Mrs. Ferguson Wins Place on Ballot in General Election

Gov. Sterling Says Would Consider It Dishonor to Support Her in November.

The bitter wounds of intra-party Democratic strife in Texas were laid open again Monday after Gov. R. S. Sterling's announcement that he would not support the candidacy of Mrs. Miriam A. Ferguson for governor in the Nov. 8 election.

The governor's appeal from a district court ruling which had dismissed his suit contesting Mrs. Ferguson's nomination was denied Saturday by the state supreme court.

Monday the governor said he was "unwilling to cast a vote to turn the state over to Mrs. Ferguson and her husband," ex-Gov. James E. Ferguson.

"Knowing Jim's record and having declared it to the people of Texas, I would consider it an act of positive dishonor to cast my vote to put the government of Texas in his hands," Governor Sterling explained.

Returns showed he lost to Mrs. Ferguson by approximately 4,000 votes in the August Democratic runoff primary but his contest suit, alleging fraud, claimed nearly 30,000 votes were cast illegally in Mrs. Ferguson's favor. The answer filed on behalf of Mrs. Ferguson likewise claimed many illegal votes were cast for the governor.

After the court ordered her name placed on the ballot Saturday, however Mrs. Ferguson issued a statement expressing hope that "the intense interest incident to this, as well as other political campaigns, will cease" and that "everybody will now turn their attention to a Democratic victory, state and national, in November."

Sterling's statement Monday said: "It is my understanding that it is generally conceded and frankly admitted that if Mrs. Ferguson is elected governor her husband will dominate the affairs of the office and act as governor in fact. . . . I discussed the record of James E. Ferguson and made serious charges against him. Not only did I make the charges but I believe I submitted proof to sustain them to the satisfaction of half a million fair-minded voters of Texas."

When asked if he would support Orville Bullington of Wichita Falls, the Republican nominee, Governor Sterling replied: "The statement speaks for itself."

Mrs. J. C. A. Guest, Mrs. P. P. Langford, Mrs. G. D. Anderson, all of Wichita Falls, and Mrs. O. T. Anderson of Olney were the guests of Mrs. J. U. Fields the past week.

Dr. Daisy I. Purdy of Stillwater, Okla. spent the week end with Mr. and Mrs. J. H. Kinney. Dr. Purdy is Mrs. Kinney's sister.

FAIR PROMISES TO BE BEST EVER HELD HERE

The Haskell County Fair to be held in Haskell on October 30-31-22—Thursday, Friday and Saturday of next week, promises to be the most successful exposition in the history of the city, according to the officers and directors who have the show in charge this year.

The premium list which was printed and distributed several weeks ago, has created an interest in the livestock, poultry, agricultural and textile departments that has never been equalled in past years and the competition in all departments promises to be exceedingly keen and the exhibits will probably be the best ever shown in West Texas.

A new feature has been added this year to the Agricultural Section, in that several substantial prizes are being offered on individual farm exhibits as well as community exhibits. A number of farmers have donated their intention of entering their products in this department.

The amusement features have not been overlooked, and a full program is being arranged to entertain everybody. The stage shows

Grand Commander K. T. of Texas to Be Visitor Here

Hon. Thos. M. Bartley, Rt. Eminent Grand Commander of the Grand Commandery of the state of Texas and Hon. Hale C. Salter, Eminent Grand Warder of the Grand Commandery of the state of Texas, will visit and inspect Haskell Commandery Tuesday night, Oct. 16th. All Sir Knights have been summoned to be on hand in full uniform for this occasion. Refreshments will be served during the evening.

Haskell is fortunate in having these distinguished visitors of such high rank, as only a few cities in West Texas are being honored on this tour of inspection of the grand officers.

ADMISSION PRICES FOR COUNTY FAIR REDUCED THIS YEAR

The admission price to the Fair grounds will be reduced this year from 25 and 15 cents, to 10 cents to everybody and all children under 10 years of age will be admitted free. This price for admission was adopted recently at a meeting of the board of directors, in the belief that with such a low admission price would meet with the approval of the patrons of the Fair, and with the strictest economy on the part of the officials in handling the finances, it would be sufficient to meet the expenses of staging the exhibition.

Lancasters Tailor Shop Now Open

Opening of Lancaster's Tailor Shop, owned and operated by Mrs. Alpha Lancaster and son Morris, located in the Wair building across the street from R. B. Spencer & Company, is announced this week.

Both Mrs. Lancaster and her son have been residents of Haskell for many years, and formerly were connected with the Model Tailor Shop. In their new location they have installed modern fixtures and equipment, and offer their patrons a complete tailoring service.

JURY SUSPENDS SENTENCE FOR J. BAILEY POST

J. Bailey Post, who entered a plea of guilty to a charge of embezzlement, was assessed a three-year suspended sentence Monday afternoon by a jury in District Court. The body returned its verdict after deliberating only a few minutes.

Post, former cashier of the Farmers State Bank of this city, was indicted last January by a Haskell county grand jury on four counts charging embezzlement. The three other cases have been dismissed by the court.

Post was defended by Tom Davis, B. C. Chapman, Walter Murchison of Haskell and George Cannon, an attorney of San Antonio, a brother-in-law of Mr. Post. Prosecution was conducted by H. F. Grindstaff, district attorney, and French M. Robertson, county attorney.

Judge M. S. Long of Abilene presided for the trial on exchange of benches with Judge Clyde Grissom, who had disqualified himself in the case.

Mrs. Kate Vassar Dies at Home of Her Son Tuesday

Mrs. Kate Vassar, age 63, died at the home of her son L. G. Vassar in the Howard community Tuesday afternoon, and funeral services were conducted at the Roberts Church Wednesday afternoon at 4 o'clock, by Rev. T. J. Connors.

The deceased was born in Denton county, Texas, in 1869, and had been a member of the Church of Christ since she was 15 years old. Her husband died in 1917. She moved to Haskell county in 1919 and lived for about two years in the Rose community before moving to the Howard community.

She is survived by two brothers, Vernon and Will Cash of Denton, and two sons, N. G. Vassar of Bowie and L. G. Vassar of Haskell. Funeral arrangements were in charge of J. H. Kinney of the Kinney Funeral Home.

Pall bearers: C. G. Balthrop, G. R. Loyd, G. H. Taylor, Robt. Simmons, D. J. Simmons and M. B. Summers. Flower girls: Misses Imogene Balthrop, Montie Singleton, Stella McNeil, Ima Medford, Bula Mae McNeil and Neoma Vassar.

Legionnaires Plan Dance Each Night During the Fair

Plans now under way by members of the local post of the American Legion materialize, visitors to the Haskell County Fair and American Legion Rodeo will have the opportunity of attending a dance sponsored by the Legionnaires each night during the Fair and Rodeo.

Tentative arrangements have been made for the old Haskell Theatre building on the east side of the square, which is being remodelled this week, and an orchestra has been secured for each of the three nights. An admission fee of 50c per couple will be charged, proceeds going to the Legion charity fund.

Prizes Offered for Best Girl Riders in Opening Parade

Three cash prizes have been offered by the American Legion for the best girl riders in the cowboy and cowgirl parades which will be staged at the opening event of the Haskell County Fair next Thursday morning.

A number of girls in this section have signified their intention of entering this contest and it promises to be one of the interesting events of the big exposition.

TEACHERS OF FOUR COUNTIES TO HOLD 2-DAY INSTITUTE HERE

L. A. Woods, State Superintendent of Public Instruction will be one of the main speakers of the annual program of the Co-operative Teachers Institute in its meeting here October 27-28. Superintendent Woods is, at present, supervisor of the McClennan County Schools. He will address more than 400 teachers representing the schools of Haskell, Knox, Stonewall and Throckmorton counties on the morning of Friday, October 28.

The services of three prominent school men and women have been secured for Thursday's all-day session. Dr. J. F. Kimball, vice-president of Baylor School of Medicine, Dallas, will speak to teachers of the high school and intermediate grades in their section meetings. The title of Doctor Kimball's first address, "Fifty Years in High School," notes his wide experience in the work.

For a number of years he served as superintendent of the Dallas Public Schools and was connected with Southern Methodist University before taking charge of the work of the medical school and Baylor Hospital.

Dr. A. W. Evans, head of the Department of Education, Texas Technological College, Lubbock, will direct the work of the superintendents and principals in their section meeting and will meet sections of high school and grade teachers as well. Doctor Evans was formerly chief supervisor of the High School Division of the State Department of Education.

Miss Nancy Moseley, Dallas, will have complete charge of the three sessions of the primary grade teachers. Miss Moseley, who has been supervisor of the primary division of the Dallas County Schools for a number of years, speaks with au-

thority on the problems arising with the beginners. She will discuss some ways and means of overcoming difficulties with the young reader and will offer solutions to some problems arising in "The Between-Recitation Period."

With the county group meetings and the time allotted county superintendents, Thursday's meeting will close about mid-afternoon. Friday's session calls for the assembly of the entire registration throughout the morning, opening with a short miscellaneous program.

Mrs. R. L. Kincaid, Crowell, will be the first speaker of the morning. She is chairman of the Thirteenth District of the Texas organization of Parent-Teacher Associations and will discuss some of "The By-Products of the Teaching Profession."

Secy. R. T. Ellis of the Texas State Teachers Association will represent that organization in a short talk which will precede the address of Superintendent Woods.

The Institute proper will hold its meetings in the auditorium of the First Christian Church, with section meetings to be held in the other churches of the city.

Supt. C. B. Breidlove of the city schools is chairman of the executive committee of the Institute in charge of the annual program, serving with the county superintendent, who are: Miss Minnie Ellis, Haskell; Hon. Ewell Condon, Throckmorton; Mrs. Ethie Lee P'Pool, Benjamin and S. L. Stewart, Aspermont.

Section chairmen for the 1932 session are: Supt. G. C. Jones, Munday, high school; Miss Lewis Manly, Haskell, intermediate grades; Mrs. J. W. Cloud, Knox City, primary grades; and Supt. H. W. Rice, Throckmorton, superintendents and principals.

RED LYON HERD OF STOCK SECURED FOR LEGION RODEO HERE

ENTRIES IN FAIR WILL EXCEED THAT OF PAST YEARS

From the number of inquiries that are being received by the committee who will have charge of the main building, the entries in the 1933 Fair will exceed any of the past Fairs. Especially is this true in the Livestock and Poultry departments. Several entries in the poultry department has been received from the adjoining counties. It is expected that a large number of horses and mules will be entered from the Rochester and Rule communities.

Persons entering in the individual farm exhibits, should note the following substitutions that may be made. A three pound strip of bacon, for one ham or one pound of butter. One pumpkin or cushaw for one melon. Entries in this division are coming in slower than the committee expected, but a large number may enter before the week is closed.

Entries in the women's work has reached such a large number that those in charge of exhibits are wondering where the space for the exhibit is coming from, however, any and all entries will be taken care of if a building has to be rented up-town to take care of the overflow.

Any information besides that supplied in the catalogue and premium list, may be secured by using H. K. Henry, teacher of Agriculture in the Haskell High School or Joe C. Williams, County Agent.

Mrs. Ralph E. Deacon and Mrs. Hollis Athlete spent Tuesday and Wednesday in Wichita Falls and Monday in the guest of the latter's aunt, Mrs. Childers.

Will Be in Charge of American Legion at the Rodeo Grounds

FINAL INSPECTION IN YARD CONTEST SLATED NEXT WEEK

The final inspection in the beautiful yard contest sponsored by the two service clubs of the city this summer, will be held one day next week according to the committee who has the charge of the contest.

Two inspections have already been made this year and the one next week will be the final one before the contest closes.

Much interest has been shown in the contest this year and Haskell probably could boast of more beautiful yards than any town in this section of the state.

The winners this year will be announced as soon as the final inspection is made and the points tabulated with the reports filed by the former judges.

Boy Scouts to Serve as Traffic Officers During the Fair

Local Boy Scouts will assist city officers in directing traffic in the business section during the Haskell County Fair and American Legion Rodeo next week, according to City Marshal Welsh, who together with Scoutmaster Dave Persons have been working on this plan this week.

The Scouts will work in relays of several hours each, and will be drilled thoroughly on traffic problems by the local officers, in order that the heaviest traffic can be handled safely for all concerned.

Motorists and the public in general are urged to cooperate in observing traffic regulations.

A. B. Caddell Dies at Home of Daughter

The funeral services of A. B. Caddell was held at the home of his daughter, Mrs. R. J. Maxwell near Weinert, Sunday afternoon at 1:30 conducted by Rev. I. J. Duff, pastor of the Weinert Baptist Church. Interment was in the cemetery at Munday.

Mr. Caddell came to Haskell county in 1920 and for the past few years had made his home with his daughters, Mrs. R. J. Maxwell and Mrs. B. C. Patton near Weinert.

He leaves three sons and three daughters: S. C. Caddell, L. C. Caddell, Collie Caddell, Mrs. R. J. Maxwell, Mrs. B. C. Patton, all of Weinert, and Mrs. Charles Clemmons of Montague county. Also one sister and several grandchildren.

Active pallbearers were six grandsons. Funeral arrangements were in charge of W. O. Holden of Jones, Cox & Company.

J. T. Purdy of Gorman was a week-end visitor at the home of his daughter, Mrs. J. H. Kinney.

T. J. TIDWELL SHOWS HERE ALL NEXT WEEK

Fireboys to Decorate Town for the Fair

Haskell's business section and the streets leading to the fair grounds will present a gala appearance during next week, according to plans of the local Fire Department, who will furnish the decorations again this year.

A partial canvas of the business houses made the first of the week, resulted in every establishment approached agreeing to take the decorations, and the boys plan to see remaining business concerns before the close of the week, in order that work of decorating the streets and buildings can be started early on Monday, reaching up for the entire week of the Fair.

Through the courtesy of the Haskell merchants and business men who contributed the finances, the Press Ringers Post of the American Legion will serve a free barbecue next Thursday, opening day of the Haskell County Fair, to all patrons of the American Legion Rodeo inside of the Rodeo grounds.

Plans are being made to feed 4,000 people, according to the officers of the Legion, who have the work of handling the big feed in charge. Several large beeves will be slaughtered and the eats will include old-time barbecue and all the "trimmin's".

The barbecue will be served free to all patrons of the Rodeo just before the opening of their first performance—no advance will be made in the admission price of 50 cents, which will include grandstand, according to the announcement—those holding tickets to the rodeo will be entitled to the free feed.

The business houses of the city are expected to close for this occasion at 12 noon. The gates to the grounds will open at 10:30 o'clock Thursday morning and the barbecue will be ready to serve at 11 o'clock, which will be in plenty of time for everybody to finish eating before the performance begins in front of the grandstand at 1:30.

WORKMEN BUSY GETTING FAIR GROUNDS READY

A crew of men will be busy the rest of the week and part of next, getting the grounds and buildings of the Fair Association in shape for the exposition next Thursday, Friday and Saturday.

Due to the fact that the Fair was not held last year, the grounds and some of the buildings are in need of repairs, and in order to assure complete protection for all exhibits, a new roof is being placed on the main exhibition building, and new glass installed in all windows of the building.

Much beautifying and cleaning up of the grounds is also being done, and the livestock and poultry sheds are being put in first class condition and will be ready early in the week to provide space for exhibitors who want to begin work of arranging exhibits in any department.

Arthur Montgomery Injured in Accident at Cotton Gin Friday

Arthur Montgomery, employe of the Harrison & Gilstrap Gin, was seriously injured last Friday morning when his hand was caught in the saws of the gin stand. His hand and arm was seriously mangled and after first aid treatment administered by Dr. D. L. Cummins, he was carried to a sanitarium at Stamford, where the attending physicians were forced to remove all fingers from the injured hand.

Mr. Montgomery was reported to be resting well yesterday afternoon and on the road to a rapid recovery.

T. R. Fulton, advance man for the T. J. Tidwell Shows, arrived in the city yesterday and he has been busy advertising the exhibition that will be staged here next week. The shows will open Monday morning and continue through the Fair on next Thursday, Friday and Saturday.

This will be the third year for the Tidwell shows on the midway and they have a bigger and better line of attractions than ever before. They have with them 15 shows and 7 riding devices and more than 500 people in the company. Mr. Fulton states that the rides are all modern and the latest thing in rides.

The big free act this year is the Cooper in his usual show of funny acts and animal acts.

Civil Service Examinations Announced

The United States Civil Service Commission has announced open competitive examinations as follows:

Assistant Assayer, \$2,000 a year, less a furlough deduction of 8 1-3 per cent and retirement deduction of 3 1-2 per cent; Treasury Department, for duty in the United States Mint, New Orleans, La., or in the Assay Office, Helena, Mont.

Guard (Penal and Correctional Institutions), \$1,600 a year, less \$180 assistance when provided, and less a \$240 a year for quarters and sub-furlough deduction of 8 1-3 per cent and retirement deduction of 3 1-2 per cent; United States Penitentiary Service, Department of Justice.

Full information may be obtained from Ella Davis Cox, Secretary of the United States Civil Service Board of Examiners, at the post office in this city.

One doesn't always express what's in the bottom of his heart by what he shouts at the top of his voice.

What a Mistake!

Young Wife—The postoffice are very careless sometimes, don't you think?

Sympathetic Friend—Yes, dear, why?

Young Wife—Fred sent me a letter yesterday from Philadelphia, where he is staying on business, and the silly postoffice people put an Atlantic City mark on the envelope.

Landlord, to prospective tenant—Have you any children?

Tenant—No.

Landlord—A dog, cat, or canary bird?

Tenant—No.

Landlord—Piano, loud speaker, or phonograph?

Tenant (timidly)—No, but I have a fountain pen that scratches a little.

Proprietor—Yes, we are in need of a porter. Where were you employed last?

Applicant—In a bank, sir.

P—Did you clean it out?

A—No, sir, the cashier did that.

"Brown always strikes me as an indolent sort of chap."

"Indolent? Why that fellow is so lazy he always runs his automobile over a bump to knock the ashtray from his cigar."

Wife (who is always ailing)—You will bury me by the side of my first husband, won't you, dear?

Husband—With pleasure, darling.

Oates-Morrison Wedding Solemnized in Beautiful Home Ceremony Tuesday

From the Graham Leader: The marriage of Miss Bettie Morrison and Dr. Kenneth D. Oates was solemnized at the home of the bride's mother, Mrs. E. H. Morrison, at 8 o'clock Tuesday evening, October 4th.

The ceremony was read in the candle-lighted library before an improvised altar of smilax, with baskets of pink chrysanthemums at either side, and floor candelabra holding white tapers, which were reflected in the mirror above the fireplace.

The stairway, by which the bridal party descended, was decorated with smilax and lighted by tall tapers in floor candelabra.

Mrs. W. E. Johnson of Marlin, great-aunt of the bride, accompanied at the piano by Mrs. Will Gruby, cousin of the bride, sang from the stair landing, "Sweetest Story Ever Told," by Stults and "Oh Promise Me," by Deconvan, preceding the ceremony. Mrs. Gruby played the Lohengrin wedding chorus as a professional singer and Lange's "Flower Song" was played throughout the ceremony.

The groom with his brother, Hill Oates of Haskell, as best man, entered first and waited at the altar with the minister, Rev. Bryan H. Keathley, pastor of the Presbyterian Church, for the entrance of the other members of the wedding party.

Little Miss Bettie Scroggs, niece of the bride, as junior bridesmaid, was quaintly attired in a turquoise blue satin dress, touching the floor and exactly matching that of the maid of honor. Her slippers were of pink satin and her curls were tied with a bow of matching ribbon. She carried an old-fashioned hand bouquet of Talisman rosebuds.

Miss Mary Grace Hassell of Dallas was maid of honor. Her dress of turquoise satin matched the bride's dress in design. She wore pink satin slippers and carried an arm bouquet of talisman roses.

The bride was gownned in a princess style dress of ivory satin with a short train. Her veil was of Duchess lace, and she carried a shower bouquet of Bride's roses and lilies of the valley. She entered with her brother, Dr. John E. Morrison of El Paso, who gave her in marriage. A very impressive ring service was used by Rev. Keathley.

After the wedding a reception was held, with the bridal couple receiving the congratulations of their friends.

In the dining room, which was decorated with pink roses and bridal tapers the beautifully decorated wedding cake centered the table, laid with white cloth of Italian cut work. White brick ice cream and small cakes iced in pink and blue were served, and the bride's cake was cut. Miss Annie Lucille Morrison was the fortunate maid to catch the bride's bouquet thrown from the stairway.

Following the reception Dr. and Mrs. Oates left in their car for Fort Worth, going from there to San Antonio and Galveston on their bridal trip. The bride's going away costume was a suit of slate blue wool, with blue fox collar and house of wine colored silk crepe. Her hat and other accessories were of black.

Mrs. Oates has lived in Graham all of her life and is a popular member of the young social set. She is a graduate of Graham High School, of Kidd Key College, and received the B. S. degree from Southern Methodist University in 1931, where she was a member of Delta Delta Delta sorority.

The groom, formerly of Haskell, is associated in the Graham Clinic with Drs. Padgett, Winstead, and Westlake. He has lived in Graham a year and has made many friends here during this time, and is a popular member of the Lions Club. He attended Texas A & M College and received his degree from Baylor Medical College in 1930. He was a member of Phi Alpha Sigma fraternity.

Out of town guests included Mr. and Mrs. Oscar Oates, Mr. and Mrs. Hill Oates, Mrs. R. C. Montgomery, Mrs. John Rike, little Ann Katherine Rike, Miss Katherine Rike, and Dr. Thaxton, all of Haskell; Mrs. W. E. Johnson and Mrs. Bruce Ainsworth of Marlin; Mr. and Mrs. Marlin Wilson and Billie Wilson of Rule; Mrs. Finley Scroggs, Sr., and Bettie Scroggs of Tyler; Miss Mary Grace Hassell of Dallas; Dr. and Mrs. Fern Robertson and Marjorie Ann and Joe Edward Robertson, and Bill Wolverton of Olney; Mrs. Virgil Fisher of Wichita Falls; and Mrs. William Lucy of Waco.

From a funeral oration: "Friends, we have left only the shell of the man; the nut is gone."

Harmony Club

Mrs. D. Scott introduced the Haskell Harmony Club's 1932-33 study course, a History of Music, in the first regular meeting of the organization yesterday afternoon.

The initial program dealt with Primitive and Christian Music, carrying the outline well into the Middle Ages. Mrs. J. T. Ellis discussed the beginnings of music among the ancient peoples and traced it through the Bible.

Miss Eunice Huckabee recounted the beginning of music in America, mentioning the introduction of the art in the schools of the Aztecs before the colonization of the continent. Examples of the early songs of the negroes and the Indians were sung by Mrs. Carl Power and Miss Mary Emma Whitaker, with Mrs. O. E. Paterson as accompanist.

Following Mrs. R. L. Harrison's discussion of the Music of the Catholic Church and the Reformation, Mrs. Patterson played two of the chants used in the services of the early churches.

Mrs. Scott completed the program with a short round table discussion of the high points of the lesson.

Mrs. B. M. Whiteaker gave a report of the Stamford Music Club's luncheon given Tuesday honoring Miss Fannie V. Noah of Olney, president of the First District of the Texas Federation of Music Clubs. Mrs. Whiteaker and Mrs. G. G. Herren were guest representatives of the Haskell organization.

Good Luck Pals

The Good Luck Pals met for the first time this school term Tuesday October 4th. The president called the house to order. She extended welcome to the new club members, and read them the club officers, which are:

President—Norma Ann Gilstrap.
Vice-president—Maxine Quattlieb.
Secretary and Treasurer—Eva and Vera Cass.
Reporter—Eula Mae Davis.
Chorister—Virginia Williams.
Pianist—Ava Grindstaff.
Chairman of Program Committee—Alberta Orr.
Chairman of Social Committee—Maxine Quattlieb.

Other facts pertaining to the club which were discussed, were:
Flower—Lilac.
Song—"Lilac Time."
Motto—"Poca a Poca a muy lejas."
Emblem—Horse Shoe.
Mr. F. I. Pearsey will award some piece of furniture to the girl who makes the highest grade in Home Economics this year.

It was voted to give one program for the Parent Teachers Association. Then the new members adjourned and the old members remained and planned an interesting initiation program for the next meeting.

The Society met in the regular business session Monday Oct. 3rd at the church, with the president, Mrs. H. M. Smith, presiding. For the devotional she read a pamphlet by Bishop Kerns on China. It was decided to serve dinner at the church at the noon hour, for the teachers, during the Four-County Institute to be held here. The president also reported some beautiful Christmas cards to be sold very reasonably.

The Society met Monday Oct. 10 for the first lesson on their Mission Study, Facing the Future in Indian (American) Missions. Mrs. Elizabeth Martin prepared the program and in her absence Mrs. F. T. Sanders directed it, and gave the introduction "The Indian as His Friends See Him." Each one was handed a note book and pencil as required by the Conference, and a number of questions were discussed.

Mrs. Fields gave a most interesting talk on Indian Culture and "The Indian Yesterday and Tomorrow," and exhibited some beautiful specimens of their rugs, serapis, and baskets.

Mrs. Southern and Miss Raley told in an interesting way of "The Relations of the Indian and the White Man."

Mrs. Patterson rendered an Indian melody on the organ.

Next week there will be roll call and each one is asked to tell something or bring a picture or anything of interest. This is a most interesting study.

One Sunday two lovers went to church. When the collection plate was being passed the young man explored his pockets and finding nothing, whispered to his sweetheart: "I haven't a cent. I changed my pants." Meanwhile the girl had been searching her bag and finding nothing, blushed a rosy red and said: "I'm in the same predicament."

"What Next?"

Miss Lena Belle Kemp was hostess Thursday evening October 6th to the members and guests of the "What Next?" bridge club. The attraction of the living room was the miniature china dogs everywhere.

Miss Vannie Lee Marrs played several classical selections on the piano before the games started.

A plate of chicken salad, olives, cheese, crackers, popcorn-balls, and hot tea was served to Misses Henrietta Isbell, Vannie Lee Marrs, Janie Lyle Martin, Lorene Newsome from Goree, Mrs. Glenn Marrs and other visitors.

Miss Vivian Bernard won a lovely three-flower set as high score prize, and Miss Vannie Lee Marrs was consoled with a china dog for low score.

Winking Hand by Truth

If anyone can convince me of an error, I shall be very glad to change my opinion, for truth is my business, and nobody yet was ever hurt by it. No; he that continues in ignorance and mistake, it is he that receives the mischief.—Marcus Aurelius.

Disappointing
The other afternoon a child went to the movies and returned looking less than pleased. Her mother asked her about it. Was the picture good? "Perfectly terrible," said the child, "I could hardly sit through the second performance."

Ancient Mines Still Open
Mines more than 3,000 years old are still one of the world's principal sources of vermilion, the bright scarlet pigment. These mines, located in Almaden, Spain, together with those of New Almaden in California, are the world's greatest.

Neatly Put
A man who has discovered how to be both truthful and diplomatic is the one who wrote to the budding bard: "I appreciate the subtle quality of your verses and enjoyed most what appeared between the lines."—Boston Herald.

Stereoscopic Sense
Stereopsis is the ability to determine the nature of a solid body by a sense of touch. It is a sense which is not yet perfectly understood and there is no exact information as to which cranial nerve controls it.

Fearing Wool Shortage
In the early days of the development of the textile industry in America, the consumption of young lamb was looked upon with displeasure as cutting short the wool supply.

Small Town's Advantage
A small town may be defined as a place where the houses are far enough apart so that a person doesn't have to share willy-nilly in a neighbor's radio program.—New York Sun.

Gloves Long Worn
Gloves go way back to antiquity. Xenophon says the Persians wore them in the winter, displaying as much luxury in them as in the rest of their dress.

Bog Water Harmless
Bog water is safer to drink than clearer water which has not been analyzed. Acids accumulate in bog water which kill disease germs.

Eight Great Indian Faiths
Religions of India might almost be called legion, so diverse are the cults of the more unatored tribes, but eight great faiths hold the field.

Water! Water! Water!
Approximately eight-elevenths of the earth's surface is covered to an average depth of about two miles by the waters of the oceans.

Weak Mind
A weak mind is like a microscope, which magnifies trifling things, but cannot perceive great ones.—Chesterfield.

Noise and Numbers
You can never locate a minority until you can tell which side is making the most noise.—Duluth Herald.

Nugget of Wisdom
Take heed and be quiet; fear not, neither be faint-hearted.—Be still.

Medusa, Famous Child of the Sea, Will be in Haskell During the Fair

Quite often it is the privilege of her normal human beings to view the vagaries of mother nature. Occasionally these whims of nature are so astounding that even scientists who are continually striving for facts regarding such cases give up in despair.

One of the most unusual of these products of nature, "gone wrong," is Medusa, Child of the Sea.

Medusa was born in 1906 on a Japanese liner in mid-ocean and as a result of non-development of bones has lain in a prone position since birth and has never even turned over.

The young lady's body from the neck down is almost as pliable as soft rubber and can without the slightest inconvenience to herself, be twisted or coiled into almost any form. Despite this condition of the body, her head is perfectly normal.

Although handicapped to an extent that would cause most persons to give up without a struggle, Medusa has acquired considerable education and an enviable reputation as an entertainer and philosopher, personality that cannot be forgotten and a disposition that has given

her the title, Sunshine Girl. She is often referred to as the human doll due to her tiny figure, she being only 28 inches in length. She owns and directs her own exhibitions and will be presented as a special feature with the T. J. Tidwell Shows that will be here next week at the Haskell County Fair.

Prosecuting Attorney (to opponent)—You're the biggest boob in the city.
Judge (rapping for order in the court)—Gentlemen, you forget I am here.

"They say you married her because her aunt left her a fortune."
"That's a lie. I'd have married her just the same, regardless who ever had left it to her."

Proud Father (showing triplets to a visitor)—What do you think of them?
Visitor (pointing to one in mid-die)—I'd keep that one.

pared with 942 for its nearest competitor. Ford commercial cars were 54.4 per cent of all cars sold, giving Ford a greater percentage of the total business than all other manufacturers combined. The Ford share of national truck sales was 34.4 per cent as compared with 27.1 per cent for its nearest competitor.

The reporting of registrations in August in the various states is not complete, but on the basis of reports thus far received from 34 states, Ford sales again led the field.

CHURCHES

CHRISTIAN CHURCH
(Sunday, October 16th)
Bible School 9:45 A. M.
Lord's Supper 10:50 A. M.
The attendance last Sunday was good; much better than the previous Sunday. However, some folks were absent that should have been present. We urge your attendance each Sunday. The officers and teachers solicit your cooperation in the work of the Bible School. Your presence encourages them. Visitors are cordially invited.

FIRST METHODIST CHURCH
Sunday morning the pastor will discuss "Infant's Baptism," giving reasons why the Methodist Church, together with many other churches, believes this sacrament to be Scriptural. If fathers and mothers have infants or children to be baptized such ministry will be given at the beginning of the eleven o'clock worship.
At the evening hour Leagues will meet at 6:45 and preaching at 7:30. The Board of Stewards will meet Sunday afternoon at three o'clock.

Baptist Missionary Society Meets at Church Monday.
The Baptist Women's Missionary Society met at the Church Monday afternoon, with 19 ladies present in a Bible Study and business meeting. Rev. H. R. Whately very ably conducted the lesson "A Revelation of God."
Mrs. Whately, president, then had charge of the business meeting. Mrs. D. Scott, benevolence chairman, urged everyone to have a part in the box and offering to be sent next week to the Buckner Orphans Home. Clothing and canned goods in tin cans is desired.
She reported a good box sent to the Mexican school last week. The meeting was dismissed with prayer by Mrs. L. F. Taylor, to meet next Monday in circles.

Miss Louise Kaigler Enrolls as Student in Knickerbocker Fine Arts Department.
Mrs. C. M. Kaigler and daughter Miss Louise Kaigler were in Wichita Falls Wednesday, where the latter enrolled in two departments of the "Knickerbocker School of Fine Arts"—piano, under Charles Kiker, and two courses in dancing—the dancing department is divided into ball room dancing, tap dancing, and the new tumbler—the two last named are the ones chosen by Miss Kaigler. She will go each Wednesday and remain in the studios all day. Mrs. Hyman (nee Miss Knickerbocker) head of the school stated that two of her dancing instructors had come to her from Hollywood, Calif., only a few months ago. Pupils of Mrs. Geo. Morrison and Mrs. C. M. Kaigler will have access to materials from the Knickerbocker School this year by paying only a per cent of the cost from publishers.

FORD LEADS FIELD IN NEW SALES

Since June, when volume deliveries of the new Ford V-8 cars began, Ford has led all competitors by a wide margin in sales of passenger cars, commercial vehicles and trucks according to official figures reported today by J. D. Montgomery of the Haskell Motor Company, local Ford dealers.

Ford took the lead in national motor car sales in June, increased his lead in July, as productions of the new Fords mounted, and maintained the lead throughout August, according to reports for that month already received from 34 states. Mr. Montgomery declared. In addition to this, the latest reports also reveal that Ford led in sales in the largest cities during the first 10 days of September.

In June, the first month when volume deliveries of the new Ford cars were available, Ford's share of total passenger car sales in the United States reached 35.9 per cent, as compared with 24.9 per cent for its nearest competitor. Ford commercial cars were 50.5 per cent of all such vehicles sold, as compared with 37.6 per cent for its nearest competitor, while Ford trucks represented 35.7 per cent of all truck sales, as compared with 27.6 per cent for the nearest competitor.

Ford sales in July, as revealed by official registrations, mounted over June figures and Ford's share of the business was increased. Ford passenger car sales reached 38.4 per cent of the total business as com-

SMALL TOWN IS NECESSARY

Two things have come out of the depression that are worth noting. The large centers of population have discovered that they cannot get along without the country. The small communities have discovered that they can make their own life without much worrying concerning large cities. For long it was a habit of big cities to display airs of superiority to the so-called "rural communities." They have pretended to believe that the small town was passing into eclipse, and that people would flock to big cities and make them more and more important and influential. And, also, a lot of "country" people lured by the glamor of the cities, have left the countryside. They have discovered, many of them too late, that life in the small communities have a thousand advantages not possessed by large centers, and that the mushroom development of big cities has been a bad, not too good thing. Today the small city is taking on a new dignity and individuality. We see everywhere the proof that the small community is realizing its possibilities, forgetting to ape the manners of the more artificial "centers of population," and attending enthusiastically to the duty of building a destiny for itself. As the small community becomes strengthened, and as the farm community becomes more independent, the large city will prosper too. What we need in America is vitality of individual effort, and this is what the small city will give in the next generation as it did in the past. The disillusioned folk who thought that the bright lights were what made life worth while, will be drifting back to the country, eager to capture once again the peace, the sincerity, the integrity, the gladness that abides where neighborly comradeship is possible.—Herald, Slayton, Minnesota.

COLLEGE HONOR CODE

Many interesting stories are told of the working of the honor code at Washington and Lee University, where it was established by General Lee when he became president of the school in 1867.

No supervision of students is exercised during examinations, yet cheating is virtually unknown. Nothing is locked up about the institution; books, articles of clothing and all sorts of property are left anywhere with the assurance that they will not be disturbed.

Several students help to pay their expenses by selling sandwiches, candy, apples and the like, but the sales are made without the presence of clerks. The articles for sale are displayed with price cards, and customers help themselves, playing the money in the cash box. During one football game more than \$125 worth of lapel buttons were thus bought and paid for without the supervision, except that when the box was filled with bills a passing professor placed a weight on them to keep them from blowing away.

Now students are thoroughly instructed in the requirements of the honor code and impressed with the importance of rigidly observing it, because, it is explained, this school is built around tradition. And the essence of that tradition is that "it's a pleasure to be a gentleman."

ACT! DON'T DELAY!

Join the Shareholders in America without delay. They are organized to help elect Franklin D. Roosevelt and John N. Garner, and to restore the fundamental principles of Democracy upon which this country in the past has prospered. If everyone interested in protecting his or her share in America will contribute one dollar, victory is assured. Don't delay. See L. D. Ratliff, Henry Ballard, or one of the other committeemen at once and hand them one dollar and get the official Roosevelt-Garner medallion designed by Gutzon Borglum and cast in bronze. It shows that you are a Shareholder in America—enlisted in a great cause—pledged to restore the fundamental principles of true Democracy. Work and vote for Franklin D. Roosevelt and John N. Garner, and we'll be on the way up with Roosevelt and Garner.

There was a time when a bicycle or a pony was the heart's desire of every boy, but now he can't wait until he's sixteen so he can drive the family car.

Smiles

Why take life too seriously? You'll never get out of it alive.

After a cessation of his immediate financial worries, John went by the pawnshop and redeemed his suit of clothes. He failed to remove the tags and his mother found the suit next day, and noticing the tag on the coat asked, "John, what is this tag on your coat?" John lost very little time in answering, "Oh, I was at a dance last night, mother, and checked my coat." A moment later mother came

You'll Appreciate the Finer Flavor of Electrically-Cooked Foods

Years ago traditional "Dutch Oven" meals provided wholesome, appetizing and attractive foods cooked in their own juices... with all the delicious flavors, beneficial vitamins and vital food elements sealed-in. Memories of these wonderful meals have been handed down in poem, song and prose.

But the "Dutch Oven" method of cookery, marvelous from the standpoint of results, was too burdensome to fit modern living conditions... So Electric Cookery, offering the same delicious and healthful meals with a minimum of work on your part, has skyrocketed to popularity. Deservedly!

With Electric Cookery, scientifically accurate cooking controls do all the cooking! Literally, you do nothing but put the foods in the oven, set the controls, and take out a delicious and piping hot meal when you are ready to serve!

To save work, money and health... to enjoy a clean, cool kitchen... and to serve better and more healthful meals, install an Electric Range TODAY. Ask a salesman for information regarding special prices and terms NOW available.

Call on for an individual demonstration of your new Electric Cookery. You may be surprised to learn that there are many more advantages than you think. It's electric and genuine.

West Texas Utilities Company

Health authorities were recently the recipients of a deeply appreciative letter. It said, "I wish to thank the city authorities for quarantining my family and me recently for three weeks, because one of them had smallpox. During that time my wife caught up with her sewing. We had three square meals every day, as no one came in and she was not permitted to leave. We enjoyed three weeks of good nights' sleep, and best of all, a cousin with four children, who had arranged to visit us, saw the smallpox sign on the door and left town so scared that she will never come in again. Many thanks."

"Did you hear about Doctor Fix-em drinking sulphuric acid by mistake?"
"Kill him!"
"Naw; he said the only thing he noticed was that it made holes in his handkerchief every time he blew his nose."

Let Us Revere The Memory of Texas' Immortal Heroes

With all despatch - The enemy is fleeing reinforcements daily & with no doubt increase to three or four thousand in four or five days. If this call is neglected, I am determined to sustain myself as long as possible & then never forget what is due to my own honor & that of his country -
Victory or death
William Barrett Travis
St. Cal. com Sta

The appeal of William Barrett Travis from the besieged Alamo to "all Americans in the world," dated February 24, 1836, is one of the most heroic documents of human history.

"If this call is neglected, I am determined to sustain myself as long as possible and die like a soldier who never forgets what is due to his own honor and that of his country."

Thus wrote Travis, and he carried out that determination in a manner so heroic as to command the admiration of all men of all time.

One hundred years after Travis died that his country might live—shall not Texans show to the world that they revere the memory of his magnificent sacrifice?

Let us revere the memory of all the immortal heroes of Texas by observing the Centennial in a manner worthy of it.

Such a patriotic event must have the official sanction of the present-day government of Texas.

This sanction must spring from the people themselves. At general election on November 6th, Texas will be given an opportunity to make possible the celebration of a centennial through the passage of the Texas Centennial Constitutional Amendment authorizing it.

Variation in Tiger Skins

There is considerable difference in the skins of tigers. The Bengal tiger has a short coat of dark orange-brown color with black stripes. Those from other parts of India are of the same color, but have longer hair. Those farther north, such as China and Mongolia, are not only large in size, but have long soft hair of orange-brown with white flanks and are marked with black stripes.

Persians Appreciated Silk

It was the custom in the East for attelers to be attached to the royal household. Seventeenth-century travelers to Persia reported that the Persians excelled above all manufactures in the weaving of silk and that the looms attached to the court employed at least 150 craftsmen who were generously cared for. The ruler in addition gave special awards to the artists whose work pleased him most.

Busy Oysters

If all the enemies of the oyster should suddenly declare an armistice of 50 years, by the time hostilities were resumed the bivalves would fill all the seas of the world and every continent would be flooded by the overflow. A female oyster produces 11,000,000 eggs at a time, recent tests show, but luckily for the world, only about 11 of these eggs develop into full-grown oysters.

Yale Library Treasure

The title of the first English law book, recently acquired by the Yale Law School library, supposed to have been published in 1490, was "Stratham's Abridgment." The donor was an alumnus of the Yale Law school who preferred to remain anonymous. The book contains a printed digest of English case law and the type is an imitation of the handwriting of that period.

Sun's Ultra-Violet Rays

The light of the sun contains ultraviolet rays to a greater or less degree in all localities on which it shines. The amount of radiation depends upon the weather. The percentage of ultraviolet rays in sunshine is greater at noon and in localities where the sun's rays are more or less direct, as in the tropics.

Fish May Be as Long

South Florida has a lake named Histocapatheolachoochee, which should make the fish about as dizzy as you who are reading this. As for you, who have the fishing itch, you might try Ichthucknee river in the same state.

Egyptian Miser's Hoard

Coins dating back to the Fourth century were found hoarded in the tomb of an Egyptian mummy, who probably spent his time on earth thinking about what a good time he would have with them some day.—Detroit News.

Catering to Indian Castes

Water is carried in the Indian army in leather bags made of goat-skin, to accommodate the Mohammedans, who could not drink from a bag made of pigskin, and the Hindus, who would be unable to drink from one of calfskin.

World's First Botanist?

Theophrastus, a native of Lesbos, is called the world's first botanist. He died about 300 B. C., and with him died the science of botany, for we do not hear of a single new discovery in that subject for more than 1,800 years.

Not Wanted There

The Wade Ethnological expedition has discovered a savage in central Africa with a reach of approximately nine feet, but we don't care as long as we don't have to board at the same house as he does.—Boston Herald.

Beautiful Canadian Park

Banff National park in the Canadian Rockies comprises an area of 2,585 square miles. It is a game sanctuary and contains some of the most beautiful mountain scenery in North America.

Tribute to Educator

The quotation about Mark Hopkins at one end of a log and a boy at the other end being a university, is attributed to James A. Garfield, who was a student for two years (1854 to 1856) at Williams college under Mark Hopkins, a famous American educator who was president of that college for 36 years. A great admirer of Doctor Hopkins' method of teaching, he declared that "Mark Hopkins at one end of a log and a boy at the other constituted a university."

Census Classifications

A gainful occupation in census usage is an occupation for which the person who pursues it earns money or a money equivalent, or in which he assists in the production of marketable goods. The term gainful worker does not include women who do housework in their own homes without wages and having no other employment, nor does it include children who assist about the work at home.

Historic Quebec

Quebec has been fortified from the earliest times, the first structure being built by the French. In 1753 a temporary citadel was begun and the remains of these works, still visible, are erroneously reported to be in some guide books as of French origin. In 1823 the British government undertook a comprehensive scheme of defense, the main parts of which are in excellent repair today.

Yukon Land of Flowers

Yukon territory, Canada, is a land of flowers. Hundreds of species of flowers, plants and shrubs grow wild on every hill and valley. Nature responds generously where flowers are cultivated and one of the lasting impressions left with the visitor is the variety and beauty of the flowers which decorate homes and beautify the grounds of Dawson, the capital.

Protect the Goldfinch

The American goldfinch has few equals as a weed destroyer. This plump fluffy little bird of sulphur yellow except for a circular black cap on its head and a few markings of black on its wings and tail is especially fond of thistles, ragweed, wild lettuce, wild sunflower and dandelion seeds.

Chinese Students "Cribbed"

A silk handkerchief presented to the Field Museum of Natural History covered with thousands of Chinese characters, was identified as having been used as a "crib" to enable a Chinese student of the Kangsi period—1562-1722—to pass his civil service examination.

Flame Without Matches

To make a fire without matches scrape a fine lint from a piece of cotton cloth. On this focus the sun through the crystal of a watch or compass or the lens of a pair of spectacles and the lint will soon start to glow. Blow this into a flame.

Speyer Cathedral Restored

The completion of the work of restoring the greater Speyer cathedral, Germany, which was built in the years 1030 to 1031, is reported. During excavations a Roman sacrificial stone altar with inscription was found.

Birds Had Teeth

The first birds, which developed from the flying reptiles, all possessed teeth. As they progressed into the later stages of bird evolution, however, the teeth were lost, and there are now no living birds with teeth.

China Had Paper First

In 100 A. D. China had already invented and was using paper of a high quality. This discovery, carried through Central Asia to Persia, Egypt and Spain, finally reached Europe, 1,000 years later.

Careers of Husbands

Anyway, the woman who picks a husband instead of a career has an easier time running what she gets than the other woman does the business she gets.—Cincinnati Enquirer.

Prefers Originality to Fact

"Genius often proves untrustworthy," said Hi Ho, the sage of Chinatown, "because it is natural for it to prefer originality to ordinary fact."—Washington Star.

First Workable Submarine

David Bushnell (1754-1824), an American inventor, brought out a successful submarine, a tiny craft with accommodation for but one person, in the year 1775.

Emblem on Coins

The American eagle as an emblem appeared on the first coin issued by the United States in 1795 and on a majority of the subsequent coins.

"Dry" States

Eastern California, southern Nevada, and western Arizona receive less rainfall than any other section in the United States.

Discovery of Heat Rays

The presence of invisible heat rays first was suspected more than 100 years ago when Sir William Herschel found that a thermometer placed in the red end of the solar spectrum was hotter than when in the blue area, and that a still higher temperature was attained when the thermometer was placed beyond the red end, where nothing could be seen. This led to the discovery of ultra-violet light, the first invisible energy rays known to science.—Detroit News.

First American Submarine

John Philipps Holland conceived the idea during the Civil war, and laid his first plans for a submarine before the United States Navy department in 1875. Two years later he constructed the first vessel of the sort, a clumsy wooden affair. Joining the Crescent shipyards at Elizabeth, N. J., he built, according to his own plans, the submarine Holland, which was successfully tried in 1898, and was purchased by the United States government.

For Distinguished Service

The Roosevelt gold medal is awarded annually by the Roosevelt Memorial association to persons chosen for distinguished service in the administration of public office, international law, industrial peace, conservation of natural resources, social justice, natural history, outdoor life, national defense, leadership of youth and literature.

Alchemy's Real Meaning

In the narrow sense of the word, alchemy is the art of making gold and silver, or transmuting base metals into noble ones. The idea probably arose among the Greeks of Alexandria in the early centuries of the Christian era. In its widest significance, the term alchemy means the chemistry of the Middle ages.

Beautiful Karlsruhe

Karlsruhe, the capital of Baden, beautifully situated in the upper Rhenish plain, within easy reach of the Black forest and the Haardt hills, is a great favorite of American touring vacationists. Wildpark in the Haardtwald is to the north, six miles away is beautiful Boll, an island in the Rhine.

Indian Family Record

The totem pole is a pole used among North American Indians to exhibit the totem figures. The totem pole is composed principally of half-human, half-animal figures, seated above one another, above which appears the particular totem, or symbol.

Grand Canyon Wonders

The chasm of the Grand canyon has a length of 217 miles, its greatest vertical depth is about 6,000 feet and its width, at the point to which visitors are conducted, is 13 miles. A hundred Yosemite might lie almost unperceived in its immense reaches.

Female Skulls Best Guide

When examining the skulls of animals to determine whether they belong to known or unknown species, the information obtained from female skulls is said to be much more reliable than that obtained from male skulls.

Found Smallest Unit

The great star Antares, diameter 420,000,000 miles, is believed to be the largest thing, and the smallest known unit of matter, the atomerg, was discovered by Dr. E. K. Plyler, of the University of North Carolina.

Rain Caused Frog Plague

Following a rain in Lenton, England, hundreds of frogs from the canal invaded the town, causing women to take refuge in their homes and buses and other vehicles to travel with difficulty.

SPORTS

Haskell Brought a Team on the Field

Haskell brought a team on the field last Friday that was one hundred per cent better than the one that lost to Seymour the previous week. The Indians line held at times like they really meant to play football this season, and only on a few occasions did they weaken. The center of the line is still a little weak, but when they play Monday I am expecting the line from end to end to show more power. The Roby game was nothing more than a real good scrimmage for the Indians. The latter run with ease and at no time to speak of were they ever putting out what they were capable of doing. Haskell is expected to win the district this year (by me) and they should do it without a struggle should they keep improving as they have been. O'Neal and Eastland looked mighty good in the backfield, and they were helped a whole lot by their running mates, Herring and Sherman. The latter two have not hit their stride as yet, but are expected to get off to a grand start Friday. The season is early and often it takes some men just a little longer to get started than it does others. That is the way it seems to be with Herring and Sherman. These two boys are great little players but they have not received some of the breaks that have O'Neal and Eastland. Haskell's team looked like a bunch of amateurs when they marched out on the field where Roby's men were waiting for them. Roby had 31 big strong boys—all dressed alike, and they looked like mountain Indians long to show those huskies that they were in for a bad afternoon. Haskell rolled up a touchdown the first two or three minutes of the game, and it was our game from there on out. All the boys played well! There was no kick on the work of any one individual, and the fans are proud of the boys! Let's all go to Munday this week and watch the Moguls take a licking from the Indians, as the latter will be on the war path by then. Haskell will probably be on the long end of a score of 12-0. Be there as the boys will need you to help them win.

GAYNOR AND FARRELL AS MARRIED LOVERS

That the romantic troubles of young love during the first year are mostly fleeting is the dramatic thesis of the latest Janet Gaynor and Charles Farrell comedy drama, "The First Year," coming on Oct. 20-21 to the Texas Theatre. Adapted from the Frank Craven stage play of the same name, it presents Janet and Charles as two entirely understandable youngsters of the present day. Director William K. Howard is said to have followed closely the unique camera methods and swift-paced dramatic technique that have marked his recent successes, notably "Transatlantic" and "The Trial of Vivienne Ware." As a result of this the Gaynor-Farrell team are said to contribute the crowning performance of their careers. Miss Gaynor, as the charming, marriageable young daughter of average American parents in an average American town, is said to combine her characteristic wistfulness with a deep understanding of dramatic values. Charles Farrell is her lover again, but this time he marries her and starts an era of hilarious strife.

cause it shows how the other half lives

The poorer ones will like it because it unfolds a heart story that they themselves might be living. Children will like it because there are kids in it. Grown-ups will like it because it has a tear and a laugh all the way through. It is great entertainment, playing on the emotions from start to finish.

"THAT'S MY BOY" TELLS WHAT'S WHAT IN FOOTBALL

Did you ever see a football game where a national idol makes a sensational run for a touchdown in his college's crucial game of the season, before close to 100,000 people, yet is booed to the echo? Well, that's one of the pivotal situations in Columbia's football picture, "That's My Boy," featuring Richard Cromwell in the role of a great gridiron hero who becomes involved in an ugly scandal which threatens for a time to blight his career. It is showing at the Texas Theatre Oct. 16 and 17. Chances are that Cromwell's characterization of "Snakehips" Scott, a slender youth who gallops for touchdown after touchdown because of his peculiar leg twisting, hip shifting method of running, is going to set the nation's vast army of football fans agog in speculation as to the real life identity of this colorful character.

Relieves Women's Pain
Here is an example of how Cardui has helped thousands of women:
"I was very thin and pale," writes Mrs. F. H. Scott, of Rossmore, Va. "I suffered from weak nerves and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worse, two days after day.
"My mother had taken Cardui, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and I feel like doing my work. I did not feel like going to places, and felt worse, two days after day.
"I am stronger than I have been in some time."
Cardui is sold by local druggists.
