By Katie Burleson

The local Chamber of Commerce has not been able to fulfill an order received by that office in September.

The request was to locate fresh pressed apple cider. The word has gotten out somehow that places around Baird produce apples, and surely that fresh, healthy and good apple cider could be found someplace.

Mr. Claude Holley, manager of the local Chamber of Commerce, has as yet to locate the press. Anyone knowing the whereabouts of said press or where cider can be purchased, you might contact the local manager of the Chamber.

Dick Vestal and the Ag. students were a great help this week in getting the Lions Club started on their project of constructing the new ceiling in the school cafeteria. The boys and their teacher lowered the lighting fixtures in order that the work by the Lions could begin.

The air-conditioners that were installed this summer in the Baird Grade and Junior High school rooms have been greatly appreciated by teachers and students alike. The air-conditioners can be used at least one month or more after the school year begins in September, and before it comes to an end in May.

### Building of Towns Along The Texas and Pacific

A railroad campsite built in 1880 and containing commissary stores of tent material, near the railroad cut east of Baird, was called Gould City.

Gould City had a postoffice, and the postmaster was O. M. L. Parker for the short time the camp was in operation. The camp received its name in honor of Jay Gould, a principal share-holder in the railroad.

A newly married couple, John Hart and Melissa Morrison, moved to Gould City and butchered and sold meat to the railroad hands. Mr. Hart's cook was Dutch Tinker.

The campsite, only in operation long enough to complete the construction of the railroad, moved on further west, near the now located T&P Lake. This campsite received the name of Vickery. Both towns were short-lived - the records show that the post office was discontinued on June 15, 1881.

The Vickery campsite was moved also to the west and a new camp was built, a railroad depot was constructed, and other facilities erected for the benefit of the railroad workers. This camp received the name of Baird, and became a town to stand, not to die alongside so many others who are now only mentioned in the history of the county.

Willia Riley Killian, 42, of Richardson, was treated and released from Callahan County Hospital Monday, October 9, after dozing at the wheel of the above 1965 Chevrolet Sedan, and collided into the rear of a 1967 Int. truck driven by Alvin H. Abernathy of Blackwell, Okla. The accident occurred 2 miles west of Baird on IH 20, going west, up the steep grade. The Killian auto was a total loss. Abernathy was not injured.

Luciano Gonzales, 39 was injured Monday, October 9, when he lost control of a 1960 Int. pickup, and overturned 10 miles east of Lawn on FM 604.

## Baird Junior High Adds Two Wins Tuesday Oct. 10

The Baird Junior High teams traveled to Wylie Tuesday night, October 10, and returned home with two victories.

The Baird "A" team triumphed over the Wylie "A" team by a score of 34-6. Cecil Faircloth put the Bears on the scoreboard the first time they had the ball, on a 70-yard run for Baird's

first touchdown. Faircloth made 2 more touchdowns for Baird during the game. David Strickland made 1 touchdown for Baird, one on a kickoff return behind strong Baird blocking. Gary Gobie also added 6 points for the Baird Team.

Adding extra points for Baird were Johnny Garcia, as he received a pass from Gary Gobie for 2 points and another 2 points conversion was added to the Baird score by Bill Hatchett. In the "B" team game Bill Hatchett scored 2 touchdowns for Baird and Danny Vestal added another 2 points. They allowed Wylie only 1 touchdown, so the final score for the "B" team was Baird 14, Wylie 6.

All the boys played real fine ballgames through team effort and exceptionally good blocking.

The Baird teams will meet Jim Ned next Tuesday night in the Bear's Den. Game time is 6:30 p.m.

Plans for the Halloween Carnival will be discussed at the next meeting.

The Shady Oaks Recreation Center Association, Inc., will have a short wait of three weeks for the FHA to issue the \$150,000.00 check, in order that construction may start on this project.

The Shady Oaks Directors met with contractors and engineers at 10 a.m. Wednesday. Bids and plans for the swimming pool, club house, 9-hole golf course, and other recreation facilities were found to be within the loan limits.

After the check has been received from FHA, contractors will be notified immediately that their bids have been accepted. Contractors will have 10 days in which to start construction on all projects. Contractors will have a period of 120 days to complete all projects from the starting date of construction.

The bidders for the different projects are: V. B. Likins Associates of Abilene, 3,600 square foot club house, manager's residence, storage, play ground facilities, parks and roadways, septic tank and water distribution system; Moser Construction Co. of Amarillo, swimming pool; Underwood Manufacturing Co. of Bowie, 9-hole golf course.

The Shady Oaks Recreation Center should be completed by March of 1968. During the construction days, a manager will be selected to maintain proper care of the entire property. The person selected will reside in the manager's house, one of the projects to be constructed on the property.

The nearly 200 members of the Recreation Center have anxiously awaited this recreational facility to become a reality or something more than just an architectural drawing of paper and ink.

## UNION USUALS AND UNUSUALS

Hi neighbor! We had some rain Friday night, from one to one and one-half inches. Good on the grain that has just been sown. Lots of grain already up. We had some real hot days last week but real cool Saturday night and Sunday.

Bro. Larry Jordan and wife of Fort Worth had Sunday dinner with Burette and Johnny May Ramsey.

Did I get a big surprise last Monday night. I had been cleaning house all day and my brother Burette Ramsey called me on the phone about 7:30 or 8 o'clock saying they wanted me to come and play 88. I told him I was too tired to go anywhere but he kept insisting and told me who all were there. So finally said I would come and when I walked in they all stood up and sang Happy Birthday. They had birthday cake and all 49 candles on it, gifts, ice cream and everything. I was so surprised I could do nothing but just stand. Those present were Mr. and Mrs. Clayton of Lake Leon, Mr. and Mrs. Bob Roberts and Fay and Emmett Wood of Cisco, John and Roma McIntyre and Burette and Johnny May. We had a good time playing 88. I tell you, they really did surprise me.

Betty Mobley and Mabel Carrio of Putnam ate lunch with me Tuesday.

Johnny May Ramsey and I were in Abilene Wednesday. We visited a while with Mrs. Jim McIntyre, who was in Cox Memorial Hospital. Glad to say Mrs. Mc was able to leave the hospital Saturday.

Johnny May Ramsey and I attended the funeral in Moran Thursday for Mrs. Bess McCollum, who passed away in a Rest Home in Abilene Tuesday night.

We are so sorry to say Burl Clinton passed away Wednesday afternoon. He had been in the hospital at Baird for about a week.

I spent Friday night in Cisco with Fay and Emmett Wood. Saturday we visited Lula Isenhower, who has been in Graham Hospital three weeks. She is improving slowly.

Roma McIntyre attended a school meeting in Haskell Saturday.

Guess I better get busy. This is Monday morning and always a lot to do, so be good and I hope to see you next week.

# OUTDOORS IN TEXAS

BY VERN SANFORD

Hunters talk of deer season and shooting fatalities like the two are synonymous. Most believe that the novice is largely to blame for the hunting accidents.

But, many a careless veteran hunter has been involved in a needless mishap simply because he failed to realize that hunting accidents are not the select happenings of a few beginners. In the typical hunting accident it is not the tyro who is to blame. It is the veteran hunter! Usually the beginner is wary of his weapon and treats it with respect. On the other hand the veteran has hunted too long to be concerned. Familiarity often breeds carelessness.

It is also ironic to know that most shooting accidents do not occur during the deer season. In fact a great majority happen while hunting birds or other small game.

Nationwide statistics reveal that the typical person who causes a hunting accident is a male over 20 years of age with more than three years of hunting experience. At the time of the mishap he was not under the influence either of drugs or alcohol. Most such incidents happen between the hours of 1:30 p. m. and 4:30 p. m. . . . and in clear weather. Typical weapon is a shotgun. Victim was standing between 11 and 50 yards from the shooter and discharge of the gun was accidental. Only one out of five victims survive.

These statistics debunk a lot of the popular theories about shooting accidents.

Very few accidents happened because the victim was mistaken for game. Most of them were the direct result of careless gun handling.

Often when a veteran hunter brings a weapon into camp or enters a vehicle the gun is loaded. It shouldn't be. Or he throws it around haphazardly as he slips under a fence — never bothering to check the safety device. Or he props it idly against a tree or stump or a fence post . . . where it can easily fall . . . and the jar set off the primed cartridge.

Carelessness is easy to come by. A few years back some Texas nimrods were winding up a dove hunt. A veteran hunter pumped the cartridges from his shotgun. Then he casually pointed the muzzle skyward and pulled the trigger. "BOOM" went the gun — scaring the daylight out of his buddies.

Sheepishly the guilty one remarked, "Guess I didn't get 'em all out."

He could have been pointing the weapon toward one of his companions . . . instead of the sky. In that case, someone would have become another statistic and there would be one more needless shooting fatality in the books.

Far too few people realize that no gun ever caused an accident. A gun is merely a tool. Blame rests with the human who guides the destiny of the bullet.

Every hunter owes it to him-

self and to his friends to acquire safety discipline. He must be on the alert and never guilty of gun mismanagement. Good gun manners are acquired through discipline and deter-

mination — plus consideration of the safety of others.

Most hunting accidents can not be blamed on the young and inexperienced. Statistics prove that the accident levels among shooters usually reach their high peaks after a person has been hunting and using firearms for years. Sometimes, after three or four years of hunting, a shooter reaches a point of casual acceptance of gun handling. When that happens . . . watch out. People are all too quick to shrug off careless gun handling. In a party of hunters, anyone guilty of such careless violation should be reprimanded. Unfortunately it isn't the careless one who is likely to suffer. Usually it is the innocent bystander who get hurt. All of us know that alcohol and gun-

powder do not mix. Yet we too often condone the person who nips on a bottle while out with a gun.

We also know that a muzzle, whether loaded or unloaded, should never cross a party. But we let such carelessness pass unnoticed. We know too that a loaded gun should never be brought into camp or into a car.

Yes, we overlook the obvious. But — when this happens, the

unforeseen should not come as a surprise.

There is absolutely no excuse for a hunting accident. It only happens when someone becomes careless. You don't have to be out wandering through the woods to be in danger. Accidents can happen in camp, or in your home.

Gun handling discipline does not start and end in the woods. It should be everpresent.

## Greater Benefits Allowed For Veteran's Widow and Children

Widows and children of deceased veterans of all military conflicts will receive greater benefits under the Veterans' Pension and Readjustment Act of 1967 (Public Law 90-77) which became effective October 1.

Signed into law by the President on August 31, 1967, PL 90-77 made many more widows eligible for benefits by reducing the marriage time requirement from five years to one year. Further, a veteran's widow may qualify for benefits if a child was born to the couple either before or after the marriage.

Eligibility for death pensions on a basis of need was extended to widows of veterans who served during the Vietnam era -- since August 5, 1964. Death pensions for widows of veterans who survived their service period, but die later for reasons not related to their military service.

Widows on the current pension rolls will receive cost-of-living increases of \$6, \$3 and \$2 a month, depending on their current income, with the largest increases (about 8 1/2 percent) going to those with the greatest need. A \$1 monthly increase will be paid to each child in the custody of a veteran's widow.

Where there is no widow, children on the current pension rolls will receive increases at the rate of \$2 monthly for the first child and \$1 a month for each additional child.

A special monthly pension of \$50 (in addition to benefits they are receiving) was created for widow pensioners of all wars if they are patients in a nursing home, or when the VA determines they are in need of regular aid and attendance.

Widows of Spanish-American war veterans, currently receiving pensions of \$65 a month, will receive \$70 a month.

The new law provides additional income exclusions for purposes of determining a widow's need for a pension. Previously a widow could exclude from her current income the amount she paid for the last illness and burial of her veteran husband. She may now exclude the additional amounts she paid for the veteran's last illness before she was widowed. She may also exclude amounts she paid as wife or widow for the last illness of the veteran's child.

Widows of Vietnam era veterans (who served on or before August 5, 1964) are now entitled to receive a burial and funeral allowance of up to \$250. Burial allowances will be paid by the VA on receipt of proof of entitlement and the proper application, which must be made within two years from the enactment date of the new law, August 31, 1967, or within two years of the veteran's death.

Pension increases for the month of October will be included in checks received in

November. These increases as well as others under the new law will be paid automatically to persons already receiving such benefits. No applications are necessary.

Information about eligibility for benefits in specific cases and assistance in applying for benefits may be obtained at any VA office.

## Delphian Club Holds Meeting October 10

Members of the Delphian Club learned at their meeting Tuesday, October 10, of the importance of individual participation by women in politics. Although women have had an active and substantial role in politics for many years, it was pointed out that their influence is being felt more and more and much is being said about the readiness of women to hold the highest positions in government.

The program entitled, "Make Time For Politics," was the Delphian program on "Americanism" -- Heritage of the greatest nation on Earth. The program stated that it is predicted that women voters will outnumber men voters by 4 million in the next several years . . . and if women of this country would stand together behind one political philosophy, they could pretty well call the tune.

Speeches were given by Mrs. Jimmy Godfrey, Mrs. Buster Hatchett and Mrs. C. B. Snyder, who gave a step-by-step description of "Americanism," "The Woman's Role in Politics," and "What Women Can Do."

Following the speeches, a panel discussion was conducted by Mrs. James Snyder on "Are You A P. I. V. (Politically Informed Voter)?"

Members present, who answered roll call with a Patriotic quotation were: Mmes. Billie Henry, Sterling Odom, C. B. Snyder, James Snyder, Jimmy Godfrey, Buster Hatchett, Frank Windham, Brice Jones, M. L. Stubblefield, M. C. McGowan, Blain Odom, Bob Norrell, A. E. Dyer Sr., W. P. Brightwell, and hostess Mrs. James Asbury.

The next scheduled meeting of the Delphian Club will be held Tuesday, October 31, at 3 p.m. at the home of Mrs. Homer Driskell with Mrs. B. L. Boydston as co-hostess.

The Delphian theme for 1967-68 is "The Many Facets of Our Heritage." The meeting in Mrs. Driskell's home will be the program on International Affairs -- Our World Heritage.

**You can cook a 3-minute egg faster with gas than with electricity.**

Here's why. With a modern gas range there's no slow warm-up period. You turn the burner on and get the desired amount of heat — instantly! Burner with a Brain holds that precise temperature until cooking is done. No waiting, no watching, no wondering with flame fast gas. You can see the flame go to work the instant you turn the burner on.

(Of course, faster cooking means less gas used and more economy for you!) Only modern gas cooking gives you this much control, flexibility and speed. See the wide variety of modern gas ranges at your local gas appliance dealer or LONE STAR GAS.

## Texas Becoming Winter Resort

AUSTIN — Texas' increasing popularity as a winter vacationland is illustrated by nearly 300 fairs, festivals and celebrations scheduled for the fall and winter months, as listed in the semi-annual Texas Calendar of Events just released by the Highway Department.

Significant among the total the 55 festivals scheduled in the Rio Grande Valley and Gulf Coast regions, where new visible records are topped each year by more tourists from northern climes.

The fall and winter events

calendar covers six months from October through March. But, as a special reminder, that final listing is April 6: Opening day of HennisFair '68.

Though some October events may be affected by the results of Hurricane Beulah's rampage, it is expected that visitor facilities and services will be interrupted only temporarily.

The Calendar of Events is distributed free to travelers at eight Highway Department Tourist Bureaus, and is available by mail from the Texas Highway Department, Travel & Information Division, Box 5064, Austin 78703.

### TAX MAN SAM SEZ:

Most of us were born free, haven't been anywhere, and are not going anywhere, and we don't have a tax problem but once a year. However, aliens working or earning money from any source in the United States must secure a tax clearance from the Internal Revenue Service before leaving the country. Any IRS office can issue a sailing permit. The departing alien will need his passport and re-entry permit in addition to a statement of income and expenses.

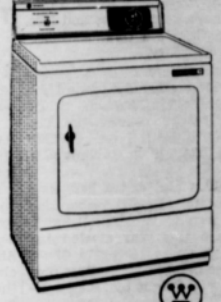

More than half of all traffic in Texas cities is on thoroughfares maintained by the Texas Highway Department, now celebrating its 50th year.
