Gilbert Film Has Vivid Background

Trekking to the summit of Ont Mountain, California, to a 5000 foot elevation for location scenes in "West of Broadway," John Gilbert's latest starring vehicle which comes to the Texas Theatre Friday and Saturday, proved a precarious job. For this journey, used trucks, heavy construction and camera equipment, horses and passenger cars had to form a caravan, guided by mountain cowboys over the steep grades and over yawning chasms nearly a thousand feet deep.

At some of the steeper grades the heavy trucks had to be turned about by leverage and ceased up the inclines in reverse gear. Several thousand feet of lumber had to be hauled up also, for the construction of the rough roads used in the mountainous region of the Sierras.

A very enthusiastic highway meeting is being held today at the court house in this city with representatives here from Graham, Newcastle, Throckmorton, Haskell and Aspermont. The object of the meeting is to cooperate in an effort to promote the immediate construction of Highway No. 120 from Graham west through Young, Throckmorton, Haskell and Stonewall counties.

Judge L. D. Westfall of Stonewall county was elected temporary chairman of the meeting. At the morning session the delegates from the different counties made reports regarding the work that had already been done in their respective counties. At the noon hour the visitors were entertained in a joint meeting of the Lions and Bonehead Clubs at the Tonkawa Coffee Shop.

This afternoon, Judge W. R. Ely, chairman of the State Highway Commission is expected to be present and will address the meeting.

A more detailed report of the meeting will be given later.

REVIVAL MEETING TO CLOSE FRIDAY

The evangelistic meeting of the First Christian Church will close on Friday June 24, with an evening service beginning at 8:15.

The meetings have been attended by large crowds. There has been splendid preaching by D. R. Lindley pastor of the First Christian Church at Big Spring, and the sermons have brought good response. There has been unusually good congregational singing, in addition to fine special music at each service.

The church has been greatly encouraged by this meeting and is now planning a bigger and broader program of work and service in this city.

Your presence is especially invited in these latter services of this revival for we believe you will receive inspiration and benefit from them.

"JUNETEENTH" CELEBRATION IS A HUGE SUCCESS

The 67th annual Emancipation Day celebration was a complete success among the negroes of Haskell.

Rev. H. C. Mitchell delivered the address of the day, a well prepared talk, bringing the negro race from the Biblical times to this modern age, telling of his achievements.

At one o'clock a barbecue dinner with the "extra trimmings" was served to a crowd of three hundred. The ball game, Haskell vs. Munday, proved to be a "comedy of errors"—Munday winning by a huge score—24-22.

The minstrel show was well under way when a sandstorm came up from the well attended show, thus putting to an end the festivities for the "Juneteenth."

We as members of the Emancipation Club and the negro people of Haskell, wish to thank Mr. Ford, of the Good Eats Shop, who contributed the bread for the occasion, the Fair Association for the use of the park, merchants and citizens who gave generously to make the day a success.

J. J. Tyler, President. George Wilson, Sec'y.

THROCKMORTON CANDIDATE SUES HASKELL SHERIFF

Thursday June 16th, Tom M. Miller, candidate for County Judge of Throckmorton county, filed suit in the District Court of Haskell county, Texas, against W. T. Sarrels, sheriff of Haskell county, and his official bondsmen, H. W. Buckner, J. F. Kennedy, Tom Davis and J. A. Mapes for \$20,000.00 damages.

It is alleged in Miller's petition that he was falsely imprisoned in the Haskell county jail by W. T. Sarrels, sheriff of Haskell county, and that while so imprisoned his opponent, Ewell Condon, and Commissioner Berry Redwine, his political enemy, was brought to the Haskell county jail by Mr. Sarrels before sun-up June 17th, 1932, where they grinned at him through the bars and bore the glad tidings to the voters of Throckmorton county that plaintiff was in jail in Haskell and that the fact of Miller's imprisonment was widely circulated and is generally known to the voters of Throckmorton county.

It is alleged in Miller's petition that he was placed in jail by the defendant W. T. Sarrels after a personal argument over the release of a prisoner held by the said defendant, who was confined in the Haskell county jail without having first been taken before a Magistrate, as required by law.

Miller alleges in his petition that he was deprived of his personal liberty without due process of law and in violation of the Constitution of the State of Texas, and his prayer for relief prays for judgment against W. T. Sarrels, sheriff of Haskell county, Texas, and his official bondsmen, H. W. Buckner, J. F. Kennedy, Tom Davis and J. A. Mapes in the sum of ten thousand dollars actual damages and exemplary damages in the sum of ten thousand dollars.

According to the records of Justice of the Peace D. T. Dotson of Precinct No. 1, Haskell, Tom Miller and a man by the name of J. D. Brown were arrested on June 6th, and charged by complaint with drunkenness and disturbing the peace. Both parties paid fines in the Justice Court on pleas of guilty Tuesday morning June 7th. Brown entered his plea of guilty to drunkenness. Miller, according to Judge Dotson, admitted that both charges were true, but stated that he was a candidate in Throckmorton county and if he pleaded guilty to the charge of drunkenness it would ruin him in his campaign for County Judge, and Judge Dotson informed him that he did not want to injure anyone and that he would accept his plea of guilty to the second charge of disturbing the peace, as he did not intend to collect but the one fine. Miller then entered a plea of guilty to the charge of disturbing the peace, and paid a fine.

According to officers, the arrests were made after a lady in the vicinity called the sheriff's office and asked that they come and get the two men.

F. L. Daugherty and daughter Miss Ermaie made a trip to Streetman the first of the week. They were accompanied home by Mrs. Daugherty who had been visiting her sister, Mrs. Neppie McDonald, Canyon. Mrs. Cooper also returned with them.

Mr. and Mrs. Hablen Boggs and family of White Sulphur Springs visited the family of Mrs. J. B. Nobles and A. B. Boggs over the week end.

Pouring of concrete on Highway No. 18 will begin next week according to information received here. The L. E. Whitham Company, contractors, already have a large crew of men at work in the gravel pits getting out material for the work.

The first of the week it appeared that there would be trouble over the labor to be used on the job, as men had arrived on the scene from as far away as Oklahoma, with the expectation of beginning work. Local people had been waiting for the work to begin for several weeks, feeling that as taxpayers they were entitled to first consideration, and trouble was threatening between the local and out of the county workmen. Sheriff Sarrels and Commissioner Darden through their efforts, have secured an agreement with the contractors to use only Haskell county labor where possible. After this agreement was made a number of men from out of the county left for their homes.

Sheriff Sarrels states that plans are being worked out at the present time as to just how the labor would be handled. A labor office will probably be opened in Sagerton and someone who is familiar with the work and knows the people of the county placed in charge of the registration, if this system is used.

As soon as the plans are completed Sheriff Sarrels or Commissioner Darden will be glad to inform anyone just what steps will be necessary in order to be in line for a job on the construction work.

EGGS PAY FOR CLUB ACTIVITIES

Eggs brought to each club meeting has made possible the year's club activities for the New Mid Home Demonstration Club of the New Mid community east of Rochester.

Early in the year we planned our year's work and realizing that we needed some funds to carry on regardless of the scarcity of money we decided to bring eggs to each club meeting held. Some brought one dozen, others two dozen. The finance chairman filled her egg crate at each club meeting, sold the eggs and deposited the money in the treasury," according to Mrs. Henry Smith, secretary of the organization. "The money from eggs paid for our year books, our part of the county budget, bought our books for a play which was given, the admission price for which was five and ten cents or one dozen and two dozen eggs. Besides miscellaneous expenditures we have the money in the bank to send our delegate to A & M Short Course, at College Station."

Mrs. Scott Hutchins is president of the club.

W. W. Johnson Raises Good Crop of Irish Potatoes

He favored the Free Press with a sack full that were as fine as could be grown anywhere.

Sparkling Fun In "Private Lives"

Broadway's most sensational farce hit supplied the story and intriguing title of "Private Lives," coming to the Texas Theatre next Monday and Tuesday with Norma Shearer and Robert Montgomery costarred by Metro-Goldwyn-Mayer under direction of Sidney Franklin.

It is high times at a breakneck pace and, in the opinion of critics, is the most hilarious picture offered in many months. Both Miss Shearer and Montgomery seem perfectly at home in its happy-go-lucky atmosphere and it is easy to imagine that they had quite as much fun making the picture as the audience did in laughing at the gay rib and sparkling situations.

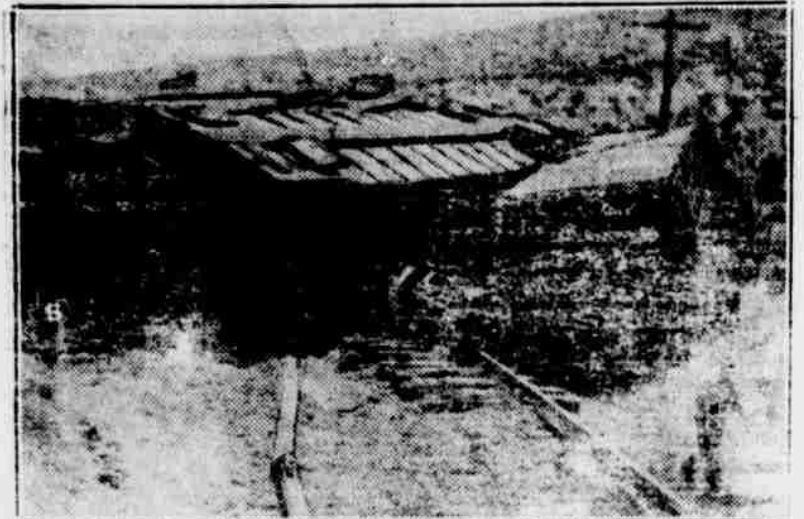

Mr. and Mrs. W. W. Weatherby and their father, T. W. Weatherby have had as their guests the past few days Mr. and Mrs. E. L. Adams of Spur and Mr. and Mrs. Oren Sisk of White Sulphur Springs.

While long-tailed monsters lived in PENNSYLVANIA

THE Devonian Age of a hundred million years ago was the source of two wonders: vast inland seas—and the crude oil found in the Bradford-Allegheny District of the Pennsylvania field. Sinclair today refines this crude into Sinclair Pennsylvania Motor Oil. Bradford-Allegheny crude is so old that it had already undergone millions of years of its mellowing and filtering process when dinosaurs lived in Pennsylvania. Today it is Pennsylvania's costliest crude—a product of the perfect oil-forming conditions in the Devonian Age plus a hundred million years of Nature's priceless treatment. Aches and PAINS

When you take Bayer Aspirin you are sure of two things. It's sure relief, and it's harmless. Those tablets with the Bayer cross do not hurt the heart. Take them whenever you suffer from:

- Headaches Neuralgia Rheumatism Lumbago Neuritis Toothache

When your head aches—from any cause—when a cold has settled in your joints, or you feel those deep-down pains of rheumatism, sciatica, or lumbago, take Bayer Aspirin and get real relief. If the package says Bayer, it's genuine. And genuine Bayer Aspirin is safe.

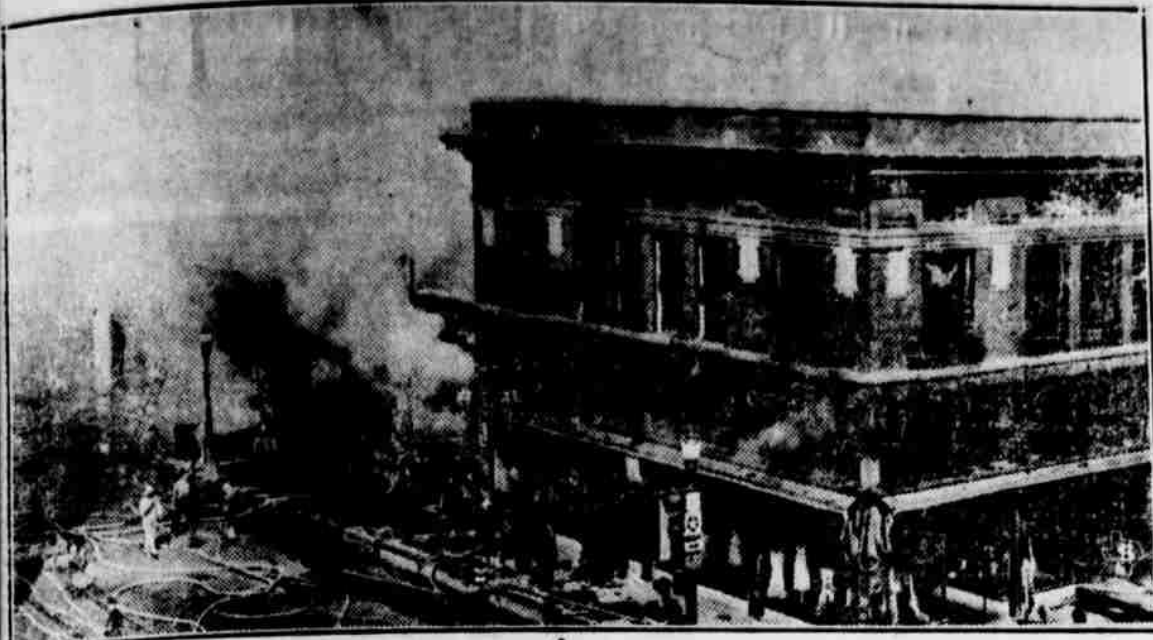

Aspirin is the trade-mark of Bayer manufacture of monoacetic-acidester of salicylic acid.

FELT SICK AFTER EATING

"None of my food agreed with me—I would frequently taste what I ate, long after my meals, and I did not see a well day for weeks," says Mr. Peter Snoger, 329 S. Elmwood St., Kansas City, Mo. "I began taking a pinch of Black-Draught after each meal, and kept this up for weeks. Gradually the pain left me and I began to feel better. I ceased to be troubled with gas, and could eat what I liked."

ELECTRIC REFRIGERATION
to Protect His Precious Health

As you no doubt know, your baby's future health and happiness depend, in a large measure, on the nutritive quality and the purity of the foods he receives now. The matter of proper nutrition is taken care of through the scientific diet prescribed by your doctor . . . but it's your job to insure the other requisite, Purity!

And here's how you can do it: Health authorities agree that to prevent undesirable bacterial action foods must be kept at a constant temperature of below fifty degrees. This constant cold so necessary to the safe preservation of baby's foods is assured automatically through the mechanical perfection of the modern Electric Refrigerator. So the simplest answer to the problem of safely guarding health is through use of this invaluable Electrical Servant!

Ask one of our Trained Representatives—or your Electric Appliance Dealer—to explain more fully the vital importance of modern Electric Refrigeration. You'll be delighted with the Economy, Comfort and Convenience of an Electric Refrigerator—and surprised to learn how easily you can arrange this necessary purchase under a Convenient Payment Plan.

Have you heard the story of the little boy who went to school for the first time. When he returned home his father inquired how he liked it.

"It's all right but they ask too many questions" said the lad. "First they asked me where you were born and I told them. Then they asked me where mother was born and I told them. When they asked me where I was born I had to tell a lie."

"Why?" asked the father.

"I didn't want to say I was born in the Woman's Hospital and have them think I was a sissy, so I told them it was in the Yankee Stadium."

HERE'S A STORY WITH A GOOD OBJECT LESSON

"For years the pelicans in Santa Monica Bay had been fed by the surplus catch of fishermen until they formed the habit of eating without work.

"This year high seas and changing currents cut down the catch until there was no longer a surplus. The fishermen noticed that the pelicans languished and grew thin, and it dawned on them that the birds had forgotten how to fish for themselves, so they obtained some un-pampered pelicans from down the coast who had never been ruined by easy living and free fish. They turned them loose among the starving birds who sat about on the beach and complained of the depression.

"The way those imported pelicans went out after their own fish was an eye-opener. Pretty soon the hungry ones quit watching and tried it themselves. They discovered that there were plenty of fish in the sea for the bird with energy and enterprise and they quit talking about the depression."—F. L. Purdy, of the San Francisco News.

THE "BONUS" MARCH

The present march of many of the war veterans to Washington, D. C., to demand full payment of their bonus, is ill-advised and does not have the sympathy of a large majority of those who served in the World War. It is in direct violation of the action taken by the American Legion at their last national convention.

With the President, Congress and the country alarmed over the mounting deficit; with the largest tax measure ever enacted in time of peace; with strenuous though belated efforts made to curtail Federal expenses, and with the probability that even these efforts will not balance next year's budget, there is naturally no enthusiasm for incurring vast, new obligations of any kind that can be avoided.

Moreover, by the very manner of their appeal they have created an unfavorable impression. They alienate public sympathy when they demand transportation and seize trains or get them by threats. They naturally exasperate Congress when they try to force their claims in a time of great stress and strain, and they overtax the resources of Washington to provide accommodations for them.

Like all other citizens they have the right to petition but there is a right way and a wrong way. Many of these men are no doubt sorely pressed by unfavorable economic conditions, and the sympathy of the country is with them in their need. They are entitled to any favors public or private, that can safely be passed their way.

However worthy their demands, danger is that the present move will result in more harm than good. Violence is not likely to help any cause, however worthy.

SOME PLAIN WORDS

B. C. Forbes, editor of Forbes Magazine, in an open letter to our so-called "big" bankers, does not mince words in his denunciation of their shell-game financial methods. We quote from his letter:

"Without your active aid there would not have been foisted upon the American people the tens of billions of dollars of foreign bonds and domestic stocks during that frenzied period.

"It was you who sponsored the unprecedented outpouring of securities now worth less than 20 cents on the dollar. It was you who readily lent untold millions to encourage their purchase. Thus did you foster the grossest inflation America has ever known.

"What are you doing to check the grossest and most disastrous deflation America has ever suffered? How ready are you to lend money on these same securities today? Are you now doing just as much to bring about the destruction of market values as you formerly did to inflate market values?

"Please realize, gentlemen, that you are on trial at this moment before the bar of America."

It is estimated that more than two billions of frozen credit still exists, despite the efforts of the government to liquidate it through the Reconstruction Finance Corporation and the Glass-Steagall act.

Taking note of this obstacle to recovery, Mr. Forbes warns these master minds of finance that unless they now do their part to undo the catastrophic trouble they played a leading role in creating—that is, by loosening up credit—that other measures more drastic than the Glass bill to fix their responsibility, and regulate their action, will surely be passed.

The most noted "lame duck" of the Hawley-Smoot tariff act was the principal co-author, Representative Hawley himself, who was defeated for renomination by his constituents. The fate of some of the most prominent advocates of this trade-wrecking measure has been postponed until November.

The largest tax measure ever enacted by the United States in peace time was approved by President Hoover and is becoming effective. It provides for the collection of \$1,118,500,000. Regular levies in the bill become effective on July 1, while the excise taxes started Tuesday. While these extraordinary levies will probably balance Uncle Sam's budget, they will unbalance the budgets of many of the taxpayers.

Fifty and Fit

A MAN is as old—as young—as his organs.

At fifty, you can be in your prime.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference in many ways.

This famous doctor's prescription is a delicious syrup made with fresh lemon, orange, lemon, and grape juice. It starts the good work that

rests upon. That's all you need to drive away the dullness and lassitude of a bilious spell, and all the system of that slow poison that saps your strength. It's better than a laxative for tired bowels, and makes habit-forming laxatives you get take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels. It's better than constant worry about the condition of your bowels. It's better than constant worry about the condition of your bowels. It's better than constant worry about the condition of your bowels.

COMFORT for COLICKY BABIES

THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies and children, suffering with digestive upsets, colds and fever. Keep genuine Castoria on hand, with the name:

H-D CLUB WOMEN PLAN FOOD SUPPLY BUDGETS FOR YEAR

The farm food supply for one year may be planned so that the average family of five may be fed with only a small per cent of that supply coming from the grocery.

According to Miss Eileen F. Partlow, home agent, Haskell county home demonstration club women have set as their goal 85 per cent of the 2023 farm families making farm food supply budgets. Each of the 400 club members are assisting 4 other women in making and filling this plan.

"One green vegetable, one starchy and one other vegetable, two fruits, two proteins, one whole grain cereal, and one gallon of milk should be served daily to safeguard the health of the family," said Miss Lola Blair, nutrition specialist from A & M College Extension Service in a demonstration given to a group of Jossett Home Demonstration club women June 14.

"Milk supply for one year should amount to 365 gallons. Vegetables required 728 pounds starchy foods divided into 628 pounds of potatoes and 100 No. 2 cans of corn; 728 pounds of leafy vegetables, secured through 608 pounds used fresh and 120 cans; 729 pounds of other vegetables including 80 cans. The fruit for the family should total 1456 pounds, 906 of which should be fresh.

"Most farms use more than 738 pounds of protein which is the amount required. One beef canned and three hogs cured and canned and 96 pounds of chicken used fresh, 16 cans include the total meat supply 52 pounds of home made cheese, 26 pounds of nuts and 156 dozen eggs and 160 pounds of dried peas and beans should be added to the protein supply.

"Cereals require 437 pounds and are divided into 312 pounds each of flour and corn meal and 52 pounds of ground wheat for oat meal. Faty foods take only 208 pounds, 52 pounds each of salt pork and lard, and 104 pounds of butter. Sweets required are 234 pounds, 52 pints of molasses, 26 pounds preserves, jams and jellies and 23 pints honey.

"The products to be bought from the grocery store are listed as follows: Sea food to prevent goiter, 52 pounds of salmon, sardines or oysters; 156 pounds sugar; cereals 104 pounds grits, rice and macaroni or spaghetti; miscellaneous, 52 pounds of coffee, 12 pounds of tea, 4 boxes salt, 4 cans baking powder, spices and extracts."

Miss Blair states that this budget may be varied to accommodate all conditions. For instance, half the fruit supply may be obtained from garden fruits such as melons, tomatoes, and rhubarb; and where there is no orchard at all, the entire fruit needs for the year may be gotten from these garden fruits and from wild berries. The growing season of some of the more needed garden varieties may be prolonged by successive plantings, by irrigation, and by fall gardens.

Miss Bessie Terry of Stamford spent the past week end with Mrs. Oscar Oates of this place.

Hallie Chapman of the Vontress community was taken to Abilene Tuesday to a hospital where he underwent an operation for appendicitis.

GIVES HINTS ON THE CANNING OF VEGETABLES

(By Eileen F. Partlow, County H. D. Agent)

"One hour from the garden to the can" is a most helpful slogan in obtaining the best grade of canned vegetables. Proper processing in the pressure cooker, rapid cooling where possible and proper size containers make that products which is a pleasure to place on the table when fresh garden products are out of season.

Corn
Only young tender corn should be canned. When a pressure cooker is not available, corn should be dried. Cut corn from cob but do not scrape add enough water to prevent scorching, blanche until milky look disappears, pack hot in No. 2 tin enamel cans or pint glass jars to within one-half inch of top of can or neck of jar, add 3-4 teaspoon salt and process at 15 pounds pressure for 90 minutes.

Snapped Beans or Peas
Snap peas or beans, blanch in hot water in kettle for ten minutes in boiling water, pack hot in jars, shaking down or pressing with back of spoon. Add 3-4 teaspoon salt to No. 2 can or pint jar and 1 teaspoon to quart jar or No. 3 can. Fill can to within 1-2 inch of top, seal and process at 10 pounds pressure for 45 minutes for No. 2 cans, 50 minutes for No. 3 cans or quart glass jars. Bacon maybe added in small amount if desired.

Beet Pickles
Sort beets, putting those of uniform size together. Cut the tops, leaving about two inches of the stem and roots on, until after cooking. Steam under 15 pounds pressure 15 or 20 minutes. Peel, trim and drop while hot into spiced vinegar which has been previously prepared hot.

Spiced Vinegar
1 gallon 4 per cent vinegar,
5 cups sugar,
5 teaspoons mixed spices.
Tie spices in bag. Mix sugar, vinegar and spices. Let simmer about half an hour for the spices to infuse. Drop hot beets in and let boil three minutes. Remove spice bag, pack beets in jar and cover with hot vinegar. Seal immediately and place where they will cool quickly.

Massachusetts Held as Nation's Apple Nursery

Massachusetts is the cradle of American horticulture, according to records in the division of horticulture at the Massachusetts State college. Studies conducted at various times by the college fruit specialists indicate that a total of 142 named varieties of apples have been developed in that state by fruit growers and breeders.

Of those the Baldwin apple probably is the most prominent today. This apple originated in Wilmington about the year 1740, so far as can be determined from old records, and today constitutes the principal variety in New England commercial orchards. Hubbardston is a variety which takes its name from the town in which it was originated approximately 100 years ago.

Benoni, mother, fall orange, rosbury russet, and Tolman sweet are other Massachusetts bred varieties that are still prominent today.

The oldest planted fruit tree in America is a pear tree between Danvers and Salem on the farm once owned by Gov. John Endicott. There is some evidence to indicate that the tree was brought over from England in 1630 by Governor Winthrop.

Hand of Time Falls on Historic Scottish Oak

The old "Covenanters' oak" at Dalsell, Scotland, which has weathered the blasts of storm and time for centuries, met with mishap recently. A violent windstorm bereft the famous "old oak tree of Dalsell" of much of its ancient grandeur. The "Preacher's oak," as it is sometimes called, is known to visitors and picnic parties to the beautiful seat of Lord Hamilton of Dalsell as an object of great historic interest. In the troublous religious times of long ago it is on record that the ousted minister of Dalsell was sheltered and protected by the laird of Dalsell as far as possible, and that he secretly visited the parish and preached to his people from the great oak in front of Dalsell house. The great branches of the tree—each the size of an ordinary tree—grew from the top of the stem, which at four and a half feet from the ground is twenty-one feet in circumference.

Expert Animal Trainer

Karl Hagenson was the first showman to train large carnivorous animals of different species to perform together. He also introduced a new way of confining animals in outdoor menageries. In his zoological garden at Stellingen, a suburb of Hamburg, there were no gratings nor wires about the space occupied by groups of large mammals, broad mounds of water being employed to confine them.

Scarlet Fever

In scarlet fever, desquamation, or peeling, in itself plays no part in the transmission of the disease. The organism responsible for scarlet fever customarily lodges in the nose and throat, or may appear in the discharges from an ear or glands (cervical adenitis), Hygieia Magazine explains in answer to a question.

Biblical Quotation

"Of making of many books there is no end" is found in Ecclesiastes, chapter 12. While the authorship of this book of the Bible was long attributed to Solomon, scholars have not agreed upon this point. In fact, the modern point of view is that the book is a compilation of the writings of several men.
