THE HOLY JOYS OF EASTER

MORNING. "Tis Easter morning! Joy to the world, the Lord is come! Let the sun burst forth and flood the world with glory and let everypeople own wealth without knowing it. Some thing that hath breath give expression to anthems of praise and thanksgiving. Christ is risen from the dead and led captivity captive. The grave that contained him is deserted, the Governor's seal is broken, the keepers are smitten as dead men, and the angels are peering into the empty place where the Lord lay. But he is not there, and the early dawning found him missing and all Jerusalem is astir. Victory has triumphed over death and eternal life defies the chambers of the grave. The grim monster has been builled and the tomb has surrendered its sacred charge. The darkness of the sepulcher has been illumined by the light of the Sun of Rightcousness and earth and sky have put on the robes of gladness. The King of kings and the Lord of lords has demonstrated his right to rule, and on for years without any knowledge of its angels and men are bowing to his sceptre of righteousness and peace. Death and destruction are standing aghast and life and immortality are brought to light in the gospel. Let the earth receive her King! He has conquered, not by might, but through the humiliation of the cross. He tasted death for every man, and now universal humanity is brought into kinship with his personality and kingdom. In his human nature he suffered and died and by his divine nature he rose triumphant from the tomb and brought good gifts to men. The heavens are aflame with his banners and the world poverty and want she owned thirty-live bunis vocal with his peans of victory and praise. formed by his truth and civilizations are at the door of every human heart, classes highways of the world's progress and breathing peace and good will into human consciousness. He is lifting up the fallen, giving hope to the despairing, scattering light in the abodes of darkness, comforting the sorrowing, encouraging the penitent, making glad the hearts of the disconsolate and flinging a halo of promise around the fading sunset of life's closing day. Out of the Easter morning of his experience come these temporal and spiritual benefits to the children of men! Let the volume of his praises swell until the breaking surf of time shall bear them to the golden shores of the celestial port. No human tongue can afford to be dumb as the hours of this glad day fly by, and no human heart can afford to be sad under the thrill of its seraphic joy. Let the heavens above and the earth beneath intermingle their resonnding hosannahs in one harmonious doxology of praise and worship to Him who was dead, but who is alive

that worketh in us, unto him be glory in in his resurrection. It took the two events they were hungry and that the Church by Christ Jesus throughout all to perfect the plan of redemption. The and quaits in great utambian ages, world without end. Amen."

POSSESSED OF WEALTH WITHOUT KNOWING IT.

In the midst of their poverty and want,

time ago, in Pennsylvania, a poor man owned of fertility that it did not furnish him a living, despite his hard toil to cultivate it. So he disposed of it at a nominal sum, and sought his fortune elsewhere. The man who succeeded him on the place had an investigating sort of mind and in digging into onof the hillsides found a vein of hard coal. Further investigations showed the whole farm - is the reason why we live spiritually. Our to be a coal-bed, and he became immensely wealthy. The other man was just as rich, tion a necessity. And not only this, but but did not know it, and moved off the place a poor and disheartened toiler. One of our exchanges gives an incident illustrative of the same fact. Once upon a time a wealthy Baltimore lady lost a very valuable bracelet while attending a fashionable ball. She was convinced that it had been stolen, but went whereabouts. In the meantime she lost her fortune and became very poor. Having thus been thrown upon her daily labor for a support, she sought and obtained a menial position in the Peabody Institute. One day she was washing the steps, and began to think how she was to buy fuel and clothing for the winter and otherwise support herself on her scanty income. So she determined to cut up an old worn-out cleak and make a hood out of the best parts of it, when lo! in the lining of the cloak she found her long-lost diamond bracelet. During those years of dred dollars' worth of diamonds and gold. but was not aware of her wealth. So it is earthly. "As in Adam all die, even so in self." There is somebody whose the and the mountains and the seas send forth with the richest of all treasures, the gift of Christ shall all be made alive." We die in touching either for good or to the echoes of his love. Mankind are trans- Jesus Christ to the world and his presence course of time, but by and by we shall live changed from oppression into the beauty of for entrance. The human heart is hungry civic righteousness. He is walking along the and starving for his love, and there it is, to be had for the taking it, and we often overtake us. The very fact that Christ experienced mortal hope, death presupposed the necessity for his resurrection. So the resurrection of Christ from question about the propriety of and the dead is the reproduction of his life and we had better stop and those search power a thousandfold. Out of his death liberately, and then speak as besprang his intensified life. From the morning that he broke the bands of death his kingdom has been a kingdom of spiritual conquest. His empty grave is the hope and the inspiration of humanity. On account of this our faith is a reality and with Paul we can say, "I am crucified with Christ, nevertheless I live, yet not I, but Christ liveth in the Church has a place to come and me; and the life that I now live in the flesh, I live by the faith of the Son of God and wants to work for the salvation of who loved me and gave himself for me." manity. W. L. Pate, April 6: We began a meeting here in Carthage tourth Sunday in March and closed April 5. There were three results which we wished to see accomplished during the meeting, viz. The quickening of the spiritual life of the Church, the conversion of slinners and the payment of a church debt of 825. The first of these was accomplished in a large measure; the second to a certain extent, as we had about twenty conversions and fifteen accessions, and the third was fully accomplished, as we secured in cash and gilt-edge subscriptions 851. Our conference collections are in good shape. More than one-fourth of the pastor territory Conference, which was held during the meeting. There have been thirty-six accessions to our Church since January 1. Ded, and we have traised over files in cash and subscriptions to finish paying for our church. Rev. G. E. A Story Worth Telling

We never tire of telling the story of Uneeda Biscuit. We do not believe that lovers of good, wholesome food ever tire reading it.

Uneeda Biscuit are the result of two ideas. That soda crackers could be made better than they had ever been made before. That it was possible to convey them to the home fresh, crisp and clean.

The importance of the soda cracker as an article of daily consumption, made this worthy of extraordinary effort. True, many people laughed at the idea of so much thought-timelabor-capital, being devoted to a soda cracker. But the greatest industries of the greatest country in the world have been developed from smaller things than a soda cracker, and so it seemed worth while to make the best soda cracker that could be made and to place it on the table as good as it had been made.

To do the first required the selection of the best materials, of the best equipment, the highest skill. To do the second upset all traditions. The oldest bakers said there was no way to keep a soda cracker good.

That no one expected it any way. That people were satisfied to eat them stale, as they had been in the habit of doing. And so it fell to the lot of younger minds to do this unheard of thing—to keep a soda cracker good until eaten.

The result was the creation of the In-er-seal Package with red and white seal. An invention that kept out the air, moisture, dust germs, that first retained the natural flavor of the biscuit, keeping it crisp and fresh until it reached the table, and so Uneeda Biscuit became a reality. The little thing that seemed hardly worth while became a great thing that seemed hardly possible.

To-day over 300,000,000 packages have been consumed by the thoughtful people of this country and the demand is ever increasing.

That is the story of Uneeda Biscuit. Some day we will tell it over again for the benefit of those who are still "satisfied" with the stale and broken crackers that come in a paper bag, when they can get Uneeda Biscuit whole, fresh, and clean.

WHEN WAS JOHN WESLEY BORN?
Western Advocate:

Recently we were in a certain Preachers' Meeting where there was a strong division of opinion as to the date of John Wesley's birth. There was general agreement that he was born, and that the momentous event happened in the month of June, 1782. But the variations were concerning the day—some contending for the seventeenth and others for the twenty-cighth. As happens so many times in disputes, both sides were right. In other words, paradoxical as it may seem, he was born on the seventeeth, just as George Washington was born on the seventeeth of February. Reckoned by our present method, however, eleven days must be added in each case. The Sunday-school celebration in our characteristics.

I think we have erred in supposing that the Ten Commandments were ever intended to be a full expression of religious and moral obligation. They express duty, but not the whole of duty. They did not go the whole length of duty, as many of the other precepts of the Old Testament did not, because the age to which they were given was unprepared.

God called this noble woman upon this sacred mission, in answer to our own prayer, that some one might be called to go forth to perform it. Miss Bennett has been ably assisted in the effort to raise funds for the building of the school by Mrs. Maria D. Wightman. widow of Bishop Wightman, who has ollected by personal appeals, chiefly n her own South Carolina Conferences, something over \$12,000 for the enterprise. It is in her honor that the lectureship in the school now in view is to be named, and it is hoped that the sum (\$5,000) necessary for the purpose may be raised by the coming Easter collection which will called for throughout our entire Church. It is in order to say here that a professorship, known as "the Belle Bennett Chair," has already been endowed in the school, in honor of her who has been most active of all in its behalf, the sum of \$20,000 having been raised by the Woman's Foreign

A paper on "City Missions in Eng-and," was then read by David Lambuth. He gave some facts, figures and methods that were eye-openers. Dr. G. C. Felly, of Tulip Street, Nashville, spoke on "Methodism and the Mission-ary Movement." Two of his seed-thoughts are: "Paulinism and Primi-tive Missions; Methodism and Modern Missions," and "Methodism, Under Wesley, was a New Vine in the Vine-Parker, of China, remind one of Paul's letters: "The Message of the Church in Asia to the Church in America." He spoke of the evangelistic work, Dr. S. H Wainwright followed, with a telling description of modern movements in Japan, and the crying need of a nation in a life and death crisis. TYLER DISTRICT.

If certain doubters of the Church could see and feel the fire of a Students' Missionary Conference at Vandents' Missionary Conference at Vanderbilt, there would be greater faith in higher education for the future pastorate. Any theological student who can attend one such conference as the one just closed, and not be fired with a zeal for missions, should be denied the credentials of a Methodist preacher. It was a meeting characterized by spiritual power and earnest thinking. As stated by Rev. J. E. McCulloch, the aim from the outset was "a revival of the highest motives; to make the conference mean to the ministerial student what the revival means to the Church, and are planning and working for a general revival. I believe we will have it. Last year God blessed us much. We had many fine meetings. Only one district in Texas led us in the number of additions on profession of faithmake the conference mean to the ministerial student what the revival means to the Church. He is preaching to full houses and is constantly receiving additions to the Church. Bro. C. Carrett, at Athens, comes from the Texas end of the conference. He is a young man, educated, polished, splendid preacher, a good mixer, and has made a splendid beginning. A. A. Kidd, at Edom Circuit, is not just new in these parts, only he came out of Palestine District. When I say that Edom Circuit has the largest as sessment of any charge in the district, except Marvin, and that he has it all secured and nearly all paid and that he has every interest of the charge well in hand, the outlook on the circuit full of hope, it will me un derstood that we are well pleased with the apppointment to the Edom Circuit. L. A Humphries, at St. Pauls, is a young man. He has started fine; his people are delighted with him, and the outlook for that charge is better than ever before. W. F. Hardy, on the Tyler Circuit, comes from Fairview, Texarkana. He has taken hold of his work with good courage, and in-spired confidence everywhere, and is confident of a good year. G. R. Hughes, at Lindale, came from Mt. Pleasant Station. He is just now up from a five months' spell of sickness. He is a good man, full of faith and the fereign field. A goodly company these—forty odd men, scattered over China Corea, Japan, Brazil, Mexico and Cuba. The great event of the conference was the sermon at 11 a. m. by Dr. O. E. Brown, of Vanderbilt. Text, Il Cor. 5:14, "The love of Christ constraineth us." One must hear such a sermon to get an idea of its power. Such preaching is the power behind the throne that sends our boys to the foreign field.

The afternoon service was occupied with an address by Dr. Lander, and reviews of great missionary characters by several students. The closing sermon to get at night was full of power. After an address by Dr. Erown, the service at night was full of power. After whom no presiding elder ever laborat.

JEANS -Sister Martha J. Jeans (nee Hackney) was been Jan. 15, 1532; embraced religion when in her twelfth year and united with the M. E. Church, South. Was married to John T. Jeans Sept. 10, 1522. From this union two chuldren survive to mourn their loss, which is her eternal gain. She entered into rest March 16, 1921. During her illness she suffered intense pain, yet she bore it with remarkable fortitude. The last few months before her death her sufferings were intensely severe-caused from cancer-yet she rejeiced in the full triumph of a living faith. She remarked several days before her death that her suffering would end over there. She longed for the time to come when she would quit this tenement of clay and be forever in a world where pain ner sorrow can enter. May the grace of God sustain her two children and brothers and sisters she leaves behind, and may they so live that they will meet her in the land of one eternal day.

"THE MINERAL WELLS ROUTE."

SOMETHING NEWA

SEWING MACHINE WOOD WORK

WITH ALL THE LATEST ATTACHMENTS.

THE ABOVE ILLUSTRATES OUR NEW SWELL FRONT DROP head furniture fitted to our ball bearing stand. The design of this case is patented and controlled exclusively by the factory furnishing this machine. It is furnished regularly in Oak or Walnut finish, at \$23.50. The front of the table is beautifully curved with the long center drawer made to conform. The drawers are of the swell front pattern formed to correspond with the corners of the table and made up of three thicknesses of wood with the grain crossed, and bent to form, which makes them very light, yet strong. The drawer cases where the drawers slide are fitted with raised platforms, and the sides of each drawer are extended below the bottom of the drawer proper, thus forming guides which fit closely to the case platform, and serve to guide the drawer so that it will slide in and out readily. This construction insures the drawer always working freely and never binding or sticking, a very common complaint and source of annoyance with the ordinary style of construction. The technical finish is very high and the grain of the wood is all carefully selected, and, as a result, the general appearance is extremely rich and pleasing. One year's subscription to the Texas Christian Advocate and this fine machine for

\$23.50 ≪

FULLY GUARANTEED. FREIGHT PREPAID. Cash must accompany all orders. Address

A LITTLE TRIP AND LOTS OF PLEASURE.

Do you know there are just lots of good people in the world? Now, there's my wife. She's never made a speech in her life, nor been a delegate to any big conventions, and such, but when it comes to being real good, she's strictly in it. Then there's Bowen, the Advocate Agent. I said to him sometime ago. "Bro. Bowen, I have a boy in poor health. Where can I send him." He said. "To Bro. C. W. Goodwin, 60 miles northwest from San Antonio. I will write him at once and he will write you." Well, in a few days, here came a letter from Bro. G. saying. "Send your son to me. I will do all I can for him." I did so, and in about two weeks got another letter from Bro. Godwin saying. "We want you to good win saying." We want you to good win saying. "We want you to good win and saying." We want you to good win saying. "We want you to good win saying." We want you to good win saying. "We want you to good win saying." We want you to good win saying. "We want you to good win saying." manhood is not worth more in any market in the world than here.

In 1901 the Los Angeles Conference was the first and one of the few conferences that paid in full its assessments on home and foreign missions, and last fall all assessments were overpaid except the salaries of nine pastors.

We have recently bought a site and expect to erect a Deaconess' Home in the city of Los Angeles for hospital work and the training of nurses. We also have under way the construction of a good church in the beautiful suburb of Hollywood.

All of our church property is practically out of debt, and our people were never so hopeful.

For over six years I have observed our work in California with the interest of a Methodist itinerant, and am pleased to say that I have not seen the work so well manned as at present. From the presiding elder, Rev. O. A. Thrower, down to the youngest boy on the poorest circuit, there seems to be an energy of purpose, a unity of spirit and a devoted loyalty that must bring success.

Varied beauty and not love and praise the God who made it all:

Bro. and Sister Godwin are ideal hosts. For mere than a week they, in company with Sisters Godwin's two elegant sisters, Mrs. Barleman and Miss Etta Reese, with Murph tour boy) for a helper, planned and labored for our pleasure. Prof, and Mrs. Bennett and sister, of San Saba, were with us two and a half days. The sun shone most of the week, and how we did fish!

And caught them, too. Two days we took our dinner, cooked and eat our took our dinner, cooked and eat our.

While much attention is given to we are making progress; and a more berole and consecrated band of workers can hardly be found in our Methodism.

The writer came here in the fall of 1896. In his search for health he traveled all over Southern California and came to know the work and the workers in this field better than any man in the conference except the presiding elder.

The personnel of the Los Angeles Conference has changed so much in six years that one visiting it then would be almost a stranger now. Of the thirty-five men—active, including six years that one visiting it then would be almost a stranger now. Of the thirty-five men—active, including supplies superannuates and supernumeraties—only ten were here in October, 1896, and of those here now I am not sure that there is a native. By consulting the minutes of the conference if glean the following facts:

SOUL WINNING.

The Methodist Church has always gotten about anything it went after. Two things are necessary to the per-petuity of the Church: Members and nowed soul-winners to Christ. With them this was first. They were not content to tell others how to win souls, but were in the van of this greatest work themselves. Is it true that a few great minds type ever movement? Can any man be satis fied to carry with him a call to th ministry and credentials from th Methodist Church and not have souls saved under his ministry? For my part I do not believe God ever called any man to preach the gospel and then gave him a job that took him out of the soul-winning work. I do not believe there is any work in heaven or on earth so great as leading s from sin to salvation. I do not be-lieve the Holy Spirit can be pleased with the life of any preacher of this glorious gospel who makes this work secondary to anything. If every preacher in the M. E. Church, South, would pray till he received power from on high to so witness for Christ that men and women would be con-verted under his ministry, a new Pentecost would dawn upon our Chure S. J. VAUGHAN.

The Chicago Daily News say try was told about to 700 hearers at Armold School, Center and Burling ets, by George M. McKinney, the gen-immigration agent of the Southern file Railway, in a lecture on "The 8 Star State." Mr. McKinney did on the Managarian entirely to Facilie Railway, in a lecture on "The Lone Star State" Mr McKinney did not confine his duscussion entirely to Texas, but treated of the entire territory between New Orleans and San Antonio, which includes the western part of Louisiana. His lecture was beautifully illustrated with stereopticon views. Mr. McKinney predicted that the coast country of the Gaif of Mexico would become one of the rich and densely populated areas of the great South from the influx of Northerners now flocking in there to find new homes in a congenial climate. The substantial resources of Texas and Louisiana were explained, the agricultural products that thrive in the prolific soil and the attractiveness of the climate. He dwell at some length on the production of rice throughout the entire coast country, it being one of the most remarkable crops that is now being developed in the South, from the fact that immense incomes are derived from its production annually.
