The one great outstanding fact in automobiles today is that,

while practically every car that runs is patterned after Clay-

See Your Home Merchants First

The merchants of Haskell haven't asked us to write this message. In fact, they might ask us not to if they knew what we are about to say.

It's simply this:

We have lived in this community for many years, and in all that time we've heard very few sympathetic comments for the merchants of Haskell as a group. The general assumption seems to be that the merchant is "sitting pretty," as the saying goes. All he has to do is buy merchandise from a wholesaler, and then sell it at a profit. It looks easy. And no matter how low the prices are, they always look high.

Public sympathy, in fact, is always with the buyer and against the seller. The reason for that may be that there are more buyers than sellers.

This is not a plea for sympathy, however. We simply want to say that we have been in more or less intimate touch with the merchants of Haskell for a long time. We know they have their troubles and discouragements the same as the rest of us. Serving the public is a hard. thankless, heartbreaking job.

Let's play square with our merchants. Let's at least se they can offer us here in !

before we buy elsewhere. only fair, isn't it?

There's a big difference in tires, although they all look pretty much alike.

Some are made with skimpy, short staple cotton. Some have an overdose of "filler" in the rubber of the tread. Some are long on looks and short on quality.

But you won't need a microscope to be sure that the Goodyear Tire you get from us is a real buy. Goodyear mileages tell the story of "The World's Greatest Tire."

Goodyears are performing so satisfactorily for our customers that they invariably come back-not with a kick but with a boost, and for another Goodyear when they need tire equipment.

We have your size - in fresh, new stocksat low prices.

The New

After all, the attributes to be considered in buying any car are

Economy, Dependability, and Convenience.

You look for a motor car that will "eat up" the miles without eating up too much fuel, a machine in which every particle of gas is converted into eager, surging power.

THE NEW FORD

You look for the car that can leap from a traffic jam like a greyhound turned loose, for the car that settles quietly down to the throbhing pace that puts the long miles behind, for the car that gets you there

THE NEW FORD

And you look for the car that can command expert service within a minimum of time, a car that you can run anywhere with confidence.

In a word, you are looking for the car that thousands have found to excell above all others-THE NEW FORD.

Our Repair Shop is now equipped with all new and modern equipment and we are able to save you money on all repair work. Our new labor charges will also save you money. We GUARANTEE all work done by us. Give us a trial.

We also have a first class painter on the job. Get our prices on that paint job. We can give you any color at a minimum cost for any make of car. A proxylin finish lasts longer.
