been added to the notion counter in recent months that are new to home sewing said Mrs. Dick Edwards and Mrs. Alyne Shell as they gave the program to the Rotan Home Demonstration Club in the home of Mrs. Edwards, March 21.

First they discussed the new sizing in patterns, since four of the major pattern companies have come out with new sizing as well as new figure types. The reason for changing sizing is to correspond more closely with ready to wear garments.

They showed importance of taking body measurements before selecting pattern. Toddlers and children size have changed very little. However one should measure breast of a girl and chest of a boy to determine the size as this measurement and not the age is very important.

Other new things for home sewing includes the invisible zippers, the stretchable seam binding to use for the new knit materials and a new lining material called "Butterfly." This is a brand name but the lining material is 100 per cent polyester, machine washable, color fast static free and want cling. With all these new things we can construct better fitting, more professional looking garments than ever before.

Members present were Mmes. Pearl Cooper, Joe Little, Home Aaron, C. C. Roach Will Curry, V. B. Murphree, Viola Hendon, Bernice Stockton, C. A. Ragan, Thomas Colwell, Ronnie Kersh, W. L. Terrell, Alyne Shell and Mrs. Edwards.

Visitor was Mrs. Jeb Long. Club adjourned to meet with Mrs. Viola Hendon April 4, at 2:30 p.m.

County Agent's Column

Four points to remember in order to have one of the most attractive gardens in your area:

1. Soil Preparation — Garden soil needs to be loose and friable, to prevent crusting during dry spells. Dig up the soil and work in plenty of sphagnum peat moss — apply a layer of three to four inches over the bed and work in to a depth of six to eight inches. This improves both heavy clay soils and light sandy soils.

2. Fertilizer — When preparing the flower bed, mix two to three pounds of complete fertilizer per 100 square feet of area. Use a fertilizer with an analysis of 8-8-8 or similar type. Light monthly applications of fertilizer throughout the summer will insure large plants with ample flowers. Water thoroughly after each application of fertilizer.

3. Water — Young plants should be thoroughly watered in at time of transplanting. Water plants regularly except during rainy periods. A thorough soaking once every five to seven days as needed is better than a light application every day.

4. Use good plants. — Newer and better varieties are being developed each year. Many of the new hybrids will give you more flowers and brighter color throughout the season. They are no more work to plant and care for than the older varieties. Don't attempt to save seed from the new hybrid lines, as the result will usually be disappointing.

To help you in selecting and placing plants around your home the following suggestions are offered:

1. Select plants which will not grow out of bounds. There are many species of evergreen and deciduous shrubs which are low growing and attractive.

2. Too much variety in plant species is not attractive. Frequently a grouping of three, five or seven plants of the same species can create a most interesting design.

3. Space plants so they have room to grow to maturity.

Most plants will spread at least as much as their mature height or even more, so allow ample room. Don't crowd them against the foundation, as this results in crooked plants. The landscape may appear rather open and bare after it has been planted especially if small plants are used, but remember you are planning for the future. Crowded plants will also create more maintenance problems.

The chemical composition of the mesquite bean is 41.9 percent crude protein, .53 percent phosphorus, .48 percent potassium and .06 percent calcium. The bean and the pod are 11.0 percent crude protein, .10 percent phosphorus, .66 percent potassium and .08 percent calcium.

Mesquite beans will make fall livestock feed, but it must be remembered that it takes a lot of beans to make a pound of feed. Also mesquite does not make a bean crop every year and uses large amounts of water. If this water were used to grow grass, up to four times more feed would be available.

Tax Man Sam sez

According to some folks, it ought to be worth something to live in Texas. Well, it is. The Texas community property law gives taxpayers three extra income tax benefits. First, you may qualify for an additional \$100 dividend exclusion. Second, you can claim an additional \$1000 capital loss by filing separate returns, and third, you can qualify for an additional \$228 in retirement income

credit. There is also a new benefit available this year in a few rare cases — if you file separate returns you can claim an extra \$150 medical insurance deduction.

Local Members DAR Chapter

Nancy Harper chapter of Daughters of the American Revolution met Tuesday in Rotan. The meeting was held at the Rotana Restaurant with local members as hostesses. Mrs. W. E. Towson, Chapter Regent, presided. A report from the recent DAR State Conference was given by Mrs. Towson and Miss Delila Baird. It was reported that Nancy Harper was one of thirty-six Texas chapters listed on the Gold Honor Roll. The chapter was also presented a certificate of achievement in public relations and publicity for sending more than six hundred column inches of news for the state press book which will be entered in competition at the national meeting in April.

Members of Nancy Harper Chapter attending the Conference were Mmes Towson, J. R. Strayhorn, Jas. H. Beall, Jr., Kirby Kinsey, C. R. Kendrick, Nettie Doscher Moore and Miss Baird.

The program was given by Miss Josie Baird of Rotan. Miss Baird spoke on the topic, "Genealogical Research Methods and Sources."

The speaker began with a summation of a motto found outside the National Archives Building in Washington, D. C., "Without a knowledge of history one cannot understand the present nor plan successfully for the future." She continued with the statement that the same is true of family history. A knowledge of one's forefathers, their places in the history of our nation, the religious views, their strong hearts intent on building Christian home in a Free and Christian Nation helps one to understand himself, and makes the history of our great nation more meaningful and real.

The speaker listed as prerequisites to research a natural curiosity or an inquiring mind, a deep intent in the problem to be solved, the patience of Job, and the tenacity of a Bull dog. She warned that a source is never to be accepted as infallible unless it is a primary source, that one must keep an open mind, and never leap to conclusions.

Miss Baird stressed that in genealogical research the search begins with one's self and gradually works backwards from the known to the unknown. One should collect all of the data for the immediate family, the grandparents, and as far as is actually known. While collecting this information, choose the desired family charts from the many which are available, decide on a method for keeping the records, and secure a good basic reference on genealogical research.

information has been assimilated, it is time to visit a good genealogical library. These are literally springing up all over the country. There are many published records from county court houses of the various states. Many others are on microfilm. These are U. S. Census rolls which are available through 1880. Land records, marriage records, and many family histories available. Correspondence with others working on the same lines can prove most valuable.

Miss Baird noted that many persons do genealogical research solely for the purpose of proving lineage necessary for organizations such as DAR; but that for her, it was only the beginning. She gave some of the personal experiences which had led her and her family into Tennessee, Virginia, the Carolinas, Georgia and many other states spending their vacations in habitats of pioneer ancestors. As a result of research during the past three years Miss Baird and her sister have succeeded in proving six Revolutionary Ancestors, all of them one generation beyond the revolution, and several back to the emigrant. The Pettus family has been documented back to 1490 in Eng-

land.

Miss Baird illustrated her talk with family charts, scrapbooks, and various genealogical publications. These were on display for members and guests to examine after the meeting.

Attending were Mmes Hubert Barton, Wilson Barton, Beall, A. A. Bostick, A. A. Callaway, George S. Cowan, Jas. B. Day, Wade E. Forester, Darthulia Hale, T. R. Locke, L. T. Nelson, J. C. Slater, Earl Thomason, H. Thompson, Towson, Lawrence Weatherman, J. D. Ivey of Hale Center, J. E. Lincoln of Lamkin, Misses Josie Baird, Delila Baird; and guests Mmes. Elmo Caudle of Hale Center, Johnnie B. Edwards, Talmadge McDonald, and Virgil Weems.

Of the 82 divisions formed during World War II, 26 were mobilized from the U. S. Army Reserve.

Nearly 75 per cent of the officers and warrant officers serving in Southeast Asia have U. S. Army Reserve commissions and warrants.

U. S. Army Reserve Week, marking the 60th anniversary of the organization, is April 21-27.

"Ye Shall Know The Truth"

John 8:32

THE TRUE CHURCH AND THE BIBLE No. 4

"Speak where the Bible speaks and remain silent where the Bible is silent." This is an often quoted expression by those who believe the Bible must be the ONLY creed, confession of faith, catechism, or church manual. This is true because God said in II Timothy 3:16, 17 "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness: That the man of God may be perfect, thoroughly furnished unto all good works." In this statement God has emphatically stated that the word of God will make a man PERFECT (or complete in the American Standard Version) thoroughly furnished. Furthermore the scriptures are to be used for doctrine, reproof, correction, and instruction in righteousness. What more could mortal man want than the Word of God when God himself says it will perfectly instruct a man in righteousness? Furthermore, James calls it the "perfect law of liberty" James 1:25. Peter says that "his divine power hath granted unto us ALL THINGS that pertain to life and godliness, through the knowledge of him that called us by his own glory and virtue." II Peter 1:3 John says, "Whosoever transgresseth and abideth not in the DOCTRINE OF CHRIST, hath not God" II John verse 9. Jude says we should "earnestly contend for the faith which was ONCE delivered unto the saints" Jude verse 3.

In light of these above passages of scripture, why would a person or church hold to any human creed. We know the Bible is safe, but are human creeds? Even their adherents admit that they are fallible. Why be an adherent to something that is of human origin and is fallible when you can be a follower of that which is of divine origin and is infallible?

But you say, "what is wrong with a church manual?" Everything. God specifically condemns it in many, many passages of scripture. Deuteronomy 4:2 "Ye shall not add unto the word which I command you." Proverbs 30:5, 6 "Add thou not unto his words, lest he reprove thee, and thou be found a liar." Galatians 1:6-9 "If any man preach any other gospel unto you than that ye have received, let him be accursed." Revelation 22:18, 19 "If any man shall add unto these things, (words of the Bible) God shall add unto him the plagues that are written in this book." If any man shall TAKE AWAY from the words of the book of this prophecy, God shall take away his part out of the book of life." In light of this proof from Gods own lips we conclude that any man made creed, manual, confession of faith or catechism is an addition to God's word and is specifically condemned.

Any creed that says more than the Bible is objectionable because it does contain more than the Bible. Any creed that contains less than the Bible is objectionable, because it does contain less than the Bible. Any creed differing from the Bible is objectionable, because it does differ from the Bible. Any creed precisely like the Bible is useless, because we have the Bible.

Human creeds are divisive. They keep religious people divided into parties and sects. Each creed serves as a wall to include and enclose its own adherents and to exclude all others. Why then not return to the Bible as our only rule of faith and authority?

Signed, Scott Mitchell

BARBED WIRE and Babbling Brooks

Spring sun shines on babbling brooks — and barbed wire. A bird song lilts prettily on fragrant air — and a sniper shot splits the silence. New green burgeons through brown winter grasses — and red blood drenches jungle earth.

One's description of the season depends upon location. In some parts of the world there are happy people, enjoying the spring, looking forward to Easter services. Other faces of this globe find suffering people, anguished by the sunshine, hungry, afraid, lonely, dying.

Centuries ago on black Calvary hill, Jesus of Nazareth demonstrated perfect love. Down through the ages, His life and teachings have pointed the way for mankind to heal the ills of the world.

So, in this Lenten season let us offer ourselves—our time and talents—to the service of His Church, in its task of making His kingdom come upon earth.

Red Cross Aids Military

When a husband or son, and his family, are separated by thousands of miles, problems and anxieties can become magnified manifold.

"This is a possibility that faces thousands of families who have men in military service," declared James Springer, chairman of the Fisher County Red Cross Chapter's Service to Military Families. "Many of these families live in our community."

"The anxieties are multiplied when the servicemen is assigned to critical areas of the world, such as South Vietnam on a one-year tour of duty, for then he is far away in time as well as distance."

A high percentage of military families need some type of Red Cross aid, and the organization works in every way possible to help those families over the rough spots while the serviceman is away, Springer said.

The problem might be the missing allotment check, lost in a mail mishap, or some other crises for which Red Cross financial aid would provide a solution.

Sudden deaths, serious illness or accidents sometime leave families with a need for Red Cross to help verify information for the serviceman's commander to use in making a decision on emergency leave.

Slow mail delivery to a far-off military post often results in needless worry that a Red Cross health and welfare message can dispel.

"Sometimes just down-to-earth counseling with a serviceman by a Red Cross field director is the answer to a family's problem," Springer said.

Every Red Cross Chapter plays a vital role in the total ARC program of services to the Armed Forces. While volunteers and staff in chapters help military families in communities, Red Cross staff are assigned to provide American Red Cross Aid for servicemen at U.S. Military installations and hospitals wherever they are stationed, in this country and around the world.

"In warm, human terms", Mr. Springer said, "it is a sympathetic ear and a helping hand when trouble, tragedy or despair comes into a military family's life."

WASHINGTON

"As it looks from here"

OMAR BURLESON
Congressman
17th District

WASHINGTON D. C. — Grant-In-Aid to the states and local governments has been discussed in this space a number of times.

A recent report of the joint Congressional Economic Committee prompts further reference.

During the current fiscal year the Federal Government will pour out some \$17 billion in grants to States and local governments. Virtually all Federal Departments and Agencies are involved in some way in more than 400 programs.

On the basis of figures recently compiled the Joint Congressional Economic Committee estimates that these Federal payments will run in excess of \$50 billion by the mid-1970's.

This should concern every American because it signals the respect of eventual des-

truction of our basic Federal system.

The committee makes reference to the Administration prediction last year that grants-in-aid may quadruple in five years, skyrocketing Federal contributions above \$60 billion in the next six years.

With this sum of money being disbursed from Washington to State and local governments, a virtual monopoly of power will exist in Washington.

The 50 states, 3,000 counties, 35,000 municipalities and 43,000 School Districts would be reduced to agents of the Federal Government and under its control for all intents and purposes.

The already unprecedented centralization of decision-making at the Washington level has created a maximum of paper work, controls, duplication and confusion requiring greater numbers of Government employees at all levels.

Results thus far in a number of programs show far less accomplished than was expected. Ever increasing administrative cost has drained away far too great a percentage of funds meant for other purposes.

The joint economic committee has this to say: "There is growing awareness that the present entangled system dominated by Federal Government is neither an effective nor desirable way to administer the needed expansion in domestic services."

To remedy this mounting threat of Federal domination, some propose a consolidation of the 400 odd grant programs into nine broad categories covering major fields of domestic activity. It also calls for Federal income tax credits for State and local taxes and Federal sharing of tax revenues with States and local governments.

Under such an arrangement it would enable State and local governments to use funds for specific purposes most urgently needed in their areas instead of being bound by Federal direction.

The Tax credit system would permit local entities to

meet costs of expanded services through local revenues rather than through increased Federal subventions.

Under the revenue sharing proposal Federal funds would be appropriated among the States on the basis of population.

The joint committee strongly recommends that a start be made in this fiscal year on a gradual consolidation of grant programs. Such a step requiring no additional Federal expenditures should work to assure the taxpayer of a better shake for his tax dollar.

Decentralization would increase the independence of local government and provide the taxpayer a greater choice in how his money is to be spent.

Even those who have advocated far-reaching and expensive Government programs are now critical of some results in many operations and are looking for change to correct their mistakes.

One recently had this to say, "The Federal Government is good at collecting taxes and it is rather bad at disbursing services. Liberals must divest themselves of the

Heavy Draft Call For April

Austin, March 18 — State draft boards are being called upon to furnish 2,378 men for the Army and Marines in April, Colonel Morris S. Schwartz, state Selective Service director, said Friday.

This compares to a quota of 1,948 for the Army in March and is the largest monthly call for the draft boards since October 1966, when the share was 2,845.

The draft boards will forward 8,500 men to the armed forces examining and entrance stations in April for the pre-induction physical and mental examinations in preparation to fill future quotas.

This compares to 7,200 being forwarded for this purpose in March 4,590 sent in February, and 5,455 in January. The March pre-induction examination quota originally

notion that the Nation, especially the cities of the Nation, can be run from agencies in Washington."

The Rotan Advance

Thurs. Mar. 28, 1968 No. 8

was 4,200, but was increased later because of higher induction quotas.

The April induction and pre-induction quotas were mailed to local boards by state Selective Service headquarters March 13.

The April call of 2,378 men for Texas is the state's share of a national quota of 48,000, the Army to get 44,000 of this number, and the Marine Corps 4,000.

The order of selection to fill the April and March induction calls may be from among examined and acceptable men who are:

- (1) delinquents 19 years old and older,
- (2) volunteers under age 26, and
- (3) nonvolunteers 19 through 25 years old, single and married, with those married after August 26, being selected ahead of those married on or before that date.

There are nearly 260,000 officers and enlisted men assigned to 3,495 Ready Reserve units of the U. S. Army Reserve.
