# First at the get-away First on the straight

No car in the Victory price class can match the all around brilliance of Victory performance.

The Victory is first at the get-away—faster on the hills, faster in traffic—smoother on rough roads.

And accelerates as no other car at the price has EVER done. 5 to 25 miles in 7 1/4 seconds. 10 to 45 miles in 13 1/2 seconds.

The public discovered all this even as the stop watch proved it.

More power per pound of car weight made it possible. Rugged Dodge construction made it practical. And the Victory's unusual design made it SAFE.

For the Victory gravity center is lower and there is no body overhang.... The chassis frame is the full width of the body—and the body sills are eliminated.

Exceptional charm of line and more headroom and seat width are further vital results of this unique construction.

Drive the car today and make your own comparisons!

# WITH OUR READERS

A paper most appreciated gives its readers the news from every section of the country. The Free Press is making the effort to get the news from every school district and town in this section. We give you the news from the county capital which you need to know in the reports of the court proceedings, publishing the jury lists, cases docketed for trial and all announcements, financial, social and political, in which every citizen in Haskell county should be interested. In addition to that we strive to get all the happenings from over the county which we believe you would like to know and appreciate. You can not make a save in denying your family the home paper when it costs you \$1.50 for a year. If you should do without it 50 years it would only save you \$75.00 which is more than a life time for the average citizen after he should become the head of a family. But on the other hand look what you have deprived yourself from enjoying beside the thousands of bargains advertised that you have missed when you were in the market for the very merchandise advertised and did not know it until your neighbor who read the paper had took the advantage of the save and bought all the supply. Ask any man who is a good financier if it is economy to do without your county paper. Yes, ask your banker and see what he will tell you. Ask those who have been reading the paper in Haskell for around forty years if they have lost through the cost of the \$1.50 a year. They will answer no for they always renew before their subscription expires and say with a smile, "Keep the Free Press coming. It's getting better all the time." Our subscribers are still coming and we are giving below a few of which have recently added their names as new and renewal subscribers.

of the things his neighbors are doing and the best method known to man in through the columns of the home paper. Mrs. Ben Kreger for a number of years has been on our mailing list she lives in the city and enjoys reading the home paper she paid for a year the other day and had the date of expiration moved forward. We appreciate Mrs. Kreger's patronage very much.

Rev. M. L. Baker pastor of the Presbyterian church in this city and who has been in the city a number of years renews for the paper for another year. Here is hoping that Bro. Baker and his good wife remain with us for many years to come. We have learned to appreciate them very much.

J. A. Blake a prosperous home owner and farmer of the Gauntt community gave us the price of the Free Press for a year to be mailed to Earl Black at Sudan Texas. Mr. Blake stated that he knew Mr. Blake would appreciate the news from home.

J. J. Drinnon of Weibert Route 1 has his name on our list as a new subscriber and reader of the home paper, we are glad to have Mr. Drinnon with us and may he learn to like us and become one of our habitual readers.

T. Jones Weibert Route 2 better known as Theodore Jones is again paid up in advance on our list. He has been a reader for many years and can always be depended upon at the expiration date for renewal. He owns a fine farm and is ranching some in connection with his farming.

It is a pleasure to enlist S. W. Bosse of Stamford Route one with us as a new subscriber. His father J. W. Bosse has been a reader of the Free Press for many years and when this young man went out in the world to look after his own affairs he followed the good example set by his father and became a reader of the Free Press paid up for a year.

Joe Hester one of Haskell's substantial citizens renews his subscription to the Free Press. Mr. Hester is an unassuming man but is very progressive and successful. He has made good in his chosen profession of tilling the soil and for many years lived on his farm near Rochester until he decided to move to Haskell where his children would have the advantage of the High School. He owns the Lamm farm and home north west of the city which is one of the best homes in the county.

O. Cole a merchant of Rule although

in a progressive city gives us his check for a year to the Free Press. Mr. Cole recently purchased the Grocery Store from the Chambers Bros, and is looking after the business in person. He has a nice store and lots of friends and will succeed in his business.

O. B. Norman formerly with the Haskell National Bank of this city but who is now with a bank in Lamesa sends in his renewal to the Free Press and is enjoying the news from home and friends.

W. C. Johnson who formerly operated the Texas Filling Station on Depot Street gave us his subscription for the Free Press for the year in advance. He sold his business and moved to Stone wall, Okla. But from what his friends tell us he will soon be back in Haskell with us a little bought and paid for experience the kind that sticks and helps us. They all come back.

J. W. Cox who once conducted a black smith shop in the city but who has been living in Lamesa for some time renews for the paper that he might be back in the city not long ago and left his regards with his kale with us for the Free Press.

P. F. Kirkland of this city is reading the best county paper in this section paid up for a year in advance. He is a new subscriber but will become one of our habitual readers.

W. L. Trimble of Liberty Mo. sends in his renewal. He has been reading the Free Press ever since the present management has had charge and just how much longer we do not know. He has some good farming lands here and wants to know how things are going. That's the best way to keep posted.

G. W. Waldrop formerly of Haskell but a successful merchant of Abilene sends in his renewal that he might hear from his old friends each week. He knows the best way to keep up with things here.

A. A. Gauntt who was formerly in business in Rochester but has moved to his good farm near this city and is going into the poultry business in addition to his farming. He will not over do the thing as some have done but just raise enough to pay his fare and a profit on the side. He is paid up until August 1929.

Watch this column next week, we have many more friends to thank for their patronage. Tell us the news when you come to town and we will send the Free Press we will let you have it for \$1.50 for a whole year. Thank you for favors and good will.

"Please send me 617 pounds of meat"

You would be at a loss to know what to do with this year's supply of meat if you received it at once. Yes, many a refrigerator in use today is hardly a safe place for a daily supply of perishable food. It lets heat in and cold air out. It wastes food. It wastes ice. . . . Does yours?

Thousands of thrifty women are putting their perishable food in the famous corkboard-insulated Gibsons. Corkboard maintains a cold, dry temperature that keeps food safer. It makes ice save. It is the kind of insulation that manufacturers of electrical refrigeration units approve for their appliances.

Let us show you the Gibson and all its fine features. The automatic locks. The solid aluminum trap. The all-porcelain interior with rounded corners. The flat metal shelves. The aluminum door frames which prevent doors from warping.

There's a Gibson to suit your needs and purse. Remember, the corkboard-insulated Gibson can be equipped any time with an ice-making unit. You can save money buying a Gibson this week.

The Gibson all-metal, porcelain lined refrigerator is the most beautiful refrigerator made. Come see it.

Here is a Chrysler triumph that overshadows the foremost accomplishments of the industry.

**Worker's Council.**  
The Worker's Council of the Haskell Baptist Association met with the Brushy church last Monday and a great day was experienced. A good dinner was served at noon and good preaching and singing was enjoyed. We enjoyed it all.

**Quarterly Meeting.**  
The Methodist People held their quarterly meeting at Pleasant View school house last Saturday and Sunday. We were there for the morning services and we were delighted to have the Texas Trio with us who sang for the

morning services, and we listened to Rev. J. H. Hamblen of Stamford, who is Presiding Elder of this District preached a great sermon, after which a bountiful lunch was served. After an hour of feasting, shaking hands in heart to heart greetings the Trio sang two other songs and we came home. The business session was to have been held that afternoon and preaching at night and the next day at the 11 o'clock hour. Rev. Cecil Fox of Weinert is pastor of this church. As we have mentioned before, these people are now building a beautiful, commodious church for a place to worship, uniting the Brushy and Pleasant View church into one body and they will worship in the new building, which will soon be completed.

**Jones County Convention.**  
We attended the Jones County Singing Convention at New Hope, which is five miles south of Stamford, on last Sunday. This is an annual convention which meets every year in two days session, beginning Saturday night. The Texas Trio were also with us down there. We had a great day of musical enjoyment and a good dinner at noon spread under the large tabernacle and this was an occasion for us to fully enjoy. The next convention goes to Bethel Church at the little town of Funston about ten miles south of Stamford on the Anson and Fort Worth highway. Bro. J. H. Edmonds sponsored the invitation and won out as he always does in whatever he undertakes. He is a veteran Baptist preacher who has religion of the heartfelt kind.

**Rule Baptist Church.**  
We attended the Rule Baptist church Sunday night where the Trio sang for Bro. Ball at his evening services. Mr. R. E. Jordan of Wills Point, Texas, had joined them and they rendered several quartets and trios during the services. We enjoyed all our visits. The only thing regrettable is after having so much good things to eat for several days and then be compelled to go back to our own home and eat our own bread and beans, but we are glad to have our little allowance and we eat it with thanks and gratitude to the given of all good gifts.

**Young Children a Specialty School Lunch Room.**  
A system worked out by the Economic Department of the High School, students of this city have access to warm at the noon hour. This step was taken in February and has proven successful.

**Department separates the lunch giving special attention to food for children.**  
The department thought out a plan for the Superintendent. It was then to be the matter before the Board of Education. This was done and a committee to be formed. It was decided that the department had received by used which had two tables, a sink and a number of stools. Then the children upon and they responded with glasses, cereal bowls, vegetable bowls and plates. The committee purchased a number of additional equip-

ment. This was all assembled in the home nursing room where space was given for the lunch room.

With every thing furnished, it was readily seen that one could serve lunch much cheaper than if they had to pay rent and invest in the necessary equipment. Mrs. Mary Clough of Hubbard, Texas, whose daughter teaches in the Haskell Schools was secured to manage the lunch room under the supervision of the Home Economics Department, for what she could make out of it, serving the children of the first four grades a complete lunch for 15c and those above the fourth grade at the rate of 5c a serving for each kind of food.

The children of the first four grades are served their lunch in a room to themselves, where arm chairs are provided. The children always volunteer to help with the serving. The first few days members of the foods class took day about talking to the children on the following subjects:

1. Keeping Your Machinery Fit.
2. Table Manners.
3. The well balanced lunch (light, medium, heavy.)
4. Cream Soups.
5. Milk.
6. Vegetables.
7. Fruits.

For the first few weeks two girls from the class served in the lunch room each day. After this Mrs. Clough secured help to look after the serving of the little folks and the girls also volunteered their services when needed. The children stack their dishes in receptacles as they pass out. After eating a complete lunch they can buy plain candy or fruit, if they care for it. One girl from the foods class acts as cashier each day. Students above the fourth grade are served in a separate room.

The Home Economics girls plan the menus and also prepare the entire lunch when it is in line with their regular course of study. Girls are allowed to make up laboratory work by preparing special dishes for the lunch room. Children from the lower grades were weighed and dietaries were worked out for the special ones.

## Jno. A. Couch Makes Statement Regarding His Race for Mayor

On the eve of the City Election, upon the strong solicitations of my friends, I consented against my will to having my name placed upon the ballot as a candidate for the office of Mayor. On the morning of the election numerous reports were going the rounds with reference to my position on various matters, one of which was that I favored stopping the street paving just where it was, all of which was without foundation of fact. I offer as proof of this, our property was about the first to be paved, we were among the first to sign up for paving and at the present are spending \$1,200.00 or more in front of our property on street and sidewalk improvement. We do not charge that our opponent was responsible for these erroneous statements, but someone was responsible for them and without any effort to find out if they were true, I want it strictly understood that I am now ready to assist in any sane, conservative movement for the progress of Haskell and am most assuredly for street improvement, no one ever heard me utter a word to the contrary. I think I have been as loyal to my town as the average citizen. I have given freely of both my time and money for its growth. We gave in proportion to other people in the town both for the Haskell Fair Association and the Haskell Hotel Co. We now hold \$1,500.00 in the Haskell Hotel Company and believe I have supported, reasonably and fairly every worthy enterprise. We suppose some one started these reports for political reasons only. We wish it known, however, that we have no tinge of bitterness toward any one and do not believe our friends circulated any reports calculated to reflect upon our opponent in the race, all of which I am glad. I stand ready now to support the new Mayor-elect in any effort for the betterment of our town upon a fair and equitable basis. I hold no malice or ill will against anyone who did not see fit to support me and I accept my defeat willingly and cheerfully, with only the best of feeling for everyone.
