ROUGH to your finger

MEANS... ROUGH IN YOUR STOMACH

It's easy to say they're all alike—and easy to prove they are NOT.

Dissolve a genuine Bayer Aspirin tablet in water, pour it off, feel the fine powder that coats the glass.

Do this with some other tablet; see what coarse particles are left! They feel as sharp as sand, even to your finger. How must they feel these delicate membranes which line your throat—your stomach?

For immediate relief from headaches, colds, sore throat, neuritis, or neuralgia, numbness, rheumatism, or any aching like Bayer Aspirin. It cannot depress the heart.

CHURCHES

METHODIST CHURCH
The pastor and family are grateful for the welcome extended the second year of their stay in Haskell. By action of the Annual Conference recently held in Amarillo, they were returned another year. Good congregations greeted them last Sunday. Next Sunday the pastor will preach at both morning and evening service. Preceding the morning sermon Mr. C. B. Breedlove will in a ten minute talk bring echoes from the recent Conference session. The Conference was a unusually interesting one and Mr. Breedlove's summary of its sessions you will be glad to hear. Special music.

Negro Quartet
At the close of the preaching service at the Baptist church Sunday evening a colored, male quartet will sing. Most of the songs will be the old-time Negro songs that the Whites are so fond of hearing.

THE BAPTIST CHURCH
The past Sunday, was really a great day with the local Baptist church. There were above three hundred in Sunday School and large crowds attended both preaching services. At the morning service eight people joined the church, seven by letter and one for baptism. The subject for next Sunday morning will be "The Central Theme of the Bible." At the evening service the pastor will deal with a large number of passages that seem to oppose the doctrine of the "Final Preservation of the Saints." The explanations will be interesting to all. You are urged to bring your Bible along.

Presbyterian Church.
Last Sunday evening a group of 22 young people and their sponsors from Anson visited the Presbyterian Church here. There were several visitors from near Rule, also.

They arrived about 5 o'clock and enjoyed a get-acquainted fellowship for thirty minutes then were served a plate containing tea, sandwiches, and pumpkin pie topped with whipped cream. More than fifty were served.

At six o'clock a Thanksgiving program was presented by the Haskell young people with Lucille Kendall leader.

Rev. M. C. Yeargan, the pastor of the Presbyterian Church of Anson, who, with his family, accompanied o'clock to a full auditorium. His o'clock to a full auditorium. His subject was Inspiration of the Scripture. This was an introduction to a "Through the Bible Reading Course" which will be the basis of the evening worship at the church here for the coming months. Rev. Yeargan told of the great interest that is being manifested by his congregation in this system of Bible study.

A vocal duet was given by Mrs. Haney and her daughter, Sara Bernice, of Anson.

The fellowship of these groups was of mutual inspiration, as evidenced by many requests that this be repeated.

A group of young people went from here to Anson a few weeks ago for a similar visit.

Miss Mary Ellen Cannon of Arlington is here this week visiting in the home of Mrs. Virgil Reynolds and other friends here.

LAST LAME DUCK SESSION?

The final session of the Seventy-second Congress, which will convene in December, may go down in history as the last "lame duck" session.

Lame ducks, as everyone knows, are members of Congress who continue in office for the short session after their successors have been elected.

Their doom is sounded by the Norris Amendment to the Constitution which was adopted by Congress last March, and has already been ratified by 17 of the 36 States. With the legislatures of 29 other states meeting in January, and only 19 more ratifications needed, it is confidently predicted that the Twentieth Amendment will be in effect long before another Congressional election is held.

If the lame duck amendment goes through, it will mean that when a new Congressman is elected in November he will not have to wait until thirteen months later to take his seat, but will start his Congressional career on January 3 of the year following his election.

The damage which a lame duck Congress can do is great. It is absurd to let legislation be effected by those who no longer represent the sentiment of the district.

In addition to abolishing the lame-duck session the Norris amendment advances the date of the President's inauguration from March 4 to January 20.

When the entire roll of states is tallied it will be found that there is no opposition to the proposed amendment.

DODGING HIGH POSTAGE

Another illustration of the fact that raising prices does not always increase revenues is seen in the recent increase of letter postage from two to three cents.

The new rate has caused a marked decrease in first class mail, and postal authorities, who estimated that Federal revenues would be increased to the extent of \$160,000,000 a year by higher postal rates, now advocate a return to the two cent rate.

Formerly the government received two cents as postage on the mailed bill and another two cents on the envelope containing the customer's check.

In another case, a bank which formerly returned customer's cancelled checks by mail which would cost from three to 15 cents for each batch returned at the present rate, now holds these cancelled checks and has patrons call at the bank for them.

Former increases in newspaper postal rates caused many large publishers to adopt truck delivery over wide areas, at a saving to them and a consequent loss to the government.

It will thus be seen that even a government monopoly loses when it tries to impose higher rates than the traffic will bear.

THOUGHTLESS CRUELTY

A news dispatch tells of Teresa Corona, of New York, 14 years old and six feet tall, who ran away from school and home to get away from the ridicule of her fellow pupils.

It was hard enough to bear the self-consciousness and embarrassment which the child's abnormal size made inescapable, but those who made her burden greater by their derision were unapeakably cruel.

Many instances like this occur, where some physical defect or peculiarity of a sensitive person is used as a pretext to torture them with unkind remarks, which cut to the quick.

Children will seize upon such opportunities to harass their associates, sometimes in a spirit of fun, but often with vicious intent.

WEINERT AND TAXATION

(By Raymond Brooks in Austin Statesman.)

Rep. F. C. Weinert of Seguin will present to the next legislature a change in the state tax law affecting only a few words, yet proposing a basic new policy for property taxation.

The constitution provides that taxation of property shall be equal and uniform, and based upon the actual market or cash value, to be levied and collected according to laws passed by the legislature.

Mr. Weinert proposes to have the future law say the actual or cash value of the property "as determined by earnings."

This would shift taxation to the earnings and off the property itself. It would adopt the principle, Mr. Weinert pointed out, of "ability to pay," and would spread the taxes to sources of revenue rather than the static possession of land or homes which may produce no revenue.

It is a modified principle of the income tax law which Mr. Weinert and others of the joint legislative tax survey have studied for a year, but would retain the ad valorem collection of taxes upon the property as the mechanic of determining and collecting the taxes upon the earnings of property.

Rep. Weinert long has been known as an authority on taxation. He has served in three administrations as state tax commissioner; has been a member of the house and the senate, and secretary of state. He has declined membership on the Texas railroad commission at the appointment of past governors.

Mr. Weinert has just been re-elected to the house, defeating former Rep. Reno Eickenroht, his republican opponent.

publican opponent. His colleagues of the present house paid him the tribute of attending his political rallies.

As tax commissioner and lawmaker, he has advocated measures to restore home and land ownership to small holders and reduce tenantry. He is a strong advocate of the principle of taxing intangible wealth the earning capacity of property.

He was one of the sponsors of the homestead exemption, the land redemption amendments, and the amendment to permit the state to settle old delinquent tax claims and lift cloud to title of property which were adopted in the general election.

On the Personal Side

Mighty few people are so deaf they can't hear the whisper of a scandal.

Free From Pain Thanks to

CRAZY CRYSTALS

For years I suffered agony with pains in my stomach, and with heart burn, caused from gall bladder trouble. It had been over fifteen years since I had been able to see the shape of my ankles they had been so badly swollen.

About four weeks ago I started using CRAZY CRYSTALS, and now I am perfectly easy, and free from pain. The swelling in my feet and ankles has almost entirely disappeared. I would like suffering people everywhere to know about CRAZY CRYSTALS.

MOVIES

"Scarlet Dawn" Is Colorful Drama of Expatriates

Two of the screen's most delectable feminine players, one a blonde and the other a redhead, support the dashing young Douglas Fairbanks, Jr., in bringing to the screen the romantic adventure, "Scarlet Dawn" the Warner Bros. picture which opens at the Texas Theatre next Thursday and Friday Dec. 1-2.
Nancy Carroll and Lilian Tashman are the two leading ladies who contribute a large amount of the appeal contained in this story of days following the Russian Revolution. It is only at the beginning of the story that the revolution itself figures, for then, the action shifts to Constantinople where Prince Nikita, accompanied by a faithful servant girl, flees for safety.

"The Night Club Lady," a Columbia picture that brings Adolph Menjou in the suave role of Thatcher Colt, police commissioner de luxe, to the Texas Theatre Tuesday and Wednesday Nov. 29-30, moves from the highest pinnacle of a New York roof top to the glittering depths of the city's night life.
Almost all the mysterious action in this dramatic picture, taken from the extremely popular crime novel by Anthony Abbott, takes place in a luxurious penthouse and in one of the most fascinating and elaborate night spots in the city.
