MRS. FERGUSON IS DECLARED NOMINEE FOR GOVERNOR

Those who attended the Democratic Convention this week at Lubbock, with the expectation that the "fireworks" would be turned loose, must have been sadly disappointed according to the Haskell county delegation who returned Tuesday.

Practically no opposition was offered by the Sterling forces, and the convention was all Ferguson. Before the close of the convention the body adopted a platform written by James E. Ferguson, and embodying the 10 planks upon which his wife made the race for Governor.

FOOTBALL NEWS (BY A FAN)

Hot weather and some good hard drilling on the part of Coach Richey is making the Haskell football market go up. Now folks, don't get the idea that H. H. S. isn't going to have a bunch of huskies this year, because we have some as big as ever, and just as eager to play.

Ralph Bernard is about as good as passing the ball as any we have had to date, and I am sure he will be helping Jack Kimbrough pass the ol' pigskin if he does not do all the work himself. Ralph looks like a cinch to letter as he handles himself with all the ease and confidence that any coach would like to see. Kimbrough of course looks like a cinch bet in the backfield as he can tackle, pass and use his head. He probably knows as much football as any man on the team.

Rod Clifton is big and strong, and can take care of one side of the line by himself. Opposing linemen will have plenty of trouble with Clifton—don't forget that. Bates carries his 180 pounds like a flyweight and looks like a letter man sure. It is too bad that this is his last year as we could use plenty of men like him.

Eastland is booting the old ball just as far as Bill Kimbrough ever did and he looks as if he will be able to fill Bill's shoes—and that is no easy task for anyone, even a college player. Sherman is perhaps as conscientious a player as there is on the squad, and is always bringing some of the line men could profit by hustling as he does. Sherman will probably gain as much ground as any player we have. And ground gained makes touchdowns.

Why don't we have someone interested enough in football to help get the practice field in shape? It is hard to train in a patch of weeds and weeds. The only one who doesn't mind it is the only one who is giving the horses plenty of exercise, and he is in good luck.

STAMFORD BOY FATALLY INJURED WHEN HIT BY CAR

Joe J. Henson, 6-year-old Stamford boy, died Wednesday night from injuries received in the afternoon when he stepped into the path of an automobile driven by Col. R. L. Penick. The child was the son of Rev. and Mrs. S. J. Henson.

The accident occurred in East Stamford as the boy crossed Highway 18, on his way home from school. Col. Penick said the child walked from behind another car and was in the path of his machine before he saw him.

Col. Penick, who last week underwent the strain of an all-night vigil on a house roof while floodwaters of the Brazos Clear Fork swept his own dwelling, Lillias Lodge, was perceptibly shaken by the tragedy, and remained at the hospital late last night watching with the parents at the little boy's bedside. He was returning from his home, where he had spent the day in reconstruction work, when the accident occurred, about 4:30 o'clock. T. J. Pennell of Stamford was riding with him.

BULLINGTON ISSUES STATEMENT TO PEOPLE OF TEXAS

The following statement has been issued by Orville Bullington, candidate for Governor on the Republican ticket, at Wichita Falls, Sept. 10th:

"I have repeatedly said, in view of the menace which now threatens Texas, that partisan politics must be adjourned. Although I am a Republican, I am a Texan first, and I would despise myself if I allowed any consideration of personal or partisan advantage to influence my course in the crisis which now confronts our State. My sole desire is to save Texas from the calamity which threatens it, and I am ready to make any sacrifice to that end, and I want to cooperate in every possible way with those who are working to accomplish the same purpose."

"Wodrow Wilson was right when he declared that political parties can have no legitimate purpose except to serve the public welfare."

"I am proud of the fact that the people of Texas have demonstrated on many occasions that they put principle above party. It is my desire to work with such Texans and to take no selfish advantage, either personal or political, because of the situation which we now face."

"I am as much of a Southerner as any other Texan. For many generations my people have lived in the South. Both my grandfathers were Confederate soldiers. Naturally, as one who loves Texas and its people, I would feel greatly honored to be chosen Governor, but my election cannot be and will not be considered a party victory, but it will be a victory for civic righteousness, an 'for honesty and responsibility in Government."

"Those who love Texas are willing to forget political and factional differences long enough to unite in a crusade to save their State."

Mrs. F. M. Mott of San Angelo is visiting her daughter and family, Mr. and Mrs. Arthur Edwards.

HOLT GROCERY STORE ROBBED MONDAY MORNING

The safe in the W. A. Holt Grocery Store was robbed Monday morning sometime between 9:30 and 11 o'clock and about two hundred dollars in silver was taken.

The safe was located in the back of the store and it is believed that the thief lifted the cash drawer out of the safe and made his escape through the back door.

The officers are working on the case and have questioned two or three suspects and it is believed that an arrest will be made soon.

FUNERAL SERVICES FOR R. D. BELL HELD WEDNESDAY

R. D. Bell, age 74, a pioneer resident of this section, died at the home of his daughter, Mrs. Elizabeth Martin, Tuesday afternoon at 4 o'clock. Funeral services were conducted at the family home Wednesday afternoon at 3 o'clock by Rev. A. W. Gordon, pastor of the Methodist Church. Mr. Bell joined the Methodist Church about 35 years ago and was a christian of the old school, though his health during the past few years prevented him from attending church services regularly. He was interested in the work of the Christian people. He was a man who was interested in the younger generation and assisted a number of young people in gaining an education and getting a start in the business world, without any thought of personal gain or notoriety.

Mr. Bell moved to Haskell about six years ago from Knox County, where he had made his home for a number of years. He was born in Pittsburg, Pa., and when a young man moved to Springfield, Mo., where he was engaged in the newspaper business. He was a graduate of the department of law of the University of Iowa.

He was married to Miss Lucy Northfleet, January 10th, 1882, to this union was born six children, three having died in infancy. Those surviving are Mrs. Elizabeth Martin, Haskell; Mrs. Oran Driver, Benjamin; and Mrs. W. W. Gillette, Littlefield. He was married the second time to Mrs. Lula Mills of Jacksboro, Texas, in 1890.

Mr. Bell came to Texas in 1885, entering the loan business and had continued in that profession until his death. He had represented the John Hancock Loan Company here for the past six years.

Other relatives surviving are: One step-daughter, Mrs. F. N. McClure, of Wichita Falls; nine grand children; one brother and two sisters. Funeral arrangements were in charge of W. O. Holden of Jones, Cox & Company.

Active pallbearers: C. J. Reese, L. R. Burton, Hollis Atkinson and Hill Oates of Haskell; Chester Borden and Will Moore of Munday. Honorary pallbearers: L. D. Ratliff, M. B. Watson, Jim Isbell, Dr. L. F. Taylor, C. V. Payne, J. D. Montgomery, Emory Mansfield, R. P. Simmons and W. M. Martin, Haskell; and Mr. Bailey of Munday.

GOVERNOR STERLING FILES CONTEST IN DISTRICT COURT

PERKINS-TIMBERLAKE CO. TO OPEN HERE SATURDAY

Perkins-Timberlake Co., will open for business Saturday morning in the Grissom building on the north side of the square, according to announcements that are being distributed today by circulars and their large advertisement in this issue of the Free Press.

Mr. Taylor, the congenial manager of the new firm, has been busy the past 10 days with a corps of assistants arranging the new merchandise as it arrives from the factory and wholesale houses. He states that they expect to have on hand Saturday morning for the opening, one of the most complete stocks of high grade merchandise ever placed on display in this section. Every article in the store will be new and right up to the minute in style and design, according to Mr. Taylor, and the prices are so low the public will be surprised at how cheap real merchandise may be purchased.

The bitter fight for the Democratic gubernatorial nomination reached the courts Monday of this week when Governor R. S. Sterling asked that "upwards of 20,000 illegal votes" be thrown out and that he be declared the nominee. The contest was filed before District Judge W. F. Robertson in Travis county. District Attorney Sam McCorkle of Mexia filed the petition.

The action was taken while the state democratic convention was meeting at Lubbock to name Mrs. Miriam A. Ferguson as the party's standard bearer. On the basis of returns certified yesterday by the state democratic executive committee, Mrs. Ferguson was nominated by a majority of 3,333 votes out of a total of approximately 950,000 tabulated.

The suit alleges seven kinds of illegal practices in connection with the run-off primary August 27th. It claimed that such practices existed in 130 of the state's 254 counties. A list of those counties was attached.

Governor Sterling contended that Mrs. Ferguson was not legally qualified to run for the office of governor or to hold that office. The only reason given for that contention was that Mrs. Ferguson was ineligible to be governor because her husband, James E. Ferguson, is a practicing attorney.

Profitable Use of Run-Off Water In West Texas

The Spur Experiment Station reports the use of a simple and inexpensive system of diversion terraces for impounding the runoff water on June 20 from a two-inch rain resulting in the application of seven inches of water on a 120 acre tract of land. Sudan grass was planted on thirty-five acres of this land, and as a result of this artificial irrigation 62 head of Hereford yearlings and 15 head of work stock and milk cows were grazed on the 35 acres from July 18 to August 15, the Hereford yearlings making a gain in this period of 3850 pounds worth at 5 1/2 cents, \$212.08, or \$6.00 per acre, not including the grazing of the 15 head of work stock and milk cows for the period. In addition to the grazing, a hay crop of 30 tons was harvested, and at the end of the period the grazing on this tract was considered better than at the beginning, which illustrates the practicability of using waste rainfall water to great profit by diverting it onto farm land.

H. D. Council Report Shows Big Amount Canning

A report compiled from the roll call during County Home Demonstration Council given by the members representing various clubs of the county shows 46,289 containers of food conserved for the year's food supply. To this supply of canned fruits, vegetables, pickles, preserves, and jellies is yet to be added dried vegetables, home made cheese and the meat supply of pork and beef, which proves Haskell county farm people have been wide awake preparing the farm food supply.

With pantries full and fall gardens coming on the home demonstration club exhibit and the culinary department of the County Fair promises to far surpass any exhibit of products yet shown in the county.

Sagerton

The week's heavy rains caused the railroad bridge on the Valley Railroad, crossing the Brazos River southwest of Sagerton, to wash out, this being the worst wash out this bridge has had. The embankment on the west end of the bridge was washed out. There is a large crew of bridge workmen working on it, and it will be made ready as quick as possible.

The mail from Spur comes down and is transferred over on the highway bridge, thus making connection with the other trains and mail at Sagerton.

The work on Highway No. 18 will start up again this week if nothing more prevents.

THE SMALLER STORES

Pessimists have long predicted the gradual extinction of the small stores and their absorption by the national chains.

"It is not pleasant to the small merchant to be dragged behind the counter as a salaried employe; a little spoke in a big wheel."

The assumption was that the small independent merchant could not survive in the face of competition by these large organizations.

But it happens that this doleful prediction is not of recent origin. It was written and published in the Springfield Republican in 1895—37 years ago.

Naturally those which have succeeded are the ones which have kept abreast of the times, adopting new methods and policies as occasion demanded to meet the keener competition presented by the larger enterprises.

WHY FARMERS STRIKE

An Oklahoma farmer recently made an investigation in his state regarding comparative prices of farm products and commodities which the farmer must buy.

"I found the average price of oats to be eight cents per bushel. In other words, one bushel of oats would pay for two postage stamps and two post cards.

"I found the price of butter fat to be 10 cents per pound. In the grocery stores, standard brands of coffee are selling at 38 cents a pound.

"I found cotton selling for four cents a pound. This cotton made into a shirt cost \$1.60.

Such facts as these, together with the disproportionate load of taxation borne by agriculture in all parts of the United States, explain why many farmers for the first time in the history of the country have gone on a strike.

U. S. GIRLS IN OLYMPIAD

So many world's records were broken in the recent Olympic games in Los Angeles that the followers of sport are still gasping at the devastation.

Besides, American girl teams won the running and swimming relay races, in both of which new world's records were made.

The bright particular star in this galaxy of American girl athletes was Mildred "Babe" Didrickson, of Dallas, Texas, who was the sensation of the Olympiad.

Miss Didrickson is perhaps the greatest all-around woman athlete the world has ever known.

And Babe Didrickson is only 19 years old. She may even surpass her recent amazing performances in the Olympiad of 1936.

WISDOM FROM EDISON

"When the government enters business, it simply mixes a lot of politics with a little business." The late Thomas Edison said that.

The experience of the past few years has demonstrated the truth of this. We have seen government in the farming business, the printing business, the paint business and a multitude of others.

"Keep government to the business of governing" would be a good motto.

DAYS WE'LL NEVER FORGET

After you've washed your hands for some of the big fellows and...
Then decide, before pulling for shore, to try once more - just for luck
And you land the biggest catch of the season! - Man, oh man! Can you ever forget that day??

Smiles

Why take life too seriously? You'll never get out of it alive.

A Scotchman was stripping the wallpaper from the walls of his house when a friend called to see him.

"Well, Robb," said the latter, "Are ye goin' to have a new paper?"

"Na, na," replied Robb, "Ah'm movin'!"

Wife—John, don't you think I ought to let my hair grow?

Hubby—Yes, dear—right down over your face.

Bachelor—You oughta put your foot down and show the wife who is boss around the house.

Husband—Tain't necessary—she knows.

"I'll love only you if I live to be a thousand years old.

"What would you call a man who's been lucky at love?"

"A bachelor!"

Haughty Victorian—So you want to be my son-in-law?

Later model—N'No!—I want to marry your daughter!

Cry of the Texans—Remember the Alamo!

Cry of the Nevadians—Remember the Alimony!

Does your wife select your clothes, too?
A farmer told his physician the he drank as many as fifteen cups of coffee in one day.
An old darky was sent to the hospital and one of the nurses put thermometer in his mouth to take his temperature.

Lots of fellows expect to get to heaven on a scalper's ticket.

Honesty will succeed as a principle where it fails as a policy.

Worry is the mental message that you have poison in your veins.

You can't disappoint the fellow who expects to fail.

He who sees only the seamy side of life is already dead.

If uncomfortable under the world's scrutiny, be sure there is something you ought to know about yourself.

If some people would cling to the cross just like they cling to their opinions they would never lose their grip on the Lord.

If the epitaphs were said over and over again in the home, there would be fewer on the tombstones.

We are living in an age when buoyant youth refuses to worship the dust and bones of a musty past.

Some very poor people have nothing but money. That's the very reason why they can't break into some high circles.

Milk from contented cows is not new, but Wall Street has never been able to make the fleeced lambs contented.

On Personal Side

Most youngsters of school age wouldn't care if the depression forced a shortening of the school term.

Those vindication campaigns are becoming quite popular. Jimmy Walker is the latest recruit.

A news item from Oklahoma suggests that if the state's National Guard should call out Governor "Alalfa Bill" Murray, that would be news.

When prayers of Hopi Indians for rain were answered, the credit was claimed by the tribe's medicine men.

A prominent radio editor, returning from Europe, declares that Europe lacks great radio stars.

A political speaker declares that his party's platform and candidates have "fairly and squarely met" the prohibition issue.

Can You Afford to Do Without Electric Range Superiorities?

The amazing superiorities of modern Electric Cookery are many and varied... And they are so important, to your health and to efficient home-management, that Electric Cookery deserves your serious consideration... AT ONCE!

Modern Electric Cookery means more healthful meals—for all the vitamins and food elements are cooked in... not boiled away as in old-fashioned methods.

With an Electric Range, food-shrinkage is reduced by more than 20 per cent!... And less expensive cuts of meat can be used, with remarkable results, due to the superior cooking method!

—And Electric Cookery brings happy leisure hours. The automatic controls do all the cooking... you merely prepare your meals and extract their finished perfection to the scientific accuracy of this remarkable Electrical Servant!

You'll also appreciate the coolness and cleanliness of modern Electric Cookery. The heat is confined to its job of cooking, so there's no surplus to make your kitchen unbearably hot... and with clean electric heat there are no blackened pots and pans to scour or sooty walls and curtains to clean.

From the standpoints of Health, Convenience, Leisure, Economy, Coolness and Cleanliness—can you afford to do without Electric Range Superiorities?...

... The Answer Is "NO"!!

Call us for an individual investigation of your use of electric service, to determine the cost of cooking by electricity in your home. You may be surprised to know there are many cases where electric cookery actually decreases the total of electricity and gas bills.

FARMS

(By W. H. Darrow, Extension Service Editor.)

Hogs on Camp county farms have increased 50% in number and 25% in quality since four years ago when 25 club boys began raising registered pigs, the county agent estimates.

M. T. Bellamy of Medicine Mound Hardeman County, got 4 bushels less wheat per acre and sold it for 3 cents less per bushel, on a 3-acre plot sowed with untreated seed last fall. There was no smut in the main field where the seed was treated, says the county agent.

A large increase in cowpea planting to build up the soil is reported in Gillespie county this year, due to the fact that low prices for farm products barely pay the cost of cultivation except on the best soils.

Over 200 people recently visited the first trench site ever built in Washington county, constructed by Extension Service plans under supervision of the county agent.

Half the 4-H club boys of Tom Green county will have from 10 to 20 capons to sell when the carloads of capons on feed in the county are sold next spring.

One thing leads to another. Mrs. Eula Murray, president of Pleasant Ridge Home Demonstration Club in Wood county beautified her yard, an important step in which was the re-sodding of the grass which gave a lawn that adds \$50 to the value of the place, she says. This led her to start inside improvements. A clothes closet was built in her bedroom and the furniture re-finished for \$2.61. In the meantime she filled a canning budget of 407 containers to feed the family during the winter, and helped 21 other women

Fifty and Fit

A MAN is as old—as or as young—as his organs.

At fifty, you can be in your prime.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference in many ways.

This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than a load of tired bowels, and unlike habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can meet those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation.

PRESBYTERIAN CHURCH

The interest and activity in our church is showing a decided increase. The attendance at Sunday School last Sunday was 76 if we continue this upward march it will reach 100 by Rally Day, Oct. 2nd. The young ladies class is leading with about 25 present every Sunday. There will be a young men's class organized Sunday with Mr. Ben Chas. Chapman as teacher. We are hoping that this class will soon rival the young ladies class in attendance. The Bible Class is loyal to its excellent teacher, Mr. R. E. Sherrill. The children's departments are doing excellent work also. This is a good place for the entire family on Sunday morning.

The Young People's Vesper services are well ordered, and inspiring. A good program is presented each Sunday evening.

The ladies of the church have resumed their work with revived interest and have a good program planned for the coming months.

There is good attendance and attentiveness at the Church Worship Services.

On Thursday evening of this week a choir is being organized under the direction of Miss Eleanor Martin of the DeWitt School of Music. Next Tuesday evening she will organize an orchestra. Miss Martin has had several years of experience in both lines of work, and we are sure it will be profitable for everyone who comes under her direction.

The weekly calendar:

Sunday School 10 A. M.
Worship 11 A. M.
Young People's Vesper Services, 7 P. M.
Evening Worship, 8 P. M.
Auxiliary, Monday 8 P. M.
