## Tips on taxes

**AUSTIN**—Many measures are pending in the Legislature designed to reduce the cost of government. They range all the way from simple resolutions to constitutional amendments. Legislators are giving attention to the problem of local taxation, as it is affected by State law, and bills are pending whereby local governing bodies will not be hampered in economy efforts by State law and constitutional provisions. The major share of the tax burden is for local purposes, cities, counties and school districts.

taxpayers. Other legislation, similar in purpose, is being considered. There seems to be a well-defined purpose to reduce the cost of the State government an average of 25 per cent. The House has already passed the judiciary supply bill, providing for that amount of reduction in salaries of district judges, appellate court judges and district attorneys. The Senate has not acted. Vigorous protests against the reductions have been made before the Senate committee, considering the bill. Presidents and regents of teachers colleges are reported to be agreeable to a 25 per cent reduction in their budgets. The House has before it a bill reducing automobile license fees one-third. Passage of this or some similar measure is regarded as certain. A constitutional amendment, introduced by Senator Walter Woodward, would limit the total cost of the State government to \$10 per capita per year. This proposal is

unique in that it would compel economy by placing an arbitrary limit on expenditures. Approval of the amendment would place expenditures on the same per capita basis as 1927. In 1925 the per capita cost of State government was \$6.50. The peak was reached in 1930 when the figures were \$14. Last year the per capita was \$12.50. It is claimed for this amendment that it would provide an automatic check on taxation, which is now virtually without limit. Another claim is that it would compel the discontinuance of bureaus, commissions and departments once their usefulness had passed. Instances of government bureaus and services being discontinued are rare. It is argued that this amendment would require the abolishment of less needed services when necessity for new ones arises. The general trend is for tax reduction measures, but several bills have been introduced seeking to tap new sources of revenue. The most far-reaching is the proposal to levy a three per cent tax on gross receipts from sales and professional services. Estimates of the amount that would be derived from this levy vary from fifty millions to 100 millions. It is certain that many businesses would be compelled to stand an increase in their State taxes from eight to ten-fold, and many lines who now pay no State ad valorem taxes would be heavily taxed. Another new source of revenue is suggested in the bill providing for an income tax. The tax on individuals would begin on the first \$1,000 of net income with a rate of one per cent and graduate up to seven per cent on net incomes above \$11,000. The corporation rate would begin at two per cent on the first \$1,000 and graduate upward to six per cent on incomes above \$6,000. Deductions, similar to those of the Federal income tax, would apply. The belief, however, is that the two bills will be combined and modified to carry some of the features of both. Few will predict, however, what the final fate of these new tax measures will be. There is determined opposition to both, based chiefly on the theory that there should be no new taxes levied but that the State budget should be balanced by economies in expenditures. A constitutional amendment has been introduced for increase in salaries of a few State officials. The Governor's pay would be increased from \$12,000 to \$12,500; Attorney General from \$4,000 to \$5,000; Treasurer and Land Commissioner from \$2,500 to \$3,000. Many other State officials now receive much higher pay than these.

## Chisholm Trail Council Boy Scout News

Dr. R. A. Maddox of Abilene was elected President of the Chisholm Trail Council for 1933 at the recent annual meeting of the Chisholm Trail Council. Other officials to serve with him are Dr. E. P. Bunkley, Stamford; W. Graham Webb, Jr., Albany; Vice-Presidents and Roy Matthews, Council Commissioner. A Krauss of Winters, a real Scout enthusiast will serve as Finance Chairman for the Council of seven counties and will cooperate with finance chairmen of other cities in raising adequate finances for 1933. The Council budget of \$2,085 is the lowest in the history of Scouting in West Texas. Three new troops are in the process of reorganization in Coleman, a Methodist, Baptist and combination of Presbyterian and Christian churches being the sponsors. The Rotary Troop of Stamford will be chartered in the near future. There was a good crowd present February 25th at the Anniversary celebration at Nolan sponsored by the American Legion. This is a new troop but one progressing nicely. A large crowd witnessed the Boy Scout Program at the Methodist church in Haskell Sunday night February 26th. On Sunday night February 19th all scout troops of Coleman were represented at the Anniversary Program held at the Methodist Church. The feature of the program was the presentation of an Eagle Badge by Senator Walter Woodward to his son Mar Woodward, President Thos. E. Hayden, Jr. of the Chisholm Trail Council made the principal address. The Anniversary Banquet at Coleman on the 16th was attended by one hundred scouts and parents. Other anniversary programs are expected to be held soon in Haskell, Rube, Baird, Winters, Merkel, Albany and Santa Anna. A Bird House Building Contest, sponsored by the Abilene Unit of the D A R will close March 15th and a large number of boys are expected to enter. Last year practically every prize won was a member of the Boy Scouts of America. This year prizes offered amount to \$12.50. The Annual May Jamboree will probably be held at Camp Tonkawa May 12-13. Training Courses for Boy Leaders will be held soon in Haskell, Winters and Albany.

# "A \$10 Gold-piece for Sale Cheap"

Not so long ago, an interesting experiment was made, to test the "sales-resistance" of the public. Several men paced the down-town streets of a large city, hawking their wares. And the wares, believe it or not, were ten dollar gold pieces—offered for sale at a dollar. No one bought; the price was reduced to fifty cents; finally to a quarter... still no sales!

Only after this experiment appeared as news in the papers did those who turned down the bargain gold become convinced of their mistake. They doubted the evidence of their own senses when they were offered something for nothing, but they believed in the opportunity they'd lost when the newspapers told them the story.

In the papers that you read, you are offered a parallel opportunity—equally genuine, and sponsored by people of proven responsibility. What! You've never seen it? Stop for a minute and think. This newspaper cost you a trifle—which you gladly paid to learn what's happening in the world, to read about people and events. But there's other news here of vital importance to you—about things and services about automobiles, clothing, food, household wares—about all those things which you pay money for, to live.

The advertisements! Your newspaper-pennies buy this news too. If you read the advertisements, let them show you how, where, what and when to buy; they will save you dollars... and put money in your pocket just as surely as if you purchased a bargain gold-piece.

## IMPORTANT

When you ask for a product by name, as a result of advertising, do not accept a substitute—substitutes are offered not as a service to you, but for other reasons.

Fortunately for most of us, a state of happy health does not depend on strength. But like any other piece of machinery, the human machine must be properly regulated to run right.

There is a simple means of regulating the system. It makes an amazing difference in the way your organs function and the way you feel.

It pays most men and women to try this regulation. You may consider yourself in fairly good health today, and after only two weeks' regulating realize you were only half alive.

## A medicine that brightens people's lives

This means of stimulating the system to new life is a prescription, and it is known as Dr. Caldwell's Syrup Pepsin. It's derived from fresh herbs, active salts, and pure pepsin. Every druggist keeps it on hand. Get some today, and take some tonight. Whole households have blessed this family doctor's prescription. It has saved old and young from sluggish spells—and from downright sickness. It's the only tonic you may need; the only laxative you need. It is the most blameless and remarkable medicine you ever tasted. Try one bottle of Dr. Caldwell's Syrup Pepsin and compare your condition with how you felt before!

# FARMERS

(By W. H. Darrow, Extension Service Editor)

Years ago above-ground silos were tried extensively in Texas and for the most part failed, or at least, ceased to be used. In the last two years county agents have been showing farmers how to dig and fill trench silos with feed at a ridiculously low cost. Now they are spreading rapidly all over the state. Last year 393 new ones were dug, and a total of 523 filled.

To extend the spring garden season into the summer, and to advance the fall garden season by at least one month, concrete tile sub-irrigation systems were installed in 383 farm gardens last year with the help of farm and home demonstration agents. The cost for home-made tile was about 1 cent per foot.

American cheese totalling 118,813 pounds was made on Texas farms last year by home demonstration club women and girls. It takes about one gallon of milk to make one pound of cheese.

In 54 Texas counties last year 2854 farmers were helped by county agents to grade products to secure premium prices on the market. Among the products graded were fruits and vegetables, corn, turkeys and eggs.

To aid in getting a supply of sorghum syrup for home use and for sale, 36 Texas county agents last season assisted 673 farmers in making high grade syrup. An average of 80 gallons of syrup was made from one acre of cane.

An average return of \$122 per tree, of which three-fourths was listed as profit, was made by the 1658 Texas farmers last year who had previously budded native pecan trees to improved varieties with the help of county agents. The report is compiled from 66 counties. The average tree yielded 20 pounds

## Garden, Pantry Aid to Budget of Haskell Woman

The family garden and the full pantry has been the power behind the throne for Mrs. Ed Welsh, a home demonstration club woman of the Midway community. At the close of 1932 before meat canning season, Mrs. Welsh had more than 600 containers of food valued at \$132.42 and fresh vegetables produced and used at home were valued at \$98.76.

"Many of my containers have been filled three and four times during the past year," states Mrs. Welsh.

"In return for work done in the house, a negro woman living on the place has been paid with canned corn, peas and beans. She will help with the garden and poultry this year for fresh vegetables and poultry products.

"We have plenty of canned goods to last us until canning season again and we are planning to use tile sub-irrigation especially for tomatoes. My budget this year will be larger than last year," reports Mrs. Welsh.

A masked bandit who did not speak but handed his victims type-written instructions, including a threat of death, held up Mrs. Lillian Hutter in her grocery store at Buchanan, Mich., and robbed her of \$5.00.

Mrs. Edith Knowles of Chicago testified in her divorce suit that she led a "hand-to-mouth existence" while her husband followed a "glass to mouth life."

## Washington Name Is Longest on List

George Washington, first President of the United States, also had the distinction of having the longest name of any of the 31 chief executives who have followed him.

"Washington" is the only 10-letter name among them. Second honors for long last names go jointly to President-elect Franklin Roosevelt, and to Theodore Roosevelt, twenty-sixth President.

James K. Polk, eleventh President, and William H. Taft, twenty-seventh President, held jointly the distinction of having the shortest names.

# A Penny In Your Hand

---

What was your first adventure as a customer before the world? Possibly as a very tiny tot . . . with a penny in your fist; and your nose flattened against a show window. Long you debated with yourself—cocoanut strips, or licorice pellets, or chocolate soldiers? It was serious business, for you and the storekeeper.

But he put his best values before you, and in the end everybody was happy—you, because you'd made a satisfactory purchase; he, because he'd made a satisfied customer.

In that transaction blossomed a buying acumen which no doubt has helped to serve you ever since. Likewise, the aim-to-please policy of that storekeeper is to this very day the golden rule of successful merchants and manufacturers. Read any of their advertisements and see. Could they afford to spend money for advertising space and then disappoint you? Of course not. The goods they advertise are their best offerings. They count on them to win both your immediate and your continued patronage.

When there's something you need or want—or might want if attractively made known to you—clutch your pennies and greenbacks in either hand; study the advertisements in this paper; and surely you'll be guided in the direction that leads to the most for your money.
