## BALDWIN BUILDING BURNS; LOSS IS \$30,000.00

### Stubborn Blaze Threatens Entire Business Block on East Side for a Time. Stamford Sends Truck to Aid Local Department

#### POSTOFFICE MOVED TO TEMPORARY QUARTERS ON WEST SIDE SQUARE

Fire of unknown origin, which was discovered on the second floor of the Baldwin building on the north-east corner of the square at 12:45 this afternoon, completely destroyed the entire upper floor of the building, which housed the Elks Club rooms, a sign shop and a domino parlor—other office rooms were vacant.

### AGED HASKELL MAN IS SUICIDE

Roy Flory, 84, was found shot to death early Sunday at the rear of the home of Mr. and Mrs. Jess Johnson, with whom he resided. Two shots with a pistol had been fired into his mouth. A coroner's verdict was suicide.

The aged man had resided in Haskell county for about twenty years, but very little was known of his personal life. He was unable to work, and moodiness over this, coupled with ill health, was believed to have been the reason for his death. His body was found some 200 yards to the rear of the Johnson home in a mesquite thicket. A search for the aged man was started early Sunday when members of the Johnson family discovered that his room had been unoccupied during the night.

On first coming to Haskell, Flory worked on the T. A. Pinkerton farm, seven miles west of here. For the past several years, however, he had resided in the city.

Of an extremely taciturn nature, he had never discussed, so far as could be learned, his past life with any one in this section. It was not known from where he came to Haskell county, nor was it known if he has surviving relatives.

Funeral services were held at the graveside in Willow Cemetery Monday afternoon at 3 o'clock, with Rev. A. W. Gordon officiating.

The funeral arrangements were in charge of J. H. Kinney of the Kinney Funeral Home.

Palbearers: Joe Barnes, D. Everett, T. L. Grace, Milton Overcash, John Stoker, J. A. Stonewall.

Flower girls: Mesdames Myrtle Underwood, J. K. Stoker, Lillian Lytle and Miss Ouida Smallwood.

### MANY CHARTERS GRANTED IN 1932

Austin.—A total of 1,844 new corporations applied for and received charters during the year 1932, according to compilations of the University of Texas Bureau of Business Research. However, this is the smallest annual total since 1924, the Bureau's report pointed out.

"Total authorized capital stock was \$26,000,000, third less than that for the year 1931. Since, according to Texas law, authorized capital stock must be paid in within two years, the reason for this apparent caution becomes evident. This declining capitalization accounts for the increase in the number of firms with authorized capital stock of less than \$5,000 from 513 in 1931 to 625 in 1932. The number of firms with authorized capital stock of \$25,000 or more dropped from 113 in 1931 to only 63 in 1932.

**New Passenger Equipment Now on the Wichita Valley**  
The Wichita Valley has continued to adjust its passenger equipment to the needs, and the latest departure is a single coach, with gasoline motor, which carries passengers, mail and express. **Doctor—**What seems to be the matter?  
**Patient—**I've got a cold or something in my head.  
**Doctor—**It's a cold.

**Policeman—**But didn't you know it was burglars when you found all the bureau drawers pulled out and their contents in disorder?  
**Mrs. Jones—**No, I thought my husband had been looking for a clean shirt.

Maybe we might have more great statesmen in the future if we would build more log cabins for them to be born in.

They've discovered a new process for making paper money last longer. What's needed most, though, is some method of making it go farther.

A proverb says a man diligent in his business shall stand before kings. But he's a lot more liable to stand before the Federal Trade Commission.

**SOUTH WARD NEGRO MINSTREL A SUCCESS**  
A large crowd enjoyed many a laugh at the expense of the Minstrels Tuesday evening in the High School Auditorium.

All the members of the cast worked faithfully, and the play committee, which recognized and took advantage of real talent, indeed thanks each person for his or her share in the minstrel. Quite a number of the cast were business people and it was really a sacrifice for them to take part, but they did, and graciously. Also, every member of every committee who worked so pleasantly and diligently deserves commendation.

We are grateful to every man, woman, and child who helped in any way whatsoever, whether play acting, selling tickets, telephoning, helping display posters, or in advertising in any form, also running errands, etc.

The money goes for much needed equipment and repairs.  
Last but not least we thank and praise our faithful director, Mrs. C. M. Kaigler, who leaves no stone unturned when we ask her assistance. The South Ward Play Committee Mrs. Irene Ballard, Chairman.

Mr. and Mrs. E. L. Lancaster and family have all been sick but are better now.

**Speaking of Traveling Men**  
A certain hotel keeper in a small town had bought an abandoned church building which stood next to his hotel, with the intention of annexing it and converting it into a dining room. It so happened that every room in the hotel was occupied by convention delegates, when a party of traveling men applied for a night's lodging. In desperation the proprietor offered to provide blankets for them and let them sleep in the church. That was agreeable, and the salesman retired.

About two a. m., the church bell began to ring!  
The night clerk awoke himself from a dose, awakened the bellboy, and sent him scurrying over to investigate.

After a bit the boy came back and reported: "The man in Pew 29 was ringing for ice water."

Strange as it may seem, the thing the "blind pig" fears most is the "squeal."

Misery doesn't love company when it's the company that causes the misery.

Maybe it's called Dame Rumor, because, womanlike, it always has the last word.

**How Doctors Treat Colds and Coughs**

To break up a cold overnight and relieve the congestion that makes you cough, thousands of physicians are now recommending Calobate, the sensationless, essential compound tablets that give you the effects of calomel and salts without the unpleasant effects of either.

One or two Calobate tablets with a glass of sweet milk or water. Next morning your cold has vanished, your system is thoroughly purified and you are feeling like new. A healthy appetite for breakfast. See what you can do for yourself. Buy Calobate at the drug store.

All 1½-ton models are now powered by a remarkable new Six-Cylinder Special Truck Engine. This is basically the same reliable power plant of last year—but Chevrolet has made it even smoother, more powerful, and more economical by the addition of 33 new improvements and refinements.

**REDUCTIONS AS MUCH AS \$70**

- Half-ton Pick-up \$440

In addition, the Chevrolet 131-inch truck now has a much stronger frame, with deeper, heavier side members. The 1½-ton models have a sturdier universal joint, as well as larger brakes, improved springs, and a new 15-gallon fuel tank.

Nothing that Chevrolet has ever done before in trucks can equal the importance of this announcement: **A stronger, more powerful, more durable six-cylinder line. Even more economical than last year. And priced as low as \$440!**

# Fisher Body Borrows Idea From Hollywood to 'Shoot'

## New Ventilation System in Action

The special "rig" below was devised by Fisher Body Corporation to make possible a pictorial record of the New Fisher No Draft Ventilation System in action. Camera men standing on the platform 10 feet from the side of the car took pictures with the car in motion at 30, 40, and 50 miles an hour. The stunt was especially valuable as showing the system's effectiveness in the removal of tobacco smoke, which has always been a source of annoyance to non-smokers in cars of conventional type.

The three frames at the left are excerpts from a motion picture taken from the special camera rig, and they show clearly

how smoke is drawn from the car by the Fisher Ventilation System. How rapid the smoke removal is, may be judged by the fact that these three frames were actually adjacent to each other in the film. A large mouthful of cigar smoke smothered out of the car in a fraction of a second! Efforts to capture the same action with a still camera were less successful. Besides assuring comfort for smokers and non-smokers alike, the Fisher Ventilation System promotes safety for all occupants of the car, since it enables the driver to prevent the clouding of windows and windshield which in ordinary cars impairs driving vision in cold weather.

### Worth Circle.

Mrs. C. J. Reese was hostess to the North Circle Monday afternoon Jan. 16. The meeting was opened with a song "Revive Us Again," and followed with a prayer by Mrs. Simmons. The devotional was given by Mrs. Foote and Mrs. Simmons conducted the Royal Service program, having for its subject, "Lord Send A Revival." The ladies that took part on the program and their topics were: Mrs. Geo. Herren, "Some Revivals of the Past"; Mrs. Ed Fouts, "Some Revivals of the Present"; Mrs. Trice, "Some Things True of All Revivals"; Mrs. Whiteker, having the last two parts, which were "Lord Send a Revival," and "Let It Begin In Me." The song "Lord Send A Revival," was then sung.

## Summary of County Agents' Annual Report for 1932

(By Joe C. Williams, Haskell County Agent.)

The work of the County Agent consists primarily with adult farmers and 4-H Club boys and is carried on through group meetings and with adult and boys demonstrations, in cotton, milo, wheat, oats, beef cattle feeding, hog feeding, poultry, pest and rodent control as well as many other lines such as cutting up beef for canning, killing and curing pork the A. & M. way, terracing with many other things that come in the county agent's line of work.

The major contributor in the work this past year was cotton demonstrations which showed a labor income and investment return of \$36,476.00. Crop pest and rodent control showed the next largest return of \$8,727.00. This consists of demonstrations on weevil control of stored grains and feed, giving out information and helping mix poisons for grasshoppers, and rats and mice. The above items were from estimates made by farmers themselves as to savings made by use of the materials recommended by the agent. Grains and sudan grass represent the next largest returns for money and labor invested—\$6,799.50. These crops were grown under recommended practices from the agent. Terracing and running water level rows made quite a contribution to the savings of farmers of the county, \$5,200.00 being estimated savings again by farmers who helped to run lines on their farms.

The Texas and Oklahoma Extension Service value terracing and contouring at \$8.00 per acre to the land, while these values used in making out report were only \$4.00 per acre. Turkey demonstrators report returns of \$2,327.00, not counting of course the money saved by pooling which amounted to over \$2,000.00.

Swine demonstrators made a saving of \$1,472.00 by feeding according to county agents instructions and killing and curing the pork products. Beef cattle, \$798.00. Dairy demonstrator, there was only one who finished the year, \$394.00 profit above feed expenses. Poultry, one record turned in to the agent, three others out at the time report was made, \$386.40. Legumes, soy beans, \$22.00 for hay and seed saved.

Haskell county paid out to the agent for the year's work \$1,050.00, while the returns to the tax payers of the county was over \$26,500.00. In other words for every dollar spent for the services of the agent over \$26.00 was returned to the tax payers of the county.

## LEADERS GIVE VIEWS ON 13TH ANNIVERSARY OF PROHIBITION

Monday was the 13th anniversary of national prohibition. Enthusiastic wets believe it may be the last. Determined drys are marshaling their forces for their hardest fight since the 18th amendment was enacted.

The United Press presents herewith sharply contrasting opinions upon the law's past and future by leaders of the prohibition and anti-prohibition movements.

F. Scott McBride, superintendent of the Anti-Saloon league, said: "Nation-wide constitutional prohibition is ever more valuable and more important now than 13 years ago when the 18th amendment was adopted."

"Legalized liquor now would be more dangerous and deadly than it was 13 years ago. "If liquor were legal in these days of economic distress, the suffering for want of food, clothing, and shelter would be infinitely greater than it is with the 18th amendment in effect. The 18th amendment stands today as the most successful method of combating drinking and drunkenness that has ever been tried."

"... the election of 1934 will furnish an opportunity to register the real will of the people without confusion of a presidential campaign and the coercion of party planks."

Rufus Lusk, national legislative officer of the Crusaders, said:

"Let the drys stage a great celebration today. It may be their last chance to commemorate the birth of the most disastrous social experiment in America's history. "The murder of almost 3,000 and the jailing of a half a million of our people, the poisoning, paralyzing and blinding of countless men, women and children, the spending of over a half billion dollars in enforcement, and the loss of \$17,000,000,000 in taxes, all these are stubborn facts which stand out in prohibition's 12-year record. And because the American people now know them to be facts, the 18th amendment is on the way out of the constitution."

## USING SUBSTITUTE CURRENCY

Something novel comes from Yellow Springs, Ohio, where a "substitute currency" is reported to be enjoying success and assisting a farming area in its business operations. Moreover, the principles involved have been given the endorsement of Dr. Irving Fisher of Yale University, who recently paid a visit to the area to see how this scrip plan works.

As outlined by the Associated Press the system works like this:

A farmer having 100 bushels of potatoes, but no cash, wants a carpenter to repair his barn. The carpenter, perhaps otherwise unemployed, is willing to take his pay in commodities, instead of cash, but does not want only potatoes.

So the farmer sells his potatoes to the exchange, which pays him in scrip; the former then hires the carpenter, paying wages with this scrip, and the carpenter spends the scrip at the exchange buying potatoes or other things he needs. If either the carpenter or the farmer has any scrip left over he can keep it indefinitely and spend it any time he wants to.

Scrip of the Yellow Springs Exchange is issued on parchment bond paper in denominations of 10 cents, 25 cents, 50 cents, \$1 and \$5. So popular has the store become that it had to enlarge its space twice in the last two months. It now has about \$1,000 worth of scrip in circulation and is doing nearly \$1,000 worth of business a week, about one-third of which is in regular cash.

## MAKE GOOD IN 1933

By Rev. Edward Worcester

"Whatever thy hand findeth to do, do with thy might."

The old year 1932 is gone. Its failures, heartaches and disappointments, as well as its joys and achievements, all are behind us now, and have become a part of history.

We can't re-live a single moment of the past; undo anything we did or retrieve even one lost opportunity, so why let our minds linger overmuch among the tombs of the years dead?

The new year of 1933 is before us. The prospect for many is not bright. Clouds of doubt, fear and troubles hide the sun over the heads of thousands today. It requires real faith to know the sun is still shining brightly up there above the clouds and will surely smile its way through them all in due time. It isn't easy to have faith when we need it most, but it can be acquired, and is certainly worth diligent and patient cultivation. Guard against panic or despair. There is always a best way out of any and every difficulty; a correct solution of every problem. Sit down and calmly think it out. Don't close your eyes to the answer if it proves unpleasant or even painful. Good medicine is often very bitter, but if we really need it, let us swallow it right down. If we can't smile afterwards, let's not make wry faces. Very few will lend a sympathetic ear to our tales of woe today. Everyone has his own woe, and it won't do any good to complain of a headache to one suffering with toothache.

Here is a valuable secret, however, which may still remain a secret to you even after I tell it to you. See if you can get it. Here it is: If you get busy doing all you can to help relieve those suffering with toothache, you will soon very nearly forget your own headache or heartache. There is work for every one of us in 1933, and you can't do my work any more than I can do yours. This work may not bring us one penny of money, or one mouthful of food, but neither food nor money will satisfy us if we fail to do our work.

Dear friends far and near, face 1933 with Faith, Courage and good cheer. Determine, by the grace of God, to do your best in whatever work is in your hand. If you have nothing to do but rest and smile and pray, do it well, if you would be happy and get out of the year ahead the greatest possible success and enjoyment. Angels will come and minister to you if you are submissive and obedient to the will of God, and do what you can where you are.

When the Federal Farm Board was established it was given half a billion dollars to be used as a revolving fund in aid of agriculture. It looked like a fine idea, but in practice it hasn't worked very well. The half billion has been squandered in a futile effort to "stabilize" the price of farm products. In other words, the revolving fund revolved only once.

Speaker Garner, now vice-president-elect, is quite modest, and his biographies in the Congressional Directory and in Who's Who are very meager. Neither mentions the fact, recently related by the Pathfinder, that his first public office was a minor judgeship, for which place he was opposed by Miss Ettie Rhainer, whom he later married. During his 30 years in Congress, Mrs. Garner has been his secretary.

As we understand the idea of some of our psychologists, the proper treatment for murderers and thugs would be to domicile them in cheerful surroundings, with special food and entertainment, together with the constant ministrations of pretty women. Under such circumstances the criminal might not want to get well.

"There are four requisites to a good short story," exclaimed the English teacher to the class. "Brevity, a reference to religion, some association with royalty and an illustration of modesty. Now with these four facts in mind, I will give you thirty minutes to write a story."

Ten minutes later the hand of Sandy went up.

"That is fine, Sandy," she complimented, "and now read your story to the class."

### President for One Day

One of the curious facts which the student of American history discovers is the truth of the statement that there was a man who once served as President of the United States for a single day. The man was David R. Archison, and this is how it happened: In 1840 Mr. Archison, who was at that time Senator from Missouri, was acting as President pro tem. In that year March 4 fell on Sunday, and General Taylor, the President-elect, refused to be inaugurated on the Sabbath. Therefore, by virtue of his office, Senator Archison became the legal Chief Executive from noon of March 4 until noon of March 5, when General Taylor was sworn in. Archison's name does not, of course, appear in lists of Presidents. The city of Atchison, Kan., was named for the Senator.—Exchange.

"I had sour stomach and gas," writes Mr. Tom Higgins of Danversville, Ga. "and often I would have thrown up. I read about Black-Draught and bought a box. It relieved me of all these troubles. I have to tell the world. I consider it a great medicine. I take a pinch of Black-Draught after meals when I eat it. It helps to prevent acid indigestion and to keep the system in good order."

LEGISLATORS OF THIS SECTION WILL LIKELY FAVOR SUBMISSION

AUSTIN, JAN. 17.—Congressman Marvin Jones, in voting for the Garner resolution submitting repeal of the Eighteenth Amendment, has established a precedent that the two State Senators and ten House Members, whose districts are all or partially within the Eighteenth Congressional District, will probably follow by voting to submit State- wide prohibition to a vote of the people when it comes up in the present session of the Legislature, according to prevalent opinion here.

ten State Representative Districts in the Panhandle all gave large majorities for the proposition. Each State Representative from the Pan- handle and the way his district voted on submission is as follows:

that the return, establishing operation of the saloon will be inhibited by Constitutional provisions; local option, which was adopted in 1919, will be and the sale and manufacture of beer will be legalized, the opinion of leaders here the Legislature will call such an this summer.

Speaking of Travelling Men

A certain hotel keeper in a small town had bought an abandoned church building which stood next to his hotel, with the intention of annexing it and converting it into a dining room. It so happened that every room in the hotel was occupied by convention delegates, when a party of travelling men applied for a night's lodging. In desperation the proprietor offered to provide blankets for them and let them sleep in the church. That was agreeable, and the mission was accomplished. About two a. m., the church bell began to ring. The night clerk around himself from a doze, awakened the bellboy, and sent him scurrying over to investigate. After a bit the boy came back and reported: "The men in Row 30 was ringing for ice water."

\$20,000.00 In Taxes Must Be Paid or Haskell School Will Close

To the Citizenship of Haskell Independent School District:

After two weeks careful study of the financial situation of our schools we find some immediate steps necessary if we are to continue longer this year or to open at all next year. There is an outstanding obligation of \$14,000 in scrip for last year and this year. In addition to this there is a deficit of \$8,000 in interest and sinking fund. There is still an estimated expense of \$12,000 for the remaining five months of this session, making a total of \$34,000 needed to round out this session of school. Of this, we expect to receive approximately \$14,000 from the State, making it necessary for us to collect approximately \$20,000 in local taxes within the next thirty or sixty days.

We find more than \$30,000 delinquent taxes on the rolls covering a period of the last four years. The Board has been lenient during the past two years, due to prevailing conditions. We have come to the point, however, where it is imperative that something be done. We realize that it means a sacrifice for many people to pay school taxes now, but we feel that it would be nothing short of a calamity to close our schools. This your Board does not intend to do without an effort to adjust matters.

At a meeting on January 8, we secured the services of Rex Ragan, an efficient and experienced man in tax matters, to assist us in clearing up the situation. There are many conflicting problems arising which the members of the Board do not have time to work out. We are urging all who are delinquent to see Mr. Ragan in his office over Oates Drug Store at once.

In order to assist taxpayers as much as possible, we have authorized Mr. Ragan to accept any delinquent tax payments up to February 1st without interest or penalty, regardless of the time of delinquency. As our representative, Mr. Ragan is in position to assist taxpayers in adjusting any tax problems.

The interests of our children demand that these taxes must be paid. A co-operative plan is our first step. May we depend upon all to assist us?

Sincerely yours, BOARD OF TRUSTEES, Haskell Independent School District.
