

It will be some time before the new small size currency gets into circulation, authorities say, especially among the farmers. We don't know whether this is on account of geography or economics.

There is a boy in every community whom it is freely predicted "will hang some day," and doesn't, and then there is also the pie-faced young angel whose confession comes as an intense surprise.

One of the household mysteries is how a telephone that is picked up twice and put down in exactly the same position manages to develop so many kinks in the cord.

Be Prepared For Winter--

With the cold, winter days just around the corner, it is bet to prepare now for the bad weather which is sure to come. You can make winter driving more agreeable if you buy early the proper supplies.

Are your tires all good? It is not a pleasant job to change tires on a cold, wet road, you know. And you should have a set of dependable mud chains to slip over them when they are needed.

USE EVER-READY PRESTONE IN YOUR RADIATOR

Why worry with your radiator all winter? Put Ever-Ready Prestone in your radiator and forget about it. It won't evaporate nor heat your motor. It is not injurious to the paint or metal parts of your car, and it is just as good anti-freeze solution as you can buy. We have a large stock of Ever-Ready Prestone, Alcohol and Glycerine for your radiator.

Chapel Program

On Wednesday, Nov. 7, Miss Elaine Mills had charge of the chapel program. It was divided into three parts and covered the entire 45 minutes period.

The first part was a playlet, Katherine Wingo, as little sister, entertained O. B. Ratliff, Elsie Bradley's beau. She showed him the family album, and the pictures were portrayed to the students, by parting curtains at the back of the stage. This was very enjoyable.

The second part was played by the second string football men. They discussed the girls they had seen and been attracted to at the previous football games. A chorus behind the scenes sang songs pertaining to the favorite girls. They then sang a parody on "That's My Weakness Now" using the names of the first string football men. Everyone laughed to see Babe Medley and Bill Kimbrough blush.

The third part was an art school with Raymond Lyles as the instructor and Lou Ella Woodson, Mavis Branch, and Louise Roberts as the students. They made sketches of pupils and teachers, which were really good.

Everyone looks ahead to Wednesday and all appreciate a good chapel program. This one was thoroughly enjoyed.

INDIANS DEFEAT PIED PIPERS 7-2

The Haskell Indians defeated the Hamlin Pied Pipers 7-2 on the Fair Park field here Monday Nov. 12.

Haskell	Pos	Hamlin
Reynolds	C	Adecock
Sanders	LG	Johnson
Gilstrap	RG	McGuire
Whiteker	RT	Faire
Short	LT	Warner
Welsh	RE	McClendon
Ratliff	LE	Arnett
Smith	RH	Dean
Kimbrough	Full	Mayfield
Pippin	LH	Stuart
English	Quar	Weaver

First Quarter
The first quarter of the game was enough to show that the teams were well matched. It was the first quarter that the Pipers made two points. Hamlin would never have scored on Haskell if there had not been a fumble. The Pipers kept the pig skin in the Indian territory most of the period, but this was due to the aid of the wind.

Second Quarter
In the second quarter, the Indians scored a touchdown and an extra point. Kimbrough made the touchdown and Ratliff caught a pass from English for the extra point. In this period the Indians made three first downs and the Pipers made one. In this quarter, Smith caught a pass intended for a Piper. Medley was substituted for Smith.

Half
In the third quarter there were two first downs made. The Indians made one and the Pipers made the other. During this quarter the Pipers fought harder and held the Indians. The Pipers got their first down by a penalty but the Indians worked for theirs.

Fourth Quarter
During this quarter, there was practically nothing but passing. There was only one first down made and that by the Indians. The Indians punched the ball across the goal line once during

this period, but it was not counted.

The Indian fans did not like this, but it pleased the Pipers and their fans.

The Indians made five first downs during the whole game and the Pied Pipers made three first downs during the whole game. The Indians substituted one man and the Pied Pipers substituted five men.

Wilda Pippin went with two Sophomore friends to Stamford last Sunday.

"Side By Side," has been selected as the Freshman song.

We sure have a smart bunch of Fish this year. Some of the upper classmen have already admitted it.

Anita: "That play I saw last night set me to thinking."

Mr. Bass: "It must have been a miracle instead of a show."

John: "What did Mr. Henry say when you told him you sat up all night with the baby?"

Bob: "He asked me if she was a blonde or brunette."

Her form was thin and shapely.

She walked with wondrous grace.

I almost fell in love with her

A Trip To California

By W. M. Free
(Continued from last week.)

Our journey brought us Monday night September 10th, to Petaluma California where we spent the night in a splendid hotel. This was the tenth day of our trip and we had seen many things of interest up to this time. But nothing to exceed some of the things we realized when we had made investigation of Petaluma, which is justly called the "Egg Basket of the World." Because it is here that the White Leghorn hen has proved herself to be a profit producer when given an opportunity.

More than ten million hens of this famous breed were said to be on the job producing large white eggs for the world's market within a few miles of this city. Land is very high and these birds are kept in small tracts seldom exceeding three acres and often as many as 6,000 birds are made to produce a satisfactory profit to their owner on this small inclosure. They have through 50 years of promotion learned that the White Leghorn hen produces a better profit to her keeper when closely confined. Egg farming is the money crop. They care very little for market poultry in Petaluma.

Our insight to these poultry ranches as they are called were not really what we expected. The Chamber of Commerce of Petaluma had noted in other papers of the State of California and from letters to some of the party which had been addressed in care of the Chamber of Commerce of this city that this Texas Coach was on a tour to study poultry and dairying and these California fellows have heard so much of Texas and her broad acres her all weather climates at the same hour of the day, week and year that they were in no mood to let us onto the keys of their successes. But observation was one of the chief ways of finding out the things we wished to know, the prosperity manifested in the good roads, excellent homes, hatcheries, shipping plants and many other things space will

not permit us to mention proved beyond question that these people had a paying business. The thought that must have taken hold of the Chamber of Commerce that Texas might some day with all her undeveloped territory become her competitor was why they tried so hard to camouflage their successes. They took charge of our parties, hatching plants and drove through the poultry section, but the secretary who was smart as a whip put the deal over in fine shape and worked us out of the city very nicely and headed us for Santa Rosa the home of Luther Burbank deceased. They did just a little more for us they wired the Chamber of Commerce at Santa Rosa we would be their guests at noon and they had us going right along. But after the Santa Rosa Banquet some of the Texas bunch caught buses back to Petaluma and spent the afternoon with the poultry breeders of the district and learned many things of their successes and the way they handle their poultry to make a profit which we will discuss later on in a separate article.

At Petaluma we were carried through a hatchery which required 1800,000 eggs for one setting and which is repeated every three weeks. We were also carried through a creamery which churned on an average of 12 tons of butter each day from milk from Holstein cows and we used to think that Holstein milk was not rich enough to churn. But we lost that idea after seeing all that butter from Holstein milk. They also put out a dried milk product from skimmed milk which was one way of using the skimmed milk after the cream was taken out. This is used in the manufacture of Baby Chick feed.

All of this manufacturing, shipping and selling is done through a corporation which functions for the interest of the producer. Petaluma is a wonderful city and it has the most agreeable climate in California. We wore our coats all the time while we were there and they felt very comfortable. More next week.

METHODIST CHURCH

Sunday Nov. 18
Sunday School at 9:45 a. m.
Preaching at 11 a. m. Subject: "The Church a Great Family."
At the beginning of the morning service several infants will be dedicated to the Lord in Baptism. This is a very beautiful and impressive service. All Methodist parents should bring their children at this time.
The pastor will preach again at 7 p. m. This will be the last Sunday before our Annual Conference. We are specially anxious to have all the members present. Come and help make this service the very best possible.
W. B. Vaughn, Pastor

Will Harrell was in the city Saturday from his farm in the Foster community and stated that he already had out 100 bales of cotton and would make at least 60 more bales this year. He stated that he had about 40 pickers taking the fleecy staple from the field and he will soon be through gathering if the weather will permit. He always makes feed from his farm to take care of his work stock, milch cows, hogs, chickens etc. He believes in the old adage of living at home and producing as much of your living as possible from the farm.

Mr. and Mrs. O. E. Patterson were in Abilene one day last week.

UNCLE SAM PRINTS

Uncle Sam's Post Office Department, which it is estimated will have a deficit of \$100,000,000 during the present fiscal year, will continue in the business of competing with local printers in the furnishing of printed envelopes, having recently awarded a contract involving more than \$15,000,000 in this connection.

This means that one concern will have a monopoly of this amount of gross business, a large portion of which will be diverted from country publishers who are practically the only class of business men with whom the government competes in this manner.

The injustice of this practice is all the more marked because the printing is done for an additional charge of only a few cents a thousand over the cost of the plain envelopes—a charge so small that it covers only a fraction of the cost. The envelopes are priced higher than necessary in order to cover a portion of the loss on the printing, but the customer thinks he is getting a bargain because of this juggling of price quotations.

There would be as much justification for the operation of a chain of retail stores by the government as there is for the retail sale of printed envelopes in competition with local printers.

TWO CLASSES OF MERCHANTS

In Haskell, as in all other communities, there are two distinct classes of merchants. The merchant who belongs to the one class puts in a stock of goods, dresses up his windows in an indifferent way, and waits for customers to come to him.

He never advertises to tell people about his goods and service, because he believes that advertising is a waste of money.

He sells some merchandise but he never enjoys what one may term a brisk run of business. His stock remains on his shelves from month to month and year to year. It becomes shop-worn, and antiquated until almost every item becomes a poor buy at any price. His volume of business is small and his margins of profit must necessarily be large to enable him to live. His methods never do justice to himself, his family or his customers.

The merchant who belongs to another class stocks his store with good, salable merchandise. He spends much time in preparing his window displays and even more time in writing his advertisements. He realizes that it is impossible to enjoy a large trade without telling the public about the excellence of his goods and service.

"Advertising," he says, "is not a waste. It enables me to sell a large

volume of goods in the course of a year, and this makes it possible for me to live well on a small margin of profit out of each sale. This policy makes for a rapid turnover of goods, prevents the accumulation of shop-worn items, enables me to give the public the up-to-date merchandise to which they are entitled, and creates widespread good will throughout the community."

With which class of merchants do you prefer to trade? With the latter, of course. And how may you know the names of those merchants who belong to this latter class? Why, by looking through the advertising columns of The Haskell Free Press.

Uncle Charlie grew up in the days when men depended on their feet for transportation from place to place and he has not forgotten the art and likes to walk when a ride is not handy. Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers—washing every cut, no matter how small, thoroughly with Liquid Borozone, the safe antiseptic. You can get Liquid Borozone at Reid's Drug Store or Payne Drug Co.

Nine-Tenths Preventable
Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases with their consequent pain and financial losses. Herlane, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Reid's Drug Store or Payne Drug Co.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they have contracted worms. Then if we are wise, we buy a bottle of

White's Cream Vermifuge and safely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle. Store or Payne Drug Co.

MONEY TO LOAN

On farms and ranches by the John Hancock Life Insurance Company, at a low rate of interest, annual interest, with option to pay \$100 any multiple of \$100 at end of any year up to 16th with out notice. No attorney fees, no commission notes and no inspection fees. You get all you borrow. Only one dead of trust and one note, hence your option is a real one, and has no "strings" tied to it. A simple, plain contract that any farmer can understand. A loan that will enable you to gradually get out of debt during your lifetime. Pay on principal in good years and skip principal payment in dry years if you so desire. No loan like it for the farmer. Loan your money to build or improve your house or build you a barn. Come in and let us explain the loan to you. Nothing to hold back.

CITY LOANS
We make loans on city property on both the monthly payment plan or the annual payment plan, on good terms and low rate of interest.

Beautiful Actress

... Countless Admirers

-The secret of her blasted life told for the first time-

"MAGDA, the saintly," her friends called her. For though this beautiful actress had countless admirers, she steadfastly refused to let the slightest suspicion of love or romance enter her life. Then something happened. The treacherous tongue of scandal linked her name in an ugly way with that of a man of great social prominence. For some strange reason Magda neither denied nor confirmed these rumors. The poison spread. One by one her friends deserted her. Even her youthful protegee, a young man in the cast whom she had encouraged and helped with all her strength, publicly denounced her as unfit for decent people to associate with. Had he known the truth he would have

To the first half-million new Ford owners

TO THE half-million men and women who have received new Fords in the last eleven months, there is no need to dwell on the performance of the car.

You have tested its speed on the open road. In traffic you have noted its quick acceleration and the safety of its brakes. You know how it climbs the hills. On long trips and over rough stretches you have come to appreciate its easy-riding comfort. Continuous driving has proved its economy of operation and low cost of up-keep.

This is an invitation to you to take full advantage of the service facilities of the Ford dealer organization so that you may continue to enjoy many thousands of miles of carefree, economical motoring.

The point is this. You have a great car in the new Ford. It is simple in design, constructed of the best materials and machined with unusual accuracy. It is so well-made, in fact, that it requires surprisingly little

attention. Yet that doesn't mean it should be neglected. Like every other fine piece of machinery, it will serve you better and longer if given proper care.

One of the best ways to do this is to take your car to the Ford dealer every 500 miles for oiling and greasing and a check-up of the little things that have such a great bearing on long life and continuously good performance.

Such an inspection may mean a great deal to your car. To you it means thousands upon thousands of miles of motoring without a care—without ever lifting the hood.

Ford dealers everywhere have been specially trained and equipped to service the new Ford. You will find them prompt and reliable in their work, fair in their charges, and sincerely eager to help you get the greatest possible use from your car for the longest period at a minimum of trouble and expense. That is the true meaning of Ford Service.

The Aid Society of the Christian Church.
A large representative body of the aid society of the Christian church met in the home of Mrs. Courtney Hunt last Monday afternoon and packed a large box for the Juliette Fowler Orphan's Home of Dallas. The entire membership sent in linen and clothing for both boys and girls and a supply of tea cakes. After the packing of the box there was a business meeting and the hostess served cake and tea to Mesdames T. E. Ballard, D. L. Cummins, W. F. Draper, T. W. Flenniken, Lynn Pace, Elam Parish, H. S. Post, J. B. Post, V. Meadors, R. B. Fields, W. W. Fields, Bertha McNeill, T. A. Pinkerton, Rev. and Mrs. G. R. Forrester, Mrs. Lowery of San Angelo and Miss Dulin Fields.

Mrs. Bert Welsh and Miss Lela Welsh Entertain Lucky Thirteen Club.
On last Thursday evening in the home of Mrs. Bert Welsh she and Miss Lela Welsh entertained the Lucky Thirteen Bridge Club. Roses and ferns were used in decoration and at the close of a number of games of bridge, special guests who were Misses Florence and Mildred Shook and club members, Misses Ermine Daugherty, Lois Earnest, Helen Harbison, Madalin Hunt, Lewis Manly, Elaine Mills, Nettie McCollum and Eunice Huckalar and Mrs. Roy Killingsworth were served by the hostesses delicious cake and sandwiches with hot chocolate.

Magazine Club Program.
Life members of the Magazine Club, who are residents of Haskell at this time were hostesses to the other members last Friday afternoon with a very fine program. Varied colored flowers were mingled profusely together in bowls and baskets as is the custom of arrangement in our sister country, Old Mexico and the Mexican motif was carried out in the menu later in the afternoon. Mrs. S. R. Rike gave greetings and Mrs. J. U. Fields directed the splendid program on "Sacred Songs". The opening number was the invocation followed by all singing, "Best Be The Tie." Mrs. F. T. Sanders discussed the subject, "Power In Song," vocal solo, "Resignation." Mrs. McKinney, nothing less than calling it a splendid address, was that given by Rev. G. R. Forrester on, "Religious Music," then the interpretation of Lita's arrangement of Rigoletto by Warner, played by Miss Marjorie Rogers was ideal. Mrs. H. S. Post used fine reasoning in discussing

"Why the Old Hymns Should be Preserved." The last number was in pantomime, "My Faith Looks Up To Thee," with Mrs. C. M. Kaigler directing, she read the interpretation and Mesdames Tom Davis, Vaughn Bailey, Geo. McKinney, T. A. Pinkerton, C. W. Williams, J. F. Morrison and D. Scott sang the hymn while Erma Monke, Lucia Mask, Clara Tillinghast, Frances Ratliff and Bessie Bee Kaigler enacted the pantomime around a lighted cross. The closing hymn was "The Old Rugged Cross." The following Senoritas clad smartly in matched Mexican frocks served hot tamales, crackers, Mexican candies and chocolate to the guests. Mrs. F. T. Sanders, chairman of the refreshment committee, had these young ladies in charge, they were Senoritas Christine Ballard, Erma Monke, Naomi Poteet, and Geneva Golden. The hostesses who comprise resident life members of the Magazine club were: Mesdames J. U. Fields, F. T. Sanders, O. E. Patterson, C. L. Lewis, S. R. Rike, R. J. Reynolds, W. H. Murchison, E. Sutherland and C. D. Long.

Little Miss Eloise Koonce Has Surprise Birthday Dinner Party.
Last Monday was the third birthday of little Miss Eloise Koonce and her mother planned a lovely surprise birthday dinner for her. The color scheme for the table appointments was orchid and pink, carried out in crepe paper. Covers for ten were laid and the center of the table held a large bouquet holding in place streamers of crepe paper that hung from the chandelier. Plate favors were baskets of nuts and candies. The birthday cake with three candles was before the little honoree, and was surrounded with the gifts brought by the guests and sent by relatives. After these were viewed and the candles on the cake blown out, dinner was served while stories were told the little group. Several hours of the afternoon were enjoyed in play. Those present were: Beuna Fay and James Reynolds, Robert Wayne and Billy Newt Cooper, Mary Joe Janice, Rosellen and Bessie Bell Morrison, Patsy Davis Kaigler and the honoree.
