FORTY-FOURTH YEAR

State Drouth Relief Heads to Meet Here Monday

Re-Routing of Highway 18 Considered

Excessive Cost of Right-of-Way Causes Engineers to Consider New Route Near Sagerton.

Following the trial of condemnations proceedings against property owners in the Sagerton section along the right-of-way for Highway 18 in county court last week, in which damages were allowed which make the cost of the right-of-way excessive according to highway engineers, it is rumored that a new route for the highway is being considered by the highway department.

Division Engineer Puckett, when questioned about the rumor, stated that no definite announcement could be made at this time, but did say that the question had been reopened with the State and Federal Highway Departments relative to a new routing through that section which could be secured at a considerable saving. It is understood that the new route being considered would follow closely the first survey made for the road through the town of Sagerton, and which routing was protested by Sagerton citizens because the highway did not pass through the business part of town.

All work of clearing the right-of-way and moving fences preparatory to starting grading on the project has been abandoned on the Sagerton end of the road, it is understood and will be held up until a definite route through the vicinity of the town is adopted.

Seven H. D. Clubs To Fill Score Card for Fair

Seven home demonstration clubs of Haskell county plan to fill the entire score card as listed in the year book for the county fair. Other clubs will exhibit a part of their products as listed. It is expected that the exhibit of products canned and made at home by the women will be one of the best of its kind in spite of hard times.

Girls from seven 4-H clubs in the county will exhibit clothing, canning, poultry and garden work. This work has been done by girls of first, second and third year club work and the 3 girls having best complete exhibit of work will be sent to Dallas fair and her exhibit will be entered there.

Senior Class Elect Officers For School Year

The Senior Class of Haskell High School held their first meeting of the year last Wednesday. They met to elect officers for the coming year. Wallace Sanders acted as chairman until the president was named. The following officers were elected:

Rogers Gilstrap—President.
Vannie Lee Mays—Vice President.
Gilbert Wilson—Secretary.
Marvin Gholson—Treasurer.
Mr. and Mrs. Geo. Wimble were unanimously elected sponsors of the Senior Class and it is known that they will make good leaders. The class boasts of nearly sixty members this year and they are hoping that their class will be outstanding with their newly elected officers.

Several members of the class are from the rural districts and they have a warm welcome into our school.

Miss Maurine Couch has returned to Stamford to assume her duties as teacher in the public schools in that city.

NOTICE!

Any one having room, apartments, light housekeeping rooms or homes for rent, please list with Chamber of Commerce, City Hall, for the good of Haskell. Money will be above.

4-Days Revival Now In Progress Church of Christ

The public is cordially invited to attend a short Gospel Revival Meeting at the Church of Christ at this place, on Thursday, Friday and Saturday of this week, and Sunday morning and night of next week.

Minister O. C. Hartsel of Teague Texas, will conduct the preaching services at 10 a. m., and 8 p. m. each day. Brother Hartsel is a man who is widely known over the State of Texas. He has had much success in the revivals that he has conducted this year. He is so pleasing in his manner, and so friendly, that you will be glad to meet him.

Throughout this meeting, his messages will be an answer to the two questions that so vitally concern the future destiny of every individual: What Must I Do To Be Saved? and, How Must I Live As a Christian?

The Haskell Church of Christ will welcome you at these services.

West Side Singers To Meet Sunday At Rochester

The West Side Singing Convention will meet at Rochester next Sunday, Sept. 14th at 2:30 o'clock. An excellent program has been arranged and all singers and lovers of good music are invited to be present.

Mrs. F. T. Sanders spent last Monday in Stamford attending a District Superintendent's Mission Study meeting.

Miss Katherine Rike is spending this week with her brother, John Rike and wife of Aspermont.

Miss Abilene has returned from a visit to a few days.

Season's Ginnings Here Total 368 Bales Thursday Morning

With the fair weather which prevailed through most of last week, cotton ginning has proceeded at a rapid rate, with a total of 368 bales ginned up to and including Wednesday evening by the eight Haskell gins.

The heavy rains of Monday night which were general over most of the county, has halted the gathering of the staple, and it will be several days before ginning can be resumed at last week's pace.

In the neighborhood of 6,000 bales were ginned by the Haskell gins last season, and most of the ginnings are of the opinion that this season's ginning will exceed this figure.

REDUCED FREIGHT RATES ALLOWED FORDROUTH AREA

Reduced freight rates on livestock, livestock feed, hay and straw in carload lots has been authorized by the State Railroad Commission, according to the information received by R. C. Couch, local banker and member of the State Drouth Relief Committee.

The reduced rates became effective August 28, 1930, and expire at midnight October 31, 1930, and are applicable as to the areas then certified to, and on the dates of certification of additional areas, to the national drouth relief organization.

Fair Catalog To Be Distributed In Near Future

The catalog for the 1930 County Fair is now being assembled and printed, with the premium lists in every department revised and corrected, and the booklet will be off the press in the near future, in plenty of time to be distributed to prospective exhibitors several weeks before Fair week.

Progress in all other phases of preparatory work for the coming Fair is away ahead of expectations, according to Manager Campe, with all indications pointing to the best Fair ever staged in this section.

Mrs. Marshal Pierson and little daughter, Daisy Belle of Austin, and formerly of Haskell, are visiting Mr. and Mrs. A. C. Pierson for a few days.

Miss Hattie Lucile Paxton left Tuesday night for Abilene, where she will teach Latin in the Abilene high school.

Haskell Indians Meet Knox City Here Friday in Season's First Grid Game

Attending Drouth Relief Committee Meet In Houston

R. C. Couch, local banker, who was recently appointed a member of the Drouth Relief Committee by Governor Moody, left Tuesday afternoon for Houston, where he goes to attend a conference of committee members from throughout the state on the drouth situation.

Mr. Couch was joined at Stamford by A. J. Swanson, another member of the committee, these two gentlemen representing the Haskell section at the meeting.

EVERYBODY URGED TO GET READY FOR FAIR

All local male talent is urged to get in readiness and training for the colorful events of the coming Fair as it is just a little over a month until the big days. Those that contemplate entering the night shirt race are asked to please have the shirt well laundered, secure a suit case and an umbrella and do not throw away your straw hat as the above will all be needed for equipment in this interesting race. This race is a walking race starting in front of grandstand, each participant to wear clean night-shirt, shoes, straw hat and carry a suit case and umbrella (nothing else will be permissible) walk one eighth mile and back, the first one back to front of stand gets the money.

The Polo players of the Lions and Bonehead Clubs are urged by the International Burro Championship Committee, Chairman T. C. Cahill to work both night and day with their mounts, also to practice croquet, as much as possible as he has been informed that the Monday and Anson teams are in daily training.

Those that contemplate entering the Wild Cow Milking contest are to secure their own ropers, however if they so desire they may wait until just before the Fair and secure some of the professional ropers that will be here for the Rodeo. They are advised to practice at home milking the old home cow in a sodapop bottle, as you will find this of great assistance before the contest is over. All contestants in the wild cow milking contest will be allowed to wear a base-ball mask and shin protectors (no chest protectors, pillows, stools or rocking chairs to be used). Any person that has a real wild, mean, dangerous cow that they want milked, you are asked by the Management of the Fair to have her somewhere near the Fair Park the opening day so that we may corral her before the show opens.

Get ready for the "Big Parade" and either enter your decorated car, commercial float, or a school float or get you a comic or clown costume and enter this contest that will be most interesting and entertaining. Prizes are being offered in all the above divisions and you will not only be helping your Fair, but stand a chance of winning a nice cash prize. Any information desired in regard to the parade call on Mr. Bailey Post, Chairman Parade Committee.

Miss Jewel Paxton left last week for Lubbock where she is employed as Latin teacher in the Lubbock high school.

Several Haskell Students Attend A & M College

Three of Haskell's most brilliant boys are attending A. & M. College, and have been awarded honors among the thousands of students of that school. Grady Murchison, son of Judge and Mrs. W. H. Murchison has been appointed First Sergeant of Company "E," and M. E. Overton, has been appointed First Lieutenant, second in Commander Company "H" and Earnest Kimbrough son of Dr. and Mrs. W. A. Kimbrough, has been appointed also Sergeant of Company "E."

Haskell County should be proud of these boys and their promotions in one of the State's best schools.

Roy Sanders left Tuesday night for Austin, where he will again be a student in the State University.

Mrs. Erwin Pittars and Hyder Rollins of Anson were guests of Mrs. Earnest and family Sunday.

Miss Maye Belle Taylor has gone to Eastland, where she will be an instructor in the Public Schools again.

Texas Company To Operate Two Stations Here

Announcement of the opening in Haskell of two company operated filling stations by the Texas Company was made this week by J. F. Kennedy, local agent for the company.

The company stations are Kamp Kennedy, under the management of Frank Kibstedt, and the Texas Filling Station, under the management of Willie Johnson. Both are modern, well-equipped stations and the change from private to company operation will in no way affect the present management. It is stated.

Credit Bank Policies on Drouth Relief to Be Presented at Meeting Here Monday.

CITY TRAFFIC RULES TO BE ENFORCED HERE

An active enforcement of city traffic ordinances and regulations is being planned for Haskell in the immediate future, according to Mayor Menefee and City Marshal Cousins, who state that increasing traffic makes it imperative that motorists give more attention to this problem. The cooperation of every citizen is asked by the city officials, to the end that violations of traffic ordinances be reduced to the minimum.

The observance of the following simple rules set forth by city officials will greatly aid in avoiding violations of traffic regulations:

- Do not park on yellow lines.
- Do not park double.
- Do not run past stop signs.
- Do not park on street intersections.
- Park parallel on side streets.
- Do not speed in city limits.
- Do not park at curb from left side.
- Do not exceed 10 miles per hour when passing schools.

FREE ADMISSION FOR CHILDREN ON FIRST DAY OF FAIR

The opening day of the Haskell County Fair, Thursday October 16, has been designated as educational and children's day and all children of Texas will be admitted free to go and come as they please. The school children of Haskell and Haskell County will be invited and urged to participate in the parade in a special division of their own. Parade will start Thursday morning at 10 o'clock, place of assembly will be announced later by Chairman Bailey Post of Parade Committee.

"Live at Home" Contest Planned For the County

Under the auspices of the Future Farmers Chapter of Haskell High School, a "Live at Home Contest" is to be held. The contest is to start October 1st. Rules governing the contest will be published next week in this paper. Prizes will be awarded to winners of the contest. The contest will be open to any resident of Haskell County provided they live on a farm.

The object of the contest is to encourage as many farmers as possible to raise agarden and as far as possible live at home. The family buying the least amount of food off the farm per member will be declared winner. Entries should be mailed or phoned to H. K. Henry or Horace Achison.

Church of Christ To Begin Meeting at Weinert Soon

The Church of Christ will begin a series of meetings at Weinert, Sunday, September 21st, and will continue for one week. Elder J. T. Salyer of Bangs, Texas will do the preaching. The public is invited to attend these services.

Chief Justice and Mrs. C. M. Curson of Austin and Mrs. Curson's sister, Miss Morris of Walnut Springs, visited in the home of Judge and Mrs. Bruce W. Bryant last week.

D. H. Perrin and B. C. Chapman spent last week vacationing in Arkansas.

Hon. Jas. A. Stephens of Benjamin transferred legal business in Haskell this week.

A meeting of the members of the State Wide Drouth Relief Committee appointed recently by Gov. Moody, together with representatives from 70 Texas counties in the drouth area, will be held in Haskell Monday, according to dispatches from Houston, where Gov. Moody and members of the committee conferred Wednesday.

Intermediate credit bank policies on drouth relief agricultural loans described by Governor Dan Moody as "reasonable and liberal," were tentatively outlined at the Houston conference Wednesday afternoon and will be presented formally to the state wide drouth committee and to county relief representatives from 70 West Texas counties at a conference Monday at Haskell.

After Wednesday's discussion, M. H. Gossett, president of the Federal Farm bank and the Federal Intermediate Credit bank of Houston, prepared a formal statement for submission to O. B. Martin of College Station, chairman of the drouth committee appointed by Governor Moody in pursuance to President Hoover's drouth relief plan.

"Judge Gossett and R. D. Johnson, vice president of the intermediate credit bank," Governor Moody said, "outlined reasonable and liberal policies toward assisting people in the drouth areas needing agricultural loans. We hope to have a full and representative attendance at our West Texas meeting despite the fact the time is short. It is essential that drouth relief committeemen, state and county, attend so that a basis for relief loans may be reached."

Those attending the conference in Houston were Governor Moody, en route home from the Democratic state convention at Galveston; A. J. Swenson of Stamford; Tate May of Hamlin; R. C. Couch, Haskell; Sen. Tom Conally and Mr. Martin, committee chairman. The federal banking representatives were Judge Gossett and Mr. Johnson.

OUTLOOK BRIGHTENS PROSPECTS FOR THE HASKELL CO. FAIR

With prevalent showers throughout this section, all crops looking good in general, the outlook for the Seventh Annual Haskell County Fair to be held October 16, 17 and 18 is the brightest in its history. Community Agricultural exhibits are above the average and the beef, dairy and poultry departments are to exceed anything in the past. All available space in the agricultural exhibit hall has been taken and assigned and the Home Demonstration and Womens Clubs are waiting for more room.

The Vocational Agricultural Boys Clubs of four counties will compete at this Fair in a livestock judging contest. This years premium list calls for some \$3,000.00 in prizes in agriculture, horticulture, livestock and poultry. The entertainment features will surpass anything ever yet attempted by association and there will be a \$5,000.00 rodeo with some of the world's most famous bronc and steer riders, ropers and bulldozgers to compete at this meeting. The management has cut the admissions to grandstand and bleachers sections to just half that of previous years.

The Fair is to open the 16th of October with a grand and spectacular parade showing Haskell's history and Industrial Progress. It is followed with a coronation and pageant in which come show teams and sister clubs will have representatives.

Abilene, Wichita Falls and Archer City have added their names to the list of the other towns and cities who will send a representative in the form of a band to the Princess to participate in coronation and pageant of the County Fair, October 17.

S. J. R. No. 19
Proposing a Constitutional Amendment to be Voted on November 4, 1930.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 5 of Article 3 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

The Legislature shall meet every two years as such time as may be provided by law and at other times when convened by the Governor. When convened in regular Session, the first thirty days thereof shall be devoted to the introduction of bills and resolutions, acting upon emergency appropriations, passing upon the confirmation of the recess appointees of the Governor and such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided that during the succeeding thirty days of the regular session of the Legislature the various committees of each House shall hold hearings to consider all bills and resolutions and other matters as may be submitted by the Governor; provided further that during the following sixty days the Legislature shall act upon such bills and resolutions as may be then pending and upon such emergency matters as may be submitted by the Governor in special messages to the Legislature; provided however, either House may otherwise determine its order of business by an affirmative vote of four-fifths of its membership.

Sec. 2. That Section 24 of Article 3 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

Members of the Legislature shall receive from the public Treasury a per diem of not exceeding \$10.00 per day for the first 120 days of each session and after that not exceeding \$5.00 per day for the remainder of the session.

In addition to the per diem the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed \$2.50 for every 25 miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter to be established; no member to be entitled to mileage for any extra session that may be called within one day after the adjournment of a regular or called session.

Sec. 3. The foregoing constitutional amendment shall be submitted to the electors of this state qualified to vote on constitutional amendments at an election to be held throughout the State on the first Tuesday after the first Monday in November, A. D. 1930.

No. 4102
Citation By Publication
 The State of Texas,
 To the Sheriff or any Constable of Haskell County—Greeting:

You Are Hereby Commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Haskell if there be a newspaper published therein, but if not, then in the nearest County to said Haskell County, for four consecutive weeks previous to the return day hereof, D. D. Eoff, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Haskell at the Court House thereof, in Haskell, Texas, on the 22nd day of September, 1930, then and there to answer a Petition filed in said Court on the 14th day of August, A. D. 1930, in a suit numbered on the Docket of said Court No. 4102, wherein Realty Trust Company is the plaintiff and D. D. Eoff and wife Mrs. Middle Eoff, F. L. Daugherty, Mrs. J. R. Cooper and husband J. R. Cooper, and W. P. Crouch are the defendants. The nature of the plaintiffs demand being as follows, to-wit:

Plaintiff prays judgment for debt, interest attorney's fees, foreclosure of lien, costs of suit, etc., alleging that on the 14th day of September, 1928, the City of Haskell, Texas, acting by and through its proper officers issued certificate of special assessment in the sum of \$257.43 to the Tibbetts Construction Company for the pro-rata part of the cost of paving and improving Houston Street, against the Defendant D. D. Eoff, and his property, described as all that tract piece or parcel of land lying and being situated in the City of Haskell, County of Haskell, State of Texas, being Lot No. 3 in Block No. 3 of the J. W. Meadors Addition, fronting 50 feet on the West side of Houston Street, which assessment was payable in six equal installments, That Defendants, D. D. Eoff and wife Middle Eoff executed their written mechanic's lien contract for said work and agreed to pay to said Tibbetts Construction Company the amount of said assessment in said installments. Prior to the maturity of the second installment said Tibbetts Construction Company transferred and assigned to the Plaintiff said assessment and contract and lien securing the same, and that said Plaintiff has often requested the Defendants to pay same, but Defendants have failed and refused to pay any part of said indebtedness, to Plaintiff's damage in the sum of \$330.00, and further damage in the sum of \$75.00 attorney's fees, which have been incurred.

missioners appointed by the County Judge of Haskell County, Texas, to assess damages to B. A. Ashworth and against Haskell County by reason of the condemnation of a certain right-of-way over and through their property and premises, the same being described as follows:
 B. A. Ashworth
 B. B. B. & C. R. R. Survey, Section No. 12. Beginning at the S. E. corner of the B. A. Ashworth property, said point of beginning being 35 ft. from and at right angles to chain station 205; Thence N. 0 deg. 04' W. 350 ft.; Thence S. 89 deg. 56' W. 15 ft.; Thence S. 0 deg. 04' E. 350 ft.; Thence N. 89 deg. 56' E. 15 ft. to point of beginning and containing 0.12 acres more or less.

Herein I do hereby certify that you have executed the same. Given under my hand and seal of said Court, at office in Haskell this, the 26th day of August, A. D. 1930. (Seal) Lois Earnest, Clerk District Court, Haskell Co., Texas.

THIS IS A GOOD YEAR TO BUILD ECONOMICALLY
 Before

Save Money By Remodeling That Old Building Now!
 ● Many old homes, stores and offices are as sound today as when first built, but they look out-of-date and therefore, rent low. It's a real investment to remodel these buildings. Their rental and selling value immediately increase.
 ● Many old houses have spacious and beautiful interiors. From the outside, however, they seem shabby, old-fashioned, run-down. A few changes will both improve the looks and increase the value of such homes. A modern, light-colored stucco over the old walls, a fireproof roof or a coat of paint may be all that an old building needs.
 ● Ask your building material dealer, architect or contractor to make some suggestions for remodeling. You will be happily surprised to find out how easily and economically it can be done now.

FARMERS ATTENTION

Farmers seeking new homes should investigate farming possibilities under irrigation in the Big Wichita River Valley in Texas, Texas. A place where crops mature every year due to the use of irrigation water from Lake Kemp. We have a deep rich soil, a long growing season and an adequate storage water supply for 100,000 acres. We irrigated 35,000 acres in 1929. Our greatest need is more good young farmers to make their homes with us. Any visitors will be shown around through the irrigated section. Mr. C. F. Redlich says: "The 'Perfect Retention Shields' hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

Purina Made the Difference

These hens were equal in laying ability. But the hen on the left was fed Purina Chicken Chowder and Hen Chow while the hen on the right was simply fed a common grain ration. Grains have lots of material for yolks only, but too little for whites. As the hen can't lay yolks only, grain-fed hens lay fewer eggs.

Feed Purina Poultry Chows
Chicken Chowder with Hen Chow forms a complete balanced ration that will enable the hen to lay the maximum number of eggs.

331 QTS. OF VEGETABLES AND FRUITS CANNED THIS YEAR BY H. D. CLUB WOMEN

5,331 quarts of vegetables and fruits have been canned by Haskell county home demonstration club women according to a recent report to the agents office. Canning according to the food needs of the families will cause little suffering from drouth and the canning of meats and fall garden products even garden demonstrators are planning on having all or part of the following food preservation budget filled, according to family:

72 quarts of tomatoes provides 1 time per week.

36 quarts beets provides 1 time per week.

48 quarts beans provides 2 times per week.

168 quarts greens provides 7 times per week.

24 quarts greens provides 1 time per week.

24 quarts okra and tomato gumbo provides 1 time per week.

24 quarts corn provides 1 time per week.

24 quarts peas provides 1 time per week.

A total of 420 quarts of vegetables and 292 quarts of fruits, with added staples will supply a family of five food for six months.

Mrs. Ed Welsh of Midway is one of these demonstrators who will can her supply of green in the fall and some meat: 46 qts. beans, 8 qts. potatoes, 32 qts. peas, 6 squash, 2 soup mixture, 12 qts. beets and 6 cucumbers, or a total of 128 cans of vegetables and 60 cans of fruits.

Mrs. W. L. Wingo has returned from an extended visit in eastern states, where she visited relatives, spending several days in St. Louis and other points in Missouri, Illinois and Mississippi. No. 4102 Citation By Publication

The State of Texas, To the Sheriff or any Constable of Haskell County—Greeting:

You Are Hereby Commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Haskell if there be a newspaper published therein but if not, then in the nearest County to said Haskell County, for four consecutive weeks previous to the return day hereof, Mrs. Middle Eoff whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Haskell at the Court House thereof, in Haskell, Texas on the 22nd. day of

September, 1930, then and there to answer a Petition filed in said Court, on the 14th day of August, A. D. 1930, in a suit numbered on the Docket of said Court No. 4102, wherein Realty Trust Company is the plaintiff and D. D. Eoff and wife Mrs. Middle Eoff, F. L. Daugherty, Mrs. J. R. Cooper and husband J. R. Cooper, and W. P. Crouch are the defendants. The nature of the plaintiffs demand being as follows, to-wit:

Plaintiff prays judgment for debt, interest, attorney's fees, foreclosure of lien, costs of suit, etc., alleging that on the 14th day of September, 1928, the City of Haskell, Texas, acting by and through its proper officers issued certificate of special assessment in the sum of \$257.43 to the Tibbetts Construction Company for the pro-rata part of the cost of paving and improving Houston Street, against the Defendant, D. D. Eoff, and his property, described as all that tract, piece, or parcel of land lying and being situated in the City of Haskell, County of Haskell, State of Texas, being Lot No. 3 of Block No. 5 of the J. W. Meadors Addition, fronting 50 feet on the West side of Houston Street, which assessment was payable in six equal installments. That Defendants, D. D. Eoff and his wife Middle Eoff executed their written mechanic's lien contract for said work and agreed to pay to said Tibbetts Construction Company the amount of said assessment in said installments. Prior to the maturity of the second installment said Tibbetts Construction Company transferred and assigned to the Plaintiff said assessment and contract and lien securing the same, and that said Plaintiff has often requested the Defendants to pay same, but Defendants have failed and refused to pay any part of said indebtedness, to Plaintiff's damage in the sum of \$300.00 and further damage in the sum of \$75.00 attorney's fees, which have been incurred.

Herein Fail Not, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed. Given under my hand and seal of said Court, at office in Haskell this, the 26th day of August, A. D. 1930.

(Seal) Lois Earnest, Clerk District Court, Haskell Co., Texas

Citation By Publication The State of Texas, To the Sheriff or any Constable of Haskell County—Greeting: You are hereby Commanded,

that you summon, by making publication of this notice in the Haskell Free Press, a newspaper published in Haskell, Haskell County, Texas for four consecutive weeks previous to the return day hereof, B. A. Ashworth whose residence is unknown. The nature of the cause to which this notice is given is as follows:

No. 1837 The State of Texas, County of Haskell.

We the undersigned, Special Commissioners appointed by the County Judge of Haskell County, Texas, to assess damages to B. A. Ashworth and against Haskell County by reason of the condemnation of a certain right-of-way over and through their property and premises, the same being described as follows:

B. A. Ashworth B. B. B. & C. R. R. Survey, Section No. 12. Beginning at the S. E. corner of the B. A. Ashworth property, said point of beginning being 35 ft. from and at right angles to chain station 205; Thence N. 0 deg. 04' W. 350 ft.; Thence S. 89 deg. 56' W. 15 ft.; Thence S. 0 deg. 04' E. 350 ft.; Thence N. 89 deg. 56' E. 15 ft. to point of beginning and containing 0.12 acres more or less.

Having been sworn to assess said damages fairly and impartially and in accordance with law, do hereby appoint as the place and time for hearing said party, the Court House in Haskell, Haskell County, Texas on the 30th day of August, 1930.

Emory Menefee, J. E. Leflar, T. A. Pinkerton, Special Commissioners.

Herein Fail Not, and have you before said Commissioners, on the above said date, this Writ with your indorsement thereon, showing how you have executed the same.

Given under my hand and seal of office in Haskell, Texas, this 26th day of August, 1930. (Seal) Jason W. Smith, Clerk County Court, Haskell Co., Texas.

NOTE

If you will watch this ad you will see some scriptural hints on certain subjects. For example we gave a Bible reading on the subject of Baptism a short time ago and let the Bible answer the following questions:

1. Is Baptism Important?
2. Where should One Be Baptized?
3. Who Should Be Baptized?
4. How Should One Be Baptized?
5. Why Should One Be Baptized?

From time to time we will let the scripture answer these questions.

Baptism Is Important, Because:

1. Jesus was baptized (Mark 1:9). Jesus was baptized because it was right (Matt. 3:15). He commands us to follow Him.

2. John, the son of Zacharias, spent so much of his time baptizing that he received the name Baptist. He was never known by this name until he was thirty years of age and had taken up his religious work. It was a name given him by inspiration to fit the character of his work (Luke 3:2; Matt. 3:1). Every child of God who believes what John believed should be called a Baptist.

3. One of the grandest scenes in all the Bible took place when Jesus was baptized (Matt. 3:15, 17). It must be very important.

4. Baptism closely follows repentance and faith in the Bible (Acts 2:38).

5. The last command spoken by Christ just before leaving the earth for heaven included the command to baptize (Matt. 28:19).

FIRST MONDAY OCTOBER 6th

Will Be Another Big Day In Haskell

\$10.00 IN GOLD

—will be given to the farmer who brings a bale of cotton from the farthest distance and has it ginned in Haskell at any of the following gins who are co-operating in the Trades Day plan: FARMERS CO-OPERATIVE GIN NO. 1; FARMERS CO-OPERATIVE GIN NO. 2; SANDERS & CRAWFORD; FARM BUREAU GIN; AND DUNCAN'S GIN.

A NUMBER OF ATTRACTIONS

Including many new stunts which are guaranteed to provide plenty of fun and amusement for all are being arranged for next Trades Day. Among those being considered are Night Shirt Races, Potato Races for the little folks, Slow Auto Races, etc., and several other new stunts that have never been staged before. Substantial awards will be made in all contests.

MUSIC BY THE HASKELL BAND

It Will Pay You To Trade In Haskell

Haskell's Monthly Trades Days offer every person in this trade territory an opportunity to share in a most profitable occasion in many ways. Haskell business firms, comprising all lines of business, offer the lowest prices, and in addition are spending several hundred dollars each month in promoting these Trades Days for their patrons. Compare prices and offerings of Haskell merchants with those of any town, and you'll see that it will pay you to "Trade in Haskell."

MR. FARMER—

Now that you are gathering your cotton, Haskell gins and cotton buyers are giving you one of the best markets for cotton and seed to be found in this section. Modern gins offer you quick service and a good turn-out—Haskell buyers will pay as much or more than any others—and our merchants offer you substantial bargains in all lines. Consider this.

before the Hon. District Court, at the next regular term thereof, to be holden in the County of Haskell at the Court House thereof, in Haskell, Texas on the 22nd. day of September, 1930, then and there to answer a Petition filed in said Court on the 14th day of August, A. D. 1930, in a suit numbered on the Docket of said Court No. 4102, wherein Realty Trust Company is the plaintiff and D. D. Eoff and wife Mrs. Middle Eoff, F. L. Daugherty, Mrs. J. R. Cooper and husband J. R. Cooper, and W. P. Crouch are the defendants. The nature of the plaintiffs demand being as follows, to-wit:

Plaintiff prays judgment for debt, interest attorney's fees, foreclosure of lien, costs of suit, etc., alleging that on the 14th day of September, 1928, the City of Haskell, Texas, acting by and through its proper officers issued certificate of special assessment in the sum of \$257.43 to the Tibbetts Construction Company for the pro-rata part of the cost of paving and improving Houston Street, against the Defendant, D. D. Eoff, and his property, described as all that tract piece, or parcel of land lying and being situated in the City of Haskell, County of Haskell, State of Texas, being Lot No. 3 in Block No. 5 of the J. W. Meadors Addition, fronting 50 feet on the West side of Houston Street, which assessment was payable in six equal installments. That Defendants, D. D. Eoff and wife Middle Eoff executed their written mechanic's lien contract for said work and agreed to pay to said Tibbetts Construction Company the amount of said assessment in said installments. Prior to the maturity of the second installment said Tibbetts Construction Company transferred and assigned to the Plaintiff said assessment and contract and lien securing the same, and that said Plaintiff has often requested the Defendants to pay same, but Defendants have failed and refused to pay any part of said indebtedness, to Plaintiff's damage in the sum of \$350.00, and further damage in the sum of \$75.00 attorney's fees, which have been incurred.
 Herein Fail Not, And have you before said Court, on the first day of said term thereof, this Writ, with your endorsement thereof, showing how you have executed the same.
 Given under my hand and seal of said Court, at office in Haskell this 20th day of August, A. D. 1930.

OF COURSE

WHEN you want to get down-town in a hurry, you don't sprint ten or twenty blocks in order to be there on time. You take an automobile.

WHEN you want to ask a question of a friend who lives a mile or so away you don't walk to his house to find out what you want to know. You call him on the telephone, of course.

AND SO IT GOES—in all the affairs of your daily life. You take the easy, intelligent means of accomplishment every time.

WHEN YOU WANT TO BUY a refrigerator or a car or a piano, you don't need to look all over town to discover the kind you want. You read the advertisements. They bring you all the facts necessary to decide just which refrigerator or car or piano will give you the most satisfaction, how to pay, where to buy it.

YOU BUY through the advertisements because they save time and effort. Because they enable you to command certain values. Because they assure you of getting reliable and economical products every time.

Another Great Deed

Millions of people listening to their radios had an unexpected experience a few nights ago, when without warning they were turned on to Curtiss Field, New York, where diennone Coste and Maurice Bellonte had just dropped out of the sky on a non-stop flight from Paris. Probably radio listeners never before heard reproduced through their speakers, such a scene of jubilation. A thrill passed over our nation at the greatness of the deed, and the closeness with which the event seemed to bind the nations together.

The crossing of the Atlantic ocean from east to west is called more difficult than the westward flight. The superb men who accomplished this first Paris-New York direct flight, had facing them the grim memory of predecessors who had dropped into the dark ocean waves never to be heard from again.

Ordinary folks, shrinking from the small fears of every day life, can hardly understand how men can be brave enough to take such a long chance. It is well that humanity has these superior ones who rise above the powers of ordinary folks. They pull the race up to new heights of achievement.

The Tide Has Turned

Many commercial reports are coming in to the effect that the business tide has turned. For a year the American people have been consuming more than they produced. Such a condition can not last.

While prophets of pessimism have been declaring that our country would encounter a prolonged depression, common sense observers have recollected that the depression of 1921 was much more severe than that of the past year, yet that the very next year a great improvement was manifested. A depression that lasts more than a year is an almost unheard of thing. Our people have paid the penalty for whatever errors they made last year. Now they can expect results from the patient effort and frugality of recent months.

Business Reminders

If you fail to see a friend for a long time, your interest in that friend tends to be obliterated. Other things come in to take its place. People have to visit each other, have somewhat frequent meetings, or exchange letters, or they drift apart.

The same principle applies in the business world. If a concern does not remind the public of its existence and fails to tell them what it is doing, its existence tends to be forgotten. It drops out of sight in the public mind. It may be a perfectly good concern, but it has given the public no reminders of its existence and the public thought turns in some other direction. Advertising is the means by which business keeps the interest of the public.

Retail Selling Keeps Up

A survey of retail trade made by the U. S. Department of Commerce makes a showing that will surprise pessimists and pessimistic people. It was discovered that the total sales of 323 retail establishments located in 24 cities, decreased only about six months of 1930, as compared with the same period of 1929.

While this is a substantial decline, it has to be remembered that prices have fallen quite a bit during this period. It is possible that the volume of goods sold in these stores has been equal to that of last year, and anything a cent only be a very small fraction behind.

It has been recently figured that industrial activity has been from 10 to 15 per cent below normal during recent months. Now if the people are buying practically the same quantity of goods that they bought in 1929, but are producing 10 to 15 per cent less, one can form an opinion how long it will take before there is a shortage in most lines of production. The chances are strong that it will be many weeks before thousands of retail merchants discover that their stocks are short and they will be telephoning to jobbers and manufacturers to hurry up some new shipments.

One thing that has helped to keep trade well up, is the liberal policy of advertising adopted through this quiet period by many concerns. By telling the people what they had to

sell, and showing the public that it would pay to buy goods now, trade has been kept moving very actively to these well advertised stores. Some of them may have sold more than they did in the boom year of 1929.

There is every reason to expect an active revival of trade within a short time. The business history of our country shows that trade depressions are always short, and they end before people expect them to.

The Dawn of the Race

There is a new interest in archeology, the study of antiquities. Ambassador Dawes, one of our most wide awake men, has been taking some time to study the history of prehistoric man in Spain, and enduring some very hot weather in order to pursue these inquiries. American institutions are spending a lot of money on excavations that will reveal the past, and the unearthing of these remnants of vanished empires is a fascinating study.

These inquiries show the human race was relatively civilized at a far earlier date than has been believed. The arts and sciences and methods of living were at a quite advanced stage in Europe and Africa 5000 years ago.

Man's insatiable curiosity will never let these ancient remains go until he knows the whole history of the race from which he has sprung. He wants the whole story of the rise and fall of empires, the advance and decline of kings, the faiths and superstitions and customs of ancient peoples.

It seems a most singular thing, that great nations and races lived for centuries, that they were skillful in the arts of daily living, many of them people of great mental ability, and that they left no trace behind except the relics of their homes, and the rude stone records of those times.

What was the matter with these ancient civilizations, many of them rich and powerful? It would be found, probably in every case, could one know their story, what they failed to hand on to their people. They could not command the support of their citizens. So they fell. It is a suggestion that no matter how rich and powerful a nation may be today, it can not endure unless it provides justice for its people.

Time To Get Busy

The coming autumn weather should mean the revival of community activities. Our schools and

The School Bell

(Copyright W. N. U.)

churches resume their labors. People have about completed their vacations, and are ready to settle down in their usual activities of the fall and winter.

Now is the time to push ahead for all movements for community betterment. It is the time for our organizations here in Haskell to plan more active campaigns for their various purposes. It is an excellent time to plan efforts for needed community improvements. It is a fine time for the business men to consider efforts by which they can enlarge their trade, and make their community more of a business center.

Heretofore Fox managers have been permitted to exercise their discretion in handling advertising appropriations—using newspapers, direct mail, billboards, radio and other mediums as they saw fit. Now an order has gone out from headquarters that only newspapers are to be employed in the dissemination of Fox advertising.

It is significant that the great Roxy theatre in New York, the outstanding success in the history of entertainment, has never used any medium of advertising except newspapers. Roxy's success is said to

have largely influenced the Fox interests in making the decision to adopt a similar policy.

Mohammedan women are demanding the right to see their prospective husbands. The attitude of the men on the subject is not known.

Dad has to hand out a lot of cash so that son can get his credits in college.

Historians tell us that Indians never swore, but then the Indians didn't play golf and have radios.

NEWSPAPER ADS ONLY

One of the most significant and practical tributes ever paid to newspaper advertising is seen in the recent decision of Fox theaters in about 150 American cities to use newspaper advertising exclusively in the future.

The Electric Man Explains the New Home Comfort Rate

"As I told you last week, the new Home Comfort rate follows the wholesale discount system.

"Simply explained, this is a method of rate structure which divides the investment expense proportionately among customers according to the amount of demand upon the production and distribution capacity of the system, and upon the duration of such demand.

"In an average five room home, the first 4 kilowatt-hours per room, or the first 20 kilowatt-hours, would be at the initial rate of 12c per kilowatt-hour; the following 5 kilowatt-hours per room, or the next 25 kilowatt-hours, would be at the second rate of 7c per kilowatt-hour; all subsequent kilowatt-hours, or all in excess of 45 kilowatt-hours, would take the low additional service rate of 4c per kilowatt-hour, or 3c per kilowatt-hour in homes where service is also used for heating or cooking, one fourth the initial rate.

"Just think of the additional service possible with this new schedule. The normal necessities of your home should use more service than that covered by the first two rates, and then you can operate any of the multitude of time and labor-saving appliances on the Low Rate, or use a large amount of additional lighting service without a material increase in your total bill.

"Next week I plan to tell you more about the advantages of the new Home Comfort rate, so watch for me on the pages of this newspaper."

HIGHLIGHTS OF CONSTRUCTION WORK REPORTED BY WEST TEXAS UTILITIES

Approval of work orders and commencement of building activities on two new local offices, the extension of rural lines, and the re-building and enlarging of present physical property were highlights of the past week's construction work as reported by the West Texas Utilities Company.

At Matador, building of a one story brick, concrete, steel and stucco office and storeroom was under way, the completion date of the structure announced as October 1st. In the new town of Stratford, building plans were announced for a 24x60 office and warehouse building. Construction is going forward at the present time.

A new steel bay will be added to the substation at Shamrock, and an 11 kv automatic reclosing oil switch, 11 kv oil circuit breaker control and 11 kv oil metering panel, and a 450 kva 6900 volt transformer bank installed. The additions will improve service in Shamrock and surrounding territory.

At Brady, the ice plant building will be improved through the construction of an awning to cover the ice dock, installation of awning lights, painting of sashes and doors and the stuccoing of the building front.

Important new lines in course of construction are a ten mile, 11,500 volt extension of the Shamrock-Lela Line, west from Lela to the Wheeler County line—serving rural customers; the completion of a three phase circuit at Wingate to serve the J. W. Towler gin, and the construction of a 2300 volt three phase line at Brady to serve an oil mill demand.

Distribution systems will be improved and extended in Clarendon, Hamlin, Menard, Hartley and Dumas. At Quitaque, the business will be rebuilt, with all lines placed in alleys. An extension will be made to serve two new cotton gins. The West Texas Utilities Company is anticipating improved business conditions, and is going ahead rapidly with construction work throughout the properties.

Join the Parade Which Opens The Fair October 16

Under the able direction and supervision of Mr. Bailey Post, the Haskell County Fair again this year desires to open with a grand, spectacular parade through the downtown streets and all schools, merchants and individuals are invited

to enter decorated floats or cars for the prizes offered. There are two classes of floats, namely Commercial and School, another class for decorated cars and one for clowns and comics. In addition, any comic character or clown may enter the parade but must file his entry with the chairman of parade. Miscellaneous entries are asked to help out in the section of Haskell History and Industrial Progress which will cover everything from the Tonkawa Indian, down through the First Settler period, the cow man and girl and sheep man's period to the

horse and buggy, first automobile, latest automobile, latest riding plows, cultivators and combines to the aeroplanes. Nothing starts off a successful fair as well as a good parade and as Haskell is noted for always having the best parade of any fair in Texas, lets not let this year be an exception.

HIGHLIGHTS OF CONSTRUCTION WORK REPORTED BY WEST TEXAS UTILITIES

Approval of work orders and commencement of building activities on two new local offices, the extension of rural lines, and the re-building and enlarging of present physical property were highlights of the past two weeks construction work as reported by the West Texas Utilities Company.

At Matador, building of a one story brick, concrete, steel and stucco office and storeroom was under way, the completion date of the structure announced as October 1st.

In the new town of Stratford, building plans were announced for a 24x60 office and warehouse building. Construction is going forward at the present time.

A new steel bay will be added to the substation at Shamrock, and an 11 kv automatic reclosing oil switch, 11 kv oil circuit breaker control and metering panel, and a 450 kva 6900 to 2300 volt transformer bank installed. The additions will improve service in Shamrock and surrounding territory.

At Brady, the ice plant building will be improved through the construction of an awning to cover the ice dock, installation of awning lights, painting of sashes and doors and the stuccoing of the building front.

Important new lines in course of construction are a ten mile, 11,500 volt extension of the Shamrock-Lela Line, west from Lela to the Wheeler County line—serving rural customers; the completion of a three phase circuit at Wingate to serve the J. W. Towler gin, and the construction of a 2200 volt three phase line at Brady to serve an oil mill demand.

Distribution systems will be improved and extended in Clarendon, Hamlin, Menard, Hartley and Dumas. At Quitaque, the business will be rebuilt, with all lines placed in alleys. An extension will be made to serve two new cotton gins. The West Texas Utilities Company is anticipating improved business conditions, and is going ahead rapidly with construction work throughout the properties.

Funeral Services of Raymond Harvey Held Here Monday

Raymond Harvey, age 32 years, died Sunday night at the home of his parents, Mr. and Mrs. J. R. Harvey who lived about ten miles east of town.

Deceased had been in bad health for the past five years, and although the end was not unexpected, his death caused sadness among a large circle of friends and loved ones.

He is survived by two children, Walter, age 4, and Francis Lee, age 2 years, who are living in Corsicana, his parents, Mr. and Mrs. J. R. Harvey, four sisters, Misses Mae, Ella, Onie and Katherine of Haskell and two brothers, Baxter Harvey of Rochester and Wyatt Harvey of Victoria.

Funeral services were held Monday afternoon, conducted by Rev. H. G. Hammer, with interment in Willow Cemetery.

Mrs. Eddie Hengbarger of San Diego, California is visiting her parents, Mr. and Mrs. W. M. Luper.

UNUSUAL SERVICE SUNDAY EVENING AT M. E. CHURCH

At the evening service next Sunday evening at the First Methodist Church, Mrs. E. Gaston Foote, wife of the pastor, will read and interpret a number of "Poems That Live." There are a great many poems in the field of sacred and secular literature that have contributed a great deal to the enrichment of human life, and Sunday evening's service will be an unusual and interesting one for all who attend.

Services begin promptly at 8 o'clock. Music by the Church Orchestra. An invitation is extended to all who will come.

Mrs. W. A. Stephens and children of Cleburne were recent guests in the home of her brother and family, Mr. and Mrs. Ed Thornton.

THE JUDGES HAVE DECIDED

Chiropractic is now established and growing in every civilized country.

American judges have decided in open court that it is an honorable member of the healing professions. Thirty-nine states have laws giving it legal recognition and protection.

20,000 Chiropractors in the United States alone have treated not fewer than 10,000,000 patients.

These patients include some of our greatest national characters, professional and business people, musicians, theatrical folk, athletes, world champion prizefighters, world champion wrestlers and members of the big league ball teams. Many of these today depend on Chiropractic to help them, do their best work.

More than 100 life and accident insurance companies, fraternal organizations and state industrial commissions make use of Chiropractic in caring for their sick and injured.

Chiropractic hospitals are proving very successful in handling difficult cases, including mental cases.

About a year ago 300 hospitalized World War veterans in Colorado petitioned the President to furnish them Chiropractic services because they were spending their own funds for such help.

Everybody should know this profession for what it is and what it does.
